

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, JANUARY 20, 1925

NO. 34

AGGIES SECOND IN DENVER SHOW

MARY HALSE, AGGIE JUDGER, SECOND HIGH INDIVIDUAL

Colorado Wins First with 26 Point Margin—Aggies Won in 1919, 1920, and 1921

Mary Halse, only girl member of the junior stock judging team of K. S. A. C., won second individual honors at the National Western Livestock Show held at Denver Saturday, January 17. The Colorado Stock Judging team won first place with 3572 points, and the Kansas Aggie team took second place with 3546 points. Wyoming was third with a score of 3529, and Nebraska fourth with a score of 3485.

The Aggie stock judging team is composed of five regular junior Ag members and one alternate. The members are W. H. Atzenweiler, Huron; A. C. Hoffman, Abilene; Lionel Holm, Denmark; W. W. Taylor, Smith Center; T. M. Kleinberg, South Africa; and Miss Mary Halse, Manhattan.

Individuals Rank High

Lionel Holm placed seventh in individual scores and A. C. Hoffman placed eighth.

In 1919, 1920, and 1921 first place was won by the Aggie judging teams at this livestock show. This gave K. S. A. C. permanent possession of the cup. In 1922 and 1924 first place at the American Royal, held in Kansas City, was won by the junior stock judging teams. They won first place at the International Livestock show held in Chicago in 1923, making five years of judging during which the team did not fail to win a first place.

Bell a Successful Coach

Prof. F. W. Bell, who for five years has been coach of the Aggie stock judging teams, was in charge of the team during the trip to Denver. Since coming to K. S. A. C. in 1918 Professor Bell has had charge of all advanced stock judging courses, and has coached a blue ribbon team every year.

The team will probably arrive home today. Professor Bell will remain in Denver for several days to judge Duroc hogs.

GARTNER CHOSEN EDITOR

Paddleford and Chappell Fill Other Collegian Staff Positions

John Gartner, senior in industrial journalism, has been reelected editor-in-chief of the Collegian, official newspaper of the college. Gartner has been editor-in-chief for the past semester. Kenneth Chappell, who has been managing editor for the past nine weeks, was elected business manager for the next nine weeks' term. Miss Alice Paddleford has been elected managing editor to succeed Chappell. The other staff positions will be filled by appointment.

Gartner, Chappell and Miss Paddleford have all worked on the Collegian before. Miss Paddleford was editor of the first issue of the Brown Bull this year. Gartner and Chappell are members of the Sigma Delta Chi, men's journalism fraternity, and Miss Paddleford is a member of Theta Sigma Phi, women's journalism fraternity.

Many Grads at State Meeting

Kansas State Agricultural college was well represented by its alumni at the meeting of the state board of agriculture at Topeka on January 14-16. H. W. Avery, '91, of Wakefield, and Perry Lambert, '13, of Hiawatha, are members of the board, and many of the delegates who attended the meeting as representatives of their respective communities, were alumni of this institution.

The college was also well represented on the program, three of the speakers were members of the faculty. These were, Dean J. T. Willard, Prof. W. E. Grimes, department of agricultural economics, and Prof. F. W. Bell, department of animal husbandry. Among the delegates present at the meeting were: M. L. Otto, '21, Riley; O. B. Burtis, '16, Manhattan; R. H. Lush, '21, Manhattan; H. L. Cudney, '09, Manhattan; Harlan Deaver, '10, Sabathia; C. C. Cunningham, '03, El Dorado and H. F. Tagge, '14, Holton.

Ionians Elect Officers

The Ionian Literary society elected officers for the second semester at their meeting January 17. The officers elected were Ruth Kell, president; Jennie Horner, vice-president; Mary Lowe, recording secretary; Betty Elkins, corresponding secretary; Mary Brandy, treasurer; Bessie Smith, marshal; Hilda Black, assistant marshal; Bernice Noble, chairman of the board; Ruth Long, chairman of Look Out committee;

Vera Frances Howard, chairman of program committee; Josephine Brooks, critic; Olympia Kubik, artist. These officers will be installed at the meeting of the society January 31.

Study Small Grains

A miniature greenhouse has been installed in the agronomy greenhouse under the direction of Prof. S. C. Salmon and John Parker, for a special study in winter hardiness of small grains. The plants will be hardened off at cool temperature in the little house, and then tested for cold resistance at a much lower temperature in the refrigerating room of the dairy department.

This test will be of especial interest to the farmers and others who may be interested in the growing of wheat and oats or other crops which are subject to the cold temperatures of the fall or spring.

PLANS FOR BEAUTIFICATION OF CAMPUS MOVE FORWARD

Planting of Garden at President's Home Completed—To Begin Work on Lakes in Spring

Preparations are being made to push the campus beautifying project, which includes the building of a system of lakes in the north east corner of the campus, construction of a formal garden around the President's home, and the beautifying of many unattractive spots, as soon as spring opens up.

The excavation for the pool, the grading and fall planting for the garden at the President's home have been completed, and the contract for the construction of the architectural features is now open for bids.

The ground for the largest lake, which will be the feature of a small park to be built north of the green houses, has been surveyed, and excavation for it will begin early in the spring.

This lake will occupy approximately one and one-half acres. It is estimated that 12,000 cubic yards of dirt will have to be removed, all of which will be used in constructing a dam on the north side of the lake. At its deepest points the lake will be five feet deep. After the large lake is completed the system of small lakes, which will follow the course of the stream that runs across the north east corner of the campus, will be constructed as rapidly as available funds permit.

In considering plans for the future development of the campus it is suggested that Anderson hall and Waters hall whose main entrances are opposite each other form the ends of an open court towards which the other buildings will face. This plan makes provision for enlargement by duplicating Denison hall with a building where the Chemistry annex now stands, the building of an addition on the south of the veterinary hall, and the construction of a new library building. Most of this cannot be accomplished for a number of years.

ANNOUNCE NEW COURSE

Curriculum in Architectural Engineering Leads to B. S. Degree

A new four year course leading to the degree of B. S. in Architectural Engineering has been announced by Paul Weigel, professor of architecture. The course will be in the department of architecture with the department of civil engineering co-operating. The curriculum is, primarily, for the student who wishes to specialize in the constructional side of the building profession.

The courses in architectural engineering provide for a liberal education for those who take it. Because of the nature of the work of the architectural engineer, it is necessary that he be also well grounded in the underlying principles of art and architectural design. In addition to necessary architectural and engineering requirements the curriculum also provides for general cultural courses.

Information regarding the course in architectural engineering may be obtained from the office of the dean of engineering.

Library Plans Are Approved

The plans just released by the architectural department for the proposed library building, have been approved by college officials and will be placed before the state legislature January 15, by President Jardine, in presenting the request for an appropriation of \$350,000 to be used in constructing the building. The request has been approved by the state board of administration.

As the plans have been drawn, only the central part of the building can be built with the appropriation asked. The wings will be added as the need for more room demands.

RADIO SERVICES FOR ALL FAITHS

STATION KSAC TO BROADCAST MESSAGES

Professor Burr Sponsors Plan for Benefit of Rural Churches Without Pastors or Leadership

A church service by radio, of a nature which can be entered into by people of all faiths and of no faiths! This is the attempt that will be made by Walter Burr, professor of sociology at the college. The program will begin with the first Sunday in February, 1925.

"There are hundreds of rural churches in Kansas that are without pastors. These are of all denominations. Some of them have been without leadership for 10 years. The number has sometimes been estimated at 1,000." This is the situation according to Professor Burr, that the radio service is designed especially to meet.

Radio Furnishes Interest

"It is also stated by rural ministers that people need some new impetus to get them interested once more in meeting together for church services. Where there is a resident pastor, the radio service will offer the opportunity to tune in on any part of the service desired. The audience may sing under the leadership of the radio rural church choir. Solos, duets, and other numbers may be scheduled as regular parts of the local church service, and brought in over the radio. Where desired, the short practical talk may be used as part of the local service.

"Another group who will appreciate this service is made up of the farm mothers, the old people, and others who cannot go away from the farm home to attend Sunday evening services. By uniform effort in the community, these while in their own homes may join in the same service being enjoyed by their neighbors at the meeting house."

Services Accurately Timed

One development hoped from this innovation is that rural churches will install efficient receiving sets, and so furnish the community with facilities for receiving public lectures and entertainments from Station KSAC as features of other public programs now held in the churches.

The radio rural church service will begin each Sunday evening at 8 o'clock. The different numbers of the service will be accurately timed and announced in advance, so as to be of service as features in, rather than to take the place of, regular local services.

All persons who are interested are invited to write letters of inquiry and suggestions to Prof. Walter Burr, Kansas State Agricultural college, Manhattan, Kan.

CRAWFORD AGAIN CRITIC

Kansas Authors' Club Elected Officers After Saturday Meeting

Prof. Nelson Antrim Crawford, head of the journalism department of the college, was reelected critic for the Kansas Authors' club at its meeting last Saturday in Topeka. The election held near the close of the meeting resulted in the reelection of four of the eight vice-presidents chosen to govern the districts of the club, which follow the lines of the congressional districts of the state.

Mrs. Mae C. Patrick of Satanta, was elected president and Prof. Robert M. Conover, vice-president, governing the fifth district in which Manhattan is situated.

Architects Work on Plans

Plans for the proposed new library for K. S. A. C. are being prepared by the department of architecture at present. The appropriation being asked for at this time will construct the central unit of the library as now planned. The building will be designed in the English Collegiate Gothic style and promises to be the most pretentious building yet erected on the campus. It will be built of the local stone to harmonize with the existing buildings.

Friday, 13th, Holds No Fears for Bold Dispensers of News

Can the Scribbler's siliq their ink on Friday, the thirteenth? They say they can. They even admit they chose the date on purpose.

Whether or not these bold propounders of the press will continue to mix in this mighty scramble, will depend on their first success. Right in the face of it, they slap old lady superstition in the face and set the

date for Friday, the thirteenth. Journalistic cock-sureness, some call it. We have a sneaking idea, they're just trying to be different. Let it go at that.

The Scribblers never do things by halves, so they scrambled the whole thing into a dinner dance at the cafeteria. As a lot, they are not so flush as they might seem. At any rate no one raised a hand to vote on the two dollars and two bits to eat and to dance.

So the Scribblers slip a notch, but they air the fact that, the Scramble will be a dance. We see Friday the thirteenth approach with fear and trembling, while the optimistic Scribblers laugh. Will it be a success? They say it will.

Miss Bishop in Social Service Work

Miss Helen A. Bishop, who was granted a year's leave of absence from the department of household economics last spring because of illness and death in her family, is at her home in Decatur, Ill., where she is doing visiting housekeeping work with the Associated Charities of that place. In this capacity Miss Bishop goes into the homes aided by the Associated Charities, gives instructions in buying, and helps make family budgets, thus assisting the organization in determining how much money is required to maintain an adequate standard of living. Miss Bishop took up this work because she believed that it will be helpful to her when she returns to K. S. A. C. as the household management course which she teaches here includes a study of budgeting and the keeping of household accounts.

CAPITAL INVITES JOURNALISTS

Students Will Publish Topeka Daily Capital on January 29

An invitation has been extended to the department of industrial journalism again this year, to publish the Topeka Daily Capital. The date set for the event is January 29, Kansas day, and the first day the classes of the college will meet on the start of the second semester's work.

As many as possible of the members of the department are asked to make the trip, for it will afford actual experience to the students. The work of reporting all the local news and writing of features and the editorials will be turned over to the students. Trains between here and Topeka are so scheduled that the trip can be made with convenience, Prof. N. A. Crawford says.

LIMIT CAMPAIGNS FOR FUNDS

S. S. G. A. Will Decide Which Organizations May Solicit Funds

A plan for doing away with campaigns for funds on the campus was proposed by Prof. W. H. Andrews, of the department of education, at the last regular meeting of the student council of the S. S. G. A., January 15. "The purpose of the plan," says Professor Andrews, "is to prevent such organizations as the Red Cross and the Near East Relief from soliciting funds from students whose parents may have already contributed in another part of the state."

A committee consisting of two faculty members: Prof. W. H. Andrews and Prof. H. A. Shinn of the department of public speaking; and one student member, Miss Charlotte Swanson, has been appointed to judge which organizations will be allowed to conduct campaigns on the campus. This committee will limit campaigning to those organizations which habitually solicit from students only.

Special Speaker for Vespers

"Laughing, Loving, and Lifting," was the theme at Vespers on Thursday. Elizabeth Bressler, who had charge of the meeting, led in devotions. Special musical numbers were given by the octette, Mary Frances Platt, and Mary Jackson. Margaret Newcomb read a number of poems, the subjects of which were: "Life, Love, and Idealism." "The Other Wise Man," was read by Rebecca Thatcher.

There will be no Vespers on Thursday, January 22, because of examinations. The next meeting will be held on January 29. At this time a special speaker, probably Miss Frances Perry, will be present. Miss Margaret Quail will be the speaker February 5. She will talk on a subject relating to European students.

New Swimming Class Formed

Girls who are eligible for the life saving class in swimming will be put into a separate class for the second semester's work. These girls are working for membership in the National Red Cross Life Saving Corps. The majority of the class will probably be eligible for membership by the end of the second semester. The following girls make up the class: Frances Allison, Elizabeth Anderson, Dorothea Arbuthnot, Ja-

nice Barry, Ruth Correll, Ruth Davies, Hazel Dwelly, Dorothy Gray, Martha Griffin, Josephine Heath, Janet Hellworth, Nina Mae Howard, Kathryn King, Lillian Kammeyer, Olive Manning, Em Moore, Lucille Uhrig, Kathryn Whitten, Hypatia Wilcox, Bertha Worster, and Lillian Worster.

Chicago Alumni Organize

Organization of Manhattan alumni of the University of Chicago was put under way Saturday by Evon Z. Voght, field representative of the institution. The following alumni attended a luncheon at the college cafeteria: W. H. Andrews, A. A. Holtz, R. K. Nabours, E. B. Keith, J. C. Peterson, and Dr. Charles T. Little.

Dr. Little is said to be the oldest living graduate of the university. He graduated from the Rush school of medicine in 1863.

BELL CRITICIZES PRESENT SYSTEM OF COUNTY FAIRS

Addresses Annual Farm Convention in Topeka—Says Livestock Exhibits Are Neglected

Some of the county fair organizations of Kansas are overlooking the opportunity to improve agricultural conditions in their respective communities by neglecting the livestock divisions, declared Prof. F. W. Bell in addressing the annual farm convention at Topeka Thursday. The entire program was devoted to county and community affairs. Professor Bell spoke on "Observations of County Fairs" and pointed out a number of their shortcomings.

"In some cases it appears that our fairs are not fully living up to their opportunities to further livestock improvement in their communities," said Professor Bell. "The poor showing of livestock and the little interest shown in livestock exhibits at some fairs always raises the question as to whether the management is really awake to the function of a fair. No one who seriously considers the meaning of the term 'better agriculture' can deny that livestock is one of the cornerstones of the structure. Yet in some county fair organizations we find the livestock interests of the community given a secondary rating in their scheme."

I. D. Graham of the state department of agriculture, advocated a more liberal allowance for county fairs, and that it should be prorated equally rather than on a population basis. The allowance now ranges from \$300 to \$1,500 per county.

"If the Kansas law were so amended as to appropriate by state instead of by county, the extent of 80 per cent of the first \$1,000 of premium money, 70 per cent of the second \$1,000, and 60 per cent of the remainder, with a limit of \$2,000 for each county holding a fair, the state of Kansas would not appear before the world as being unable to hold fairs in nearly one-half of its counties," he declared.

Fairs are among the oldest social institutions known. Mr. Graham related, but the fair plan now general throughout the United States in which educational rather than purely commercial interests predominate, is 113 years old. This American idea has taken hold in other countries, he said.

FEE CARD ADMITS STUDENTS

Rule Requires Presentation of Receipt for Enrollment

"Students must have the fee card receipt showing that they have paid the incidental and sick benefit fees for this year before they will be admitted for enrollment next Tuesday," according to Miss Jessie Machir, registrar. The rule requiring presentation of these receipts was made two years ago and it will be strictly enforced next week.

In case the student has lost this fee card a duplicate may be obtained at the registrar's office this week. But the duplicate will not admit the holder to be enrolled until Wednesday, because only students retaining the original receipt will be enrolled the first day. Duplicate cards presented Tuesday will not be honored.

Weigel in "Who's Who"

Prof. Paul Weigel of the architectural department has received notice from the American Federation of Arts that his record is included in WHO'S WHO IN ARCHITECTURE, the only Who's Who of the profession, which appears in the American Art Manual for 1925. This annual is published by the national art organization which has 360 chapters including most of the art museums, such as the Metropolitan in New York, Carnegie Institute in Pittsburgh, Art Institute of Chicago, and many other colleges, as well as chapters of the American Institute of Architecture.

THREE IN ROW FOR WILDCATS

FAST MOVING AGGIES DEFEAT DRAKE BY LARGE COUNT

Byers and Bunker Score Heavily—Game Leaves No Doubt as to Strength of Aggies

Another football defeat was avenged last night by the Kansas Aggies when Drake University lost to the Kansas 33 to 17. The Drake football victory last fall was decisive but the Aggie basketball victory last night was just as decisive. The Aggies had the lead from the first minute of the game.

Bunker, midget forward for the Aggies, went into the lead in Valley scoring by making nine floor goals. Byers, the other Aggie forward, chalked up his mark in the hearts of Aggie fans when he made the first nine points of the game. It was evident that in the earlier games Byers had been holding out on the fans because last night he broke loose with an exhibition of left handed shooting that made the crowd sit up and take notice. Shooting from the left side of the court and from either under the goal or out on the floor Byers had the Drake forwards busy trying to locate him. He made the first score of the game with a free throw and in less than four minutes had made four goals from the floor.

The game started out with a rush, both teams playing hard, but after Byers had put in his nine points and Bunker had made a goal Drake began to slow down. Coach Solem sent in two substitutes and Drake rallied for about a minute. Everett made a floor goal and Ashby made two free throws, but after Byers and Bunker had sunk a few more shots it was evident that Drake was fast playing out. Solem made more substitutions but the half ended with the Aggies leading 21 to 8.

In the second half both teams made a number of substitutions. The Drake line-up was continually changing while Coach Corsaut waited until the last few minutes for his big changes, when it was clear that the Drake hopes were gone. The second half was slower than the first half had been. Drake was showing the signs of the fast playing in the first few minutes, while the Aggies had no cause for overdoing themselves.

The floor work of both teams was good, especially during the first half. Drake took almost as many shots as the Aggies but luck was against them and most of the shots went wide of the goal. The Aggies played a fast game, especially in forming their defense, which made shots from in under the basket almost impossible. Doolen and Koch both played easy defensive games. Doolen especially, has the knack of playing his opponent so easily that unless the opponent is an old player and used to tight places he is soon so nervous that he loses confidence. The box score:

Kansas Aggies—33		G F T F	
Bunker, f	9	0 0
Byers, f	5	1 2
Weddle, c	1	0 1
Doolen (C), g	0	0 4
Koch, g	1	0 2
Stebbins, f	0	0 1
Huey, f	0	0 0
Tebow, c	0	0 0
Scholz, g	0	0 0
Metz, g	0	0 0
Totals	16	1 10

Drake—17		G F T F	
Everett, f	3	3 0
Mantz, f	1	0 0
Van Aiken, c	1	0 1
Sparks (C), g	0	0 0
Ashby, g	0	2 1
Sloan, f	1	0 0
Marcovis, f	0	0 0
Harley, f	0	0 0
Lawless, f	0	0 0
Totals	6	5 2

Mrs. Umberger Dies

Mrs. Harry Umberger, wife of Dean Umberger, died at the Charlotte Swift hospital Sunday morning after a long illness. The funeral will be held Wednesday afternoon at two o'clock at the Congregational church.

Kansas Scientists to Meet Here

The Kansas Academy of Science, composed of College scientists and graduate students of science, will meet at K. S. A. C. April 10. Dean J. T. Willard, Dr. R. K. Nabours, and Dr. J. E. Ackert attended a meeting of an executive council at Lawrence, January 10. It was voted at this meeting that the next meeting should be held at K. S. A. C. Dr. J. E. Ackert is the vice-president of the Kansas Academy of Science.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year.

Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

"WILD" NOVELS

Harper and Brothers, book publishers, have announced the publication on February 17 of a novel titled "Wild Marriage" that deals with college undergraduate and faculty life. The book is written by B. H. Lehman, assistant professor of English at the University of California, who, according to press notices, presents his story without either idealizing or muckraking.

During the past few years there have been quite a number of similar novels published that have enjoyed a big sale, at least up until the time they were suppressed. The modern university is attracting a great deal of attention from almost everyone, and those who read such novels conceive the idea that college everywhere is as these stories paint it.

We must admit that these pictures of collegiate life are more or less true of certain colleges and universities. But we must also remember that they are the extreme type describing the actions of the minority and gain popular notoriety because they tell of "black sheep."

We can't see why the reading public continues to be extremely interested in these novels. Most people read books for the enjoyment or "kick" they receive from them, although a few read for information. The first book of this type may furnish somewhat of a "kick" but the second or third leaves the reader with a sour outlook on life and a discontented feeling, both of which are undesirable.

The confessions of an Aggie girl who wore galoshes were printed in a Topeka paper last Sunday. The girl had, yes actually had, some rather clever ideas. The department will pay a large bounty for the name of said girl. We would like to see one clever girl in this school.

A crowd at the college chapel is just like an audience at any uptown lecture or entertainment with the exception that there are fewer bald heads in evidence.

You can't say that Ames wasn't sportsmanlike. When they saw that they couldn't win the game, they turned around and helped the Aggies clinch it.

It's about time the dopesters get busy and figure the Aggies out as Valley champions. And why not?

There's no use worrying about finals. If you do worry, and the exam is easy, then your worry has been foolish. On the other hand if it is hard, your worry has been in vain, so there you are.

The speaker in chapel made a reference to the Golden Rule. The looks of consternation on the faces of most of the students shows just how badly we need a course in Bible study.

But, who could teach such a course?

They say that Pat has now thrown away that toothbrush.

We hate to add insult to injury but we just can't help but smile at the ease and nonchalance with which the Aggies dispatched the K. U. five. It was really pitiful. But K. U. needn't feel so terrible about it. The Aggies can no doubt give them company in their grief.

Which is the more comical appearing, a long lean girl with short skirts, or a short fat girl with a big fur coat and galoshes?

Just to be among the first to note it, we would like to say that spring is coming.

A hint to those taking finals.

Carry three or four closed face watches and paste your notes on the inside covers and faces of said watches. Detection is almost impossible.

There is little left to be said except that the calm wishes you luck in the attempts to surprise the various instructors by passing your exams.

On Other Hills

The extension division of the University of Minnesota expects to offer a short course in embalming next semester.

By a decree of the faculty at Baylor college students who marry during the school year must take a year's honeymoon away from the college.

The senior class at Eureka college has revived the old custom of burying a fruit cake at the beginning of the senior year and unearthing it at commencement time and having a feast.

Harvard was outscored this year for the first time in the history of Crimson football. Harvard scored only 61 points to its opponents' 78. It was also the first season since 1889 that the university has not defeated either Yale or Princeton.

Subscribers of \$250 or more to the Stadium-Union Memorial fund at the University of Oklahoma will receive life-time seat privileges in the new stadium.

Alpha Delta, the first agricultural fraternity in the United States, has been organized at the University of Minnesota. Its purpose is to promote higher ideals among students of agriculture and forestry.

A new system of examinations has been adopted by Dr. Warner Brown of the psychology department at the University of California. One of the new methods requires the pupils to supply one word to make a sentence complete. In another he must choose among several alternatives. A third consists in giving him a number of statements and asking him to tell of each whether it is true or false.

Judge for Yourself

This column is conducted for those who have some criticism or comment they wish to express publicly. Any material received will be published unedited, exactly as it is written. It is purely the idea of the individual and does not voice the policies of the Collegian in any way.

In a recent editorial, the Wampus Cats were criticized rather severely for not having functioned at the basketball game with Nebraska university last Friday. Furthermore, the fact that they obtained money by selling tags to finance a trip to Missouri university with the football team seems to be the basis for the idea that they should appear at every athletic contest held at the college.

As a matter of fact, the Wampus Cats pay for their uniforms with their own funds, give a great deal of time to the creating of pep at pep meetings and football games during the season, sacrificing from four to eight hours weekly in the preparation and staging of stunts, besides paying for the material used for the stunts with money earned by the sale of programs, which are handled by the organization for football players who are working their way through school.

Before the trip to Missouri, every Wampus Cat spent four or more hours selling tags on the campus, in Aggieville, and down town to finance the trip. This manner of financing the trip should have been more pleasing to the students and faculty of K. S. A. C. than the granting of an appropriation of funds from the activity fund, since such an appropriation was refused the Wampus Cats, while money was given to other activities, such as debate teams, go to college teams, etc., and for other purposes which are of practically the same value to the college that a pep organization is. The "K" fraternity has the sale of Freshman caps as a means of income, so that there is no necessity for the invention of a source of income.

proprietion was refused the Wampus Cats have rarely appeared in a group at basketball games. However, this year preparations were to be made for organized cheering by having a special section. Unfortunately such space could not be secured as seats were sold out before the money could be collected from members of the organization.

While some of the criticisms offered are in a measure just, a limit should be placed on the time the Wampus Cats are expected to spend in payment for their so-called selfish trip to Missouri, and a little boosting for the organization would surely be more beneficial than knocking over more or less absurdities.—Elmer Martin.

GIRLS I KNOW

There is a girl whom I see almost every day.
I like to be near her and to talk to her.
Today I hear that she has gone away,
And tomorrow I shall feel restless and lonely.
But she will soon be back.
I wonder what I will say when I see her again.

The other day
I met a tall slender girl with red hair,
And she knew her hair was red.
In fact, not long after, she said,
"I'm just a red-headed Irish girl."
But that didn't mean a thing to me.

"Confessions of a Theme Reader" Lays Bare Many Mistakes

Your proofs overlook a good many of your mistakes and finally forget all of them. This is not the case of a theme reader who reads students' papers with the idea of seeing every little mistake and marking it so that they, also, will be sure to see it.

As I read papers I am greatly amused at some of the mistakes. Many of them I believe are a result of carelessness or haste and the student probably sees how ridiculous the mistakes are when they are pointed out to them.

One boy had heard the dangling participle mentioned but had forgotten in just what connection so when the instructor asked for the names of the parts of speech he used the dangling participle to head the list.

Another boy spoiled an excellent sale letter by getting in a hurry to "get the thing done." He had convincingly argued that a certain kind of bedroom suite should be in every home but he grasped at the following sentence for his conclusion: "It is a beautiful set with excellent upholstery and is suitable for any room in the house." Yes, I thought, I might even use a bedroom suite in my living room but I did not know whether the upholstery were the bed covers or something else.

A city boy once explained the process of silo filling and did not betray the fact that it was a strange process to him until after he had it filled. His next step was to put on the lid or cover.

There is always the student who feels it is his privilege to add some cute phrase. Such an attitude must be due to overconfidence as a result of overpopularity. Occasionally I find a rather clever sentence followed by a note. (Smile here.) Of course the cleverness is forgotten and after I have drawn a blue line (I use blue pencils) through two or three such notes they disappear.

Half of the work in reading themes is deciphering handwriting. Three-fourths of the papers I read are written by boys and it is only occasionally that I find a good penman. A few type their work. I am often unable to decide if a word is misspelled because the student accidentally hit the wrong letter or if he intended to hit that letter. Anyhow I am inclined to overlook misspelled words in typewritten themes.

I am not bothered with one student copying another's work until near the close of the semester. Then I read a theme, frequently a book report, which I readily recognize as similar to one I have read before. It is surprising how students copy a thing almost exactly, even to misspelled words. If they would only correct the spelling and put in a few additional adjectives I might not recognize it as easily.

I have no classroom contact with the students whatever so may criticism is unsympathetic and impartial. I read with an eye for mistakes.

CHEMISTS MEET HERE

Program Included Inspection Trip of College Laboratories and Farm

The Kansas Chemists' club held its bimonthly meeting at Manhattan Saturday, January 17. This meeting of the club was devoted to the improvement of methods for testing wheat and flour.

The program for the day included

an inspection trip of K. S. A. C. laboratories, the college farm and the state experiment mill; and papers by Dr. E. L. Tague, Dr. E. B. Working, and Prof. J. H. Parker of the college.

A feature of the meeting was the bread judging. Each chemist brought with him two loaves of bread, one loaf treated just as is the custom on routine baking in his particular laboratory, the other loaf treated according to directions sent out by the Standard Loaf Committee. The loaves were cut and scored, giving valuable information to the committee for its work in standardizing baking tests.

Personals

An increase in the enrolment in the course in landscape architecture is expected for the year '25 and '26.

The department of architecture has recently added to its studio 20 plaster casts. The casts are on exhibition in the freehand studio and exhibition gallery in the department of architecture.

There is at present an exhibition of about 100 Japanese colour prints in the department of architecture. The prints are the original works of some of the greatest masters of Japanese art, dated from 1780 to 1830. The prints are part of the private collection of Professor Weigel.

An exhibition of colored etchings by present day Belgian masters was recently shown in the galleries of the department of architecture.

Lois Witham, '15, writes that the Baltimore Aggies are planning to meet January 26. Miss Witham is teaching part time and working with Doctor McCollum at the school of hygiene, Johns Hopkins university, from which she expects to receive her doctor's degree in June.

Miss Maude Deely was appointed millinery specialist of the extension division January 1. Miss Deely was formerly demonstration agent of Clay county.

Prof. N. E. Olson of the dairy department gave two talks at the Ne-

WRIGLEY'S

after every meal

Cleanses mouth and teeth and aids digestion. Relieves that over-eaten feeling and acid mouth.

Its l-a-s-t-i-n-g flavor satisfies the craving for sweets.

braska ice cream manufacturers' association convention held in Lincoln on Wednesday and Thursday.

Wanted: Student girl to work for room and board. Phone 1287. 33-1f.

Miss Alice Marston has been awarded a Wood Fellowship in hygiene at the University of Pennsylvania. Miss Marston's home is in Wilmington, Del., and she commutes daily to her work in the university.

Miss Dorothy Brooks of Columbia, Mo., has been visiting Miss Bischoff and Miss Austen of the library.

Prof. G. H. Dean left last Thursday for a trip through Oklahoma and Texas where he expects to make a study of the green bug situation for the government. He will probably return next Wednesday.

Let us sell your books. Student's Book Exchange at College Tailor Shop opens Thursday.

Dr. W. C. McConnell, '15, of Holdenville, Okla., has been promoted to the rank of major in the Veterinary Officer's Reserve Corps.

Flapper Lets Them Flop According to Class She Attends

The eternally feminine trait of following the leader manifested itself in her galoshes, but she seemed to follow no set rule about the way in which they were worn. At last one of her more curious friends decided to make discreet inquiries.

"Why don't you either let your galoshes flop all the time, or else fasten them up all the time? I no longer learn to tell you at a distance by one or the other when you change again."

The girl laughed, and then in that

confidential, I wouldn't tell anyone—but you air that girls have when imparting a secret, she disclosed her discovery.

"I go by formula. When I am attending an Art class, where style is ever to be scorned, I leave them at home. In English, where my teacher is very modern, I let them flop as widely as possible, and in another class where my teacher is slightly old-fashioned, but recognizes the value of overshoes, I fasten them up snugly. The first rule to be observed is that of making a good impression."

Feminine wiles, indeed!

The juniors have accepted a challenge issued by the College of Emporia faculty for a whisker growing contest which is to last three weeks.

Tryouts are being held this week for the religious drama, "The Rock," which is to be given by Methodist students. This is to be the first of a series of entertainments that the students will give at the evening services at the Methodist church.

Society Happenings

The monthly faculty dance was held Thursday night in Recreation center. A buffet supper was served during the dance to thirty-five couples. Snowballs and snow men were the decoration features. Pines' Serenaders furnished the music.

Phi Delta Theta had as their dinner guests Sunday noon: Misses Ruth Wilson, Claribel Grover, Virginia McGee, and Helen Huff; and Messrs. Elliott and Miller, members of the Ames basketball team.

The annual Scabbard and Blade formal dance was held in Recreation center last Friday night. Decorations were military accouterments and the regimental colors of the Seventh Coast Artillery corps. Punch and wafers were served throughout the evening. Favors were gold crossed sabers in the form of a bar pin. Proctors' orchestra furnished the music. The party was chaperoned by Lieut. Col. and Mrs. F. W. Bugbee, Major C. D. Pierce, Capt. W. P. Waltz, Capt. and Mrs. R. C. Stickney, Capt. and Mrs. G. W. Fitzgerald, Capt. and Mrs. C. W. Jones, Lieut. and Mrs. R. E. McGarragh, Ensign and Mrs. C. W. Bachman, and Mr. and Mrs. George Givin.

The Chi Omega sorority entertained the brothers of the girls Sunday at their chapter house. Guests were Messrs. Dick Allen, Ferdinand Volland, Bus Fayman, Keith Smale, Clifford Hollis, Marion King, Walter Bell, Frank O'Daniel, and Harley Barry.

Mrs. Alice Boller announces the marriage of her daughter, Maree, to Mr. Kenneth H. Dawley, which took place at Westmoreland. Both Mr. and Mrs. Dawley are graduates of Manhattan high school with the class of '23 and later attended K. S. A. C. Mrs. Dawley is enrolled as a sophomore at K. S. A. C. Mr. Dawley is proprietor of the Campus Smoker in Aggieville.

The Gamma Phi Deltas entertained with a house dance Saturday night at their chapter house, 1521 Leavenworth street.

The Graduate Club will have supper at the cafeteria Wednesday evening at 5:30.

Miss Baker of the clothing and textile department and Dr. Mary T. Harman will give a bridge party for several women of the faculty Saturday evening at 8 o'clock at 1430 Poyntz.

New History Course

Among the new courses that will appear on the schedule next semester is one in the department of history called Europe from 1500 to 1815. This is a three hour course and will be given by Assistant Professor Correll.

The course is a study of the progress of liberty in western Europe, beginning with a summary of the Renaissance showing the birth of intellectual liberty. Then followed the application of this new-found freedom of thought to the trade restrictions of the time, producing the commercial revolution; and to the claims of authority of the ancient church, resulting in the Protestant Reformation and the birth of religious liberty; and finally the story is traced of the rise of political despotism on the wrecks of mediaeval feudalism until the absolutism of kings was challenged by the growing intelligence of the people and civil liberty was born in the Puritan and the French Revolutions. The course closes with the account of the rise and overthrow of Napoleon Bonaparte, the military despot, and so connects up with the course on Modern Europe which begins with the Congress of Vienna in 1815.

Course in Manual

Training Solves One Marriage Problem

Students who have taken a course or two in manual training are sure of a desirable position in the teaching field, according to C. F. Cool, instructor in manual training and shop practice.

There are a number of other advantages in taking the course, explains Mr. Cool. For instance, a man who is taking a four year course can make his own furniture and save four or five hundred dollars in setting up housekeeping. Students who take the course for only a semester or two learn the value of good lumber and are taught how to distinguish between good and bad manufactured articles. They also have the privilege of buying articles that they make.

In the first year of instruction the student does most of the work by hand, sawing, planing, and finishing the articles. In this work he learns the value of tools and the behavior of lumber. First year students make porch swings, book racks, foot stools, typewriter tables, and other articles. After the student has become accustomed to tools and their use he is taught the use of machinery and from then on most of the work is

done with the aid of the machines.

Advance students in the department are making many useful articles such as sideboards, library tables, cedar chests, phonograph record cases, tea wagons, and chairs. One advanced student is making a set of dining room chairs and a table fashioned after a set advertised in a furniture house catalogue. Another student is making a walnut chest.

The work done in the department compares favorably with articles sold at furniture stores. In many cases the jointing is perfect and the finishing as good as that put on commercial articles. Students who make the articles have the privilege of buying what they make at a price just a little above the actual cost of the material. If the maker does not want the article it is sold to anyone who wishes to buy it. A large amount of material has been sold to the public.

While the department can accommodate 80 students, only about 35 were enrolled this first semester. Many of these students are taking the course for teaching purposes, but others are enrolled for no other reason than that they like the work.

Enrollment in the course is by no means limited to male students. In fact about 10 per cent of the enrollment is girls, many of whom have made serviceable articles.

DISCUSSES WORK OF ROBINSON

Professor Davis Explains Four Classes of Thinking

James Harvey Robinson, the noted writer and historian, was discussed by Prof. H. W. Davis, at the English lecture in the home economics rest room last Tuesday afternoon.

Professor Davis did not discuss Mr. Robinson's historical work, but took up his books on the theory of thinking and a study of the mind. In 1921 Mr. Robinson wrote "The Mind in the Making," which is a history of the human mind.

"James Harvey Robinson is not an investigator or a scientist," explained Professor Davis, "but he has interested himself in seeing that the new truth has some chance of getting over to the people."

"There are four classes of thinking. The first is the reverie, or what is commonly known as day dreaming or wool gathering. This is the kind of thinking that goes on, uncontrolled, continually in our minds."

"The second class is the practical decision, such as we have to make when we awake on a cold morning and must decide whether to get up or just stay where we are."

"The third class of thinking has to do with our cherished convictions. You know, the purpose of argument is simply to establish the fact that we were right from the start."

"The fourth class of thinking is creative thought. This is the kind of thing that the scientist and inventor does. He does not accept the thoughts of others but he creates his own."

Professor Davis emphasized that it was useless to try to prejudice a matured mind, but better to give children a careful education.

The next lecture of the series will be given by Prof. N. A. Crawford, on Wednesday afternoon, February 11. Professor Crawford will discuss Mahatma Gandhi, a Hindu philosopher.

Franklins Install Officers

Installation of officers was held by the Franklin Literary society Friday, January 16. Those installed were Florence Harris, president; Earl Herrick, vice-president; Grace Steininger, recording secretary; Susie Huston, corresponding secretary; James Griffies, marshal; Dorothy Stall, assistant marshal; Willis Garret, treasurer; Ralph Eaton, critic; Eugene Knechtel, pianist; Lois Gorton, chorister; Agnes Horton, second member of the board; Helen Batchelor, third member of board; Irma Fulhage, second, and Floyd Higbee, third member of the program committee; Avis Wickham, historian; May Danheim, Collegian reporter.

Fill Orders for Play Tickets

The mail order sale of seats for "The First Year," Purple Masque production which will be presented at the college auditorium January 30, started Saturday. Orders must be addressed to the Purple Masque, K. S. A. C. The regular box office sale of seats opens January 26.

Mr. C. A. Herrick, '21, with master's degree in '23, who holds a fellowship in medical zoology at Johns Hopkins University has been at K. S. A. C. for the last seven months on a fellowship by courtesy, working on his doctor's thesis under the direction of Dr. J. E. Ackert. Mr. Herrick returned the first of January to Johns Hopkins University where he will complete the work on his doctor's degree.

Student's Book Exchange opens Thursday, January 22, College Tailor Shop. Bring your books in early.

Prof. V. L. Strickland of the department of education was in Junction City Friday judging a debate between Manhattan and Junction City high schools.

Thin, Fat, Angular, and Rounded Women Get Beauty Message

The answer to the query so often expressed as to why some women always appear well dressed while others who spend the same amount of money on their clothes fail to obtain the desired result has been answered by a pamphlet, "A Study of Faces," published by the extension division of the Kansas State Agricultural college. And this is the secret it reveals. Many women, in the excitement and thrill of selection, forget to consider their type or size and think only of the beauty of color and material.

Take for instance the problem of hats. There is such a thing as an average type of woman who has a face that is two-thirds as long as it is wide, with eyes, nose, and mouth so placed that each member is in proper position in the middle of the face, veering neither to the right or to the left, is neither stubbed, pointed, or Roman.

The woman of this type is extremely fortunate. Her hat problem is almost nil, for it depends only upon arrangement and color.

There are many women who are not so fortunate. There is her sister with the very thin face. It is also longer than the average. Now she must select a hat and dress her hair so the face will appear shorter and a bit broader. First her hair must be done low on her neck, for a high head dress is only accentuating her type and would be disastrous to her beauty. A hat with a broad drooping effect will work wonders, for the drooping brim with the hair down a bit over the ears makes the face appear fuller and gives just that little something she desires.

Again there is the friend of the stout figure. She desires to appear becomingly as much as the slender friend, but her problem is an entirely different one. The best hat for her is the one rolled higher in the front than in the back, or higher on one side than on the other. This lends an irregular edge line and counteracts the decidedly rounded lines of the face.

Then the friend with the angular face. Why is it that women with angular faces invariably select plain clothes, straight rimmed hats, and wear their hair parted in the middle and off their ears? Maybe it is because they do not understand how much better a soft fluffy hair comb, with a dress having a bit of lace or a fancy collar to relieve the plainness and a hat with an irregular line and a feather would help their appearance.

Then there are other friends, the one with the nose which has a decided tendency to turn upward and the one with the receding chin. They, too, have their problems, and many of them. But if the first lady will remember that a hat with a brim that turns downward and does not follow the vertical line which the nose seems to follow, and the second that hats which have balance in both brim, crown, and trimmings, a great change will be noticed.

So Milady take this message from the "Study of Faces"—do not despair because you are not the possessor of a face or a form perfect in every detail, for with a bit of care you may appear as becomingly gowned as the fortunate one upon whom Mistress Fate has generously smiled.

Personals

"Go to college teams" will receive \$300 from the student activity fund this year to help defray the expenses of the trips they make in advertising K. S. A. C. which has charge of such dispensations of funds.

Prof. Albert Dickens, head of the horticulture department, left Monday for Columbia, Mo., where he will deliver an address at the Farm and Home week being held there.

the Denishawn dancers, in Topeka, Monday evening.

Miss Annabel Garvey of the English department has been unable to return to her work since the holidays because of the serious illness of her mother. Miss Garvey's home is in Topeka.

Dr. Margaret Justin, dean of the division of home economics, and Miss Louise H. Everhardy, instructor of applied arts of the division of home economics, will be in charge of the applied art department, during the absence of Miss Araminta Holman, head of the department. Miss Holman will be on leave of absence next semester for study abroad.

Prof. Eric Englund of the department of agricultural economics, spoke at the meeting of the state farm bureau board at Topeka on January 12. The subject of his talk was, "Tax Revision in Kansas."

Albert Metz, '21, a graduate in agriculture, has been elected to superintendency of the public schools at Kinsley.

Oscar G. Woody and Wilmer L. Oakes, seniors in architecture, took the civil service examination for junior architects' status in civil service work. The examination was held January 7, at the Manhattan post office.

Miss Florence Clark of the department of clothing and textiles has a number of pictures from Godey's Lady's Book, a fashion magazine of the nineteenth century. The pictures show the styles of women's clothing for various occasions from 1850 to 1870. They are quite valuable and at present are in much demand.

Wanted: Three men for sales work beginning February 1. Training will be given in Manhattan and the men then sent out to openings in Kansas. Write G. D. Olmsted, 623 Bryant Bldg., Kansas City, Mo. 33-3t

Miss Helen Elcock, Miss Izil Polson, Prof. H. W. Davis, M. Sallsbury, Prof. N. A. Crawford, and Prof. Robert Conover attended a lecture given by Sherwood Anderson in Topeka Friday evening.

G. C. Charles, ex-'25, is now a second lieutenant stationed at Fort Snelling, Minn.

Dr. J. H. Coffman, '11, assistant state veterinarian, Atlanta, Ga., con-

tributed to the program of the United States Livestock Sanitary association held in Chicago December 3, 4, and 5, 1924.

Lieutenant A. C. Ramsey, '20, is now stationed at Jefferson Barracks, Mo.

Dr. E. M. Berroth, '20, is now with the bureau of animal industry in Chicago.

Sergeant Francis D. Pugh, 3rd infantry, has arrived here from Fort Snelling, Minn., to take the place of Sergeant Roy Paquette who received his discharge last week.

Dr. R. R. Dykstra spoke at the City club at Kansas City Monday evening.

Captain Harry E. Van Tuyl, '17, was relieved from duty at Fort Ringold, Tex., November 15, 1924, and sailed from San Francisco December 30, for army duty in the Philippine Islands.

Dean E. L. Holton made a business trip to Kansas City Saturday.

Prof. C. V. Williams was in Ottawa Friday and Saturday directing the county institute there.

Prof. A. P. Davidson went to Lawrence Friday to attend the district conference of Teachers of Vocational Agriculture.

Unbelievers Had to Be Shown—Beauty Contest Not a Fake

Empty pockets are prevalent today among Anderson loungers who had staked their all that a few persons on the Royal Purple staff were going to judge the merits of our most comely coeds themselves and had merely named Flo Ziegfeld as the official Bluebeard so they wouldn't become entirely bald when they announced the decision.

A crowd large enough to block between-final traffic assembled near the post office in Anderson Monday morning to witness the send-off of the photographs of 18 most beautiful girls at K. S. A. C. The address on the package convinced even the most skeptical that the pictures were really going to Mr. Florenz Ziegfeld at the New Amsterdam Theatre, New York.

The results of the contest will be published in the Kansas City Journal-Post one week from Sunday.

with illustrations. Pictures of the prettiest six will appear in the 1925 Royal Purple.

The 18 girls who will haunt the newsstand until the fatal paper arrives are: Inez Jones, Irene Pat-chen, Gladys Sanford, Luella Lancaster, Virginia Reeder, Aletha Crawford, Nora Yoder, Edith Caroway, Curtis Watts, Ruth Wilson, Thelma Coffin, Mildred Peterson, Kathryn Kimble, Josephine Brooks, Dorothy Sanders, Pauline Van Osdel and Ruth Stewart.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A. Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

HOMER REED, N. G., JASPER FINK, Sec. tf.

The library of the department of architecture, which is one of the most complete architectural libraries west of the Mississippi, has added to its collection many rare and valuable volumes during the past year.

Here is the Key

Teachers holding degrees from standard colleges and universities will find The Kansas Teacher Placement Bureau the key to educational advancement. We need especially teachers of English, Languages, History, Science, Mathematics, Commerce, Home Economics, Manual Training, Agriculture, Athletics, Normal Training, Music and Art. "THE HOME OF STANDARD MERCHANDISE"

SECOND VICTORY FOR WILDCATS

AMES RALLIES AND HALF ENDS WITH 13-13 COUNT

Aggie Offense Piles Up Big Lead in Second Half—Ames Captain Scores for Aggies

Proving that the victory over K. U. last week was not the result of a freak come-back, the Kansas Aggie basketball team turned in its second victory of the season by defeating Iowa State college here Saturday night. Because of the record made by the team in giving K. U. the worst defeat it has suffered since "Phog" Allen took over Jayhawk basketball, Nichols gymnasium was practically full for the Ames game.

The win over Iowa State was made all the better by the Aggies by the fact that they rallied so well after having a tied score at the end of the half. The way that the team came back after going into a slump showed that the men have the necessary fight regardless of the score.

Aggies Off with Rush

The game started in a flash for the Aggies, and a nine-point lead had been secured before Ames made a point. Then, with the score 11 to 1 against them the Iowa boys started a rally that put the crowd on edge and made it look for a while as if the Aggies were doomed to another exhibition such as the Nebraska game had been. At the end of the half the score was tied at 13 up.

Raff, Ames captain, made the first score for the Aggies in the second half when he got mixed up and tossed the ball through the Aggie hoop. However, he soon made up the loss with two free throws, and the fight for a lead continued for several minutes.

With the score 17 to 17 the Aggie rally started in earnest and they began piling up their lead, allowing Ames only one goal while the Aggies ran their score up to 33.

Offense Shows Improvement

The game showed that the Aggie offense, which has been especially weak, is being built up by Coach Corsaut, as every man on the Aggie squad scored sometime during the game.

Several substitutions were made by Ames in an effort to break up the Aggie defense, while Corsaut made only one substitution for the Kansas Aggies. Tebow, who has been on the injured list since the Nebraska game, was put in for a few minutes for Bunker.

The box score is as follows:

Aggies	FG	FT	F
Bunker, rf.	4	1	1
Byers, lf.	4	0	0
Weddle, c.	3	0	2
Koch, rg.	0	2	0
Doolen, lg.	2	0	3
Tebow, rf.	1	0	0
Raff, Ames.	1	0	0
Totals	15	3	6

Ames	FG	FT	F
Raff, rf.	3	3	0
Elliot, rf.	0	1	1
Jacobson, c.	0	0	0
Miller, lg.	0	0	1
Arnold, rg.	0	1	2
Coe, c.	2	0	0
Anderson, lf.	1	1	1
Wright, lf.	0	0	0
Referee, H. W. Hargiss, Emporia Teachers.			

PLAN INDOOR TRACK MEET

Purple and White Teams to Compete for Varsity Berths

A Purple and White track meet will be held in Nichols gymnasium Friday night, January 23, for the purpose of determining the squad which will enter the invitation meet at the Kansas City Athletic club on the following Saturday. The two teams in the Purple and White meet are to be led by Ralph Kimpert, star distance man, and Kenneth Knause, quarter-mile and captain of the 1925 track team.

This will be the only indoor meet held in the gymnasium this season and will give people an opportunity to see the Missouri Valley cross country champions in action. All men are eligible to compete in this meet according to Coach Bachman.

Sebring Made Head Coach

H. L. Sebring, '22, former Aggie football star, is now head varsity football coach at the University of Florida. He was formerly assistant coach under Major J. A. Vanfleet,

who returns to his army duties after four years at Florida. Major Vanfleet was stationed here in 1919 and 1920.

Elected Officers of Scientific Society

Dr. J. E. Ackert was elected vice-president of Gamma Alpha, when in Washington, D. C., January 1. Gamma Alpha is a national graduate scientific society with chapters at Cornell University, Dartmouth College, and the universities of Chicago, Harvard, Yale, Michigan, Wisconsin, Illinois, California, Missouri, Iowa, Minnesota, and Johns Hopkins.

PIONEERED IN PRINTING

K. S. A. C. First College to Establish Permanent Course

"K. S. A. C. was the first college to establish a permanent course in printing," said Miss Polson of the journalism department, in her lecture on the history of journalism teaching in the colleges and universities of the United States, at the journalism seminar last Monday afternoon.

Robert E. Lee, president of Washington and Lee university in 1869, established 50 press scholarships at that time for men students, but the work expired in a few years. In 1874 K. S. A. C. established a course in printing which developed into a course in journalism in 1910. The president of Cornell outlined a journalism course in 1875 that was very good, but it was never put into practice. About the same time a course was proposed at New York university. In 1890 the University of Michigan began some informal work on the subject of newspaper writing. The University of Pennsylvania opened a course of journalism in 1893, but it was soon discontinued. Missouri university began the first practical teaching of the subject in 1896.

Journalism teaching was really in the experimental stage during the period from 1869 to 1907.

From the time that Pulitzer supported journalism instruction, however, the progress has been very rapid. Editors had begun to change their views as early as 1888, but not until 1904 did they really sanction the work. In 1907 Washington university established what grew to be the first separate school of journalism. In fact most of the development has been brought about in the last 20 years. About the time of 1907 there were only seven colleges teaching journalism. These were the University of Michigan, University of Washington, University of Missouri, University of Indiana, University of Kansas, University of Illinois, and K. S. A. C. The Pulitzer school of journalism was established in 1912, and today there are over 200 schools of journalism in the United States and seven or eight started in foreign countries.

EXHIBIT OIL PAINTINGS

Work of H. E. House Displayed in Architecture Department

Oil paintings by H. E. House, nationally known landscape and portrait artist of Chicago, will be on exhibition in the art gallery of the architecture department, beginning January 26, and lasting two weeks.

Mr. House was born and raised in Manhattan, having lived here 18 years, and received his early education at Manhattan high school. He studied art in the Chicago Art Institute, the Smith Academy, and the Academy of Fine Arts. Some of his earlier paintings were scenes of Wildcat creek, Blumont Hill and Prospect Hill.

Portrait painting is the main profession of Mr. House, although he does landscape painting during his spare time. Recently he finished painting a portrait of the new governor of Minnesota. Mr. House is employed by the Chicago Portrait Company.

In painting landscapes Mr. House endeavors to reproduce the scene just as he saw it. He says, "You can't beat nature and if you paint nature as you see it you will get the best results."

On January 29, Mr. House will give a descriptive talk of his pictures to the public in recreation center. In his talk he will describe his paintings, the condition under which they were painted, and his reasons for painting them.

Mr. House and his wife are in Manhattan visiting his brother, Dr. E. S. House, 907 Osage street.

Dr. R. S. Beaver, '23, of Harlan, Iowa, has been commissioned a second lieutenant in the veterinary officer's Reserve Corps.

Corsaut Uses New Method to Train Basketball Players

What is believed to be the most novel method of training athletes developed here recently when it was learned that Charles Corsaut had employed ultra-violet ray treatment in an effort to improve the team's play. After a bad start at the opening of the Missouri Valley season the Aggies upset the dope by taking Kansas university to a drubbing, 40 to 28, last Wednesday night.

Corsaut admitted that the violet ray treatment began three days before the Lawrence game and encouraged by the showing he had continued it in preparation for the Ames game last Saturday night.

Just where Corsaut conceived the idea of the ultra-violet treatment of athletes he declined to say but the investigation disclosed that the animal husbandry department of the college recently began a series of experiments with the ray in an effort to improve milk production among the dairy cows of the college herd, which according to Prof. H. W. Cave of the dairy department, has proved effective.

Whether the athletic department will continue the experiment on the athletes depends largely on the showing made in games in the near future, Corsaut said. He is not inclined to give the experiment credit for the showing of his team against K. U. and Ames, but the complete reversal of form has its rather mystifying elements, he ventured.

Starting the season the Aggies were unable to locate the baskets and made a miserable showing against the Hilliards at St. Joseph and again here with Nebraska. Consistent practice failed to develop any noticeable improvement and the present experiment was decided upon as a last resort.

The experiment here is believed to be the first of its character ever attempted, according to college officials and if successful may revolutionize athletic training in every department of sports.

NEW PUBLICATION APPEARS

Home Economics News to Be Published Quarterly

A new publication in the form of the Home Economics News last week made its appearance on the campus. It will be published quarterly by the division and students of the department of home economics.

This new periodical contains articles by graduates, undergraduates, and professors of the department on subjects of general interest to the students as well as the alumnae of the home economics division. Pages of special interest to the graduates are the "College Notes" and "Who's Where and Why" which includes news of the department and briefs telling what alumnae are doing.

The staff is as follows: editor, Mary Elva Crockett; assistant editor, Helen G. Norton; advertising manager, Blanche Elliott; Omicron Nu representative, Hilda Black; Home Economics association representative, Ruth Kell.

Hamiltons Elect Officers

The Hamilton literary society announces the election of the following officers for the spring semester: president, H. A. Wright, Welsh, La.; vice-president, J. J. McDonald, Keopier, W. Va.; recording secretary, H. E. Miller, Lincoln, Kan.; corresponding secretary, F. C. Mason, Lincoln; treasurer, F. T. Rose, Kansas City, Kan.; marshal, G. Montgomery, Sabetha; assistant marshal, E. G. Johnson, Manhattan; critic, P. M. Noble, Manhattan; prosecuting attorney, Paul Spear, Olathe; board of directors, Forest Garner, Hiawatha; E. L. Brady, Manhattan; and program committee, M. M. Kerr, Manhattan; C. B. Wisecup, Manhattan.

CONTESTS ARE BENEFICIAL

Professors Strickland and Williams Have Articles in "Kansas Teacher"

Two K. S. A. C. professors, V. L. Strickland and C. V. Williams, have articles in the January issue of the "Kansas Teacher."

Prof. V. L. Strickland writes on "Scholarship Contests—Why?" The justification of the scholarship contests may be approached from several angles, according to Professor Strickland. In the first place, it affords rivalry which is one of the most effective methods used of turning natural instinct to account. In addition to the direct effects on the pupil, the publicity value of the contests is important.

A third benefit to be derived from scholarship contests is the comparison

of standards of work among various schools. Finally, and perhaps the most important of all, the properly organized scholarship contest makes an effective application of the laws of learning and tends to overcome some of the weaknesses that have grown up in the average school.

The subject of Prof. C. V. Williams' article is "Nature Study in the Primary Grades." Professor Williams says that nature study has two general aims: First, social, and second, individual. The social aim of nature study should be to teach the child facts and principles of nature as will make him more efficient in the community, and to give the child the nature study approach to personal hygiene.

The second phase of nature study instruction, the individual, has two phases: the physical and the spiritual. Physical nature study gives such a love of outdoors that outdoor living becomes a happy mode of spending enjoyable odd time. The spiritual aim of nature study is a three-fold one: the moral, the aesthetic, and the intellectual.

EXPLAINS HIGHWAY SYSTEM

Professor Conrad Favors Federal Aid for Highways

"The roads on a state system should, obviously, be built for those who are going to use them," said Prof. L. E. Conrad of the civil engineering department in his speech which was broadcast from Station KSAQ Wednesday night.

"The highways of the United States as they existed in 1900 were the result of three hundred years' development," said Professor Conrad. "Prior to the development of railroads, when the only means of land transportation was over highways, the Federal government began a movement to build through highways destined to serve inter-state traffic. Had it not been for the coming of the railroad, our present highways would undoubtedly compare with those of ancient Rome."

"The rapid extension of the railroad system in the United States supplied a means of transporting goods and passengers over long distances, which was so much better than the methods in vogue on highways that there was little reason, in general, for using the latter for traffic, where railroad service was available."

For this reason the traffic movements have developed very little, and its accommodations do not fit the ever changing traffic. Professor Conrad estimates that there will be a fifty per cent increase in automobiles and trucks in the next ten years, and it would be foolish to plan our state system for less than that number.

In connection with the main artery across Missouri, there are about forty miles of unsurfaced road from St. Marys to Camp Funston, which, if improved, would probably increase the traffic to 2000 cars a day. Less than half of this traffic will be local. This being the case, the improvement should be planned with a view to serving the through rather than the local traffic. Under these circumstances, it is possible to obtain at least half of the funds for improvement from Federal or state aid.

In closing, Professor Conrad said, "Since we will have to handle the traffic, it would seem to me extremely foolish to give up Federal Aid."

Two graduate students in the department of agronomy, Max M. Hoover and Frank D. Ruppert, are planning to take a civil service exam-

ination for agronomy statisticians. They went to Topeka Monday, accompanied by Prof. John H. Parker of the agronomy department, where they were given special instruction in the methods of crop reporting as used by the state board of agriculture and the United States department of agriculture, who cooperate in preparing the state report on Kansas agricultural conditions.

A two hour, non-credit course will be given in poultry judging during the spring semester of 1925. Classes in the course will meet by appointment. Those interested in the Chicago judging team for next fall or those desiring this special work in judging are asked to turn in their names and schedules to H. H. Steup as soon as they are available after registration.

OUTLOOK IS OPTIMISTIC

Prof. W. E. Grimes Addresses Realtors Meeting in Lawrence

"The Outlook for the Operation and Ownership of Farms in Kansas," was the subject of an address given by Prof. W. E. Grimes of the department of agricultural economics, at the annual banquet of the realtors of the second congressional district, at Lawrence on January 15. While at Lawrence, Professor Grimes was the guest of Prof. John Ise, of the department of economics of Kansas university.

"The outlook for agriculture in 1925," said Professor Grimes, "is more optimistic than it has been since the beginning of the agricultural depression in 1920. Farming is on a better balanced basis and more stable economic and political conditions throughout the world are resulting in better markets for agricultural products."

Turning to the subject of farm

ownership, Professor Grimes pointed out how difficult it is for a young farmer to acquire a farm because of the low rate of return on farm land and suggested several ways in which the farmer may overcome this difficulty. He also emphasized the importance of efficiency in farming and predicted an increase in the number acquiring farms as a consequence of increased agricultural prosperity.

Photographer Here for Week

The photographer for the Royal Purple will be in his studio this week for the last time. Those who have not yet had their pictures taken may do so this week.

The classes in clothing II are now devoting their time to millinery. Most of the girls are making spring hats of taffeta or satin. One particularly unique hat is of red brown leather with cut out design in front.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, JANUARY 23, 1925

NO. 35

MAY 2 SET AS AG FAIR DATE

MORE SHOWS OF REAL VALUE AND ENTERTAINMENT

W. J. Daly Is Manager—Concessions
Committees Will Plan Many
New Features

The date for the Ag Fair this year has been set for Saturday, May 2, according to an announcement by W. J. Daly, manager of the annual carnival, after a meeting of the Ag Fair board Thursday afternoon.

Definite plans are being made to add many new features to this year's celebration. Something new in the way of entertainment is promised and there will be fewer "sells" and more shows of real value and entertainment.

Farmer's Vaudeville a Feature
A big Farmer's Vaudeville will be featured on both the afternoon and evening programs. The dance this year will be the biggest that has ever been held in connection with the fair.

Soon after the beginning of the second semester the big Ferris Wheel that has been used in the Ag Fairs of other years is to be repaired and possibly rebuilt, and will again be in running order for the 1925 carnival.

All committees are to be appointed soon and plans for the various side shows will be made earlier this year in order that new shows can be arranged for. Everything possible will be done to make this year's fair different from those of other years.

Plan Big Ag Display
The educational features of the fair which were emphasized in the 1924 spring carnival will be of wider scope than ever before, according to Mr. Daly. Many new features will be added, and the agricultural display alone will make the fair worth while.

The parade this year promises to have many unusual features. Of course there will be the usual "hot dog" and hamburger stands, where hungry students may satisfy their appetites. An ice cream stand will serve college dairy products.

FEWER TAKE SHORT COURSE

Enrolment in Engineering Short Course Less Than in 1924

Engineering short course enrolment shows a marked decrease this year. Forty-three have enrolled in the various short courses offered by the division of engineering. Last year's enrolment was 67. Automobile courses show the greatest loss, while the tractor operators' course gained three.

The courses opened the first Monday in January. The average length of the various courses is eight or 12 weeks. Trade courses require a year or two years to complete. Instruction is given by lectures and laboratory work. Shop courses are largely laboratory work.

Courses offered are: automobile operation, automobile repair, blacksmithing, carpentry, electrical repair, foundry practice, machine shop work and tractor operation. The entire equipment of the college is available to the students.

The recent agricultural depression is one of the explanations offered by Dean Seaton for the smaller enrolment. Smith-Hughes vocational work in high schools is detracting from the carpentry and blacksmithing courses. The highest enrolment was the period after the war.

These factors have not influenced the four year engineering courses as the enrolment in engineering this year is the largest in the history of the school.

PROMINENT DAIRYMEN HERE

February 4 Will Be Dairy Day—
State Clubs Will Meet

Kansas dairymen and Farm and Home week visitors will have an opportunity this year to enjoy a well balanced dairy program. Wednesday, February 4, of Farm and Home week has been designated as Dairy day.

Nationally known dairymen who appear on the program are: K. B. Musser, secretary of the American Guernsey Cattle club; J. E. Jones, director of the American Jersey Cattle club and famous breeder of Jerseys at Liberty, Mo.; Earl J. Cooper, calf club leader of the Holstein extension service; and J. W. Linn, president of the Ayrshire Breeders' Association of America and of the Kansas State Dairy association.

Dr. J. S. Hughes of the Kansas State Agricultural college, will talk on "Minerals for Dairy Cows," and Professor H. W. Cave will re-

view recent experimental work of the department on feeding ground cane and sweet clover hay.

In addition to the regular meeting and election of officers of the Kansas State Dairy association, the Jersey, Guernsey and Ayrshire state breeders' clubs will meet. The Kansas Holstein-Friesian association will meet February 3.

Prexy to Return February 1
President Jardine, who has been in Washington, D. C., practically all this month in conference with the other members of President Coolidge's agricultural commission, writes that their work is not getting on so fast as desired, and that consequently he will not be able to return before February 1.

This Having Your Picture Taken Is Serious Business

"Just a little to the right; there, that is fine. Hold it still for just a second. Good!"

The martyred coed held it. She held it and she held others, and not one little smile was permitted to creep into the situation.

"Why can't I smile, I like to," she asked pleadingly.

The wearied and harassed man shrugged his shoulders deprecatingly. Two more hairs on his head turned gray as he struggled to meet his latest problem, that of the girl who liked to laugh. Another line appeared around his eyes as he searched for a convincing answer.

"That is just the trouble, when I let you smile you laugh. If you can't smile without laughing, try to learn to laugh without smiling. Next."

And the tired photographer turned to the next smiling, grinning, simpering young expectant.

SHOW GREAT INTEREST IN FARM AND HOME WEEK

Many Letters Received from Farmers—Each Division Prepares Exhibits for Fiftieth Observance

Each division of the college is preparing extensive exhibits for Farm and Home week. Most of the faculty members of the agricultural and engineering departments will be on the speaking program.

The interest aroused by the new radio station and the additions it has made to the week's program, have caused considerably more general interest in this week among Kansas farmers, and, according to Sam Pickard, extension editor, the volume of communications regarding the observance of the fiftieth anniversary is far larger than it has ever been.

A program will be arranged with a view to both educational and entertainment value, Mr. Pickard said. More than ordinary stress will be laid on the combination of entertainment with instruction.

An extensive special show, which will be duplicated in order to allow crowds on each side of the pavilion to view it, is being planned by the animal husbandry department.

An unusual amount of interest in the fruit growing service given through the horticulture department has caused additional stress to be laid on that phase this year.

The agronomy department will also show a very complete display. It will deal particularly with yield and diseases of grains. Several grain judging contests will be staged.

Horseshoe pitching will hold a prominent place on the program again. A number of prizes are offered to the winners and to the runner-up. Dr. C. O. LaSalle, veteran of many a "Barn yard golf" tilt, will be the umpire at the contests.

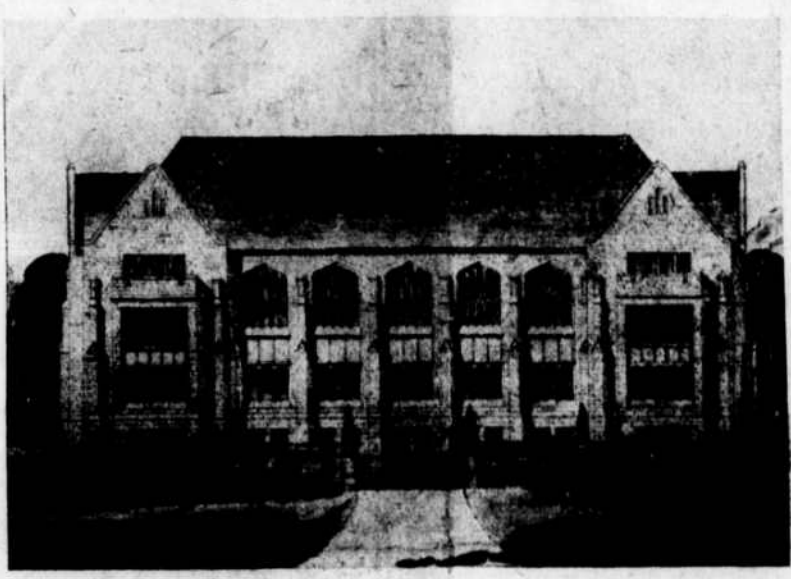

AGGIE LEADS SCORERS

Two Wearers of Purple Included in High Point Men

Two of the five leading scorers in the Missouri Valley basketball race are Kansas Aggies, according to a list of leading scorers published following the Drake game. Bunker of the Aggies tops the list with 54 points made in four games, while Ackerman of Kansas is second with 42 points in four games. Joyner, Missouri, who led the list during the first week, is back in third place having scored 39 points. Moran, Grinnell, is holding down fourth place with 32 points scored in three games, but is being closely pressed by Byers, of the Aggies with 31 points to his credit.

Miss Mina Bates and Miss Elma Stewart will entertain the members of the household economics department with a tea Sunday afternoon at Miss Bates' apartment.

Proposed Library Building

The architect's drawing reproduced above shows the north elevation of the K. S. A. C. library building as planned. The length of the structure, complete, is to be 200 feet. Request for \$250,000 appropriation to build the center section has been made of the legislature by the state board of administration.

LIBRARY PLANS ARE COMPLETE

STRUCTURE ASKED WILL GIVE
MUCH IMPROVED FACILITIES

Present Building Unsafe on Account
of Fire, Water Threat—New
Building of Distinctive
Design

Plans for the new library building at the Kansas State Agricultural college, an appropriation for which has been approved by the board of administration and will be asked at the present session of the Kansas legislature, have been made by the department of architecture at the college.

The style of architecture specified in the plans, collegiate Gothic, will give the building a distinctive appearance, and will cause it to blend well with the surroundings, according to Prof. Paul Weigel, head of the department. "The Gothic style lends itself well to the material which will be used in the outer walls, native limestone. It also is the type of design fitting for a library," commented Professor Weigel.

Space for 500,000 Books

The appropriation of \$350,000 requested by the board of administration will, if granted, permit the building of the center portion of the contemplated structure. The wings at each side shown in the accompanying reproduction of the architect's drawing will be added later.

The site for the new building will be in the space at the north of Denison hall. The illustrations building will be removed to make way for the new structure.

Eventually, it is planned, the new library building will provide space for 500,000 volumes. Stacks will extend from the basement to the third floor at the south side of the building. At the north side of the structure will be a class reserve reading room, 40 by 200 feet, in the basement, a periodical room of similar dimensions on the first floor, and a general reading room of the same floor area, but two full stories in height occupying the second and third floor space. Office space for the librarian and assistants, a bindery, and seminar rooms also will be provided.

Present Quarters Unsafe

Plans for the new building contrast with the present quarters in Fairchild hall where 80,000 volumes are crowded into all the shelving space available and capacity has been reached. In Fairchild hall, according to statistics given out from the office of Prof. A. B. Smith, librarian, the seating capacity of the six small reading rooms is 300, and 3,300 students and faculty members, on an average, use the library daily. The present library quarters are not fireproof and irreparable loss would be caused by a fire there, as a large part of the collection could not be replaced since the works are out of print. Further danger exists in the possibility of overflow water from the sinks in laboratories on the upper floors getting into the stacks and damaging books.

No Collegian Next Week

The Collegian will not be issued next week because of the lack of reporters between semesters, and because many students of the journalism department are going to Topeka to issue the Kansas Day edition of the Topeka Daily Capital.

ARRANGE TRIPS FOR DEBATERS

MEN'S AND WOMEN'S SQUADS
FACE DIFFICULT SCHEDULES

Women to Invade Iowa and Missouri—Men on Western Swing
Late in March

The most ambitious season's debate schedule, both for men's and women's teams, ever undertaken by the Kansas State Agricultural college will open early next month with a series of debates in which the women's teams will take part. Debates for the men's teams all will take place in March.

In addition to a number of contests arranged independently of league schedules, the men's teams will participate in the debates of the Missouri Valley league and the women's teams will meet representatives of the colleges in the Kansas Women's Forensic league. Not all the dates for debates have yet been set, nor have the places at which the contests will take place been selected in all cases.

Women's Team Leaves State

In the Kansas league the women debaters will meet Kansas State Teachers' college of Emporia, Bethany college, Washburn college, and Ottawa university. The women's squad late in February will invade Iowa and Missouri for a series of debates. This trip is of especial interest for two reasons, according to Prof. H. B. Summers, coach of the teams. It will mark the first time a women's team from K. S. A. C. has gone outside the state in recent years, and during the course of the trip nearly every style of debate will be used.

At Missouri Wesleyan college the usual debating arrangements will be followed, except that there will be only one judge. At Penn college, Oskaloosa, Mo., the question will be selected eight hours before the debate and the girls will prepare without the aid of their coach. At Simpson college, Indianola, Iowa, no decision will be rendered. At Morningside college, Sioux City, Iowa, the Oxford system of splitting teams will be employed. Under this plan one debater from the Kansas team will change places with one from the Iowa team.

Men to Make Trip

The men's schedule includes home debates with Drake university, Kansas university, and Oregon Agricultural college, and dual contests with South Dakota university and Oklahoma university. The squad also will make a trip to the western coast, engaging in forensic contests with Colorado Agricultural college, Wyoming university, Montana university, Washington State college, Oregon Agricultural college, Leland Stanford, Jr., university, and the University of Southern California.

In accordance with the plan inaugurated last year an attempt will be made to stage one of the debates in student assembly. According to Coach Summers the Oregon Aggies contest probably will be the one chosen. The men's squad will use only two questions during the season. The first concerns the proposed measure giving congress the power to override supreme court vetoes of laws. The second is that of repeal of the Japanese exclusion provisions of the Johnson immigration law.

Nine in Men's Squad

Members of the men's debate squad are as follows:

H. H. Brown, Edmond; Raymond Davis, Edmington; Robert Hedberg, Oklahoma City, Okla.; C. W. Londerholm, Kansas City, Mo.; Frank

Morrison, Manhattan; Paul Pfeutze, Manhattan; Zaven Surmellan, Armenia; Cecil Walt, Gove; Forrest Whan, Manhattan.

Members of the women's squad: Phyllis Belknap, Abilene; Roxie Bollinger, Washington; Lillie Brandley, Manhattan; Helen Correll, Manhattan; Alice Englund, Falun; Mary Halse, Manhattan; Inez Howard, Burrton; Mary Marcene Kimball, Manhattan; Mildred Leech, Manhattan; Lois McNitt, Washington; Charlotte Swanson, Manhattan; Mrs. Birdie von Trebra, Oswego; Inez Wilson, Eskridge; and Corrine Wiltrout, Logan.

No schedule has yet been made for the men's freshman squad, but a series of debates probably will be arranged.

Cut Mystery! Did Boy Seek Thrill or Not?

Ans.—Probably Not

Perhaps he had never had a cut and craved a thrill, perhaps he was too modest to mark after his own name, perhaps he was too excited over the honor bestowed upon him, or perhaps he was a bit absent-minded. Whatever the cause, the result is that he has a cut.

A freshman was asked by his gym instructor to call the roll in class. He did—and marked himself absent. Now he has a cut in the dean's office.

He not only acquired a cut but missed a wonderful opportunity. Just think, he might have marked himself present for the remainder of the semester, then have taken a long vacation from gym without any thought of possible consequences!

He is marked as a boy who spurns opportunity.

AG ECS SECURE MANY WELL KNOWN SPEAKERS

Department Plans Comprehensive Program for Farm Week

A comprehensive program for Farm and Home week is being planned by the department of agricultural economics. Nationally known authorities will discuss the important economic problems now confronting Kansas farmers.

Tuesday, February 3, will be devoted to a discussion of the production and marketing of Kansas crops. The principal speaker of that date will be Mr. H. D. Yoder, vice-president and sales manager of the Topeka Flour mills and chairman of the export committee of the Southwestern Millers' league.

Wednesday will be livestock day. On Thursday, taxation, crop forecasting, and other similar problems will be discussed. E. N. Wentworth, director of the research bureau of Armour and company, F. M. Simpson, general manager of the Producers' Commission association of Kansas City, and E. C. Paxton, agricultural statistician for Kansas will appear on the Wednesday and Thursday programs. Tax problems, work of farm account clubs, and marketing problems will constitute the program on Friday, February 6.

In addition to the speakers mentioned, other men prominent in related lines of work and faculty members of the department of agricultural economics will take part in each program.

AGGIES ON G. E. AIR PROGRAM

Songs and Cheers of Many Schools to Be Broadcast

A trumpet and flute duet, "An Evening on the Sea," by A. F. Sellers and F. L. Hempker, K. S. A. C. graduates, will be one of the features of the International Intercollegiate Night on the Air program which will be broadcast from WGY, the General Electric broadcasting station at Schenectady, N. Y., on the night of Saturday, January 31. Kansas State songs and cheers, by Kansas State alumni, will go on the air on the same program.

Other features of the evening will include the songs and cheers of many other colleges and universities; songs by the British Empire group, consisting of college men from New Zealand, Australia, South Africa, India, Canada, and the British Isles; a burlesque skit presented by Massachusetts Institute of Technology alumni; musical selections by the Edison Club string orchestra, composed entirely of college graduates; instrumental and vocal solo numbers rendered by former college men now in the employ of the General Electric company; native songs by a quartet of graduates of the Royal Polytechnic Institute of Sweden; native music played by Chinese engineers; and group singing by all those participating in the entertainment, as well as one or more short talks.

JANUARY 30 SET AS PLAY DATE

PURPLE MASQUE PLAYERS TO
PRESENT "THE FIRST YEAR"

Jack Kennedy, Male Lead, Has Recovered from an Injury Sustained During Road Trip

"The First Year" will be presented at the college auditorium Friday, January 30. The play, a Purple Masque production, was presented in a series of performances in several Kansas towns during December, but because of injury to Jack Kennedy, playing the male lead, the performance here was postponed.

That the play is a decided success is evidenced by reports of approval from the towns in which it was presented. Of the performance at Concordia, where it was first given, the Blade-Empire of that city commented, "Seldom does an amateur production come up to the mark set by these young players, some of them giving performances that would entitle them to professional rank."

The second performance was given at Clay Center where the play was also given approval. Other performances included Junction City, McPherson, and Herington. The last performance brought the following comment in the Herington Sun: "A remarkably good presentation of an excellent play. Each character was well portrayed by an able cast."

"The First Year" was written by Frank Craven and in its first night at the Little Theater in New York in 1920, Craven played in the male lead. Critics judged it the year's best comedy.

Members of the cast are Jack Kennedy, in the character of the male lead, Thomas Tucker; Rebecca Thacher, playing the opposite lead, Grace Livingston; Fred Volland, Mr. Livingston; Lillian Kammeyer, Mrs. Livingston; Harold Sappenfeld, Dick Loring; James Lansing, Doctor Anderson; Arthur Maxwell, Mr. Barstow; Betty McColin, Mrs. Barstow; and Lois Ghasty, Hattie. The play is coached by E. G. McDonald.

WILL GIVE THREE ADDRESSES

Miss Kneeland Is Authority on Home Economics Problems

Three of the principal addresses on the Farm and Home week program will be given by Miss Hildegard Kneeland, formerly head of the department of household economics at K. S. A. C. and now in charge of the division of economics studies in bureau of home economics, United States department of agriculture.

Miss Kneeland, who comes here under the auspices of the division of home economics of the college, is, by training and professional experience, an authority on social and economic problems of the home. She will deliver her first address at 2:00 Tuesday afternoon on "Your Household Resources." At 8 o'clock Tuesday evening she will speak to the general assembly at the college auditorium on "The Family and the Income." "Thrifty Habits in the Home" will be the subject of her last address which will be given Wednesday afternoon at 2:30 o'clock.

The economics of consumption and the value of women's work in the home are two special fields in which extensive work is being done under Miss Kneeland's supervision. The research in these fields is to point the way to better and more efficient utilization of time and income in the home and to determine what portion of the homemaker's work is of an economic character and actually contributes to the family income.

While in Kansas Miss Kneeland will speak at the February meeting of the Topeka Home Economics association at Topeka.

SHEDD TO K. S. A. C.

Appointed Extension Engineer to Succeed Ward Havenhill

The position of extension engineer at K. S. A. C., made vacant by the resignation of Ward Havenhill, has been filled by the appointment of Claude K. Shedd, who comes as assistant professor of rural engineering, division of extension, it was announced yesterday. Mr. Shedd will handle the extension work in farm power machinery and land reclamation.

The new member of the faculty was reared on a Nebraska farm, graduated in agriculture from the University of Nebraska in 1909, and in 1914 was granted a degree in agricultural engineering from Iowa State college. He taught at Nebraska university two years and held a position in the agricultural engineering department at Ames until 1919 when he was called back to Nebraska to supervise the tractor testing work.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural College.

WINNERS AND LOSERS

"The world loves a winner."

The above is a trite expression but it ably expresses a distressing fact in a few words.

Its truth has been brought forcibly to our minds since the beginning of the present basketball season. When the first game was played with Nebraska a fairly good crowd was present although any exhibition of Aggie loyalty was sadly lacking. The members of the team fought and played as hard as they knew how in this contest but the final score was against them. Then the knockers began to work. The team was laughed at and within a day or two the coming basketball season was in a fair way to be ignored.

But a few days later this same basketball team journeyed to Lawrence and there gave Kansas university the worst drubbing it has ever experienced on its home court. It was so easy for Corsaut's men that he played a second team during the closing minutes. It was a bitter pill for Kansas university to swallow.

And then when the news came to Manhattan practically everyone was incredulous. They wouldn't believe that the team that lost to Nebraska could conquer the mighty University team by such a lopsided score.

After this victory the team was elevated to a position of glory again. There was a record crowd at the next home game, the Wampus Cats and the cheer leader were on hand, and everyone was filled with expectation as to what the outcome would be. After the game was won the players on the team were complimented and interest in the season gained headway. When Drake was overwhelmed so easily the team continued in the popular limelight. And now everyone is looking for a valley championship.

But it was the same team that was beaten by Nebraska. The members of it played just as hard as they were able. But when the game was lost they were discredited.

It is human nature to love a winner. And most college students are somewhat human and as it is impossible to change human nature, such an attitude will have to be endured. The right kind of college loyalty should offset a fact of this kind at least in a partial degree. But loyalty cannot be forced into a person and until the student body will support its college teams—the losers as well as the winners—as they should be supported, such a condition will have to be endured.

Since the Royal Purple has advertised almost every place else, it wouldn't be entirely out of place to give them a bit of publicity here. Be sure and get the Royal Purple—even if you have to steal it.

The Royal Purple staff had to prove that the contest, the beauty contest, was not a fake. Who accused them of such a thing? We would never have done that, we would have charged it up as a joke.

Some one lost a good chance when the Kansas Chemists' club got out of town without being assassinated.

Harry is getting worse. He lay out on the sleeping porch and yelled for 10 minutes for some one to come out and wake him up.

And so they are going to beautify the campus! Well, just imagine the feelings of President Jardine when he sees the new cage for Touchdown II. Providing they get the new cage.

Along the line of beautification the best thing we can suggest is the dismissal of all girls from the college.

Yes, spring is surely coming. The new hats are making their appear-

ance and the girls are blossoming out in furs.

We have just figured it out. The term "final examination" is derived from the fact that the examination is the final—more ways than one.

There is one thing that a student should never do. That is to pass up a question without attempting an answer. If you don't know the answer write something. It will serve a double purpose. You might possibly guess the answer, and then it gives the professor something more to read. Professors like to read examination papers. If they don't, why do they give examinations?

The flag pole doesn't seem to be growing much since it was pruned. No doubt it will revive when spring rolls around.

Harry wishes to have his identity exposed, disclosed, or whatever one does to one's identity. However, as he lived this long without being known he might as well continue to exist in obscurity. At any rate, he's going to.

Well, finals are over, the term is practically ended, but the smoke hasn't yet cleared from the field of battle. When it does, there is only one thing left to do. That is to do the darn thing all over again. Isn't that a pessimistic thought to end up with?

On Other Hills

Total robberies from fraternity houses at Chicago university last year amounted to \$5,313.

Harvard Freshman Discussion club voted overwhelmingly not to abolish hazing. To do so, it was felt, would kill the unity of the entering

class and cause indifference and lack of spirit.

Green theme paper is used in certain classes at Wisconsin university as a relief for the eyes.

University of Pittsburgh is to build a 52 story building, designed to accommodate 12,000 students and to cost \$10,000,000.

Hood college students celebrate a pay day every year on which occasion everybody in college settles all debts and starts the year clean. A central point of meeting is decided upon for this purpose.

There are 618 universities, colleges, and professional schools in the United States, 50 of which are in New York, 48 in Pennsylvania, and 40 in Ohio.

Tardiness is becoming less common in a class in a certain western college where a professor removes vacant chairs from the room so that late-comers are obliged to stand.

Chinese students at Columbia university recently acted as interpreters in a trial of 50 participants in a Tong war in New York's Chinatown.

Michigan university is conducting a contest to see who can find the oldest and most disreputable automobile.

Forty-nine students of the University of Missouri subscribed to a resolution declaring they would not take part in any future war. Twenty-three were men and 26 were women.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A. Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

RADIO PROGRAMS ARE APPRECIATED

EXTENSION DIVISION RECEIVES CONGRATULATIONS

Question Box Is Popular—8,000 Students Are Enrolled in the 40 Courses

A long forward stride in economic producing and marketing was made, when the new broadcasting station, KSAC, was dedicated, December 1, judging from the congratulatory communications which have been received by the extension service division.

The programs given during December and January were greatly approved and have led to the addition of many other features to the "College of the Air."

Question Box Popular

The most popular phase of the KSAC broadcasting is the question box at 12:30 each week day. Some one to two dozen questions are answered at this time by specialists. The "College of the Air" program, starting at 7:20 each evening con-

sists of a series of courses in agriculture, home economics, engineering, and general science. The subject matter is timely, concise and practical. For example the poultry production course offered in the regular college course is merely condensed and broadcast.

A radio college catalog and an enrollment card are sent upon request to any one interested. He checks the subjects which are of interest to him and returns the card to the extension service. All doing this become "Aggies of the Air" and the lectures are sent to them a day after they are broadcast. At the end of the course, questions are mailed to the student and if answered satisfactorily a certificate is issued to him. There are now 8,000 enrolled in the 40 courses offered.

Program for Women

The Thursday evening program is especially for women. It includes courses and lectures covering the chief problems of the mother and housekeeper. Hundreds of housewives have asked for a morning session which will be from 10 to 10:10 and will be called "Back Yard Gossip." This program will include "Suggestions for Today's Meals."

Numbers by student's quartette and faculty quartette with a variety of duets and solos give variety to the

programs. A special musical program known as "Down on the Farm Musical Revue," is featured Thursday evenings from 8 to 9 o'clock. A strictly classical musical program is given by the music department at regular intervals.

Prof. G. A. Dean returned Wednesday evening from a trip through Oklahoma and Texas where he has been investigating the green bug situation. While at the Oklahoma Agricultural college he saw Prof. Carl Thompson, Miss Francis Brown, and W. L. Blizard, graduates of K. S. A. C. who are teaching at the Oklahoma Agricultural college.

The marriage of Miss Donna Sillett, a teacher in the Blumont grade school, to Mr. Ernest Trull, of Parker, Kan., which took place January 19, was announced Monday

evening, at a wedding dinner given at the Gamma Phi Delta house in honor of Mr. and Mrs. Trull.

What is believed to be the only troop of blind Boy Scouts in the world is Troop 254 of the Bronx composed of 14 boys.

"K" FRATERNITY INITIATED 23 MEN

ANOTHER GROUP SCHEDULED FOR LATER CEREMONY

Fraternity Includes All Athletes of the College Who Have Won Letters—Some Held Over from Last Spring

Twenty-three men were initiated into the "K" athletic fraternity of the college at a meeting last week, according to Art Doolen, secretary. The initiates included most of the men who made their letters for the first time during the football season last fall, members of the cross country team, and members of the baseball and track team who were not initiated last spring.

Holders of the "K's" who were not initiated at the meeting will go through the process later on in the year.

The membership of the "K" fraternity includes all men who have made their letters in any form of athletics.

Those who were initiated were Ralph Kimport, Norton, track; R. P. Alkman, Anness, cross country; Paul Axtell, Argonia, cross country; E. E. Coleman, Wichita, cross country; M. L. Sallee, Long Island, cross country; Ralph Karns, Ada, baseball; Si Tombaugh, Kansas City, Kan., football; Owen Cochrane, Manhattan, football; E. E. Feather, Minneapolis, football; Russell Hoffman, Cherryvale, football; Don Meek, Idaho, football; Ray Smith, Manhattan, football; Myron Reed, Norton, football; Kerr Whitfield, Ness City, football; Kenneth Yandell, Wilson, football; Joe Anderson, Salina, football; H. J. Dayhoff, Abilene, football; Chester Havley, Frankfort, football; Jerry Krysl, Lucas, football; P. R. Carter, Bradford, track; H. A. Brockway, Olathe, track; and F. A. Brunkau, Ellinwood, track.

MISSOURI VALLEY RELAYS TO BE HELD HERE MAY 16

Expect Representatives from Outside States—Number of Individual Entrants May Be Limited

The fourth annual Missouri Valley Interscholastic relay meet will be held on Stadium field May 16, according to a statement made by M. F. Ahearn, director of athletics at the college.

In the 1922 relay carnival, which was the first meet of this kind to be held here, 30 schools representing four states, participated, sending a total of 125 athletes. Kemper Military academy of Missouri scored

records. Three hundred and fifty athletes representing 59 high schools were here, only four states having sent contestants.

Last year showed a great increase in attendance, 70 schools from five states entering more than 385 athletes. One world's record and six carnival records were broken, Northeast high of Kansas City breaking both the American and the world's interscholastic record in the quarter-mile relay.

"We expect more representatives from outside states this year," says Coach Bachman, "and may have to limit the number of entrants sent by each school."

Announce Officials for Meet. Officials for the Purple and White track meet, which will be held in Nichols gymnasium tonight, are as follows: M. F. Ahearn, Frank Root, E.

A. Knott, C. W. Corsaut, Dr. E. J. Frick, Prof. R. I. Throckmorton, Prof. Robert Conover, Prof. L. O. Hamilton, Captain R. C. Stickney, Prof. Walter Latschaw, Prof. C. E. Rogers, Prof. Walter Balch, and Dean E. L. Holton.

Prof. B. F. Eyer of Kansas City, for many years a member of the faculty of the engineering division of K. S. A. C., and more recently engaged in private practice as an engineering and investment consultant, has been appointed as Kansas

City representative on the investment department of the associated companies of the Illinois Power and Light corporation.

English Model Suits —The Leader With Young Men!

That much-desired "atmosphere" which young men demand in their Suits characterizes this particular model and gives it an unquestionable pre-eminence. The semi-straight back of the coat which has no vent, the semi-blunt vest and the straight hanging trousers makes it distinctively the leading style for Spring. Furthermore, its easy fitting lines make it decidedly smart.

Two Button Single-Breasted Suits

as illustrated here, and as created by an authoritative designer of stylish clothes for young men.

We have this model in three attractive price groups but the one we wish to especially bring to your attention offers you a truly remarkable saving. The price is

\$35.00

With 2 pr. Pants

We also have this model at \$32.50 and \$37.50. The difference is in the finishing and workmanship.

Colors are light greys, London lavender and light brown.

Young Men, when it comes to correct styles in clothing our New York buyers never miss the leaders. Their large orders for our 571 Stores, always give you the greatest savings.

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, FEBRUARY 3, 1925

NO. 36

10 ASSEMBLIES FOR THIS WEEK

NATIONAL FIGURES ADDRESS FARM AND HOME VISITORS

Fifty-two Guests Enrolled by O'clock Monday—Many Farm Organizations Will Meet

CHIEF SPEAKERS OF FARM AND HOME WEEK

W. M. Jardine, president, Kansas State Agricultural college, member of President Coolidge's agricultural commission.
Finley P. Mount, president of the National Association of Farm Equipment Manufacturers.
Miss Hildegarde Kneeland, home economics bureau of research, United States department of agriculture, Washington, D. C.
Samuel D. Gromer, economist, University of Missouri.
F. A. Waugh, head, department of horticulture and landscape gardening, Massachusetts Agricultural college.
M. L. McClure, chairman of the board of directors, Federal Reserve bank, Kansas City, Mo.
Dr. H. J. Waters, managing editor, Kansas City Weekly Star.
Alan Phillips, head, department of poultry husbandry, Purdue university.
Wayne Dinsmore, secretary, American Horse association, Chicago, Ill.

Registration of the Farm and Home week visitors started yesterday morning, and by 4 o'clock 52 persons had signed up for the week. The first meeting of the week was a general assembly, held in the college auditorium Monday afternoon at 2 o'clock. The morning was spent by the visitors in touring the campus and inspecting the different buildings. Among the first visitors to arrive were many old "grads," some of whom had not been back to college for eight or 10 years.

Departments Have Exhibits

During the week each department will have its own exhibits and talks. The visitors have but to sign in the course in which they are most interested and Prof. L. C. Williams promises that all principal topics in each division will receive sufficient attention. Professor Williams stated that the program this year had been planned to answer questions which are being asked all of the time by Kansas farmers. The volume of these requests has increased since Station KSAC has started broadcasting.

Thirteen departmental short courses, 10 general assemblies, one each morning and one each evening, the annual banquet, several contests, the livestock show, and meetings of a score of Kansas farm organizations are included in the week's schedule.

Many Annual Meetings

Under the direction of the agronomy department a meeting of the Kansas Crop Improvement association and a Legume congress will be held on the last three days of the Farm and Home week period. The Kansas State Dairy association and various subsidiary organizations will hold annual gatherings as part of the dairy husbandry department program. The twenty-first annual meeting of the Kansas Veterinary Medical association and the fourth annual conference of Kansas veterinarians will be held in the veterinary division building on Wednesday, Thursday, and Friday. Special sessions are offered for boys' and girls' club leaders on Thursday and Friday. On Friday a conference for visiting editors and journalism students will be held under the direction of the journalism department.

A special program has been arranged by the departments of zoology and entomology. Motion pictures, lectures, and an inspection tour through new Station KSAC are included in the radio program which is set for Wednesday, February 4, and which is expected to prove one of the week's most popular features.

Horseshoe Pitchers Will Contest

The amateur horseshoe pitching championship of Kansas will be decided at the annual contest which will be held in the stock judging pavilion on Tuesday and Wednesday. Trophies will be awarded to winning teams and individuals. Trophies also will be given to winners in the livestock judging contests to be held on Tuesday, Wednesday, Thursday, and Friday mornings. Orchardists are invited to compete in an apple judging contest which will be held on Friday morning. The crop improvement association has announced a grain judging contest to be held in connection with its meeting.

The silver loving cup which has been awarded for the last two years to the county farm bureau best represented at Farm and Home week will be offered again this year. The will be offered again this year. The cup

becomes the permanent property of the county winning it for three consecutive years. Leavenworth county won in 1921, Marshall county in 1922, Sedgewick county in 1923, and Marshall county again in 1924.

Grimes to Topeka

Prof. W. E. Grimes of the department of agricultural economics went to Topeka Thursday night, January 22, to take part in the program of the Shawnee County Potato Growers' association at their annual banquet. Professor Grimes discussed the agricultural situation and the economic outlook for 1925.

KANSAS DAY DAILY CAPITAL IS BEST STUDENT EDITION

Aggie Journalists Have Excellent Editorial Page—Write Over 25 Columns of News

The Kansas day edition of the Topeka Daily Capital, the news of which was gathered by journalism students of K. S. A. C., is the best student edition ever published by the Capital, according to a statement made by Cliff Stratton managing editor of the Capital, after it was off the press Friday morning. The Kansas day edition is one of the big editions of the year, and has been put out by Aggie students for several years.

The editorial page, according to Mr. Stratton, was especially good, the editorials being well chosen and well written. The Aggie students covered practically everything that the paper carried except the telegraph news. Over twenty-five columns of news material were written by K. S. A. C. students.

The students who made the trip were Kenneth Chappell, D. M. Weiser, Chas. R. Marshall, R. G. Brown, Adelle Walker, Rowena Brown, Ruth Holton, Nina Mae Howard, Marjorie Ainsworth, Fern Anderson, Milton Kerr, Maxine Ransom, John Gartner, J. E. Conklin, Helen Correll, R. I. Thackrey, G. Ferris, R. L. Youngman, L. E. Childers, Fred Shideler, Alice Nichols, Mary M. Kimball, L. W. Youngman, Margaret Plouffe, Lucile Potter, Dorothy Stevenson, and Alice Paddelford.

Ruth Bachelder, and Muriel Shaver sent editorial and column material for the paper but did not make the trip.

LEGISLATURE VISITS K. S. A. C.

Will Look Over Plans for New Library

Several members of the ways and means committee of the house of representatives of the state legislature will be in Manhattan some time within the next few days to make their annual inspection of the college and its needs.

President W. M. Jardine in his biennial report to the state legislature has requested an appropriation of \$350,000 to be used in the construction of a new three story library building, for K. S. A. C. This building has been recommended by the state board of administration, and the appropriation necessary has been approved by the board.

The legislative committee will look over the new plans for the library building which have just been made public by the department of architecture, and will inspect the old library building.

The old K. S. A. C. library quarters in Fairchild hall have reached their capacity, there being now 80,000 volumes crowded into all the shelving space available. The building is not fire proof and there is constant danger of loss of many valuable books, which are now out of print.

Miss Maud Williamson will attend the conference on Vocational Homemaking at Topeka, Wednesday, February 4.

CAMPUS CHEST FOR CHARITIES

DRIVE FOR FUNDS WILL SOON BE LAUNCHED

S. S. G. A. Recommends Drive—Student Friendship Fund and Canton Christian College to Be Items

A Campus Chest drive to raise funds for various charitable enterprises will be launched at the college this week from February 4 to 12. This drive, which was recommended last year by the S. S. G. A. and the faculty council on student affairs, is for the benefit of off-campus causes which have depended upon separate drives for their support in the past.

Other Colleges Use This Plan

This plan has been in use for several years in colleges such as Yale, Oberlin, and Princeton. It has proved successful by protecting students and faculty from many appeals, promoting college spirit and good will toward outside causes, and by concentrating charity gifts to a few worthy causes so that results might be observed.

The K. S. A. C. Campus Chest will contain two items. The first is the Student Friendship fund which offers relief to students and instructors in Europe by giving books, clothing, food, and medical attention, without regard to race, creed, or political affiliation. It also helps foreign students in this country and forms a bond between students in America and students in foreign nations.

The second item is the Canton Christian college, which is one of the best educational institutions in China. It is non-denominational and is chartered under the state of New York.

Student Worker to Speak

The speaker for the week is Miss Margaret Quayle, internationally known student worker of Europe and former student secretary in Prague. She will speak Wednesday afternoon at 4 o'clock in the home economics rest room. Thursday noon at the student forum Miss Quayle will speak on "The Significance of the Youth Movements in Europe." Tickets may be secured at the Y. M. C. A. or Y. W. C. A. offices, or at the east entrance of the cafeteria.

Every student and faculty member will be asked to contribute to this fund sometime between February 4 and 12. The student body has been divided into groups for the drive. Charlotte Swanson has charge of canvassing the fraternities and sororities, Hal Brown the literary societies, and Philip Noble and Helen Hale the non-fraternity group.

The various committees in charge of the drive are: promotion committee, Irene Barnes, Ruth Peck, Mary Pile; executive committee, Professor Andrews, department of education; Prof. H. A. Shinn, public speaking department; Charlotte Swanson, representing the S. S. G. A.; publicity committee, George Filling, Helen Graham, Lillian Kammer, Prof. H. A. Shinn is treasurer of the drive.

ENGINEERS' OPEN HOUSE

THURSDAY AFTERNOON

Annual Show of Engineering Division to Include Many Interesting and Instructing Exhibits

The engineers' annual open house will be held Thursday afternoon, February 5, from 1:30 to 6:00. This will be one of the features of Farm and Home week conducted by the division of extension.

Every department in the division will take part in the open house and all will have displays, demonstrating their line of work.

The electrical engineers will display a modern farm home equipped as it should be according to their instruction. They will also have demonstrations of radio sets, accompanied by a lecture. A special program, in which H. J. Waters, editor of the Weekly Kansas City Star and former president of K. S. A. C., will be the principal speaker, will be broadcast from WDAF at Kansas City, and received at the engineering building.

A modern power house recently installed in the mechanical department will be open for inspection. All machinery in the whole division will be running, and the public will have an excellent opportunity at this time to see the students at work in the foundry, the blacksmith shop, the machine shops, and the woodworking department.

Machine guns and other field equipment handled by the artillery will be on display. Exhibits are expected to be conducted by the chemistry and physics departments, also.

A complete flour mill, with all the modern equipment, tractors, and all other farm machinery will be displayed by the agricultural engineers. Methods of testing road materials, different kinds of roads, and experiments showing best material for roads will be conducted by the civil engineers.

One of the most interesting exhibits in the division will be that of the architects, which will include plates of their work throughout the year, and their methods of procedure in instruction.

The buildings will be marked so that persons visiting the exhibits will have no difficulty in finding their way to the various departments. C. W. Schemm, president of the engineering association, has charge of the open house. M. R. Buck has charge of the publicity, and A. B. Cash and George A. Plank are business managers.

FOUR THOUSAND ENROLLED HERE

REGISTRATION MACHINE GRINDS OUT 2600 ENROLMENTS

Record for First Day Is Broken by 200—No Classes Closed Until Afternoon

"Enrolment figures since the beginning of the summer school session of 1924 and including those of the present semester total about four thousand," says Miss Jessie McDowell Machir, registrar.

"The registration machine functioned more smoothly this time than ever in the past, the assigners who have served for several years said. This was due to the introduction of a new relay system. By working assigners in relays, it was possible to continue the registration through the noon hours so that the doors were not closed until 5 o'clock," Miss Machir said in commenting on the enrolment of last week.

Federal Training School Closing

"The increase in enrolment," she said, "is more pronounced this year by the fact that the subcollegiate registration of the vocational men is no longer included since the federal training school is closing at K. S. A. C."

A record of 1900 students through the machine in one day was made, this being about 200 more than were put through last fall in a single day. The total number of students who have enrolled for the second semester has exceeded the 2600 mark. This is approximately 100 more than the number which registered for work in the second semester last year.

No Classes Closed by Noon

A rather interesting sidelight on the registration this year was the fact that no classes were closed until after noon. Generally classes begin to close sometime in the middle of the morning of the first day. However, shortly after noon the classes began to close quite rapidly and by four o'clock many had to return to their assigners for a new schedule.

Classes met at 8 o'clock Thursday morning.

Nominators Elected

The Y. W. C. A. nominating committee for the new officers has been elected by the cabinet. Election of officers will be held in March. The new officers will then be installed during the evening after the big spring house party of the Y. W. C. A. The members of the nominating committee are: Evelyn Colburn, Ruth Bachelder, Lois Richardson, Genevieve Tracy, Marie Insley, Miss Harless, and Miss Wildy.

STUDENT RELIGIOUS CLUBS PLAN CAMPUS FEDERATION

Presidents of Organizations Meet and Elect Temporary Officers—Will Bring in Prominent Speakers

Plans for student Christian federation on the campus have been taken up by student organizations in the various churches of Manhattan. At a meeting Friday evening at the cafeteria, the presidents of these religious clubs formed a temporary organization to plan a federation of clubs to unite and promote religious and social activities on the campus.

Temporary officers elected were, M. R. Buck, chairman, and Margaret Newcomb, secretary. The main function of the organization as planned is to push campus religious activities. It is planned to procure two or three outstanding speakers to come and conduct a week of services on the campus. The presidents will now discuss the plans with their individual club and another meeting will be called in about a month. The committee on organization is, Leslie

Combs, Bessie Geffert, and M. C. Rodney.

Those who attended the meeting Friday evening were: Harold Lantis, B. Y. P. U., Baptist; M. R. Buck, E. L., Methodist; Leslie Combs, C. E., Christian; Earl Hinden, Wise Club, Episcopal; J. J. McDonald, C. E., Congregational; M. C. Rodney, Newman Club, Catholic; Margaret Newcomb, C. E., United Presbyterian; Bessie Geffert, Lutheran club; Miss Sparrowhawk, religious director of the Congregational church; Mrs. Thompson of the Christian church; B. A. Rogers, student pastor of the Methodist church; A. A. Holtz, and Miss Lois Wildy from the Y. M. C. A. and Y. W. C. A.

SHORT COURSE MAN DIES AFTER INJURIES AT SHOPS

I. R. Angell, Portis, Is Struck in Head by Flying Pieces of Broken Emery Wheel

I. R. Angell, 21, a second year student in the trade courses, died Friday afternoon in the Charlotte Swift hospital as a result of the injuries sustained when the emery wheel which he was using in the machine shops that morning broke, pieces of it striking him in the head, fracturing his skull, and imbedding splinters from the skull in his brain. Angell was grinding some metal on the wheel, which is driven at a high rate of speed, when the accident occurred. He was taken at once to the college hospital where he was given emergency treatment by Dr. Siever. Later he was removed to the Charlotte Swift hospital, where an operation was performed, several pieces of bone from the skull being extracted in order to relieve the pressure on his brain.

Although he was unconscious when taken to the hospital, Angell regained consciousness and appeared to be resting Friday afternoon, according to reports. There was no apparent struggle or suffering when he died, death coming instantly as though from a hemorrhage of the brain. Officials of the college department of student health notified Angell's parents of his dangerous condition immediately after the accident, and Mr. and Mrs. R. Angell, Portis, arrived here Saturday morning.

The I. O. O. F. of Manhattan, of which Angell was a member, took charge of the body Friday afternoon.

FOUR DAYS OF VACATION AT EASTER IS PROSPECT

S. S. G. A. and Faculty Council Approve Plan Eliminating Roughneck and Cleanup Days

Easter holidays starting Thursday evening before Easter Sunday and ending the Monday evening following, will be granted if President Jardine's consent can be gained. The student council of S. S. G. A. passed on the proposal some time ago and according to a notice received by F. E. Wiebrecht, president of the student council of S. S. G. A., the faculty council has also passed on the proposition. If the holidays in consideration should be granted Roughneck day and Cleanup day will be dispensed with temporarily, since President Jardine feels that four holidays will be sufficient.

SHOULD BE VACCINATED

Students Are Urged to Help Prevent Epidemics

The department of student health urges all students who have not been vaccinated for smallpox, and who have not taken the prophylaxis for typhoid fever to do so as soon as possible. There has been no epidemic of either in Manhattan this year, and if all students will take this precaution there need be none. A supply of fresh vaccine has been received by the department, and is best to take this treatment while the vaccine is still fresh.

Miller Captains Rifle Team

Ernest Miller has been elected captain of the K. S. A. C. rifle team for 1925. He has been a member of the rifle team for the past two years. The team is now shooting a match with Fairmount college and North Dakota university. Men who are shooting in this match are as follows: E. E. Howard, W. S. Mayden, Ernest Miller, O. K. Correll, T. H. Long, D. C. Taylor, R. L. Roberts, V. C. Hill, E. R. Martin, M. H. Johnson, Norris Meek, and Cecil Walt.

Reassignments

Only students who have errors in their assignments and students in unbalanced classes will receive reassignments the first half of this week. Reassignments for any other reason will not be made until Thursday, February 5.

ARTISTS SERIES NUMBER TONIGHT

MISS KATHRYN BROWNE, MEZZO-SOPRANO, TO GIVE CONCERT

Third Number of Annual Series Will Be Given in Auditorium at 8:30

Miss Kathryn Browne, youthful mezzo-soprano with the Chicago Civic Opera company, will give the third number of the K. S. A. C. Artists series this evening at 8:30 when she appears in concert at the college auditorium.

Miss Browne is the artist selected by the critics of the Chicago opera from a thousand of the best mezzo-sopranos of the country. While yet a student, the Chicago Musical College Master school selected her as the winner of the famous Oscar Saenger scholarship, with several thousand of the best young artists in America in the school.

Asked to Sing in Europe

Since signing her contract with the Chicago opera for next season she has been offered the honor of singing the feature mezzo-soprano roles in several of the famous opera houses of Europe. At her debut recital the critics said of her, "She held her large audience completely spellbound with her liquid voice and charming stage presence."

In this day of specialized work, especially in the arts, few musicians have been graduated from any of the universities. Miss Browne has a bachelor's degree from the University of Illinois. The Victoria College of Music, London, England, awarded her the degree of "licentiate" for professional proficiency in vocal music, with highest honors. General Pershing also presented her with a beautiful certificate in remembrance of her fine work singing to the American soldiers in France.

Granville English Is Accompanist
Miss Browne, assisted by Granville English, composer-pianist, will give the following program:

I
Bois Epais Lully
Caro Caro el mio Bambino.....Guarneri
I've Been Roaming Horn
Miss Browne

II
Recitative and Aria—"Liet Signor"
(from "Les Huguenots") Meyerbeer
Miss Browne

III
Nocturne..... Curran
Expectancy La Forge
A Memory Ganz
Habanera ("Carmen") Bizet
Miss Browne

IV
Passacaglia Cyril Scott
When Moonlight Falls
Scherzo, B flat minor Chopin
Mr. Granville English

V
None But the Lonely Heart
..... Tschalkowsky
Revery Arensky
Plaisir d'Amour Martini
Petite Pensee Townsend
Sur la Terrasse de St. Germain
..... Fouldroin
Miss Browne

VI
Were My Songs with Wings Provided Hahn

Lonely Hours Granville English
Evening Song Gilbarte
Dawn Curran
Miss Browne

DEBATERS MEET BETHANY

Hold First Contest Under Direction of Women's Forensic League

The K. S. A. C. debate team, representing the Kansas Women's Forensic league, will meet Bethany college here Wednesday evening, February 4, in Recreation hall. The question for discussion will be LaFollette's proposed overruling of supreme court decisions, holding acts of congress unconstitutional.

This will be the first debate here under the direction of the Kansas Women's Forensic league. The team which is to represent the college has not been chosen, according to H. B. Summers, debate coach. The delay in choosing the team is due to the illness of several members of the debate class, Mr. Summers said.

After the opening debate of the season here next Wednesday night other verbal conflicts will follow with Washburn and Emporia State Teachers' college. Prospects are that the Aggies will have a strong team this year and Coach Summers states that he has a wealth of material.

Miss Maud Williamson of the department of education, went to Ottawa, Kan., Tuesday, February 3, where plans are being made for the organizing of evening classes in homemaking.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, FEBRUARY 3, 1925

IMBECILITY

During the past few days there have been several students arraigned before the S. S. G. A. discipline committee for the offense of cutting pages from books and magazines in the library.

This practice is one of the most selfish and unthinking acts that any student could possibly perpetrate. The library exists for the convenience of students and they are welcome to use it at any time. But when a person deliberately cuts or tears pages from books or magazines for the selfish purpose of making it a little easier for himself, he is guilty of an offense that really constitutes just cause for expulsion. This punishment should be inflicted not because of the magnitude of the offense itself but because of the utter imbecility of the person who does such a thing. He is not mentally fit to attend college.

As anyone with the most remote idea of the eternal fitness of things can readily see, the destruction of pages of books is practically the same as the destruction of the book itself. It would be a lesser offense to steal the book outright, as it might then be of some value to the possessor. But if a few pages are torn from a volume it is of value to no one and might as well be destroyed.

ONCE AND FOR ALL

The Campus Chest charity drive has been scheduled for the period from February 4 to 12.

Those who are responsible for the change in the plan for the charity drives are to be congratulated. Although most students readily see the need of aid for those persons throughout the world who are less fortunate than they, the continual ding-dong plea for money at frequent intervals has become very annoying to them. And quite a number have refused to give because of this fact.

But under the new plan all the enterprises that are really deserving of charity have been grouped together and one big drive is to be made to care for them all. This will be the only drive made this year and students may give to the solicitors knowing that it is the only time they will be approached.

We predict an unqualified success for the new plan not only because it helps those that are in need but because it is easier to take medicine all at once than portions at various times.

One fellow around here is an optimist at least. He likes to go to class the first time because he is always certain that he has a grade just as good as has anyone else in the class.

The Spanish government declared an embargo on the books of Ibanez. The books will sell like hot cakes in

WRIGLEYS
after every meal

Cleanses mouth and teeth and aids digestion. Relieves that over-urten feeling and acid mouth.

Its t-a-s-t-i-n-g flavor satisfies the craving for sweets.

Wrigley's is double value in the benefit and pleasure it provides.

Sealed in its Parity Package.

case Spain is anything like the United States.

Children in some of the dancing schools are being taught the minuet, the waltz, and other old steps. Can it possibly be that the waltz is as far gone as that?

—And Harry sat there on the divan with his arms folded and lips pressed. Then her father came in, made a dive for Harry, and pitched him out the window. Why did he do this? Well, you see Harry had his arms folded around the girl and his lips pressed against her's. Harry is a bit sore—where he landed.

The girls are firmly established in the barber shops now. We no longer begrudge them that, but we do frown on their practice of bringing a bevy of friends in and seating them in all the vacant chairs around the shop.

Some fraternity freshman remarked that he believed he could get through "hell week" all right now that registration was safely past.

The little trip that the journalism department took to Topeka when they put out the Capital did a little good. It knocked the conceit out of several members.

The older folks are always deploing the fact that the younger generation is wild, flighty, and will never amount to anything. Well, it doesn't seem as if the said older generation has always made such a howling success out of the things they have tried to put across.

But on the other hand, you younger folks are a bit exasperating at times.

The price of a Royal Purple was four dollars last month and four and a half this. It has been that way for three months now. The price just depends on how long they leave the signs up.

Nowadays the girls like to be told that they are smart as well as good looking. So lie like gentlemen and make them happy, fellows.

On Other Hills

Cross-word puzzles are now installed as a regular course in the University of Kentucky college of engineering.

A psychological clinic, where individual examinations and suggestions for students bothered with educational and vocational problems are given, has been established at the Ohio State university.

Parents of Kansas university students represent 170 different occupations. Farmers have more representatives in school than any other one class, the parents of 633 students being farmers.

Plans for constructing an ice skating rink on the Grinnell campus are being brought before the students for their approval.

Sherwood Eddy, renowned "citizen of the world," was a recent chapel speaker at the Oregon Agricultural college.

Sir Richard Lodge, professor of history at Edinburgh university, spoke to the students of McGill university and the Montreal public this week on the subject of "Nationality."

WFAV, the University of Nebraska

ka broadcasting station, is giving play by play reports of all home basketball games.

Publication of "The Whirlwind," the University of Oklahoma comic magazine, has been abandoned through action of the administrative council of the university. The council decided that the material printed in the magazine proved derogatory to the school.

The students and faculty of Oregon Agricultural college are now at work on a drive for a Memorial Union building to stand as a memorial to war heroes and to house many student activities.

A saxophone band has been organized at the Kansas State Teachers' college. At present there are about 15 in the band.

Loradio Taft, the noted sculptor, who lectured here last year, gave a similar lecture this week at the Kansas State Teachers' college at Emporia.

A new course in which students may obtain practical experience in advertisement writing and selling, is being offered at the University of Nebraska this semester.

One hundred and sixty-one thousand persons paid \$341,475 to see the University of Wisconsin football team in action during the season just closed. Of these, 94,547 witnessed the six games played in Madison.

To advertise the stadium drive at Oklahoma A. and M. college the "O'Collegian" is running illustrated articles on stadiums of other schools in the Missouri Valley conference.

Hold Midwinter Retreat

A midwinter retreat was held Saturday evening and Sunday by the cabinet of the Y. W. C. A. at the Woman's club building on Poyntz avenue. Sunday morning the service was led by Miss Marie Russ, Y. W. C. A. secretary at Kansas university, who is one of the co-chairmen for the joint Y. M. C. A. and Y. W. C. A. conference which is to be held at Estes Park this summer.

The purpose of this retreat was to make plans for the new semester, and for the cabinet to enjoy fellowship together. It is the first retreat of its kind to be held here. The cabinet members are: Evelyn Colburn, Dorothy Rosebrough, Lois Richardson, Marie Insley, Mary Dey, Phyllis Burtis, Elizabeth Bressler, Laureda Thompson, Florence Barnhisel, Mildred Moore, Ruth Bachelder, Charlotte Swanson, Hilma Freeman, Katherine Welker, Virginia Deal, Della Justice, Gladys Sanford, and Eva Brownlee.

Wherein Curiosity Killed the Rat— A Moral, of Course

The age old trait that, "If you give him an inch he will take a mile," proved fatal to Mr. A. Rat, shifty old tenant of the west wing of the Ag building.

Mr. Rat had lived in the building for several years unmolested because he never intruded on the rights of his student companions, at least not while they were looking. He had played, fought, and loved in that building and had come to look upon it as a part of his property. Now, in his old age and childishness that adventuresome nature, so long suppressed by respect for the rights of others, broke forth in a series of wild escapades.

Mr. Rat had often wondered what the inside of a rubber boot looked like. Ah! the chance of a lifetime. There stood a boot beside the table and a whole night in which to explore it. With several rheumatic groans the old fellow tottered up the table leg, dangled on the edge for an instant, and with a final heave landed on the top panting for breath. Peering over the edge he gazed into the dark abyssal depths of the boot. He shuddered, but Mr. Rat had never been a coward, so with a gasp he closed his beady eyes and leaped.

Darkness. Nothing but darkness. Old Mr. Rat looked cautiously about, but saw nothing to alarm him. Perhaps it was because he had exerted himself so much in climbing to the top of the table, but anyway in a short time he was curled up dreaming of cheese palaces and corn bins. The next thing he knew he awoke with a start to see a dark monster descending upon him from the top of the boot. In terror he snapped at the monster. He felt his teeth sink into flesh and he was rapidly brought out to daylight. Mr. Rat

LET THE

and
DRY CLEANERS
DO IT
1219 Moro Phone 701

found that he had a hold of the boot owner's foot. Afraid that he had offended the fellow he let go and without waiting to apologize, dashed up an empty drain pipe. His victim evidently was offended for he shook the pipe until Mr. Rat fell out, and pursued the old fellow about the room with blood in his eye. Mr. Rat spied an open churn half full of cream and dived in, but his strength was spent and he drowned in the attempt to swim across.

Get the moral? "Look before you leap!"

Dr. R. R. Dykstra addressed the meeting of the South Dakota Veterinary association, which was held at Sioux Falls, S. D., January 29 and 30.

Prof. E. L. Holton, Prof. J. C. Peterson and Prof. W. H. Andrews will attend the meeting of the Kansas State Masters club in Topeka on Thursday evening, February 5.

Cozy Inn Lunch, 1403 Anderson, is offering quality eats at reasonable prices. \$5.50 meal ticket for \$5.00.

SOCIAL CALENDAR

Friday, February 6

Men's Pan-Hellenic, Community house.

Phi Sigma Kappa announces the pledging of Earl Cross of Wichita, Kenneth Hill of Manhattan, and Harold Lucas of Pratt.

Phi Omega Pi held open house Saturday for Lambda Chi Alpha, Alpha Psi, and Phi Sigma Kappa.

Delta Tau Delta entertained with their annual Paddle party, Saturday evening at the chapter house. Purple paddles were given as favors. Art Dodge's orchestra furnished the music. Out of town guests were: Dallas Price and Pat Patterson of Wakefield and Ferdinand Habercorn of Hutchinson. Mrs. Martha Foreman chaperoned the dancers.

Alpha Tau Omega announces the pledging of Merlin La Shelle and Paul Strand, Manhattan; Royce Jones, Downs; and Wilmer Bougher, Oakley.

The installation dance of the Alpha Upsilon chapter of Delta Sigma Phi was held Saturday evening at Elk's hall. In the receiving line were: Dean Mary P. Van Zile, Mrs. Vesta Sargent, Miss Martha Kramer, Miss Mina Bates, Miss Dorothy Cashen, Miss Elsie Jarvis, Dr. J. T. Willard, Prof. W. C. Toepelman, Prof. Robert Lush, Mr. Joe M. Lush, Mr. Lyle Cushing, and Prof. and Mrs. C. E. Pearce. The hall was decorated with pines and evergreens with a large lighted Delta Sigma Phi pin hung on one wall. The music was furnished by Burn's orchestra from Junction City and was broadcast from the Milford station. Silver compacts bearing the Delta Sigma Phi crest were given as favors. Representatives from all other national sororities and fraternities at K. S. A. C. were invited. The out-of-town guests included: Captain and Mrs. Hugh J. Ryan, Fort Riley; Miss Vera Graves, Brookville; Miss Wilma Biddle, Hiawatha; and Professor W. C. Toepelman.

Kappa Sigma announces the pledging of C. Botsford of Salina.

Miss Helen Eakin entertained the members of the Pi Beta Phi sorority with a bridge party at her home Thursday evening. Prizes were won by Miss Mary Adda Boone and Miss Asca Hart. Mrs. Maurice Laine of Detroit, Mich., was an out-of-town guest.

Miss Stella Harris and Miss Lois Wildy entertained with a dinner at the Open Door tea room for the Y. W. C. A. cabinet and advisory board, Monday, January 26. Members of the advisory board are: Dean Mary P. Van Zile, Mesdames W. M. Jardine, R. R. Bennett, L. R. Eakin, George Clammer, A. A. Holtz, A. E. White, Robert Nabours, Fred Boone, Jessie Gulick, and Miss Margaret Ahlborn. The cabinet members include: Misses Evelyn Colburn, Dorothy Rosebrough, Lois Richardson, Marie Insley, Mary Dey, Phyllis Burtis, Elizabeth Bressler, Laureda Thompson, Florence Barnhisel, Eva Brownlee, Gladys Sanford, Della Justice, Virginia Deal, Katherine Welker, Hilma Freeman, Charlotte Swanson, Ruth Bachelder, and Mildred Moore.

Phi Omega Pi entertained Monday evening with a house dance. Valentine decorations were used. Wilson's orchestra furnished the music.

Phi Omega Pi announces the pledging of Margaret DeVinney, Manhattan; Fern Harsh, Cassoday; and Kathryn Pfeifer, Manhattan.

Dr. and Mrs. C. W. McCampbell entertained with a bridge dinner at their home Saturday evening for the members of the department of animal husbandry and their wives. The guests included: Dean and Mrs. F. D. Farrell, Mr. and Mrs. Harry Reed, Mr. and Mrs. F. W. Bell, Mr. and Mrs. D. L. Mackintosh, Mr. and Mrs. A. D. Weber, Mr. and Mrs. C. E. Aubel, Mr. and Mrs. H. W. Marston, Mrs. Lillian Mickel, Mrs. A. M. Patterson of Kansas City, Mo., Mr. B. M. Anderson, Dr. H. L. Ibsen, Mr. J.

W. McCulloch, Mr. J. P. Wilmann, and Mr. Paul B. Sawin.

Sigma Alpha Epsilon announces the pledging of Theodore Varney of Manhattan and Kenneth Yoder of Ellis.

Alpha Upsilon chapter of Delta Sigma Phi entertained Friday evening at the Gillett hotel with an installation banquet. Captain H. J. Ryan of Fort Riley, who is a member of the fraternity's Omega chapter at the University of Pittsburgh, was toastmaster. Among the speakers were A. W. Defender of Washington, D. C., national secretary and treasurer of the fraternity; J. M. Hill of Dallas, Tex., district deputy for this district of the fraternity; Prof. W. C. Toepelman of the faculty of the University of Colorado; L. K. Del'homme, Salina, member of the Eta chapter, University of Texas; Messrs. Felix, Ahlmouist, Dewey, Shauver, Breech, and Kemp of the Colorado chapter.

Kappa Kappa Gamma announces the pledging of Kathleen Schoffner, Junction City.

Chi Omega announces the pledging of Lenore Spence, Randolph; Marowyn Hawthorne, Gypsum; Roma Nelson, Ellis; and Agnes Greene, Bonner Springs.

Miss Marcia Beggs and Miss Marian Hardman, former students of K. S. A. C. are enrolled for the second semester.

Miss Mildred Swenson of Clay Center visited at the Delta Delta house this week end.

Miss Dora Dean Dakin was a week end guest at the Kappa Delta house this week.

Sunday dinner guests at the Kappa Delta house were: Professor and Mrs. H. H. Haymaker, Professor Araminta Holman, and Doctor and Mrs. J. E. Ackert.

RADIO BENEFITS NEWSPAPERS

But It Can Never Replace Them Says E. T. Keith

"I cannot see how the radio can ever replace the newspaper as a medium of authentic news distribution," said Prof. E. T. Keith of the journalism department in his discussion of the radio, Thursday, at the Journalism seminar.

From all over the country different people are prophesying that the radio will ruin the churches, athletic contests, theaters, and newspapers, as well as all other kinds of communication. On New Year's evening the Victor talking machine company broadcast a concert sung by McCormack. Theater managers that had poor houses on that night laid the cause to the Victor concert, but an investigation shows that small houses are the usual thing on holidays or in cold stormy weather.

Some newspapers say the radio is beneficial and others say that it is

detrimental, but the fact remains that the papers own or control more broadcasting stations than any other one organization. The Associated Press is opposed to the radio and goes so far as to make and enforce a rule that none of its members shall broadcast any material collected by it. During the late election the Associated Press had spies located all over the United States to see that this ruling was enforced.

At the present time the radio is far from being perfected. Just what the future has in store for the development of broadcasting and reception, we cannot say. For that reason it is impossible to predict with any degree of certainty what effect the future radio will have upon the newspaper and other organizations. At the present the radio can give bulletins and condensed reports of daily events, but only the newspaper can give a complete, detailed account of any happening. The late developments in sending pictures and manuscript by radio, if perfected, will prove an asset to the paper because it will speed up the process of sending news.

The claim is made even that the radio will replace the telephone as a means of communication, but the present limits on the number of sending stations that can be used disproves that point.

Whether or not the radio kills the newspapers, churches, and theaters, it represents progress and is here to stay. If it hurts other businesses they will have to submit, for nothing can stop progress.

Quad Wrangle Is Witty

"The Quad Wrangle", one of several publications of the classes in typography laboratory under the supervision of E. M. Amos of the printing department has recently been released from the press.

A copy of this publication was placed in the hands of Dr. J. E. Kammeyer of the department of

economics and sociology. A few days later the following communication was received by Mr. Amos: "I've just finished reading 'The Quad Wrangle', and I wish to express the opinion that it is the wittiest, funniest, and most interesting publication of its kind that has come to my notice. There is not a dull line in it, and the humor is clean and wholesome. Typographically it is a credit to you also. So here's my congratulations to you and the staff."

Musicians Entertain Visitors

Students in the department of music gave a recital last evening in the auditorium complimentary to the many guests here for Farm and Home week.

Vocal and instrumental solos, a clarinet duet, and three piano numbers by a 10 year old member of the children's piano class were features of the program.

The following members of the department took part: Emma Schoonover, Mabel Murphy, Russell Reitz, Harry Erickson, Dorothy Stiles, Margaret Foster, Ferne Cunningham, John Moyer, Helena Viers, Ashley

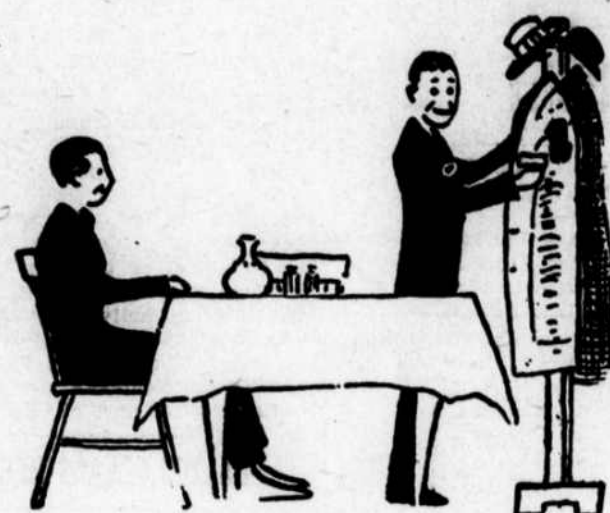

Monahan, Mildred Michener, Frances Allison, Mary Jackson, Charles Stratton, and little Margaret Spencer.

VALLEY TEAMS UPSET "DOPE"

AGGIES LOSE CLOSE GAME TO GRINNELL 24-25

K. U. Defeats Nebraska in Feature Game of Week End Play—Oklahoma Defeats Washington

MISSOURI VALLEY STANDINGS Including Games of January 31		
	W. L.	Pct.
Kansas	1	.500
Nebraska	1	.500
Washington	1	.500
Aggies	1	.500
Grinnell	1	.500
Oklahoma	1	.500
Missouri	1	.500
Drake	1	.500
Ames	1	.500

The ancient and time honored pastime of playfully tossing monkey wrenches into the "dope" machine was indulged in liberally Saturday night by three Missouri Valley basketball teams at the expense of three others. Kansas, Oklahoma, and Grinnell did the sabotage act at the expense of Nebraska, Washington, and the Kansas Aggies.

The pioneers of Grinnell apparently were "right" and the Aggie midgets had an off night such as was experienced against Nebraska, but lost the game by only a one point margin 25 to 24. The Aggies met Drake last night and will play Ames tonight at Ames, and Oklahoma Friday night here. The Sooners also showed themselves to be an "up and down" team by having an "up" night and defeating Washington, which team previously had defeated Oklahoma, Drake, and Missouri.

K. U. Has First Place

Kansas, in the feature battle of the evening, toppled Nebraska out of the leadership in a 25 to 20 game and went into first place, while Charley Black, Grinnell coach and Kansas alumnus, kept the Aggies back with his Grinnell team. As a result, instead of being in first place with Kansas, the Aggies, by virtue of a lone point, are tied for fourth with Grinnell and Oklahoma. Missouri is a close fifth, and Drake and Ames are fighting for the cellar.

In last night's games the Aggies met Drake, Kansas played Oklahoma, and Missouri tangled with Washington. Tonight the Aggies play the last game of their road trip with Ames.

While the Aggie defeat at the hands of Grinnell was somewhat of a surprise to the more zealous Aggie fans, the possibility of just such a thing happening had been predicted in advance by Coach C. W. Corsaut.

Aggies Have Good Team

Prior to the start of the season the Aggies were "doped" as a good but inexperienced team which might cause the valley leaders more than the usual amount of grief at times, and then again lose to a supposedly weaker five. That Corsaut's men have great basketball in them, was shown by their victory over Kansas, who in turn defeated Nebraska, the team which easily won from the Aggies at the start of the season. The defeat at the hands of Grinnell, coming from a team fairly well down in the race, probably will have a beneficial effect on the Aggie team just as the setback from Nebraska did. Next Monday night the Aggies meet Missouri here, and Tuesday night get a chance for revenge against Grinnell. Thereafter every game will be with contenders for the championship. With the confidence acquired by defeating Kansas and the bitter lesson at the hands of Grinnell, the Wildcats are still up in the running. Every team in the race has been beaten at least once, and the ultimate victor may have to take another defeat or two before the season ends.

Lead Is Not Assured

The Kansas triumph over Nebraska showed that the Husker defense is not impregnable. Oklahoma's defeat of Washington took considerable of the wind from Piker sails, and brought them down to the level of the five scramblers for first place. At present, it is probable that no bellwether will emerge from the flock until after the second Aggie-Kansas, Aggie-Nebraska, and Kansas-Nebraska games the middle and latter part of this month.

BALZER BREAKS RECORD

Clips 7 2/5 Seconds Off Former Two Mile Mark

With one new Aggie record to their credit the Purple track team defeated the White in the annual Purple and White meet held in Nichols gymnasium by the narrow margin of five points. The star was "Puff" Balzer who broke the two mile mark by nine and two-fifths seconds when he was timed at 10 minutes and three-fifths of a second.

Ralph Kimport finished ahead in both the half and the mile but was followed closely in each by McGrath, a freshman distance man. The quarter mile dash was won by E. E. Coleman, another letter man. Among the freshman entries were Paul Gartner, winner in both the high and low hurdles, and Dick Haskard who led competition in the high jump. C. P. Foote, sophomore, took first in the 30 yard dash in three and four-fifths seconds and Phil Carter topped the bar at 10 1/2 feet in the pole vault.

Notes

Another star was brought into the spotlight last Saturday night at the annual Purple and White meet in the form of "Puff" Balzer when he clipped 7 2/5 seconds off the two mile record held by C. G. Kuykendall. Yes sir, old snorting "Puff" has found out what those noble spindles of his were made for. We say this in spite of the fact that he claims it was the bounding rubber bedroom slippers that won the race. Modest boy!

Everyone who saw Ralph Kimport run a mile last week in four minutes and 34 seconds should have learned why this Aggie may be considered as the "racehorse of the valley." Just wait until he starts shuffling cinders instead of splinters.

Among the frosh tracksters is "Fiery" Fleck of Wamego, a promising 1,000 yard man, although with a first glance one would imagine that he had just stepped from the pages of the popular novel, "Red Oxen."

G. W. Cook, instructor in the physics department, is now taking graduate work at Michigan university.

STUDENTS TO MANAGE CHURCH

Every Officer of Congregational Church Replaced by Student Member

Student members have taken over the entire management of the Manhattan Congregational church for six weeks.

The experiment is an expression of the youth movement so much in evidence in both European and American countries at the present time, and has for its purpose the training, testing, and self-expression of twentieth century youth.

Every officer of the church has been replaced by a student representative. The following young people are now in charge of all affairs of the church: moderator, J. J. MacDonald; treasurer, Philip Noble; financial secretary, Milton Kerr, Sunday School superintendent, Helen Correll; clerk, Earl Herrick; Sunday School chorister, Harold Hedges; Sunday School librarian, Leonard Brubaker; Sunday School secretary, Elmer Hubbard; trustees, John Edwards, Paul Puetze, James Paine, Fred Mason, Bernice Gilkerson; board of deacons, Charlotte Swanson, Mary Brandly, Philip Noble, Milton Kerr, George Horning, Earl Herrick; music committee, Katherine Huguenin, Dorothy Sanders, Helen Toothaker, Lydia Stebbins, Howard Shirk, Edward Stevenson; college board, Ruth Kell, Helen Dean, Lawrence Clausen, Katherine Morriss, Philip Edwards, Z. K. Surliman; publicity committee, Helen Northup, Lillie Brandly, Frances Clammer, Agnes Forman, Ruth Lurray, Ruth Correll; women's association social committee, Katherine Huguenin, Louise Platt, Lucille Evans; women's association study session, Helen Pickens, Helen Clydesdale, Myrtle Lenau, Betty Elkins.

The new officers took up their work Sunday, February 1.

Finds 13 Row Ear

The following letter was recently received by the college from a western Kansas farmer:

"Have heard it said that there never was an ear of corn with an odd number of rows and never could

THE AGGIE SCHEDULE

Feb. 13—Nebraska vs. Aggies at Lincoln.	
Feb. 24—Ages vs. Kansas at Manhattan.	
Feb. 28—Oklahoma vs. Aggies at St. Louis.	
Mar. 3—Washington vs. Aggies at Columbia.	
Mar. 4—Missouri vs. Aggies at Columbia.	
Mar. 7—Ages vs. Washington at Manhattan.	

be. However, we found one with 13 rows in our field of corn. Could it be possible that this ear is worth something? Would have sent the ear of corn for inspection but didn't care to risk losing it."

The above letter is certainly an indication of the prosperity of the Kansas farmer. For the man who wrote the letter not only found an ear of corn with uneven rows but this ear had 13 rows. We wonder how many ears this farmer inspected before he found the ear in question. Also who was doing the farm work during the search for the prize ear?

DEAN TALKS ON YOUTH

Student Problems Are Topics at Vespers This Month

Student problems from the angle of the student are to be the chief topics for discussion at the next three meetings of the Y. W. C. A. vespers. At the first of these meetings, which will be held on February 3, Dean Van Zile will talk on, "Youth As I Know It." This is the subject of a paper she has prepared to read before a conference of educators that will meet soon in Topeka. Her position as dean of women enables her to have a very intimate knowledge of student problems. There will be special music. Evelyn Colburn will preside.

President Mendenhall of Friends university at Wichita will be the speaker at the second of the series

which will be Tuesday, February 10. "Bubbles and Balloons," will be the subject of his talk. The speaker for the third meeting has not been announced.

The meeting time for vespers has been changed from Thursday to Tuesday because of conflicting seminars. It will still meet in recreation center at four o'clock. This necessitates the change in the meeting time of freshmen women's commission which formerly met on Tuesday. They will meet now on Monday in the Ionian Literary society hall in the gymnasium.

Miss Mary Taylor, an instructor in the physics department, who is on leave of absence for graduate work at Columbia university, has received

a temporary appointment as an assistant in the department of household physics at the university. Miss Taylor is specializing in household physics.

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, FEBRUARY 6, 1925

NO. 37

FAIR WEATHER BRINGS GUESTS

800 FARM AND HOME WEEK VISITORS REGISTER

Varied Program Attracts Wide Interest Among Students and Faculty as Well as Visitors

The enrolment for Farm and Home week reached a total of 800 Thursday, which compares favorably with the attendance in previous years, according to L. C. Williams, in charge of the program.

Many Popular Courses

Among the courses and events which are most popular with the visiting farmers are the livestock programs, the poultry meetings, the veterinary and dairy programs and the agricultural economics and horticultural. The enrolment in the automobile, blacksmithing, gas engines, and farm machinery courses also is reported to be good. Many regular college classes in agricultural subjects are being dismissed during the week to enable the instructors and the students to participate in the programs.

Noted Speakers Here

In addition to special courses and lectures offered during the week, general assemblies are held at the auditorium daily at which the visitors are addressed by speakers of national prominence in agricultural and business fields. J. E. Gittins, vice-president of the J. I. Case Threshing Machine company, delivered the opening address of the week Tuesday. S. D. Gromer, economist, University of Missouri, speaks Wednesday, and M. L. McClure, chairman of the board of directors of the Federal Reserve bank of Kansas City, and H. J. Waters, editor of the Weekly Kansas City Star, speak Thursday and Friday respectively. The closing address of the week will be delivered Saturday evening by Alan Phillips, professor and head of the department of poultry husbandry at Purdue university. All these addresses are broadcast by Station KBAC.

Radio Plays Big Part

Credit for a large part of the increased interest in Farm and Home week is due, in addition to the popularity established by previous successful annual programs, to the new publicity medium of radio. Through the college's broadcasting plant, Station KBAC, the farmers over the state heard speakers describe the alluring aspects of Farm and Home week, at K. S. A. C. Radio is responsible for much of the statewide interest which has been created in Farm and Home week, according to extension specialists.

Station KBAC is thrown open to the visitors for inspection, and an opportunity is given them to meet the speakers and specialists whose voices are heard daily.

COMMITTEE HERE NEXT WEEK

Will Inspect Old Library and Plans for New One

The inspection tour of the ways and means committee of the lower house of the state legislature scheduled for Thursday and Friday of this week has been postponed until next week.

President W. M. Jardine in his biennial report to the state legislature requested an appropriation of \$350,000 to be used in the construction of a new three-story library building for K. S. A. C. This building has been recommended by the state board of administration, and the appropriation necessary has been approved by the board.

The legislative committee will look over the new plans for the library building which have just been made public by the college department of architecture, and will inspect the old library building.

Train of Thought of the Club Women Is Hard to Catch

Did you ever try to interview women in quantity? If you haven't, take my advice, and don't. Reporters have gone mad over less inane conversations. The quantity idea is what makes interviewing dangerous. The reporter joins a group and the following scene, or one very similar, ensues.

"Mrs. J. D. Waffletooter, dear, and be sure to spell it with two o's. Yes, I do enjoy coming to these meetings. Why, Mrs. Smith, when did you come down? I haven't seen you since Sally's wedding. Did you try that pie recipe? Oh, pardon me, dear, I forgot to tell you to say that I have lived in Kansas for 25 years."

The reporter tries frantically to

attract the attention of the next woman. She at last succeeds, and has received intelligent answers to two questions in succession. (The old bromide about hope springing eternal is now in order.) The reporter feeling encouraged, tries again.

"How many years have you been in Kansas?" "Well, let me see, my youngest child Lucile was six months old when we first got here, and I always figure out how long I've been here from her age. You know, I have six children, and they all live in Kansas. One of the boys has been in the waterworks department for 19 years. He was six when we first moved here. Yes, we have lived in Kansas for —. What was it you said, Mrs. Jones? Yes, I always like to add lemon juice, too."

The reporter? They led her gently away as she sang, "Oh, come to the church in the wild-wood, Come, come, come, come—"

DISCUSSIONAL GROUPS ON CAMPUS BEING ORGANIZED

Leaders to Receive Special Instruction—Interesting College Topics Suggested for Discussion

Plans for organizing discussion groups in sorority and fraternity houses and on the campus are being made under the supervision of the Y. M. C. A. and Y. W. C. A. Katherine Welker and Fred Shideler have been acting as co-chairmen of the promotion committee consisting of Dorothy Sanders, Dorothy Rosebrough, Dick Patton, and Paul Pfeutze.

Plans were discussed at the first meeting, which was held Monday evening at seven in the home economics rest room. It is planned that all group leaders, and others interested will go to Lawrence from February 13 to 15 for instruction in Dr. A. Bruce Curry's institute. Doctor Curry is from White's Biblical seminary in New York City, and became very popular with students during his travels last year. Those from K. S. A. C. who have heard him, say he is an excellent speaker. Some of the topics he discusses are: "Our Religion Second Hand," "Are We Living by the Footnotes?" and "How Do We Get a Kick Out of Life?" Any one desiring to go to Lawrence should send his registration fee of \$1.00 to Betty Elkins before February 9. Milton Kerr is transportation manager.

At the first meeting six questions were voted upon for use in the group discussions. The following questions were chosen:

1. How honest do we need to be? What reasons do people give for cribbing? Should cribbing be stopped? How? What about petty-thieving on the campus? How do you account for it? What ought to be done about it?
2. How many people are in college activities for the purpose of making college better than it is? How many for personal recognition? Are there too many extra-curriculum activities or do people belong to too many? Upon what basis should one choose activities?
3. What is chivalry? What things are wrong in relationship between the sexes? Why? What can be done about it?
4. Of what use is the church? Has religion anything for the normal man or woman?
5. How should convention determine its standard of conduct? What social standards are worthy of upholding? Which are not?
6. What should be the college aim? What is college all about?

SOPHOMORES REPORT MEETINGS

Journalism Students Cover Entire Farm and Home Program

Farm and Home week programs are being reported for publication entirely by the sophomore students in journalism. A reporter has been assigned to cover every speech, demonstration and meeting of every kind during the week. The student either obtains an advance copy of the speech or actually attends the meeting to which he is assigned. In many cases this necessitates absence from some other class which of course the student is obliged to make up later.

The Industrialist, the Manhattan papers and some of the state newspapers are depending entirely upon these students for accurate reports of the Farm and Home week activities.

Exhibit of Oil Paintings

An exhibition of oil paintings by H. E. House, landscape and portrait artist of Chicago, is on exhibit at present in the galleries of the architecture department. The exhibit includes about 60 paintings, several of which were painted around Manhattan. Mr. House has painted scenes in all parts of the United States and some in Canada.

CAMPUS CHEST DRIVE STARTS

WILL COLLECT FOR ALL OFF-CAMPUS CHARITIES

Faculty and Student "Minute Men" Will Visit Student Organizations Monday Evening

The Campus Chest drive for off-campus charities was started Wednesday afternoon by Miss Margaret Quayle, student welfare worker, who addressed a meeting of representatives from every student organization.

Miss Quayle explained the purpose of the Campus Chest, telling how the money obtained from the drive would relieve the hardships of students in foreign countries, and enable them to continue their studies.

Drive Begins Monday

The drive proper will begin Monday evening when "minute men" from the faculty and the student body will visit college organizations and explain the Campus Chest to them and solicit their support.

Sunday evening the young people's organizations of the various churches of Manhattan will hold a joint meeting at the Methodist church for the purpose of stimulating interest in the Campus Chest.

A playlet, "International Student Friendship Conference," will be presented at this meeting. It will be an illustration of a real student friendship conference.

Prominent Persons Approve

Persons prominent on the hill have expressed their approval of the plan. The opinions of some of them follow.

Dr. H. T. Hill, head of the public speaking department says, "It's the only businesslike way to do the thing. It may be compared to the budget system at Washington, and it will eliminate the disagreeable qualities of repeated drives."

"The Campus Chest is the most desirable and effective means of financing our campus activities," said Hilmarie Freeman.

"I'm very much in favor of it," said Laurenda Thompson. "It will eliminate all the little drives that we are always being pestered with."

KID PARTY SATURDAY NIGHT

Y. W. and Y. M. C. A. to Give Second Get Acquainted Affair

Childhood fun is to be the feature of the Y. M. and Y. W. C. A. kid party to be given in recreation center at 8 o'clock Saturday evening. Everyone is invited, especially new students and those here for short courses. There will be games and a special program.

Phyllis Burtis and Milton Kerr have charge of arrangements. Their committees are: Betty Elkins, Mary Henry, Helen Graham, Josephine Cox, Helen Patterson, and Ralph Clark, Elmer Russell, William Jardine, Chester Hanson, Norris Meek, Arthur Randel, Miss Wildy and A. A. Holtz will chaperon. Everyone is requested to come "dressed up."

NEW FRATERNITY INSTALLED

Edgerton Club Now Chapter of Delta Sigma Phi Fraternity

The Alpha Upsilon chapter of Delta Sigma Phi fraternity was installed Thursday and Friday by a team of seven members from Alpha Rho chapter, which is located at the University of Colorado at Boulder.

The local chapter was formerly the Edgerton club, organized at K. S. A. C. in 1916. It owns its own home at 1707 Laramie street. The Alpha Upsilon chapter is the forty-third chapter granted by the Delta Sigma Phi fraternity. The first chapter was founded at the College of the City of New York in 1899.

The first part of the degree work was given at the chapter house Thursday evening and the second part at the Elks' hall Friday. The installation exercises were followed by a banquet at the Gillett hotel.

Dickens Lectures in East

Prof. Frank A. Waugh, graduate of K. S. A. C. in 1891, who is scheduled to speak on the Farm and Home week program, is now on the faculty at Massachusetts Agricultural college and is a very prominent landscape gardener. Prof. Albert Dickens of the horticulture department here will return to the Massachusetts Agricultural college next week with Professor Waugh to deliver lectures there.

Will Discuss Campus Problems

"Bubbles and Balloons," will be the subject of an address to be given at 7:30 p.m. on February 10 by W. O. Mendenhall, president of Friends university at Wichita. This is the sec-

ond of a series of meetings dealing with campus problems.

President Mendenhall's talk will emphasize the importance of choosing college activities, the aim of college, the whole quest, and of extra-curriculum activities from a college man's point of view. At Estes Park last summer, he was one of the most popular of the college presidents there. He spoke on subjects relating to campus honor, the college organization, and other such subjects. He will speak also at chapel to introduce the Campus Chest drive.

Addresses Kappa Phi

Iota chapter of Kappa Phi at its regular meeting Tuesday evening was addressed by Miss Benedict, a field worker from the national training school in Kansas City. Miss Benedict told of her work and of the work the school was doing. Vera Chubb had charge of the devotionals and Mary Dey had charge of the music.

STUDENTS DESIRE WORLD PEACE SAYS MISS QUAYLE

International Student Worker Tells of Youth Movement in Speech at Forum Thursday

"The demand of European students for a new social order has resulted in the foundation of the European student relief work," said Miss Margaret Quayle, internationally known student worker for Europe and former student secretary at the University of Prague, at the meeting of the forum in the cafeteria Thursday noon.

The subject of Miss Quayle's talk, which was given in the interest of the Campus Chest drive, was "The Significance of the Youth Movement in Europe."

"We do not know exactly what the youth movement is, but it has arisen out of a feeling of unrest on the part of the European students for a new world order. The students have rebelled against the idea of any more wars and seem to want to establish better relations between the young people of the many European countries which were engaged in the world war," Miss Quayle said.

"As a result of the European Student Relief, which has been functioning for some four years, now, 175,000 students and professors have been helped physically, and it is by this means educational systems over there have been gradually getting back to a pre-war basis. The students are not very willing to accept help from the students of other nations but because of the lack of employment in Europe it becomes necessary. We have fixed up makeshift student workshops, so that they could do a little work but it is impossible to do anything big in that way."

"This spirit of changing the order has brought about better relations between the students of the different nations. Many of the student groups and conferences are made up of representatives from almost all of the once-hostile countries, and they are working together with the best of harmony."

"The breaking down of these terrible barriers between the nations is the great hope of all the student conferences in Europe today," Miss Quayle said in closing.

At present 44 countries are contributing to the Student Relief work.

Will Address Freshman Commission

Mrs. George Parkinson will talk to the Freshman commission at 7:30 Monday at four o'clock on the subject of "The Girl in the Church." This is to be the first of a series of talks about the girl and her relation to her surroundings. The commission meets on Monday in the Ionia Literary Society hall. All freshman women are urged to attend.

Prof. A. P. Davidson spent last week end at Winfield, attending the sectional state conference of vocational agriculture teachers.

Cross Word Puzzle Fiends Will Find Brown Bull an Aid

Do you know a compound word meaning "sweetheart of the plains"? That is the kind of questions that the editors of the Brown Bull are asking these days as they are preparing the Barnyard number of the Bull for the press. Then they just smile and smile, and the cross word puzzle fans in Kedzie hall scratch their heads, word the dictionaries over-time, and ask all kinds of foolish questions of journalism and English professors.

Sometimes the most curious of the curious are bold enough to dare the editor to answer her own foolish questions. Then there are more smiles and the answer, "Just buy the

next number of the Brown Bull which will be out February 18, and get the answer for yourself."

Every cross word puzzle fan should buy this next number of the Brown Bull, according to one fan who read a part of the copy that has been sent to the printer. "There are a whole lot of new words that you have never heard of before and it's more interesting than most cross word puzzle books."

DISCUSSES YOUTH OF TODAY

Dean Van Zile Advises Work, Love, and Prayer in Vespers Talk

"Work hard, love much and sometimes pray," was the quotation given by Dean Van Zile, as the summary of her talk on "Youth As I Know It" at vespers Tuesday. In her talk she pointed out the causes and results of the life of today's youth. The change in home influence, the changed status of woman, the influence of products of the minds of the older generation, and the changed outlook because of man's greater control over nature were given as some causes of the transition period we are now going through.

That the result of this will be a stronger and finer youth is the conviction of Dean Van Zile. As dean of women she has had an opportunity to observe youth closely and notices great changes in students during four years of college life. Her tribute to the youth of today is that they are keen, alert, intelligent, and efficient as no other generation.

WOMEN LOSE FIRST DEBATE

Bethany Wins 3-0 Decision on Affirmative of Court Question

The first women's intercollegiate debate was held with Bethany college, Lindsay, in Recreation center Wednesday evening. The question for debate was, Resolved: That congress should be given power to override by two-thirds vote decisions of the supreme court declaring acts of congress unconstitutional. The affirmative side of the question was upheld by the Kansas State Agricultural college.

The chairman for the evening was Professor Faulkner of the English department. Judges were J. H. Lawrence, College of Emporia; W. D. Ross, Emporia Teachers' College; J. I. Billman, Kansas City, Mo.

A three to nothing decision was won by the Bethany college team composed of the following, Agnes Hyrup, Elsie Johnson, and Geraldine Kaul. The college team, upholding the affirmative were Roxie Bollinger, Alice Englund, and Mildred Leech.

Initiate Journalist

Sigma Delta Chi, men's honorary journalism fraternity held special initiation Thursday afternoon for N. N. Beeler, of Topeka who is here attending the Farm and Home week programs. Mr. Beeler is in the editorial department of the Capper Farm press.

SIGMA DELTA CHI PLEDGES 4

Arrangements for Scribblers' Scramble Put in Charge of Pledges

Sigma Delta Chi, men's honorary journalism fraternity, held a meeting in the clubroom Tuesday at which four new members were pledged, and plans for the Scribblers' Scramble were practically completed. To become a member of Sigma Delta Chi, an average of G in journalism subjects is required, as well as some outstanding work in journalistic lines. The new pledges, Newton Cross, Gerald E. Ferris, Fred Shideler, and Russell Thackrey are making many of the plans for the Scribblers' Scramble.

Use K Room for Dancing

The K room of the gymnasium has been converted into a classroom for the girls' interpretive dancing classes. It has been a problem for some time to get the necessary number of classes in the regular girls' gym. The problem has been solved for this semester by using the K room for small classes.

Try Out for Teams

Advanced basketball practice is being held at 5 o'clock on Tuesday and Thursday for freshman and junior girls and on Wednesday and Friday for sophomores and seniors. It will be necessary for everyone who wishes to make a class team to get out and practice now for Miss Watson has announced that the class squads, from which class teams are made up, will be selected in a short time.

Milo H. Johnson left Thursday for Iowa City, Iowa, where he will attend the annual meeting of the seventh corps area Scabbard and Blade. He represents the Scabbard and Blade of this school.

22 RUNNERS GO TO K. C. MEET

AGGIES MEET NOTRE DAME IN TWO MILE RELAYS

Enter Several Events But Concentrate on Mile Race Against Oklahoma and Notre Dame Relay

Twenty-two members of the Kansas Aggie indoor track team will go to Kansas City tomorrow afternoon to compete in the annual invitation track meet of the Kansas City Athletic club. Most of the attention of the team in preparation for the meet has been devoted to the two feature relays in which the Aggies will take part. The Aggie two mile relay team will meet Notre Dame, and the mile men will race against Oklahoma university. Though the Aggies have several entries in special events, most of the cream of the team will compete in the relays, and will not be allowed to run in any other events, which might hinder Wildcat chances of victory in the features.

Two years ago, when the Aggies and Notre Dame met for the first time, the Aggies were victorious. Last year medley relay teams from both schools ran in the Kansas relays, Notre Dame finishing second and the Aggies a close third.

Members of the K. S. A. C. two mile relay team are Ralph Kimport, Norton; E. E. Coleman, Alma; Paul Axtell, Argonia, and A. I. Balzer, Inman. Balzer, Coleman, and Kimport are letter men, and Axtell is a cross country letter man.

Kimport has been running the mile in 4:34 on the indoor track in Nichols gymnasium, which is just slightly above the mark of 4:31 4-5 set by Ray Watson, greatest Aggie middle distance man, who competed here three years ago. Kimport won the thousand yard open race at the K. C. A. C. meet last year, but will not compete in the race tomorrow night.

The mile relay team will be Kenneth Knouse of Valley Falls, captain and two letter man, H. A. Brockway of Olathe, letter man, Harvey Russell of Topeka, and L. L. Davis of Effingham.

Eleven men will be entered in nine special events. P. R. Carter of Bradford, letter man from last year will pole vault. J. E. Smith of Woodward, Okla., Lyle Munn of Colby, captain of the 1924 football team, and F. A. Brunkau, Ellinwood, put the shot. T. A. Fleck of Wamego and McGrath will run the 1,000 yard race. Emil von Riesen of Marysville, two letter track man, and M. L. Sallee, who were on the winning cross country team will enter the mile run. Norman Roberts and Paul Gartner, both of Manhattan, will run the high hurdles and Gartner will enter the low hurdles also. C. P. Foote of Wichita will be in the 50 yard dash.

This opening meet of the track season may give some idea as to the respective strength of the schools in the Missouri valley.

DANCE PLANS NEARLY COMPLETE

Journalists' Scramble to Be Held in Recreation Center February 13

Plans for Scribblers' Scramble, journalists' annual social event, which will be held in Recreation center Friday night, February 13, have been practically completed. Special solo dances and several stunts have been arranged for and will feature the evening's entertainment.

Newspaper environment will prevail in the decorations. Good music has been obtained for the party, and since the floor in Recreation Center has been refinished, a good dance is assured.

Mary Lee Keith, who attended K. S. A. C. last year and the University of Missouri last semester, has returned to K. S. A. C.

FINE WEATHER

The past two days have been examples of some of the finest weather that February might offer.

And the past few days have been the time when getting acquainted with and starting in new courses should have been accomplished.

Unless the weather man sends the mercury downward today or tomorrow the six weeks grade card is not going to prove very pleasant for quite a number of students. There is very little credit toward graduation given in campus laboratory, auto riding, and the associated courses.

Cutting of classes is made doubly disastrous just at this time of year because, in addition to preventing the student in getting started right in his school work it makes the instructor feel that the student is not interested in his course. And because instructors are merely human beings some students, who really don't work very hard, get along fairly well if they show some interest. Later on, when work in the course is fairly started, an occasional walk or movie would not have as serious resultant effects as at the present time.

Try and control your desire to cut classes and you might change a probable flunk into a P.

And then maybe by the time this editorial is read the mercury will be below zero.

There is nothing more disconcerting for a germinating humorist than to plunk himself down and watch the face of some unknown person who is reading some of the young Mark Twain's stuff.

The person in question will thumb the pages unaware that he is the object of all the eyes of the author. No smile appears on his lips, not the slightest flicker. He may even yawn, glance to some other part of the reading material, and then toss it to one side. Yes, disconcerting is putting it mildly.

The cross-word puzzle is about dead. They are making cross-word clothes and that is always a sign that the fad is on its last legs. Remember Mah Jongg and King Tut?

Harry hasn't a very long memory either. All he knows about punctuation is that the period is used after abbreviations and to dot "i's" with.

We are glad to announce that the proposed Easter vacation is a sure thing now— as far as we are concerned.

An Aggieville merchant declares that he doesn't believe he would care for tripe as he never liked catfish and the rest of the water animals.

A lot of the instructors at this institution of learning must be easy to fool, else why did so many girls happen to pass one or two subjects last semester?

We had a good paragraph a while back that involved the word bolsheviki, which word we couldn't spell. Now we can spell it, but don't remember the original idea.

Diplomacy is what a boy has when he is able to have a date with a girl all Sunday afternoon, leave her at five-thirty and then go back for the rest of the evening.

They're spreading it around now that R. O. T. C. means Right Off The Cultivator.

By way of beautifying the campus they are digging another hole at the east gate.

Boys will be boys, but girls will be silly.

Statistics of 78,500 oil wells drilled east of the Rocky Mountains in three years show that 83.78 per cent are of problematic value; that the big gushers are less than one per cent.

On Other Hills

Fraternalities at the Colorado A. & M. college have agreed to lesson "Hell Week" rigors in the interest of studies and the initiates' health.

Two radio courses, one for juniors and the other for seniors, are being offered this semester at Ohio university.

Prof. H. T. Moore, of Dartmouth college, who recently conducted a nationwide survey of college students as to their views on social and political problems, found that the Columbia university undergraduates were the most radical students in the country.

Life-time seat privileges are offered to subscribers of \$250 or more to the University of Oklahoma Stadium-Union Memorial fund.

The University of North Carolina

has a junior student whose age is 62, while Oglethorpe university in Georgia has a student who is but ten years of age.

Recognizing the "sense of responsibility and seriousness of the upperclassmen" the executive powers of the University of Nevada have abolished cuts for juniors and seniors.

Intercollegiate night was recently held at Radio Station W. G. Y., at Schenectady, N. Y. in which more than 500 college men took part, representing 45 colleges and universities.

Since the fifty-second annual commencement of the University of Kansas, June, 1924, 110 degrees and ten university teachers' diplomas have been granted.

Two hundred eighty-nine years ago Harvard university was established.

Lieutenant and Mrs. J. V. Cole are the parents of a son, born Wednesday, February 4.

Mohammedans will eat no meat unless a prayer is uttered while one of their own religion cuts the throat of the animal.

Marcia Beggs of Washington has returned to college for the spring semester.

T. B. Donoghue entered college for special work this semester. He has been attending St. Marys college.

Wanted: Three men for sales work beginning February 1. Training will be given in Manhattan and the men then sent out to openings in Kansas. Write G. D. Olmsted, 623 Bryant Bldg., Kansas City, Mo. 33-37

Winning the West

Irrigation by electrically driven pumps has made hundreds of thousands of acres of desert land in the Intermountain West blossom like the rose.

For a few cents a month per acre, electricity—the giant worker—brings the life-giving water from distant lakes and rivers to rainless valleys, producing rich harvests of fruits and vegetables, cereals and forage.

What electricity is doing for the farmer is only a counterpart of what it is doing for Industry, Transportation, City and Country life or any of the professions. It is a tool ready for your use and which, wisely used, will make the impossible of today an accomplished fact tomorrow.

How electricity does these things is important to the student in a technical school—but what electricity can do is important to every college man or woman, no matter what their life's work may be.

The General Electric Company provides for agriculture little motors that do the farm chores and great ones that operate mammoth pumps to irrigate vast stretches of arid valleys.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

Society Happenings

SOCIAL CALENDAR

Friday, February 6

Senior Men's Pan-Hellenic, Community house.

Farm House dance, chapter house.

Saturday, February 7

Y. M. and Y. W. party, Recreation center, 3:00 o'clock.

Monday, February 9

Social Club meeting, Recreation center, 3:00 o'clock.

Misses Izil and Mary Polson entertained Sunday afternoon with a tea at their home, 830 Bertrand. The guests were: Mrs. Maude Sullenberger, Misses Araminta Holman, Virginia Reeder, Kate Hassler, Edith Norris, Hilmarie Freeman, Evelyn Colwell, Karleen Garlock, and Ruth Davidson.

Miss Araminta Holman left Tuesday for her home in Leavenworth, where she will spend a few days before leaving for New York, preparatory to her study abroad.

Prof. F. A. Waugh of the Massachusetts Agricultural college was the guest of honor at a dinner given Monday evening by the Kappa Delta sorority.

Miss Florence Helzer, formerly of the K. S. A. C. English department, who is now teaching in Washburn college, is entertaining Saturday in Topeka in honor of Miss Araminta Holman, who is leaving soon for Paris.

Sunday dinner guests at the Kanza house were: Mr. L. L. Frankhauser and Mr. A. F. Hollander.

Dr. and Mrs. W. E. Grimes entertained at their home on Saturday evening, January 31, for the faculty members of the department of agricultural economics and their wives.

Phi Kappa held formal initiation Saturday afternoon for Edward Bramlage, Junction City; Marvin Ingram, Wellington; Robert Reed, Glasco; and Maurice Casey, Dorance.

Sigma Phi Epsilon announces the pledging of Leo Miller of Liberal.

Dr. and Mrs. R. C. Smith and Dr. and Mrs. J. C. Peterson entertained the seniors of Phi Kappa Theta fraternity with a dinner Sunday evening at the home of Doctor and Mrs. Smith.

Timothy Foley, '23, is spending the week end at the Phi Kappa house.

At the last meeting of the Webster Literary society, the following officers were elected for the spring semester: president, Jewell K. Watt; vice-president, A. R. Loyd; recording secretary, L. C. Russell; corresponding secretary, Roy Balner; treasurer, Sheldon B. Storer; critic, M. R. Buck; program committee, Alvin Ritts, F. L. Howard, and C. W. Schemm; board of directors, Robert W. Fort, Arthur Jackson, and H. G. Rethmeyer; marshal, D. E. Wollner; assistant marshal, Foster Hinshaw. The society also announces the election of two new members, C. W. Heltzel of Beloit and R. Reitz of Belle Plaine.

Dean Margaret Justin will give an address at the district home econom-

ics association banquet in Topeka, Saturday evening. The district association in Topeka is unusually active and is making extensive plans for the year in connection with the national association.

The girls of the freshman commission gave a Valentine party, Monday from four to six in the Hamilton-Ionian Literary hall. About 40 girls were present.

Hold Physical Examinations

The physical examination for all new girls in the physical education department will be held Saturday afternoon at one o'clock.

Fresh, just received by express—beautiful packages of best known chocolates. Park and Tilford candies at \$1 per pound and up. Chocolate Shop, north of Western Union.

"HE WHO GETS SLAPPED" IS VICTOR SEASTROM'S BEST

Victor Seastrom has gone into the field of Russian literature for his latest screen story, "He Who Gets Slapped," which is to open at the Wareham theater Monday for three days.

Seastrom, one of the foremost actors and film directors of Europe, was brought from Sweden about a year ago by the Metro-Goldwyn-Mayer company. With "Name the Man!" his first production in this country, Seastrom won nationwide commendation, and those who have seen his latest effort declare he far surpasses his earlier work with it.

"He Who Gets Slapped" was adapted to the screen by Carey Wilson from the play by Leonid Andreiev, which the New York Theater Guild produced on the stage with Richard Bennett in the leading role.

Its story is a dramatic, tragic, compelling one, and its locale—that of a European circus—is rich in color and atmosphere. It was a happy selection as a vehicle for Seastrom also in that it is literature of a race with which he has lived most of his life, and which he knows and understands.

Dormitory Bill Passed

The bill for the proposed dormitory for K. S. A. C. has passed both the houses of the Kansas legislature and is now resting in the hands of the ways and means committee. "I believe K. S. A. C. has a very hopeful outlook in regard to a dormitory," Dean Van Zile remarked Wednesday.

Mr. and Mrs. K. I. Church are attending Farm and Home week. Mr. Church, '23, is traveling agent for

the Portland Cement company. Mrs. Church, formerly Miss Gertrude Parrish, was enrolled in the division of home economics during '23 and '24.

Radio supplies. Kipp's.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A. Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

PLAY FINALS IN TOURNEY

W. A. A. Cup Goes to Winning Volley Ball Team

Volley ball tournament finals which were postponed on account of mumps and final examinations are scheduled for this week and next. Teams entering the final series of games are those of Alpha Delta Pi, Alpha Theta Chi, Gamma Phi Delta, Chi Omega, and Kappa Delta.

A silver loving cup will be presented by W. A. A. to the organization having the winning team. The cup may be held a year and any organization which wins the cup for three successive years receives the cup permanently.

Alpha Theta Chi seems to be leading the field at present, having won three games. Alpha Delta Pi has won two games and lost one, that with Alpha Theta Chi. Kappa Delta has lost a game to Alpha Theta Chi and won one, while Chi Omega seems to be in line for the cellar position, having lost every game played so far in the final schedule. Gamma Phi Delta was defeated by Alpha Delta Pi 50 to 32 Tuesday evening in the first game of the finals which it has played. The different teams seem so evenly matched that a two or three way tie is still entirely possible.

The schedule for the week is as follows:

Thursday, Feb. 5—Gamma Phi Delta vs. Kappa Delta.

Tuesday, Feb. 10—Alpha Delta Pi vs. Kappa Delta. Chi Omega vs. Gamma Phi Delta.

Thursday, Feb. 12—Gamma Phi Delta vs. Alpha Theta Chi.

To Select Rifle Team

Seven men will be selected this week to represent K. S. A. C. in the Hearst Trophy rifle shoot. These men will shoot against all major collegiate teams.

Telegraphic Match with North Dakota

The K. S. A. C. rifle team is shooting a telegraphic match against the University of North Dakota this week. The team will be somewhat handicapped in the match due to the fact that S. T. Madden, one of the most consistent marksmen on the team, has left school. However, all members of the team are shooting excellent scores for this time of the season.

Boxers Working Out

Kansas Aggie leather pushers are working into condition under the direction of their captain, C. F. Hoelzel, who is acting as coach. They are expecting to hold boxing meets with both Ames and K. U. and perhaps several other teams, depending on the showing made in the first meets.

Candidates for this year's teams are numerous and choosing the team will be no easy task. Most of the men of last year's team are back and eligible this year but some of the men who were not eligible last year are putting up some stiff competition for places on the team.

Drama

The Purple Masque dramatic fraternity chose for its first full-evening play of the year, Frank Craven's rapid-fire comedy of married life, "The First Year." The play purports to be a comic tragedy dealing with the question of marriage; but whether it is a comically tragic or a tragically comic picture of the blessed state, is entirely a matter of personal opinion, and only those war-scarred veterans of the front line trenches of marital infelicity are competent to judge with any degree of authority. Of course, after seeing the play, every bachelor will willingly subscribe without reservations to Tommy Tucker's sensible con-

clusion, "Don't marry until the second year."

The play was presented by an experienced cast that had little difficulty in rising to the situations presented by the plot. There was not a dull moment in the whole hour and one-half of the play. In fact, as one of the audience remarked, "what time the audience was not convulsed with the comedy, it was so interested in the tragedy that one could hear the ticking of the auditorium clock."

Mr. Ferdinand Volland, Miss Lois Grasty, and Mr. Jack Kennedy, having the cleverest lines, probably scored most heavily with the audience, although Miss Rebecca Thacher, Miss Lillian Kammeyer, Mr. Harold Sappenfeld, and Mr. James Lansing came in for their share of honors, and Miss Betty McColn and Mr. Arthur Maxwell made the very most of their few moments on the stage.

Mr. Volland's "Mr. Livingston" showed careful analysis and intelligent interpretation of character, and deserves to rank with his splendid work in "The Three Wise Fools" and "The Admirable Crichton." Miss Grasty's "Hattie" was a welcome change from the traditional colored domestic of the stage; and Miss McColn's "Mrs. Barstow" brought to the married life of Reading, Ill., and Joplin, Mo., a whiff of Broadway that gave excellent comic relief.

The greater share of the success of the play is due to the very commendable work of Miss Thacher and Mr. Kennedy. There may have been a few weak spots in the play. Mr. Kennedy under the influence of

liquid "orange blossoms" grew hilarious with enviable rapidity, and his hand-decorated eye was so unbelievably black as to be almost ridiculous. But it was only in such minor details that the play lacked a little; in the larger and more important business of the plot, it was excellent.

The play was staged by Mr. Earl G. McDonald of the department of public speaking; and although he had a seasoned cast to work with, the enthusiasm with which the play was received, was the result of his competent directing.

C. W. M.

Boxing Matches Postponed

Intramural boxing and wrestling matches which were scheduled for Wednesday evening have been indefinitely postponed. A few spectators appeared Wednesday evening at the gymnasium, but the contestants were not in evidence.

The contest may be held in the gymnasium or at the stadium later in the spring when the weather permits. Students are asked to retain their tickets which will be accepted for admittance whenever the matches are staged.

CARA NOME

(Dearest Name)

From the lips of one of the world's greatest singers came the inspiration to produce Cara Nome.

Cara Nome line is complete. You will find at our store Complexion Powder, Cold Cream, Vanishing Cream, Skin Cream, Lip Stick, Eyebrow Pencil, Rouge, Perfume, Astrigent, Toilet Water, Compact Single, Compact Double.

A word about Cara Nome Face Powder. The ingredients entering into the composition of Cara Nome Face Powder are of the highest grade, regardless of price. No finer line of face powder is produced in America or France. It improves the complexion, imparting a delightfully smooth, transparent radiance, like the school girl's, and at the same time is invisible.

Cara Nome Complexion Powder is provided in all the popular shades: Blanche (white), Rachel (brunette), Naturelle (flesh), and Rose (pink). Its texture in each of these tints is wonderfully soft, blending, and clinging.

SPECIAL FREE OFFER

We have secured from the manufacturer of this powder 500 miniature packages. We will give these absolutely free to the first 500 ladies coming to our store Saturday, February 7th. We want you to try this wonderful powder at our expense. We know you will be delighted.

PREXY ASSURES EASTER HOLIDAY

FOUR DAYS' VACATION BREAKS SPRING MONOTONY

Jardine Warns That an Attempted
Roughneck Holiday Will Annul
His Approval of Plan

Final approval of the four day Easter vacation was granted by President Jardine upon his return from Washington last Monday. The vacation will start at 6:00 o'clock Thursday evening, April 9, and close at 6:00 o'clock Monday evening, April 13.

Takes Place of Roughneck Day

This spring vacation will take the place of the usual Roughneck day, and the Campus Clean-up day which was instituted last year. President Jardine wishes to emphasize the fact that if any vacation whatsoever is taken on the Ides of March—the usual time for Roughneck day—his approval of the Easter vacation will be annulled, and classes will be held as usual.

According to faculty members, the vacation was granted as a direct result of the action of the S. S. G. A. council in asking the president for it. Had the demand originated with the faculty council it is not probable that the holiday would have been sanctioned, according to the statements of these members.

Students Welcome Vacation

This is the first time for several years that K. S. A. C. has had a spring vacation, and students generally are welcoming it, as it will break up the monotony of the continuous classroom work during the second semester.

KSAC CHANGES WAVE LENGTH

Increases to 335 Meters in Order to
Avoid Interference

Radio Station KSAC announces a change in its wave length. The new length will be 335 meters, the former wave length was 341 meters. This increase in wave length will partially eliminate the interference from other stations of the same wave length.

Zion City has been the chief contender with Station KSAC in the past, since it broadcasts at the same hours as the local station. With the new length, Detroit will be the only station of any consequence with a similar wave length but the interference will not be great due to the different hours of sending.

Officials of the station here state that in time they hope to have a more powerful set installed and thus eliminate all interference from other stations.

Theta Sigma Phi Pledges 4

Theta Sigma Phi, women's honorary journalistic fraternity, held pledge services Thursday evening for Erma Jean Hackett, Lucille Potter, Alice Nichols and Mary Marcene Kimball. To be eligible for Theta Sigma Phi an average of G in journalism subjects is required, as well as some outstanding work along journalistic lines.

BOYS' WORK EXPERIMENTS HERE

K. S. A. C. One of Few Schools
Chosen for Experiment Station

As a result of its unique work in fostering boys' activities, K. S. A. C. has been selected as an experiment station in the field of community boys' work by college men. This work was received recently by Dr. A. I. Holtz, general secretary of the college Y. M. C. A., from the international committee of the Young Men's Christian association. K. S. A. C. is one of the few colleges of the country chosen by the national council as experimental stations for the various aspects of student work.

The experiments will be conducted on the campus by college men, and the final report of the work will probably include what has been attempted, what has been accomplished, and failures, the record of which will be of profit to others.

GULICK TRANSFERRED TO K. C.

U. S. V. B. Coordinator Is Promoted
as Vocational School Counselor

F. H. Gulick, coordinator of the United States federal training students at K. S. A. C. for the last three years, has been transferred to the Kansas City office. The new appointment is considered a promotion, as in the future he will have full charge of the students who are in project training.

In his three years of service at the college, Mr. Gulick has been in

charge of more than 500 men, 250 of these being non-collegiate agricultural students and the rest, men taking college courses.

There will be no coordinator to take the place of Mr. Gulick, as the office here will be closed within the next two weeks. Until that time there will be a stenographer in charge of the local office. This semester is the final lap for most of the federal training students. However there will be a few who will not finish until the close of summer school.

In a statement recently issued by Mr. Gulick, he declared that his work here had been very successful, judging from reports made by men who have finished here and are out making their own way.

ANNUAL AGGIE ORPHEUM TO BE HELD FEBRUARY 20

Program for Annual Y. M. C. A.
Show Nearly Completed—
Closed Night Obtained

Arrangements for the third annual Aggie Orpheum, which will be held in the college auditorium Friday evening, February 20, are nearly completed, according to Paul Pfeutze, who is in charge of the show.

The Aggie Orpheum, which has been presented the last two years under the auspices of the college Y. M. C. A., offers students a wide variety of stunts. Last year the Pi Phi captured first prize with a novel stunt, "A Ragtime Meal." Other interesting acts included musical numbers by various organization orchestras, "Dan Deever, the Mad Musician," "Isn't It a Nice Day?" presented by college dramatic students, and several acts put on by Mrs. G. L. Tietrick's dancing students.

This year Mr. Pfeutze has promised an even more interesting program. Ten lively acts, which must be approved by the committee, will be presented. Several acts have already been accepted and others are under approval.

This night has been made a closed night for the college. The Orpheum is one of the most humorous and entertaining programs of the school year and has shown to a full house in previous years.

A prize of \$25 is offered to the winner of first place in college competition and \$15 for first place by a down town act.

Admission to the program is 25 cents. Seats are not reserved.

STUDENTS ATTEND MEETINGS FOR LEADERSHIP TRAINING

Payment of Dollar Fee Required for
Registration in Course

Training for the group discussions, which are to be held soon on the campus, will start Friday when a number of students go to Lawrence to a series of meetings held by A. Bruce Curry.

Mr. Curry is head of the department of English Bible, Biblical Seminary in New York and is working under the auspices of the Council of Christian Associations among the students and faculties of the United States. Mr. Curry's popularity has kept him in the work of training group leaders. Those students and faculty of K. S. A. C. who have heard him give his work much praise.

Evelyn Colburn, president of the Y. W. C. A. says of Mr. Curry, "There is something about him you just can't describe. He is more than a teacher; by many he is called a prophet. You don't forget days spent with him; they give you an incentive to dig deeper and keep on digging. One cannot help but feel that Bruce Curry is a man who knows the meaning of the 'life at its best' of which we talk so much. Moreover, he makes you want to live it."

All who wish to go are asked to bring the registration fee of one dollar to the Y. W. C. A. office. The delegation will leave February 13 and will return February 15. All delegates and discussion group leaders are asked to meet Thursday evening at 7 o'clock in the home economics room.

Those who have signed up for the trip so far are: Evelyn Colburn, Helen Green, Dorothy Rosebrough, Mary J. Herthel, Charlotte Sparrowhawk, Clara Paulsen, Ethel Oatman, Laureda Thompson, Paul Pfeutze, Milton Kerr, Theodore Keller, Alton Walker, Marie Insley, Della Justice, H. H. Higginbottom, Katherine Welker, Fred Shideler, Myra Wade, Lois Wildy, A. A. Holtz, B. A. Rogers, Reverend Walter Halbert, Eli Packard, Roy Bainer, H. A. Goering, Miriam Dexter, Ruth Bell, Fern Harris, Lyle Read, Ralph Ewing, Paul Skinner, Ralph Clark, M. R. Buck, and Clyde Randall.

Misses Lucille Heath, Pauline Van Osdel, and Etta Conroy motored to Wakefield and Junction City Sunday.

Brown Bull Reveals Character of R. G. B. —College Humorist

A startling revelation of the double life of the college humorist, R. G. B., is one of the interesting features of the coming edition of the Brown Bull. By a thrilling piece of detective journalism the editor of the Brown Bull was able to procure a number of letters written by R. G. B. which reveal his true character.

These letters were written to a number of persons who seem to hold "trumps" in the fun-maker's life. It seems that the life story of this humorist is not exactly typical of that of most college freshmen, and his wanderings have led him into trouble on several different occasions since his matriculation at K. S. A. C. Since the ethics of the fourth estate do not permit the withholding of news which rightfully belongs to the public, the editor of the Brown Bull promises that these letters will be published verbatim in the Barnyard number, which will be off the press February 25. Yes, these lengthy letters will reveal to the world the truth of our college humorist's life.

COLLEGE LIVESTOCK SHOW ATTRACTS RECORD CROWD

1,000 Persons View Double Exhibi-
tion by Dairy and Block and
Bridle Clubs

More than 1,000 persons attended the second annual livestock show held in the college pavilion Thursday night. This show is sponsored by the Block and Bridle club and the Dairy club. In order to accommodate the crowd both sides of the pavilion were used, duplicate shows being given on either side.

The Dairy department first displayed representatives from the four chief breeds of Kansas dairy cattle, Holstein, Jersey, Guernsey and Ayrshire. All of these were college owned and contained several blue ribbon animals. After the dairy exhibit, the 1924 dairy judging team was introduced to the audience.

The second part of the show was conducted by the animal husbandry department. Various types from the college swine, sheep, beef, cattle and horses were shown. As most of the prize winners are sold after the American Royal stock show, strictly show animals were few. However the horse display seemed to particularly please the crowd. Following this the senior judging team was introduced.

At the close of the show large crowds viewed the creamery department and the new meats laboratory.

To Ship Carload of Lambs

The animal husbandry department will ship a carload of lambs, which have been experimentally fed for 60 days, Tuesday or Wednesday morning. H. E. Reed, associate professor of animal husbandry, and C. L. McCulloch, graduate assistant, will accompany the car and see the lambs sold, killed, and placed in the refrigerator.

"MIKE" ON RULES COMMITTEE

Represents Missouri Valley at National Football Meeting in N. Y.

Prof. M. F. "Mike" Ahearn, head of the department of athletics at the college, will go to New York City next month to attend the annual meeting of the National Intercollegiate football rules committee. Mr. Ahearn is the only athletic director in a Missouri Valley school to be a member of the rules committee for football, and has held that place for several years. The meetings will start March 13 in the Pennsylvania hotel in New York city.

Decisions of the committee as to changes in the rules of football and interpretations of the rules are accepted as official and final by practically all collegiate and prep school football teams in the United States. It is probable that one of the amendments made to the playing code last year, namely the moving back of the kick off from the 50 to the 40 yard line and elimination of the tee will come up for discussion. After a season of play, there seems to be much sentiment in favor of another change in the rule.

Miss Kate Hassler spent the week end at her home in Chapman.

CORRECTION

The dormitory bill has been introduced into both houses of the Kansas state legislature instead of passed by both houses, as was stated in the last Collegian. It is now resting in the hands of the ways and means committee.

GRINNELL GAME "DEFIES DOPE"

PIONEER CREW BEARS JINX
OVER CORSAUT WILDCATS

Aggies Anxious to Retaliate for One
Point Defeat of Two Weeks
Ago

VALLEY CONFERENCE STANDINGS (Up to February 7)				
	W.	L.	Pts.	Pts. Op.
Kansas	5	1	834	187
Washington	5	1	834	182
Nebraska	4	1	800	117
Kansas Aggies	5	3	625	226
Grinnell	3	2	600	126
Oklahoma	4	4	500	195
Missouri	4	4	500	173
Drake	2	7	222	157
Ames	0	9	000	155

When Grinnell invades the Aggie territory tonight they will meet a Corsaut coached team that is extremely anxious to return the defeat administered by the Pioneers two weeks ago which upset the chances for a championship team.

Aggies Have Edge

As far as the dope on the game is concerned the Aggies can either win or lose depending upon what angle is considered. In the first place Grinnell beat the Aggies by one point at Grinnell, which makes them a favorite to win tonight, but it must be considered that the game was played at Grinnell, which was an advantage to Grinnell. On the other hand the Aggies have a decided edge as they beat K. U. with ease and in turn K. U. beat Grinnell 13 points. Then again the Aggies beat Drake twice while the Bulldogs won a one point victory over Grinnell.

Friday night the Aggies meet Nebraska at Lincoln for the second game of the season and although Nebraska handed the Aggies a severe defeat at the beginning of the season there is no doubt but that the Aggies played their poorest game of the season against the Cornhuskers, possibly excepting the Sooner-Aggie game.

Regular Lineup Starts Games

Nebraska now looms as the one contender against K. U. for the title and consequently if the Aggies can beat Nebraska it will greatly complicate matters as to who will land in second place.

The regular lineup will start the games this week with Tebow and Weddle alternating at center.

One Group Rests or Eats, While Others Are Sadly Deprived

Ten Aggie students are enjoying plenty of sleep, wholesome eats, magazines, attendants, and the latest song hits. The privileged ten lounge about all day, playing the Victrola or entertaining their friends at the window. If the conversation is disagreeable, all that is necessary for its cessation is disappearance from the window.

Contrast this with the dire fate of another 10 who are suffering from lack of rest, forbidden fruits, hasty meals and nervous midnight serenades. They range along the gutters, in desperate search of some particular white cat hair, or listen to talks for hours at a stretch. If they speak to the other sex they are paddled for impudence, if they do not they are paddled for not obeying laws of the social order.

Yet both are happy. The only requirement to join the first group is a slightly distorted countenance known as mumps. The other group is going through hell week, otherwise thought of as Satan's initiation.

TALKS ON "MUSCLE SHOALS"

H. B. Walker, Member of Coolidge's
Committee, Will Address Forum

Prof. H. B. Walker, of the division of agriculture, will be the speaker at the Student Forum on February 12. He is just back from Washington after serving on President Coolidge's committee on investigation of Muscle Shoals. His intimate knowledge on the subject enables him to give the "last word" on the subject of "Muscle Shoals" upon which he is to talk. Tickets may be purchased at the Y. W. C. A. office.

RETURNS TO WASHINGTON

Prexy Called to Appear Before Senate
Agricultural Committee

President W. M. Jardine returned to Washington last week to appear before the senate agricultural committee, in response to a telegram received by him Thursday morning. President Jardine is a member of

President Coolidge's agricultural commission.

The senate committee met yesterday. The members of the agricultural commission were to appear in support of recommendations submitted by them to President Coolidge and which the president presented to Congress.

Dairy Club Elects

The dairy club has elected the following officers: president, Frank W. Hagans; vice-president, Karl Neiman; secretary, Earl Knepp; sergeant-at-arms, Glen Wood; treasurer, John Keas; board of directors, Walter J. Daly, Prof. J. B. Fitch, and Homer Summers.

RADIO BIGGEST FARM AND HOME WEEK DRAWING CARD

Largest Crowd in Three Years At-
tends Programs—Visitors Have
Many Meetings

Although only 907 registered during Farm and Home week it is believed that perhaps twice that number attended the programs of the week.

The biggest drawing card, officials of the extension division believe, was the radio station KSAC. Farmers of the state have taken a great interest in this station and the "College of the Air" and many of them made the trip to attend the radio demonstrations of the week.

Each day a general assembly and evening assembly were held. At the evening assembly Monday night President W. M. Jardine gave the address of welcome, giving a discussion of the work of the agricultural commission on which he has been serving in Washington, D. C. President Jardine predicted a bright future for wheat growers as long as they grow only enough for domestic needs.

Each day forenoon and afternoon sessions were held in agricultural economics, animal husbandry, agronomy, dairying, engineering, home economics, fruit and truck gardening, poultry husbandry, veterinary medicine, and zoology.

There were apple judging, livestock judging, and grain judging contests.

Friday was newspaper day and Dr. H. J. Waters, former president of the college and at present editor of the Weekly Kansas City Star, was the speaker at the morning assembly.

The various state breeders' associations met and elected officers for the ensuing year.

Junior Is Camp Fire Executive

Frances Knerr of Manhattan who is a junior in the general science division of K. S. A. C. was appointed Manhattan Camp Fire executive at a meeting of the guardian's council Monday. She will have an office at the community house.

PAPERS CAUSE INTELLECTUAL DISHONESTY, SAYS QUAYLE

Europeans as Well as Americans
Have Little Confidence in Papers

"The newspaper is probably the greatest cause of intellectual dishonesty in existence," was Miss Margaret Quayle's statement during her talk at the Journalism lecture Thursday afternoon. Her experience in America and foreign countries substantiates her statement.

All of the European countries have a lack of confidence in their newspapers. The English especially believe very little of what they read in their publications.

Miss Quayle gives us a very good idea of the journalism profession in Russia. The government has two official newspapers that are sanctioned by the communist government and are subject to censor by the government. The largest use of these papers is to spread government propaganda. The other official publication of Russia is a monthly pamphlet published by the non-believers in God, and put out for the express purpose of showing the fallacy of the present Christian religion. A certain farm journal was excluded from Russia because it had an article on the queen bee, which the government thought would cause harm by its suggestion of monarchs.

George Creel, who had charge of the propaganda during the late war, made the statement that, if he were given complete control of the newspapers in the United States, he could have our country in war with any nation within six weeks. When we find that half of the stories of terrible atrocities committed by the Germans during the war were not true, and that they were writing the same things about us, we can readily believe that statement.

"The journalist is the only one to stop this dishonesty," said Miss Quayle and her advice to the embryo journalists was to back up the truth in all their work.

SCRIBES OFFER MEAN SCRAMBLE

ALL JOURNALIST HOP WILL BE
"HOT NUMBER"

"Decorations Alone Worth Price of
Admission," Is Statement of Gart-
ner—Sigma Delta Chi Head

Preparations for the Scrambling of the Scribblers Friday night are approaching completion at an alarming state, according to Fred Shideler, chairman of the decorations committee. So many new ideas for decorations have been presented to the committee that the only trouble has been to discriminate between the sheep and the crocodiles. Mr. Shideler said on being interviewed today by a reporter for The Collegian. For the benefit of those who have not been following the progress of the Scrambling of the Scribblers, said event is the All-Journalists' dance, which is to be in recreation center Friday night starting at 8:30 o'clock. "Yes, journalists are superstitious," Mr. Shideler said when asked concerning the selection of the date. "However, our superstition extends in the other direction from that prevalent, and we believe that the date selected will be lucky rather than unlucky."

Though the Scribblers' Scramble of 1925 (there you have it) is the first of its kind, it is to be made an annual affair. Each student in the department of journalism is allowed to bring a date from outside the department, and each member of Sigma Delta Chi, which is handling arrangements for the dance, will be allowed to sell tickets to a very limited number of friends outside the department, though the aim so far as possible will be to confine attendance to students within the department and their dates, it was said.

To Wax Enthusiastic

Refinishing of the floor in recreation center between semesters has put it in much better shape for dancing than at parties given last fall, and the Sigma Delta Chi committee on the dance has promised a thorough and enthusiastic waxing of the floor on the part of the pledges.

An innovation in the matter of dance programs has been prepared which is guaranteed to amuse as well as serve. Harold Sappenfeld, author of "No Bananas," the story of "How I Got Thin," and other humorous works is editor of the program.

Complete arrangements for the dance proper are in charge of a committee composed of Sigma Delta Chi pledges, assisted by pledges of Theta Sigma Phi, woman's honorary journalistic fraternity. A newspaper orchestra has been secured for the evening, headed by the Printer's Devil and three assistant stokers. The hottest dance on the program will be the Stereotypers' Stagger, according to Mr. Sappenfeld. Several special feature dances will be a part of the program, among them an interpretation of a freshman journalist pleading a stick of type.

Gartner Gives Hint

A hint was handed out by John Gartner, president of Sigma Delta Chi, to men outside of the department who have "steady dates" within the department that possibly much of their status in the immediate future will depend on acquisition of a ticket to the scramble. For girls who have reticent dates, it is pointed out that leap year is not officially over until the latter part of this month.

"And," concluded Mr. Gartner, "the decorations alone will be worth the price of admission."

WORLD'S RECORDS

Last Saturday night in Convention hall at Kansas city a man jumped higher and a man hurdled faster than any men had ever jumped or hurdled before under similar conditions. Two world's records were broken.

Every day someone is doing something better than anyone has ever done it before. Not only in athletics are world's records being smashed. In every practice of life men are always improving, continually upsetting old standards and establishing new ones.

This fact should be taken into consideration in the life plan of everyone, in that of college students especially. If you would be what is termed a success in life you must do more and better than the successful man of today in order to reach a success proportionate to his. As the years go by the competition becomes stronger.

If you think you are making just as much of your college life as your dad did, or your older brother or sister or your friend, it might be well if you study the matter. You have to do more and better now just to equal their record.

Are you doing it?

For the benefit of those who did not understand we will state that by imbecility is meant nothing more or less than idiocy. The former word is just a bit higher sounding.

It will be a blow to the girls of the college to learn that part of their number was mistaken for some of the Farm and Home week guests. All that saved the rest of the girls the same classification was the fact that they happened to carry books that week.

We hope that implication was obvious.

The Scribbler Scramble Stampede is to be held on Friday, the thirteenth. Decorations, we suppose, will be in the way of ladders and black cats. Now, while harping on the bad luck phase of the thing, why wouldn't it be in keeping to have all boys take blind dates to the affair?

There were several educational notices appearing in those Anderson hall moving pictures. One of them was to the effect that hogs should never be driven with anything but a canvas paddle. Fraternity upperclassmen please note.

It has been a long time since we mentioned anything so personal, but it is impossible to go farther without saying something about the Pi Phi who was so common as to fall up the stairs at Anderson hall just the other day.

And along the same line it might be wise to inquire which one of the Kappas rides the bicycle that occasionally parks in front of the Kappa house.

Perseverance is when you go back the fourth time after her father has emphatically stated that he doesn't care to see you.

From a journalistic point of view, a real fellow is one who lives sensationally, marries sensationally, and

still has the grace to die sensationally.

P. P. J. You are dead wrong. The words "clever" and "girl" should never be used together.

The worst thing Harry can imagine is for twins to belong to the same sorority.

On Other Hills

The students and faculty of Oregon Agricultural college over-subscribed their drive for the proposed Memorial Union building by over fifty thousand dollars.

The journalism department of the University of Iowa has a newspaper library which contains an edition of every daily paper published in the United States, 2,500 in all.

West Point has adopted the three-year football rule, to go into effect next year. The rule will not however, affect this year's freshman team.

Violations of the hazing rules at the University of Minnesota are punishable by indefinite suspension or expulsion from school.

A committee of the American Association of University Women, in compiling expenses of women at 114 colleges and universities, found that college cost the average coed about \$650 per year.

The University of Toronto has a freshman enrolled this year whose height is three feet and six inches.

R. O. T. C. students at the University of Nebraska recently published a newspaper, the "Cadet News," which contains all the news of the Nebraska unit.

An intramural athletic carnival is to be held at Ohio State university early next month. Last year 2,451 individuals participated in the meet, which is recognized as the largest event of its kind in the country.

Students at the University of Indiana who wish to have cars at school must apply to an executive committee. The committee uses as its deciding factors the moral and scholastic standing of the individual.

An epidemic of mumps, which started before the Christmas holidays at the University of Kansas, has increased to an alarming extent.

Cosmopolitan Club Elects Officers
Cosmopolitan club held its regular semi-monthly meeting January 29, in the home economics rest room. The following officers were elected and installed: president, J. H. Hammar; vice-president, Frances Knerr; secretary, Gladys Sanford; corresponding secretary, Beatrice Gates; treasurer, T. M. Kleinenburg; marshal, Z. K. Surmelian; critic, D. J. Vandenberg. Those elected for the program committee are Mrs. Ruth Nettleton, Poy Lim, and F. F. Gulmaras. The advisory committee consists of Miss Machir, Doctor Willard, Miss Derby, Doctor Ajwani, and D. J. Vandenberg.

After the business session, a short Kansas day program composed of several musical numbers and a talk on "Pioneer Days in Kansas" was given.

Bucking Automobile Is Great Trial to Physics Professor

Automobiles, as well as houses, are sometimes haunted by a malignant influence that seems to hover about them constantly. And one of the professors in the physics department has an automobile which is seemingly possessed by the illusion that it is a bucking broncho from out of the great open spaces where men are men—a regular Zane Grey he-horse.

To keep up with his bucking automobile, the physics professor has acquired a wild west vocabulary which is marvelous in its extent. Sometimes in a rage, he blames this unusual bucking accomplishment upon a spark plug, but how could a spark plug, little as it is, cause the whole car to pitch and toss? "Just a few days ago the unhappy owner had to bull-dog his little car before he could fill it with gasoline. These wild western accomplishments weigh heavily upon the dignity of an educator of the young.

By the way, what does cause a car to buck, pitch, toss, kick, and in general misbehave in times of peace?

KANSAS VETS MEET

Annual Conference of Two Associations Is Held Here

A combined program of the twenty-first annual meeting of the Kansas Veterinary Medical association and the fourth annual conference of the Kansas Veterinarians was held at Manhattan on February 4, 5, and 6.

Dr. L. A. Merrilat, president of the American Veterinary Medical association; Dr. John W. Adams, professor of surgery, School of Veterinary Medicine, University of Pennsylvania; Dr. Maurice C. Hall, senior zoologist of the United States bureau of animal industry; and Dr. N. S. Mayo, Chicago, Ill., were the principal speakers at the convention.

Picket Lectures in Wichita
Prof. W. F. Pickett of the horticulture department will conduct a course in orchard management in

Wichita, February 19, 20, and 21. The meetings will be held in the high school from 2 to 4 o'clock in the afternoons and from 7:30 to 9:30 in the evenings.

Lectures and discussions will be on the following subjects: varieties, establishing a young orchard, managing a young orchard, fungicides, insecticides, pruning, marketing, cover crop, and small fruits.

PREPARE "FARM SHOP"

Write Bulletin on What Farm Boy Should Be Taught

Mr. L. B. Pollom of Topeka, who is state superintendent of vocational agriculture schools, will spend this week at K. S. A. C. in the department of education working with Professor Davidson on preparing manuscript for a bulletin on farm shop. This bulletin is to be printed by the engineering division. In conjunction with the preparation of the bulletin they have tried to find out what ought to be taught the farm boy to give him the training he needs for his shop work on the farm. They have been working on this bulletin for about a year. A survey of several hundred farmers has been made in different sections of the state to determine the farmer's viewpoint of what the farm boy should be taught.

We repair fountain pens and pencils of all makes at Askren's College Jewelry Store, 1220 Morostreet, 38-7t.

Englund Writes Bulletin

"Tax Revision in Kansas," the new Kansas state agricultural experiment station bulletin by Prof. Eric Englund of the department of agricultural economics, has just been received from the state printer and is now available for distribution. This bulletin takes up the need for revision in the Kansas tax program and suggests methods of improving the system of taxation.

If you want your watch repaired so it will keep time take it to Askren's Jewelry Store, 1220 Moro or downtown, 40. Poyntz avenue. 38-7t.

Miss Alice Beeler spent the week end in Topeka.

Addresses College Association

Dean Van Zile left Friday morning for Topeka in the interests of the dormitory bill. She remained in Topeka Saturday to deliver an address on "The Relation of College Control to the Social Life of a Student," before the Kansas College association.

Miss Emma Hyde, of the department of mathematics, spoke before the classroom teachers' section of the Council of Administration at Topeka, last Friday afternoon on the subject, "Changing Values in the College Curriculum."

Prof. Ira Pratt will preside at the annual meeting of the Kansas State Music Teachers' association at Ottawa, February 13 and 14.

W. A. Wunsch, '17, formerly an assistant in agricultural economics work at K. S. A. C., was a Manhattan visitor recently. Mr. Wunsch is now farm superintendent for the United States public health service hospital No. 9, of Fort Stanton, New Mexico. While in Manhattan, he purchased a bull from the college dairy herd to be taken to Fort Stanton for the use of the hospital farm.

Educational Classes Are Full

Most of the classes in the department of education are full and overflowing. There are 63 students enrolled in Professor Strickland's Methods class and one of the Psychology classes has 60 members.

Prof. C. W. Matthews and Prof. V. L. Strickland attended the School Men's banquet at Topeka February 5.

Dean E. L. Holton and Prof. W. H. Andrews attended the banquet of the School Masters' club at Topeka, Thursday, February 5.

Try Cozy Inn Lunch, 1403 Anderson. Quality and service. A trial will convince you. 36-tf.

Martin Fritz, graduate assistant in education, talked on college honors and mental capacity at the banquet of Phi Delta Kappa in Topeka February 5. Phi Delta Kappa is the professional fraternity in education.

For guaranteed watch and jewelry repairing at right prices go to Askren's College Jewelry Store, 1220 Morostreet. 38-7t.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

Society Happenings

SOCIAL CALENDAR

Thursday, February 12

Faculty dance, Recreation center.

Friday, February 13

Scribblers' Scramble, Recreation center.

Delta Tau Delta announces the following new initiates: Paul Skinner, Wayne Amos, and Ned Woodman, Manhattan; Austin Lovett, Larned; Carl Feldman, Sabetha; Donald Colburn and Elmer Mertel, Kansas City; Bert Bass, Eldorado; James Blackledge, Sheridan, Wyo.; Louis Barber, Augusta; Don Juan Motter, Wichita; Gordon Hohn, Marysville; and Harold Tomson, Topeka.

Alpha Theta Chi announces the pledging of Miss Juanita Routt of Paola.

Miss Jessie Machir and Miss Katherine Hudson were dinner guests at the Alpha Theta Chi house, Sunday, February 1.

The Cosmopolitan club entertained with a luncheon in the college cafeteria, Friday, in honor of Miss Margaret Quayle, who spoke on "The Youth Movement of Europe." Twenty-seven of the members of the club were present.

Phi Delta Theta announces the pledging of William Lathrop of Norton.

The senior men's Pan-Hellenic gave their annual dance at the Community house, Friday night. The hall was decorated with sheep skins bearing the crests of the different fraternities. The Nebraskans furnished the music for the dancing. The guests included: Dean Mary P. Van Zile, Miss Lois Wildy, Miss Margaret Quayle, and the house mothers of the fraternities. Prof. and Mrs. J. P. Calderwood, and Lieutenant and Mrs. J. V. Cole were the chaperons.

Miss Ella Wilson and Miss Velma Lockridge of Paxico; Miss Renna Rosenthal, Topeka; and Miss Mary Jensen, Keats; were week end guests at the Delta Zeta house.

Among the members of the faculty who attended the Fritz Kreisler concert in Topeka Tuesday evening were: Misses Mary Polson, Grace Hesse, Pearl Ruby, Aline Hinn, Mabel Murphy, Edna Willmann, Mary Brownell, and Mr. John Helm, Mr. Harry Lamont, Mr. Robert Gordon, and Mr. Howard Steup.

Misses Ruth Hartman and Izil Polson were guests of Mrs. Evalene Kramer-Sullivan at Fort Riley, Friday.

Colonel and Mrs. F. W. Bugbee entertained Saturday evening at their home on 204 South Juliette for the cadet officers and their friends. The evening was spent in dancing. Proctor's orchestra furnished the music. At 12 o'clock, refreshments were served. Mrs. Reeves of Lincoln, Neb., was a special guest.

Week end guests at the Kappa Delta house were Miss Bertha Faulconer, Herington; and Misses Mildred Welton and Thelma Oranhood of Topeka.

Misses Helen Eakin, Mary Adda Boone, Jean Middleton, Eleanor Dempsey, Mary Higginbotham, and Marlon Kendall of the Pi Beta Phi house went to Kansas City to attend the Music Box Revue.

Delta Delta Delta announces the pledging of Miss Alberta Kearnes of Auburn, Nebr.

Farm House fraternity entertained with a house dance Friday evening. The Delta Tau orchestra furnished the music for the dancers. About 24 couples were present and were chaperoned by Mrs. M. L. Manley.

Miss Virginia Mills of K. U. was a week end guest at the Pi Beta Phi house.

Delta Delta Delta gave a tea Thursday complimentary to the province deputy, Miss Mary Chapin of Lincoln, Nebr.

Kappa Kappa Gamma announces the pledging of Irene Austin of Salina.

National Eurodelphian Literary society held its regular meeting on Saturday, February 7. The first part of the meeting was given over to the following program: devotionals, Julia Biltz; talk on Campus Chest, Ruth King; music, Miss Ellis and Miss Scott; extempo, Emma Scott; music, Mary Jackson; Delphi, Esther Tracy. A business meeting followed the program.

Franklin and Alpha Beta literary societies held open house for the other literary societies, Saturday evening. The societies were entertained in the following order: Hamilton and Ionian; Webster and Eurodelphian; and Browning and Athenians. About 75 members were entertained.

The following officers were elected by the Alpha Beta Literary society for the spring semester: president, Fred Sheel; vice-president, Paul Axtell; recording secretary, Helen Diller; treasurer, Harry Uhrig; corresponding secretary, Iva Mullen; critic, Vance Eastwood; marshal, John Deas; assistant marshal, Della Justice; first member of board of directors, V. C. Hill; third member of board of directors, Paul Axtell; and fourth member of program committee, Vance Eastwood.

ALUMNI AID COLLEGE

Graduates Must Organize to Boost K. S. A. C., Says Waters

"So many of our alumni go into work in other states after graduation, thus never becoming a vital force in Kansas, that we must build up a loyal alumni association to further the interests of our college," said Dr. Henry J. Waters, former president of K. S. A. C., and now editor of the Kansas City Weekly Star, in an address before a group of 150 K. S. A. C. alumni at a luncheon given in honor of Dr. Waters at the college cafeteria Friday noon.

"The time is coming when there will be a check up in the expansion of our educational institutions in their efforts to give all our boys and girls a college education. When that time does come the colleges that are giving the most service to the people are the ones that are going to go forward, because on final analysis it is the public who is to decide which of the institutions is going

to grow and how it shall grow.

"Too often it is the business man and the banker who first realize the value of the educational institutions, while farmers frequently fail to see clearly the need of the work these institutions are doing. Many of the graduates who leave the state and get out of touch with the college are engineers while the greatest majority of alumni within the state are farmers."

Pecans, Pecans. Fresh Texas pecans at 90 cents pound. Special at Chocolate Shop, north of Western Union.

SOPHOMORES WRITE COLLEGIAN

Majority of Reporters and Staff Members Are Second Year Journalists

Sophomore students in journalism are responsible for the greater part of the news which appears in the Collegian. A reporter is assigned to every department of the college. The number of inches of material which is printed in the Collegian and Industrialist counts largely in the semester grade of the student.

Eleven of the 15 Collegian staff members are sophomore students. Of the 40 sophomore students enrolled in the Collegian practice classes last semester, the 10 who stand highest in the amount of published material are: Newton Cross, 257 1/4 inches; Erma Jean Huckstead, 252 inches; L. W. Youngman, 174 1/4 inches; Mary Marceene Kimball, 156 inches; Lillie Pauline Brandley, 149 1/4 inches; Oswald Dryden, 149 inches; Josephine Heath, 140 inches; Janice Barry, 137 1/4 inches; Bessie Booth, 135 1/2 inches; and Florence Wells, 135 1/2 inches.

Jay Wells, a freshman who served on the staff the first semester has 344 1/4 inches of published material to his credit. Alice Lane, another freshman, has 53 1/4 inches. Freshman students are not required to hand in copy for publication. However it gives them excellent practice and shows a spirit of cooperative interest.

Valentines and Valentine party goods at the College Book store.

Prof. P. P. Brainard and Prof. C. V. Williams are giving the inspirational talks for the opening exercises of the rural school for the month of February on the radio. Professor Brainard delivers the address on Monday, Wednesday, and Friday, and Professor Williams Tuesday and Thursday.

To Hold Scholarship Contests

Prof. V. L. Strickland will conduct scholarship contests in Cloud county, Nemaha county, and Norton county, during the month of April. The contests in Norton county are to be given in the two county high schools and the contests in Cloud and Nemaha are to be conducted in all of the high schools in the county.

Radio supplies. Kipp's.

Plan Home Economics Conference

Miss Maude Williamson of the department of education went to Topeka Saturday, February 7, for a conference with Miss Agnes Saunders of the Kansas State Teachers' college at Pittsburg, and Mr. C. M. Miller, state director of vocational education, to make plans for a home economics conference to be held here June 5 and 6 and in Pittsburg June 8 and 9.

Fresh candy, made every day. Chocolates, fudges, pecan puffs, etc. Chocolate Shop, north of Western Union.

Mr. Martin Fritz, graduate assistant in education, talked to a meeting of Pi Kappa Delta at Topeka February 6.

Miss Bernice Hedges, '24, who is music instructor at Mankato, Kansas, spent last week end in Manhattan.

Misses Thirza Mossman, Elizabeth Austin, and Grace Bischof spent Saturday in Topeka.

Miss Francis Iserman spent the week end at her home in Topeka.

I. N. Chapman, farm management demonstrator, went to Newton, Monday, and will spend this week doing farm account club work in Harvey county.

Pianos for rent. Kipp's.

Dean Holton went to Topeka Thursday, February 5, to attend the meeting of the Council of Administration.

SOONERS LOCATED BASKET MUCH SOONER THAN AGGIES

Wildcats Trained in Slump Throughout Game While Oklahoma Looked Like Champs

Lack of the "old Aggie fight," and inability to locate the basket, with Oklahoma in championship form tells the story of the defeat of the Aggies last Friday night 35-23.

The game was one of the fastest ever seen on the Aggie court, but perhaps not the most interesting for the home crowd inasmuch as Oklahoma started the scoring and was never headed nor tied throughout the entire game.

McBride, Sooner forward, was responsible for 10 of the Oklahoma points, making three baskets in quick succession in the second half, thereby putting a crimp in an Aggie rally.

Bunker, Aggie forward and leading scorer in the valley was held to three baskets by Haller, Sooner guard, who counted six points for his team. Much credit is due Haller, for his fast "Cross-floor" dribble seemed to break up the Aggie defense consistently, allowing open shots at the basket.

The Aggies staged a rally near the end of the first half bringing the score from 15-6 to 15-11, but further hopes were crushed when Haller and Wheeler added a goal apiece. The first half ended with Oklahoma leading 19-13.

Several ineffectual substitutions were made by Coach Corsaut in an effort to solve the Sooner defense.

One of the largest crowds of the year was present, including many Farm and Home week visitors.

The score:

OKLAHOMA	G	F	P
McBride, f	5	0	2
Ruppert, f	3	2	2
Wheeler, c	1	1	1
Haller, g	2	2	3
Moore, g	3	0	0

ALPHA THETA CHIS NEED ONE GAME TO TAKE TITLE

Gamma Phi Deltas Upset Dope by Defeating Kappa Deltas 50-30

With only one game separating them from the championship of the woman's volleyball league, the Alpha Theta Chi team will meet the Gamma Phi Deltas Thursday night in the last game of the finals of the tournament. Should the Gamma Phi Deltas be victorious, the race will be thrown into a tie for first between

the two teams playing the final game, or possibly a triple tie should the Alpha Deltas defeat the Kappa Deltas in their game Tuesday night. However, the Gamma Phi Deltas have another hurdle barring their way in the Chi Omegas, whose chances for coming out of the cellar position depend on a victory. The Chi O's already hold one victory over the Gamma Phis, and may repeat.

The Alpha Delta Pi-Kappa Delta game will be the first meeting of these two teams. Last Thursday the Gamma Phi Deltas defeated the Kappa Deltas 50 to 30.

AGGIES PLACE SECOND IN TWO MILE RELAY AT K.C., MO.

Moody, Freshman, Springs Surprise by Taking Third in Half Mile Race from Veterans

Losing to Ames by less than a second but winning easily over Notre Dame and several valley teams the Kansas State College team placed second in the two mile relay, at the K. C. A. C. meet at Kansas City Saturday night. The Aggie mile relay team had a little hard luck happen to one of the runners and was beaten rather easily by Oklahoma in that event. The only other man from Kansas State to place was Moody, who placed third in the half mile. As this was his first year here he had to run unattached.

Kimport started the two mile relay for the Aggies and handed a nice lead to his team mate Coleman. Coleman passed the lead on to Balzer who passed a slight lead to Axtell. Axtell ran a good race, covering the half-mile in a little more than two minutes and one second, but he was passed by an Ames man. Ames ran the race in eight minutes and six seconds and the Aggies ran it in a little less time than eight minutes and seven seconds.

The accident in the dual mile relay with Oklahoma came when Brockway, first man to run for the Aggies, became entangled with an Oklahoma man and fell. By the time he regained his feet the Oklahoma man was fifty yards ahead. From then on the Aggies held their place but were not able to gain, and Oklahoma won the race with little difficulty.

Moody was the Aggie surprise. Unheard of as a runner, even among Aggie students, he placed third in the half-mile and was the only man from here to place in an individual event.

WILDCAT SWIMMING TEAM LACKS OUTSTANDING STARS

Prospects for Winning Team Are Good, However, Says E. A. Knott, Swimming Coach

With three letter men as a nucleus Coach E. A. Knott intends to build a swimming team which he states, should show up well during the season without outstanding stars. The first meet probably will be about February 16 with the Kansas City Athletic club at Kansas City.

Although the schedule is as yet incomplete, four meets have been listed for Aggie swimmers, two of which are with Nebraska, February 25, and with Washington, March 2. It is possible that arrangements may be made for contests with Ames and perhaps other valley schools. Undoubtedly the most important water carnival is the Missouri valley conference meet to be held at Washington university, St. Louis, Mo., sometime between February 4 and 20.

The three letter men are Captain L. C. "Monk" Miller, Phil Carter, and P. L. Stuenkel, all of whom composed the 1924 relay team which placed second in the conference meet. Captain Miller, winner of third place in the back stroke at the same meet, also will compete in the fancy diving this year. Carter, who dived for the Aggies last season, again will try out and Stuenkel probably will swim the dashes. Among the new candidates who have shown up well already this season are: Lippencott, dashes; Farrell, breast stroke; Ulrich, plunge for distance; Vasey, dashes; and Gartner, Harter, and Long, competitors in the plunge.

A new style of practice will be initiated this season in the form of water basketball, a game in which roughness is necessary for a good player. Baskets are placed at either end of the pool and the teams, composed of six men each, attempt to carry the eight inch water-ball to their opponent's goal where they throw it into the hooped basket.

DRAKE ENLARGES STADIUM

Iowa Will Have Largest Bowl in Middle West

Des Moines, Iowa, February 10.—Work of enlarging and improving the Drake university stadium here is expected to start immediately after the 16th annual Drake relay meet, April 24-25, Athletic Director K. L. Wilson said today.

When completed, these preliminary improvements will give Drake the best stadium in Iowa, and the foundation will be laid for building one of the greatest bowls in the middle west as future additions are built.

Improvements contemplated in the immediate future call for an expenditure of \$250,000. It is planned to increase the permanent seating of the stadium immediately from 6,700 to 21,000, with provision for adding 4,000 temporary seats whenever needed. A modern \$90,000 field house also will be constructed to take care of visiting football and track

teams, and more than 2,000 university, college and high school athletes who compete here each year in the Drake relays.

Additional permanent seats will be arranged so that, in the future, the entire stadium can be double decked to take care of more than 40,000 spectators. It is promised that the improvement and enlargement of the stadium can be completed before the opening of the Drake football season next October.

The home schedule contains three stellar events—battles against Nebraska, the Kansas Aggies and Ames—and it is probable that all three of these games will tax the seating capacity of the enlarged bowl here.

Sport Whimpers

It appeared that the Sooner guards had been coached against the overhead pass for nearly every one attempted by the Aggies was intercepted.

The Oklahoma coach substituted for his entire team in the last half but the second string appeared to be as good as the first.

We wonder where the other valley teams get their big men. The Aggies could use a few.

Judging by the size of the crowd that has attended the Aggie games so far, the Aggies will have little difficulty in setting the valley attendance record this year.

The failure of Bunker to make his usual 12 points will no doubt drop him out of the leading scoring position in the valley. Come on Bunker, we want an all valley forward this year.

Although the Aggies failed to show up as well as was expected in the K.

GIRL DEBATERS WIN AT OTTAWA

RECEIVE UNANIMOUS DECISION
IN SECOND EVENT

Meet Seven Schools on Nine Day Tour
Through Missouri, Iowa, and
Nebraska

BULLETIN

The K. S. A. C. girls' debate team won a one-decision debate with Missouri Wesleyan at Cameron, Mo., last night, according to a telegram received here this morning.

The K. S. A. C. girls' debate team received a unanimous decision from the girls' team at Ottawa university on Wednesday evening in the second debate of their present nine day tour. The first debate was with the men's team at Baker university, Baldwin, on Tuesday afternoon but this was a no decision debate.

The team representing the college is composed of the following members: Phyllis Belknap, Abilene; Charlotte Swanson, Manhattan; and Helen Correll, Manhattan. They are accompanied by Prof. and Mrs. H. B. Summers.

Use One Question During Trip

The team is to use one question on the entire trip, upholding the negative of the question, "Resolved, that with a two-thirds vote, congress should be given power to over-ride decisions of unconstitutionality made by the supreme court."

The rest of the schedule will include a debate Thursday night at Missouri Wesleyan college, Cameron, Mo.; Friday night with Penn college, Oskaloosa, Iowa; Saturday night with Simpson college, Indianola, Iowa; Monday night with Morningside college, Sioux City, Iowa; and Tuesday night with Cotner college, Bethany, Nebr. The team will return to Manhattan, Wednesday.

COMMITTEES HERE TUESDAY

Ways and Means Committees of Both
Houses Inspect Library

Members of the ways and means committees of both the senate and house of representatives visited the college last Tuesday on their annual inspection tour of K. S. A. C. The legislators spent the day getting first hand information to aid them in determining on recommendations for appropriations. They left for Topeka on the evening train Tuesday.

The most important projects investigated by the committee during this visit were the proposed new library and dormitory buildings. The crowded conditions in the departments of physics and chemistry were also called to the attention of the law makers.

Mr. C. E. Snyder, chairman of the senate's ways and means committee with nine of its members, and Mr. H. E. Walter, chairman of the ways and means committee of the house with 17 of its members, made up the delegation.

RAISE STANDARD IN CHEMISTRY

20 Per Cent Are Flunked—Only 13
Per Cent Get E

We are not convinced that the younger generation is going to the bowwows, but we can see no hope for them—at K. S. A. C. The standards of the department of chemistry which have hitherto been so low that four out of every five students passed, are to be raised in the near future. The powers that be are convinced that at least two victims out of five should be sacrificed to so worthy a cause as science.

From the 911 students enrolled in freshman chemistry last semester 191 or approximately 21 per cent flunked out in the end.

The engineering division suffered a higher per cent of casualties than the division of general science. Ninety-three from a total of 287, of almost one-third of the total number enrolled, flunked.

Approximately 13 per cent of the students in that department received E grades.

REPORT ON "NEW SLANT"

Group Leaders Tell of Curry's In-
stitute at Vespers

"A New Slant" will be the topic at Vespers on Tuesday, February 17. This will be a report on Dr. Bruce Curry's institute at Lawrence, February 13 to 15. Those who will make the report are Charlotte Sparrowhawk, Ethel Oatman and Evelyn Colburn. There will be special music by the Y. W. C. A. octette.

Doctor Curry's institute is being held for Aggie students, faculty, and recent alumni. About forty Aggies will attend. A. Bruce Curry is from White's Biblical seminary in New

York City. He is now traveling to colleges in the United States, teaching students how to study the Bible and how to lead discussion groups. These groups will be started on the campus and in the fraternity and sorority houses at K. S. A. C. next week.

To Have Psychology Short Course

General E. L. King, of the cavalry school at Fort Riley, has arranged with the department of education to give a short course of ten lectures on the "Psychology of Teaching in Its Application to Army Schools." Dean E. I. Holton, Prof. H. W. Andrews, Prof. C. V. Williams, Prof. J. C. Peterson, and Prof. V. L. Strickland will each give two lectures.

2,000 ATTEND EXHIBIT OF ENGINEERS' OPEN HOUSE

Every Department in Division Represented—Farmers Interested Especially in Agricultural Displays

Approximately 2,000 persons were the guests of the engineers at their open house during Farm and Home week, it was estimated by those in charge of the demonstrations. Exhibits from every department in the division were presented for the entertainment and instruction of the visitors.

Plans in the designing process, displays of free hand drawing and oil paintings by students were on exhibition by the architectural department in its rooms on the third floor.

Models of everything from levels to the latest transits were set up by the civil engineers. There were also maps, plots of ditches, and cross sections of road construction. To tie with this the electrical engineers used every possible way of displaying the wonders of their profession and to show the practical uses of electricity. A room was equipped to show how the home can be beautified by the correct use of lighting fixtures. The visiting farmers were especially interested in the display by the agricultural engineers. A miniature model of a farm showed the lay of the fields and the type and arrangement of the buildings. Methods of draining land and irrigation were also demonstrated.

The processes of testing materials for roads and buildings, and for testing oils were demonstrated in the applied mechanics laboratory. All of the generating units of the power plant were in operation so that the visitors might see how fuel is transformed into the light and heat used in the buildings of the college.

There were displays of wood and metal work done by the students. In the shops students were operating the forging, machining, and foundry apparatus.

Cadet officers answered the questions asked about the guns, range locating instruments, and sectioned projectiles which were on display by the field artillery of the R. O. T. C.

DISCUSSES MAHATMA GANDHI

Professor Crawford Tells of Indian
Leader's Work

"It is unusual to find such a figure as is Mahatma Gandhi," said Prof. N. A. Crawford in the English department lecture given last Wednesday in the home economics room.

"Gandhi is a strong exponent of home rule. When England refused to grant home rule to India, Gandhi rebelled. In his magazine, Young India, he stated his views very clearly. His rebellion was started on a basis of non-cooperation and non-violence. The non-violence feature appealed to the religious group in India, and the non-cooperation idea appealed to the non-religious group as being a factor of political wisdom."

Professor Crawford then pointed out some of Gandhi's beliefs. He believes in God, but he regards all religion on a par, he believes that human or animal life should not be taken under any circumstances, he is opposed to the domination of one caste over another, he is opposed to the mechanistic progress made in the western hemisphere, he believes in self denial, for he says, "Self denial is the preparation for self assertion."

In closing, Professor Crawford explained that Gandhi was not significant in the discovery of a new principle, for Gandhi's principles are age-old, but no one before Gandhi has had the courage to apply these principles to mankind. Gandhi has done only what every genius has done.

Crawford to Address Writers

Professor N. A. Crawford, head of the department of journalism, will speak at the Writers' Conference, March 25, at Iowa City. The conference is being held this time under the auspices of the University of Iowa, at Iowa City. Several noted writers will be in attendance, Doctor Canby and Roger Serger, novelist, being among them.

FATHER AND SON BANQUET SOON

ANNUAL AFFAIR TO BE HELD
FEBRUARY 17

Relay Race by K. S. A. C. Teams
Program Feature—Dr. A. A. Holtz
in Charge of Arrangements

The annual Father and Son banquet will be given Monday evening, February 17, at 6:30 in Nichols gymnasium. Attendance at the banquet last year was nearly 975 and a larger number is expected this year. The men of the town are urged to see that all boys from the fifth grade up are invited to the banquet.

Civic Organizations Are Sponsors

Dr. A. A. Holtz, chairman of the cooperative civic organizations of Manhattan which are giving the banquet, has charge of the program and entertainment for the evening. Dr. Howard T. Hill will act as toastmaster. The main address of the evening will be given by Dr. John Wells Rahill of Topeka. The following program has been arranged: Selection by the orchestra of the First Baptist church; invocation, Rev. H. P. Halbert; special music, College Men's quartette; mass singing, led by Mr. Chester Guthrie; address, "Dad to the Lad," Atty. A. B. Springer; response, "Lad to the Dad;" selection by the orchestra of the First Baptist church; address, "Outward Bound," Dr. John Wells Rahill.

Relay Teams Will Race

During the banquet Coach Bachman will stage a relay race on the gymnasium race track between the two teams which ran at K. C. Saturday, February 7.

The college cafeteria has charge of the menu for the banquet.

AGGIE ORPHEUM BEST EVER SAYS MANAGER PFEUTZE

Dramatics, Music, Impersonations,
and Novel Stunts to Feature This
Year's Entertainment

Nothing is going to be lacking that will make this year's Aggie Orpheum the biggest success of its history, according to Paul Pfeutze, who is managing the big show this year.

As an example of the qualities of the event, an act entitled, "The Yellow Peril," is to be presented by the Purple Masque. McDonald, Sappenfield and Company are the play-wrights and have promised a really novel one act tragedy.

Additional acts include one by the Pi Phi, winners of last year's prize, and also of the Aggie Pop prize this year. The Pines Serenaders have signified their desire to be included in the competition also.

Phi Beta Sigma, colored fraternity, will present "Sketches in Art and Music." Last year this organization won popular approval by a dramatization of present day jazz.

Both the college quartet and the gospel team quartet will have acts. It is also possible that several individual dancing acts, a stunt by W. A. A., and an impersonation of a colored preacher by Bill Guerrant, will be included in the program.

And all of this for only two-bits! Besides, it's a closed night on the hill.

GRADUATE IS NEW INSTRUCTOR

Miss Orpha Maust Has Been Teach-
ing at Leland Stanford

A new instructor has been added to the department of education. Miss Orpha Maust arrived Thursday to teach in the psychology department. She will teach three classes in general psychology and will continue her research work under Professor Peterson. Miss Maust is a graduate of K. S. A. C. with the class of '23. She took her master's degree here the following year. Since that time she has been holding a graduate fellowship at Leland Stanford university, where she has been doing research work under Doctor Terman, who is considered the outstanding man in mental testing in the United States.

W. A. A. Initiates

W. A. A. held initiation Thursday afternoon for Olive Manning, Alice Uglow, Janet Hellworth, Clarella Odell, and Dorothy Schultz. After the initiation services a business meeting was held, during which Vera Alderman was elected as representative to the sectional conference of the national W. A. A. to be held at Illinois university, April 8. Miss Margaret Quayle spoke for a few minutes to the girls on the friendship fund and how it is used in Russia and Czechoslovakia.

Ruby Byrd left for her home in El Dorado on account of illness.

SAVED

The flood of ideas for decorations of recreation center for the all-journalists Scribblers' Scramble was stopped in time to prevent complete submerging of the committee, and the dance will start at 9 o'clock tonight. Unofficial reports stated that there are still a few tickets available to journalists, and close friends of journalists, which would be on sale this afternoon and tonight.

MINOR SPORTS FACE ABOLITION

STUDENT INTEREST IN BOXING
AND WRESTLING LAGS

Knoth Tires of Urging Men to Come
Out—Needs Participants, Not
Rooters for Teams

Intercollegiate competition by K. S. A. C. in minor sports has reached the stage where it may be done away with if student support of the team is not more active, according to E. A. Knoth, director of physical education and coach of minor sports. "By student support I do not mean sideline support," Mr. Knoth said in commenting on the situation today. "What is needed is interest by students who are willing to engage in actual competition with other schools, especially in boxing and wrestling. Tennis and swimming teams also are falling below the standard set for valley competition, but student interest in them as a form of recreation has not allowed them to be almost totally neglected."

Affairs Reach Crisis

Boxing and wrestling affairs reached a crisis in the selection of teams for competition in boxing with Ames tonight and wrestling with K. U. tomorrow night.

Though more than a hundred boxers and at least half that many wrestlers had been enrolled in class during the preceding semester, it was impossible to find seven eligible men who had kept in training enough to make the trip to Ames, with the result that the team went up one man short.

Wrestling presents the same problem, and at least three members of the boxing team will have to "double" as wrestlers tomorrow night immediately after returning from the Ames trip. "I don't know whether the men are yellow or not," Knoth said, "I don't think they are, but it does seem funny that out of a hundred a team of seven would not be available."

Knoth pointed out that Ames and Nebraska of the valley make wrestling and boxing almost a major sport. Ames now holds the National Intercollegiate wrestling championship. Incidentally, at Ames the major portion of the wrestling team is composed of football stars keeping in trim for the winter.

Required at Illinois

The same policy is followed at Illinois, where football men are required to report for wrestling practice all winter long. Wrestling and boxing as a conditioner for football is recommended by Head Coach C. W. Bachman to all football men who desire to be in good condition for work next fall.

Credit is given in physical education for attendance at wrestling and boxing classes. Letters are given in boxing, wrestling, tennis, and swimming to members of teams winning in intercollegiate competition.

New Kind of Thrill Found by Visitors Who Travel Trolley

They paid their fare agoing and they paid their fare coming. Yes, and again they paid their fare agoing and coming. And no doubt they continued the round until their money gave out or bed time came. When a farmer boy comes to town he must take it in from one end to the other.

One evening when there were no Farm and Home week programs scheduled, nearly a dozen visiting chaps decided to try riding the Manhattan special, the Nanny-goat of the rails, perhaps more commonly known as the trolley line. They boarded the car with a thrill like a city chap would feel when he boarded a plow horse, "one of uncertainty," and paying their fare rode to the end of the line, paid another fare and kept doing so until they had made the round trip several times.

While on one of the down town laps, a couple of college students out on a "hell-week" conquest, boarded the car and soon attempted to arouse interest in the farmers and persuade

them to leave the car and help them search for a prowler of the night, a tom-cat. One of the boys answered, with a frightened tone in his voice, "We know we're green and just in from the country but we're not going to spoil a joy ride just to help you find a cat, and besides, I don't believe you want a cat."

Seeing the impossibility of obtaining help from this source the college students left the car while the visiting crew rode the flat wheeled omnibus out of sight.

Senior Class Nominates Officers

The senior class met Monday night and nominated the following officers for the coming semester: President, Laureda Thompson and John Hale; vice-president, Virginia Deal; secretary, Kathryn Bernhisel; treasurer, Perry Rumold; historian, Alice Padelford; and devotional leader, Maxine Ransom.

The election will be held next Wednesday at the window opposite the post office.

AGGIE MEN FAIL TO PLACE IN VALLEY MUSIC CONTEST

Seven Colleges Compete in First Mis-
souri Valley Meet—M. U., Win-
ners, Enters National Contest

Missouri university men's glee club won first place in the first Missouri Valley intercollegiate music contest which was held Monday in Convention hall, Kansas City. Second place was won by Ames, third by Nebraska, and fourth by Kansas university. The Kansas Aggie glee club failed to place in the contest.

The Missouri valley organization is to be affiliated with the national Intercollegiate Musical association of New York and it is planned that the winner of the contest in Kansas City shall later be sent to a national contest.

Seven of the valley schools were represented at the contest last night. They were: Kansas university, Nebraska university, Missouri university, Iowa State, Oklahoma university, Washington university, and Kansas State.

The members of the K. S. A. C. glee club who went to Kansas City Monday morning were: Harry Wilson, who conducted, Floyd Strong, Herbert Goering, Harold Greathouse, R. H. Perrill, O. R. Clency, J. R. Moyer, A. L. Miller, Harold Rethmeyer, H. L. Evans, Clarence Chase, Wayne McKibben, Walton Johnson, Russell Reitz, Lee Thackrey, W. J. Mathias, G. G. LeVitt, Bernard Cash, R. T. Howard, A. A. Jackson, Sheldon Storer, C. R. Clothier, Lawrence Hedge, R. W. Good, Emil vonRiesen, and Charles Stratton, accompanist.

43 ARE IN VET. HOSPITAL

Animals Receive Scientific Treatment
from College Students

The variety of animals treated in a single day at the K. S. A. C. veterinary hospital may vary from a one pound puppy to a 2,300 pound bull. The hospital at present is caring for 3 cats, 14 dogs, 5 cows, 9 horses, 4 mules, 2 sheep, 5 hogs, and 1 bull.

The mechanical problem of handling this great assortment and variety of animals requires a great amount of tact, ability and experience. Otherwise a doctor might be severely injured while handling a nasty dispositioned cat or the hind legs of a strange mule. As most of the work is done by students it is necessary that they have a good understanding of the nature and disposition of different animals.

The animals require constant treatment and care and are kept at the hospital until they completely recover. Many valuable animals are brought in from all parts of the state. The modern equipment at the hospital simplifies the work of caring for such a variety of animals. The K. S. A. C. veterinary hospital is at present one of the finest in the country.

Broadcast Agricultural Situation

"The Kansas Agricultural Situation" for February, which is now ready for distribution, was broadcast from the K. S. A. C. radio station on Thursday, February 10 as part of a special radio program.

PREXY EXPECTS CABINET PLACE

RETURNS FROM WASHINGTON TO
SET AFFAIRS IN ORDER

Cabinet Sources Say Jardine Is As-
sured Position as Department
Head—Appointment Soon

Certain of the appointment as secretary of agriculture, according to unofficial reports at Washington, Doctor William M. Jardine is returning home from the national capitol to set his affairs in order, preparatory to leaving Manhattan within the near future. It is thought that President Coolidge will announce the new appointment within a few days.

Has Not Sought Place

Doctor Jardine has not sought the appointment and his first official endorsement was that given him by the Kansas congressional delegation at a meeting Wednesday morning. The resolution adopted by the delegation said that Jacob C. Mohler, secretary of the Kansas board of agriculture, who had been previously endorsed was still approved by the delegation, but if President Coolidge was not considering Mohler, the delegation desired to call his attention to Doctor Jardine's qualifications. The delegation's action was interpreted to mean that Jardine's chances were believed to be good.

Came to K. S. A. C. in 1910

One of the best known agronomists in the United States and an authority on dry farming, Doctor Jardine, who was born in Idaho, worked on ranches and farms in the far west until the age of 20 years. At this time he went to the Utah Agricultural college where his work was so brilliant that within two years after his graduation he was head of the department of agronomy at that institution. He has taught in several agricultural colleges and carried on important investigations in dry farming for the United States department of agriculture.

Doctor Jardine came to K. S. A. C. in 1910 as professor of agronomy, and was made dean of the division of agriculture and director of the agricultural experiment station in 1913. He became president of the college in 1918.

Is on Farm Commission

President Coolidge recently appointed Doctor Jardine on the farm commission which investigated agricultural conditions and suggested such legislation as was believed necessary. Doctor Jardine made a very favorable impression on the congressional agricultural committee in explaining and defending the commission's report.

Any considerations of the selection of a new head of the college will probably be deferred until the coming reorganization of the board of administration has taken place.

INFLUENCE AND TEACHING OF STUDENT BODY, EUROPE'S NEED

Doctor Mendenhall Urges Lesson of
Good Samaritan

"The only hope for the future of Europe is through the influence and teaching of its student body," said Dr. William O. Mendenhall, president of Friends university, Wichita, at a talk given Tuesday morning at chapel. The subject of Doctor Mendenhall's talk was "Some Observations in Europe."

There is, according to Doctor Mendenhall, a feeling of hatred between German and French children similar to that between the adult German and French people. The situation is quite gloomy from practically all angles. One source of hope for the future is through the students of Europe, due to the aid given by America.

"Let us practice the lesson of the good Samaritan. It will help our religion at home and it will help religion abroad. Before relief came the European student could not believe in God. For him there was no God. But through the kind deeds of the relief organizations he saw love and took faith."

In closing Doctor Mendenhall urged that we all take advantage of contributing to the Campus Chest fund and help to bring about education and good will among the students of other countries.

Redistribute English Students

The English department, in collaboration with the education department, is trying out a test in educational measurements with classes in college rhetoric. A redistribution has been arranged which will be made according to a grade determined by averaging grades made in high school, in intelligence tests, rhetoric tests, and the record in rhetoric I.

SPORTSMANSHIP

Certain members of the crowd that attended the basketball game with Missouri Monday night displayed some of the poorest sportsmanship we have ever seen. The hooting and razzing of the referee, which caused that official to allow the Missouri team several extra free throws, was something for which we believe the school as a whole should be heartily ashamed.

Although the efficiency of the official in question was in doubt at times he was perfectly right in calling the fouls on the crowd. The margin of victory would have been still further lessened and possibly removed had the crowd displayed even a semblance of the right sort of sportsmanship.

The offense, however, was not confined to students but extended to the professors and townspeople that attended. The townspeople have a slight excuse to offer as they did not have loyalty to Aggie traditions to observe. But the professors and students have absolutely no excuse and deserve severe censure. Some of the most powerful razors were certain professors, who, according to their recognized superiority of intelligence, should have known better.

We admit that the officiating of the game was not ideal. But the referee in question is a recognized Missouri Valley official and he conducted the game in his most capable manner. Any protest as to his inefficiency should be referred to the athletic department or to conference officials and not shouted loudly from the bleachers during the progress of the game.

The Brown Bull has a unique way of advertising its wares, to say the most. But many faults must be overlooked for no other reason than that the editor is a "she." Which clears up much to those who, perhaps, did not know.

And then you can never, with the exception of column stuff, believe everything you read in the paper, not even the Collegian.

The animal husbandry department is shipping out a carload of lambs. It is plainly evident that the goats are to remain in school.

Why is it that a girl will call herself dumb, senseless, and so forth, with all the sincerity in the world, but when someone else says exactly the same thing in so many words to her, she gets peeved about it?

the S. S. G. A. for their little efforts, we wish to thank President Jardine for heeding our suggestion about the Easter vacation.

A number of men have listed some things that they would not care to have their wives (if they had them) do. Among them is "fickleness." Fancy a man's not being broad enough to overlook such a little fault. Of course, using lipstick would be just cause for divorce, but no man should object to such a playful trait as fickleness.

Harry has just expounded the startling bit of philosophy that if there were no good looking women in the world all men would be satisfied with homely ones. Marvelous Harry! He probably thought three weeks on that.

Greetings

My valentine
Drinks turpentine
He doesn't care.
He's awfully hard
And uses lard
Upon his hair.

CORRECTION. The bicycle that stands in front of one of the sorority houses belongs not to one of the inmates, but to nothing less than a frequent caller.

The women certainly fooled us this time. Feature them budding out in new spring hats and such as that, and then allowing it to snow. The tricky things! Oh you can't trust them.

England Works on Tax Measures

Prof. Eric England of the department of agricultural economics spent Tuesday and Wednesday of last week in Topeka, in connection with work which he had been requested to do on some of the tax measures. While there, he also obtained data on land taxation from records of the State tax commission. This data will be used as part of an experiment station project on land problems.

Monday, February 16

Father and son banquet, gymnasium.

Mr. and Mrs. H. W. Davis entertained Saturday evening with a seven o'clock dinner at their home, 1727 Fairview avenue, for the members of the English department. The invited guests were: Mr. and Mrs. J. T. Willard, Mr. and Mrs. N. W. Rocky, Mr. and Mrs. J. O. Faulkner, Mr. and Mrs. C. E. Rogers, Mr. and Mrs. J. P. Callahan, Mrs. H. Rushfeldt of Hawley, Minnesota, Miss Helen Rushfeldt, Mrs. Harriet Parker, Miss Muriel Shaver, Miss Margaret Russel, Miss Katherine Bower, Miss Clara Bogue, Miss Annabel Garvey, Miss Anna Sturmer, Miss Nellie Aberle, Miss Helen Elcock, Miss Ada Rice, R. W. Conover, C. W. Matthews, and N. A. Crawford.

The college social club entertained with a reception Monday afternoon from 2 to 3:30 o'clock at recreation center. Following the reception, Prof. Paul Weigel gave a talk on his impressions of his trip abroad, illustrating with pictures. Miss Dorothy Brown of the music department presented two of her students, Elizabeth Nabours and Margaret Spencer, who gave musical numbers. Refreshments were served to about 225 guests. The committee in charge of the affair included Mrs. H. H. Haymaker, chairman; Mrs. A. M. Brunson, Mrs. A. E. White, Dr. Margaret Justin, Mrs. B. H. Fleener, Mrs. E. J. Frick, Mrs. Harry Reed, Mrs. L. D. Bushnell, Mrs. L. E. Conrad, Miss Dorothy Brown, Miss Pearl Ruby, and Miss Osceola Burr.

Phi Kappa announces the pledging of George J. Casper, Junction City; Francis Calaghan, Abilene; and N. A. Hohnbaum, Mayetta.

Sigma Alpha Epsilon held initiation Sunday for the following men: Robert Pirette, Council Grove; Ronald McKechnie, Kinsley; Cornell Bugbee, Manhattan; and Joe Holsinger, Kansas City.

Phi Sigma Kappa announces the pledging of Herbert Chase of Los Angeles.

Sunday dinner guests at the Alpha Rho Chi house were Mrs. M. P. Weyer and daughters, Grace and Verda.

Mr. and Mrs. A. F. Peine, Mr. and Mrs. J. B. Fitch, Mr. and Mrs. J. H. Parker, Mr. and Mrs. V. L. Strickland, and Mr. and Mrs. H. H. Haymaker entertained with a bridge party Thursday evening at the Parker home. The guests included the members of the college card club and their husbands.

Iota chapter of Kappa Phi was entertained by its patronesses, sponsors, and its honorary members with

a dinner, Tuesday evening at the Methodist church annex. The tables were arranged in the form of a "K". The chief color predominating in the decorations and menu was red. Valentines were given for favors. Dean Justin was toastmistress and Mrs. L. H. Limper gave two musical numbers. Guests of honor were: Mrs. T. M. Rogers, Mrs. H. E. Wolf, Dean Mary P. Van Zile, and Miss Lois Wildy. Hostesses were: Honorary sponsor, Mrs. George Parkinson; sponsor, Mrs. B. A. Rogers; honorary member, Mrs. H. Smeithurst; patronesses, Dean Justin, Mrs. B. R. Hull, Mrs. A. Huse, Mrs. R. Richardson, and Mrs. L. H. Limper. Covers were laid for 99 guests.

Theta Tau, Presbyterian girls' club, held its monthly meeting in the banquet room of the cafeteria, Tuesday evening. After dinner, a short program and business meeting was held. About 30 members were present.

Dean Mary P. Van Zile was in Topeka over the week end in the interest of the dormitory bill. Saturday afternoon she delivered an address before the Kansas college association. The title of her address was "Relation of College Control to the Social Life of Students."

Alpha Rho Chi announces the pledging of James Burton, Hollis, and Emmet Hill, Jennings.

Dinner guests at the Gamma Phi Delta house Sunday were Messrs. C. G. Nygren, E. E. Leasure, and Russell Dade.

Cozy Inn—We deliver night orders, hot dogs, hot tamales, hamburgers, light lunches, and ice cream. Phone 1328X. 39-4f

Dorris Duckwall and Marjorie Rasher left for Abilene, where they will spend the week-end with their parents.

Be yourself—talk the Aggie Orpheum.

Karl Rugh of Abilene was a guest at the Sigma Alpha Epsilon house Monday and Tuesday.

Come to the Congregational church where the young folks run things.

She had to know, and she found out at the Aggie Orpheum, auditorium, Friday, February 20.

Heard on the Hill

The dumb-waiter in the cafeteria was a new feature to one of the visitors at K. S. A. C. last week. After he had eaten his lunch he walked over to the dumb-waiter shaft and stood looking down into the space below. "Well, now, boy, do you just dump these here dishes into the hole?" he asked of a student standing nearby.

During Farm and Home week a botany class made a tour over the campus to study trees, identifying them by the twigs. Two women, visiting K. S. A. C., were viewing places and things of interest about the campus, and seeing the botany class, joined it. They proved to be real botanists, and aided the students in identification of many of the trees.

"That poultry lecture was simply grand," said a feminine Farm and Home week visitor to her friend. "You know there's a germ called bacteria? Well, he told us all about it."

An Aggie coed's pride in the magnitude of the Farm and Home week program received a jolt the other morning when she was accosted by a woman who wanted to know where the home economics building was. On receiving directions the woman inquired, "Is that where they're having the meeting?"

For his conception of the size of the college, the prize is awarded to the man who called the Collegian office and asked to speak to the debate coach. He was told that he had the wrong number. "Why, this is the college, isn't it?" was his puzzled reply.

The pledge insignia of Sigma Delta Chi is a pair of lensless spectacles with flowing black and white ribbons attached to the tortoise shell rims. For the last week four young men of the journalism department have been wearing this decoration about the campus, and during Farm and Home week one of them heard a woman's disgusted comment to her companion, "Would you look at that! Such silly vanity."

In commenting on the various improvements and new buildings on the campus one recent visitor was

heard to remark, "The stadium looks pretty good even if it isn't finished, but of course it will look a lot better when they get the roof on."

With its usual discordant banging and rattling of music stands, chairs, and instrument cases, the band was tuning up for its regular hour of practice Thursday afternoon in the gymnasium. A farm and Home week visitor quickened his steps. "We must be late for the banquet," he said to his companion. "There goes the music."

Music Students Give Recital

Students in the department of music presented the following program at the recital, Monday afternoon: "Prelude," Op. 28, No. 15, by Chopin, Helen Gates; "Homage," by Teresa Del Riego, Bernice O'Daniel; "A. D. 1620," by MacDowell, Cornelia Schaaf; "He was Despised," by Handel, and "Ah, My Beloved," by Stickle, Marjorie Hubner; "Sea Chanty," by Grainger, and "Valse," by Levitsky, Blanche Lapham; "Fairly Pipers," by Brewer, and "Pirate Dreams," by Hueter, Madge Rickey. This is the first student recital to be given this semester. From now on they will be presented every alternate Monday.

Pianos for rent. Kipp's.

R. H. Lush of the dairy department left Monday for Wichita where he conducted a three day dairy extension short course.

Furnished rooms, with heat, for college students. Also board for girls and boys. 1116 Laramie. Phone 1155W.

No Spring Wardrobe is Complete without AN ENSEMBLE

The Ensemble Costume is the most important mode for spring. An adorable frock in the newest materials with a coat to harmonize. This matching coat and frock is indeed the perfect costume! Without the coat it is a frock for afternoon or dinner—with the coat, a costume correct for every occasion.

NEW FROCKS

Spring Style Dresses—for street, school, sports, afternoon, and dinner wear; vivid hues in unusual color combinations are the last word for Spring. We are now showing all the latest effects of the new dress mode.

VIVID COLOR COATS

Coats are slender—but not severely so; some of the newer modes have narrow, flat collars, with fur appearing on skirt and cuffs only; others show self trimmings, buttons, and slight flare effects—all combining a harmonious display of color and style.

AGAIN ATTEMPT A "DAVID" ROLE

**AGGIE MIDGETS PLAY GIANT
HUSKERS IN LINCOLN TONIGHT**

**Dope Favors Huskers—Which Means
Nothing at All as to Probable
Outcome of Game**

Practically out of the valley race as championship maker, but still very much into it as a championship breaker, Coach C. W. Corsaut took nine members of the Aggie basketball squad to Lincoln today to meet the University of Nebraska basketball team, leading contenders with the University of Kansas for the title. Though Nebraska took the midget Aggie team to a fall in the first game of the season, they have been defeated by Kansas and were recently given a scare by Grinnell, over both of which teams the Aggies hold victories.

Doolen Makes Trip

Captain Art Doolen had recovered sufficiently today from an attack of "flu" which kept him out of the Grinnell game to be able to make the trip, but he will not be used unless Corsaut deems it absolutely necessary. The same line-up will face the Huskers which started against Grinnell last Tuesday night, Weddle and Koch, guard; Tebow, center; Bunker and Byers, forwards.

Men who made the trip to Nebraska today were the five members of the starting line-up: Doolen and Scholz, guard; Strickenfinger, forward; and Stebbins, center.

Aggie Chance Good

The advance dope on the game naturally lies with Nebraska, which means nothing at all in predicting who will win the game, as the valley has seen upset after upset this year. Loss of Doolen will be somewhat of a handicap to the Aggies, but with Tebow scoring at center and Weddle back at guard the line-up will be practically as strong as at any time this year. Weddle has developed into an out of the ordinary defensive man, and though his play is less driving than that of Doolen, it is very steady, and makes him one of the hardest men in the valley to get around.

AGGIES AVENGE DEFEAT OF GRINNELL WITH 37-26 WIN

Aggies, Regardless of Doolen's Absence, Hit Stride and Turn in One Sided Score

Handing the Grinnell team a 37 to 26 defeat Tuesday night the Aggie squad easily avenged the defeat of two weeks ago and broke their losing streak. The game was practically even until the last four minutes of play when a rally by Bunker and Tebow brought the score from 29 to 26 to 37 to 26.

The Aggies were greatly handicapped by the absence of Captain Doolen, star guard, who was suddenly taken ill with influenza a short time before the game. "Doc" Weddle who has been regularly holding down the center position was shifted to guard while Tebow, regular center who has been out of the game due to a "Charlie" horse" was inserted in

his old position. Tebow showed real form, playing the most outstanding game for the Aggies and scoring 16 points.

The game was not featured by the usual speed of valley games, each team taking their time on the offense. Tebow started the scoring for the Aggies making the first six points followed with goals by Byers and Koch which put the Aggies in a decided lead. Grinnell staged a rally shortly before the end of the half, with Moran, Pioneer forward, tallying three long shots in quick succession, tying the score at 16 all just as the gun sounded.

At the beginning of the second half the Aggies rallied, making nine points before they were checked. In the last 10 minutes the Aggies got back into the form they displayed against K. U. and ran up an 11 point margin before the final gun sounded.

The box score:

AGGIES	G	F	P

A MESSEGE TO THE COLLEGE GIRL

This news will be welcomed by every college girl who desires to dress well, and yet with as little money to spend as possible.

Mr. Greenstone, who buys for our ready-to-wear department, was keen in seeing the important part in buying smart models and the latest wanted fabrics and shades.

While in New York he explained to the manufacturers that Manhattan was a college town and required the smartest garments, as the young folks know real style, and we had to have garments that will meet with the requirements of these young college women.

At the same time he explained that these college girls had a limited allowance to spend for clothes. So you will see that we have not overlooked a single thing.

We extend to you our cordial invitation to visit our new ready-to-wear department, where you can now find your spring coat, dresses, hats, silk underwear, and silk bloomers, and at prices that will be a pleasant surprise.

GRAPPLERS FACE K. U. TOMORROW

**MEET WILL BE HELD IN NICHOLS
GYMNASIUM**

**Is First Appearance for Year of
Aggie Wrestlers—Kansas Has
Fairly Strong Team**

Jayhawk and Wildcat are matched against each other for a dual wrestling meet in Nichols gymnasium tomorrow night starting at 7:30 o'clock, the Kansas Aggie wrestling team being matched against the University of Kansas in the first Aggie meet of the year. Kansas has met and defeated the Nebraska university team, but was defeated easily by Ames, holders of the national intercollegiate wrestling title.

To date in athletic competition for 1924-25 between the Aggies and K. U. the Wildcat has come off victorious three times out of as many attempts, holding decisions in football, cross country, and basketball.

Boxers Also Wrestle

The Aggies will be handicapped in that some members of the boxing team which competes against Ames tonight also are wrestlers and will be forced to compete immediately after returning from Iowa tomorrow afternoon.

Among the Aggie wrestling prospects are O. E. Weigren, bantamweight; Guy Faulconer, 125 pounds; H. L. Lobenstein, 135 pounds; W. H. Hines, 145 pounds; W. J. Kraus, light heavyweight; Z. L. Pearson, heavyweight; L. C. Miller, 125 pounds; and I. J. Tompson, light heavyweight.

Since the strength of the Ames team relative to the Aggies is unknown, there is no available "line" on the relative strength of the Aggie and Kansas teams. Nebraska, however, stands high in national wrestling circles. Kansas is known to have a good boxing team.

Admission to the meet will be by student activity ticket.

MISSOURI BASKETEERS AND AGGIE CROWD WIN GAME

**Free Throws Play Important Role
in Tiger Victory**

The University of Missouri basketball team and a Kansas Aggie crowd defeated the Wildcat squad last Monday night by a count of 28-24. The game was the roughest and perhaps the fastest contest played this year, and fouls were numerous.

Four points were scored by Missouri on free throws that were given them by Referee Welch when he fouled the home crowd for expressing their disapproval of his decisions.

Tebow was the outstanding star for the Aggies, scoring 13 points. Bunker and Byers, mainstays of the

Aggie offense, were held to four and one points respectively. Joyner led the Tiger attack.

The summary:

MISSOURI	G	F	P
McMillan, rf	3	0	1
Wheat, lf	1	1	2

AGGIE BOXERS MEET AMES TONIGHT IN SEASON OPENER

**Coach Knott and Team Made Trip to
Iowa School Yesterday—Dope Even**

Seven members of the Kansas Aggie boxing team will meet the Iowa State boxing team at Ames tonight in the first intercollegiate meet of the year for the Aggies. The men left Manhattan yesterday under the charge of E. A. Knott, in charge of

physical education and minor sports work at the college.

The men who made the trip as team members are C. F. "Pig" Hoelzel, Kansas City, welterweight; Guy Huey, Louisville, welterweight; O. E. Walgren, Denver, Col., bantamweight; J. A. Stewart, Manhattan, featherweight; H. E. Miller, Lincoln, lightweight; Zurlinden Pearson, Manhattan, heavyweight, and L. S. Guthrie, light heavyweight.

Hoezel and Miller are conceded to have the advantage in the bouts in which they will participate, and are the best Aggie bets to take decisions. Pearson will have serious competition in Clampt, a contender for membership on the Olympic team. Captain Eddie Rauser is also an Ames star as

a featherweight, but Stewart is also a nice boxer.

Come to the Congregational church where the young folks run things.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, FEBRUARY 17, 1925

NO. 40

PREXY TO CABINET POSITION

IS FIRST KANSAN RECEIVING HONOR

CHAMBER OF COMMERCE CONGRATULATES COOLIDGE

Manhattan Plans Big Farewell Party for Retiring President Who Has Won International Recognition

Dr. W. M. Jardine, president of K. S. A. C., has been chosen United States secretary of agriculture, and President Coolidge sent the nomination to the senate Saturday.

Selection of Doctor Jardine for the position came out of the most extended study ever made by President Coolidge in the filling of a cabinet vacancy, more than 200 names having been considered. Doctor Jardine's views on farm questions are in accordance with the president's, and the new secretary possesses the requisites of an understanding of farm distribution and marketing. Doctor Jardine was first recommended to the president by Jardine's pronounced opposition to the McNary-Haugen farm export corporation bill.

Was a "Cow Puncher"

Doctor Jardine has a practical knowledge of agriculture for he started life as a "cow puncher" in Idaho. He graduated from the Utah Agricultural college in 1904. He was active in college sports and activities, and was captain of the football team during his senior year. After graduation he taught and did practical work in farming. From the deanship of the agricultural division of the college, he was elected president of K. S. A. C. in 1918.

Internationally Recognized

Doctor Jardine is a member of the International Dry Farming congress, and was on the production committee of the Kansas State Council of Defense during the war. He belongs to several science societies, is a member of the committee on agriculture of the American Bankers' association, and is president of the American Society of Agronomy and of the International Farm congress. Greek organizations of which he is a member include Beta Theta Pi, Phi Kappa Phi, Gamma Sigma Delta, and Alpha Zeta. He belongs to the Congregational church and is a Mason. He has been active in the Rotary club, the Manhattan chamber of commerce, the Grange and the Farmers' union. Doctor Jardine has written a great many bulletins and articles on agronomy, and is a member of the Kansas Authors' club.

Doctor Jardine arrived in Manhattan Sunday noon and was greeted by a delegation of Manhattan citizens. He will probably remain in Manhattan until shortly before March 4, when the appointment becomes effective. It is not known definitely whether he will at once resign the presidency of the college, or whether the board of administration will grant a four years' leave of absence.

R. O. T. C. Fires Cabinet Salute

The R. O. T. C. fired a cabinet member's salute of 18 guns in honor of Doctor Jardine, Monday morning. The Manhattan chamber of commerce and college authorities are planning a big reception and farewell party, a feature of which will be a banquet with prominent Kansans as guests, broadcast by Radio Station KSAC.

Invite Coolidge to Banquet

The chamber of commerce has sent a message to President Coolidge congratulating him on his selection of the new secretary of agriculture and inviting him on behalf of the town and college, to come to Manhattan for the farewell banquet to be given for President Jardine, February 25.

Will Make No Statement

"I have no statement whatever to make concerning my future plans and policies," said President Jardine, newly appointed secretary of agriculture, this morning.

"Secretary Gore is still holder of the office and until my appointment has been confirmed by the senate I shall make no statement of any kind. Arrangements for leaving things in order for my successor will occupy all of my time until I leave Manhattan."

No definite information has been given from the office concerning the date of President Jardine's departure for Washington. The wealth of detail that must necessarily be attended to before turning the work

of the office over to the new president will all be finished and the appointment must be technically confirmed before President Jardine will make any definite statement as to his plans.

Tours on Potato Special as Speaker

Prof. Albert Dickens left Monday morning on the potato special, sponsored by the Union Pacific railroad company, as one of the speakers. He will speak at Junction City, Abilene, Wamego, Silver Lake, North Topeka, Grantville, Perry, Lawrence, Lincoln, Bonner Springs, and Edwardsville.

Classmate Foresaw, Prophesied, and Now—the Fulfillment

The appointment of President William Jardine as a member of President Coolidge's cabinet has brought some distinction to F. D. Farrell, dean of the division of agriculture at Kansas State Agricultural college, as a prophet. In January 1907, Dean Farrell, a class mate of William M. Jardine at the Utah Agricultural college, was editor of the "Students' Life," official student publication of the school, and in an editorial commenting on the appointment of Mr. Jardine as agronomist in charge of dry land investigations for the United States department of agriculture, Mr. Farrell predicted what the future held in store for the young professor. This prophecy has been borne out to the fullest extent, with President Jardine now holding the highest agricultural position attainable, that of secretary of agriculture. The editorial follows:

"The alumnus who is at present receiving the greater part of our attention, is Prof. W. M. Jardine. He was recently chosen for the position of agronomist in charge of dry land grain investigations in the United States department of agriculture and he left here January 25, to take up his new duties at Washington, D. C. 'Jardine is a member of the class of 1904. He took a degree in agriculture. For two years prior to his graduation he filled the position of assistant agronomist at the experimental station, while pursuing his junior and senior studies. He continued in this capacity when he became secretary and manager of the Utah Arid Farm company. In July of the same year he was elected assistant professor of agronomy and agronomist of the experimental station, returning to the college to occupy this position."

"In April, 1906, he was made full professor and he held this position until he accepted the new one as stated above. He has done much for agriculture, in a public, as well as an academic way. His writings in 'Scientific Farming' of which he is associate editor, have created widespread attention."

"In his college career Jardine was always a leader. He played football during his entire course, acting as captain in 1903. He has left his impression on more than one opponent of the white and blue."

"Personally he is the proverbial 'hale fellow.' To know him is to be his friend. It would be difficult to find another with so much determination and enthusiasm. He never knows defeat. He refused to be beaten when his team played the university and the result was the only victory we have had over the 'U' for a good many years."

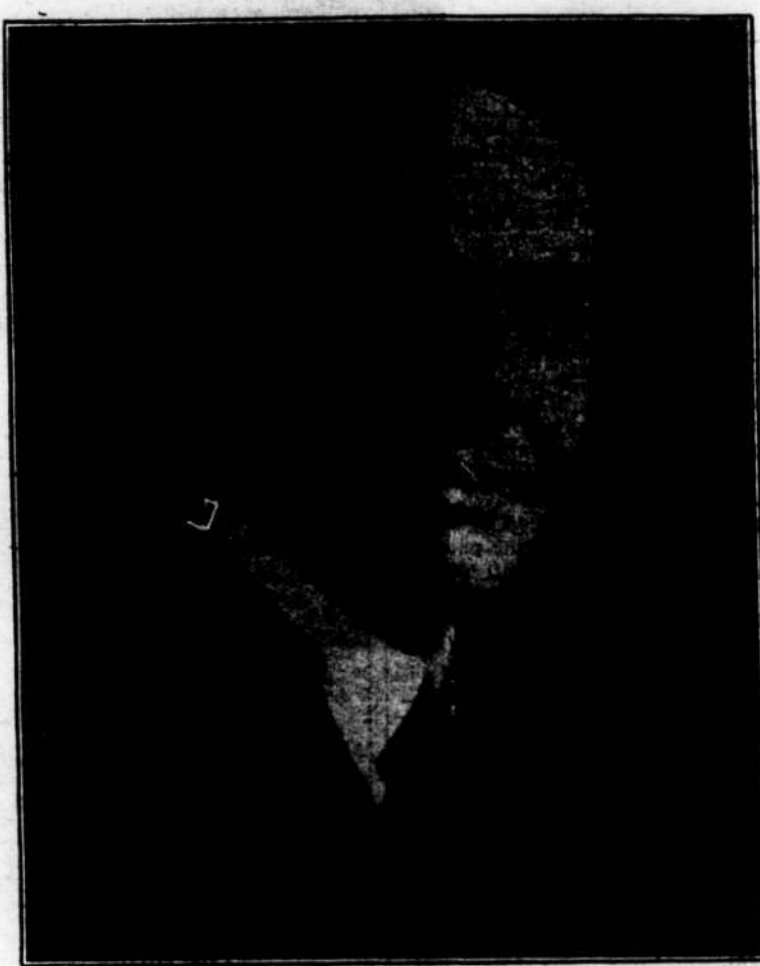

CONTINUE CHARITY DRIVE

Organizations Have Not Responded Well to Campus Chest

The Campus Chest drive will be continued and intensified this week because college organizations have not responded readily to requests for contributions.

According to Prof. H. A. Shinn, treasurer of the Campus Chest, the amount turned in to date is only \$450. The greater part of this is made up of voluntary contributions.

This week the canvass will be carried on more vigorously and every person on the hill is expected to respond. All organized college groups are requested to take action in meetings early this week so that they may turn in their contributions as soon as possible.

DR. WILLIAM M. JARDINE

FLOUR MILL TO BE REBUILT AND BROUGHT UP TO DATE

Plans for Remodeling and Additional Research Work Have Been Completed by Dr. C. O. Swanson

Plans for remodeling the college flour mill so as to bring it up to date and make it possible to carry on additional research work in milling technique have been made by Dr. C. O. Swanson, head of the department of milling industry at K. S. A. C., in cooperation with representatives of the milling industry in Kansas.

According to Dean F. D. Farrell, the technique of American flour mills is based on the "rule of thumb" and diverse experience instead of the results of facts. In fact there is a wide diversity of opinion among millers regarding milling technique.

Some of the questions relate to the tempering of wheat, satisfactory conditions of humidity, the type of rollers in the mill stand and numerous other milling operations.

The Kansas State Agricultural college is one of the two colleges in the United States which have a flour mill capable of producing flour in commercial quantities. The college milling machinery was installed 13 years ago. Since that time many new machines have come into use so that it is not strictly up to date.

The improvements which are proposed have been approved very enthusiastically by representatives of the milling industry in Kansas. Whether the plans will be carried out in the near future depends on the action taken by the state legislature with reference to college appropriations.

VICTORIOUS TEAM HAS LAST DEBATE OF TRIP TONIGHT

Phyllis Belknap, Who Has Been Out Because of Sore Throat, Has Recovered

The women's debate team added another victory to their list when they met and defeated the Penn college women's team at Oskaloosa, Ia., last Friday night, even though they were handicapped by the loss of one member of the team, Phyllis Belknap, who was unable to speak on account of throat trouble.

The vacancy was filled by a Penn college girl, the captain of their negative team who debated in place of Miss Belknap, and the decision was based on the two highest speakers, but even with this drawback the K. S. A. C. girls were able to come out victorious.

In the debate Saturday night at Simpson college, Indianola, Iowa, Mrs. Carroll, a member of the debating team at Drake university, Des Moines, was substituted in place of Miss Belknap. The debate at Simpson college was a no decision debate.

Monday night, however, in the debate with Morningside college, Sioux City, Iowa, Miss Belknap was again able to take her place on the team. This debate was also a no decision debate.

The remaining debate on the present trip will take place tonight, when the team will meet the women's team at Coter college, Bethany, Neb., and if they succeed in winning will make an all-victorious trip for the team.

Other teams which the K. S. A. C. team met were the men's team at Bethany college, Lindsborg, which was a no decision debate; the women's team at Ottawa university, Ottawa, which resulted in a 3 to 0 decision for the Aggies; and Missouri Wesleyan college, Cameron, Mo., a one judge decision in which the Aggies were again victorious.

The team is composed of Phyllis Belknap, Abilene; Helen Correll, Manhattan; and Charlotte Swanson, Manhattan. They will return home Wednesday.

FACULTY TO COOPERATE

Chamber of Commerce Appoints 26 on Executive Committees

That 26 faculty men are members of various committees of the Manhattan chamber of commerce is an indication of the high degree of cooperation existing between the college and the townspeople. Nine of the 10 committees recently appointed by the chamber of commerce are partially made up of faculty members. The committees and the faculty men appointed to them are as follows: Agricultural: F. D. Farrell, W. E. Grimes, Frank Blecha, R. I. Throckmorton, and C. O. Swanson. Road: L. E. Conrad. Publicity and advertising: Morse Salisbury, chairman, and H. W. Davis. Entertainment and convention: Howard T. Hill, M. F.

Ahearn. K. S. A. C. committee: R. R. Dykstra, Ira Pratt, L. E. Call, Charles Bachman and Nelson Antrim Crawford. Industrial committee: Walter Burr and R. A. Seaton. Legislation and public policy committee: F. W. Bell, Wm. M. Jardine and Eric Englund. Municipal improvement committee: E. L. Holton, B. L. Remick, R. G. Kloeffer, and Paul Weigel. Membership and finance committee: C. W. Hobbs and J. V. Cortelyou.

Dairy Students Take Trip

Creamery short course men and seniors in dairy manufacturing accompanied by Prof. N. E. Olson and K. M. Renner went on an inspection trip to Topeka, Tonganoxie and Kansas City, last week.

"Call a Black Cat" Is Sentiment Since Successful Scramble

They were all there. Journalists, would-be-journalists, had-been-journalists, and those outside the department, but with journalistic tendencies and preferences. They made a good showing, the scramble was a rare success, and on Friday the 13th.

Sigma Delta Phi gave a successful party. The faculty enjoyed themselves, the students had a "mean time." Pinky officiated and saw that things went off smoothly. The orchestra was good, the floor was waxed, the atmosphere was as usual free and informal. Humor was present, the dancers chuckled decorously or stifled smiles at the little black signs hung everywhere. Over the mirror at the end of the hall was the sign, "Our Daily Cartoon." The stage was curtained with newspapers, with a big heart cut in the center through which the orchestra could be seen.

Indeed the scramble was on. Old man superstition missed his holiday and, if it may be said, "a good time was had by all."

Lectures on Thunderstorms

"Thunderstorms, and Attending Phenomena" will be the subject of an illustrated lecture by E. C. Converse of the physics department at the physics seminar Thursday evening at 7:30 o'clock. This will be an open meeting and the lecture will be well illustrated with slides.

This will be the third open seminar of the year and will be of interest to all students and faculty members.

STUDENTS TO RECEIVE GRADES

All Will Be Informed After Five and Nine Weeks

Students will receive grades after the first five and nine weeks according to recent decision of the faculty. The new system is a result of a request by the Pan-Hellenic council that the teachers be required to send out the grades of the members of fraternities and sororities at the five weeks, nine weeks, and semester periods.

It was decided by the faculty council and the general faculty that all the students should receive their grades after the first five weeks and after the first nine weeks but not after the semester as this matter is already cared for by the registrar's office.

A card has been designed and accepted as a means of reporting the grades. The student will present his request on a card with his name, post office box number, and the hour, day, and room of the class. The instructor will fill in the grade, sign his name and mail the card to the student. The cards are to be returned to the instructor after the grades are noted.

Requests for grades must be made between the fourth and eleventh days after the fifth and ninth Saturdays of a semester. Those wishing the grades to be sent to a fraternity or sorority will specify so on the cards.

The cards will be sold in five cent packages at the college printing office in Kedzie. The first date for sending them will be March 4.

Gargoyle Club Elects

The Gargoyle club of the architecture department held a meeting Thursday, February 12, in room 221 of the engineering building. Norman Roberts, senior in architecture talked about material necessary for a scrap book for a personal library.

The following officers were elected: Floyd Wolfenbarger, treasurer; F. G. Billings, secretary; and Francis Shepp, assistant secretary.

H. E. DIVISION PLANS JUBILEE

CELEBRATES FOUNDING OF DIVISION HERE 51 YEARS AGO

Pageant and Prominent Speakers Mark Semi-Centennial of Home Economics Work in America

The home economics division of K. S. A. C. is planning a golden jubilee celebration for April 16 and 17, according to a recent announcement by Dean Margaret Justin. The observance will mark the fifty-first year of the teaching of home economics here—the longest continuous period it has been taught anywhere in the United States.

First Home Economics Here

Home economics was first taught here in 1873, before it had been offered in any other college in the country. The curriculum has developed uninterrupted since that time. In 1876 the University of Illinois and Iowa State university followed the lead of K. S. A. C. and started teaching the course. At the present time, half a century later, there is scarcely a college or high school in the country where the subject is not taught. The rapid growth of the course in home economics during its earlier history at K. S. A. C. was due largely to the liberal views of President J. A. Anderson, Dean Justin said.

Outgrew Four Buildings

The first classes were held in old Blumont college, one mile west of the college. Then the old armory, now the farm machinery building, housed the first classes on the college campus, but as the class outgrew this building it was moved to the second floor of the main shop building. This building soon proved too small to accommodate the ever-growing classes and after a few years a complete laboratory was installed in the chemistry annex building for the home economics work. The course grew with the rest of the college and, in 1897, Kedzie hall was built for the division. In this building the work was carried on until 1908 when the present home economics building was erected.

Historical Pageant Planned

Elaborate plans are being made for the celebration of the semi-centennial. An historical pageant will be staged, under the supervision of the American Association of University Women. The pageant is to be a brilliant affair, showing the progress of the teaching of home economics here. Other features of the program will be talks by old graduates and former instructors of the department. Some of the notables who will be honored in the celebration are: Mrs. Nellie (Kedzie) Jones, K. S. A. C. graduate of 1876, and Mrs. Henrietta Calvin, '86, K. S. A. C., 1903 to 1908. Kedzie hall was named for Mrs. Jones. She is at the present time home demonstration leader in Wisconsin. She was head of the home economics work here from 1882 to 1896. Mrs. Calvin is now teaching home economics in the city schools of Philadelphia.

MUST PAY INSERTION FEE

Royal Purple Must Be Reserved by March 14

There are persons who have paid the \$1.50 assessment for having their picture taken for the Royal Purple but have not paid the fifty cent fee for each insertion. This fee must be paid by the middle of next week if the person wants his picture to appear.

A smaller percentage of juniors and sophomores are having their pictures put on the class pages than ever before.

All reservations for books must be made by March 14; after this date no books will be sold. A book can be reserved by a deposit of \$2.50. A freshman girl, Dorothy Brooks, has secured a copy of the book by selling 20 books. This offer is still on for those who desire to take advantage of it.

Special Swimming Classes Opened

March 1 is the date set for the beginning of special classes in swimming. Anyone wishing to try out for the class teams should enter the classes in the open swimming hours on Tuesday and Thursday at four.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

"PREXY"

"Prexy" has been appointed by President Coolidge to the position of Secretary of Agriculture in the cabinet.

We wish to extend our heartiest congratulations to "Prexy" and to wish him all possible success in his new position. During his years at K. S. A. C. both as a member of the professional staff and later as president of the college, he has gained an esteemed place in the hearts and minds of the students and the faculty. From the chapel platform several years ago he was acclaimed "the most popular president K. S. A. C. has ever had" and this popularity has been increasing as the years pass. The school has grown regularly during the Jardine regime and much of this growth should be credited to the existing conditions of morality, of fairness, and of democracy that "Prexy" has instituted.

We feel that although the principal honor of "Prexy's" new position devolves upon himself, K. S. A. C. and the state of Kansas also have a share. It is the first time a Kansan has received such an appointment, so Kansas is honored. Any school that has had at its head a man who is deemed worthy of a place in the president's cabinet necessarily raises its head above the others. Such a man couldn't have guided an institution for years without leaving something of himself inextricably interwoven in the school's very foundations.

Good luck, "Prexy."

And so we lose our Prexy. President Coolidge certainly knew his stuff and deserves a lot of credit for his choice, but we want the world to know that K. S. A. C. isn't so slow either when without a whimper, they very unselfishly give Prexy up.

We wish him worlds of luck in his new progress and we also want him to understand that if he ever needs any advice he is welcome at any time to come back and get it.

An authority has said that one should never wink while aiming if one expects to get anything. That advice, girls, applies only to firearms so you can disregard it while out man hunting.

Harry has very elaborately worked out a scheme for getting rich. It involves but three simple steps. First you become famous in some line such as boxing, wrestling, moving pictures,

Take the Upward Trail

TEACHERS desiring to improve their opportunities for professional advancement should take the upward trail by asking the assistance of The Kansas Teacher Placement Bureau, which is operated at cost for the benefit of the teachers of Kansas. Our motto is "Superior Teachers for Superior Schools." For further information write

The KANSAS TEACHER PLACEMENT BUREAU
923 Kansas Ave., Topeka, Kansas

brick laying, or some honest profession. Little matters save that you get famous. Secondly you get married after a protracted public courtship. And then you have your wife write the story of her romance. The returns should make you rich.

This pleasant weather should make someone come out with the old gag about in the spring a young maid's fancy lightly turns—and turns—and turns—and turns. Or whatever the old gag is.

When a man declares himself a woman hater it is merely the sign that he is going to quit chasing the women and wants them to chase him.

We see by the Collegian that the "minor sports face abolition." Well, some of these young, fast chaps ought to be kicked out.

The way to a man's heart is thru his stomach, but the way to a girl's heart is—well, it's most any way.

Reformers say that smoking does one no good, is liable to do harm, can be easily dispensed with, and therefore should be abolished. Well, kissing answers all of those qualifications but—

Any freshmen who have played prominent parts in board meetings no doubt understand what is meant by "getting the breaks."

Prof. C. W. McCampbell, head of the department of animal husbandry, was summoned to appear before the state legislature Monday.

L. W. Hartel of the physics department spent the week end in Kansas City, Mo., attending the automobile show, and making a short visit at his home.

On Other Hills

A lecture course on etiquette has been offered at Oregon Agricultural college.

An intercollegiate debate was held recently in Honolulu between the universities of Hawaii and Oxford.

Ohio State university students spent approximately \$34,000 last year following their football team to out-of-town games. About 1,000 persons accompanied the team on each of its trips.

WFAV, the university of Nebraska broadcasting station, has been heard in both Alaska and the Hawaiian Islands.

A cross word puzzle contest is to

be held between picked teams from the University of Oklahoma and the Oklahoma Aggies.

Students of Washington State college who have been on the staff of their paper for five semesters are awarded a gold pin.

The University of Chicago has a meat packing course in its school of administration and commerce.

The compulsory chapel rule which Brown university has had in force since 1784 was voted down recently by the student body, 460 to 290.

Golf is being added to the list of sports at the University of Texas this spring.

There are only 31 coeds at the College of Emporia who have not bobbed hair.

Tea was served to the students of Grinnell college by the Y. W. C. A. during examination week as a relief from the arduous ordeal of semester examinations.

NEW EXTENSION WORKER

Takes Place of Plant Pathologist Recently Vacated

Donald Porter, graduate of the Iowa State Agricultural college, has arrived in Manhattan to take the place of extension plant pathologist vacated by E. A. Stokdyk. Mr. Porter graduated several years ago and will receive his master's degree from the above institution this June.

Mr. Porter is recognized as one of the leading extension plant pathologists in the country and will take up the work which has been accomplished by Mr. Stokdyk, who has gone over into the department of agricultural economics as marketing specialist.

The extension work in plant pathology in Kansas is recognized as one of the most successful pieces of research in the United States, according to reports from the offices of extension work in the United States department of agriculture. It is especially recognized for the outstanding work which has been accomplished in Irish and sweet potato disease control.

Doctor Ackert Is Honored

Dr. J. E. Ackert of the zoology department was elected recently vice-president and secretary of Gamma Alpha at Washington, D. C. Gamma Alpha is a graduate scientific society with chapters at the larger colleges and universities in the United States. It is one of the many societies affiliated with the American Association for the Advancement of Science and will hold its next annual meeting December 25, at Kansas City, Mo.

THREE WAY TIE FOR TROPHY KEEPS VOLLEY TOURNNEY GOING

Sororities Continue Scrap for W. A. A. Loving Cup

A three way tie for first place in volley ball will have to be played off to determine the winner of the W. A. A. cup.

The tying organizations are Alpha Delta Pi, Alpha Theta Chi, and Gamma Phi Delta, each team having lost one game. Kappa Delta and Chi Omega were eliminated in the finals.

The Gamma Phis after having lost a game to the Alpha Deltas furnished a comeback Thursday evening by giving the Alpha Theta Chis their first defeat of the finals. The Alpha Deltas took a game from the Kappa Deltas the same evening.

The tie will be played off as soon as possible, but the schedule has not yet been arranged.

The Athenian Literary society held oratorical tryouts in Athenian hall on Saturday.

Miss Marie Gilmore of Herington spent several days last week at the Delta State house.

Cozy Inn, 1403 Anderson—Quality food at reasonable prices. We deliver night orders. Phone 1328X.

Do College Students Read Advertisements?

If you do, surely you
will read this one

One fine day a Sophomore from a leading University came to see us, suggesting that we advertise in their undergraduate paper, and best of all convinced us, and this is how he did it:

First—He believed in Life Insurance because his uncle (a good business man) had advised him to buy some.

Second—His Father died in the prime of life and good health and left almost no insurance, when he could have carried \$50,000.

Third—He also knew that he could buy Insurance NOW at half the annual cost his uncle and Father had paid for theirs.

All this convinced him that even though a student, he should take out as much Life Insurance as his allowance would permit.

What About You?

Every college student looks forward to a career, which will make possible the fulfillment of the most cherished desires—surely Insurance is a necessary part of this program.

Insure, in part at least the value of your educated self, NOW, making up your mind to increase it as business or professional success follows.

The John Hancock Mutual Life Insurance Company issues all forms of Life Insurance, endowments for home and estate protection, mortgage replacement, education of children, bequest or income for old age; also annuities and permanent disability. The John Hancock is particularly interested in insuring college men and women and obtaining college graduates for the personnel of the field staff.

If you have read this advertisement,
you will aid your undergraduate
paper by communicating with the

The apple that rocked the earth

"I wonder why?"

In Isaac Newton's mind that question clamored for an answer. Many men had seen apples fall, but this man with the question mark mind found out why they fall—and his answer has helped us to understand the workings of a universe.

Would that we all could get a bite of that apple if it would inspire us too with the "I wonder why" attitude!

Intellectual curiosity is a great and moving force. It mobilizes reluctant facts. It is the stern drill-master which whips into shape that most invincible of armies—sure knowledge.

Curiosity, with the will to sweat out the answer, is the greatest asset you can acquire in your college course. This attribute is needed by industry today more than ever before.

Society Happenings

Misses Alene Hinn, Pearle Ruby, and Florence Clarke of the clothing and textiles department entertained with a Valentine dinner dance at their apartment at 1649 Fairchild Saturday night. The following guests were present: Mr. and Mrs. H. W. Davis, Mr. and Mrs. Eric Englund, Misses Martha Kramer, Mina Bates, Katherine Hudson, Messrs. B. W. Lafane, J. F. Bullard, W. H. Riddell, J. M. Moore, Walter Balch, and M. C. Sewell. During the evening the announcement was made of the engagement of Prof. Walter Balch of the horticulture department and Miss Katherine Hudson of the department of food and nutrition.

Alpha Sigma Psi entertained with a house dance Saturday evening. The Delta Tau Delta orchestra furnished the music.

Lambda Chi Alpha entertained with a Valentine party last Friday evening. The house was decorated with hearts and crepe paper, carrying out the spirit of Valentine's day. Music was furnished by Art Dodge's orchestra. About 21 couples were present and were chaperoned by Mrs. E. H. Fielding.

Dinner guests at the Gamma Phi Delta house, Sunday were Miss Martha Kramer and Miss Mina Bates.

Miss Ada Rice entertained at dinner Thursday night at her home for the following guests: Mrs. H. Rushfeldt, Miss Helen Rushfeldt, Mrs. Bogue, Miss Clara Bogue, Miss Helen Elcock, and Miss Margaret Russel.

The annual banquet of the American Association of University Women will be given Monday, February 23, at 6 o'clock in the college cafeteria. A. A. U. W. is expecting a large attendance at the banquet.

Mr. and Mrs. J. W. Stratton and Mr. and Mrs. R. R. Price were dinner guests at the Alpha Xi Delta house Sunday.

Dinner guests at the Alpha Tau Omega house Sunday were Misses Diantha and Adelia Walker.

On Saturday, February 14, the college cafeteria served a special Valentine dinner in the Open Door tea room. Eighty people were served between 5 and 7 o'clock at various parties. The menu was strictly suggestive of the day and consisted of chicken à la king in heart shaped timbales, bleeding hearts, baked potatoes in half shells, heart salad, heart ice cream and heart cakes.

Hugh White and A. M. Stillwell were dinner guests at the Phi Kappa Theta house Sunday.

Gamma Phi Delta announces the pledging of Miss Vera Warnock of Hutchinson.

Vern Stambaugh of Topeka was a week-end guest at the Phi Kappa Theta house.

Dinner guests at the Sigma Alpha Epsilon house Sunday were: Mr. and Mrs. N. I. Hedge, Dr. and Mrs. A. H. Bressler, and Mrs. F. H. Purcell and daughter, Betty.

Pi Kappa Alpha announces the pledging of Roswell McIntosh, Manhattan; and Harry Babbitt, Larned.

Phi Sigma Kappa held formal initiation Saturday for the following: Arnold Jones, Haddam; Quentin Nell, Wetmore; Hayes Walker, Kansas City; Robert Myers, Salina; Maurice Hill, Manhattan; and Francis Wilson, Abilene.

Sigma Phi Epsilon held initiation services Sunday for John Hopkins of Chapman.

Sunday dinner guests at the Kappa Delta house were: Mr. and Mrs. J. V. Cortelyou, Miss Ruth Morris, and Miss Geneva Watson.

Phi Omega Pi held open house Fri-

day afternoon for Phi Delta Theta and Beta Theta Pi, and Saturday for Alpha Rho Chi, Kappa Phi Alpha, and Farm House fraternities.

Dr. Margaret Russel entertained Wednesday evening at the Gillett hotel in honor of Mrs. H. Rushfeldt of Holly, Minn., who is here visiting her daughter, Miss Helen Rushfeldt of the English department. The guests included: Mrs. H. Rushfeldt, Miss Ada Rice, Miss Helen Elcock, Miss Annabel Garvey, and Miss Helen Rushfeldt. The dinner was followed by a line party to the show.

The city Pan-Hellenic will give a dinner and bridge party at the Woman's club house on Thursday evening, February 19.

Alpha Theta Chi announces the following initiates: Martha Smith, Durham; Mildred Doyle, Clay Center; Esther George, Manhattan; Josephine Trindle, Hugoton; and Daphna Underwood, Cottonwood Falls.

Misses Dolly Varner and Iona Sullenberger of Sabetha, and Misses Adelaide Meyer and Mary Flora of Topeka, spent the week-end at the Delta Delta Delta house.

Misses Mildred Swenson and Laura White of Clay Center spent Sunday in Manhattan.

Delta Delta Delta gave a Valentine party Saturday evening. The rooms were decorated in red and white and Proctor's orchestra furnished the music.

Sigma Alpha Epsilon announces the pledging of Ralph Gage of Manhattan.

Bob Gants of Lawrence was a week-end guest at the Sigma Alpha Epsilon house.

Sunday dinner guests at the Alpha Sigma Psi house were Dr. H. H. King and Dr. J. T. Willard.

Alpha Beta Literary society had its Valentine program Saturday evening. The program was as follows: Music, John Kess; Valentine box, Verne Hill; and devotions which were led by Helen Diller.

Ionian entertained with a Valentine party Saturday evening at which the following program was given: Devotions, Hilda Black; music, Kathryn Rumold; extempo, Mary Day; reading, M. Harrison; music, Orrell Ewbank; story, Hazel Calt; Oracle, Vera Howard; special feature, Ruth Long.

Kappa Delta announces the pledging of Marian Gregg of Topeka.

Athenian Literary society held its regular meeting Saturday evening and the following program was given: Devotions, R. J. Johnson; music, F. P. Eshbaugh, current events, F. F. Herr; music, Robert Perkins; short story, J. D. McKean, and extempo, C. B. Keck.

AGGIE ORPHEUM STAGED FRIDAY

NO DOWNTOWN PRIZE OFFERED THIS YEAR

Orchestration, Singing, Dancing, Pictures, Stunts, and One Act Play Feature Program

Hilarious humor, peppy, tuneful songs, rhythmic orchestration, tense action in drama, and original dialogue will be manifest Friday evening, when the third annual Aggie Orpheum will be presented in the college auditorium.

Downtown Prize Abandoned
Never before in its history has the Orpheum management had a better class of stunts from which to choose the winner of the \$25 offered for first prize. The large number of college organizations and individuals this year necessitated the abandonment of the downtown prize of \$15, which heretofore has been awarded. This fact means that the numbers will be given by organizations with which the students are acquainted, and which will give entirely new features and specialties.

The program, which has been prepared by Manager Paul Pfeutze, is as follows: Selection by the Solon Orchestra; motion picture, "Why Be Jealous;" orchestration, by the Twilight Novelty Serenaders; "Aggie Pyramids," W. A. A.; the college gospel team presenting the "Harmony Mongers," "Sketches in Art and Music," Phi Beta Sigma; Walker, Dickens, & Co., in "The Eccentric Dancers;" "Seven Cinderellas," Pi Beta Phi; "Bits of Song Novelties" by the college quartet; and "The Yellow Peril," presented by Purple Masque.

Under Auspices of Y. M. C. A.
Aggie Orpheum is given under the auspices of the college Y. M. C. A. every year. While the main object of the entertainment is to obtain

funds, no expense is spared in making the show a success.

The stunts begin promptly at eight o'clock. Admission is twenty-five cents. No seats are reserved.

HONOR JUDGING TEAM

Presented 18 Members with "K" insignia

Members of the various judging teams were presented with "K" insignia at the Thursday evening meeting of the Agricultural association. Plans for the fourth annual Ag fair were discussed. The members of the teams were as follows: Dairy judging team, Walter J. Daly, Frank J. Hagan, O. L. Norton, and A. R. Sargent; grain judging team, J. E. Norton, Glen Reed, O. L. Norton, and Carl Bower; poultry judging team, W. J. Krous, Stanley Caton, and R. W. Ford; senior animal husbandry team, E. C. Smith, Robert R. Sears, C. C. Huntington, Herbert Garnahan, and George Ellis; junior animal husbandry team, W. H. Atzenweller, Lionel Holm, A. C. Hoffman, and Mary Haise.

EDUCATOR WILL SPEAK

Dr. James E. Clarke to Give Series of Talks Here

"Life's Challenge to Youth," is the subject upon which Dr. James E. Clarke, national field director of Christian education of the Presbyterian college department, will talk in chapel next Tuesday morning.

Doctor Clarke will remain in Manhattan three days, during which time he will give the following talks:

"A Question of the Ages," First Presbyterian church, Sunday, 10 o'clock; "The Essentials of a Successful Life," Methodist church, Sunday, 6:30 o'clock; "Belief and Faith," home economics rest room, Monday, 7 o'clock; "Life's Challenge to Youth," college auditorium, Tuesday, 10:15 o'clock; "Science and Religion," student forum, college cafe-

teria, Tuesday, 12:20 o'clock; open forum, home economics rest room, Tuesday, 7 o'clock.

In speaking of Doctor Clarke, Wm. Guernant, of the First Presbyterian church, stated yesterday:

"I know of no man who will prove more attractive to the student body than will Doctor Clarke. He is a man with a great mind, a fine spirit, and a sympathetic understanding of youth and its problems."

START OUTDOOR TRACK TRAINING

THIRTY-FIVE MEN REPORT FOR SPRING PRACTICE

Sprint Material Lacking at Present
—Two Indoor and Four Outdoor Meets Now on Schedule

Outdoor training for the spring track meets has been started in earnest by Coach C. W. Bachman's squad of track and field men.

The indoor track has been abandoned for the cinder oval and for a new board track recently built beneath the stadium. The stadium affords excellent protection at all times and in case of bad weather can easily be used for workouts for the longer races. Indoor track shoes have been called in by the athletic department and spikes have been issued.

Another innovation in track training is the use of the violet ray. Most of the men are exposed to it for two minutes each day.

Enter in Six Meets

Two indoor meets and at least four outdoor meets are ahead of the team. The first indoor meet will be the one that is held under the auspices of the University of Illinois. Bachman probably will enter three relay teams, a two-mile team, a four-mile team and a medley-relay team. Of these three teams, probably the outlook is brightest for the two-mile team, which ran this race in 8 minutes, 7 seconds, at the K. C. A. C. meet and should do even better at Urbana. The other indoor meet will be the Missouri valley indoor at Kansas City. After that there will be a dual meet with K. U. at Lawrence, one with Nebraska at Lincoln, the Drake relays, and the Missouri valley meet at Norman, Okla.

Many Long-Distance Men

About 35 men have been reporting for track, and almost a third of them are letter men, either in cross country or in the shorter races. But most of the strongest material seems to be along the distance line. Three-fourths of the letter men are middle-distance or long-distance men.

Ralph Kimport, Norton, the outstanding distance runner, is considered as one of the greatest runners in the half mile, and five mile races in the valley. He is almost certain to lower some of the records made by Ray Watson, famous Aggie distance man.

Kenneth Knouse, Valley Falls, captain and two letter man, has been "burning" the track on the quarter mile, and with H. A. Brockway of Olathe, also a letter man, as his team mate in the quarter, K. S. A. C. is practically sure of counters in this event. L. L. Davis, Effingham, and Harvey Russell, Topeka, will be worthy substitutes for Knouse and Brockway.

E. E. Coleman, Alma, Emil von Riesen, Marysville, and A. I. Balzer, Inman are all letter men in middle-

distance events. Paul Axtell, Argonia, is showing up well this spring.

Lack Sprint Material

Sprint material is sadly lacking in this year's squad. The shorter races are bringing out only a few good men. C. P. Poote of Wichita looks good in the 50 and 100 yard dashes, and Norman Roberts of Manhattan has been taking the high hurdles in good time.

Field event material is more satisfactory, in numbers at least. Lyle Munn of Colby, J. E. Smith of Woodward, Okla. and F. A. Brunkau, Ellinwood, are affording each other stiff competition as weight shovers. Phillip Carter, Harveyville, pole vaulted 11 feet, 11 inches, last spring. Inadequate practice facilities have held Carter down somewhat this season but he is expected to better his mark before the season ends.

Whether or not the wealth of middle and long distance material is strong enough to overcome the handicap caused by lack of sprint men and make the Aggies a winning track team remains to be seen.

RIFLE TEAM LOSES FIRST MEET BUT SHOOT WELL

North Dakota U. Victorious in Close Telegraphic Match—Waltz Expects Victory in Others

The K. S. A. C. rifle team has been making good scores in the early season matches that have been going on with other college teams of the United States, according to Captain W. P. Waltz, coach of the Aggie team.

The Aggie team lost the recent telegraphic rifle shoot with the University of North Dakota, one of the strongest collegiate teams in the United States, by the close margin of 98 points, according to the results of the meet which were received here last week. The final score was North Dakota 3,727, K. S. A. C. 3,629.

Donald Moore of North Dakota was high man in the meet with a score of 382 out of a possible 400. D. C. Taylor was high man on the Aggie team with 374. According to Captain Waltz most colleges have a 15 man team and take the scores of the 10 high men. The score of the Aggie team, however, is that of a 10 man team.

In shooting a match with Syracuse university, the Pennsylvania Military academy, and the University of North Dakota rifle teams last week, the

K. S. A. C. team raised its total score of the previous week by 30 points with a total of 660.

C. Walt, new man on the Aggie team, was high man for the Aggies, with a score of 383, a mark that will stand up in competition with the best rifle shots in the United States, according to Captain W. P. Waltz.

"Although the results of the shooting in the meets last week have not been received from the other schools, the Aggie team should win these matches," said Captain Waltz Saturday morning.

K. U. WRESTLERS WIN SEVEN OUT OF EIGHT MATCHES

Pearson Wins Decision in Heavy Weight Class—Davis Stopped by Injuries

Kansas State wrestlers were able to carry off only one decision in the eight matches with K. U. wrestlers at the meet held in Nichols gym, Saturday night. The Aggies put up a good fight in every case and in several instances it was difficult to decide the winner.

Z. L. Pearson, wrestling in the heavy weight class was awarded the decision over Hill of K. U. Pearson did not put his opponent down but was declared winner because he held the advantage most of the time during the match.

Gordon Davis, wrestling Smith in the 175 pound class, was easily the better until he received injuries which kept him from continuing the match.

In the other matches Webring of Kansas won over Heinz in the 158 pound class, Skinner of Kansas won over Walgren in the 115 pound class, Stirton of Kansas won over Schopp in the 125 pound class, Merrill of Kansas won over Lobenstein in the 135 pound class, and Riedel of Kansas, 145 pounds, won from Faulconer, 128 pounds. Faulconer wrestled in the 145 pound class because there were no men to represent Kansas State in that class.

Anderson of the Lincoln, Nebr., Y. M. C. A. was referee.

BOXERS LOSE SIX, WIN ONE

Pearson Only Victorious Aggie in Bouts at Ames

Kansas State boxers won one match and lost six to Iowa State in the meet between the two schools at Ames, Friday night. Of the six

won by Ames, two were very decisive and the other four could easily have been decided either way.

Zurlinden Pearson was the lone Aggie to win his match. Pearson was boxing in the heavy weight class. "Pug" Hoelzel fought his opponent to a draw in the first three rounds but the Ames player was awarded the match when they fought an extra round.

There were no real knockouts but the opponent of Miller was awarded a technical knockout. Miller was knocked down and his head struck the floor very heavily. Walgren, another Aggie boxer, jumped into the ring and helped Miller to his feet, and as a result the Ames boxer was awarded a technical knockout. Officials were furnished by Ames. Probably the next boxing meet in which the Kansas State boxers will participate will be the K. C. A. C. meet at Kansas City.

BREAKS WORLD'S RECORD

Ivan Riley, Former Aggie, Sets New Hurdle Mark

Ivan Riley, former Aggie track star and holder of four world's hurdling records, broke his own world's record of 6 3/5 seconds for the 50 yard high hurdles when he ran them in 6 2/5 seconds at the recent K. C. A. C. meet. Riley was running for the Illinois Athletic club.

Riley had to run the race twice because he knocked over a hurdle the first time, and so the time could not be allowed as a world record. Ed Weir of Nebraska was second the

first time the race was run, and Mack Keeble of Missouri was third. Weir raced with Riley the second time in order to give him another chance to set a new world's record. Riley ran it in 6 2/5 seconds this time without knocking over any hurdles.

The world's records Riley now holds are for the 50 yard and 120 yard high hurdles, and the 70 yard and 440 yard low hurdles. The Aggie records he holds are for the 400 meter high hurdles and the 120 yard and 440 yard low hurdles.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

RIVALS THE BEAUTY OF THE SCARLET Tanager

Which Point Will You Have?

1. Extra fine—like this
2. Fine—like this
3. Medium—like this
4. Broad—like this
5. Stub—like this

You can get all five degrees in the Classic Duofold Pens

And All Points Guaranteed for 25-Years' Wear

FOR what kind of writing do you use a pen? How do you hold it? And what style of writing is entirely natural to your hand? Close figure work or fine memoranda, for example, call for a fine or an extra-fine point. But the medium point, the broad, or the stub—these give one's penmanship a personality and character that make mighty valuable impressions in a letter or a signature.

These are reasons why, in the classic Duofold Pens, Geo. S. Parker gives the world the whole five degrees of points that the five degrees of writing require.

Points you can lend without a tremor, for no style of writing can distort them. Points that are tipped with super-smooth Iridium, for which we pay a premium of 200%. Points that we guarantee, if not misused, for 25 years' WEAR.

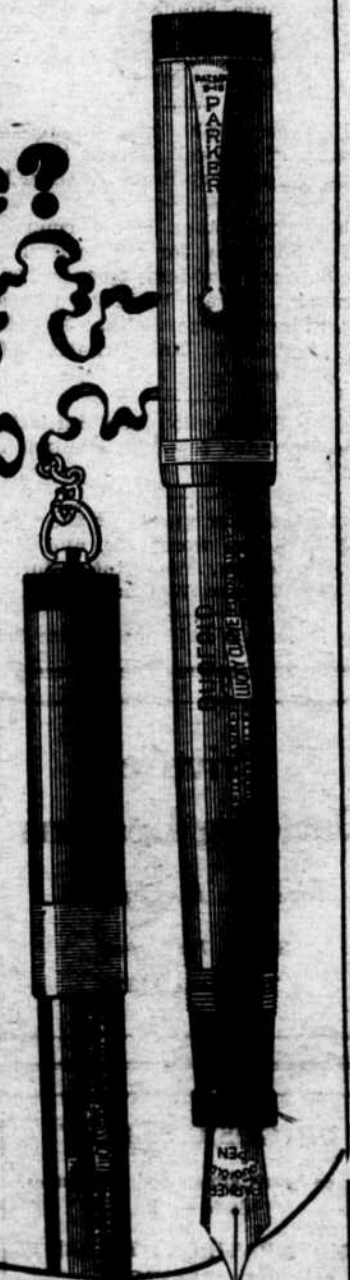

And every point set in a shapely, hand-balanced barrel that feels so inspiring you hate to lay it down.

Any good pen counter will sell you this beauty on 30 days' approval. Flashing black or black-tipped lacquer-red, the color that's handsomer than gold and makes this a hard pen to mislay.

NO. 41

ZIEGFELD PICKS AGGIE BEAUTIES

WINNERS TO BE ANNOUNCED AT PHARAOH'S BALL

Large Trophy Cup Offered to Organization Winning Sales Contest—Flo Praises Winner

Announcement of Pharaoh's six most beautiful daughters will be made public Saturday night, March 21, at Pharaoh's ball, which will be held in Harrison's hall. Flo Ziegfeld has chosen the six most comely Aggie coeds, and only he and G. A. Read, business manager of the 1925 Royal Purple, know who they are.

However, there are a few provisos to the announcement, according to Read. A majority of the sororities must enter in the Royal Purple sales contest, which has been arranged by the management. The organization securing the most subscriptions to the yearbook, provided that number is in excess of 65, will acquire full title to a large \$35 trophy cup, which will be presented at the Pharaoh's ball.

Sales Contest Starts Monday

The sales contest will start Monday, February 23, and will end at 5 o'clock Friday, March 20. Each organization is required to make a report of book sales each week during the contest. The organization is entitled to a book for the first 20 sold.

The 1925 Royal Purple will be featured by historical sketches of old Egyptian modes, hence Pharaoh's ball, and the crowning of the queen.

"It must be understood," Read said yesterday, "that a majority of the sororities must enter the sales contest, or the winners of the beauty contest will not be disclosed until the appearance of the book about the middle of May."

Winner Is "Very Beautiful"

In returning the photographs of the contestants, Mr. Ziegfeld apologized for not being able to select all of them as winners, and stated that he considered the winner really very beautiful—and a good type.

His letter to the business manager is as follows:

I am returning herewith the photographs you sent me, and enjoyed looking at them and selecting those I thought the best. I might add that I judged them photographically, and regret it if I have hurt the feelings of any of the young ladies. Not knowing their colorings, and good points, I could only judge from the flat picture.

The young lady I marked as number one, I consider very beautiful—and a good type. Thanking you for the privilege you gave me, I am Sincerely yours, F. Ziegfeld.

PROM AND HOP APRIL 17-18

"Chuck" Shofstall to Play at Annual Social Events

Friday, April 17, has been definitely decided upon for the date of the Junior-Senior Prom. The Freshman-Sophomore Hop will be held on the following night.

"Chuck" Shofstall and his eight-piece orchestra from Kansas City will furnish the music for the two annual affairs to be staged in Nichols gymnasium.

Plans for the two functions are being formulated by Guy Falconer, manager of the Prom, and Jack Spurlock, who is managing the Hop. The same decorations will be used both nights.

These are the only social events of the year that afford the members of the different classes a chance to get together, and in the past they have always been well attended.

IMPORTER VISITS COLLEGE

Buyers Carload of Seed for Russian Soviet Government

Mr. J. W. Pincus, American representative of the Amtorg Trading Corporation, spent two or three days at the college last week in consultation with members of the agronomy department. Mr. Pincus is looking up supplies of pure seed of sudan grass and alfalfa for export to Russia. He has already placed orders for 10 cars of sudan grass seed and will probably purchase an additional 10 carloads if good seed can be obtained at a reasonable price. The Russian government is in the market for several cars of alfalfa seed and part of this will probably be Kansas grown. For northern Russia, hardier strains such as Grimm will be secured and the seed will probably be obtained from growers in South Dakota, Minnesota and other northern states.

The Russian Soviet government has an agricultural representative

in New York City who looks after the exchange of seed for experimental use and other similar matters. The corporation which Mr. Pincus represents works in close cooperation with the Russian department of agriculture through its New York office.

Wampus Cats Initiate Eighteen

Wampus Cats initiated 18 men at a meeting in the gymnasium Tuesday night. Officers elected for the coming year are: President, Kenneth Chappell; vice-president, Harry Felton; secretary, Larry Lemon; and treasurer, E. L. Hinden.

The initiates include C. H. Cless, H. A. Stewart, W. A. Eldred, J. W. Richards, William Carroll, Max Brumbaugh, C. C. Gove, Harry Lutz, Larry Lemon, G. H. Stricklenfeger, W. C. Meseke, Lawrence Hedge, S. J. Kirk, Elmer Martin, Robert Baylor, D. A. Finney, V. L. Hybskman, and F. W. Kitch.

K. S. A. C. Lambs Top Market

The lambs which the animal husbandry department shipped to Kansas City last week, topped the market, bringing \$17.35 per hundred pounds. These lambs had been experimentally fed for 60 days by the department.

GROUP FRESHMAN RHETORIC STUDENTS FOR EXPERIMENT

Four Groups of Classes Are Arranged According to High School Grades

The recent shifting of freshman rhetoric students from one class to another, so much resented by many of the students, was done in preparation for an extensive experiment which is being conducted by the department of education this spring.

Students are grouped according to the grades made in high school. There are four groups of classes, those made up of students whose high school average is G or above, those with M grades, those with low grades, and three classes of students with varying grades.

The results of this experiment will be tabulated at the end of the semester to determine the advisability of grouping students according to their ability. If the experiment proves a success, students who find a particular class difficult will be able to shift to a class in which they will have to compete only with students of the same mental capacity.

This is the first experiment of its kind ever carried to termination in this country. Although it is being used at present on freshman rhetoric students only, it is thought that the plan will be applicable to students in all classes. Prof. J. C. Peterson of the department of education is in charge of the experimental work.

RELIGIOUS PROGRAMS NOT TO BE BROADCAST FROM K. S. A. C.

Feeling Sensed That State School Should Not Broadcast Religion

"Sunday night broadcasting will be discontinued after Dean Holton's address next Sunday night," said Prof. Walter Burr, who is in charge of the Sunday night broadcasting programs here. These religious and semi-religious programs have been given every Sunday night during the month of February and a definite series of programs had been arranged for every Sunday night in the month of March. However these programs will not be given as Dean Umberger of the extension division has ordered that no more religious and semi-religious programs be broadcast from Station KSAC. Although there have been many compliments received on the Sunday night programs, there also have been some complaints. The chief complaint seems to be that a state institution should not broadcast programs of a religious nature.

Seed Service Man Visits College

Representing the federated seed service of Chicago, Mr. J. F. Cox, on leave of absence from the department of farm crops at Michigan Agricultural college, visited the college this week. He is spending his furlough from college and, experiment station work in organizing and directing the activities of federated seed service, a new development in the American seed trade. This association of farm bureau and other cooperative seed distributing agencies has been formed to encourage the distribution of high quality seed according to its adaptation.

Laurea Thompson Heads Seniors

The senior class officers chosen for the second semester at the election held Wednesday, were as follows: President, Laurea Thompson; vice-president, Virginia Deal; secretary, Catherine Bernhisel; treasurer, Perry Rumold; devotional leader, Maxine Ransom; historian, Alice Paddleford; marshal, Norman Roberts.

WOMEN'S DEBATE TEAM

Left to right: Phyllis Belknap, Charlotte Swanson, Helen Correll.

VICTORIOUS TRIP FOR AGGIE TEAM

FOUR OUT OF SEVEN WERE DECISION DEBATES

Girls Return Wednesday from Nine Day Trip Through Missouri, Iowa, Nebraska and Kansas

Having completed an all-victorious debate tour with the defeat of Cotner college, Bethany, Neb., Tuesday night, the K. S. A. C. women's debate team returned to Manhattan Wednesday after a nine day trip through Kansas, Missouri, Iowa, and Nebraska.

Only four of the seven debates were decision debates, and the Aggie team was successful in winning every decision. The other three debates were held on the Oxford plan and no decisions were made.

Defeat Four Colleges

The teams defeated were the Ottawa university team, Ottawa; Missouri Wesleyan college, Cameron, Mo.; Penn college, Oskaloosa, Iowa; and Cotner college, Bethany, Neb. The other debates were with the men's team at Baker university, Baldwin; the women's teams at Simpson college, Indianola, Iowa; and Morningside college, Sioux City, Iowa.

During the trip Phyllis Belknap was forced to remain out of two of the debates because of throat trouble and substitutes were secured.

In the debate with Penn college, one member from each team was transferred to the opposite side. Helen Correll of the Aggie team was transferred to the affirmative side, and the decision was based on the two highest individuals.

Debate Labor Problem

In the debate with Simpson college, the question for debate was not announced until eight hours before the debate and in that time both sides had to work up their speeches and rebuttal material. The question chosen was the labor problem.

The members of the all-victorious team are Phyllis Belknap, Abilene; Charlotte Swanson, Manhattan; and Helen Correll, Manhattan.

Sophomores Nominate Officers

Nominations for sophomore class officers for the second semester were made at a class meeting held last Wednesday. Following is the list of nominees: President, Harold Souders, Bernice O'Daniels; vice-president, Al Erlick; secretary, Clarabel Grover, Mildred Russell, Agnes Remick; treasurer, Elmer Canary, Inez Howard; marshal, Gerald Young. Election will be held in Anderson hall Friday.

NEED PROFESSIONAL ATTITUDE

Teachers Must Show Interest in Profession to Obtain Certificates

The state department of education is going to be more strict hereafter in granting teachers' certificates to students. Besides meeting the usual requirements, students must show a professional attitude toward teaching, which means that they must have an interest in it. To instill some of this attitude into the student, the department of education will offer a course of four lectures. All seniors who are planning to apply for a certificate this spring will be expected to attend these lectures. The first one will be given next Monday afternoon, February 23, at 4 o'clock by Prof. J. C. Peterson. His subject will be "Research in Education." March 9, Prof. W. H. Andrews will lecture on "The Study of the Curriculum." April 6, Prof. A. P. Davidson will talk on "Development and Administration of Vocational Education," and May 4, Dean Holton will discuss "Professional Organization."

First Member of Third Generation Is Youngest Student

Speaking in terms of human lineage, we might say that since the registration of Emma Louise Schoonover, K. S. A. C. is "great grand mother."

Miss Schoonover, who registered last fall as a freshman in the division school, and the granddaughter of her mother, Mrs. Laura Haines Bowen, who was graduated in the class of '67, the first class to be graduated from K. S. A. C. after it became a state college. Miss Schoonover's mother, May Bowen Schoonover, is also a K. S. A. C. graduate from the class of '96. Judging from the type of work she is doing this year, Miss Schoonover will be graduated with honors from the class of '28.

Besides being the first member of a third generation to register in this school, and the granddaughter of one of its first graduates, Miss Schoonover is the youngest freshman enrolled this year. She is carrying a full assignment, and is a member of the college orchestra.

OVER 500 ATTEND ANNUAL FATHER AND SON BANQUET

President Jardine and Reverend Rahill Are Principal Speakers

The annual Father and Son banquet held at the college cafeteria Monday night, February 16, was the most successful of its kind ever held in Manhattan. Between 500 and 600 fathers and sons attended. The mass singing led by Chester Guthrie was full of enthusiasm. "Mike" Ahearn acted as toastmaster in place of Dr. H. T. Hill who could not be present.

Alvin R. Springer in his address "Dad to the Lad" urged the boys to be jealous of their good name.

"It is something that each boy must earn for himself," said Mr. Springer.

Mitchell Allen, representing the Hi-Ys in his speech "Lad to the Dad," expressed the thought of what the boys expect from their fathers, encouragement and association.

Dr. Wm. M. Jardine was called upon for a speech. On behalf of the banquet committee Mr. Ahearn presented him with a bouquet in honor of his recent appointment to the cabinet. In his speech President Jardine stressed the importance of the father's helping the boy in the home life. "A boy becomes largely what the father makes of him. We should be more serious in the matter of the boy's welfare and give him more of our time," said Dr. Jardine.

Dr. John Wells Rahill, pastor of the First Congregational church of Topeka, the last speaker of the evening, expressed many good thoughts in his address, "Outward Bound." "The boy best equipped to meet life's problems is the one whose father has imparted to him the essential knowledge and facts," said Doctor Rahill.

OLD FAVORITES PROVE MORE POPULAR THAN JAZZ MUSIC

Hundreds of Radio Fans Request Songs from Station KSAC

"You can get jazz anywhere, but KSAC is the only station putting out good old-time favorites," is the opinion of many people in writing to Prof. Paul Brainard and Mr. Sam Pickard, who have given their time and planned entertaining programs in order to have this station broadcast not only useful information but also entertainment. Every Thursday evening is set aside for an entertainment program.

The first program consisted of old favorites and the people were asked to reply telling what songs they liked the best or send requests for others to be sung. More than 500 replies have been received by Professor Brainard and Mr. Pickard, and many of the requested songs have been sung. It is estimated that one out of every 10 listeners answers. Answers to Thursday night pro-

grams have been received from all the provinces of Canada, and from Florida, California, Oregon, New Jersey, New York, Pennsylvania, North Dakota, Minnesota, Arizona, Texas, New Mexico, and many other points. Practically every state in the union and Canada are getting these programs and the college is hearing from them.

In April Professor Brainard plans to have a special concert for men, one for women, and one for children, consisting of popular songs and light opera selections.

Some of the people who have devoted time to making these programs a success are: Prof. Paul Brainard of the department of education; Miss Robinson, a graduate of the University of Nebraska; Mrs. G. W. Salisbury; Prof. W. H. Sanders; Mrs. E. T. Keith; Mrs. P. P. Brainard; Mr. Sam Pickard; Mr. Harry Brown; Miss Mary Jackson; Mr. J. M. Barstow; and Prof. Ira Pratt.

Sources of information on agricultural economics subjects were discussed at the agricultural economics seminar on Thursday, February 19. The discussion was led by members of the agricultural economics faculty.

RELIGIOUS INSTITUTE AT LAWRENCE WELL ATTENDED

Forty-seven Aggies Were Delegates—To Hold Another at Emporia February 24

Forty-six delegates from K. S. A. C. attended the institute conducted by Dr. A. Bruce Curry at Lawrence last week end. Among the 250 persons who attended the meetings were representatives from Baker university, Ottawa university, Pittsburg State Teachers' college and Washburn college.

From February 24 to March 1, Doctor Curry will be at Emporia for an institute there. Any from K. S. A. C. who were unable to go to Lawrence may attend and will receive the same instruction. Doctor Curry spent Monday in Manhattan with Rev. W. U. Guerrant, who was a classmate of his in college at Richmond, Va.

Foy Balmer was the delegation leader from K. S. A. C. at Lawrence.

Other delegates were: Della Justice, Florence True, Charlotte Sparrowhawk, Helen Graham, Helen Hale, Ethel Oatman, Helen Green, Fern Harris, Clara Paulsen, Mary J. Herthel, Dorothy Rosebrough, Marie Inley, Katherine Welker, Bernice O'Daniel, Evelyn Colburn, Laureda Thompson, Miriam Dexter, Dorothea Arbutnot, Eugene Knechtel, Mabel Horlacher, Margaret Manley, Mary Frances White, Dorothy Fulton, Gladys Sanford, Marie Farmer, Achsa Johnson, Blanche Lapham, Bettie Elkins, Mrs. Carter, Nellie Wolf, Helen Brown, Lois Wildy, Ralph Clark, Eli Packer, Paul Pfeutze, Milton Kerr, Theodore Keller, Alton Walker, Clyde Randall, Chester Hanson, James Blackledge, Charles Gilbert, James Price, Paul Skinner, and A. A. Holtz.

All delegates and others interested will meet with Doctor Clarke in the home economics room at seven o'clock Monday evening.

Student Forum Tuesday Next Week

The date for the student forum has been changed for next week from Thursday to Tuesday noon.

The speaker will be Dr. James E. Clarke, field director of Christian Education in the Presbyterian college department of the United States. The subject for discussion is "Science and Religion."

TO GIVE JARDINE A BIG SEND-OFF

PREXY TO DELIVER FAREWELL ADDRESS AT SPECIAL CHAPEL

New Secretary of Agriculture Will Review R. O. T. C. as First Act in Official Capacity

Ceremonies to honor William M. Jardine, newly appointed secretary of agriculture, will be under the direction of the military department of the college. Plans are being made by Col. Fred Bugbee, commandant of the R. O. T. C. unit, for two demonstrations by the cadet corps before President Jardine leaves.

The first demonstration will be a formal parade and review which will be held next Wednesday afternoon. Doctor Jardine will act as reviewing officer, as president of the college and member of President Coolidge's cabinet. This probably will be his last official act as member of the college faculty and his first official act as a member of the president's cabinet.

Students Go to Train

The second demonstration by the cadet corps will be Saturday morning when Doctor Jardine goes to the station to board the train which will carry him to his new duties in Washington, D. C. All cadets and the military band will be assembled, and will march to the station as a military escort, Colonel Bugbee said. In addition to the military body which will be at the station, the entire student body is expected to appear to wish President Jardine "Goodbye," and "Good luck" in his new work.

Wednesday afternoon at 3 o'clock there will be a special assembly of the student body in the auditorium. Dr. H. J. Waters, former president of the college will preside and President Jardine will deliver his farewell address to the students.

Banquet Is Popular

More than 600 tickets have been sold for the farewell banquet Wednesday night, most of the reservations having gone to people in the vicinity of Manhattan, Ed. Ames, secretary of the local chamber of commerce, announced today. This number does not include reservations which have been made by out-of-town persons who expect to attend, the reservation of 100 tickets by the alumni association, nor the block of seats which have been reserved by the chamber of commerce for guests of the banquet.

State Officials Attend

Fifty acceptances from out of the state have been received, according to Mr. Ames. Word was received today from the governor of Missouri that he would be unable to attend, because of the meeting of the legislature, but he will send a representative from his state.

In a statement last night, Mr. Ames said that Governor Paulsen probably will attend. However no definite word has been received. Secretary Ames stated that he probably would have to refuse large numbers of requests for tickets before the date of the banquet.

WILL DESIGN AUTO STICKERS

Architects Compete for Chamber of Commerce Prize

The Manhattan chamber of commerce is offering prizes to all sophomores, juniors, and seniors enrolled in the freehand drawing classes of the architecture department and all students in the commercial illustrating class, on the best design for a paper sticker to be placed on car windshields.

The stickers will be used to advertise Manhattan, the chamber of commerce, and K. S. A. C.

Three prizes will be awarded: first prize, \$5; second prize, \$3; third prize, \$1. In addition to the prizes, three honorable mentions will be made.

GIRLS WRITE PUBLICITY

Theta Sigma Phi Prepares News Sheet for Western News Union

A news service which will contain news and features concerning women's activities in the college will be written and edited here by the local chapter of Theta Sigma Phi, women's professional journalism fraternity.

The service, a six column page in mat form, will be sent to newspapers which request it through the agency of the Western Newspaper Union. Offers to publishers for the use of the service will be made from the college and orders filled from the Western Newspaper Union.

Gamma Phi Delta announces the pledging of Miss Vera Warnock of Hutchinson.

FRIDAY, FEBRUARY 20, 1925

MINOR SPORTS

What is the matter with minor sports at K. S. A. C.? Why is there a lack of qualified men to make up the wrestling, boxing, and tennis teams?

Although four minor sports, swimming, wrestling, boxing, and tennis, have been in existence here for several years the college has developed teams comparable to others in the Valley only in swimming. Success in swimming can be attributed to the presence of one or two outstanding stars rather than to a well balanced team. The wrestling, boxing, and tennis teams that have represented the school have been made up of "pickups," students who competed because they were the best available entries. None of these latter have represented the best talent along these lines in college.

Five causes, all but one of which are remediable, have been advanced as constituting the trouble with minor sports. These are: 1. Lack of competent coaches. 2. The stigma attached to boxing and wrestling. 3. Lack of information as to the exact nature of the sports. 4. Lack of adequate equipment. 5. "Yellowness."

The lack of competent coaches is probably the principal cause for the failure of minor sports. As long as the athletic department has insufficient funds to employ real coaches, success comparable to that achieved in other Missouri Valley schools cannot be expected. If it were possible to trim costs in other well established departments, or to increase the total athletic budget, this cause could be remedied. The supervision and inspiration of a coach in influencing the men to become interested in and to work hard at training, does a great deal towards turning out winning teams.

Doubtless there is a stigma connected with boxing and wrestling that has caused them to be looked on with disfavor. This condition is the result of the professional nature of the sports, certain phases of which are at times undesirable. But the manner in which boxing and wrestling competitions are conducted in modern intercollegiate matches has eliminated the undesirable features, and has made them as clean as any other form of competition.

Lack of information as to the scientific and skillful nature of the pastimes has been quite an obstacle to their advancement. The person who believes that brute strength is the principal requirement for winning bouts should witness an intercollegiate match. The skill, agility, and thought, as well as strength, that are necessary for success are as fascinating to watch and as difficult to achieve as they are in any of the more popular major sports.

Tennis has suffered most from lack of equipment during past years. This has been remedied this year through the construction of several new courts and it is probable that enough material will now be available to form a fairly representative team.

The last charge, that of "yellowness," is irremediable if true. But we can't believe that a school possessing the standing of K. S. A. C. could harbor more than her share of cowards. Such a condition hasn't shown up in football, basketball, track, or baseball, and it is quite improbable that it would make itself evident in wrestling and boxing.

Therefore the principal panaceas, as we see them, are: 1. More interest in and knowledge of the minor sports on the part of the students. 2. Competent instruction on the part of the athletic department. Equipment is now available, the stigma attached to wrestling and boxing has been removed, and if the two aforementioned projects can be carried out, minor sports might quite conceivably be rescued from their present slough of despair.

Absolutely, it doesn't pay to make remarks about the weather. No sooner do we make a crack about the nice springlike atmosphere than

it up and snows. We remark about the snow, and before the paper comes off the press, the spring weather is back. From here on the weather is taboo.

Time was when the coming of spring was compared to a woman; shy, hesitating, unsure, and sweet. Women have changed now, but so has spring. The comparison may still be used; fickle, uncertain, silly, and by the time it quits horsing around and finally arrives, has lost all its charm.

We have held off thus long to see whether or not that little publication, the Scramblers' Scribble, would live. It did not. That being the case we can say that frankly we did not expect it to. The editor of it used the wrong set of tactics entirely. That false sensational stuff can't live very long.

The judges of the Aggie Orpheum hysteric have a hard job confronting them. Picture them fighting off nine organizations, each desperate for money and each firmly convinced that it has been cheated out of a rightfully earned prize. Most any organization would stage a hard battle for \$25.00.

The new spring styles, according to Harry, are wide hips and long necks. And the real popular girl will go around with one blue eye and one black.

Time and tide are closely related. They wait for no man. If you get time you are usually tied. If you get tied, it is certain that you will have a time.

Interesting to note, one of the sororities did not occupy its accustomed row in chapel the other day. Perhaps they were frightened out because the speaker was a minister. Perhaps it was for some other reason. Perhaps.

A sport writer reports that our esteemed track captain has been "burning up the track," implying of course, that he is a hot runner. However, it has always been our opinion that he was too breezy for that.

Providing they can get the army into shape soon enough, the R. O. T. C. is going to give Prexy a big send-off, providing Prexy can wait long enough.

We may be gullible along many lines, but we refuse to believe that Jackie Coogan ever wrote, said, or thought the story of his European tour.

Publicity counts for something. 'Tis better, far better, to be known as the dumbest person in school, than not to be known.

ing building, an exhibition of the work of Miss Gwendolyn Meux. The exhibition will continue from February 16 to March 2, inclusive.

Miss Meux is a member of the faculty of the University of Oklahoma. Although the present exhibition will consist entirely of pen and ink and also pencil drawings, Miss Meux is chiefly noted for her oil painting. She has exhibited in the galleries of Toronto, New York, Massachusetts, Colorado, Kansas and Oklahoma. About 26 drawings are being shown in the present exhibition.

PRAISES G. LOWES DICKENSON

Professor Sturmer Reviews Literature of Noted English Philosopher

"G. Lowes Dickenson is an English philosopher with a cultured taste for literature. In reading his work one is impressed with the fact that we are often ignorant of things which we are confident that we thoroughly understand," said Prof. Anna M. Sturmer, in her talk on G. Lowes Dickenson, Tuesday.

Mr. Dickenson, after the manner of philosophers, begins with the abstract and proceeds to the concrete. With him "reason herself is a passion." His sphere, like that of Plato, has to do with man's social and spiritual relationships. His themes are old; his forms, the letter, the essay, and the dialogue, are old. But he treats his subjects with such largeness of vision that they seem new. He recognizes ideas and ideals, irrespective of geographical boundaries and has the power to communicate these to his readers in a disinterested manner.

He has no panacea for the ills of the world, but he convinces us that for complete living the intellect must bear its burden. There must be tolerance for those differing from us in ideas and ideals. Problems must be attacked by analysis and criticism, not by intuition. He makes us realize

that the force that drives the human race forward is ideas, and pleads for a reconstruction of human opinion on a basis of reason and truth.

GRADES ARE BUBBLES

Mendenhall of Friends University Contrasts Bubbles and Balloons

"Bubbles and Balloons" was the subject of a talk given by Dr. W. O. Mendenhall, president of Friends university, at vespers Tuesday afternoon.

"A bubble rises and bursts, while a balloon rises and lifts. A bubble is a delightful thing in color, form, and beauty, but not lasting," said Doctor Mendenhall. He characterized many phases of college life as "bubbles" or "balloons."

Games develop courage, strength, cooperation, self-control, the balloons of life, but when the interest lies only in the score, the bubble is holding prominence. Doctor Mendenhall described also the balloon type of friendship, which lifts and improves, as contrasted with the bubble type of friendship which bursts at the slightest strain.

The mere grades or marks secured in college are bubbles according to Doctor Mendenhall. The real effort put forth and the real knowledge gained are the important things. Employers do not ask, "What grades did you make?" but, "What can you do?"

Clarke Leads Forum at Vespers
Dr. James E. Clarke will lead an open forum discussion at vespers Tuesday which will take the place of the meeting formerly announced for the evening. The freshman commission play planned for this meeting will be given March 3. The subject of Doctor Clarke's discussion will be, "What Is Modernism?"

Receives Summer Appointment
Dr. Mary T. Harman has been offered a position as instructor at the biological station, Friday Harbor, Puget Sound, a marine laboratory for the Pacific coast. Dr. F. O. Frye of the University of Washington is the director of the laboratory. Dr. Harman will teach embryology there during the summer session, commencing June 15 and lasting for six weeks.

Study Cost of Production
J. A. Hodges, instructor in cost accounting, went to Bourbon county on February 18 to work on the new study in cost production which the department of agricultural economics is opening up there in cooperation with the bureau of agricultural economics, United States department of agriculture.

Rebekah Deal, '22, is teaching in the high school of Longview, Wash. Her address is Box 452.

Pianos for rent. Kipp's.

INTERESTING HISTORICAL EVENTS

Do You Know

—that John Hancock, as President of Congress, signed the commission of George Washington as Commander-in-Chief of the American armies in the Revolutionary War? The original commission is at Washington, D. C., in the Library of Congress, Division of Manuscripts, where you may see it at any time and note the famous signature.

We suggest that every college student utilize the first opportunity for a trip to the National Capital and make a point of looking at the Declaration of Independence, Washington's commission, and other important documents bearing on American history.

We believe a visit to Washington makes better Americans of us all.

The John Hancock is particularly interested in insuring college men and women and obtaining college graduates for the personnel of the field staff.

Saturday, February 21
Phi Kappa house dance.
Monday, February 23
A. A. U. W. banquet, cafeteria, 6:00 o'clock.

Dean Mary P. Van Zile, Miss Beatrice Gates, and Mr. and Mrs. R. I. Throckmorton were dinner guests at the Sigma Phi Epsilon house, Sunday.

Alpha Theta Chi announces the pledging of Miss Emily Abel of Silver Lake.

Phi Omega Pi held formal initiation Wednesday at the Masonic temple for the following girls: Eleanor Verroda, Cuba; Beulah and Lola Brinker, Goodland; Helen Dean, Manhattan; and Vera Hedges, Blue Mound.

Phi Delta Theta held initiation Sunday morning for Donald Springer, Manhattan; June Smalley, Kansas City; Perry Thomas, Racine, Wis.; Ralph Morhi and Lin Fayman, Kansas City, Mo.

Delta Sigma Phi announces the pledging of C. E. Campbell, Cimarron, and R. S. Wilson, Beloit.

Capt. Hugh Ryan of Fort Riley was a dinner guest at the Delta Sigma Phi house, Sunday.

Mr. and Mrs. Forrest Forrester and Mr. R. W. Conover were dinner guests of the women's faculty group at 830 Bertrand, Sunday.

Willard M. Benton, chief of Province three of the Alpha Tau Omega fraternity, spent the week end with Delta Theta chapter in this city.

The Kansas Iota chapter of Phi Kappa installed the Pi chapter of Phi Kappa at the University of Nebraska last week.

Kappa Delta announces the pledging of Eva Hendrix of Colorado Springs, Colo.

Those from here who attended the performance of "Rain" at the Grand theater in Topeka Saturday were: Misses Ruth Hartman, Emily Bennett, Grace Hesse, Helen Elcock, Helen Rushfield, Annabel Garvey, Mary and Ed Polson and Messrs. R. W. Conover, C. W. Matthews, and Morse Salisbury.

Mrs. Owens spent the week-end with her daughter at the Delta Delta house.

Alpha Delta Pi will hold initiation Saturday night for these girls: Corrine Wiltrout, Logan; Frances Robinson, Bucklin; Luella Lancaster, Junction City; Lucille Sellers, Manhattan; and Mildred Huddleston, Fulton, Ky.

Sigma Nu will hold initiation Sunday morning for Bernie Toliver, Abilene; Anthony Rilgen, Liberty, Mo.; Clarence Beaty, Lina; Edward Crawford, Stafford; Gerald Griffin, Enid, Okla.; William Reeder, Troy; Robert Hedberg, Oklahoma City, Okla.; Willis Epperson, Hutchinson; Harry McIntire, El Dorado; Alfred Robinson, Towanda; Emmet Torrance, Council Grove; and Preston Manley, Topeka.

Phi Kappa Theta announces the pledging of Hugh White, Kingsdown.

Jessie Bogue entertained at her home in Junction City, Sunday afternoon, for the members of Phi Omega Pi.

Chi Omega held initiation services Saturday night for Esther and Elizabeth Rodewald, Randolph; Agatha

Tyler, Fredonia; Verna Beardmore, Glasco; Marjorie Bettles, Independence; Dorothy Speer, Wichita; Elsie Hayden, Manhattan; Mabel Ewing, Gread Bend; and Edith Caraway, Manhattan.

Phi Omega Pi held open house Saturday afternoon for Kappa Sigma and Sigma Nu fraternities. Music was furnished by Wade.

Completes Wheat Storage Work
Prof. R. M. Green of the department of agricultural economics spent Friday and Saturday of last week in Stafford county completing some of the work begun last summer on the storage of combine wheat in farm bins. While in Stafford county, Professor Green spent some time with Fred Paulsen, '23, who is now farming in that county. Mr. Paulsen has planted more than 300 acres of wheat.

NEED TO BE ASHAMED

Students Should Make Better Choice, Says Rahill

"Anyone who would travel from Boston to Topeka in a covered wagon to get into a slavery scrap, has some good stuff in him," said Dr. John Wells Rahill, pastor of the Congregational church in Topeka, in a talk given at chapel, Tuesday morning. The subject of Dr. Rahill's talk was "The Duty of Virtue."

Dr. Rahill discussed the need of arousing conscience, and mentioned the things in which people are most interested today. "The center of man's interest today is not exactly religious or cultural," he said, "but is in the devising of machinery and the making of money. We haven't time for the greater interests. We should be ashamed of ourselves."

The duty of the church and college, as he gave it, is to arouse this sense of shame, and the duty of students is to make the better choice.

Give George Washington Dinner

A "George Washington" dinner will be given at the Open Door tea room, Saturday, February 21, under the direction of the institutional management II class. This class does the work under the direction of one of its members. Each member has charge of the tea room for a week, having one special event during this time. Sarah Morris is in charge this week.

Over 80 guests attended the Valentine dinner given by the class last week in charge of Mrs. Evans. Reservations are being received already for the dinner this week. Plates are 35 cents.

Crawford Compiles Book

Prof. N. A. Crawford, who has edited many of the Haldeman-Julius "Little Blue Books" recently has compiled a book entitled "Great Christian Hymns." All the truly great Christian hymns are given with historical notes and explanation.

"I'll See You in My Dreams," new Brunswick record. Kipp's.

Whimsical, Unusual Variations Shown In Collegiate Fads

Collegiate fads are always unusual, seldom practical, and a natural part of college life everywhere. The red ties, gray corduroys, rolled hose, galoshes, and yellow shoes of the Kansas Aggie student have their counterpart in the fads of other universities.

All the sheiks are donning spats at the University of Illinois, spats in grays, tans and even an occasional blue, we are informed. Red ties are considered passe there, but bow ties in spring colors of yellow and blue are having a riot of popularity.

At Middlebury college in Vermont, where students must attend college when the mercury stands 20 or 30 degrees below zero, the fads take a practical turn. Raccoon skin coats are the thing there, worn with white corduroy scarfs and nifty derbies. Hand painted galoshes are the correct footwear for women.

The men who "know their oil" at Leland Stanford in California are wearing overalls to classes, the older and the more patched, the better. The restricted numbers of girls allowed to attend this university show their originality by lacing their shoes with red silk ribbons.

Flannel trousers, not in grays, for they were in their glory a couple seasons back, but in tan mixtures and shadings closely resembling the once popular tweed or salt and pepper suit, claim the favor of the well dressed college man at Albuquerque, N. M. The "little note of color" is secured in brilliant shirts, even the unfortunate rose pink being declared the acme of style. Patent leather shoes must accompany this ensemble.

At Berkeley, California, one of the largest schools in the United States, sweaters decorated with Indian designs take the lead in fashion. The men of one fraternity attempted to start the fad of going hose-less to school, but this innovation did not seem to "take" as well as they had expected.

Assistant at Johns Hopkins

Mr. Harold Brown, graduate assistant in zoology, has been appointed assistant in helminthology in Johns Hopkins university for the coming year. He will have almost full time work on his doctor's degree. Mr. Brown is the fourth man who has gone recently from the zoology department here to Johns Hopkins as fellow or assistant. The three other students are: L. H. Cleveland, C. A. Herrick, and Ernest Hartman.

A letter from Mrs. J. T. Willard who is spending the winter with relatives and friends in St. Petersburg, Tampa, and Bradenton, Fla., tells of the very delightful visit she is having. She speaks of Florida as the great playground for northern people in winter. Orange blossoms as well as ripened fruit are on the

trees outside her window. Fruit ripened on the trees in Florida has a much better flavor than the fruit in Manhattan, Mrs. Willard says.

Juniors Elect Officers

Election of junior class officers to serve during the spring semester was held the first of the week. Those elected were: President, Paul Brantingham; vice-president, Vera Alderman; secretary, Harry Felton; treasurer, Rachel Herley; and marshal, Mary Lowe. The officers will be installed Thursday.

DISCUSS A "NEW SLANT"

Students Report on A. Bruce Curry's Training Conference

"A New Slant" was the topic for vespers on Tuesday, February 17. Evelyn Colburn, Ethel Oatman, and Charlotte Sparrowhawk gave reports from Dr. A. Bruce Curry's institute which was conducted at Lawrence during last week end. This institute was attended by about 50 faculty members and students of K. S. A. C.

Evelyn Colburn discussed questions which our religion brings up to the thinker. Ethel Oatman took as her subject, "The new slant that I got on Jesus' religion." Miss Sparrowhawk spoke upon the statement, "What it is possible for Jesus to achieve it is possible for me to achieve."

A special number was given by the Y. W. C. A. octette. Dr. Clarke will speak in vespers next week.

Hort. Club Installs Officers

The Horticulture club installed new officers at the meeting on Tuesday night. They are as follows: President, Russell Reltz; vice-president, J. H. Shirley; secretary-treasurer, W. M. MacBurney; chairman of program committee, Henry L. Lobenstein.

Will Speak at Leavenworth

Dean Mary P. Van Zile went to Leavenworth, Thursday, to speak before the Parent-Teachers' association of the city schools Thursday evening. Her subject was "The responsibility of the parent and teacher to youth." Dean Van Zile also talked to the high school girls of Leavenworth.

Children Appear in Recital

Members of the children's classes in piano and violin instruction were presented in recital at recreation center, Saturday afternoon. Twenty-

three children were on the program. They were Cynthia Askren, Roy Kiser, Jr., Boyd Walker, Elizabeth Nabours, Marjorie Fitch, Frances Merrill, Horton Laude, Dorothy Jane Bell, Edward Jones, Mary Catherine Pratt, Mary Ellen Springer, William Fitch, Patricia Irwin, Elizabeth Lamprecht, Rachel Lamprecht, Mary Margaret Walker, Virginia Shafer, Frances Farrell, Marjorie Call, Maxine Hofmann, Loran Putnam, Katherine Reid, Margaret Spencer.

Kappa Phi Has Musical Program

A musical program under the direction of Mary Dey, was given at the regular meeting of Kappa Phi, Tuesday evening. Devotionals were led by Gladys Stover. Mary Jackson played a violin solo and Esther Ankeny gave a vocal solo. Both were accompanied by Katherine Rumold. An instrumental duet was given by Margaret and Dorothy Foster. Mary Henry gave a vocal solo. A paper on musical history was read by Mildred McGirr. A piano solo was given by Lois McNitt. The next meeting will be held March 3.

Cozy Inn, 1403 Anderson—Quality food at reasonable prices. We deliver night orders. Phone 1328X.

Miss Grace Derby talked to the girls at the freshman commission meeting Monday. "The Girl as You

See Her," was the topic of her discussion. The girls talked about what they thought of themselves and also about campus honor.

For guaranteed watch and jewelry repairing at right prices go to Askren's College Jewelry Store, 1220 Moro street. 38-71.

Alberta Kearnes, who enrolled in school this semester as a freshman, was operated upon for appendicitis at the Charlotte Swift hospital, Wednesday.

Lost: Gold pencil, between Kedzie and Aggieville. Notify Collegian office.

Lost: Topcoat, light gray with faint blue check. Label "Laders" in inside pocket. Call G. V. Rowland, 363.

If you want your watch repaired so it will keep time take it to Askren's Jewelry Store, 1220 Moro or downtown, 404 Poyntz avenue, 38-71.

"Some couples don't dance; they just fight it out." Come on up and I'll referee. Hall above the College State Bank. Appointments with G. S. Wheeler and Catherine Lorimer. Box 535. Phone 371 J. Private lessons \$1.00 a half hour; either single or couple.

A TIE IN VALLEY IF AGGIES WIN

WILDCATS CAN COMPLICATE SITUATION BY DEFEATING K. U.

This Year the Dope Is with Jayhawk and the Jinx with K. S. A. C.

Possibilities for a tie in valley basketball leadership depend upon the result of the Aggie-K. U. game here Tuesday night. An Aggie victory probably will place K. U. and Nebraska in a tie for first place, providing of course that no other team defeats either. A victory for Kansas on the other hand means almost clear sailing to championship for the Jayhawkers. Consequently with such a result pending as this game will have, it is anticipated with the utmost interest by valley members.

Kansas Is Strong

When it comes to picking a possible winner in the game, the dope decidedly favors the Jayhawkers but the Aggies are noted for their ability to upset dope, so a win for Corsaut's cagers cannot be considered impossible nor especially unexpected. The fact that the Jayhawkers defeated Nebraska with comparatively little trouble while the Cornhuskers gave the Aggies their worst defeats of the year, readily shows that the Wildcats have a decided edge against them.

The only game which gives the Aggies an advantage as far as dope is concerned is the result of the first Aggie-Kansas game in which the Wildcats defeated Kansas by a count of 40 to 28. In as much as Coach Corsaut used his second string men a part of this game it is probable that if the Aggies hit close to the form shown in the first combat they will emerge a winner and upset the dope.

Dopesters Conservative

Kansas dopesters are very conservative regarding the outcome of the game although they believe that Doctor Allen and his quintet will come through victorious if they display their usual basketball ability. It is the general belief at Kansas at present that the Aggies have broken the jinx and reversed the order of things. With this belief in mind they are therefore planning on a stiff game with the chance for a victory not as certain as it might be.

Aggies in Good Shape

The Aggies will be in a better physical condition for the fray than will Kansas as they played only one game this week while Kansas had to dispose of two teams, Nebraska and Drake, on successive nights, both of which were very strenuous games for the Jayhawkers.

Both teams will have a slight change in the lineups as compared to the first game, Tehow taking the place of Weddle at center for the Aggies and Schmidt taking the place of Zuber as forward for Kansas.

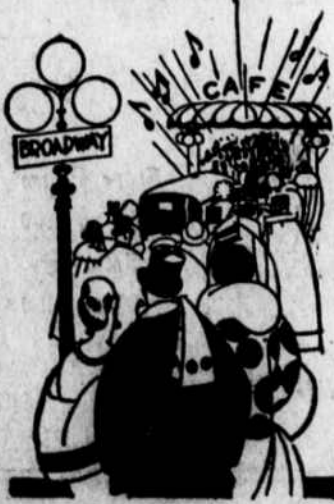

CAPITOL'S WAREHAM

The Students' Choice

Wednesday—Thursday

"THE CITY THAT NEVER SLEEPS"

A JAMES CRUIZE PRODUCTION

INDOOR MEET FEBRUARY 10

Entries for Intramural Track Will Be Taken on Gym Floor

The annual indoor intramural track meet will be held February 27 at 7:30 o'clock in Nichols gym, according to E. A. Knoth who is in charge of intramural athletics. Points will count on individual scores and will also count toward winning the intramural track trophy.

Individual events to be held that night will include the 30 yard dash, 30 yard low hurdles, 30 yard high hurdles, high jump, pole vault, 220 yard dash, 440 yard dash, 880 yard dash and the mile run.

The half-mile relay will be the only one held at the indoor meet.

AGGIE SWIMMERS HAVE MEET HERE FEBRUARY 26

Have Won from Nebraska for Past Three Years—Aggies Lose Colburn and Mackey

The first Aggie swimming meet will be held in the college pool with Nebraska, Thursday, February 26.

For the past three years the Aggies have won from Nebraska although the last meet ended with the Nebraska swimmers only two points behind the score being 32 to 30. This year the teams will be evenly balanced due to the loss of Colburn and Mackey who were sure-point men for the Aggies. Colburn won the 100 yard free style at the Missouri Valley conference meet last year.

Captain L. C. Miller, Phil Carter, and Stuenkel are the three men who composed the 1924 relay team besides Colburn. Lippencott, who has so far been the prospective fourth man for the relay, probably will have to give up his place to Eastman on account of ineligibility.

Tryouts will be held Tuesday, February 24, when Coach Knoth will pick the team that meets Nebraska. Other men who will try out are: Ulrich, plunge for distance; Vasey, dashes; Farrell, breast stroke; Schemm, plunge; Olmstead, breast stroke; Harter, plunge; Schopp, Whan, and Long, dashes; Foster, plunge and dashes.

HOLD INTRAMURAL TOURNEY

Boxing and Wrestling Entries Should Be Made by March 4

The intramural boxing and wrestling tourney will be held March 4 and 5, either in Nichols gymnasium or in the stadium. The tourney is

open for entries in the following classes: 115 pounds, 125 pounds, 135 pounds, 145 pounds, 155 pounds, 175 pounds, and the unlimited or heavyweight class. Those wishing to enter should weigh in at noon March 4, three pounds over weight will be allowed in any class upon entering. Medals will be given to the winner of each class as well as points toward an intramural sweater.

SWIMMERS ELECT OFFICERS

Will Demonstrate Life Saving Methods at Swimming Meet

Bernard Harter was elected president and Phil Carter vice-president of Alpha Sigma Chi, Aggie swimming fraternity, at a meeting held last Wednesday at 5 o'clock in the K room. Plans were brought out for obtaining life guard positions for members who wished them during the summer months.

Besides the named officers there were elected N. C. Olmstead, secretary-treasurer, and Perry Thomas, marshal. These men will hold their positions for one semester only.

A letter from Captain Law, head of the Red Cross Life Saving activity, brought the congratulations of that branch on the success of the fraternity. It also stated that several members could be given life guard positions if they desired to forward their credentials together with a photograph.

During the course of the Nebraska-Aggie swimming meet the fraternity plans to put on a stunt which will demonstrate both correct and incorrect methods of life saving.

Time to Enter Intramural Baseball

Organizations expecting to enter teams in intramural baseball should hand in their names, revised lists of members and the entrance fees at once, according to E. A. Knoth, director of intramural athletics.

The entrance fee for each team will be \$2.00. All entrances must be made before 6 o'clock, February 28.

Englund Addresses Legislature

Prof. Eric Englund of the department of agricultural economics spoke before the members of the legislature in Representative hall at Topeka, Tuesday evening, February 17, on phases of the tax problem as related to pending legislation. He appeared at the request of Warren Culp, vice-chairman of the committee on assessment and taxation.

We repair fountain pens and pencils of all makes at Askren's College Jewelry Store, 1220 Moro street.

Cleveland Receives Highest Honor

Dr. L. R. Cleveland, instructor in zoology at K. S. A. C. during the school year '20-'21, has received half of a \$1,000 prize offered at the meeting of the American Association for the Advancement of Science for the paper describing the best piece of research during the past year. In the judgment of the committee awarding the prize, this is the highest attainment that any scientist in the United States can receive. Doctor Cleveland is now the national research fellow in the biology station at Johns Hopkins university, and is pursuing work which he commenced at K. S. A. C.

Discusses Tax Revision

In speaking before the general agricultural seminar on Thursday, February 12, Prof. Eric Englund of the department of agricultural economics discussed the fundamental considerations in present day tax problems in this state, and pointed out that these fundamentals should be the guiding principles of tax revision. He also discussed what the present legisla-

ture can do under the tax amendment passed at the last election, and what it can do in tax revision outside of that amendment.

Cozy Inn—We deliver night orders, hot dogs, hot tamales, hamburgers, light lunches, and ice cream. Phone 1328X.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is

extended to all Odd Fellows to attend our meetings.

HOMER REED, N. G., JASPER FINK, Sec. tt.

To Talk on John Dewey

Prof. J. O. Faulkner will talk on John Dewey, Tuesday, February 24, at 4 o'clock, in the rest room of the home economics building. Professor Faulkner's talk will be the eleventh in the series of talks given this year under the auspices of the department of English.

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, FEBRUARY 24, 1925

NO. 42

FARRELL NAMED ACTING PRESIDENT

JARDINE IS GRANTED LEAVE OF ABSENCE

Dean of Agricultural Division Will Take Up Duties as President Next Saturday

F. D. Farrell, dean of agriculture and director of the K. S. A. C. experiment station, will take up his duties as acting president of the college upon the departure of Dr. W. M. Jardine for Washington, D. C., Saturday.

The state board of administration granted Dr. Jardine a leave of absence and announced Friday the appointment of Dean Farrell as acting president.

Doctor Jardine, in a speech at the Congregational church Sunday night, expressed his appreciation of the indefinite leave of absence granted him by the board and said he would like to return after the four years but

to be of benefit to swine and horse breeders.

The 12 herds which are under the supervision of the college contain more than 1,500 head of cattle, largely purebreds. All of them are Holsteins with the exception of the Ayrshire herd at Hutchinson. These herds have become of such high standard that the men in charge can ill afford to keep out of touch with the latest advances in the care of dairy cattle.

A full attendance is expected by W. H. Riddell, who is supervisor of the state institutional dairy herds.

WALKER, DICKENS & CO. WIN \$25 AGGIE ORPHEUM PRIZE

"The Wildcat Revue" Popular with Audience—Miller and Fry Place Second

"The Wildcat Revue" presented by Walker, Dickens & Co., eccentric dancers, was awarded the \$25 prize offered for the best act presented in the Aggie Orpheum last Friday night.

The placings of the acts were determined by the applause of the audience. Miller and Fry, presenting "Sketches in Art and Music" won second, and Pi Beta Phi placed third with "Follow the Game."

The college orchestra under the direction of Prof. Harold Wheeler, opened the Orpheum. A one reel comedy, "Why Be Jealous," followed in regular Orpheum style.

The other acts presented are as follows: The Pines Serenaders in "The Aristocrats of Syncopation;" Y. M. C. A. quartet in "Gypsy Tunes;" W. A. A. girls presenting acrobatic stunts; Bill Guarrant in "The San Do Move;" and Purple Masque's one act play, "The Yellow Peril."

Prof. Howard T. Hill was master of ceremonies in the judging contest. Those who judged the applause were Jerry Wilson, Prof. Hugh Durham, Katherine Welker, and Ralph Ewing.

PLAY TRYOUTS THIS WEEK

"Thank You" Is Intersociety Play for March 27

Tryouts for "Thank You," the intersociety play to be presented the last of March will be held Monday, Tuesday, and Wednesday afternoons of this week in G58. All persons interested are urged to attend the tryouts in order that the best of dramatic talent may be represented.

"Thank You" is a John Golden production written by Winchell Smith and had a very successful run in New York. Earl G. McDonald of the public speaking department will direct the intersociety performance of "Thank You" and the play will be produced March 27 in the auditorium.

SIEVER WOULD REQUIRE A COURSE IN SANITATION

Bellies Service of Health Department Would Be Enlarged

A two-hour course in personal hygiene and sanitation, to be required of all college freshmen in their first semester, was one of the recommendations made by Dr. C. M. Siever in general science faculty meeting Tuesday, for enlarging the service of the college health department to the students. Doctor Siever also recommended a larger dispensary, so that the service could extend to both faculty and students; location of the dispensary on the ground floor, so that students who are ill need not climb stairs; and the inclusion of hospital and dispensary in one building.

Doctor Siever summarized the work of the college health service during the past 10 years, showing the increase in the number of cases treated from about 1,400 in 1911 to more than 22,000 last year, an average of about 100 cases a day.

From the employment of a visiting nurse only, with no hospital facilities, the service has grown into a department, with three physicians and four nurses, and fully equipped hospitals, a 16-room building for general cases and a six-room contagious hospital.

Dr. J. S. Hughes stated that he favors the adoption of the two-hour required course recommended by Doctor Siever, in which facts about the necessary nutrition elements in the diet can be taught. "Most students," said Doctor Hughes, "are ignorant of what their diets should contain, and do not, at the majority of boarding houses, clubs, and restaurants, secure the needed foods. As a result the physical condition of many students is below normal, and this condition naturally reacts against their work in college."

Ship Prize Winning Sheep

The animal husbandry department is shipping three prize winning Dorset sheep to a plantation owner in Florida.

"Sing a Song of Sunburn" Say Addicts of Ultra-Violet Ray

Song of the Violet Ray Addicts

Ho, the bloody sun may hide behind the clouds,
And the weather man announce that winter's come,
But we don't mind the rain or sleet, because we've got the weather beat.

And get our coat of sunburn just the same.
So get out the vaseline, and turn on the ray machine,
'Cause we'll get our coat of sunburn just the same.

Blistered backs, or at least sunburned backs, are becoming all the rage among the athletically inclined male population of K. S. A. C. since the introduction of the daily "canned sunlight" treatment by the ultra-violet ray machine into the Aggie training schedule for athletes. The vogue has even spread, it is said, to others whose athletic days are more or less confined to the past, but who have fallen for the possibilities of

rejuvenation which is said to lie behind the lure of the rays.

Though the ray treatment if properly taken, is guaranteed not to do any real harm, it has shown a tendency to produce real old-fashioned cases of sunburn on ultra-tender skins, especially those whose owners are not careful about coming in out of the artificial sun at the end of the regulation two minutes of exposure. Back east a similar machine is being used on those who wish to acquire a coat of "Atlantic City" tan without the incidental expense of a trip to the summer resort, as in certain exclusive social circles the resort trip for the winter is considered essential.

No one as yet has tried the "Atlantic City" story in the college community, as a plutocrat capable of such a trip is unthinkable hereabouts. However, it is stated on good authority that a "Winter Sunburn Fraternity," the first of its kind in the United States, will be organized soon.

FACULTY COUNCIL HITS ORCHESTRAS

SAYS BOOZE EVIL IS CREATED BY MUSICIANS

College Organizations Prohibited from Employing Orchestras Which Violate New Rule

Believing that part of the drinking problem at K. S. A. C. is created by members of orchestras when playing for dances, the faculty council on student affairs has passed a rule in an attempt to remedy the condition.

Whenever a member of an orchestra is found guilty of drinking or of having liquor in his possession during the time of any college dance, no college organization may give a dance at which that orchestra plays, until the guilty member's connection with the orchestra is severed.

S. S. G. A. Cooperates with Faculty

The faculty council referred the resolution to the S. S. G. A., which voted to take similar action, and to work in cooperation with the faculty committee in enforcing the rule. Letters will be sent to local orchestras, to college organizations, and to managers and chaperons of college dances, soon, informing them officially of the action of the two governing bodies.

President Jardine recently raised the question with the faculty council whether everything possible was being done to keep our college dances free from the influence of the use of intoxicants. He urged that such action as might be necessary to accomplish this purpose be taken by both the S. S. G. A. and faculty councils.

MUST SELL 500 BOOKS

Royal Purple Allows Faculty and Business Men to Defer Payment

At least 500 more Royal Purples must be sold to insure the financial as well as the literary success of this year's annual. It is hoped that the intersociety contest which started Monday will accomplish this result.

A new ruling is that, during the contest, business men or faculty members will be allowed to sign orders and defer making any payments until the book is delivered. This scheme is to enable the Royal Purple management to order the correct number of books now.

The faculty has purchased only nine annuals at the present time. Since there are 417 faculty members this showing seems remarkably low.

IT'S "BEAT K. U." AGAIN

Methodist Sunday Schools of Lawrence and Manhattan in Contest

Not satisfied with having beaten K. U. in football and basketball the Methodist students are planning to "put it over on them" a third time, in a Sunday school attendance contest. The contest, which opened yesterday will close the Sunday before Easter, and the winner will be determined on a basis of attendance as compared with the number of Methodist preference students.

K. S. A. C. and K. U. are well matched as to number of Methodist preference students enrolled, K. U. having 1170 and K. S. A. C. 1278. Both record about the same average Sunday school attendance.

Miss Winifred Kerr of Eldorado, who is attending Washburn this semester, was the week-end guest of Geraldine Cutler.

The Barnyard Brown Bull Will Reveal "A Man at His Worst"

"A Man at His Worst" is the title of one of the big feature cartoons of the Barnyard number of the Brown Bull which will be ready to sell Thursday morning. No, the editor has promised that there isn't a trace of a lost or found collar button in the picture, either. Another cartoon is entitled "Watering the Stock" and is of particular interest to all Ag students.

Jokes, scandal, and aesthetic and artistic pictures are all found in this latest concoction of the humorists mixed in the proper proportions and ready for consumption by the educators and would-be educated. The Brown Bull will go on sale at dawn Thursday morning, and the price is the same as ever. A touch of scandal makes the whole world chin, and the Barnyard number is full of the spice that makes life worth while.

BEGINS WORK ON ROCK GARDEN

Helder Directs Construction of Picturesque Spot East of Greenhouses

Work on the new rock garden, which will be built on the campus east of the greenhouse, has just begun. Prof. A. H. Helder of the horticulture department is in charge of the work, a landscape gardening project. Professor Helder expects to have the garden and grounds completed by spring.

A main stone walk will lead from the horticulture building to the garden and on around the greenhouse, ending at the new agricultural building. Short branch walks leading to various parts of the campus will be built.

There is to be a lake five feet deep. It will contain two feet of soil in which suitable plants will be grown. Water for the lake will trickle down from two fissures in the rocks at the side. Perennials are to be planted in various places, and shrubbery placed near the greenhouse will serve as an effective background for the garden.

MANY VALUABLE NEW BOOKS ADDED TO COLLEGE LIBRARY

"So Big" Is Only Novel Which Has Been Received Recently

Recent arrivals of books at the college library consist principally of volumes dealing with science, literature, and technical subjects rather than fiction, according to Mrs. Jessie Gulick, cataloguer. A very few novels have been received.

Among the books on science and technical knowledge are the following: "Contribution of Science to Religion," Shailer Mathews; "Anthropology," A. L. Kroeber; "The American Indian," Clark Wissler; "The Art of Home Decoration," Mary Northland; "New Salads," Sarah Rorer; "Fundamentals of Photography," C. E. X. Mees; "Turf for Golf Courses," C. V. Piper; "Child Labor and the Constitution," P. G. Fuller; "The Supreme Court and the Constitution," C. A. Beard.

Volumes in literature include "How to Write Short Stories," Ring Lardner; and "From Whitman to Sandburg in American Poetry," Bruce Weirick.

Of the several volume sets recently received are "Zeitschrift Fur Physik," a journal dealing with the science of physics, written in German; "Anatomische Anzeiger," a magazine concerning anatomy, also in German; and "Operative Surgery," by Bickham. According to Mrs. Gulick, these three sets are quite important

and more expensive than the usual sets of books of scientific nature.

The only novel reported received is "So Big," by Edna Ferber. Besides these, a volume of unusual interest is the "Book of Martyrs," by Fox. It is an old volume but new in the college library.

Designs Baptist College Campus

Prof. Arthur Helder was called to Kansas City Friday to consult with the trustees of the Kansas City Baptist seminary concerning the arrangement of buildings and landscape features of their campus.

MAKE FINAL PREPARATIONS FOR FAREWELL TO PREXY

President Jardine Will Give His Farewell to Students at Special Assembly Wednesday Afternoon

Several special features are being planned as a part of the farewell which is to be given to President Jardine by the college students and townspeople. Wednesday there will be a special chapel preceded by a review of the entire R. O. T. C. unit by Doctor Jardine, and Saturday the student body will be at the Union Pacific station for the final send-off at 1:17 that afternoon.

At the special assembly Wednesday Prexy will give his farewell address to the student body. Wednesday evening a reception will be given in his honor at the gymnasium. The reception will be followed by a banquet and more than 1,000 tickets have been sold to townspeople, alumni, and other people from out of town. Henry J. Waters, former president of the college, will preside at the banquet and ex-Governor Allen will be a guest. Governor Paulen will be unable to attend.

Thursday Dr. Jardine will go to Wichita where he will address the business men of the city at a luncheon at the Hotel Lassen and will speak at a meeting of the State Livestock association there that night.

Friday he will return to Manhattan and make the final preparations for his departure for Washington, D. C.

CONTRIBUTIONS EXCEED \$700

Response to Campus Chest Drive Is Slow

Only \$600 have been turned in to the Campus Chest at the present time. When all contributions are in the amount is expected to exceed \$700.

The drive was scheduled for the week of February 4 to 12, but since the response to requests for contributions was slow it was extended to this week.

Because the drive must be completed as soon as possible all organizations and individuals who intend to give to the Campus Chest should report immediately to Prof. H. A. Shinn, treasurer of the drive, or to the Y. W. C. A. office.

Souders Heads Sophomores

Harold "Cap" Souders was elected president of the sophomore class for the second semester at the class election held last Friday. Other officers elected are: Vice-president, Albert Ehrlich; secretary, Agnes Remick; treasurer, Elmer Canary; marshal, G. M. Young.

Miss Colburn Speaks in Blue Rapids

Evelyn Colburn, president of the Y. W. C. A., went to Blue Rapids, Friday, to talk at a Mother-Daughter banquet there. This banquet, the first of its kind to be held there, is given by the high school girl reserves whose sponsor is Mable Worster, '22.

32 COLLEGES TO SEND DELEGATES

WILL HOLD MID-WEST STUDENT CONFERENCE HERE

K. S. A. C. Wins Convention Against Strong Opposition—April 30, May 1-2 Is Date Set

The Mid-West Student conference of colleges and universities will be held at K. S. A. C. Thursday, Friday, and Saturday, April 30, May 1 and 2. This date was decided upon by the program committee of this year's conference following the receipt of a letter from True D. Morse, of the University of Missouri, president of the conference, stating that the date met his approval.

Thirty-two Schools in Conference

The Mid-West Student conference is an association composed of two delegates from each of 32 colleges and universities in the middle west. The purpose of its organization is the discussion of actions of student governing associations, and student activities in general. The delegates from the various schools meet once each year to discuss the best methods of procedure for student governing associations and to decide upon definite recommendations for members of the conference for the following year.

Last year the conference was held at the University of Tennessee, at Knoxville. Jerry Dowd and Harold Gillman, K. S. A. C. representatives, worked hard and eventually won the convention for their school, over strong opposition from Tulane university at New Orleans.

K. U. Endorses Us

At the time of the awarding of the conference city for 1925, one or two schools in the Missouri valley opposed the action of giving it to K. S. A. C., basing their argument on the fact that the Kansas school had nothing to offer in line of entertainment. The Tulane delegates were overruled with convention plans, which included yacht voyages to outlying islands, inspection of the wharfs, and several other inductive forms of recreation.

However, by giving the delegates the sincere promise of a good time at K. S. A. C. together with the strong endorsement given the Aggies by the delegates from the University of Kansas, Mr. Dowd and Mr. Gillman landed the convention.

Governor to Welcome Delegates

Plans for the entertainment of the delegates have already been practically completed. Several receptions, dances, and banquets have been arranged. A special chapel for Thursday morning, at which the delegates will be welcomed by Governor Paulen has been tentatively arranged.

The annual Field day, provided it is held this year, will come on Friday, May 1, and special arrangements will be made for the delegates to see this. On Friday and Saturday afternoons there will be baseball games between the Aggies and the University of Nebraska. Other forms of entertainment are being arranged by the program committee which is composed of Inga Ross, Fred Shideler, and Harold Gillman.

Means Much to K. S. A. C.

This will be one of the most important conventions that K. S. A. C. has ever had. At least, one which will do more to advertise the college throughout the middle west. The success of the conference, and the impression of the delegates toward the school will depend largely upon the cooperation of the students, faculty, and business men, in putting it over.

The members of the conference are: University of Alabama, University of Arkansas, Carnegie Institute of Technology, University of Chicago, University of Cincinnati, Creighton University, DePaul university, University of Illinois, Illinois Wesleyan university, University of Indiana, Iowa State college, University of Iowa, Kansas State college, University of Kansas, University of Kentucky, University of Michigan, Miami university, Michigan Agricultural college, Minnesota university, University of Missouri, University of Nebraska, Northwestern university, Notre Dame university, University of North Dakota, Ohio Wesleyan university, University of Oklahoma, Pennsylvania State college, Purdue university, University of Tennessee, University of Texas, Tulane university, University of Wisconsin.

Swanson Is Commended

An article commending the work of Dr. C. O. Swanson, head of the department of milling industry at K. S. A. C., appeared in the current issue of the Southwestern Miller magazine.

DEAN FARRELL

would not think of doing so because it would be unfair to Dean Farrell. Doctor Jardine stated that he would resign after a time, that the new president might have a chance to put into practice his own ideas and policies.

Was Classmate of Jardine

Dean Farrell was a classmate of Dr. Jardine at the Utah Agricultural college and came here as dean of agriculture when the latter was made president of the college in 1918. Previous to this time, he was scientific assistant in cereal investigations of the United States department of agriculture from 1907 to 1910, associate professor of irrigation and drainage in Idaho university 1910-11, agronomist in charge of cereal cultivation experiments during 1911-12, assistant agriculturist in the western irrigation agricultural investigation 1912-14, and from 1914 to 1918 he was in charge of agricultural developments on government reclamation projects of the United States department of agriculture.

Is Leading Authority on Agriculture

A dispatch from Topeka, before the decision of the state board of administration, discussing the probability of Dean Farrell's appointment said:

"Dean Farrell is well known and well liked over the state and ranks as one of the best educators in the state. He was connected with the United States department of agriculture for about 10 years and is recognized as one of the leading authorities on agricultural problems in the central west."

Pronounced by one of his fellow faculty members as a "true intellectual," and by another as not being "one to push himself forward but a good mixer and, on a conservative basis, thoroughly popular with all with whom he comes in contact," Dean Farrell will undoubtedly prove an able president.

STATE HERDSMEN TO ATTEND SHORT COURSE NEXT WEEK

Superintendents of State Institutional Herds Meet Here

The annual state herdsman's short course will be held at K. S. A. C., March 2 to 6, inclusive. This is a course designed primarily for the benefit of the superintendents of state institutional dairy herds, which are under the supervision of the college. However the program has become wide enough in scope

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, FEBRUARY 24, 1925

A SENIOR TRADITION

The majority of Kansas Aggie traditions are well observed by the student body. The men always remove their hats in passing through Anderson hall. There is no smoking on the campus, at least not openly. Freshmen wear the purple cap during the time designated for its wearing. These and other traditions help make the college what it is.

But there is one tradition that has not been observed of late. The Seniors do not occupy the pit during assembly. In former years it was considered an honor to sit in this section. Anyone seated there was known to the rest of the students as one who had leaped successfully the scholastic hurdles that stand in the way of graduation. Visitors at assembly looked with pride upon the students who occupied the pit. They represented the finished product of the college. It was no more than right that they should be seated before all others.

But at assembly this year the pit has been practically vacant except for some members of the faculty. Students in general sit in this section only when the other available seats are filled. And the students that do seat themselves there are very seldom seniors; they are usually underclassmen who are embarrassed because they have to find a seat in a section where they don't belong.

Any student who is a senior should be proud of his position, and proud to take the place of honor reserved for him. The senior class, grouped together in the pit, would find itself just a little more closely knit together than it is now. It would have more knowledge of itself.

Seniors, you should sit in the pit. By so doing you would help your class, yourself, and help perpetuate a tradition.

Coherece is when they place an insane man, who has lost his mind while listening to his wife talk over the phone, in a cell with the same number that his phone had.

It is exceedingly discouraging to the young man to read in the paper of a house with a guest room, a nursery, a play room, a library, and all the other essential rooms of a house and then discover that the place is labeled as a "small home."

The question that is uppermost in everyman's mind as he leaves her for the first night at the front door is "to or not to."

Spring is coming but you can't prove it any more. Perhaps the snow and cold weather are over, but there's no use to feel so good. It will rain before long.

Next to the most annoying thing in the world, we noted as we walked past the porch this evening, is another fellow.

Is it just chance that college and knowledge rhyme? Or is there some sinister meaning to it?

It's a safe bet that Prexy will be surprised when he comes back in about four years and discovers that they are making plans to build a new cage for Touchdown II.

Below is a picture of the look on Harry's face when he suddenly remembered that the date for tomorrow night had been shoved forward 24 hours. Harry was in bed at the time.

It seems that in an agricultural college a no more appropriate name

could be found for an organization than the name Mu Mu Mu.

This week the girls of the college have not been dumb and senseless as usual. On the contrary, they have been unusually dumb and idiotic.

On Other Hills

The comic sections of the Purdue university yearbook will be illustrated by famous cartoonists. Andy Smith, originator of Andy Gump, will be one of the contributors.

The students' loan fund was well patronized at the University of California last year. A total of \$25,000 was borrowed by 400 students.

Four volumes of Chinese literature, containing the works of twenty-eight Chinese philosophers, have been added to the library of Ohio State university.

A \$5,000 gift, in the form of 75 shares of Standard Oil stock, was presented to the College of Emporia in a recent endowment campaign by an alumnus.

A college club whose 300 members represent twenty nationalities and come from over 200 colleges and universities of both the old and new world, has been formed at Havana.

Nearly 1,000 students received degrees from the college of letters and science at the University of Wisconsin last year.

"The First Year" is to be given soon by the Players club of Oklahoma A. and M. college.

Five hundred rare oriental manuscripts, some dating as far back as the eighth century, have been presented to the library of the University of Michigan.

Seventy-three coeds were placed on probation and six were expelled from Indiana university on account of receiving too many failing grades last semester.

A slip from the famous Washington elm is to be planted on the University of Kansas campus, as a memorial from the Botany club of that institution.

A gymnasium class has been started at the University of Nebraska for the faculty men.

A three-story hotel is to be erected at Texas A. and M. college to accommodate the visitors to the school.

Captain Stickney to Alaska

Captain R. C. Stickney received notice Monday morning of his transfer from K. S. A. C. to the command of a company stationed in Alaska. His new appointment does not take effect until June 1, and he will remain here until the end of the semester.

Captain Stickney came too K. S. A. C. a year ago last September and has been in charge of instruction for advance course men.

"I'll See You in My Dreams," new Brunswick record. Klipp's.

Frank Shideler, 10-year-old page in the house of representatives, at Topeka, spent the week-end with his brother, Fred, at the Sigma Alpha Epsilon house.

For guaranteed watch and jewelry repairing at right prices go to Askren's College Jewelry Store, 1220 Moro street. 38-7t.

Lost: Topcoat, light gray with faint blue check. Label "Laderers" in inside pocket. Call G. V. Rowland, 363.

Hilda Bower spent last week-end in Kansas City with friends and relatives.

If you want your watch repaired so it will keep time take it to Askren's Jewelry Store, 1220 Moro or downtown, 404 Poyntz avenue, 38-7t.

They Had Good Lines
Hundred of Years
Ago in Costa Rica

Although hundreds of years old, "Bill" has not lost his charm.

At least that is what all the students in the art department say when they see him, and learn about him. He is a unique little fellow—only about six inches high, and, as one of our journalists said, "He has a good line."

His attitude is one of thoughtfulness, as he sits with his arms resting on his knees and his chin in his hands. Just how long he has been in this pensive mood no one knows.

"Bill" has been at K. S. A. C. only a short time. A friend of Miss Everhardy's sent him to her a few months ago from Costa Rica, where he had been excavated from ruins, and where once he was probably the idol of pagan people. His origin and symbolic meaning are not known, and until more can be found out regarding his past he has been given the name "Bill."

MANY OLD GRADS COMING

Home Economics Jubilee Attracts Prominent Alumni

Invitations to the semi-centennial celebration of the home economics division to be held April 16, 17, and 18 are being answered this week by old graduates and former instructors in the departments, according to Dr. Margaret Justin, dean of the division.

Mrs. Henrietta Calvin, a graduate of 1878, has accepted an invitation to the celebration. Mrs. Calvin was head of the home economics division here for a number of years, and the present home economics building was built according to Mrs. Calvin's suggestions. After leaving K. S. A. C., Mrs. Calvin went to Washington, D. C., where she was the first woman specialist in the home economics department of the bureau of education there. At present, she is in charge of all domestic science work in the grade and high schools of Philadelphia.

AGNES REMICK INJURED

Taxi in Which She Is Riding Collides with Truck

Agnes Remick, daughter of Prof. and Mrs. B. L. Remick, 613 Houston, and a sophomore in college, was injured in an automobile collision at the corner of Tenth and Houston streets early Saturday evening.

Miss Remick was in a taxi which was going west on Houston street. A truck going south on Tenth street struck the taxi at the intersection. According to witnesses of the accident, when the cars collided the taxi swerved and went over the curb into the yard at 1001 Houston, narrowly missing two trees, and then returned to the street. The truck turned over, slightly injuring one of the occupants.

Miss Remick received cuts and bruises about the face. The taxi driver was slightly injured.

HAYS ROUNDUP IS APRIL 25

K. S. A. C. Supplies Speakers for Annual Experiment Station Event

The annual Hays roundup will be held April 25, according to L. C. Aicher, superintendent of the Hays experiment station. He was in Manhattan several days last week making arrangements for securing speakers.

The list of speakers always in-

LET THE
A. V. LAUNDRY
and
DRY CLEANERS
DO IT

1219 Moro Phone 701

cludes two or more men from K. S. A. C. One of the features usually appearing on the program is the luncheon given for all of the visitors. In former years the attendance has ranged from 500 to 3,000, depending on the condition of the roads and weather.

Each year at the roundup reports are made on the results of the experiments carried on at the Hays station during the past year. Special attention is paid in these reports to the experiments in cattle feeding and the experiments in production of feed crops.

Superintendent Aicher is a graduate of K. S. A. C., class of 1910. He spent 11 years as superintendent of an experiment station in Idaho before going to Hays in 1921.

BED SPRINGS FORM AERIAL

Fifty Cent Radio Outfit Entertains College Student

"Lie upon thy bed and listen," is the motto of one college student. Using the springs of his bed as an aerial for a 50 cent radio, he listens in on all the KSAC programs.

"All you need," remarked the student, "is an oatmeal can, a dime's worth of wire, a couple of shingle nails, a crystal detector, and a head set."

The set, with the exception of the head phones, was built at a cost of about 50c. The owner says that the KSAC station comes in clear and loud. With an outside aerial the Milford station can be heard easily.

Grimes Opens New Route

Prof. W. E. Grimes, head of the department of agricultural economics went to Bourbon county on Thursday, February 12, to open a new cost accounting route, which the department will conduct in that county in cooperation with the bureau of agricultural economics of the United States department of agriculture. R. D. Nichols, research assistant in agricultural economics accompanied Doctor Grimes.

Ackert Writes Abstracts

Dr. J. E. Ackert of the zoology department has been asked to make abstracts of a number of journals for the parasitological section of Abstracts of Bacteriology, a journal published by the Society of American Bacteriologists at Washington.

Miss Ruth Morris and Miss Geneva Watson of the physical education department drove to Topeka last week-end.

Twenty-two Years'
Experience Better
Than Scientific Talk

Anyone could tell that he was her father, by the expression on his beaming face as he seated her in the front, middle section of the auditorium. One could surmise also, that she was his daughter by her self-conscious, seemingly unconcerned manner, yet she was proudly aware of the fact that they were seated directly in front of the main speaker, her chemistry professor. If only he would notice them there!

The lecture on chicken diseases was well started. The father had begun to pay some attention to the speaker. Suddenly father rose, and amid the interested stares of the audience, he led the way through the aisles toward the door while whispering very distinctly to his painfully embarrassed daughter, "When that young man has had 22 years of experience like I've had, then I'll let him tell me something about chickens."

Cozy Inn—We deliver night orders, hot dogs, hot tamales, hamburgers, light lunches, and ice cream. Phone 1328X. 39-tf

STUDENTS

Read Essays and Columns at Quill

Ur Rune of the American College Quill club held a meeting last night in Kedzie at which essay and column material was the subject for discussion. The following persons contributed either essays or a column: Josephine Hemphill, Helen G. Norton, Alice Nichols, H. W. Davis, and H. D. Sappenfield.

Secures Purebred Swine

Prospective prize winning Hampshire swine from McPheters and Son, purebred swine breeders of Baldwin, have been secured by Prof. A. D. Weber of the animal husbandry department. The purchase of these was the outcome of a trip through the eastern part of the state last Thursday, when Professor Weber visited all of the leading swine breeders in that part of the state.

Miss Frances Reed spent the week-end visiting friends in Abilene.

Miss Georgia Hemphill of Clay Center visited here with her sisters, Helen and Josephine, last week.

Kappa Phi Alpha house dance.

Alpha Xi Delta held formal initiation Sunday morning for Vesta Duckwall, Great Bend; Inez Howard, Burston; and Fern Cunningham, Junction City. Initiation services were followed by a two-course breakfast at the Gillett hotel, at which George Washington decorations were used. Guests who attended were: Mrs. Thaddeus Kimble and Helen Helise, Miltonvale; Rida Duckwall, Ethel Sexton, and Faith Noble, Abilene; Mrs. J. B. Parker, Mrs. Clark Bryan, and Elizabeth Frazier, Manhattan.

Alpha Xi Delta announces the pledging of Vera Frances Howard of Mt. Hope.

Miss Lillian Baker and Dr. Mary T. Harman were entertained at dinner Saturday evening at the home of Captain and Mrs. Washburn of Fort Riley.

The members of the city Pan-Hellenic entertained with a dinner and bridge party at the Woman's club house, Thursday evening. A four course dinner was served at quarter tables which were decorated with red candles and carnations. The following program was given during the dinner: Violin selection by Miss Jean Rankin accompanied by Alice Carney; reading by Miss Elizabeth Frazier; music by Misses Elizabeth Frazier, Dorothy Stiles, and Margaret Foster. Dr. Mary T. Harman, president of the city Pan-Hellenic gave a talk on the plans and work of the organization and Miss Grace Hesse pointed out how the city Pan-Hellenic can aid the active council. Covers were laid for 45 members. At the bridge game which followed, high scores were won by Miss Frances Conklin and Miss Helen Huff.

Pi Beta Phi entertained with a Pan-Hellenic tea at the chapter house in honor of Mrs. Vivian White Scott of Denver who is province president of Pi Beta Phi.

Dean and Mrs. R. A. Seaton gave a reception Saturday evening at their home in honor of Dr. and Mrs. W. M. Jardine. In the receiving line were Dean and Mrs. Seaton and Doctor and Mrs. Jardine. Pink candles and baskets of pink sweet peas were used in the decoration of the rooms. Music was furnished by Elizabeth Van Ness on the violin, accompanied by Eileen Fields at the piano. Those who assisted were: Dean Mary P. Van Zile, Miss Jessie Machir, Mrs. A. J. Mack, Mrs. Charles Scholer, Mrs. C. E. Pierce, Mr. and Mrs. L. E. Conrad, Mr. and Mrs. J. P. Calderwood, Mr. and Mrs. C. E. Reid, and Misses Elizabeth Perry, Ruby Byrd, Louise Stockwell, and Elsie Wall.

Coach and Mrs. C. W. Corsaut dinner guests at the Kappa Sigma house, Sunday.

Miss Dora Dean Dakin, Wamego, and Miss Crystal Shinn, Concordia were dinner guests at the Kappa Sigma house, Sunday.

Mr. Sidney McCracken who is teaching at White Cloud visited at the Kappa Sigma house this week end.

Delta Sigma Phi announces the pledging of Forrest B. Volk, Lenora, and Clifford N. Hinkle, Lucerne.

Lieutenant and Mrs. R. E. McGarrah entertained with a dinner bridge party at their home, Friday evening. George Washington symbols were used in the decorations of the tables and the rooms. The guests included: Colonel and Mrs. F. W. Bugbee, Captain and Mrs. W. W. Wertz, Captain and Mrs. W. P. Waltz, Captain and Mrs. L. E. Spencer, Captain and Mrs. R. C. Stickney,

Captain and Mrs. Gerald Fitz Gerald, Miss Grace Hesse; Miss Edna Willmann, and Captain C. W. Jones.

Vernon Peterson, Gypsum, and Lowell Domoney, Downs, spent the week end at the Delta Sigma Phi house.

Dinner guests at the Delta Sigma Phi house Sunday were Prof. N. O. Kennedy and Alden B. Woody.

The members of the Congregational church gave a dinner Sunday noon at the church parlors in honor of Dr. and Mrs. W. M. Jardine.

"Ding" Burton was a guest at the Sigma Nu house last week.

Ruth Holton, Margaret Manley, and Ralph Helmrick attended the Miami Triad party at Lawrence, Friday night.

The Open Door tea room served a special Washington's birthday party Saturday evening to 90 people. The menu was suggestive of the day and consisted of chicken a la king in timbales, browned potatoes with parsley, buttered string beans, hatchet biscuits and butter, cherry tree salad and cherry sundae.

Dean and Mrs. R. A. Seaton and Prof. P. Weigel were dinner guests at the Alpha Xi Delta house, Sunday.

PRAISES CRAWFORD'S BOOK

Villard Lauds High Ethical Standards of Journalism Head

In his discussion, in the February 11 number of The Nation, of the recent books on the subject of journalism, Oswald Garrison Villard says of Professor Crawford's "The Ethics of Journalism," "All in all his little volume is the most compact statement of the problems and difficulties of the press of today we have yet seen."

Although Villard does not agree with Professor Crawford on all points, he praises Crawford for his high ethical standard. He says, "He often speaks fearlessly and critically." Mr. Villard believes men with such ethical standards as Professor Crawford are the men that will save the modern newspaper from going to ruin through dishonesty.

Mr. King Vanderbilt of the Phi Sigma Kappa house spent the week-end at his home in Abilene.

Flowers: Special corsages for the farewell banquet, \$1.50 to \$2.50.—Manhattan Floral Co.

Hal Wilson spent last week-end at his home in Valencia.

Fire Trap Creates Weekly Danger for Scribes at Lecture

Chairs, red neckties, vanity cases, papers, black and white ribbons, pencils, bright scarfs, note pads, magazines, peanuts, purses, horn-rimmed glasses, mixed with human wreckage, and punctuated with screams and curses.

That is neither a description of a railroad wreck nor a rummage sale. It is an enumeration of the wreckage that probably would accumulate at the doors of K58 if a fire should break out in Kedzie hall on Thursday afternoon while the Journalism lecture is in session.

For this session the two rooms K58 and K57 are thrown together and the chairs arranged in a semi-circle around the outer walls of the room. There are no aisles so that one can pass out only by following the spaces in front of the chairs. With this arrangement if any one in passing out should push forward a chair in the row in front of him, he would close the passage to all of those in that row. To make the matter worse very often one or two chairs are placed immediately in front of the main door.

Under such circumstances it would be a matter of almost unheard of presence of mind on the part of the journalists to empty the room safely in case of a fire.

PUBLIC SERVICE IS AIM

Doctor Clarke Says Journalism Offers Bigger Opportunities Than Ministry

Dr. James E. Clarke, one of America's foremost religious leaders, spent several hours in recreation center during his visit at the college, meeting students and discussing with them the subjects which give them the most trouble.

Doctor Clarke seemed especially interested in students of journalism. He is a writer well known in religious circles, having been editor of several religious publications.

"Journalism," said Doctor Clarke, "offers a greater opportunity for real constructive service than the minis-

try. If the sensational scandal sheets could be supplanted by clean news stories and real editorials, every one would be benefited. The journalist who has the aim of public service before him at all times is more apt to be recognized than the vendors of scandal and gossip."

Explains "Psychology of Song"

Prof. P. P. Brainard of the psychology department, gave an address on "The Psychology of Song" at a meeting of the Ladies' Literary league, at Abilene, Thursday. Professor Brainard illustrated his talk with a number of musical selections, and was accompanied by Charles Stratton.

Need a Pulmotor To Revive Sparkie When He Eats Glue

"All that smells good is not digestible," is a truth which "Sparkie," the faithful canine companion of Professor Amos of the typography department, has been made to realize most painfully.

"Sparkie" is a regular habitue of the laboratory and practice room in Kedzie, and as such he has become quite familiar with the different apparatus used in the printing business. However, for once curiosity must have overcome his better judgment, for not long ago Professor Amos found "Sparkie" in the press room in what was apparently the last stage of his eventful life, stretched on the floor by a half emptied pot of glue.

The veterinary department diagnosed his case as strychnine poisoning, and in a short while "Sparkie" was in the hospital, under-

going energetic treatment with a pulmotor. The following day, the little dog was back in Kedzie, apparently unperturbed by his harrowing experience.

Attend Girl Reserve Conference

Miss Lois Wildy and Laureda Thompson went to Emporia Friday to a mid-winter conference of girl reserves. Saturday morning they led group discussions on "A Girl Reserve's Responsibility for Citizenship in Her Community." About 250 delegates were expected. Five delegates went from Manhattan high school with Miss Edith Miller as sponsor.

Jan. 31—Grinnell 25, Aggies 24.
Feb. 2—Drake 24, Aggies 25.
Feb. 3—Ames 20, Aggies 34.
Feb. 6—Aggies 23, Oklahoma 35.
Feb. 9—Aggies 24, Missouri 28.
Feb. 10—Aggies 37, Grinnell 29.
Feb. 13—Nebraska 30, Aggies 20.
Feb. 24—Aggies vs. Kansas at Manhattan.
Feb. 28—Oklahoma vs. Aggies at Norman.
Mar. 3—Washington vs. Aggies at St. Louis.
Mar. 4—Missouri vs. Aggies at Columbia.
Mar. 7—Aggies vs. Washington at Manhattan.

Tonight the second act of a very thrilling drama entitled "Kansas Aggie-University of Kansas Basketball Competition for 1925" will be staged in Nichols gymnasium here under the management of Charles W. Corsaut for the Aggies and Dr. F. C. Allen for K. U. The first act of the play ended quite melodramatically and altogether surprisingly with the Aggies leading 40 to 28 and Kansas giving vent to the traditional "Curse you, Charles Corsaut, you stole my child," said child being a well developed jinx.

All Seats Are Sold
A very large and highly enthusiastic audience has indicated its intention to be present by purchasing all the 2,700 reserved seats in Nichols gymnasium prior to last Saturday afternoon. Indications today were that standing room would be entirely inadequate to handle the crowd, which promises to break the attendance records of some 3,400 set at an Aggie-Missouri game a few seasons ago. Nearly 3,000 persons paid to see the Drake-Aggie game last month, the largest crowd of this season.

President W. M. Jardine will be guest of honor at the game, his last as an Aggie fan prior to taking up his duties as secretary of agriculture. Notables from all over the middle west who arrived in Manhattan today for the farewell banquet tomorrow night also will attend. Manhattan has always been one of the best basketball towns in the conference, and tonight's game will strengthen that record.

An Aggie victory tonight will throw Kansas into a tie for first place in the valley with Washington university, of St. Louis. Washington has lost two games so far, one to Kansas and one to Oklahoma, but Piker stock took somewhat of a jump recently when the team defeated Nebraska. On the face of season records, Kansas has a decided advantage in prospects for tonight's game. Kansas has defeated Nebraska twice, and Missouri and Oklahoma once, all three teams having defeated the Aggies. On the other hand Missouri, Drake, Grinnell, and Washington held the Jayhawk to close scores.

Both Teams Formidable
Barring the possible illness with colds of Schmidt and Ackerman of Kansas, both teams present the most formidable line-ups of the season. Art Doolen, Aggie captain, has practically recovered from a recent attack of "flu."

Playing with the Kansas squad are two former members of Coach Cor-

saut's championship high school team of two years ago, Harold Schmidt, forward, and Harold Zuber, substitute center and forward. Schmidt is one of the most aggressive men in the valley.

Since the first meeting of the two teams last month, Kansas has been strengthened by the eligibility of Schmidt, and the Aggies by the return of Tebow to the game. With Tebow in center and Byers and Bunker at forward, the Aggies present the strongest scoring line-up of any time during the year.

Both Doctor Allen and Coach Corsaut are expected to introduce different types of play into the game tonight from those used in the first Aggie-Kansas game of the year.

"Tus" Ackerman, captain of the Kansas team and one of the best basketball players in the middle west, will show his wares tonight, playing forward with Schmidt. Peterson, a former Argentine man, will play center, and Dale Gordon, formerly of Westport, Kansas City, is expected to start at guard with Belgard, a letter man.

The Aggies will start the "old reliable" line-up with Bunker and Byers at forwards, Tebow, center, and Koch and Doolen, guards. H. M. Weddle, Lindsborg, probably will be the first of the reserve list to go in, as he is capable of filling any position. Huey and Strickensfinger, forwards, also may get in.

Quigley Will Officiate

As in the first game, Kansas has a decided advantage. They will be playing for the valley leadership, and should not be overconfident. But again the Aggies are playing with "everything to gain and nothing to lose." Pick your team.

E. C. Quigley of St. Marys will officiate.

The game will be broadcast from Station KSAC, the college radio station, wave length 355 meters.

The probable starting line-up:

Kansas	Post	Aggies
Schmidt	f	Bunker
Ackerman	f	Byers
Peterson	c	Tebow
Belgard	g	Doolen
Gordon	g	Koch

SEVEN RUNNERS TO ENTER INDOOR RELAYS AT URBANA

Bachman Picks Team This Week
from Squad of 13 Men—
Enter Three Races

Coach Bachman has entered the names of 13 men in the University of Illinois indoor relays which will be held at Urbana, Saturday night. About seven of these men will make the trip to Urbana. The ones to go will be decided in the final tryouts this week.

Kansas State is entered in three relays, the two mile, the four mile and the medley but only two of these will be run, according to Coach Bachman. Whether they will be the

two mile and four mile, the two mile and medley, or the four mile and medley will depend on the showing made in the tryouts.

In order to run the two races with only seven men, one of the men will have to run twice. This man probably will be Kimpfort.

The entries in the two mile relay are Ralph Kimpfort, Norton; E. E. Coleman, Alma; Paul Axtell, Argonia; A. I. Balzer, Inman; M. L. Sallee, Long Island; and Emil von Riesen, Marysville. Entries in the four mile relay are the same except for Coleman, who is a half miler rather than a miler. In the mile relay the entries are Kenneth Knouse, Valley Falls, captain of the track team; H. E. Brockway, Olathe, Harvey Russell, Topeka; L. L. Davis, Effingham; Emil von Riesen, Marysville; Paul Axtell, Argonia, and Ralph Kimpfort, Norton.

POULTRY SPECIALIST HERE INVESTIGATING NEW DISEASE

California Investigator Confers with
Eminent Aggie Bacteriologists

Dr. J. R. Beach, who is in charge of the poultry disease investigation work at the University of California, visited the poultry department of the Kansas State Agricultural college on February 16 and 17.

A disease, similar to the infectious bronchitis common to this part of the country during the fall and winter, broke out among the poultry in California quite recently. As a result of this outbreak in California Doctor Beach is on his way east to investigate the disease there which caused the embargo.

The European fowl pest, much more serious than the infectious bronchitis, has recently appeared in the east-central part of Indiana. Nine counties have been quarantined and \$50,000 appropriated by the state to combat the disease. Doctor Beach intends to visit this section of Indiana as well as sections of New Jersey and on Long Island where they had outbreaks of the European fowl pest early in the winter.

Doctor Beach visited the college here to interview Dr. L. D. Bushnell and Dr. W. R. Hinshaw, both of the bacteriology department, because of the work they did in combating the disease in Kansas last fall. Doctor Hinshaw was the first to discover the disease in a local packing house last August.

Karl Wilson, '24, of Concordia enrolled at K. S. A. C. for graduate work at the beginning of the second semester.

Marie Helen Lamson, '24, and Francis H. Buddemeyer were married at the home of the bride's parents in Paola, on December 25, 1924. Mr. and Mrs. Buddemeyer are at home at 749 Tyler street, Gary, Ind. Mr. Buddemeyer is engaged in the lumber business in Gary.

L. R. Allott, '23, is addressed at 513 Roseberry avenue, Huntington Park, Cal.

Ice Cream Selling Booms When Guests Find Sales Counter

The last three days of Farm and Home week were a picnic. The visitors were, for the most part, three days discovering that ice cream is sold "on the grounds." But after one of the farm visitors did find the dairy sales counter, a rush resembling that of 1849 ensued.

And Walter Lantz, the manager of the dairy sales counter had the brunt of the rush to bear. The chief business of the counter is selling half pint dishes of ice cream for 10 cents. That explains about everything because as long as one of the visiting farm boys was possessed of a dime he must have another big dish of ice cream. That was surely one place where he got his money's worth.

"Under normal school conditions we sell about 32 quarts of ice cream a day, but during Farm and Home week we sold an average of 100 quarts a day and one day the visitors bought 126 quarts," stated Mr. Lantz. He added further that during Farm and Home week 600 persons were sold dishes of ice cream in one day as contrasted with about 100 or 125 on a normal day.

JOURNALISM AS PROFESSION HAS DEVELOPED RECENTLY

New Trends in Instruction Discussed
by Prof. Izil Polson

"The question is no longer, 'Shall there be schools of journalism?' but, 'How can courses in such schools be bettered?'" said Miss Izil Polson, assistant professor of industrial journalism, speaking Thursday on "Trends in the Teaching of Journalism."

"Professions are distinguished from trades," Miss Polson said, quoting Professor Miller of the law school at the University of Minnesota, "in that those who enter the latter do so from financial considerations only, while those who enter the former do so from the desire to render service."

"One of the difficulties in teaching journalism is that it is not an exact science. Success in journalism lies in writing something different."

"In the teaching of journalism as a profession, instructors must have a professional attitude, the courses offered must have vitality, thorough knowledge in the field to be covered must be given to the student, and

the progress in instruction must be predictive of greater service in the future.

"Statistics gathered from important journalism schools over the country show a tendency toward a balancing of the technical and cultural courses. There is a tendency also to emphasize courses of an ethical and philosophical nature."

"It is only in the last 20 years that the idea of journalism as a profession has been accepted by the public and, more especially, by the press. Now that journalism has become professionalized intelligent thought must be given to its future."

EXPERIMENTERS TELL OF NEW DEVELOPMENTS IN RESEARCH

Ackert, Hughes, Parker Outline for
Bankers Scientific Developments

New developments in work of the Kansas experiment station were discussed by three members of the staff—Dr. J. E. Ackert, zoologist, Dr. J. S. Hughes, chemist, and Prof. J. H. Parker, cereal crop investigator—at the meeting of the state bankers in recreation center Thursday of Farm and Home week.

Dr. Ackert pointed out to the visitors the economic importance of parasitic worms to the livestock industry. He stated that 50 per cent of the chickens of Kansas are infested with parasitic worms, and that large numbers of swine and sheep likewise are affected. He explained the work being carried on to develop methods of controlling these parasites.

Doctor Hughes outlined the work with ultra-violet light which is being carried on in several experiments. As an example of the type of work done he explained the experimental methods used in proving that absence of the ultra-violet ray causes rickets in chicks.

"Breeding Better Small Grains for Kansas" was the subject of Professor Parker's talk. He told how new

varieties are developed and pointed to Kanred wheat and Kanota oats as examples of the work done by the Kansas experiment station. He stated that Kansas ranks sixth in barley production and told of the experimental work on development of improved barley varieties being done at the Hays and Colby substations of the state experiment station.

Of the Aggie alumni in Kansas, 80 per cent have been interviewed in regard to the Memorial Stadium. Of the 80 per cent interviewed, over 90 per cent have responded with contributions. The results of these contributions are seen in the two complete wings of the stadium which took care of the crowd for the Aggie-K. U. game last fall.

Reed Welmer, '17, with the Armour fertilizer works, has been moved from Chicago to the New York division at 50 Broad street, New York City.

Miss Roberta Owens spent the week-end in Topeka.

NOTED PERSONS HONOR PREXY

OVER A THOUSAND PERSONS AT FAREWELL BANQUET

Express Pride and Confidence in Doctor Jardine—Aggies Over Country Listen In

Over one thousand people, including the largest number of distinguished visitors ever gathered together in Manhattan, attended the farewell banquet given in honor of President William M. Jardine, newly appointed secretary of agriculture, in Nichols gymnasium Wednesday night. Hundreds more were turned away for lack of accommodations.

Presidents and chancellors of a dozen colleges and universities in Kansas and other middle western states, prominent officials of Kansas, stockmen, farmers, business men, and educators were here to pay tribute to Doctor Jardine and bid him farewell.

A notable list of distinguished speakers expressed the confidence of the people of Kansas in Doctor Jardine's fitness for the position which he enters upon the fourth day of March.

Doctor Hill Is Toastmaster

Dr. Howard T. Hill, head of the department of public speaking, acted as toastmaster. The program following the banquet was started by group singing led by Chester Guthrie.

A. B. Carney, vice-chairman of the state board of administration, was the first speaker of the evening. In his talk on "Kansas' First Cabinet Member," Mr. Carney expressed the hope that we would not have to wait another 64 years—the time we have now waited for representation in the cabinet—for another such honor.

"Kansas with one sixty-fourth of the population of the United States, is one-fifth among all the states of the union in agricultural products and rightfully contributes a secretary of agriculture to the union. He will not be a sectional leader, however. In his work as head of the Kansas State Agricultural college, he has never shown more preference to one part of the state than to another, and will be non-sectional in his administration as secretary of agriculture."

Fred Trigg, of the editorial force of the Kansas City Star and Times, spoke on "The Kansas State Agricultural College, a Servant of Kansas." He stated that the magnificent progress of Kansas as an agricultural state was due, in large measure, to the service rendered the farmers by the agricultural college. "I have attended many farewell occasions for Kansans, but never before in all my life have I seen such a demonstration of pride and good will toward a man as I have seen this afternoon and this evening, toward Jardine."

Volland Brings Governor's Message
The good wishes and farewell of Governor Paulen were conveyed to Doctor Jardine by Fred Volland, of Topeka. He said that a man cannot select his birthplace, but he can choose the state where he would live and serve humanity. Jardine chose Kansas and has given much to the state of his choice.

"A million and a half Kansans tonight wish you farewell and God-speed and it is my pleasure to express, on the behalf of the governor, this sentiment of good will and pride in your selection and achievements," Mr. Volland said.

Dr. J. T. Willard, vice-president of the college, and dean of the division of general science, gave a short resume of the work of the five presidents of the college with whom he was intimately acquainted.

Dean F. D. Farrell, of the division of agriculture, and acting president succeeding Jardine, chose as his subject, "Our Administrative Superior." He spoke of the cooperation that Jardine has always given the faculty and experiment stations. "Jardine has always been in such relation to his subordinates," he said, "that he seemed a superior only in administrative duty and not in his fellowship with his associates."

The feeling of the alumni was expressed by Mrs. Daisy Hoffman Johnst, who spoke on "Jardine and the Alumni." She stated that President Jardine had encouraged the interest and cooperation of the alumni of the college.

Jardine Announces His Plans

Doctor Jardine plainly showed his emotion and feeling as a result of his preparation for leaving his friends. At the banquet, as in the afternoon meeting, he expressed his appreciation and thanks for the cooperation he has always received as head of the college. His address was the first announcement made since his appointment, of his ideas

and plans concerning his work as secretary of agriculture.

Dr. Henry J. Waters, former president of the college and now editor of the Weekly Kansas City Star, made a few remarks by special request.

The banquet, which was one of the largest ever served in Nichols gymnasium, was under the direction of the household management department of the home economics division, under Dean Justin and Mrs. Englund. Miss Mina Bates and Miss Elma Stewart had direct charge. Temporary kitchen equipment was installed in the gym in order to keep the food warm after it was brought over from the cafeteria, where it was prepared.

The gym was beautifully decorated with flags arranged around the circular railing above the banquet floor. Eighteen long tables, each seating 60 persons, completely filled the room. A huge American flag hung directly above the speakers' table which was elevated, and the loud speakers had been installed for the occasion. Prof. Arthur Helder, of the landscape gardening department, and Walter Balch, of the horticultural department, had charge of the decorations.

The college orchestra, under the direction of Prof. Harold Wheeler, furnished music.

Many Distinguished Guests

Those at the speakers' table, in addition to those on the program were: Mrs. Jardine; J. R. Burrow, president of the National Trust Co. of Topeka; W. J. Bailey, president of the Federal Reserve Bank Co., and former governor of Kansas; Pres. W. A. Lewis, president of Hays State Teachers college; Dean Burnett, dean of agriculture, University of Nebraska; and head of Nebraska agricultural experiment station; President Lory, president of the Colorado Agricultural college; President Knapp, president of the Oklahoma Agricultural and Mechanical college; Mr. Johnst; Mrs. A. B. Carney; Mrs. F. D. Farrell; Mrs. J. T. Willard; Mrs. S. A. Bardwell; Dr. W. F. Slade, of Manhattan; Clyde Miller, private secretary to Governor Paulen; President Butcher, of the Kansas State Teachers college at Emporia; J. B. Case, of Kansas City; and Charles Case, of Atchison.

The farewell banquet was sponsored by the Manhattan chamber of commerce. Ed Ames was the general manager. More than 150 people, including members of the chamber of commerce and K. S. A. C. faculty, were on committees that worked for the success of the occasion.

TO ELECT Y. W. C. A. OFFICERS

Nominations Announced and March 10 Set as Date

Election of officers for the Y. W. C. A. is to be held on March 10. The nominations are: President, Dorothy Rosebrough; Katherine Welker; vice-president, Genevieve Tracy; Ruth Faulconer; treasurer, Trena Olson; Esther Babcock; secretary, Margaret Burtis; Mary Frances White; undergraduate representative, Miriam Dexter; Mildred Leech. The members of the nominating committee were Evelyn Colburn, chairman, Miss Stella Harris; Miss Lois Wildy, Ruth Bachelder, Genevieve Tracy, Lois Richardson, Marie Insley. All members of the Y. W. C. A. have the privilege of a vote. The date for installation has not been made definitely, but it will be held some time in April. The annual house party will be held March 28 and 29.

ORATORICAL TRYOUTS MONDAY

First Missouri Valley Contest to Be Held March 20

Tryouts for the annual Missouri valley oratorical contest will be held next Monday afternoon, March 2, at 4 o'clock in recreation center. For the benefit of those who may have classes until 5 o'clock, the judges will remain until that time. The subject matter is unlimited and any subject upon which the student may wish to talk for five minutes will meet the approval of the public speaking department.

The final contest, in which all schools of the Missouri valley will take part, will be held at Washington university, St. Louis, on March 20. For the past four years K. S. A. C. has stood at the top, having won first place in the final decision.

AGGIES ATTEND SEND-OFF

The entire student body will go to the Union Pacific station tomorrow at 1:17 o'clock to say "good-bye" to Prexy. The band will lead the parade and a body-guard of cadet officers will accompany Prexy's car.

PRATT LEAVING COLLEGE IN MAY

HEAD OF MUSIC DEPARTMENT ANNOUNCES RESIGNATION

Will Teach and Do Concert Work in Chicago—Department Has Grown Under His Administration

Prof. Ira Pratt, head of the department of music for the past four years, has announced his resignation to take effect at the end of the present school year.

Professor Pratt stated that he will work with Mrs. W. S. Bracken, teacher of voice in the Cosmopolitan School of Music in Chicago. Besides the instruction in voice that he will give there, he will do concert work in Chicago and the middle west. Mrs. Bracken is a former teacher with whom he has had a musical connection for the past 20 years.

Coming to Kansas in 1921, Professor Pratt succeeded Prof. Arthur Westbrook as head of the K. S. A. C. music department. Prior to that time he held a similar position at Simpson college, Indianola, Iowa, and previous to that, at DePauw university, Greencastle, Indiana.

Music Department Has Grown

Under the direction of Professor Pratt the department of music has grown considerably, with a steady increase in enrollment in music courses, and a consequent increase in numbers in the teaching staff. An important development in the department has been the creation of a four-year music course, offering a degree of bachelor of science.

The production of three notable music festivals and of four artist series programs is also to the credit of Professor Pratt. The fourth festival planned and arranged by him will be given this spring. He has endeavored since coming here to put both the festival and artist series programs on a sound basis financially, and to make them community projects. Through personal effort he has succeeded by placing the business management of the festival in the hands of a committee of college and Manhattan representatives. Hereafter the committee will have charge of the management of the artist series as well, making both projects purely community affairs. During the past year Professor Pratt has been president of the Kansas Association of Teachers of Music.

Jardine Expresses Regret

An expression of regret at the departure of Professor Pratt was made in a statement by President Jardine: "We are very sorry to see Professor Pratt leave the college. It will be difficult to find another man who can fill his place satisfactorily. He has done both the music department and the college a great deal of good in his four years here and the school is losing a valuable man. With the broader opportunity which is offered him in his work in Chicago, however, there is nothing to do but to wish him the best of success in his new work."

WILL INTERVIEW STUDENTS

Student Volunteer Secretary Will Advise in Choice of Vocation

Miss Gertrude Swallen, traveling secretary for the Student Volunteer movement, will visit this campus March 8 and 9. Sunday evening she will speak at the Methodist Epworth league service. Monday she will have interviews with men and women who are interested in life work in foreign fields or in choice of a vocation. Miss Swallen is a graduate of the College of Wooster. She spent the last three years in special training and teaching, planning to return to Korea, the country of her birth.

CAUSED THREE UPHEAVALS

John Dewey Has Revolutionized Educational Philosophy

"During the past four decades Dewey has been the cause of at least three upheavals in American academic thought," stated Prof. J. O. Faulkner in his talk on John Dewey given Tuesday afternoon, February 24. "More especially as this thought has concerned educational philosophy."

"At the University of Michigan Doctor Dewey started students in the direction of scientific method in psychology. While at the University of Chicago he lashed the old idea of formal discipline in education, and in his experimental school surrounded the children with interests that were life interests, and activities that were life activities. At Columbia university he has become the leader of the American school of philosophy-pragmatism."

"Doctor Dewey's life work has been devoted to the study of how peo-

ple think and how their thoughts become effective. In its larger social implications Doctor Dewey's philosophy has been a criticism of the machinery of our world of right and wrong, law and order, property and religion."

Among Doctor Dewey's best known works are "School and Society," "How We Think," "Democracy and Education," and "Human Nature and Conduct."

Student Shows Model Home

Ralph Ricklefs, a junior in landscape gardening, went to Parsons this week to exhibit his model country home for the Better Homes campaign which is being held there. Mr. Ricklefs' model has taken several prizes.

PREXY TALKS AT LAST ASSEMBLY

SAYS BEST YEARS OF LIFE WERE SPENT AT K. S. A. C.

Dr. H. J. Waters and Henry J. Allen Also Speak—Sincere Feeling Shown at Farewell Assembly

"I'll put everything I have into the job and I'll do the best I can to retain your respect," was Dr. W. M. Jardine's farewell promise to a large, sympathetic, and attentive audience in assembly, Wednesday afternoon.

Doctor Jardine spoke slowly, telling of his and the Jardine family's sorrow at leaving Manhattan where he had "spent the best 15 years of his life." He told of his appreciation of the tributes given him since his appointment as secretary of agriculture. Doctor Jardine paid a tribute to Dr. Henry Jackson Waters, his predecessor as president of K. S. A. C., who presided at the assembly. The faculty of the college was commended for the unfailing assistance and cooperation rendered to the president.

"I must have been born lucky. I married a fine girl," Doctor Jardine said in referring to his success, "and I've always had a lot of friends who helped me."

Jardine Is True Kansan

Doctor Jardine said that he felt himself a true Kansan and he anticipated loneliness in Washington among new people and conditions. He warned the audience that he would probably be criticized, but said, "I shall try not to fail my friends." Dr. Henry Jackson Waters, formerly president of the college and now editor of the Weekly Kansas City Star, presided at the assembly which began at 3 o'clock. The entire proceedings were broadcast by radio. The program began with a selection by the college band and an invocation delivered by the Reverend George H. Parkinson of the First Methodist church.

After the singing of "America" led by Prof. Ira Pratt, Doctor Waters introduced Clyde Miller, secretary to the governor, who read a message from Governor Ben Paulen congratulating Doctor Jardine on his appointment and expressing the confidence of Kansas people in his ability.

Allen Does "Difficult Job"

Henry J. Allen, editor of the Wichita Beacon, who was governor of the state at the time of Doctor Jardine's selection for the presidency of K. S. A. C., was the next speaker. He characterized his speech as, "a very difficult job—to tell Doctor Jardine how sorry we are that he is leaving and how glad we are that he has a new job."

"I've never known Doctor Jardine to accomplish a thing as I asked him to accomplish it," declared Allen. "It was always better." He characterized the new secretary of agriculture as one who made himself always unselfishly useful. Discussing farm conditions, Allen pointed out Jardine's preparation for and knowledge of the requirements of the new position.

"We will have a man in the office who realizes what success in agriculture means," Allen said. "His leadership will be simple, constructive, and not a search for legislation. It will be marked by common sense."

Kansans Give Absolute Confidence

In concluding his talk, Allen said, "We send our love, our congratulations, and our absolute confidence in his capacity to do the work of the office."

Doctor Waters spoke briefly following the singing of "Alma Mater." He commended Doctor Jardine's common sense views on farm problems and predicted success for the new secretary in Washington.

Doctor Jardine received an ovation of handclapping when he rose to speak and the auditorium was very quiet as he gave his farewell assembly talk.

"Why Are We So Popular?" Wail the Overworked Rookies

"Well, I'd like to know how he expects us to get anything to eat if we have to get up here at that time," wailed one freshman when Major Pierce announced that all military students should report Wednesday noon at 12:45 to prepare for the program in President Jardine's honor.

"It's bad enough to have to wear that old apology for a suit once a week, but I balk at this."

"I'm blamed if I'll miss my lunch for anybody. Prexy doesn't give a hang about seeing us parade around, anyway. He'd probably rather—"

"Huh? Oh, yes sir, captain."

"No, sir."

"Yes, sir."

"Whew, that was a close call. You just bet I'll be in line with my little old gun at 12:44 Wednesday noon. I can't have any more demerits."

WOMEN WIN LAST DEBATE BY A 2 TO 1 DECISION

Close Victorious Season at Emporia Wednesday—Men's Season Begins Monday at Hays

The women's debate team won its last debate of the season, which was held with Kansas State Teachers' college at Emporia, Wednesday night, by a 2 to 1 decision.

The question for debate was, "Resolved: That congress should have power to override, by a two-thirds vote, decisions of the supreme court holding acts of congress unconstitutional." The following girls, accompanied by their coach, Prof. H. B. Summers, made the trip: Inez Howard, Burdett; Mary Marlene Kimball, Manhattan; and Helen Correll, Manhattan.

The season for the men's debate team will open Monday with a debate by freshmen with a team of the Hays State Teachers' college at Hays. Frank Glick, Junction City; and Emil Sunley, Paola; will compose the team which will debate Monday.

Wednesday the Missouri valley debates begin with a debate with the University of South Dakota at Vermillion. The second debate will be held Friday with Drake university at Des Moines. The team which will go to South Dakota probably will be made up of the following men: Raymond H. Davis, Empingham; and Cecil Walt, Gove. Forrest Whan, Manhattan; Emil Sunley, Paola; and Robert Hedberg, Kansas City, probably will make the trip to Drake.

SCHMIDT OFFERS PRIZE AGAIN

Architects at K. U. and K. S. A. C. Eligible in Lettering Contest

Lorentz Schmidt, Wichita architect, offers a competition in lettering to all regularly enrolled students in the architectural department of the University of Kansas and the Kansas State Agricultural college.

The drawing submitted by each student is to be the outline of a first floor plan for a small residence, and will be judged on the following points: lettering, composition, and neatness.

Drawings shall be in possession of the head of the department in each school not later than 6 o'clock, April 5, 1925.

Three prizes will be awarded: first prize, \$10; second prize, \$7; third prize, \$5. Besides the prizes four mentions will be given.

This is the third year Mr. Schmidt has offered the lettering prize to the two schools. The first year K. U. won the first three prizes and K. S. A. C. won the four mentions. Last year K. S. A. C. won all seven places. Harold Souders won first place.

JARDINE STATES PUBLIC POLICIES

FARMER MUST HELP HIMSELF SAYS PREXY

Economic Stability Cannot Be Secured by Law Making Alone, New Secretary of Agriculture Says

In his speech at the farewell banquet, Wednesday evening, Dr. William M. Jardine made the first public statement of his ideas and policies since receiving the appointment as secretary of agriculture. He emphasized the fact that the farmer will have to help himself out of the agricultural depression and that no amount of law making can bring economic stability without the cooperation of the farmer.

His speech follows:

Is Not Saying "Good-bye"

"While I am about to leave for a new field of work which will take me away from this state, in which I spent 15 happy years, I am not saying good-bye to Kansas or to Kansans. This state has been the seat of most of whatever constructive work I have so far accomplished in my life. Its problems, especially in agriculture and education, have been my problems. Its institutions are the institutions to which I have given my mind and heart. Its people are my people. Kansas will always be in a peculiar way my state; it will be constantly dear to me, and in its welfare I shall ever take the deepest interest. I am retaining my citizenship in Kansas, and in the responsibilities of my new position I shall feel particularly proud that I belong to Kansas."

"In addressing you I am addressing in large measure men and women with whom I have been acquainted for years, the years which have been most productive in my life and, I have no doubt, in most cases the most productive in your lives also. We have worked together, we have counseled together, we have grown together. What betterment has come to the Kansas State Agricultural college during my connection with it, what betterment to agriculture, what betterment to rural life, what betterment to industry, what betterment to education, have grown out of the services of the college, I do not claim as my contributions. Without your interest, your cooperation, your friendship, and back of them the interest, the cooperation, and the friendship of the whole state of Kansas, the efforts of any man at the head of any state educational institution would be impotent. Only in union, in cooperation, is there strength."

Acknowledges Cooperation

"In looking back over the 15 years during which I have been connected with the agricultural college, I see as the central fact of this period the cooperation of which I have just been speaking. It has been given to me without stint, and I trust that I have been in nowise remiss in giving it in turn. The governors of Kansas; the legislatures; the several boards of regents and boards of administration; Dr. Henry Jackson Waters, for years the distinguished president of this institution; the faculty, the alumni, and the students of the college; the various agricultural, industrial, educational, and civic organizations of the state; the citizens of Manhattan, and above all, the plain, substantial, education-loving people of Kansas, have been back of every movement for the best interests of the college and the things for which the college stands. They have stood firmly behind the college in its demand that the farm boys and girls of Kansas shall receive not only the best technical, the best vocational training, that can be given, but also the training that will make them intelligent citizens, appreciating the best in the arts, understanding the significance of political and economic movements articulate in expressing their views, possessing, in short, the qualities of leadership in which every community, every state, every nation stands in constant need."

"For all this I am profoundly grateful to you, my neighbors, my colleagues, my friends, my fellow-Kansans. I am naturally grateful personally for these things; you have made my task lighter and my work happier. I am aware, however, that your cooperation was not given to me primarily but to the college and what it represents, and this is a much finer thing than any cooperation extended merely to an individual. It means that you are sincerely, vitally interested in the welfare of agriculture, in the welfare of education, in the welfare of everything connected with these two great, significant interests of our state."

"It is hardly necessary for me to (Concluded on Page 3, Col. 2)

FRIDAY, FEBRUARY 27, 1925

"PARTWAY" LEGISLATION

The faculty council on student affairs and the S. S. G. A. have recently passed a resolution which "black-balls" a member of an orchestra if he is caught drinking or possessing liquor while playing at a college dance. This legislation was passed in the effort to alleviate the drinking problem at K. S. A. C.

Any ruling that will help in solving this problem, if it is a problem, is worth while. But a law such as the one passed is only a partial and unfair step towards solution. It is partial because it affects only the musicians and not the dance crowd in general. It is unfair because it insinuates against the character of the men who make up the orchestras.

If all the drinking at college dances was confined to members of the orchestras such a ruling would be sufficient. But the men who furnish the musical entertainment for dances form only a small percentage of the total number of persons in attendance, and they are not the principal offenders. There are more students in the general crowd who drink while attending dances than there are members in the entire orchestra. It is obviously unfair to the orchestra members and only a partial step towards solution of the problem, if they are the only ones disciplined. The law should read, if it would be both complete and fair, that any participant in a college dance who is found drinking or possessing liquor shall be barred from further attendance at such dances in the future.

There are, undoubtedly, some members of the various orchestras that cater to college dance trade who have been drinking at dances. These men should be punished, the penalty involved in the recent ruling being justly deserved. But it is wrong to entirely neglect the general dance crowd when making laws to correct these conditions. A man who plays in an orchestra in order to earn part of his living expenses should not receive a greater penalty than anyone else for infraction of the same rules.

Isn't it nice that the business manager of the Royal Purple is a man rather than one of the other kind? Now, the secret of the beauty contest can be kept safely.

And now the burning question arises. Are all women alike? Inclination says yes, imagination says yes, but reason says no. Some one with experience please inform.

CONFIDENCE

Represents the trust that most men place in the store that serves them; in relying on their word that the clothes will wear as represented. That the material is worthy of the best tailoring. That is why we insist that our own personal guarantee is double assurance of quality. Year after year friends buy at this store purely on confidence.

Elliot Clothing Store

Hart Schaffner and Marx Clothes

Observation shows that all instructors believe their subject to be the most important on the hill. Statistics prove that none of them are worth a whoop. (Our statistics).

Harry raves and raves over his latest objective. She is quite a queen so he tells us. And at least 20 years ahead of the times. We took one look at her and agree. Possibly she is fatter than that.

After looking over the latest Brown Bull we come to the conclusion that the girls should not be permitted to buy it. It is not good for them. It really wasn't very good anyway, girls.

Now, that really ought to sell several hundred of the things.

The engineers think that they are the most important group on the hill because they run the school. The Ags declare that they are, for the simple reason that the school is named for them. The general science bunch unanimously agree that they are the essential crowd. The rural commerce group doesn't think, and the home ecs don't enter into the discussion.

The most important group is, however,—but then, we are modest.

With the five weeks' quizzes out of the way there is nothing left to worry about for the time being with the exception of how to keep the women under the same control. They are getting wild and restless.

When the student assemblage is very talkative the speaker may rest assured that his audience is interested and wishes him to continue. Absolute quiet is a sure sign that all are bored.

It won't be long now till everyone who has a uke or a banjo will be out in the open displaying his wonderful lack of talent.

On Other Hills

Richard Barthelmess, famous screen actor, will act as the judge for the beauty section of the Purdue university annual.

A fencing class has been organized

at Kansas State Teachers' college.

A course in gas engineering, the first of its kind in the country, is being offered at Johns Hopkins university.

Law students of the University of Michigan are required to try two cases a year; one before a judge, and the other before a jury composed of freshmen.

Women students at Oklahoma A. and M. college who wear corrective school shoes during the spring quarter will receive five per cent credit on their physical education grade.

The University of Ohio has a glee club composed entirely of Chinese students.

French has been taught very successfully at Chicago university for the last few years with the aid of phonograph records.

An attempt is being made at the University of North Dakota to abolish the rule prohibiting smoking on the campus.

Special diet tables for overweight girls are provided at Oregon university dormitories.

Four hundred twenty thousand feet, or approximately 70 miles of motion picture film are now in the visual instruction library of Washington State college.

Intersorority bowling has been introduced at Michigan Agricultural college.

Afternoon classes are being resumed at Princeton university. It has been 20 years since any afternoon classes were held at the university.

POINTS OUT CHALLENGE

Student Is Not Required to Accept, Says James E. Clarke

"The educated youth of today stands face to face with the enormous challenge of life," said Dr. James E. Clarke in his talk at chapel Tuesday morning, on the subject, "Life's Challenge to Youth." "Youth does not have to accept the challenge. No draft law prevails. He has the opportunity to see and the capacity to do, but does he have the

courage to accept it? Life's challenge to you is the challenge of the present world situation to live up to the best that is in you, to do life's fundamental tasks, and to do work that endures."

In closing Doctor Clarke said, "The world cries, 'Live for Self,' but Christ pleads, 'Live for service.'"

BANQUET NOTES
Fred Shideler

Dr. Howard T. Hill, toastmaster of the banquet, retained his record of telling a story on Mike Ahearn every time he makes a public appearance, even though Mike was confined to his bed with some torn ligaments in his leg. Doctor Hill explained that Mike was injured while explaining to a class in physical education, the safety of modern athletics.

A wonderful tribute was paid to Dean J. T. Willard, when he was presented to the crowd by the toastmaster. The applause of more than 1,000 banqueters lasted for several minutes.

President Jardine's mania for facts was well brought out by the newly appointed president, Dean F. D. Farrell. During the early days of Jardine's administration, he received a letter from a housewife on a Kansas farm stating that her chickens would get up in the morning, go out into the yard, and lie down, never to arise again. What was the trouble? Prexy called in the head of the poultry department and instructed him to answer the letter. "But," said the poultry head, "what is there to answer?" "Give her the facts," replied Prexy. The professor retired, and gave the facts to the lady as follows: "The chickens are dead."

Mrs. Jardine and the children, Bill, Marion, and Ruth, were presented to the crowd by Doctor Hill.

sented to the crowd by Doctor Hill.

S. A. Bardwell, secretary of the Manhattan chamber of commerce, unintentionally added a couple of activities to those classed as "civic," which caused quite a little mirth. In praising President Jardine as a citizen, Mr. Bardwell stated that he had come in contact with him personally on fishing trips, while playing golf, as a member of the Rotary club, as a member of the chamber of commerce, and "other civic activities"—and that he knew Jardine to be a good citizen and hard worker.

Fred Trigg, veteran correspondent for the Kansas City Star, made an excellent talk praising the work of the Kansas State Agricultural college. He stated that he refused to rejoice in the appointment of President Jardine to the cabinet because it means his departure from Kansas. He does rejoice, however, in the honor that has come to Jardine, to the school, and to the state.

Addresses Topeka Trade Board

Prof. R. M. Green of the department of agricultural economics, drove to Topeka on Tuesday, February 24, to attend the regular monthly meeting and banquet of the Topeka board of trade. Professor Green was one of the speakers of the evening and addressed the group

on "Some Fundamental Factors Affecting Wheat Price Trends." The meeting was held at the Hotel Kansas and was attended by about 25 grain men and millers.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

SOCIAL CALENDAR

Friday, February 27

Senior women's Pan-Hellenic, Community house.

Beta Theta Pi pig dinner dance, Gillett and Elks.

Kappa Phi Alpha dinner dance, chapter house.

Saturday, February 28

Alpha Theta Chi open house.

Phi Kappa Alpha held initiation Sunday morning for: Guy Allen, Norton; William Floyd and Paul Chapell, Manhattan; Morris Coman, Emporia; Howard Banta, Oberlin; Eugene Irwin, Le Roy; and Vernon Knapp, Salina.

Guests at the Phi Delta Theta house Tuesday were: Herbert Proudfer, Harold Schmidt, and William Barrett of Lawrence, and Ben Bond and Robert Carr of Junction City.

Mr. and Mrs. John Kimball, Jr., and four daughters were dinner guests at the Alpha Theta Chi house Sunday.

Triangular fraternity announces the pledging of Harold H. Peal of Augusta.

Dinner guests at the Triangular house, Sunday were James Nuttle, El Dorado, and Corwin Hutton, Washington.

Lambda Chi Alpha announces the pledging of Roderick Grubb, Kansas, and Marion Davis, Solomon.

Miss Mina Bates and Miss Martha Kramer gave a formal dinner party, Saturday night, in honor of Miss Katherine Hudson and Mr. W. B. Balch, whose engagement was announced recently. The dinner, which was served at the Open Door tea room, was followed by bridge at the home of Miss Bates and Miss Kramer, and dancing at the home of Prof. and Mrs. H. W. Davis. High prizes for bridge went to Miss Izil Polson and H. W. Davis, and a consolation prize to Miss Elma Stewart. The dinner guests were Mr. and Mrs. H. W. Davis, Mr. and Mrs. C. E. Rogers, Misses Katherine Hudson, Pearle Ruby, Alene Hinn, Florence Clarke, Elma Stewart, Izil Polson, and Messrs. W. B. Balch, W. H. Riddell, Paul Weigel, M. C. Sewell, Morse Salsbury, R. W. Conover, C. W. Matthews, L. C. Williams, J. M. Moore, and Alan Daily.

Miss Mary Polson attended a dance given by the Alpha Delta fraternity of Washburn college, at the Kansas hotel in Topeka last Saturday.

The household economics faculty was entertained at the Ellen Richards lodge, at a Washington luncheon Sunday evening. The girls who entertained were Virginia Reeder, Mable Herr, and Isabel Laughbaum. The guests included Miss Elma Stewart, Miss Margaret Ahlborn, Miss Margaret Justin, Mrs. Lucille Rust, and Mrs. Eric Englund.

The annual banquet of the American Association of University Women was held Monday evening in the art room of the college cafeteria. A four-course dinner was served at four tables.

Dinner guests at the Phi Sigma Kappa house Sunday were Dean Mary P. Van Zile, Miss Beatrice Gates, Prof. N. A. Crawford, and Mr. J. F. Bullard.

Dinner guests at the Pi Beta Phi house Wednesday evening were

James Leonard and Edwin Hutchings.

Miss Florence Heizer, formerly of the English department but now of Washburn college, and Mr. and Mrs. O. D. Grindell of Topeka attended the banquet given for Dr. W. M. Jardine Wednesday evening. While here they were the guests of Dean and Mrs. E. L. Holton.

Among the distinguished newspaper men who were here Wednesday for the farewell banquet and assembly in honor of Doctor Jardine were: M. N. Beeler of the Capper Press, Joe Nickell of the Topeka Capital; George Geiger of the Kansas City Journal-Post; L. B. Mickel of the United Press; Cliff J. Stratton of the Topeka Capital; Mr. Root of the Associated Press at Kansas City; W. C. Simons of the Lawrence Journal-World; O. W. Little of Alma, secretary of the Kansas Press association; W. E. Blackburn, editor of the Herington Sun; Jack Harrison of the Beloit Gazette; and W. A. Bailey of the Kansas City Kansan.

JARDINE STATES PUBLIC POLICIES

(Concluded from Page 1)

bespeak a continuance of this interest and cooperation for my friend, the new acting president of the college, Dean F. D. Farrell. I know that you will give him the same consideration, the same warm support that you have constantly given to me, for he has in his heart, as is recognized by those of you who know him well, the same concern for the permanent welfare of the state that you have. You will find him an intellectual leader, a wise counselor, and sincere friend. I have known him for many years, and his worth has impressed itself upon me more year after year.

"My experience in the agricultural college has fixed me more firmly than ever in my conviction that in cooperation lies the solution of most of our national problems and consequently the permanent betterment of the American nation as a whole. I have seen our college prosper because it was ready always to cooperate with

other agencies in the state and because the men and women in it were always ready to cooperate with each other for the common good of all. I am convinced that, had we been constantly in controversy over this and that, our own welfare would have been retarded and our service to others reduced to practically nothing. I do not mean that one should not take a definite stand on issues. I believe definitely that colleges should assume leadership.

"A Common Interest in America"

"I am confident that some of the improvement registered in agriculture in Kansas in the last two years is due to the fact that the college was willing to take a definite position on agricultural problems and stick to it. If a college will not do that, it may as well close its doors. But I believe that our policies, not only in colleges but for the nation, should be such as will not set class against class, group against group, but will instead set all to working together for the common interest. For I am firmly convinced that in America there is a common interest for all the people.

"We must remember that here in the United States we are most of us business folk. If we are not, we are at least closely connected with business. We do not have a situation in which there is business in the towns and cities and something else on the farms. We have business and business men in the towns and the cities, and we also have business and business men on the farms. Each of these business men needs to improve his business methods. The town man has had longer experience and more help in his business methods than has the farmer. It has been our purpose in the agricultural college, and it will be my purpose in any field of work that I enter, to help the farmer in this direction.

Land Must Produce Bigger Income

"The farmer cannot improve his business methods by means of law, any more than the town man has done, although certain laws are useful. Land values are high today, as compared with what they were 20 years ago. If we are going to make a fair interest return on the land, we

have got to do one of three things: lower our standard of living, deflate the value of the land, or make the land produce a larger income. There is no farmer but will see that the last of these is the practical, common-sense thing to do. By producing the right kind, the right quantity, the right quality of farm products, we can obtain a larger net return from every acre of land. Most of this must be done by the individual farmer on his farm.

"The farmer also has a serious marketing problem, however. With six and a half million farms in the United States, it is impossible for each of these to market individually and do it successfully. There must be cooperation, to discover the demand for products from season to season and consequently to give suggestions on what and how must to grow; to get the products to market at the best time; and to get the best prices. This does not mean that the consumer is going to have to pay more for what he eats. He cannot afford to pay much more. It simply means a reduction in the spread between the amount received by the farmer and the amount paid by the consumer.

Stresses Need of Cooperation

"It is not enough, however, for farmers to cooperate with each other. We must have cooperation between city and country, between the business man in town and the business man on the farm. The business man in town must be ready to take an interest in the country, and the business man on the farm must be ready to take an interest in the town. Both must realize that neither one can prosper without the other.

"The farm market is a big market, and the farmer is a good buyer when he has the money to buy with. Impair this market, and you will see industry in the cities and towns decline. Likewise, the farmer wants to see town and city industry prosper.

ous. He wants to see labor employed at good wages. He wants to see profits made. He knows that this means a good, steady market for his products. Neither town, nor country can exist alone; each needs the other. There is no reason why they should oppose each other. There is every reason why they should cooperate for their own benefit and the benefit of the nation. Cooperation is the big thing needed for a permanent agriculture and, what is more, for a permanent American civilization.

"Both because of the present needs of the farmer and because of what the farmer's policies will mean to him and to every American citizen, I enter upon the office of secretary of agriculture with a deep sense of responsibility. Not that I expect my views or my actions to determine what the American farmer will do, but because I am anxious that everything that I do shall contribute to the farmer's permanent betterment and hence, I believe, to the permanent betterment of the United States. I bespeak your interest, your cooperation, your assistance, in this work. I shall need them and I shall value them."

KANSAS CAGERS WIN GREAT GAME

FIRST HALF LEAD KEEPS AGGIE WILDCATS BACK

Too Much Schmidt and Ackerman Is Story of the Jayhawk's Revenge—Score Is 27 to 17

If the Aggies ever held a jinx over Kansas it was broken with ease by the Jayhawk quintet Tuesday night when they handed the Aggies a 27-17 defeat before the largest crowd of the season, estimated at 3,400. The victory was a satisfactory revenge for the Jayhawkers, and the belief that the Aggies held a jinx over them was proven incorrect.

The game was full of the usual rivalry that exists between the two schools and it was not until the last few minutes of play that the Jayhawkers were able to gain an advantage that made a win for the Aggies out of reach, if a rally had been executed.

Kansas Defense Powerful

The Kansas defense was powerful, with Belgard and Wilkin holding the two Aggie forwards to four points each, which is a decided difference from the total scored by Bunker and Byers in the first contest of the season. To the two Kansas forwards, Ackerman and Schmidt, goes the credit for making the majority of the Jayhawk points, the tow-headed Jayhawk captain making 10 points, six of which came via the free throw route. Schmidt, a comparatively new man in the line-up showed some of the best aggressiveness ever witnessed on the Aggie court, seeming completely to puzzle the Aggie guards at times with his choppy dribble. Schmidt scored eight points. During the first half the Jayhawkers were able to pile up a lead that presaged the outcome. At the end of the first half the Allen squad held a nine point lead over the Aggies, the score standing 18 to 9.

Scoring Even in Second Half

After brief instruction from Corsaut, the Aggies returned to the floor for the second half and it is well that Kansas had a safe lead, for during the second half the scoring was almost equal, Kansas making nine points and the Aggies eight. Ackerman, high point man in the valley, was unable to score a point in the second half.

Scores of enthusiastic Kansas fans made the trip, which may account partly for the record attendance of the year.

The scores:			
Kansas U., 27	G	Ft	F
Ackerman, f	2	6	1
Schmidt, f	3	2	0
Peterson, c	3	2	0
Wilkin, g	0	0	2
Belgard, g	0	0	2
Engle, f	0	1	0
Totals	8	11	5
K. S. A. S., 17	G	Ft	F

NEBRASKA WINS SWIM MEET

Aggies Lose Evenly Matched Contest on a Technicality

The Kansas State swimming team lost the swimming meet on a technicality last night to Nebraska. The score was tied at the end of the meet, each team having 34 points, and the meet was awarded to Nebraska because they won the relay. The Nebraska swimmers had the

edge in most of the speed contests but the Aggies were easily superior in all diving events, taking first and second places in both the fancy diving and plunge for distance.

In the 160 yard relay Nebraska took first easily, with a time of 1 minute, 33.4 seconds. Nebraska swimmers in this event were Plate, (captain), Laughlin, Hunton, and Kirkbride. Aggie swimmers were Miller, Carter, Stuenkel, and Lippincott.

Results in other events are as follows, with the men who placed first, second and third in their respective places: 40 yard dash, Hunton, Nebraska; Lippincott, Aggies; Laughlin, Nebraska; time 22.4 seconds. Fancy diving, Carter, Aggies; Miller, Aggies; Ilgen, Nebraska. Breast stroke, 220 yards, Plate, Nebraska; Farrell, Aggies; Buck, Nebraska; time 4 minutes, 7.3 seconds. Free stroke, 220 yards, Kirkbride, Nebraska; Vasey, Aggies; and Metzner, Nebraska; time 4 minutes, 40.5 seconds. Plunge for distance, Long, Aggies; 56 feet 6 inches; Uhrig, Aggies, 55 feet; and Plate, Nebraska, 54 feet. Back stroke, 150 yards, Miller, Aggies; Eastwood, Aggies; and Buck, Nebraska; time, 2 minutes, 23.7 seconds. Free style, 100 yards, Kirkbride, Nebraska; Hunton, Nebraska; and Lippincott, Aggies; time 1 minute, 19.3 seconds.

MUST UPSET DOPE TO WIN FROM OKLAHOMA TOMORROW

Gave Aggies Worst Defeat of Season—Forecast Margin for Tomorrow Is Six Points

When the Aggies play Oklahoma tomorrow night at Norman they will be playing the team which gave them the worst defeat of this season and consequently they are doped to be on the short end of the score. But dope on the Aggies is the most unauthentic dope that can be forecast because the Aggies are noted for doing what is not expected of them.

In the first game of the season the Sooners won by a margin of 12 points and completely outclassed the Aggies both in speed and ability to shoot baskets. There is no doubt, however, but that the Aggies played the poorest game against the Sooners that they have played this year. Consequently a forecast margin by which Oklahoma will win can not be estimated above five or six points.

The Sooners no doubt will be in a poorer physical condition than the Aggies as they had to dispose of Grinnell and Kansas this week whereas the Aggies played only the Jayhawkers. This advantage for the Aggies will be easily counteracted however when it is considered that the game is to be played at Oklahoma and the Sooners will have the home court advantage.

At present Oklahoma stands fourth in the valley standing, having defeated the majority of the better teams including Washington, which in turn defeated Nebraska. This factor readily shows that the Sooners have exceptional material and should have little difficulty in disposing of the Aggies.

Practically the same line-up which has started the majority of the games so far this year will begin to-

Private Dancing Lessons

Mrs. E. B. Ganter

220 N. 7th Street
Telephone 1117

morrow's game unless important changes are made in the Sooner line-up which make it necessary that Coach Corsaut shift men in order to compete in size.

TRACK MEN TO GO TO ILLINOIS

FIVE AGGIES TO COMPETE AT URBANA FEBRUARY 28

Four Milers Will Enter Relay—Sallee to Compete in the 1500 Meter Run

Five Kansas State men will compete in the relay meet to be held by the University of Illinois at Urbana, Saturday night, February 28. This decision was made by Coach Bachman as the result of the tryouts held the first of the week. The men will be entered in one relay, and one individual event.

The four-mile relay will be run by Ralph Kimport, Norton; A. I. Balzer, Inman; Emil von Riesen, Marysville; and Paul Axtell, Argonia. Aggie hopes are centered on this one team which is looked upon by many as

the strongest distance team Kansas State has ever turned out. Several of the best Aggie track men are milers, and when four of them are combined into a relay team the combination should be hard to beat. Kimport made the mile in 4 minutes 30 seconds in the tryouts, Balzer made it in 4 minutes and 31 seconds, and he was followed closely by von Riesen and Axtell.

Sallee Competes Individually

M. L. Sallee, Long Island, will be the only man to compete in an individual event. The excellent showing made by Sallee in the middle distance races induced Bachman to give him a chance in the 1500 meter run. If anything should happen to any member of the four-mile team Sallee will give up the 1500 meter race and run on the relay team. Sallee was a member of the undefeated cross country team, and all this year has been displaying a brand of running quite similar to the Kimport type.

The mile relay team has been making good time but has not been able as yet to make any marks which would count very much in the meet at Urbana. The idea of a medley team also has been abandoned.

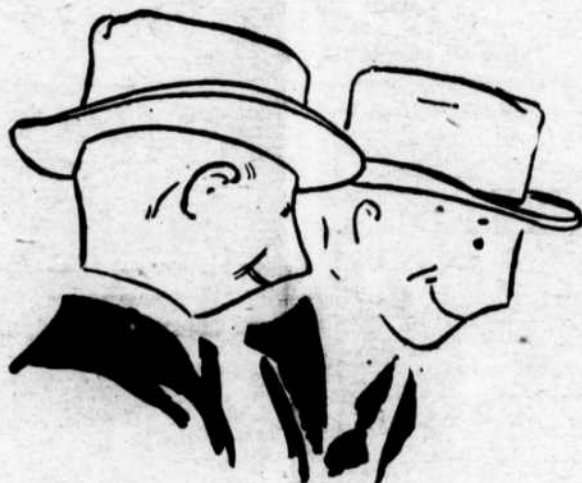

Results of this meet probably will be broadcast again this year from

CALL APPOINTED AS ACTING DEAN

THROCKMORTON WILL HEAD DEPARTMENT OF AGRONOMY

Farrell Fills Vacancies as His First Official Act in Capacity of Acting President

Prof. L. E. Call, head of the department of agronomy, was appointed acting dean of the division of agriculture and director of the experiment station Monday morning. Prof. R. I. Throckmorton will act as head of the agronomy department.

Professor Call probably will become dean of agriculture and Professor Throckmorton head of the de-

L. E. CALL

partment of agronomy upon the resignation of Dr. W. M. Jardine as president of the college and the establishment of F. D. Farrell as president.

Call Came to K. S. A. C. in 1907

L. E. Call was born at Kent, Ohio, in 1881. He secured his bachelor of science in agriculture degree from the Ohio State University in 1906 and his master's degree in 1912. He came to the Kansas State Agricultural college in 1907 as an assistant in agronomy, from 1908-11 he was assistant professor of soils, since 1913 he has been head of the department of agronomy. He is corresponding editor of the Farm and Fireside magazine.

During the war Professor Call served in France in Y. M. C. A. work and in the Army Educational corps and was in charge of the farm crop instructional work at the A. E. F. university at Baume, France, in 1919. Professor Call was president of the American Society of Agronomy in 1922. He is a member of the American Association for the Advancement of Science, American Association of Soil Survey Workers, Sigma Xi, Alpha Zeta, Phi Kappa Phi, Gamma Sigma Delta, and Delta Tau Delta.

"Throck" Here 14 Years

Professor Throckmorton, who will act as head of the department of agronomy, graduated from Pennsylvania State college in 1911 and came to Kansas the same year as an assistant in the soil survey work then being conducted by the Kansas experiment station. In 1918 he was made professor of soils at K. S. A. C. after a period as assistant professor.

In 1922 he received his master's degree from K. S. A. C. and has since spent one year in graduate work in soils and geology at Cornell University.

Professor Throckmorton is a member of Sigma Xi, Alpha Zeta, and the American Society of Agronomy.

Theta Sigma Phi Initiates Four

Theta Sigma Phi, women's honorary journal fraternity, held initiation services Sunday morning in the club room in Kedzie hall, for Lucile Potter, Mary Marlene Kimball, Alice Nichols and Erma Jean Huckstead. Initiation was followed with a breakfast at the Polyanth tea room. Violets, the fraternity flower, were used in the decorations.

SIEVER URGES STUDENTS TO CURE THE "ITCH" AT ONCE

Disease "No Disgrace to Have, but a Disgrace to Keep"

The "itch" is abroad selecting its victims impartially.

"There are many on the hill who itch and scratch, not knowing that what they have is the plain old itch," Charles M. Siever, student health physician, stated recently. "They should have immediate medical attention and a general clean up and fumigation of room and clothes to rid themselves of the disease and to check its spread."

The itch is caused by a tiny an-

imal which excavates oblique tunnels in the horny layer of the skin and lays her eggs as she advances. Scratching causes the spread of the disease to other parts of the body.

There is nothing disgraceful in having the itch, but there is disgrace in keeping it. One wants to cure himself as soon as possible. Consult the student health department if you have any symptoms of the disease and after only three days of following carefully the instructions, you will be cured.

FIVE SORORITIES ENTER ROYAL PURPLE CONTEST

Will Sell Books in Competition for Trophy Cup—Contest Closes March 21

Five organizations have entered the Royal Purple book sales contest, according to G. A. Read, business manager. Alpha Xi Delta, Chi Omega, Kappa Delta, Pi Beta Phi, and Gamma Phi Delta are now working for subscriptions in order to win the large \$35 trophy cup offered by the management for the largest number of book sales.

All Royal Purple book sales will close March 21, the date of Pharaoh's ball. In previous years, it has been possible to obtain books almost anytime up until their release date. However, this year only the number of books sold will be ordered, and it will be impossible to obtain a book unless it has been reserved before March 21. "Act now or forever hold your peace, is our system," Read says.

The yearbook management has taken as their slogan, "Cinch your Royal Purple before Pharaoh's Ball." Books may either be paid for at the business office and credited to the organization of the buyer's choice, or bought directly from the representative of the organization. Several of the sororities that have entered the contest have made lists of those who have not purchased their books, with the intention of using personal sales talks on them. The list is available to anyone at the Royal Purple office, and "Doc" invites those interested to take advantage of it.

Starting Monday, March 16, organizations in the contest will report each day, so that students can keep an account of the standing of the various contestants. The cover design of the 1925 yearbook is on display in Anderson hall. This year's book has several novel features that promise to make it one of the best that has appeared for several years. B. C. Harter, editor-in-chief, and his staff, are rapidly getting the pictures and copy in to the printer so that the book will be ready for purchasers about the middle of May.

WILL RECOGNIZE ATHLETES

Hold Special Chapel for Presentation of Awards

The first annual athletic recognition chapel will be held at 10:15 Wednesday morning in the auditorium.

This day is being instituted to take place of the custom of making presentations for athletic honors at many different assemblies and to give the student body an opportunity to become acquainted with those who have won athletic honors.

Coaches of the various sports will make presentation speeches in which they will give due recognition to the women and men who have made letters in the past year.

Gives Twelfth Lecture Wednesday

Prof. Katherine Bower, of the English department, will discuss the life and work of Ellen Key on Wednesday afternoon, March 4, in the home economics rest room at 4 o'clock. This will be the twelfth of a series of lectures given under the auspices of the English department this year.

AG FAIR MAY 9

Postpone Fair to Avoid Conflict with Music Festival

The date of Ag fair which was announced for May 2 has been changed to May 9 in order to prevent conflict with the music festival. This will be a closed night. The fair will be held in the same place as last year, in front of Waters hall. Further details and plans will be announced later according to Walter Daly, manager of the fair.

Foods Classes Go to Kansas City

The annual trip of the foods classes to Kansas City will take place on March 8, 9, and 10. This trip supplements the work in foods II. Among the various food industries to be visited are: H. D. Lee Mercantile Co., National Biscuit Co., Corn Products Refining Co., Wolfertman's, Loose Wiles, and Swift's Packing Co.

LAST PROGRAM MOST ARTISTIC

FLONZALEY QUARTET CLOSSES ARTISTS SERIES MARCH 18

Holds Supreme Rank in Both Europe and America—Has Played Chamber Music Two Decades

The last, and probably the most artistic of the 1924-25 K. S. A. C. Artists series programs will be presented Wednesday, March 18, by the Flonzaley string quartet, the incomparable organization which has been displaying the riches of chamber music throughout the United States for 20 years, and the only organization of its kind holding supreme rank in both Europe and America.

Last month the Flonzaley quartet appeared in concert in Jordan hall, Boston, where, according to the current number of Musical America, "the players gave delightfully phrased performances of the Beethoven Quartet in B Flat Major and the Brahms C Minor Quartet." Two weeks ago the Flonzaleys gave "a well balanced program, beautifully played," in New York. "An evening with the Flonzaley quartet is proverbially satisfying," says the Musical America critic.

Has Toured 20 Years

The season of 1924-25 commences the third decade of the Flonzaley quartet before the American musical public. The quartet was organized in 1903, but with a deliberation and care which have been characteristic of its career ever since, it practiced and performed in private for a full year before it considered itself ready to make its public debut. In its 20 years of existence the Flonzaley quartet has set up some remarkable records, and without a doubt it has been one of the leading factors in the growing popularity of the fine art of chamber music in the United States.

Since its first public appearance in October, 1904, the quartet has played in more than 400 American cities, and has given more than 1,800 concerts on this side of the Atlantic alone. Its major operations have been carried on here, but each season it makes a short tour of Europe. Its recent foreign appearance, which included London, Milan, Venice, and Rome, brought its European total of concerts up to more than 500.

"They Play Like Angels"

Last season it played in 83 concerts in the United States, and during 1924-25 the Flonzaleys are making their seventh trip to the Pacific coast. James Gibbons Huneker, the eminent critic, once said of the Flonzaleys, "They play more like angels than men." Many cities apparently relish their heavenly visit, for this season they are giving a series of three concerts each in New York, Chicago, Boston, Washington, and Northampton, and two in Philadelphia and Indianapolis. Once heard in a city they are invariably wanted again.

Produce Brown Bullet

The Brown Bullet is not only improving its numbers but by all appearances it is increasing them as well. Announcement has just been made that a Brown Bullet will appear on the campus next week.

The Brown Bullet is a miniature humor magazine which the typography students are putting out.

"Circus" Is New Game Designed for Child-like Aggies

A new pastime has come to replace bridge, the cross-word puzzle, and dancing. "Circus" will amuse the child-like college student in the future.

"Circus" is not a show or a "let's pretend" amusement but a card game. Its inventor, Dr. C. M. Siever, head of the department of student health, has furnished another name for the Aggie hall of fame.

In playing the game one uses 52 orange and black cards on which are pictures of animals or parts of animals, clowns, circus rings, trapezes, animal wagons, band wagons, and countless other things which pertain to a circus. A cage of four cards, so arranged that they make a complete and matched square, is the object of the game.

If one person plays the game, it is a race against time, starting with a well shuffled deck. Two or more play to get the most cages, each cage netting as many points as there are pictures on the cards. The dealer plays first and can call on any other player for cards until he makes an unsuccessful call. Doctor Siever says 250 points usually constitute a game.

Sharers of the inventor's fame are Lena Crider, Mildred Doyle, Pauline Van Osdel, Mary Leannan, and Fern Anderson, who designed the block prints for the cards under the direction of Miss Louise Everhardy of the applied arts department. The cards were printed by the college printing department.

Grave anxieties are felt for the student health since the staff is said to be playing "Circus" ceaselessly with the cooperation of members of the English department. The S. S. G. A. is preparing to take strenuous action to enforce that old rule of no card-playing on the campus. Even those little return-to-school permits are hard to get and are all scratched up, having been used to keep score.

HIGH SCHOOLS OF STATE ASK VISITS FROM AGGIES

Go-to-College Teams Receive Requests from 120 High Schools—Start Tours Last of March

Itineraries for three go-to-college teams have been completed and plans for at least four more are under way, according to Dr. A. A. Holtz, general secretary of the college Y. M. C. A.

The first team will be sent out the third week in March, and one will follow each week until the go-to-college program is completed. Schools over the state have been clamoring to have the Aggie teams visit them this year, 120 letters having been received by Doctor Holtz, inviting the teams to put on a program. Only about one-half of the invitations can be accepted on account of lack of funds.

The itineraries that have been completed are as follows: Jola, LaHarpe, Humboldt, Chanute, Parsons, Altamont, Cherryvale, Independence, Neodesha, and Fredonia. Dresden, Oberlin, Norton, Phillipsburg, Agra, Smith Center, Gaylord, Mankato, Jewell, Belleville, and Clyde.

Atchison, Effingham, Valley Falls, Oskaloosa, Leavenworth, Tonganoxie, Kansas City Central high school, Argentine, Rosedale, and Shawnee Mission.

Other trips will include one to the southeastern part of the state and one along the Union Pacific railway probably as far west as Wakeeney. Floyd Hawkins has offered to conduct personally two teams in the territory around Hutchinson.

The teams this year will consist of three male quartets, one female quartet, a concert troupe from the music department, and several one act plays from the department of dramatics.

These teams are financed by the Y. M. C. A., the S. S. G. A., the athletic department, and a personal gift from President Jardine.

Norris Thomasson is chairman of the go-to-college committee.

Sigma Delta Chi Holds Initiation

Sigma Delta Chi, men's professional journalism fraternity, held initiation services Thursday afternoon in the club room in Kedzie hall for Newton Cross, Fred Shideler, Russell Thackrey and Gerald Ferris.

INTRAMURAL MEET POSTPONED

Numerous Quarantines Necessitate Changing Date to March 9

The intramural indoor track meet which was scheduled to be held last Friday night in Nichols gymnasium has been postponed until March 9. The reason for postponement as given by Prof. E. A. Knott, director of intramural athletics, was that quar-

antine restrictions on a number of the club and fraternity houses prevented these organizations from competing on that date. It is thought that most of the quarantines will be removed before March 9.

Entries in the meet undoubtedly will be greater than ever before as there has been an increased interest shown in all branches of intramurals since their inception several years ago. It is not necessary for competitors in the meet to enter their names on the card lists as was formerly required. All entries will be taken on the floor.

ORCHESTRA TO PRESENT FREE CONCERT TONIGHT

College Musicians Appear in First Big Concert of Year—Give Program During Festival Week

The annual concert by the college orchestra will be presented in the auditorium, Tuesday evening, at 8:15 o'clock. This is one of the two concerts given by the orchestra every year, the other being presented during the Festival week program. No admission will be charged. The program follows:

Overture "Don Juan" Mozart
Aria "Madamina! Il catalogo" from "Don Juan" Mozart
Concerto in D minor for two violins and string orchestra Bach

Intermission

Scenes Pittoresques Massenet

1. March

2. Air de Ballet

3. Angelus

4. Fete Boheme

"Valse Triste" Sibelius

March "Pomp and Circumstance"..... Elgar

The personnel of the orchestra is as follows: H. P. Wheeler, conductor; first violins, H. K. Lamont, concertmaster, Elizabeth Van Ness, Mary Jackson, Dorothy Hall, Jean Rankin, Fern Straw, Frances McColn; second violins, Emma Schoonover, Alleen Rhodes, Lucile Stalker, John Henry, Josephine Heath, Edwin Cutshaw, Wilbert Fritz, Ruth Balner, Olive Manning; violas, Herbert Schwartz, Herbert Kammeyer, Mrs. J. L. Brenneman; cellos, R. B. Gordon, Ashley Monahan, Dr. J. L. Hall; Ferdinand Haberkorn, Helen Graham; basses, Dr. R. C. Smith, W. H. Boorn; flutes, L. E. Woodman, Ira Price, L. H. Bock; clarinets, Dorothy Stiles, Margaret Foster, Wm. Illingworth; bassoon, Prof. E. V. Floyd; horns, C. B. Wisecup, Carl Faulconer, L. E. Barber; trumpets, Lucile Heath, Gerald Brown; trombones, Dean Skaggs, A. B. Campbell, H. E. Erickson; tuba, W. H. Boorn; piano, Charles Stratton; tympani, Paul Cole.

MANY GIRLS TAKE FOODS TRIP

28 Sign up for Annual Excursion to Kansas City Next Week

Twenty-eight girls have signed up as interested in taking the foods trip to Kansas City next week. March 8 to 10 are the dates of the trip. Plans for the entertainment of those who go are rapidly being completed. The H. D. Lee Mercantile company has invited the group to luncheon, Monday; and in the evening the girls will see Ethel Barrymore in "The Second Mrs. Tanageray." Each day there will be some special feature of entertainment. The foods trip is an annual event, supplementing the work in the foods II classes.

Those who have signed up are Ruby Seward, Thelma Sharp, Grace Davison, Ruth King, Letha Olson, Mabel McComb, Ruth Quinlan, Dorothy Stahl, Edna Hoke, Nora Bare, Roxie Bollinger, Eleanor Nelson, Mattie Babcock, Alda Henning, Mrs. Phyllis Miller, Mrs. Toeris, Margaret Manley, Louise Hattery, Ethel Scott, Stella Munger, Virginia Deal, Eva Timmons, May Danheim, Josephine Brooks, Ruth Long, Catherine Bernheisel, Vivian Jewett, and Esther Tracy.

FARRELL QUIETLY TAKES UP DUTIES AS ACTING PRESIDENT

Installed Without Ceremony, He Is Busy "Getting Onto the Ropes"

"Can you find a place on a desk for these things?" said a quiet voice at the door of the president's office, early Monday morning. The office force scurried around and cleared the desk that had just been vacated by President Jardine; and Dean Farrell was installed as acting president of the Kansas State Agricultural college.

Although he is contemplating no change in administrative policy, President Farrell was very busy this morning "getting a hold on the ropes." One of his first official acts was the appointment of a successor to himself as dean of the division of agriculture.

FESTIVAL BRINGS STRONG PROGRAM

DATES FOR MUSIC WEEK ARE APRIL 28 to MAY 2

Minneapolis Symphony Orchestra Again Gives Big Concert of the Week

The annual spring festival program will open this year on April 28 and will close on May 2, Prof. Ira Pratt, director of the festival and head of the K. S. A. C. music department, announced Tuesday. Seven programs, two of them matinees, are included in the week's schedule. The dates of the festival were fixed with reference to the schedule of the Minneapolis Symphony orchestra, which again will give the "big" program of the week, and which could come to Manhattan only on Saturday, May 2.

Seven Programs Offered

Professor Pratt believes that this year's festival program is the most uniformly attractive yet given. In announcing the events of the week he commented that the college talent this year is of the highest order in his four years at K. S. A. C., and that the visiting artists include well known musicians of New York and Chicago, as well as the famous symphony orchestra.

Jose Mojica, leading tenor of the Chicago Opera company, a singer who has had a meteoric rise to eminence in the musical world during the past year, will appear in recital on Friday night, May 1. He will be assisted by Albert Hougelet, pianist and accompanist. On Saturday afternoon the following three artists will assist in the presentation of two short oratorios: Madame Julia Clauson, leading contralto of the Metropolitan company; Marie Tiffany, soprano of the Metropolitan company; and Judson House, well known American tenor.

College Talent of High Order
The complete program is as follows:

Tuesday evening, April 28—Joint concert of K. S. A. C. glee clubs assisted by the faculty trio—Harry King Lamont, violinist; Robert Gordon, cellist; Mrs. Suzanne Passmore, pianist.

Wednesday evening, April 29—Purple Masque spring play.

Thursday evening, April 30—Concert by college orchestra, Harry King Lamont, violin soloist.

Friday afternoon, May 1—Campus concert, K. S. A. C. band.

Friday evening, May 1—Recital, Jose Mojica, leading tenor, Chicago Opera company.

Saturday afternoon, May 2—Presentation of two oratorios, "Olm Trygvasson," by Grieg, and "Hymn of Praise" by Mendelssohn, by the college chorus and visiting artists—Julia Clauson, contralto; Marie Tiffany, soprano; and Judson House, tenor. The Minneapolis Symphony orchestra will play the score.

Saturday evening, May 2—Concert, Minneapolis Symphony orchestra.

NAMES "THANK YOU" CAST

McDonald Will Direct Intersociety Play to Be Presented March 27

The cast for the intersociety play, "Thank You," was announced yesterday by Earl G. McDonald of the public speaking department. The play is to be presented in the auditorium, March 27, under the direction of Mr. McDonald. Thirteen characters are included in the cast.

The parts will be taken by:

Ruth E. Nettleton, Dorothy Johnson, Alvin Ritts, Ralph Ewing, Earl Hilden, Laura Russell, Inez Howard, Milton M. Kerr, Mildred McGill, Harold Cary, Alexander van Pelt, John McKean, Lionel Holm, Glenn Reed, Frank Brockesh, R. H. Perrill, H. H. Brown, Alfred Zeidler.

NEED SCIENTIFIC ATTITUDE

Teachers Should Carry on Research Work, Says Peterson

The first of the series of lectures on "The Attitudes and Ideals of the Teaching Profession," which the educational department is giving this semester, was given by Prof. J. C. Peterson, Monday afternoon. His subject was "Research in Education."

"The teacher who does not have a scientific attitude towards the problems of teaching cannot grow in the profession," said Professor Peterson. He advised every teacher to carry on at least one research problem in connection with his teaching. Some problems that he mentioned, which every teacher might carry on, are "Objective Tests and Essay Tests in Measuring Achievement," "Effective Methods of Study," "Silent vs. Oral Reading," and "Problems in Vocational Guidance."

There were 123 seniors and 10 faculty members present.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college.
Published every Tuesday and Friday of the college year.
Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, MARCH 3, 1925

JOKERS OR THIEVES?

During the past few weeks there has been an increasing number of fraternities and sororities reporting thefts of various articles. Where formerly comparatively inexpensive things were taken, valuable pictures, skins, furniture, and other similar furnishings are now being stolen by the thieves.

Some of this plagiarism is doubtless accomplished by persons who steal for the commercial value of the article. But a great part of it is the work of fraternity and sorority members themselves who steal from houses, other than their own, to obtain "souvenirs" or to inflict supposedly practical jokes. Judging from the more recent reports, it seems as though the larger or more valuable the article is, the more satisfaction the thief obtains from his robbery.

There is no great harm in moderate practical joking or even in appropriating certain articles other than your own if the articles are returned in a short time. But it is absolutely outside the pale of common honesty to pilfer a house with the idea in mind of retaining the things stolen. Such a practice is entirely foreign to any semblance of a joke.

But we don't believe that these depredations upon fraternity houses by other fraternity students were performed with any other than the joke idea in mind. The "take anything" attitude that has been in vogue of late has not come about as a result of the lowering of common standards of honesty but from thoughtlessness. Let one fraternity or sorority house miss a certain article, members of that particular organization may suspect another and manage to abstract from its house a "souvenir" of greater value than the one they lost. They in turn may lose something else; more probably, however, suspicion will rest upon an innocent group.

The limit to which such a practice may go has been reached. If each person who contemplates robbery of this sort would only think of what he is about to do, and of the results involved, the problem might very conceivably return to the joke stage. But if discretion and common sense are to be disregarded entirely, present conditions are in a fair way to evolve police interruption and penitentiary sentences for offenders with the accompanying disgrace to the individuals and to the college.

You can tell that the journalism department is composed of geniuses. Less than half of the journalism fee cards have been handed in, and a true genius is always forgetful.

Only two people really care to listen to a man talk. Himself and his wife. And it is doubtful if his wife cares other than to be agreeable.

We predict that in 10 years the girls around the college will be smoking cigarettes—in the open.

If the girls don't hurry and get some new and amusing fad in the way of clothing we shall be in utter consternation for something to write about. However, if we are any judge of women, it won't be long.

And it will probably be plenty foolish.

One of the fellows raises this question: If you were over to some sorority house and the health officer came along and quarantined the house for fallen arches or something like that, would there be any way of getting out of the house?

Dresses for girls guaranteed not to shrink. Well, few modern girls do.

Alas for the poor flag pole! We fear that the cold spell of last Sun-

day killed all those promising little shoots near the top.

Now Harry is back on our side of the fence, which is, incidentally, the intelligent side, much poorer and more pessimistic for wear. He now understands what is meant by these "dear" girls.

The Kappa Deltas are a brave outfit. One night recently they became aware of the presence of an intruder in the house. Courageously they called in the entire neighborhood and armed with brooms, pokers, and other characteristic weapons they hunted him down. They located him in the kitchen and were just preparing for the slaughter when the door opened and out walked the house boy.

Surprises for both.

If you think that girls are vain you should happen in a barber shop on the afternoon before a big dance.

We welcome Dean Farrell with open arms. Perhaps he will give us an extra day for spring vacation!

On Other Hills

Paul Whitman and his orchestra are to give a concert at the University of Indiana April 17.

Stanford university has a flock of sheep on the campus that is a money-making proposition. The sheep keep the lawn trimmed, and yield about \$350 worth of wool at each semi-annual shearing.

There are 189 organizations on the Ohio State university campus, with a total membership of 3,000.

The Northwestern university glee club is to give a concert at the University of California.

The total cost of going to school in China is seven dollars per month. This includes tuition, board, and room.

Oklahoma university students who subscribe \$250 or more to the building fund are granted life-time seat privileges in the new stadium.

An intramural sing will be held at Ohio State university on March 7. Twenty-five organizations have entered the contest.

Women law students at the University of Iowa maintain higher scholastic averages than the men.

The relay team of Pennsylvania university has entered the international track meet to be held in London during the second week in April.

Northwestern university has invited Paavo Nurmi, the phantom Finn, to participate in the thirteenth annual scholastic track and swimming

meet to be held at Evanston, March 20 and 21.

A huge new pipe organ has been installed in the memorial chapel of Denver university.

Smith college is the largest educational institution for women in America, with an enrolment of 2,071.

"Comedy of Errors" Enacted by English Teachers and Class

If the recent version of the "Comedy of Errors" which was enacted in one of the class rooms a few days ago were written into a photoplay, it would read something like this.

Scene—A class room. Students sitting in straight rows, looking eager—to get away, perhaps. Enter teacher. Students try to look intelligent. Teacher takes up class book to call roll. Looks for another book, doesn't find it, and leaves the room.

Enter another teacher. She speaks to the students. Students look blankly at one another. Second teacher speaks again. Students' faces brighten. Exit hurriedly. Exit second teacher. Enter first teacher, registers surprise, exits. Curtain

The story of the drama runs something like this. Miss Blank could not meet her class in English literature on this morning, so she asked Miss Double Blank to dismiss her class for her.

"A75, A75, A75," thought Miss Double Blank as she went down the hall. About midway of the building she met Mr. Dash.

"Good morning, Mr. Dash," she said casually and continued on her way, thinking "A73, A73, A73."

She arrived at A73 just after the instructor who had a class in that room had gone to get a book. The members of this class were an obliging group and did not object to being Miss Blank's English literature class just to please Miss Double Blank. So they were dismissed.

The last stragglers had disappeared from the hall when the instructor came back carrying the wisdom which she had intended to impart to her eager students. She was confronted by an empty room.

It is probable that the class in A75 lost 10 minutes while waiting for Miss Blank.

Doctor Blunt to Attend Jubilee

Dr. Katherine Blunt, head of the home economics department at Chicago university, will be in Manhattan, March 10 and 11, in connection with the semi-centennial celebration of home economics at K. S. A. C. Doctor Blunt is president of the American Home Economics association. The district association will give a dinner on March 11 at 5 o'clock in her honor.

Miss Mabel Campbell will be a visitor at K. S. A. C. on March 5. She is the home economics specialist with

the federal board of vocational education. Miss Campbell will address the girls of the division of home economics.

Honor Dr. S. W. Williston

The zoological and entomological seminar held a memorial program Thursday afternoon honoring Dr. Samuel W. Williston, one of the most distinguished graduates of this institution. Talks by Professors Dean and Nabours, concerning his work, and reminiscences by Dean Willard and Mrs. Irish made up the program. The presentation and hanging of his picture was the occasion of the meeting.

College Publishes View Booklet

A view booklet, containing the most elaborate views of the college campus that have ever been published, is now under construction. There are 20 entirely different scenes in the book. It is the joint production of the illustrations and printing departments.

Society Happenings

Thursday, March 5

Home Economics association tea, Recreation.

Friday, March 6

Omega Tau Epsilon dance, Elks. Sigma Alpha Epsilon dance, Harrison's.

Alpha Rho Chi house dance.

Alpha Sigma Psi held initiation services Sunday for the following: Henry Johnson, Leavenworth; W. E. Blackburn, Malta Bend, Mo.; H. A. Sherman, Elk City; Ralph Larson, Leonardville; Waldo Leroy Bone, Longton; and James Snyder, Atchison.

Dinner guests at the Kappa Delta house Sunday were Dr. and Mrs. R. P. White and Miss Fairy Hill.

Theta Sigma Phi, women's honorary journalism fraternity, held initiation services Sunday morning for Lucile Potter, Pawnee; Alice Nichols, Liberal; Mary Marcene Kimball, Manhattan; Erma Jean Huckstead, Junction City. Following the initiation a breakfast was served at the Pollyann tea room. The color scheme was green and lavender, and violets were used in the table decorations.

Alpha Tau Omega held formal initiation services Sunday morning for the following: Stewart Farrell, Manhattan; Russell Pugh, Eureka; Carl Schablie, Oakley; and Marshall Ross, Kansas City, Mo.

Al Bissling of Kansas City, and Richard Bissling of Hays were weekend guests at the Alpha Tau Omega house.

Gamma Epsilon chapter of Beta Theta Pi entertained Friday evening with the thirteenth annual pig dinner at the Gillett hotel. Pink and blue, the fraternity colors, were used in the color scheme. Large baskets of roses decorated the tables. Beta loving cups were given to each girl as favors. After the dinner a dance was given at the Elks' hall. The same color feature, pink and blue, was used in the hall. In each corner was a large illuminated shield with the Beta crest on it. Isenhardt-Jenckes orchestra furnished the music for the dinner and the dance. Mrs. Bernard O'Malley, Dr. H. H. King, and Major and Mrs. C. D. Pierce chaperoned. The out of town guests were: Mr. and Mrs. Victor Kirk, Iola; Misses Mildred Enns, LaPorte, Ind.; Frances Wright, Junction City; Helen Stevenson, Salina; Frances King, Hutchinson; Marion Welch, Emporia; Frances Evans, San Antonio, Tex.; Viola Ridge, Iola; and Harold Zimmerman, Salina; Paul Dakin, Laverne, Okla.; Homer Sharpe, Council Grove; M. E. Placek, Emporia; Donald Smith, Hutchinson; Wilbur Cole, Topeka; Todd Heuser, Topeka; O. F. Armantrout, Wichita; Benny Bond, Junction City; Sam Gatz, McPherson; and Jessie Lehman, Newton.

Prof. and Mrs. C. E. Rogers entertained with a bridge dinner Friday evening. The guests were Captain and Mrs. R. C. Stickney, Prof. and Mrs. H. W. Davis, and Mr. and Mrs. Jerry Wilson.

Kappa Kappa Gamma held formal initiation Saturday afternoon for: Agnes Slatten, Jamesport, Mo.; Ruth Wilson, Kinsley; Welthea Grover, Iola; Mildred Troutfetter, Colby; Genevieve Pogue, Galatin, Mo.; Dorothy Fulton, Oklahoma City; Margaret Manley, Junction City; Joyce Meyers, Sylvia; Virginia McKee, Hiawatha; Mary Frances White, Manhattan; and Helen Gates, Kansas.

We EXAMINE Eyes

We don't "put them off" with the old-fashioned TEST which considers only the SIGHT.

WE EXAMINE EYES THOROUGHLY externally and internally. We must know if they are HEALTHY, if all MUSCLES BALANCE PROPERLY, and many other things NOT REVEALED BY THE SIMPLE OLD FASHIONED SIGHT TEST.

We fit the lenses to the eyes.
We fit the frames to the face.
Result—Efficient, becoming glasses.J. A. HOLLIS
Marshall Bldg.

City, Mo. A banquet was held after the initiation services at the Gillett hotel for the active and alumnae members. The sorority colors, blue and blue, were used in the dining room for decoration.

Dinner guests at the Alpha Sigma Psi house, Sunday, were Dean and Mrs. R. A. Seaton.

The Lotus club entertained the following guests Sunday: Mary Lois Williamson, Louise Magaw, Zella Parsons, and Pauline Parsons.

H. R. Miracle of Wamego spent Sunday at the Beta Pi Epsilon house.

Prof. and Mrs. H. A. Shinn entertained the members of the public speaking department and a few other friends with a dinner and bridge party Thursday evening. The four course dinner which was served at the Open Door tea room was followed by a bridge party at the Shinn apartment. High score was won by Miss Beatrice Gates. The guests included Prof. and Mrs. J. O. Faulconer, Dr. H. T. Hill, Earl McDonald, Fred Vollard, Misses Sarah Tracy, Osceola Burr, and Beatrice Gates.

Week end guests at the Pi Beta Phi house were: Mrs. Merton Otto, Riley; Marion Welch, Lindsborg; Jean Hanna, Clay Center; Ruth Trinkle, Lawrence; Maude Irene Whitehead, Abilene; and Frances Evans, San Antonio, Tex.

Sunday dinner guests at the Alpha Xi Delta house were: Vera Frances Howard, Genevieve Wasson, and Marjorie and Lorna Schmider.

Alpha Sigma Psi announces the pledging of K. L. Kocher, Glasco, and E. S. Magaw, Ames.

Dinner guests at the Alpha Rho Chi house, Sunday were Prof. and Mrs. Hugh Durham.

Week-end guests at the Kappa Delta house were Mrs. P. A. Dakin and little niece, Doris, of Laverne, Okla., and Miss Dora Dean Dakin of Wamego.

Lambda Chi Alpha held formal initiation Sunday evening for: Kendall Day, Holton; Raymond Drake, Rozel; and Glen Slaybaugh, St. Joseph, Mo.

Douglas McEachron and James Caldwell from Washburn were guests at the Phi Delta Theta house, Saturday and Sunday.

Prof. and Mrs. J. P. Callahan were dinner guests at the Phi Kappa house, Thursday evening.

Pi Beta Phi gave a Pan-Hellenic tea Friday afternoon from 4 to 5 o'clock in honor of Miss Frances Evans, the grand secretary of the fraternity.

An entertainment was given Friday night for the boys in the Farmers' short course which closed Saturday noon. During dinner, short talks were given by several of the students and members of the faculty. A program given in Recreation followed the dinner. About 35 attended.

Women's Pan-Hellenic dance was held in the community house, Friday evening. Mrs. Mary Pierce Van

Zile and Prof. and Mrs. C. E. Pearce were the guests. The chaperones were Mrs. Edith Dodd, Mrs. Mary Ziegler, Mrs. Elizabeth Warner, Mrs. Blanche Smith, Mrs. May Snyder, Mrs. A. M. Lair, Mrs. Annie Buck, Mrs. Nina Rhodes, and Mrs. Maud Sullenburger. Music was furnished by the Nebraskans.

La Mont Johnson of St. Marys was a week-end guest at the Phi Kappa house.

Pi Beta Phi held formal initiation Saturday afternoon for the following girls: Mary Adda Boone, Manhattan; Marion Dalton, St. George; Florence Hanna, Clay Center; Janet Hellworth, Dodge City; Marion Kendall, Manhattan; Eleanor Mims, Garden City; Mildred Read, Coffeyville; Dorothy Stevenson, Oberlin; and Rebecca Thacher, Waterville. After initiation, a cooky shine was given at the chapter house.

A Coed Whose Son
Is Her Instructor
Graduates This Year

A coed may be very young, fairly young, or not so young, or she may be even older than that. In fact, one Aggie coed, Mrs. Etna Lyon, is 55 years old, and is not only the oldest coed, but is also the oldest student enrolled in the college.

Entering college after an absence from school of 30 years, might not seem feasible to a less determined coed, but Mrs. Lyon has been a student all her life whether actually enrolled in college or not. She believes that in order to get the most out of life, one must keep up with the times, and that in order to keep up with the times, one must be constantly studying.

Two other motives are responsible for Mrs. Lyon's enrolment in college. One is a desire for a college degree and the other is a curiosity to see just what a woman of her age is capable of doing. The desire for a college degree will be satisfied next August, as Mrs. Lyons will receive her degree at the end of summer school. The curiosity will also be ended, whether satisfactorily or not, only Mrs. Lyons herself will be capable of judging.

In securing her college degree, Mrs. Lyons has had the very unusual experience of taking a course in college physics under the direction of her son, and is now enrolled in the same history course as her daughter, who is a freshman in college.

Addresses Abilene Farmers

Donald Porter, extension plant pathologist, returned from Abilene, Tuesday, where he talked about plant disease control at the two day Farmers' institute meeting being held there.

Miss Martha Pittman entertained at dinner Saturday evening for Miss Ada Rice, Miss Anna Sturmer and Dr. Margaret Russell.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

HOMER REED, N. G.,
JASPER PINK, Sec. tt.Prof's 12 Year Old
Son Sells Papers
For College Fund

In a crowd of scurrying students in Anderson hall, there often wanders a very small boy who has a Saturday Evening Post sack strapped across his shoulders. Who is the small lad? That is almost an unnecessary question to ask for nearly all the students know that it is Junior White, the 12 year old son of Prof. and Mrs. A. E. White, and he has been selling this magazine outside of school hours for the last four years. The little fellow is small but has an eager face and eyes which sparkle with willingness to do something worth while.

Does he spend the money on candy, tops and balls? Indeed not, he is saving this and investing it in a building and loan fund so he can have it when he will some day be an Aggie student. When asked if he had saved much, he replied, "Oh, about \$200 but I am going to keep at it a while longer, 'cause I don't think \$200 is hardly enough money to start to school on."

Tell Factory Experiences

"Six Weeks in a Factory," is the topic for discussion at the forum luncheon, March 5. Phyllis Burtis and Richard Patton, who were members of the summer industrial experiment groups, will be speakers. Richard Patton worked in a packing house in Denver. Phyllis Burtis worked in Chicago in Armour's cafeteria, also in an electric shop.

The Home Economics association will hold open house for students of the home economics division. Thursday, March 5, from 4 to 5 o'clock in Recreation center.

Discover That Our
Eyes Look but See
Not What We Think

Eyes look but see not. That is not a riddle but a fact about K. S. A. C. students. Recently a psychology instructor asked his class if there was a picture in Anderson hall hanging between the doors of recreation center. Is there? The answer of that class was the same as yours.

Whose statue stands in front of the library? There is really one there. About how many steps are there at the south door of Anderson hall? Are there nearer five or twenty? Are there logs in the fireplace in recreation center? They are not the chief attraction of the place, but look and see. Have you merely looked at, or seen the buildings on the campus? Are the higher towers of the gymnasium on the ends or in the middle? Do you know? Why not?

Lost: At banquet in gymnasium Wednesday night, a chased and engraved silver Wahl pencil, initialed

BOXING OUTLOOK BRIGHTENS NOW

INCREASE IN SQUAD FOLLOWS ABOLISHMENT PROPOSAL

Wildcats Start Heavy Workouts in Preparation for Meet with Kansas Next Week

Following publication of a suggestion that boxing as a minor sport might be done away with at the college, the largest squad in recent years has turned out and is practicing every night for the next meet with the University of Kansas at Lawrence March 11. Though a few of the men are freshmen taking boxing work instead of physical education class, a majority are upperclassmen and eligible for varsity competition.

Hoelzel Is Coaching

The team is being coached by C. F. Hoelzel, of Kansas City, Mo., the captain, as the college has no boxing coach. Hoelzel is a member of the varsity team in the 148 pound class.

In the first meet of the year with Iowa State college recently, the Aggies were defeated, losing six out of seven matches. Three of the matches lost went extra rounds before the decision was given, however. Zurlinden, Pearson, in the unlimited class, was the only Aggie to win, though he had been doped to lose beforehand, as his opponent was a candidate for the Olympic team last year. Captain Hoelzel lost his match at Ames after two overtime periods.

A Large Squad

In addition to Pearson and Hoelzel, the probable selections for membership on the Aggie varsity team against Kansas are as follows:

O. E. Walgren, Denver, Col., 115 pound class; J. A. Stewart, Manhattan, 125 pound class; L. C. Miller, Norton, 135 pound class; Lawrence Guthrie, Saffordville, 175 pound class.

Other members of the squad are as follows:

L. A. Bosworth, Wichita; P. A. Skinner, Manhattan; Hoyt Purcell, Manhattan; N. C. Artman, Denison; Guy Huey, Louisville; H. E. Miller, Lincoln; H. M. Shepard, Hutchinson; F. T. Rose, Kansas City; G. D. Frisbie, Kingman; H. A. Mills, Ansley; E. Cyphers, Harper; P. K. Cole, Abilene; C. H. Chase, Junction City; Frank Brown, Junction City; Morse Brook's, Beloit; C. F. Brinkman, Stafford.

More Squad Members

F. Geary, Manhattan; W. M. Holt, Augusta; D. E. Johnson, Wamego; William Jardine, Jr., Manhattan; W. E. Lumb, Manhattan; A. J. McCleery, Mankato; W. B. McKnight, Eskridge; W. H. Painter, Meade.

C. B. Sapp, Hugoton; W. Schaulis, Wakefield; F. S. Naugle; Gilbert Hug, Seranton; C. M. Horn, Miltonvale; M. E. Hamilton, Argonia; P. L. Colby, Abilene; T. R. Barner, Belle Plaine; L. T. Iglehart, Manhattan; R. E. Venn, Neodesha; Wayne Amos, Manhattan.

M. Leshner, Manhattan; J. J. Dunlap, Beloit; R. L. Watson, Beloit; Robert C. Smith, Cherryvale; E. O. Scott, Elgin; C. V. Morain, Minneola.

AGGIES WIN AT NORMAN

Wildcats Average Defeat with 34 to 20 Victory

Again the Aggies upset the dope when they defeated Oklahoma, Saturday night, by a score of 34 to 20.

The victory was a complete upset to the dope sheet and gave the Aggies revenge for the defeat they took from the Sooners early in the season. The game was very fast and close, the score being tied several times, with each team taking the lead for only a short time. It was not until the last few minutes of play that Byers got his stride and started a rally that gave the Aggies a five point margin when the final gun sounded. The score at the half was tied at 19 all.

PLACE SECOND AT ILLINOIS

Aggie Relay Men Are a Second Slower Than Michigan

Aggie winners in the Illinois relays, which were held Saturday at Urbana, were second place in the four-mile relay and fifth place in the 1,500 meter run.

Michigan won first place in the four-mile relay with a time of 18 minutes, 19 seconds. The Aggie team was a second slower but defeated Illinois and Iowa. The record for this event of the Illinois relays is 18 minutes, 17.6 seconds. A. I. Balzer, Inman; Emil von Riesen, Marysville; Paul Axtell, Argonia; and Ralph Kimport, Norton; are the men who made up the Aggie team.

M. L. Sallee of Long Island placed fifth in the 1,500 meter run against a field of 15 contestants. The time for the race was 4 minutes and 10 seconds.

SWIMMERS IN M. V. MEET

Eight Aggie Men Compete in St. Louis Water Carnival

Eight Aggie swimmers left last Sunday for St. Louis, Mo., where they competed last night in the annual Missouri valley conference meet held there. The entries are as follows: Capt. L. C. Miller, backstroke and fancy diving; P. Carter, fancy diving and relay; A. E. Lippincott, dashes and relay; S. Farrell, breaststroke; J. V. Eastwood, backstroke; T. Long, plunge; C. W. Schemm, plunge; W. F. Stuenkel, dashes and relay.

STUDENTS SHOW UNUSUAL INTEREST IN INTRAMURALS

Many Varsity Athletes Are Picked from Ranks of Organization Competitors

More interest has been shown in intramural sports this year than ever before, according to Prof. E. A. Knoth, director of intramural athletics. Last year there were approximately 800 individuals entered in intramurals during the entire year. This year there have been over 750 entered in intramural sports already, and only about half of the events on the schedule are completed. Track and baseball, two of the greatest drawing cards on the intramural schedule, are yet to take place. From these two events there no doubt will be several men asked to come out for varsity.

Every year intramural sports are becoming more and more important to the varsity teams. Each year men who make good in intramural sports have been asked to come out for varsity, and some of them owe a K sweater indirectly to intramural participation.

Coach Bachman never misses a chance to pick material for his track team, and he gets no small percentage from intramural track. He expects to pick some promising material from intramural track this year and to develop the same for future varsity track teams.

Coach Corsaut asked H. M. Weddie and G. H. Strickenfinger to come out for the varsity basketball squad after watching their work in intra-

mural basketball. Weddie will no doubt make his letter this year and Strickenfinger has plenty of possibilities for a regular berth next year. Corsaut has asked also several intramural baseball players to come out for varsity baseball. He watched their work in intramurals last year and has picked them as promising material for places on the regular squad. Two of the most promising are C. L. Cassel, a second baseman, and C. A. Byers, a left handed pitcher. Both are good players and are expected to make the team.

Judge Belleville Debate

Prof. R. W. Conover and Mr. Matthews of the English department and Miss Mary Polson of the home economics division went by train to Belleville, Thursday, February 26, to judge a debate.

Hal Wilson and Clinton Stalker spent the week-end in Topeka.

Karl Rugh of Abilene was a guest at the Sigma Alpha Epsilon house Friday.

Leslie Hinkle, f. s. n. was a week-end guest at the Sigma Phi Epsilon house.

Miss Mildred Gillespie of Clay Center spent the week-end at the Delta Delta Delta house.

Miss Robina Manley of Junction City spent the week-end at the Kappa Kappa Gamma house.

Mr. Herbert Chase of the Phi Sigma Kappa house spent the week-end in Enterprise visiting with relatives.

Miss Neva Betts, who receives her degree in the spring, has an appointment as student dietitian in the Michael Reese hospital, Chicago.

Mildred Nickles spent the week-end in Abilene, visiting her parents.

Lorna Troup, f. s., of Junction City spent the week-end at the Kappa Kappa Gamma house.

Francis Wilson spent the week-end in Abilene visiting his aunt.

Mr. J. M. Hanson of Wichita was the guest of his son, Wesley, at the Sigma Phi Epsilon house Friday.

Lost: Pair glasses from Dr. Matthews' office. Return to architect office and receive \$3 reward.

J. H. Wright is doing part time work in the printing department this week.

Lost, Strayed, or Stolen: Brown belted overcoat. Reward. Call 486J. Box 356.

Another dancing class for beginners is just starting. Free lesson 7 to 8 o'clock Friday night, March 6. Miss Lorimer and G. S. Wheeler. Hall above College State Bank.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, MARCH 6, 1925

NO. 45

IS TWENTY-FIFTH MEET IN ORATORY

ALL EIGHT SOCIETIES COMPETE IN ANNUAL CONTEST

Five Judges from Kansas Colleges Choose Winners—Three Prizes of Medals and Cash Offered

The twenty-fifth annual intersociety oratorical contest will be held tomorrow night in the college auditorium immediately following the basketball game.

Every one of the eight societies will be represented in the contest and according to Dr. H. T. Hill and Prof. H. A. Shinn, who have been coaching the orators, there is a probability of a very close contest. Last year first place was won by the Websterians and second place by the Eurodelphians and third by the Franklins. It was the second consecutive year that the Websters had won the contest.

Three Prizes Offered

Prizes for this year are the same as those of last, first prize being a gold medal and \$25, second prize, a silver medal and \$15, and third prize a bronze medal and \$10.

The officials for the contest this year are Dr. W. E. Grimes, head of the agricultural economics department, who will act as presiding officer, and Dr. H. H. King, head of the chemistry department, who will be the director of demonstrations.

Program Is Varied

The program includes the following demonstrations:

Eurodelphian

Weighted in the Balance—Lucile Stalker.

Browning

The Integration of America—Gladys Sanford.

Stunt: A Changed Man—Ionian Hamilton.

Alpha Beta

An Artery of National Progress—R. Emmitt Welsh.

Clarinet Duet—Margaret Foster and Dorothy Stiles.

Athenian

Public Opinion and World Peace—Frank Morrison.

Stunt: The Old Lady in the Shoe—Eurodelphian-Webster.

Webster

The New Interpretation of an Old Truth—Alvin V. Ritts.

Duet—Mr. and Mrs. John Barstow.

Franklin

The Hill of Dreams—May Danheim.

Stunt: A Most Extraordinary Crossword Puzzle—Browning-Athenian.

Hamilton

Tillers of the Soil—Clarence L. Harder.

Stunt: Sauce for the Gossips—Alpha Beta-Franklin.

Ionian

Christianity and War—Geraldine B. Reboul.

Five Judges for Contest

The following are the professors who will act as judges for the contest: Prof. A. E. Leach, department of public speaking, Baker university; Prof. E. C. Buehler, head of the department of public speaking at Washburn college; Prof. R. H. Ritchie, from the department of English at Ottawa university; Prof. M. J. Holcomb, from the department of English at Bethany college; and Prof. J. H. Lawrence, debate coach at the College of Emporia.

The Oratorical committee which has charge of the program is made up of: O. L. Norton, chairman; J. K. Watt, program; and George Montgomery, judges and awards.

ADVOCATES MOTHERLINESS

Ellen Key Would Compel a Course in Housekeeping

"Ellen Key is a Swedish woman writing of Swedish people and things as she saw them in Sweden," said Miss Katherine Bower in her discussion of Ellen Key on Wednesday afternoon, March 4. "Her books are highly suitable to the time that they were written."

"You can not hold Ellen Key to consistency in any two pages of her writing. She suggests reforms yet offers no suggestions for them, except in regard to the care and education of children. Yet a wonderful fact is true; within less than half a century she has lived to see some of her suggested reforms put into practice."

Ellen Key is insistent in her advocacy for motherliness and edu-

cation for motherhood. She says that a course in caring for children and in health and nursing, made obligatory for all girls, would be more rational than laws for compulsory military service among men.

The fact that other nations concede the position of women to be far more advanced in the Scandinavian countries than anywhere else may be due far more to the influence of Ellen Key than we realize.

FIRST RECOGNITION CHAPEL HELD FOR AGGIE ATHLETES

"K" Awards Presented to Deserving Athletes in All Sports—Girls Receive Sweaters for Ability

The first annual recognition day for K. S. A. C. athletic organizations was held at chapel Wednesday, March 4.

In the opening talk "Mike" Ahearn expressed the hope that the athletic recognition day would be made permanent at K. S. A. C. "It would be more impressive," he said, "and the presenting of awards would not interfere with the other chapel periods."

The girls who received letters for the past year were: Catherine Bernheisel, Ida Conrow, Ethyl Danielson, Opal Gaddie, Florence Haines, Lona Hoag, Nellie Kneeland, Betty McColin, Inga Ross, Myrna Smale, and Genevieve Tracy.

The football men receiving letters were: Lyle Munn, Arthur Doolen, Ray Keefer, J. W. Ballard, Myron Reed, Simon Tombaugh, Harold McGee, Bernard Harter, Raymond Smith, Harold Dayhoff, Archie Butcher, E. E. Feathers, John Milder, R. V. Hutton, Kenneth Yandell, Donald Meek, Russell Hoffman, Owen Cochran, Joseph Anderson, Jerry Krysl, Chester Havelley, Otis Wilson, and Kerr Whitfield.

Track squad letter men: L. E. Erwin, A. I. Balzer, John Gartner, Emil von Riesen, K. G. Knouse, Norman Roberts, Ralph Kimpfort, P. R. Carter, H. A. Brockway, E. E. Coleman, and Fred Brunkau.

Basketball letter men: Arthur Doolen, Henry Webber, Eric Tebow, K. R. Bunker, Fritz Koch, and Gil Wann.

Cross country letter men: R. E. Kimpfort, R. N. Sallee, E. Rutherford, Emil von Riesen, Paul Axtell, and R. P. Aikman.

Baseball letter men: L. M. Staley, Glenn Aikins, Lyle Ernst, R. M. Karnes, H. D. Karnes, Bernard Conroy, A. L. Biehn, Rex Huey, Ed Cunningham, Lyle Munn, Paul Vohs, Burr Swartz, Nelson Barth, Howard Webber, Arthur Doolen, Fritz Koch, Eric Tebow, Kerney Bunker, and Gil Wann.

Swimming: Burton Colburn, J. T. Mackey, P. R. Carter, Paul Stuenkel, L. C. Miller, C. W. Schemm.

Boxing: Carl Hoelzel, F. T. Rose. Dean Willard presented pins to students who had played in the band for four years. Those who received pins were: J. D. Haines, Walter Hemker, Lawrence Woodman, Clell Wisecup.

E. A. Stokdyk, specialist in marketing, discussed "Current Index Numbers," at the agricultural economics seminar on Thursday, February 27.

DEBATE WITH DRAKE TONIGHT

AGGIES ENTER FIRST VALLEY CONTEST OF SEASON

South Dakota Takes Victory Over K. S. A. C. by 2 to 1 Decision—Freshman Debaters Lose to Hays

The first debate of the Missouri Valley Debate league to be held here will be with Drake in Recreation center tonight at 8 o'clock. K. S. A. C. will uphold the affirmative side of the question, "Resolved: That congress be given power to override by two-thirds vote decisions of the supreme court declaring acts of congress unconstitutional."

Experienced Debaters on Team

The affirmative team for the college will be composed of Robert Hedberg, Emil Sunley and Forrest Whan. The Drake debaters upholding the negative are Benton J. Strong, William Friedman, and W. O. Chatterton, who will speak in the order named. They will be accompanied by their coach, Gene F. Carroll. The men who will participate in this debate are all experienced debaters, having participated in one or more intercollegiate contests prior to this one. Forrest Whan was one of the debaters for K. S. A. C. last year, as well as for the present season.

This week has been a particularly busy one for the men's squad, as three debates were on the schedule. A two-speaker team debated the constitutionality question at Hays last Monday night. K. S. A. C. was represented by Frank Glick and Emil Sunley. Hays won the decision, although the debaters from Manhattan were given second and third places in the respective ratings given for the four speakers. According to the grades, Hays won the decision by a very narrow margin. There was only one judge for this debate, Professor Hesse of McPherson college. Professor Hesse was also one of the judges at the women's debate with Washburn held here last week.

Lose to South Dakota

Another two-speaker negative team debated the same question last Wednesday night at the University of South Dakota at Vermillion. The men who made the trip were Cecil E. Walt and Frank Glick, accompanied by the debate coach, Prof. H. B. Summers. This was the third trip which has been made by the men's squad this season. The University of South Dakota won this decision by a two to one vote. The debate season for men will be closed by a trip to the Pacific coast, on which they will meet practically every university and college on the route.

JUDGING CONTEST APRIL 18

Klod and Kernel Klub Announces Seventh Annual Event

The seventh annual students' grain judging contest under the auspices of the Klod and Kernel Klub of the college is to be held Saturday afternoon, April 18. The date has been set later in the semester than usual in order to give this semester's farm crops students more time to prepare for the contest.

Work on the contest is well under way. G. McKinley Reed and C. W. Bower have charge of the grain samples.

Prizes have been offered by the following:

Goffe and Carkner Grain Co., D. D. Coe Seed Co., Barteldes Seed Co., Hays City flour mills, Simonds-Shields-Lonsdale Grain Co., Weekly Kansas City Star, Capper Farm Press, Farm and Fireside, Successful Farming.

GO-TO-COLLEGE TOURS BEGIN

First Team Leaves Manhattan March 15 for Week's Trip

The first go-to-college team will leave Manhattan, March 15, for Oberlin. Agatha Tyler, Lynn Fayman and James Price make up the team.

In addition to giving regular go-to-college and come-to-K. S. A. C. talks they will present a one-act play, "Questioning Fate" at high school assemblies. Their schedule routes them through Oberlin, Norton, Phillipsburg, Agra, Smith Center, Gaylord, Mankato, Jewell, Belleville, and Clyde. They will return to Manhattan Saturday, March 21.

Graduate Supervises Club Work

K. L. Ford, '24, vocational agriculture instructor at Norton, is supervising boys' and girls' clubs of Norton county. At present he has seven clubs and 100 members. This is the first year for club work in that county.

Jardine Is Now the Youngest Member of the National Cabinet

When W. M. Jardine officially became secretary of agriculture, March 4, he automatically received the distinction of being the youngest member of President Coolidge's cabinet. He is 13 years younger than the average age of the cabinet members.

Mr. Jardine was 46 years old in January. His nearest cabinet competitor in youth is Herbert Hoover, who is 50 years old. From these two mere "boy" secretaries to the oldest cabinet member, Andrew Mellon, who is 71 years old is a jump of more than a score of years. The new secretary of state, F. B. Kellogg, is next highest in point of years, being 68 years old.

The average age of the members of the present cabinet is 59 years. So in the person of Mr. Jardine, Kansas is sending comparative youth to an important position in the government of the country.

FLONZALEY FOUR HERE MARCH 18

IS FOREMOST STRING QUARTET IN AMERICA AND EUROPE

Will Play in College Auditorium—Three Members Have Worked Together 21 Years

The word Flonzaley is a combination of Italian and Old French, which may be translated as "brooklet"—"flon" in the Swiss-Baudois dialect meaning river, and "Flonzaley" being its diminutive. The name as applied to the Flonzaley quartet, which is to play at the college auditorium Wednesday, March 18, under the supervision of the K. S. A. C. Artist series, was taken from the "Villa Flonzaley," the Swiss home of the man who founded this ensemble, the late E. J. de Coppet.

Musicians of Highest Rank

For years Mr. de Coppet had been interested in chamber music. It had been his custom during his sojourns in New York to engage privately a string quartet for the sole enjoyment of himself and his friends. For this purpose he engaged musicians of the highest rank. In 1902 his first violinist was forced to relinquish his post. Mr. de Coppet happened about this time to meet Alfred Pochon in Europe, and he proposed to him that he come to America to join the other artists of the quartet.

Mr. Pochon gave up his position at the Royal Conservatory of Brussels, and came to America. He found before long that the outside demands on the members were detrimental to the best interests of the quartet. Insufficient time for rehearsals was the greatest drawback. Therefore, Mr. Pochon decided that if four men could be found who would devote their entire time to quartet playing, who would be great enough idealists to forego all thought of personal interests, to be willing to work for the good of the quartet as an entity, that herein would lie the germ of its greatness. Mr. de Coppet immediately recognized the value of the suggestion, and set about finding the members.

Organized Quartet in 1903

By the summer of the next year, 1903, four such musicians were gathered at last at the Villa Flonzaley to discuss steps toward the formation of what has become since that time the foremost string quartet in America and Europe. They were Adolfo Betti, an Italian who had given up his position as instructor under Cesar Thomson at the Royal Conservatory in Brussels to undertake this new work; Ugo Ara, also an Italian who made the decision to devote himself henceforth exclusively to the viola, and who as a first sacrifice put away his violin forever; Iwan d'Archembeau, a Belgian 'cellist of the Conservatory of Luxembourg, and Alfred Pochon, the Swiss violinist. These men differed in nationality, but all of them took the major part of their musical training in Belgium.

The marvelous ensemble of technique and spirit which the present Flonzaley quartet displays can doubtless be attributed to the fact that three of the original four members have worked steadfastly together in the 21 years since the formation of the quartet. Duties of the war caused Ugo Ara to leave the group, and his position in the present quartet is held by Felicien d'Achambeau, brother of Iwan, the 'cellist.

Prof. R. I. Throckmorton, head of the agronomy department, addressed the Horticulture club at the regular meeting, on March 3, on the subject, "Kansas Orchard Soils."

Committee to Interview Engineers

The Bell system recruiting committee will be in Manhattan on Friday and Saturday, March 13 and 14, for the purpose of interviewing senior electrical engineering students that desire to go into telephone work after graduation.

The committee is composed of representatives from the Southwest Bell Telephone company, the Western Electric company, and the American Telephone and Telegraph company.

GIVEN TO ORATE ON "CRIME CRISIS" IN M. V. CONTEST

Will Represent K. S. A. C. at St. Louis—Aggies Rank High in Valley as Orators

Results of the tryouts for contestants in the Missouri Valley Oratorical contest were announced Wednesday by Dr. Howard T. Hill, in charge of the tryouts. K. W. Given, speaking on "The Crime Crisis," will represent K. S. A. C. at the contest in St. Louis, where it will be held with Washington university as host.

Second place in the elimination was given to Frank Morrison who spoke on "Public Opinion and World Peace." Miss May Danheim won third place with the subject, "The Hill of Dreams."

Original arrangements were to hold the annual contest at a different school each year, but for the past four years Washington university has played the willing host and the event has been held there.

With one first place, two seconds, and one third place, in the last four years, K. S. A. C. stands first in ranking contestants. In 1921 Milton Elsenhower won the event, in 1922 J. Wheeler Burger placed second, in 1923 Edward Merrill placed third, and last year Martin Fritz placed second.

Judges for the contest are the coaches of the various contesting teams, each voting on teams other than his own. Of the business that took place at last year's contest the organization of the present Missouri Valley Debating league was a part.

NO ACTION UNTIL JULY 1

Dr. Jardine's Resignation Has Been Placed on File

Doctor Jardine's resignation, which was placed in the hands of the state board of administration shortly after his appointment as secretary of agriculture, has been placed on file. Since he had already been granted an indefinite leave of absence, it is probable that no action will be taken on his resignation before July 1.

COLLEGE RIFLE TEAM IS COMPETING IN HEARST MEET

Seven Men Compose Team but Only Five Highest Scores Will Count

The K. S. A. C. rifle team is competing in the Hearst Trophy telegraphic rifle matches this week which are open to all college rifle teams in the United States. Seven men compose the Aggie team, but only the five highest scores will count in the match, according to Captain W. P. Waltz, rifle team coach of the college. The seven men who compose the Aggie team are E. E. Howard, E. Miller, D. C. Taylor, V. C. Hill, C. Walt, T. H. Long, and R. L. Roberts.

In addition to the Hearst trophy, awarded to the winning team in this meet, all men of the winning team will receive medals. Medals are given also to the three highest men in the match.

Results of the scoring in other rifle meets in which the K. S. A. C. team competed indicate that the Aggie team should make a very creditable showing in the Hearst Trophy event. In a quadrangular event between Virginia Polytechnic Institute, Missouri university, K. S. A. C. and South Dakota university, the teams finished in the order named. T. H. Long was high man on the Aggie team in this meet with a score of 380 out of a possible 400. C. Walt was a close second with 378 while V. C. Hill was third with 375.

No results have been received from the other schools in the 'corps area match which was completed February 14. On the Aggie rifle team D. C. Taylor was high man with 758 out of a possible 800 but was closely pushed by O. K. Correll with a score of 757. E. Miller and R. L. Roberts tied for third with a score of 753 each.

No results have been received from the triangular meet which was held during the week ending February 28, between the rifle teams of Kansas university, South Dakota Agricultural college, and K. S. A. C.

CRAWFORD MAY BE ASSISTANT

IN LINE FOR PLACE AS JARDINE'S SECRETARY

Journalism Head Has Received No Official Appointment—Is Well Known Writer and Critic

According to a news dispatch in the Kansas City Times, Wednesday morning, Prof. N. A. Crawford, head of the department of industrial journalism and printing, will become confidential secretary to Dr. Wm. M. Jardine, new secretary of agriculture.

The report, supposedly coming from Doctor Jardine himself, came as a surprise even to close friends of Professor Crawford. Although such action by Doctor Jardine was not considered improbable, no intimation of his intentions had been made here.

Crawford Makes No Statement

Professor Crawford stated yesterday that he had received no official notice of his appointment from Washington, and that he would make no statement nor plans until such notice was received. He did say, however, that the matter had been discussed informally before Doctor Jardine left last Saturday.

Professor Crawford came to K. S. A. C. in 1910 as an instructor in English. He later became assistant professor in journalism, and in 1914 became head of the department of industrial journalism and printing.

He is nationally known as an author, critic, and teacher. He is associate editor of The Midland, and has been connected with several national magazines as a contributor.

Is Writer of National Repute

He was national chancellor of the American College Quill club from 1919 to 1923, president of the Kansas Authors' club from 1922 to 1924, president of the Kansas Association of Teachers of Journalism for several years, and last December was elected president of the American Association of Teachers of Journalism at their meeting in Chicago.

His "Ethics of Journalism" has become nationally accepted as one of the most authoritative treatments on the subject. He contributes criticisms to the New Republic, Dial, Poetry, and other national literary magazines.

Professor Crawford is a member of Phi Sigma Kappa, Phi Kappa Phi, and Sigma Delta Chi. He is a graduate of the University of Iowa and the University of Kansas.

ORCHESTRA CONCERT IS APPRECIATED BY MUSIC LOVERS

Fine Program Given at Auditorium Tuesday Was Broadcast Wednesday

The concert given by the college orchestra, Tuesday evening, was in all probability the finest program given by a college orchestra in the history of this institution. From the viewpoint of variety of composition, artistic ensemble, balanced instrumentation, competent personnel, and interpretive direction, the program probably stands unparalleled in the history of the college orchestra.

Bach's "Concerto in D Minor" for two violins and orchestra of strings was technically the most interesting number on the program, and gave Mr. Harry Lamont and Miss Elizabeth Van Ness, violinists, a fine opportunity to show their art.

Other outstanding numbers in the program were "Air de Ballet" and "Fete Boheme" from Massenet's "Scenes Pittoresques," and "Valse Triste" by Sibellus. Elgar's "Pomp and Circumstance" made an effective closing number. The orchestra was ably assisted by Prof. Ira Pratt, who sang "Madamina! il catalogo," from "Don Giovanni."

The same program was broadcast Wednesday evening.

FARRELL GOES TO TOPEKA

Will Be Present When Appropriations for College Are Taken Up

President Farrell went to Topeka Thursday morning to be present at the sessions of the legislature in which appropriations for the college are taken up. The report of the ways and means committee on appropriations for educational institutions will probably come up Friday or Saturday.

In addition to an increase in maintenance funds, appropriations for a new library building, women's dormitory, and to carry on experimental work in the southwestern part of the state are being asked.

Gertrude Gills of Emporia and Clarinda Mallen of Cottonwood Falls were guests at the Alpha Delta Pi house last week-end.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

FRIDAY, MARCH 6, 1925

"PREXY" FARRELL

The hullabaloo and hurrah of President Jardine's leaving for his new position at Washington is now over and Dean F. D. Farrell has taken over the helm of K. S. A. C.

What sort of a man is this new head of the college? The students of agriculture probably know him very well but he is more or less unknown to the remainder of the student body. He controls our educational destinies now, just what will he do in changing the established order of things, if he desires them changed?

We don't know President Farrell very well personally. He has given us some good news stories at different times and a good source of news always stands high in the estimation of journalists. But we do know that if he shows the wisdom and judgment in everything he does, as well as it was shown in his first official act, a very successful period for the college is assured. We say this because we feel certain Prof. L. E. Call, who has been appointed acting dean of agriculture, is the man best fitted for the position. Any president who shows such good judgment in his first official act cannot possibly direct the school badly in the future.

We're for you, "Prexy" Farrell.

Cozy Inn—We deliver night orders, hot dogs, hot tamales, hamburgers, light lunches, and ice cream. Phone 1328X. 39-4f

As a test for universal brotherhood and public helpfulness why not ask the new head of the college to add another day or two to the Easter vacation?

A good proof that folks do use their eyes is that they frequently hunt out the dark spots just to test their eyesight.

College is a dispeller of illusions. On coming to college we fondly believed that the Bible and the dictionary were indispensable. We brought them both and carefully deposited them on our desk. The dictionary has been used once—to look up the spelling of bourg—burgeo—well, we used the word in here once. Since then the dust has again collected on the said book.

And the Bible was put in the trunk long ago. It got in the way and crowded the text books and magazines.

No one ever mentioned the fact that the Brown Bull rated a cartoon in a recent number of Whiz-Bang. The college should be exceedingly proud of this.

Rhetoric instructors are prejudiced against even such little words as "tho" and "thru," tho there is really no reason for this rank injustice. Diplomacy, however, demands that we not use either of them in class. We really intend to use both when we get thru with rhetoric tho.

The boxing meet was held last Wednesday. Fortunately no one was hit.

Would it be more correct to say that "the girl was hale and hearty thru out her hole life" than to say "the girl was whale and whearty thru out her whole life"?

After viewing the pictures of the "fare ones" over in Anderson hall, we cannot help but be thankful that friend Flo had that job rather than us.

Really, those pictures shouldn't be left up for very long in such a public place. Some visitor might judge the boys on the same basis. Then the report would get out that we were all homely.

(Pardon, girls, no offense intended—that is, not much.)

A great load has been removed from the minds of the heads of the journalism department. The entire herd of journalists has returned to normal. At the last lecture seven went to sleep, everyone talked, and candy was seen and heard over the entire room.

Harry sneeringly remarks that there isn't a girl in Manhattan who is worth the time it takes to call her up. Violent applause!

To Attend Meeting of Entomologists

Mr. J. W. McCulloch left Wednesday for Lafayette, Ind., where he will attend a meeting of the entomologists of the northern Mississippi valley, and a conference of the plant quarantine officials. Mr. McCulloch has been acting head of the department of entomology here during the absence of Professor Dean.

Seward Michelstetter spent last week-end in Hutchinson.

TRACK MEET MONDAY

Intramural Indoor Entries Will Be Taken on Floor

The indoor intramural track meet will be held in Nichols gymnasium, Monday night, March 9, at 7:30. The meet was scheduled for Friday, February 27, but because of the number of clubs and fraternities quarantined, E. A. Knoth, director of intramural athletics, was forced to postpone it until the quarantines were lifted.

Entries for events will be taken on the floor so no previous special enrolment will be necessary. Points will count toward the intramural trophy and toward intramural sweat-ers.

Events scheduled are the 30, 220, 440 and 880 yard dashes, the pole vault, high jump, 30 yard high and low hurdles, the mile and two mile run, and the half-mile relay.

Mrs. Jardine Returns from K. C. Mrs. Jardine, who accompanied Doctor Jardine as far as Kansas City on his way to Washington, returned Monday evening. The Jardine family will remain in Manhattan until the end of the school year, and will retain their residence in the president's home while here.

Cozy Inn, 1403 Anderson—Quality food at reasonable prices. We deliver night orders. Phone 1328X.

Emporia Seeks Advice on Stadium Mr. Hill, superintendent of the buildings and grounds at Kansas State Teachers college, of Emporia, was in Manhattan Wednesday to consult Dean R. A. Seaton and Prof. L. E. Conrad with reference to the design of the steel structural work for the Memorial stadium now under construction at the normal college.

Discuss Estes Park Conference

The Y. W. C. A. and Y. M. C. A. cabinets will hold a joint meeting on Sunday, March 8, from 3 to 5 o'clock in the rest room of the home economics building.

The purpose of this meeting is to discuss the plans for the rest of the

year, one of which will be the joint conference to be held at Estes Park from August 22 to September 1.

Lenten Service at Vespers

A Lenten service will be held at vespers on Tuesday, March 10. The program, which is to be mostly musical, will be: Violin solo, Jean Rankin; "The Meaning of Lent," Dorothy Rosebrough; vocal solo, Dorothy Sanders; anthem, Y. W. C. A. octette.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

FOR SPRING WEAR

The Young Men's Own Ideas In Our New Suits for Spring

In designing Spring Clothes for several hundred stores we have tried to interpret what Young Men want in Clothes. Our Spring Suits at—

\$29.75

—are in tune with the Spirit of Youth; Young Men like them because they are Stylish, with plenty of "PEP," without being freakish. New, unusual patterns and mixtures.

Only excellent quality fabrics are used—serges, cassimeres and unfinished worsteds of dependable quality and real value; Silk Mixtures, Stripes and Checks; new Spring shades.

Two-button, single breasted models are the favorites; these suits have semi-blunt vest and medium to full trousers; not extreme—just right.

Stage directions for this scene from William Vaughn Moody's play, "The Great Divide," call for a woman's muffled scream, a pistol shot, and the crash of breaking furniture. The microphone on the right sends them all to your home.

An Exciting Evening

Here are four of the WGY Players (the world's first radio dramatic company) at a thrilling climax that almost turns sound into sight.

Tune in, some evening, on one of their productions. You will be surprised to find how readily your imagination will supply stage and setting.

WGY, at Schenectady, KOA, at Denver, and KGO, at Oakland, are the broadcasting stations of the General Electric Company. Each, at times, is a concert hall, a lecture room, a news bureau, or a place of worship.

If you are interested to learn more about what electricity is doing, write for Reprint No. AR 391 containing a complete set of these advertisements.

GENERAL ELECTRIC

GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

It's a Waverly Cap of Course

Excellent tailoring; fine cassimeres; genuine, all-leather, soil-proof bands. Smart style—dependable quality—low price, too, at—

WRESTLING AND BOXING
DRAW LARGE ENTRY LISTFirst Rounds Held Wednesday
Night and Semi-Finals Thursday
—Finals Run Off Tonight

The first rounds in the intramural wrestling and boxing tournament were held at the Nichols gymnasium Wednesday evening, March 4. In the wrestling tourney the following matches were run off:

115 pound class: G. O. Yandell won a decision from S. M. Frazer; L. E. Melia won from H. Bock in 4 minutes with half nelson.

125 pound class: No entrants appeared.

135 pound class: F. Pierce won from B. Dice in 1 minute with half nelson and crotch hold; W. W. Gossney won from R. V. Macias with body lock; J. A. Johnson won from D. J. Fidler with half nelson in 3 minutes; H. E. Callis won from C. B. Ault with body lock in 3 minutes; J. J. Moran won from C. E. Rugh with head lock in 5 minutes; T. Cleaver won from Max O'Brien with half nelson in 2 minutes; R. L. Reed won from A. Helm with a 4 minute advantage; D. C. Wright won from M. McCassey with half nelson and crotch hold in 45 seconds.

145 pound class: Mito Etrick won from Holton; D. J. Lindsay won from H. K. Fisher with wrist lock in 1 minute; G. T. Bond won from Watson with body lock in 4 minutes; G. T. Bond won from E. B. McKnight with half nelson and body lock in 4 minutes; O. E. Marsh won from H. P. Basdel with half nelson and crotch in 1 minute; R. Adams won from Vandervelt with scissors and wrist lock in 5 minutes; O. E. Marsh won from R. Adams with a 2 minute advantage; M. Donoho won from H. M. Denison with a 2 minute advantage; H. L. Schuff won from L. F. Winkler with a half nelson and crotch in 4 minutes; H. L. Schuff won from M. Donoho with a 2 minute advantage; J. W. Stout won from F. F. Herr with a 3 minute advantage; J. W. Stout won from C. C. Alexander with a 3 minute advantage; C. E. Long won from E. L. Miller with a 2 minute advantage.

158 pound class: S. A. Michelstetter won from E. R. Lord with body lock in 5 minutes; C. E. Crews won from H. W. Allard with half nelson and body lock in 4 minutes; F. H. Norton won from M. B. Miller with body lock in 3 minutes; H. L. Casper won from C. I. Feldman with half nelson and crotch in 4 minutes; Lester Frey won from Paul Pfeutze; W. E. Lumb won from R. C. Tate with half nelson in 4 minutes.

In the 175 pound class A. D. Lovett won from J. C. Hopkins with a 3 minute advantage; C. H. Towle won from G. C. Cooksey with an advantage decision.

In the heavy weight class John Gartner won from W. T. Perham with half nelson in 30 seconds.

In the boxing tourney, in the 115 pound class Dunlap won from L. E. Melia; C. L. Barnett won from J. G. Swartz.

In the 125 pound class Westerman won from Edgar Bachman; Watson won from Buoner; L. T. Igleheart won from H. M. Greer; Owen Callahan won from Dunlap; Leshner from Randall; F. O. Wolfenbarger won from R. S. Sage; Tomson won from P. L. Thacher.

In the 135 pound class, Brooks won from Casey; J. J. Moran won from J. Dalrymple; G. M. Young won from Jones; H. M. Sheppard won from Hamilton; Gordon Brown won from J. W. Rees; D. F. Coburn won from L. M. Quinn.

In the 145 pound class Marlon Donoho won from Brunkman; Shaw won from V. M. Spurlock; Blackledge won from N. G. Artman; D. F. Engle won from Williams; H. A. Mills won from Brown; H. C. Markley won

from Nesler; Davies won from Sanlis.

In the 158 pound class R. D. Pugh won from Davis; Tauton won from Tate; F. D. Mahan won from S. Herron; P. A. Skinner won from Reuker; W. E. Lumb won from L. W. Wolfe; Halen won from S. A. Michelstetter.

In the 175 pound class, C. H. Towle won from W. E. Sears; Dean won from Wiesner; Lyon won from G. D. Frisbie.

The semi-finals of both boxing and wrestling were held Thursday evening in the gymnasium, and the finals will be Friday evening, March 6.

Mrs. Emma Pasmore, house mother of Sigma Alpha Epsilon, slipped on an icy walk and broke her ankle last Thursday. She is at present in the Parkview hospital.

Ralph Clark returned to school after spending the week-end with his parents in Junction City.

Mrs. W. J. Norton of Chanute spent the week end with her daughter, Helen.

Sigma Delta Chi, men's honorary journalism fraternity, announces the pledging of Gene Conklin, Hutchinson.

30 Days Ago She Was a Wall-flower

Evenings out were a blank to her. She was unattractive, uninteresting because she had "nothing to offer." Boys avoided her. Girls tolerated her. She was the proverbial wall-flower, a drug on the social market.

Then one day she read one of my advertisements just as you are reading this one and she was smart enough to take the hint—and act upon it. Thirty days from the time she read my advertisement she had turned the tables. Now she's "the life of the party," admired, sought for, invited everywhere, and always the center of attraction.

And she says she owes it all to

"THE HOME OF STANDARD MERCHANDISE"

WILDCAT VICTORY GIVES K. U. TITLE

KANSAS "IN" FOR THIRD CONSECUTIVE CHAMPIONSHIP

Aggie Chance for Scoring Leadership Depends on Game Tomorrow Night—May Finish in Third Place

By defeating Washington university of St. Louis 37 to 26 on the Washington court Tuesday night the Kansas Aggie basketball team presented the University of Kansas with the undisputed title to the valley basketball crown for 1925, the third consecutive year that the Jayhawk has finished in first place. Prior to the Aggie-Washington game indications pointed to the possibility of the final game between Washington and Kansas in Lawrence next week deciding the race, with Kansas assured of a tie even if defeated. Kansas, however, is "in" now, with 14 games won out of 15 played and only one, with Washington, remaining.

A Husker-Piker Tie

Washington has won ten and lost three, while Nebraska is tied with the Pikers with the same standing. Aggie chances for a tie for third depended on their winning from Missouri, Wednesday night.

By winning from Missouri, and from Washington here tomorrow night, the Wildcats would be assured of at least undisputed possession of fourth place. Loss in one game would give a tie for fourth with Oklahoma, and loss of both would throw the Wildcats into undisputed possession of fifth place. Should Washington be defeated in all three of her remaining games, with Nebraska, Kansas, and the Aggies, the Aggies could tie for third with 10 won and six lost by two victories.

Pass Kansas on Offensive

In team offensive the Aggies jumped ahead of Kansas by winning the Washington game. Kansas has scored 426 points in 15 games, while the Aggies chalked up 429 in fourteen, including the Washington affair. On total points scored, however, Oklahoma leads with 493, the Sooners having completed the 16 game season. On average points per game, the Wildcats and Sooners are tied with 30 each, while the Aggies can jump into the lead for the entire year by rolling up a score against Washington.

May Play with K. C. A. C.

The last minute finishing power of the Kansas team seems to have carried it through to the title, as it did last season. Both in 1924 and 1925 Kansas had narrow escapes to her credit, including at least a half dozen one point victories in the two years. The addition of Schmidt, a sophomore, to the line-up at the start of the second semester probably saved the title for the Jayhawkers. Without him Kansas presented a line-up of exceptional basketball talent, but one which was somewhat young, inexperienced and lacking in the stamina for 40 minutes of hard play.

With the season over, it is rumored as a possibility that some members of the Kansas squad may play with other mid-west college stars on the Kansas City Athletic club team in the national tournament.

The Aggies were assured of at least a tie for fourth place in the valley by defeating Missouri 43 to 32 Wednesday night. Tebow scored 24 points, while Bunker crept up to within two points of Ackerman as valley scoring leader by making five goals.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, MARCH 10, 1925

NO. 46

COLLEGIAN TO HOLD CONTEST

STUDENTS TO GUESS SIX MOST BEAUTIFUL COEDS

Subscriptions to the Collegian to Be Given to First Six Selections Like Ziegfeld's

A new contest has been instituted by the Collegian. It is a contest that any student may enter and win fame and laurels for himself as well as a year's subscription to the Collegian.

Florenz Ziegfeld has picked the six most beautiful Aggie coeds. In order that the students of the college, particularly the men students, might have an opportunity of demonstrating their beauty judging ability also, the guessing contest was conceived.

Names Placed According to Beauty

On the coupon printed here, are spaces for six names. These are to be filled out with the names of the six most beautiful of Pharaoh's daughters. The names should be placed according to beauty, No. 1 the most beautiful, No. 2 the second most beautiful, and so on.

To the first six coupons received by the contest editor, whose first three names correspond with those on the list of Mr. Ziegfeld, a year's subscription to the Collegian will be given. In the event that any of the winners are seniors the paper will be mailed to their future addresses. The first three names on the list must be in the same consecutive order as are the names on Ziegfeld's list. The last three names may be in any order.

Winners to Be Announced

Only one coupon may be submitted by each student, and only the printed coupon may be used. The pictures of Pharaoh's daughters are in the main hall of Anderson hall, with the name of each beneath the picture.

The six winners of the Collegian guessing contest will be announced at Pharaoh's ball which will be held at Harrison's hall Saturday, March 21. Florenz Ziegfeld's selection will also be made public at this time. The contest will close at 5 p. m., Friday, March 20, and all coupons must be in the postoffice or in the hands of the editor before that time. Mail the coupons to the Guessing Contest Editor, Collegian.

Six Named for Hearst Trophy Team

The K. S. A. C. rifle team will compete in the Hearst Trophy match which begins March 7. The six men chosen to fire in this match are as follows: E. E. Howard; E. Miller; D. C. Taylor; V. C. Hill; Cecil Walt; T. H. Long; and R. L. Roberts.

SOCIAL CALENDAR CROWDED

Parties, Dinners, and All-College Events Numerous This Spring

Scheduled social events crowd the calendar for the remainder of this school term. Spring parties, dances, and dinners are being planned by practically every organization on the hill. The prom and hop, the music festival, the Ag fair, and the May fete are all-college events.

On Dean Mary P. Van Zile's calendar the following events are already listed:

Friday, March 13, Sigma Phi Epsilon spring party, Lambda Chi Alpha house dance, Lutheran students' party.

Saturday, March 14, Enchiladas dance, Phi Sigma Kappa banquet, Wednesday, March 18, Artists Series—Flonzaley quartette.

Saturday, March 21, Mu Phi Epsilon dinner dance, Pharaoh's Ball, Alpha Theta Chi Spring party.

Friday, March 27, Intersociety play.

Saturday, March 28, Phi Lambda Theta spring party.

Friday, April 3, Pi Kappa Alpha spring party, Phi Omega Pi spring party.

Saturday, April 4, Acacia spring party, Lambda Chi Alpha spring party.

Thursday, April 9, Delta Tau Delta spring party, Triangular spring party, Farm House spring party.

Friday, April 17, Junior-Senior Prom.

Saturday, April 18, Freshman-Sophomore Hop, Phi Delta Theta spring party.

Friday, April 24, Alpha Xi Delta spring party, Kappa Kappa Gamma spring party.

Saturday, April 25, Delta Delta Delta spring party.

April 28-May 3, Music Festival.

Wednesday, April 29, Purple Masque play.

Friday, May 1, Alpha Tau Omega spring party.

Saturday, May 2, Kappa Sigma spring party.

Friday, May 8, Sigma Nu spring party.

Saturday, May 9, Ag. Fair, Gamma Phi Delta spring party.

Friday, May 15, Phi Delta Theta Tri-Chapter party, Alpha Rho Chi spring party.

Saturday, May 16, Phi Sigma Kappa spring party, May Fete.

FARRELL AND CALL TO BE HONORED AT AG BANQUET

Division Will Hold First Official Meeting with Former Dean and New Dean

President F. D. Farrell and Dean L. E. Call, newly appointed head of the division of agriculture, will be honored at a banquet, which will be held in the college cafeteria Thursday evening, March 12, at 6:30.

This is the first official meeting of the students and faculty of the agricultural division at which their former dean and their new dean will be the guests of honor.

A good program has been prepared, including speeches and music. President Farrell and Dean Call will be the principal speakers. R. I. Throckmorton, who was appointed head of the agronomy department to succeed Professor Call, will speak in behalf of the faculty of the agricultural division. The students will be represented in a toast by Guy Faulconer. George Ellis will act as toastmaster.

One of the feature talks of the evening will be on the subject, "K. S. A. C. in Foreign Lands," by D. J. Vanidanberg, of British South Africa, who is a graduate student in agronomy.

An orchestra will furnish music throughout the evening. Several vocal and instrumental solos also have been secured. Prof. Harry Cave will lead the banqueters in the special songs that have been written for this occasion.

While this is primarily for students and faculty members of the division of agriculture, all others that may wish to attend are invited. Tickets may be obtained from the office of the dean of agriculture for \$1.00.

The banquet is sponsored by the agricultural association of K. S. A. C. "It is a stag affair. Anyone's time and money will be well spent if he is present," Wayne Rogler, manager of the banquet, said yesterday.

SEND OUT 30,000 BULLETINS

Homemakers Over State Receive Material from Extension Division

Over 30,000 bulletins were sent out last week from the division of extension to homemakers' clubs all over the United States.

The subject of these programs is "The Spice of Life" and "The Family's Recreation." Besides the regular round table discussion, there is a special section of jokes, children's games, suggestions, readings, songs, and dialogues.

This bulletin originally was intended to emphasize variety in the home, in food, in work, and in recreation but since there has been a general appeal for a program of humor, the department decided to help people find pleasure in ordinary living.

Five thousand bulletins of another type were distributed on the potato train which went to Lawrence two weeks ago. Stencils of beetles decorated these bulletins. The stenciling is done by Earl Graves, an Aggie student.

Photographs and half page cuts are being used now by the department to make its bulletins more attractive looking.

Scabbard and Blade Pledges 12

Scabbard and Blade, honorary military fraternity, pledged 12 men last Saturday. To be eligible to membership in this organization the candidate must be an advanced course man, possess high qualifications of leadership, and be outstanding in military academic work. Initiation will be held next Sunday morning.

The pledges are: Wayne Rogler, Alton Nuss, Robert Fort, Ben Coffman, Lyle Reed, Christian Rugh, Eric Tedow, R. E. Kimport, Elmer Canary, Dale Nichols, William Schindler, and G. C. Hatfield.

Lieutenant Colonel Bugbee returned from Omaha Thursday. He has been in consultation with Colonel Miller in regard to the R. O. T. C. summer camp.

QUILL CONTEST OPEN

The spring Quill club membership contest is open and will close April 1. Manuscripts should be submitted to Prof. N. A. Crawford before that date. Any one in school is eligible for membership.

CHOOSE YOUR BEAUTIES

LOSE FIRST M. V. DEBATE

Drake University Wins by a 2 to 1 Decision Here Friday

K. S. A. C. lost the first of the Missouri Valley league debates to be held here by a two to one decision to Drake university Friday night. The question was, "Resolved: that congress be given power to override decisions of the supreme court declaring acts of congress unconstitutional by two-thirds vote." K. S. A. C. upheld the affirmative of the question, the team being composed of Robert Hedberg, Emil Sunley, and Forrest Whan. The Drake debaters upholding the negative were Benton J. Strong, William Friedman, and W. O. Chatterton. They were accompanied by their coach, Gene F. Carroll.

Judges for the debate were W. A. Lewis, Kansas City, Junior college; G. R. Pfau, Emporia Teachers' college; A. E. Leach, Baker university.

The next debate will be held with the University of Kansas, Monday night. Both schools have been working for some time on this debate, and it will be one of the best to be held here this season.

ENTERTAIN DOCTOR BLUNT

Home Economics Teachers to Honor National President

Dr. Katherine Blunt, dean of home economics at Chicago university and president of the National Home Economics association, is visiting the college Tuesday and Wednesday of this week. She will be entertained at dinner at the practice house this evening, and the Chicago club will entertain with a luncheon in her honor Wednesday noon at the cafeteria. The district Home Economics association will give a banquet in honor of Doctor Blunt Wednesday evening. Invitations have been sent to all home economics teachers in this vicinity, to home economics teachers and ex-teachers in Manhattan, to senior and graduate home economics students, and to women prominent in home economics work in the state.

SIGMA TAU HAS BANQUET

A. M. Johnston Urges a Better Conception of Industrial Conditions

Sigma Tau, honorary engineering fraternity entertained with a four course dinner at the cafeteria Friday last week. About 40 college and faculty members attended.

A. M. Johnston, former county attorney of Riley county, was the speaker of the evening. In his speech, "Pardon Me," he made a plea for the enforcement and observance of our laws. He spoke of the necessity of the enactment of more sensible laws.

"It is through the ignorance of safety features and industrial plans that so many ridiculous laws are passed," said Mr. Johnston. He urged the engineers through their practical training to do all they could upon leaving school to bring people to a better conception of industrial conditions.

Agricultural Economist Is Here

J. H. Moyer, '21, research assistant in agricultural economics, in Manhattan this week, helping to summarize the farm organization data secured from Jackson county. Mr. Moyer, who has been located at Holton, has been in charge of the farm organization studies which have been conducted in Jackson county over a five-year period. These studies are now being terminated and the results prepared for publication.

Curtis Alexander is attending the western division conference of Delta Tau Delta at Denver, this week.

CREATE BOARD OF REGENTS

Members Will Serve Without Pay—Will Control State Schools

A board of regents to control the state schools of higher learning was created by a bill which was passed by the state legislature Saturday.

This act, which will take effect July 1, removes the five state schools, the university at Lawrence, the state teachers' colleges at Emporia, Hays, Pittsburg, and the agricultural college, from the control of the state board of administration, and places them under a board of nine regents appointed by the governor for four year terms.

The members of this board serve without pay and may be removed by the governor for just cause. They will take over all of the powers of control now exercised by the board of administration, which includes power to elect and remove executive heads, members of the faculty, or any other employee of the schools.

ELECT OFFICERS TODAY

Y. W. C. A. Holds Elections for 1925-26 Today and Tomorrow

Elections for the Y. W. C. A. officers for 1925-26 will be held today after vespers and all day tomorrow, in Recreation center. Miss Charlotte Swanson is chairman of the election board. Nominees for officers for the coming year are: President, Dorothy Rosebrough and Katherine Welker; vice-president, Genevieve Tracy and Ruth Faulkner; secretary, Mary Frances White and Margaret Burtis; treasurer, Trena Olson and Esther Babcock; undergraduate representative, Mildred Leach and Miriam Dexter.

LAST FORUM NEXT WEEK

Kammeyer and Farrell Give Talks at Last Two Meetings

Prof. J. E. Kammeyer, head of the sociology department, will speak on "Our New International Relationships" at the student forum on Thursday, March 12.

President Farrell will discuss "New Trends in Education" at the student forum on Thursday, March 19. This will be the last student forum of this year.

Tickets will be sold both at the Y. W. C. A. and Y. M. C. A. offices and at the east door of the cafeteria. The price is 25 cents.

Poultry Farm Has Many Orders

The poultry department is busy filling orders for hatching eggs and baby chicks. Practically the entire output at the poultry farm, besides the eggs required for reproduction of the local flock, is being shipped to poultry raisers in Kansas.

CHICAGO UNIVERSITY ALUMNI AT K. S. A. C. HOLD MEETING

Club Elects 1925 Officers and Discusses Finances

The Chicago club, an organization of the faculty members at K. S. A. C. who are alumni of Chicago university, held a meeting in the cafeteria Friday, February 27. Prof. W. H. Andrews was elected chairman, Dr. A. A. Holtz vice-chairman and Mrs. Effie Carp Lynch secretary for the coming year.

Plans for the finances of the future expansion of the university were presented to the club by Dr. W. H. Andrews. The 22,000 alumni of the university are expected to contribute \$2,000,000 during 1925. An endowment and building fund of \$58,000,000 has been planned for the near future.

Dr. Catherine Blunt, professor of home economics at Chicago university and president of the Home Economics Association of America, who will be at the college March 10 and

11, will speak to the Chicago club concerning the recent plans of the university. On April 27 and 28 Shailer Matthews, dean of the school of divinity at Chicago university, will be here visiting the various religious forces of the college. He also will speak to the Chicago club.

AGGIES TIE FOR THIRD BY VICTORY SATURDAY NIGHT

Percentage in Valley Is .638—Won from Washington by a 34 to 21 Score

By winning the last game of the season from Washington Saturday night with a score of 34 to 21, the Aggies closed the season with a percentage of .638, 10 games won and six lost, and advanced into a tie for third place in the valley standing. A victory for the Aggies was practically certain after the first minute of play, except during the first part of the second period when the Pikers rallied to come within four points of the Wildcat score.

The win gave the Aggies a final run of four straight victories, all of which, according to the dope sheet, should have been vice versa. The final standing for the Aggies now gives them 10 games won and six lost.

The game was very sluggish at times, each team playing sensational basketball only in spurts and making their points accordingly. Tebow was the high scorer of the game, making seven goals and two free throws. Bunker, the Aggies' leading scorer, was held to three goals and three free throws by Cox, Piker guard, who in turn scored five points for his team, making two field goals from back of center.

The summary:

WASHINGTON	FG	FT	F

ANNOUNCE FESTIVAL PLAY

Hold Tryouts for "Captain Applejack" March 26 and 27

"Captain Applejack" is the play to be presented by the Purple Masque players during festival week. It is a mysterious, romantic drama that will require more elaborate costumes, stage effects, and characterization than anything attempted by Aggie players this year. The cast is large and there will be opportunities for exceptionally fine parts for both men and women.

Tryouts will be held March 26 and 27 in G56 and those who are interested are urged to remember the dates. Prof. Earl G. McDonald of the public speaking department will direct the performance, which will be given in the college auditorium, April 29.

General Harbord Writes for Magazine

"Leaves from a War Diary," by Major-General James G. Harbord, which appeared in the latest issue of the Saturday Evening Post, is of special interest to Aggie students because of the fact that General Harbord was once an Aggie himself.

This is the first of a series of five articles by General Harbord that will appear in the Post.

FIRST PLACE TO ATHENIAN ORATOR

IONIANS TAKE SECOND IN TWENTY-FIFTH ANNUAL CONTEST

Frank Morrison Wins with Speech, "Public Opinion and World Peace"—Webster Orator Is Third

The twenty-fifth annual oratorical contest, held last Saturday night, was won by Frank Morrison, representing the Athenian literary society, thereby winning first prize of a gold medal and \$25.

Second honors, a silver medal and \$15, was won by Geraldine B. Reboul, representing the Ionian society, and third prize, \$10 and a bronze medal, was won by Alvin V. Ritts, orator for the Webster society.

By winning this contest the Athenian society holds the lead in number of contests won, this victory giving them six wins to five held by the Ionians and the Hamiltons.

Contests Very Close

The contest was very close as was evidenced by the relatively even grades of the orators, and the varied opinion of the audience concerning who should have placed.

The subject upon which Morrison spoke, was "Public Opinion and World Peace." It was easily evident that his fluent and graceful ability in expressing his ideas won him the unanimous decision of the judges. "Christianity and War" was the subject taken by Geraldine Reboul, and "The New Interpretation of an Old Truth" was the topic chosen by Alvin Ritts.

The representatives of the remaining five societies placed as follows: fourth, May Danheim, Franklin; fifth, Gladys Sanford, Browning; sixth, Lucile Stalker, Eurodelphian; seventh, Clarence Harder, Hamilton; and eighth, R. Enimitt Welsh, Alpha Beta.

Six Judges Decide Winner

The judges for the contest were: Professors A. F. Leach, department of public speaking at Baker university; E. C. Buehler, head of the department of public speaking at Washburn college; R. H. Ritchie, department of English at Ottawa university; M. J. Holcomb, the department of English at Bethany college; J. H. Lawrence, debate coach at the College of Emporia; and Mr. Gilkinson, debate coach at Kansas university.

Dr. W. E. Grimes acted as presiding officer and Dr. H. H. King was in charge of the demonstrations.

ORDER INVITATIONS NOW

Seniors Should Leave Orders at Royal Purple Office This Week

Orders for senior commencement invitations should be left at the Royal Purple office in Anderson hall, as soon as possible, according to G. A. Read, who is chairman of the invitation committee. It is necessary to obtain the orders now so the proper number may be ordered within the next few days.

Other members of the invitation committee are: Winifred Knight, Perry Rumold, Russell Dade, Kate Hassler, and J. K. Watt.

Military Man Talks to Economists

Captain C. W. Jones of the department of military science spoke at the meeting of the Agricultural Economics club on Tuesday evening, March 3. The subject of his address was, "The Future of Civilization."

Captain Jones is a graduate in agriculture from Purdue university, and is a member of the Purdue chapter of Alpha Zeta, the honorary agricultural fraternity. Previous to entering the military service at the beginning of the war, Captain Jones was engaged in agricultural work.

BOXING FINALS TONIGHT

Seven Matches Scheduled in Intramural Boxing and Wrestling

Intramural boxing and wrestling finals will be held at the Nichols gymnasium at 7:30 o'clock tonight. Seven matches will be scheduled for both boxing and wrestling; each match being the final of its class in the tournament. Admittance to the matches will be activity tickets or 50 cents.

Poultry Specialists to Hutchinson

Dr. W. R. Hinshaw and Doctor Lumb were called to Hutchinson on Sunday to investigate what was said to be an outbreak of the European fowl pest, but they found no trouble whatever other than the ordinary ailments found in packing houses at this time of year.

E. E. Hodgson, '24 has received a second lieutenant's commission and is stationed at Carlyle, Pennsylvania.

TUESDAY, MARCH 10, 1925

FRESHMAN NUMERALS

The K fraternity has voted to recommend to the athletic board of K. S. A. C. that numeral sweaters be awarded in all major sports to freshmen who have displayed sufficient ability to receive the recommendation of the coach.

It has been the custom in previous years to award only the members of the freshman football team with numeral jerseys. This practice is grossly unfair to competitors in other major sports who work just as hard and who must display just as much ability in their line as do the football players.

The mediocrity that has been evident to some extent in basketball, baseball, and track has been due partly to the lack of student recognition in these activities. Since Missouri Valley rules prevent freshmen from competing in intercollegiate sports, a whole year's work, without a chance to compete before the student body, becomes very boring. Of course, there are a few athletes who will practice faithfully without any thought of reward but there are also those who would make excellent performers but who do not train because it does not seem to them to be worth while.

The monetary cost of such sweater awards would be small compared with the resultant effects. If freshmen men had a goal to work toward, such as this sweater, there would be more available material for winning varsity teams.

Someone finally answered. All girls are not alike. There are two kinds. Nice sensible girls and college girls.

Most girls must go to college.

Some of these professors hold to the opinion that a mistake is a mistake and there are no degrees of differences. We would like to see one of them in a restaurant when his check was 20 cents too high and again when it was 20 cents in his favor. The second would probably not even be a mistake.

For the benefit of those who did not understand the little joke in the

the gums. Combats
acid mouth.

Refreshing and beneficial!

Brown Bull: An atheist is one who foolishly believes that a professor knows something.

The girls of the school should be a trifle more careful with their cigarette butts. The girl who sneaked behind the sign by the Canteen nearly caused a bad fire.

Spring fever is just a different and a bit nicer sounding name for the old chronic ailment—laziness.

A tuxedo is something you borrow or rent in order to show someone that you have one when they invite you to a party to find out if you do have one.

Our girl says that there are other fish in the sea besides a lot who live on dry land.

Harry thought she was one of these "I'll take the same" girls so they went to the restaurant. He ordered a fried ham sandwich. She played her own hand, though. Fortunately there was some friend present who could afford to stake Harry till the first.

We would trade the "thou" for another jug of wine and a half a loaf of bread any day. We may be prejudiced, however.

A brand new tie
A roommate
And no suspicion.
The tie, the friend
Are both gone.
I have a shotgun.
When he returns
I'll shoot him.
And he'll be missus.

We're heartily in favor of the new library. It will attract bigger crowds and make it easier to get a date.

On Other Hills

The University of Illinois glee club is now making a 750 mile tour.

Oklahoma university is to add a course in petroleum engineering to its curriculum next semester.

Students of the University of Texas are not allowed to have cars at school. A similar rule is in force at the University of Oklahoma.

Photographs illustrating good and poor posture, were recently taken of the students in the women's physical classes at Oregon Agricultural college.

Fraternity finances at the University of Michigan are controlled by the university.

Percy Marks, former professor at Brown university, and author of "The Plastic Age," gave a lecture recently on "The American Undergraduate" to the students of Ohio State university.

The first American college fraternity was organized in 1750 at William and Mary college, and was called the "Flat Hat Club."

The "Whirlwind," the Oklahoma university comic magazine whose publication was suspended by the school a short time ago, is to be re-issued under private ownership.

The Oregon Agricultural college military band, composed of forty pieces, will make its twentieth annual concert tour late this month. The trip will last ten days and will be made by boat down the Columbia river.

Students at Oklahoma A. and M. college who have library fines against them will not receive their grades until the fines are paid. The amount of the fines ranges from \$9.34 to two cents.

Low grades at the University of Colorado are thought to be due to the large number of student marriages.

Jayhawk Is Banished From Decorating Architects' Smocks

Gray smocks for the seniors, orange smocks for the juniors, blue smocks for the sophomores, and purple smocks for the freshmen—that is the way the architects distinguish between their classmates. Rainbows and flower gardens might be compared to groups of these students in class.

Wildcats are the common emblem used to adorn the backs of the colorful smocks. Once a Jayhawk bird made its appearance upon the back of a very unwise young man. But when the howling architects threatened the unwise young man with a ducking in the water trough, which is located on the top floor of the engineering building, the bird suddenly disappeared and has been seen no more in the haunts of the embryo designers.

Stake out your claim
in this field

ONE field where there is still undeveloped territory, still room for pioneers, is the electrical industry. This will be encouraging news to the man who thinks he was born too late.

If your aptitude is technical, there are years of usefulness ahead of you in helping to design, construct and operate public utility lines. And too, fast-growing markets for electrical apparatus call for more and more college-trained men in the manufacturing end of this industry.

Or if your interests are along commercial lines, there is a broad opportunity for you here in the various departments of purchasing, accounting, distributing, selling and advertising

Society Happenings

Mu Phi Epsilon held initiation services Sunday morning for the following girls: Esther Ankeny, Manhattan; Lucile Evans, Manhattan; and Jessie Bogue, Junction City. A breakfast followed at the Pines.

Dinner guests at the Pi Beta Phi house Sunday noon were James Price, Cornell Bugbee, Edgar Durham, Max Brumbaugh, Al Dyal, Frank Sheetz, and Joe Haines.

The annual Founders' day banquet of Phi Omega Pi was given Thursday evening at the Gillet hotel. The color scheme, blue and white, was carried out effectively in the decorations and menu. The toasts centered about the lily of the valley, the fraternity flower. Lois Welch was the toastmistress. Toasts were given on "Soil" by Edna Bangs, "Sunshine" by Mrs. M. A. Lair, "Rain" by Mrs. N. L. Roberts, "Leaves" by Goldie Crawford, and "Flower" by Dorothy Sanders. Covers were laid for 40 guests.

Omega Tau Epsilon gave its spring party Friday night at Elks' hall. The feature of the decoration was a southern flower garden. Lattice work entwined with smilax was used in front of the orchestra and the drop ceiling was of southern smilax. A fountain of blue banked with ferns occupied the center of the room. The lights were shaded with blue and yellow roses. Isenhardt-Jencks orchestra from Lawrence furnished the music. Out-of-town and alumni guests were: Messrs. H. T. Brazier, Kansas City, Mo.; Leonard Kelley, Newton; John Eggar, Ellis; Leroy Norris, Sabetha; William Brown, Lawrence; Joe Schaulis, Wakefield; Glen Ankeny, Reece Laughlin, Keith Parker, John McCutcheon, Jack Spurlock, Paul Barger, L. H. Spears, Paul Lee, and Davis Criswell. The chaperones

were Dr. and Mrs. H. K. Kitzelman, Prof. and Mrs. H. W. Cave, Captain and Mrs. Gerald Fitzgerald, Prof. N. O. Kennedy, and Mrs. Keel.

The Home Economics association entertained Thursday afternoon with a tea in the home economics rest room for all the students in the division. The room was lighted with purple candles in silver candleabra. The program consisted of a reading by Emma Scott, a talk on the "Home Economics Association" by Dean Margaret Justin, a solo by Bernice O'Daniel, a lecture on the "Home Economics Jubilee" by Miss Pearl Ruby, and a violin solo by Mary Jackson accompanied by Ruth Faulconer. Those who assisted in pouring tea were Ruth Kell, Hilda Black, Phyllis Burris, and Mary Dey.

Pi Kappa Alpha gave its annual Founders' day banquet Friday evening at the Gillet hotel. The fraternity colors, garnet and gold, were used in the decorations and menu. Morton Otto of Riley was toastmaster. Alumni who attended the banquet were: "Colonel" Kelley, White Cloud; Dwight Smith, Omaha; Reuben Lind, Gridley; Prof. Eric Englund, Prof. W. E. Grimes, Clark Bryan, Earl Chappell, Sam Pickard, and C. L. McCulloch.

Prof. N. A. Crawford entertained with a dinner at the Pollyann tea room Monday evening for Miss Izil Polson, Miss Muriel Shaver, Dr. Karl Menninger of Topeka, and Prof. A. F. Peine, preceding the meeting of the Science club, at which Doctor Menninger was speaker. A number of faculty men were entertained by Mr. Crawford at his apartment, complimentary to Doctor Menninger, after the meeting.

Mrs. J. O. Faulkner entertained with an afternoon tea, Saturday, complimentary to the ladies of the English faculty of the college. The guests were Misses Ada Rice, Helen Elcock, Margaret Russel, Anna

Sturmer, Helen Rushfeldt, Katherine Bower, Clara Bogue, Nellie Aberle, and Mrs. Harriet Parker of the English department; Mesdames H. W. Davis, N. W. Rockey, J. W. Callahan, and Misses Beatrice Gates, Pearl Ruby, Katherine Hudson, Florence Clarke, Alene Hian, Florence Dial, Grace Bischof, and Elizabeth Austin. Miss Hudson received the wedding cake set for being the first guest to solve the "lover's knot puzzle."

Mr. and Mrs. A. B. Campbell and daughters and Miss Margaret White of Marysville were guests of Bryon Campbell at the Phi Kappa Theta house, Tuesday.

Prof. and Mrs. C. E. Aibel entertained with a dinner and bridge party on Friday evening, March 6. The guests were: Mr. and Mrs. H. W. Davis, Mr. and Mrs. C. E. Rogers,

Miss Muriel Shaver, and Mr. N. A. Crawford.

Dinner guests at the Sigma Phi Epsilon house Sunday were: Helen Davis, Helen McClung, Blanche Hirt, Frances Robinson, Helen Fitzsimmons, and Mildred Huddleston.

Humming Bird PURE SILK HOSIERY WEARS LONGER

In solving this puzzle you will learn dozens of reasons why Humming Bird Pure Silk Hosiery are so extremely popular—why they look well, fit well, wash well, wear well.

Come in and ask us to show you Humming Birds. We have all the season's newest, snappiest shades.

HORIZONTAL

1. Name of America's biggest selling \$1.00 ladies' pure silk stocking.
2. Myself.
3. Reinforced everywhere (initials). True of Humming Bird Hosiery.
11. Figure, or figures, denoting styles of hosiery, as Humming Bird 10, 15.
15. Midday sleep, or nap.
18. Employ. Employ Humming Birds and throw away your darning needle.
19. Tears, sobs. (Not found in Humming Bird Hosiery.)
21. Advertisements (abbr.). See Humming Bird advertisements in Ladies' Home Journal and Vogue.
22. Young women. They all adore the smart Humming Bird colors.
24. In the past.
25. slang expression of derision. (A good thing to reply when anybody says that Humming Birds don't fit after washing.)
26. What Humming Bird Hosiery are after the saleslady has wrapped a pair up.
28. Not adulterated. As Humming Bird silk, which contains no "loading."
30. Existence.
31. Number of sizes in which Humming Bird Hosiery are made. (Roman numerals.)
32. Sold everywhere. (Initials). Humming Birds are not sold everywhere, but are sold in over 6,000 selected stores.
33. What a saleslady replies when asked if Humming Bird Hosiery contain any threads.
34. It is a kind — to introduce your friends to Humming Bird Hosiery.
36. Ridge along sole of some hosiery. Hurts foot. Not found in Humming Birds.
38. Pairs. The way all but one-legged women wear Humming Bird Hosiery.
40. Part way of saying "yes." (You wouldn't say it this way, of course.)
42. Japanese writing. (Seen on "chop tickets" attached to raw silk imported from Japan for Humming Bird Hosiery.)
44. What a poker player gives another when he's broke.
45. Proper temperature of water for washing silk hosiery.
47. The bill or beak of a bird. (This is a hard one.)
48. People of rank, peers. (Formerly only royalty wore silk hosiery. Now everybody can afford Humming Birds.)
50. Two 8-letter words meaning "not every one." (Not every one has worn Humming Bird Silk Hosiery, but the millions of women who are wearing them today are boosters for Humming Birds.)
52. Length. Extra (initials). See Humming Bird's 14 points.
54. All gone (initials). Never say it.
55. Humming Bird slogan, referring to durability.

VERTICAL

3. What a Cockney Englishman says Humming Birds are, when he means "hummers."
5. Initials of — First word in "14-Point Panel"; first word of 9th point; last word of 10th point. For "14-Point Panel," see any Humming Bird ad in Ladies' Home Journal or Vogue.
4. Correct answer to question: "Is there any cotton in Humming Bird reinforcement above heel and in sole?"
6. Anger. Caused by silk hosiery fading. Humming Birds, properly washed, do not fade.
8. Second sale. Humming Birds repeat over and over because they look and wear well.
7. Close-clinging (two words). Humming Birds hug ankle and foot perfectly and permanently; no changes of stitch between calf and ankle.
10. Stylish, smart. That's Humming Birds from top to toe.
12. Under some inducement you may accept a substitute for Humming Birds, but you will be sorry you did.
13. Exchange "returns" (initials). New pair of Humming Birds for all returned as unsatisfactory.
14. Peruse. Peruse "The Story of a Pair of Silk Stockings," sent free on request.
15. Halt. Humming Bird Anti-Run Back heels garter runs at knees.
16. Insure satisfaction (initials). By buying Humming Birds.
17. Initials of — First word in 7th point of "14-Point Panel"; last word of 7th point; first word of 17th point. For "14-Point Panel," see any Humming Bird ad in Ladies' Home Journal or Vogue.
20. Slang for "no one." Inferior merchandise, such as you should not buy.
23. Adores. Every woman adores Humming Bird's all-silk soles.
26. Crack, snap. Humming Bird silk doesn't crack because it contains no loading.
27. Untruth. Never tell one unless you are in a tight place.
29. Turn to account. (The information in this puzzle can be turned to good account in buying silk hosiery.)
34. Having two thick-nesses, as Humming Bird tops.
35. Coloring matter. No "loading" added in coloring Humming Bird Hosiery. One reason they never rot, no matter how long stored.
36. To twist into threads. Raw silk for Humming Bird Hosiery is imported and spun in our own mills to insure high quality and even threads. Prevents "shadows" in hosiery.
37. Contrive. Contrive to see the smart new colors we are showing in Humming Bird Hosiery.
39. What your sweetheart does to win you. (Word used in the old days, practically obsolete now.)
41. Extra. Extra practical (initials). Humming Birds suitable for all occasions.
43. Nothing. Complaints we receive on Humming Birds.
46. Tops elastic (initials). Characteristic of Humming Bird Hosiery.
48. "She wouldn't — what I asked her to, so I socked her in the jaw." (Title of popular song.)
49. Measure of yarn, 120 yards. Humming Birds use highest grade of long staple cotton yarn for tops, toes and heels.
51. Card on which is put price-mark on hosiery, etc.
53. How the word "uncell" sounds. Humming Birds excel other silk hosiery in long wear.

MATMEN GO TO VALLEY MEET

ATTENDANCE AT WORKOUTS INCREASES AS TRYOUTS BEGIN

Only Men Who Have a Chance to Place Will Make Trip to Nebraska

Wrestling prospects, like boxing, are assuming a somewhat brighter hue. A larger number of ambitious matmen are showing up for workouts each evening, and competition for places on the team which will represent Kansas State at the Missouri Valley Conference tournament at Lincoln, the thirteenth and fourteenth of this month, is becoming more heated as the time for selection draws near.

Last of Year

The valley tournament probably will be the last wrestling event of the season for the Aggies. Matches in the following weights will be held: 108, 115, 125, 135, 145, 155, and 175 pound, and the heavyweight class of over 175 pounds. Whether or not a full team of eight men go to Lincoln will depend on the showings made in tryouts during the week. It is possible that the team may consist of only four or five men who could be expected to make a good showing in a meet of that sort, according to O. E. Walgren, coach and team member.

More than 50 men have been reporting for workouts. The squad for the valley probably will be made up of the men who wrestled in the meet with K. U., although it is possible that one or two changes may be made. A few of the strongest candidates are O. E. Walgren, Denver; Z. L. Pearson, Manhattan; G. H. Davies, Manhattan; W. H. Hinz, Abilene; H. A. Stewart, Abilene; F. Schopp, Abilene; and G. D. Frisbie, Abilene. E. B. McKnight, Eskridge; G. T. Bond, Topeka; and O. E. Marsh, Fort Scott, are also making strong bids for places on the squad.

Other men who are wrestling include K. E. Peterson, Enterprise; W.

E. Landon, Mayetta, H. H. Peal, Augusta; L. D. Stocombe, Peabody; Albert Cook, Haddam; B. Fritzmeier, Stafford; Adolph Helm, Chanute; R. D. Reber, Morrill; O. D. Schmidt, Lorraine; F. E. Scott, Independence; W. S. Scott, Ellis; H. G. Faulconer, Eldorado; F. M. Shidefer, Girard; F. M. Davis, Kansas City; L. F. Winkler, Rozel; S. N. Dunlap, Berryton; G. O. Yandell, Wilson; F. E. Wiebrecht, Strong City; M. M. Erick, Dodge City; D. J. Lindsay, Madison; T. Cleaver, Iola; H. P. Blasdel, Herington; J. H. Johnson, Norton; H. L. Lobenstein, Bonner Springs; W. Filipe, Manhattan; R. Schuff, Abilene; R. E. Engel, Hope; C. E. Crews, Elk Falls; D. N. Taylor, Topeka; D. M. Wingfield, Junction City; B. Godney, Concordia; H. M. Dennison, Berryton; R. V. Macias, Yacatecas, (Mexico); H. O. Morris, Mount Hope; Lee Vandervilt, Solomon; Ralph Howard, Mount Hope; Gray LeVitt, Ellsworth; L. Lowenheimer, Leavenworth; C. F. Smith, Beloit; Paul Pfeutze, Manhattan; and Edward Scheneberger, Cuba.

Interviews Drainage Engineers

Prof. H. B. Walker, head of the department of agricultural engineering, was in Jefferson county Wednesday, holding a conference with the county commissioners and officials of the Stonehouse drainage district.

"Mike" Staves Off Defeat by Ruse of Twisting Ankle

Michael Francis Ahearn is back at the old stand after being "among those injured" for a week. And the injury was not received, as has been erroneously reported, from trying to demonstrate the safety of modern athletics to the freshmen.

Mike has been called the grand old man of Aggie athletics, but for some reason he doesn't seem to appreciate the title, and is forever trying to prove that at least one part of it doesn't fit. So when any chemistry professor, or other young upstart whom Mike regards as physically and mentally inferior, forgets his place, the only thing to do is to put him back in some kind of physical combat. And it should be mentioned that Mike has a habit of coming out of the contest with the big end of the score even in golf.

Whether it was because of such reasons that Mike was playing a game of handball or because of reasons best known to men who are inclined to be stout, cannot be said by anyone but himself. But anyway the odds must have been against him. (Careful, gentle reader, and realize that we would make no insinuations.) At least the end of the

match came when the director of athletics managed, accidentally or otherwise, to step on a loose board, and twist his ankle. And once more defeat was staved off.

Mike spent a week at home. There is no doubt but that the injuries were bonafide because he attended the K. U. basketball game and Doctor Jardine's farewell party via the radio only.

But the director of athletics is back at the old stand now. And ev-

erybody, even the force at the athletic office, seems to be glad to see him. And most everybody is expecting to see a new floor in the handball room in a few days.

30 Days Ago She Was a Wall-flower

Evenings out were a blank to her. She was unattractive, uninteresting because she had "nothing to offer." Boys avoided her. Girls tolerated her. She was the proverbial wall-flower, a drug on the social market.

Then one day she read one of my advertisements just as you are reading this one and she was smart enough to take the hint—and act upon it. Thirty days from the time she read my advertisement she had turned the tables. Now she's "the life of the party," admired, sought for, invited everywhere, and always the center of attraction.

And she says she owes it all to

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, MARCH 13, 1925

NO. 46

NEW DORMITORY GRANTED K. S. A. C.

NEW \$250,000 LIBRARY ALSO ALLOWED BY LEGISLATURE

Increase of \$61,000 in Salaries and \$18,000 in Maintenance Recommended by House

K. S. A. C. will have a new \$200,000 women's dormitory as a result of the action of the house of representatives in passing the senate bill providing for the appropriation last Wednesday.

The passing of this bill completes the state program of placing a women's dormitory at each of the state institutions. Dormitories were built at Emporia, Lawrence, Hays, and Pittsburg from appropriations granted in 1921. The appropriation allowed at that time was intended to include all the state institutions, but it proved insufficient, and K. S. A. C. waived her rights temporarily so that the other schools could complete their buildings.

Appropriations for Buildings Only

A bill appropriating \$250,000 for a new library at K. S. A. C. passed both houses. \$350,000 was asked for the new library, but the final amount allowed was given as the minimum for which the library could be built. The house ways and means committee recommended that the appropriations made for buildings, apply only to buildings, and not to fixtures.

The request for a 15 per cent increase in salary and maintenance funds was not granted in the senate. However the house passed the bill with an increase in the appropriation for salaries of approximately 8 per cent. K. S. A. C. was granted a salary increase of \$61,000, making an annual allowance of \$710,000. The maintenance item was raised from \$282,000 to \$300,000 annually. It is expected that the senate will concur with the house amendments.

Other appropriations granted were \$10,000 for a new sheep barn, \$10,000 for additions to greenhouses, \$25,000 for special repairs, \$22,000 for additional land, and \$10,000 for soil survey work. The total appropriations for K. S. A. C. amount to \$1,258,500 for 1926, and \$1,221,500 for 1927.

Only Four Negative Votes Cast

At the session of the legislature two years ago, the dormitory appropriation measure failed because of the pledge of the party against any building program. This year the bill granting the \$200,000 passed the senate without a dissenting vote, and the house with only four negative votes.

The bill provides that the money for the construction of the dormitory will be available after July 1, 1925. If all of the appropriation is not used after the first fiscal year, it may be reappropriated from any funds in the state treasury.

According to Mrs. Mary P. Van Zile, dean of women and one of the hardest workers for the dormitory, a committee probably will be appointed by President Farrell to take charge of the plans for the construction. On this committee will be representatives of the architectural department, the art department, and the institutional management department, who will work with the dean of women.

Start Construction in July

Dean Van Zile states that she hopes to have construction under way shortly after July 1. The plans that were drawn up for the building four years ago will be altered, and the mistakes made in the dormitories of other institutions will be remedied. The construction will proceed with considerable care and consideration in order that mistakes will not occur. The dormitory will not be ready for occupancy before the fall of 1926, according to Dean Van Zile.

A definite site for the dormitory has not been selected. The most acceptable site so far mentioned, however, is the hill just south of the sheep barns on the northeast corner of the campus. The small creek and ravine at the base of the hill will be made into a lake system, and the natural beauty of that part of the campus utilized in making fitting surroundings for the new building.

Will Be Near New Library

Another advantage this site has over the others mentioned is that it commands a view of the entire campus, and the girls will have easy access to the new library which will be located just east of the veterinary building.

It is proposed to build the center unit of the dormitory diagonally across the northeast corner, thereby allowing freedom to build additional

units on the south and west as appropriations are received.

The southeast corner of the campus, across from Aggleville, and the area just north of "Lover's Lane" have also been suggested as proposed sites.

Dean Van Zile states that she expects the first unit to accommodate 125 girls.

"I shall be very glad to receive suggestions or ideas from students or others interested, relative to the construction of the dormitory," said Dean Van Zile.

HONORARY DEGREES TO BE GIVEN NOTED GRADUATES

Degrees to Be Conferred During Home Economics Semi-Centennial Jubilee

Honorary doctor's degrees will be conferred upon Mrs. Nellie Kedzie Jones, Mrs. Henrietta Willard Calvin, and Miss Abby Marlatt, former K. S. A. C. graduates, during the Home Economics division's semi-centennial jubilee.

Mrs. Jones and Mrs. Calvin will be granted degrees of doctor of law, in recognition of the work they did here as heads of the home economics department, and Miss Marlatt will receive a degree of doctor of science in recognition of her exceptional scientific research work.

Mrs. Kedzie Jones was graduated from K. S. A. C. in 1876, and took her master's degree here in 1878. From 1882 to 1884 she was at the head of the sewing department, then she became head of the foods department, and in 1887 she was made the head of the division then called the domestic science department. Mrs. Kedzie Jones and her first husband, Professor Wm. K. Kedzie, who taught a course in household chemistry, composed the first faculty of the division of home economics. The first home economics building, now occupied by the journalism department, was named for her. She is now at the head of home economics extension work for the University of Wisconsin.

Mrs. Willard Calvin was graduated in 1886. In 1901 she returned to K. S. A. C. as librarian. She was head of the domestic science department from 1903 until 1908 when she accepted a call to take a professorship of home economics at Purdue university. She is now director of home economics in the Philadelphia public schools.

Miss Marlatt, after receiving her master's degree in 1890, served as professor of home economics and director of that course in the University of Wisconsin.

EPIDEMIC IS UNDER CONTROL

Quarantines Are Lifted as Number of Cases Diminishes

Quarantines are being lifted and mumps and scarlet fever sufferers are gradually decreasing in numbers. The crisis has passed—K. S. A. C. will continue to operate as usual.

In order to keep the mumps, scarlet fever, and other diseases from spreading, the student health department is asking the cooperation of everyone in school. If any one knows he has been exposed to a contagious disease or feels symptoms of any disorder, he should report at once to the student health department and explain his case. Thus he may save himself and his associates grief.

The health department is urging strongly that every student make use of its services at any and all times in order to preserve the health of the individual himself and the health of those who come in contact with him.

K. U. DEBATERS TO ARGUE HERE

IS FIRST TIME IN HISTORY OF TWO SCHOOLS

K. S. A. C. Debates Colorado at Junction City Saturday Under Auspices of A. A. U. W.

For the first time in the history of the two schools, a men's team from the University of Kansas will debate here. This debate will be held in recreation center at 8 o'clock Monday night. The question which will be used is, Resolved: That congress shall be given power to override decisions of the supreme court declaring acts of congress unconstitutional by a two-thirds vote. The negative will be upheld by K. S. A. C.; the men who will debate are Frank Glick, Paul Pfuetze, and Cecil Walt. The affirmative team from the University of Kansas is the same team which defeated Washington in the first round of the Missouri valley debates.

Meet Colorado at Junction City

A debate will be held with the University of Colorado tomorrow night in Junction City, under the auspices of the American Association of University Women. This is the first time that the policy has been adopted of holding debates off the campus, but it is expected to follow this precedent in a number of debates next year. A two-speaker team upholding the negative of the supreme court-constitutionality question will speak for K. S. A. C. These men are Frank Morrisson and Raymond Davis.

The first meeting this year of the representatives of the schools in the Missouri Valley Debate league will be held in St. Louis, March 21. This is the night after the Missouri Valley oratorical contest, which is also held in Saint Louis. The principal action of the members of the debate league will be to decide upon the application of the University of Arkansas which has asked admission into the league, and the arrangement of the schedule for next year's debates.

Eight Debates Finished

The first round of the Missouri Valley Debate league has been finished with the following results: Oklahoma defeated Colorado at Boulder unanimously. Oklahoma defeated Kansas at Norman, unanimously. South Dakota defeated K. S. A. C. at Vermillion 2 to 1. South Dakota defeated Washington at St. Louis, 2-1. Drake defeated K. S. A. C. at Manhattan 2-1. Drake defeated Texas at Des Moines, 2-1. Texas defeated Colorado at Austin, unanimously. Kansas university defeated Washington at Lawrence, 2-1.

TRYOUTS MARCH 23 AND 24

No Tryouts for Spring Play on March 26 and 27 as Announced

An error was made in the announcement of the date of the tryouts for "Captain Applejack." Purple Masque play, according to E. G. McDonald, coach. Tryouts will be held in G56 March 23 and 24 instead of March 26 and 27.

Manuscripts may be obtained at the public speaking office. According to Mr. McDonald, it is necessary that candidates for parts read the play before trying out.

HOME ECONOMICS HEAD SPEAKS

Dr. Katherine Blunt of Chicago University Talks at Chapel

Dr. Katherine Blunt of Chicago university and president of the National Home Economics association spoke on the work of the association at chapel last Wednesday morning.

"The Home Economics association has developed fast," states Doctor Blunt. "It now has a membership of 6,000 and these people are doing work that is of national interest. The home economics women are making better, more beautiful, and more efficiently managed homes. They are bringing about better health conditions for children and are entering into the business world."

Doctor Blunt expressed the hope that the home economics division of K. S. A. C. become affiliated with the Home Economics association.

Finish Rifle Training This Week

The R. O. T. C. will finish training in rifle marksmanship this week and will then start on combat work with field maneuvers. Preparations are being made for the government inspection which will be held in the middle of April. The ranking of this school depends on the result of the inspection. Visitors are cordially invited by Colonel Bugbee to attend the reviews held during the last half hour of every drill period.

Flonzaley Quartet Gives Rehearsal for Helen Keller

One of the most interesting experiences in the life of the Flonzaley quartet, which will appear here Wednesday evening, March 18, was a visit made to them during a rehearsal, by Helen Keller. The only means of sensing sound for this deaf, dumb, and blind genius is by direct contact with instrument or player.

The first number selected was a Beethoven Adagio. No sooner had the players begun than a change was noticed in the face of Miss Keller. She seemed transfixed, though whether the sensations she experienced were physical or mental it is difficult to say.

"The music was like the trembling of wings," she said. At times her ecstasy was so great that she was hardly able to remain quiet, her emotions fairly overcoming her. The experiment was tried of having her place a hand on the body of each instrument while the violin and cello were played, and the vibrations so received added greatly to her enjoyment.

AGGIE ALUMNI ARE LOYAL

93 Per Cent of Those Solicited Have Aided Stadium Fund

Aggie alumni are as loyal a group of college graduates to their Alma Mater as those of any other school, in the opinion of Memorial stadium corporation officials.

Statistics on the Memorial stadium campaign checked recently in an audit of the accounts reveal that 93 per cent of the alumni living in Kansas have been seen by stadium solicitors—and that 93 per cent of those seen have contributed to the fund. "Blue ribbon" contributions—subscriptions of \$100 or more—have been received from 694 alumni.

There are 2,500 alumni living in Kansas and 1,860 have contributed to the stadium fund. Some 500 have not yet been solicited, and a campaign now is under way to complete the canvass. So far 12,485 has been pledged in two months of campaigning. The total amount now pledged is \$330,824.20, and of these pledges \$53,440.52 has been paid in full.

No effort other than a mail campaign has been made to inform the alumni living outside Kansas of the needs of their Alma Mater, and of the opportunity to contribute to a memorial to her sons who fought in the World War. However, mail subscriptions amounting to \$48,116 have been received.

The faculty and Manhattan citizens gave concrete evidence of their loyalty to the school by contributing liberally in the campaign three years ago. The faculty pledged \$35,211.79, and Manhattan citizens \$48,116. Citizens of Kansas not alumni of the college have contributed \$2,520.

Payments made on pledges so far given have made possible the construction of the seating decks for the east and west wings, and of the stadium as planned. Completion of the center section seating decks and of the monumental features of the structure waits upon further contributions from alumni, students, and friends of the school.

QUILL MEMBERSHIP OPEN

Every Student in College Eligible—Contest Closes April 1

Announcement of tryouts for membership in Ur Rune of the American College Quill club has been made. Every student in K. S. A. C. is eligible. Tryout material in the form of essays, stories, editorials, poems, or feature stories may be submitted to Prof. N. A. Crawford. Manuscripts should be double-spaced, typewritten on one side of the paper, and the name of the person submitting the material and the titles should accompany the manuscript in separate envelope. The contest closes April 1.

NATIONAL ORATORIAL MEET TO BE HELD FOR COLLEGIANS

Best Orations on the Constitution Will Win Large Prizes

Announcement has just been made of a national intercollegiate oratorical contest on the constitution, with \$5,000 in cash prizes. Any non-degree-holding student in any institution of higher learning in this country is eligible.

The orations must be original, must not require more than ten minutes for delivery, and must be on the constitution, or the relationship thereto of Washington, Hamilton, Jefferson, Madison, Marshall, Webster, or Lincoln.

The contest is financed and conducted by the Better America Federation of California. It has the support of the leading fraternal, fraternal, and college officials generally. The country is divided into seven

regions. The regional finalists will be selected on the merit of their manuscripts. The winner in each of the seven regions will go to Los Angeles to compete on June 5 for the seven grand prizes, ranging from \$300 to \$2,000. This automatically guarantees each regional champion of a large cash prize.

Entries close March 25, and manuscripts must be submitted not later than April 17. Further information may be obtained from G. W. Fleming, assistant director, 604 Hibbs Bldg., Washington, D. C.

DIAMOND DRAWS FIFTY RECRUITS

WILDCAT BASEBALL TEAM HOLDS DAILY WORKOUTS

Only Four Letter Men Are Back from 1924 Squad—Much Good New Material

Interest of the Aggies has turned to the baseball diamond where nearly 50 men are getting into shape. Although Coach Corsaut has been unable to be with the team due to basketball the squad is daily going through the preliminaries under the direction of Captain R. M. Karns.

Karns, shortstop, is one of the four letter men that will be eligible for varsity this year.

Other Regulars

The two other men that held down regular positions on the team last year are Rex Huey, outfielder, and Bernard Conroy, a two year letter man, who has been the mainstay on the Aggie pitching staff for the last two years. The remaining letter man is Lyle Munn, 1924 football captain, who won his letter as a substitute outfielder.

The Aggies lost an entire team by graduation last year, including most of the outstanding players. The men who graduated were M. B. Swartz, first base; M. S. Barth, centerfield; Ed. Conroy, pitcher; Glen Aikens, right field; L. M. Staley, second base; J. Bean, catcher; Henry Karns, pitcher; Lyle Ernest, third base; and Paul Vohs, pitcher. Coach Corsaut will be aided by the presence of exceptional material among last year's freshman squad.

Must Build New Team

The pitching staff will be weakened more than any other, due to the loss of Cunningham, Vohs, and R. Karns but there are good prospects among the recruits. Joe Greer, a former Iowa State man, who is said to rank among the best in the valley, will be back. Leslie Marsh, a member of the squad two years ago, is back and showing an extra amount of speed in tossing the pellet. C. A. Byers, left hander, Strickleninger and R. Youngman, who are now out for basketball, will start training soon. Other entries as pitchers are Z. Pearson, J. V. Hays, L. P. Caraway, and C. A. Logan.

The Candidates

The list of candidates for outfielders includes the following: V. C. Kennedy, Lyle Munn, J. Bullder, G. Cooksey, R. Von Trebra, E. Goodfellow, R. Huey, Al Cunningham, V. Norris, W. Holt, J. Truaz, J. E. Smith, P. L. Stuenkel, and Art Doolen.

Infielders: Guy Huey, C. L. Cassel, R. Walker, Emil von Riesen, E. C. Grove, C. Keck, Web Sprout, H. L. Lobenstein, C. M. Barber, and R. M. Karns.

Sweat jerseys and balls have been issued to the pitchers and other members of the squad who are known to have special talent, and according to Corsaut as soon as the squad is picked guys will be issued.

Fifteen Games Scheduled

The Aggies' first game of the season is to be played with St. Marys a month from today.

The Aggie schedule for the year follows:

April 6—St. Marys at Manhattan.
April 11—Open.
April 17 and 18—Missouri at Manhattan.
April 24 and 25—Oklahoma at Norman.
May 1 and 2—Nebraska at Manhattan.
May 7 and 8—Kansas at Lawrence.
May 15 and 16—Oklahoma at Manhattan.
May 19 and 20—Nebraska at Lincoln.
May 27 and 28—Kansas at Manhattan.

Architects Exhibit Drawings

Pencil sketches, water colors, pen and ink sketches, and charcoal drawings are being shown in the art gallery of the architectural department. The drawings are the work of architect students enrolled in the free-hand drawing classes. Work from the architectural department of the University of Minnesota also is on exhibit.

CALVIN HALL TO BE CHRISTENED

WILL NAME H. E. BUILDING IN HONOR OF GRADUATE

Dean Justin Will Unveil Tablet—Takes Place April 17 as Jubilee Feature

The christening of the home economics building, as Calvin hall, in honor of Mrs. Henrietta Willard Calvin, a graduate of the class of 1886, will take place the morning of April 17, as an important feature of the jubilee program.

A procession composed of present home economics students and jubilee visitors will form at the home economics building about 10 o'clock, Friday, April 17, and visit various places on the campus where home economics was taught at one time. The buildings will be taken in the order in which home economics subjects were taught in them. Before each building, the procession will halt and a graduate who had classes in that building will make a short speech.

Dean Justin to Unveil Tablet

The present home economics building will be visited last, and at this time, Dr. Margaret M. Justin, dean of home economics, will unveil the tablet—a stone in the center front of the building on which the name, "Calvin Hall," has been cut. Mrs. Calvin, in whose honor the building is named, will answer with a speech of appreciation.

Mrs. Calvin has had great influence in the development of home economics, not only at the Kansas State Agricultural college, but elsewhere. She was head of home economics at K. S. A. C. from 1903-1908; had a similar position at Purdue university; was dean of home economics at Oregon Agricultural college; was specialist in home economics with the United States department of education; and is now a supervisor of home economics in the Philadelphia public schools. She is one of the highest salaried women in the United States. It was mainly through her influence and efforts that the present home economics building was constructed.

Farm Machinery Hall First Building

Since the present Farm Machinery hall was the first building, now standing, in which home economics subjects were taught, this will be the first place visited.

The shops will be the next stop. Household economy, housekeeping, accounting, etc., were taught on the second floor in the center part of the Mechanical building, as it was then called.

The south room of the Chemistry annex, now used for state analyses of food, was used as a kitchen laboratory until Anderson was completed. It will be the next halt in the journey.

The east side of the basement of Anderson was used for a cooking laboratory, and the southwest corner of the first floor was used for sewing classes in 1885.

Then Kedzie hall, the first building built in the United States for the exclusive use of domestic science and art classes, was the next home of the department.

Procession Stops at H. E. Hall

When the classes outgrew Kedzie, they were accommodated in the present home economics building. Here the procession will stop for the last time, and the ceremony will be completed by the unveiling of the name tablet by Doctor Justin, and the answering speech of recognition by Mrs. Calvin.

Details in the plans have not been entirely worked out, but the ceremony promises to be a unique success.

CHANGES ROOMING HOUSE RULE

S. S. G. A. Makes Requirement Conform to State Law

One of the rooming house rules has been changed recently by S. S. G. A. The law previously read: "A notice of at least two weeks shall be given to the landlady by the student before vacating the room. The same rule shall apply to notices given by the landlady." The clause "two weeks" has been changed to read "thirty days," in order to conform to the civil law.

Lenten Season Talk Given at Vespers

Vesper services were held in the home economics rest room Tuesday. Two musical numbers were given: a vocal solo, "Open the Gates," by Esther Ankeny, and a violin solo, Beethoven's "Minuet in G," played by Jean Rankin. The leader, Dorothy Rosebrough, gave a talk on the Lenten season, which is observed from Ash Wednesday to Easter eve.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

FRIDAY, MARCH 13, 1925

KANSAS BOXING

Boxing has come into its own in Kansas. It was Roosevelt's favorite sport, and Doctor Allen has characterized it as the greatest individual game in the world.

It is a sport intensely interesting for the spectator, and its participants receive great benefits from it in the development of nerve, game-ness, poise, and physical vigor. But in the past, the sport has been discredited because of the character of many of those who took part in or promoted the sport.

The high rank of boxing as a means of developing physique, poise, courage and gameness was clearly demonstrated in the training of men for the late war. Those who had the greatest reason to know of its benefits, the present members of the American Legion, were the backers of the bill that legalized boxing in Kansas.

The growing interest in this—the greatest of individual sports, will unquestionably continue provided the sport is kept clean. With the Legion responsible for the law, and with such men as Doctor Allen, Mike Ahearn and Bill Hargiss serving as a commission for the sport, the state need have no fear but that boxing will have a healthy growth in Kansas.—University Daily Kansan.

There are several things wrong with this guessing scramble that the Collegian is putting on. In the first place we object to the use of the word "beauties" on the coupon. As has been said before, there ain't no such.

And then it isn't exactly clear just whom to mail the things to after the

guess is perpetuated. It sounds as if the Guessing Editor was at the head of it, but no one has been able to find out which of the many that specific title refers to.

The real reason back of the whole affair is probably that Flo's guess wasn't so good and "Doc" wants to find out what the popular sentiment is.

But the joker in the whole thing is that no one will guess the same three that Flo did. There are a lot of possible combinations and no doubt all of them will be used. So the Collegian is pretty safe in their little proposition.

We advise the upper classmen in the sorority houses to keep closer tab on the younger girls. Not that we care, but it injures the morale of the community to see so many girls cautiously crawling in thru the windows at about 12:30.

The Quill club contest closes on April 1. It looks kinda funny. There must be a joke of some kind to it some place.

The Scabbard and Blade pledge who tooted his horn at the cafeteria will be pleased to learn that some one recognized the tune as "mess call."

Sir:
I would be glad to exchange the "thou" for a mere pint of wine.
M. B.

There has been some agitation for a girl's basketball team and a track team. No sir! If there is anything that girls can do it isn't to play basketball.

And as for track. Well, one almost needs a little speed for that.

We don't just know what the chemical reaction of a piece of beef and a black eye is supposed to be, but we defy anyone to come forward and bear evidence that the experiment is a success.

Some one objected to the last classification of the girls. Well, put them in three groups. Nice girls, sensible girls, and college girls.

"Ah, said Harry as the wind blew a little extra hard puff, 'I see spring is coming."

He was probably going up the steps just east of the auditorium.

On Other Hills

Walter de la Mare, noted English poet, is giving a series of lectures at the University of Michigan.

An intramural horseshoe meet is to be held soon at the University of Chicago.

The latest fad at Dartmouth college is bicycle riding.

A complete history of the world war is being compiled at Texas university, under the direction of the history department.

For the first time in her football history Harvard was outscored last season. The Crimson team scored a total of 61 points to its opponents' 78.

A chess tournament between students and faculty members is in progress at McGill university, Montreal.

A course teaching the fundamen-

als of skiing has been established at the University of Utah.

To the Minnesota university student who sells the greatest number of year books a trip to Los Angeles is being offered.

A session of the Kansas legislature was recently broadcast by Station KFKU, the University of Kansas radio station. The proceedings were transmitted by telephone from the Capitol building in Topeka to the station at Lawrence.

The Stanford university polo team will play a series of three games soon with the University of Arizona quintet.

The football field at the University of Iowa has been flooded so that it may be used as a skating rink.

Ninety-four coeds have entered as candidates for the beauty section of the Ohio university year book. James R. Quirk, editor of Photoplay magazine, will select the five most beautiful girls out of this number.

Send the Collegian home.

Debate Coach Leads Hectic Life Taming Temperamental Team

The life of a debate coach must be hectic, for idiosyncrasies and prejudices are never more predominant in any class of people than when they are traveling. For example, one of the girls insists on shoe-string potatoes every meal, and chili after every debate—and she gets the hives every time she eats chili. The girls who insist on having a date the afternoon before the debate are always

open to reason but they can't understand anyone else's reasons.

Then when cars are employed to convey debaters anywhere, tires will not stay nice and round, but insist on flattening themselves, pancake-like. On one trip the boys bought four new tires and then the radiator sprang a leak. But that isn't all—if the coach roars too hard he finds a bunch of weeping females on his hands, and if he doesn't roar, a bunch of lazy ones; and boys get stubborn, sometimes, in spite of their superiority. Oh, it's a thrilling existence.

Sigma Phi Epsilon spring party, Elks.
Lambda Chi Alpha house dance.

Saturday, March 14

Enchiladas, Elks.
Phi Sigma Kappa banquet, Gillett.
Beta Theta Pi house dance.
Sigma Phi Sigma house dance.

Kappa Sigma announces the following new initiates: Paul Gartner, Manhattan; R. G. Brown, Topeka; C. F. Boxford, Salina; Robert Crouse, Beattie; Charles Shellenberger, Ransom; Elwood Coleman, Alma; Harry Jung, Salina; and James Bickle, Gypsum.

Phi Kappa Theta announces the pledging of George Bond, Topeka; Earl Hinden, Strong City; A. M. Stillwell, Wichita; and E. L. Watson, Beloit. The new initiates are: Norris Meek, Spearman, Tex.; and C. F. Smith, Beloit.

Theta Tau, Presbyterian girls' organization, held its regular monthly meeting Tuesday evening at the home of Mrs. W. U. Guerrant. A light lunch was served to about 30 members.

A dinner dance was given Tuesday evening at the Gillett hotel and Elks' hall announcing the 1925 members of Scarab. Music was furnished by the Pines serenaders. Mr. and Mrs. Frank Root chaperoned. The members as announced are: Harold Gilman, Jerry Dowd, Vincent Bates, John Hale, John Gartner, B. C. Harter, R. D. Finney, J. K. Watt, Byron Short, G. A. Read, Perry Rumold, H. F. Lutz, G. B. Rallsback, N. L. Roberts, R. B. Storer, Frank Hagans, L. E. Childers, R. D. Dade, P. B. Wise, Homer Edgel, Vincent Nass, Charles Long, and Vance Hybskman.

Cosmopolitan club met Wednesday evening at the home economics rest room. President Farrell talked on the influence of the foreign students upon the faculty and upon the students. A short program was given consisting of: vocal solo, Professor Putnam; violin solo, Lucille Stalker; and vocal solo, J. R. Moyer.

Inga Ross and Bruce Pratt were married Saturday afternoon at 5:30 o'clock at the apartment of Mr. and Mrs. C. A. Brantingham by the Rev. W. U. Guerrant. Mrs. Pratt, whose home is in Amarillo, Texas, is a member of Alpha Delta Pi. Mr. Pratt, a member of Phi Delta Theta, lives in Herington. Both Mr. and Mrs. Pratt are seniors. They are at home at 511 Fremont.

Kappa Delta held initiation Sunday morning for the following girls: Velma Criner, Wamego; Ruth Frost, Blue Rapids; Mary Frances Platt, Hamilton; Lucille Potter, Larned; Clara Dean, Agra; Lucille Rose, Agra; El Delle Johnson, Olsburg; Marjorie Riner, Protection; and Rowena Brown, Alta Vista. A breakfast followed at the Green Bowl. The formal initiation banquet was given at the chapter house Sunday afternoon. The decorations were carried out in green and white, the colors of the fraternity. Miss Muriel Shaver acted as toastmistress. Alumna guests were: Miss Orpha Maust, Miss Grace Hesse, Mrs. J. B. Fitch, Katherine McQuillan, Clay Center; Miss Florence Stebbins, St. George; Miss Mil-

dred Welton, Topeka; and Miss Dora Dean Dakin, Wamego.

Sigma Alpha Epsilon gave its annual spring party Friday evening at Harrison's hall. The decorations were in the form of a Spanish garden. A Spanish well was in the center of the floor. The Pines Serenaders furnished the music for the dancing. Out-of-town guests were: E. J. Sudendorf, Concordia; Robert Allingham, Kansas City, Mo.; Tex Houston, Kansas City, Mo.; Leo S. Cade, Shawnee, Okla.; Al Wilson, Kinsley; Duke Reynolds, St. Louis; Jack Topping, Overbrook; H. K. Wareham, Independence; Fred Fisher, Overbrook; Tom Shaw, Canadian, Texas; Alan Hartman, Frankfort; Paul Taylor, Abilene; St. Williams, Clay Center; Luke Gullfoyle, Wamego; Shannon Brown, Topeka; Marjorie Wright, Concordia; Helen Hall, Concordia; Vernie Theden, Bonner Springs; Margaret Montgomery, Lawrence; and Dorothy George, Lawrence. The party was chaperoned by Prof. and Mrs. G. Joseph, Col. and Mrs. F. W. Bugbee, and Mrs. Kinnard.

The annual spring banquet of Ur-rune of the American College Quill club was held at the Gillett hotel last night. Crossword puzzles were used for place cards and decorations. Guests were Mrs. C. E. Rogers, Miss Helen Elcock, Miss Helen Rushfeldt, Mrs. H. W. Davis, Lucille Potter, Robert Hedberg, Paul Pfeutze, Genevieve Martin, Mr. Forrest Forrester, Miss Margaret Russel, Kathryn King, Miss Elizabeth Davis, Mrs. Jardine, Dean Willard, President and Mrs. Farrell, Prof. and Mrs. Cortel-you, Mr. E. T. Keith, Vesta Duckwall, Lucille Rose, Phyllis Belknap, and Eula Mae Currie.

Triangular fraternity announces the pledging of Joe I. Fry of Eureka.

Senior Aqs. Discuss Marketing

Two topics which are of particular interest to Kansas farmers at this time were discussed at the agricultural economics seminar on Thursday, March 5, by senior students in the department. Rupert K. Wey discussed the "Cooperative Marketing of Wheat in Kansas," a problem which has been before Kansas farmers in various forms for the last 15 to 20 years. D. N. Donaldson lead a discussion of the proposed Agricultural Export corporation. The idea of the Agricultural Export corporation was incorporated in a bill which was defeated in the United States senate during the last week of February.

J. A. Hodges, of the agricultural economics department is spending several days in Bourbon county assisting with the farm organization studies which have recently been begun in that county.

STUDENTS

For vacation—traveling position. Give age and full details in letter.—William Hughes, 300 Goodrich Building, Kansas City, Mo. tf-Tu.

Left or Right Is a Deep Problem to the Fair Coed

"Left face!" She hesitated, frowned (using that up-and-down frown indicative of deep thought), then turned on her heel and toe to the right. Quickly apprehending her mistake she executed a neat little half turn and faced the direction which the majority of the girls in the gym class seemed to be facing.

"Forward march!" She could do that, and did, wishing that they would forward march all the time. "Quarter-wheel right!" As she was swinging to the left a friendly hand grasped her sleeve and brought her again into line.

It had always been this way. She could, however, tell her right from her left if given time to deliberate, or to face the north, but these sudden commands made it impossible. She had tried keeping her right hand closed but it was always coming open. She had tried tying the lace of her right shoe tightly around her ankle but that hurt.

Drilling was a trial but folk-dancing was a verdict—a verdict of her complete inability. "Haying" was a dance difficult enough in itself but when the directions came, "Hay to the left," well—

She smiled to herself as she concocted this couplet:

"Rome was built in far less than a day,

Compared to the time it takes me to 'left hay'."

Stokdyk Attends Farmers' Meeting

E. A. Stokdyk, specialist in marketing, went to Larned on Monday, March 2, to meet with a representative of the department of agriculture and a group of farmers. The meeting is being held for the purpose of securing the viewpoints of farmers on tentative grading specifications for alfalfa hay and mixed alfalfa hay.

FORM CHRISTIAN FEDERATION

Membership Is Limited to Presidents of Student Religious Organizations

A Christian student federation, composed of the various religious organizations, has been formed at the college. Representatives of the religious organizations of the school met last week and made tentative plans for the future.

elect temporary president, and Jessie Newcomb was made temporary secretary. Permanent officers will be selected about the first of May.

The federation is being formed to promote good will and understanding among religious forces, and to inaugurate a unified religious program for the college and for Manhattan.

Membership in the federation is limited to the presidents of the student religious organizations on the hill and in the downtown churches. A senior advisor from each organization is included in the federation, but he is to have no voting power.

Y. W. C. A. Officers Are Elected

Election of Y. W. C. A. officers for next year was held last Tuesday and Wednesday. The following were elected: President, Katherine Welker; vice-president, Ruth Faulconer; secretary, Margaret Burtis; treasurer, Trena Olson; undergraduate representative, Mildred Leach.

Hold Judging Contests at Round-Up

Grain judging contests and stock judging contests will be held at the Rays round-up, April 24-25. M. H. Coe, K. S. A. C. livestock specialist, is in charge of the livestock judging contests, and A. J. Schoth, K. S. A. C. crop specialist, is in charge of the grain judging contests. About 100 teams are expected to take part in the contests.

Discussion Groups Are Started

The discussion groups which meet every Monday night will discuss next Monday the question, "Is it ever right to get angry?" Fifteen groups are starting this week. Katherine Welker and Fred Shideler are co-chairmen of these discussion groups.

Two Freshman Commissions Meet

The Y. W. C. A. commission had a supper meeting with the freshman commission of the Y. M. C. A. in

Recreation center March 9. Paul Pfeutze, chairman of the Estes Park conference commission, gave a talk on Estes Park and the Y. W. C. A. and Y. M. C. A. conferences which are to be held August 22.

Herdsman's Course Well Attended

All but two of the state institutional dairies were represented at the herdsman's short course held at the college last week.

Prof. J. O. Faulkner, of the department of English acted as a critic judge in the debate between Bethany college and Sterling college at Lindsberg, Friday, March 6.

H. E. Ratcliffe, '23, is now located at Coldwater as county agent for Comanche county. Mr. Ratcliffe completed his work for a master's degree in agricultural economics at the close of last semester.

B. M. Anderson, in charge of the beef cattle work in the animal husbandry department, returned from Kansas City on Tuesday, where he

had been attending the Central Shorthorn Breeder's association sale.

Cozy Inn, 1403 Anderson—Quality food at reasonable prices. We deliver night orders. Phone 1328X.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

AGGIES TIE FOR THIRD POSITION

WIN FROM PIKERS LANDS PLACE FOR AGGIES

Aggie Team Wins Six of the Eight Games Played Away from Home

MISSOURI VALLEY STANDINGS

	W.	L.	Pct.	pts.	P.P.
Kansas	15	1	.937	453	325
Nebraska	13	3	.812	428	288
Kan. Aggies	10	6	.625	472	407
Washington	10	6	.625	427	358
Oklahoma	9	7	.562	464	408
Missouri	6	10	.375	372	410
Grinnell	4	12	.250	393	492
Drake	4	12	.250	313	456
Ames	1	15	.062	279	465

By winning the last game of the season from Washington last Saturday the Aggie basketball team completed the most successful season in the past five years and entered into a tie with the Pikers for third place honors. The win was the fourth straight for the Aggies and by virtue of these victories together with the defeat of Washington by Kansas placed the Wildcats in the first division.

To Kansas university goes the valley championship for the third consecutive year, the Jayhawkers only losing one game, and that to the Aggies in the early part of the season by a score of 40 to 28. Though Kansas did win the valley they neither lead the valley in points scored nor in the small number of points scored against them. Nebraska finished second after losing to Washington once and to Kansas twice.

Win Most Games Away from Home

The peculiarity of the Aggies in that they always win more games played away from home was very apparent this year. Out of the eight games played away from home the Aggies won six and two of these victories were over Missouri and Oklahoma both of whom defeated the Aggies on the home court. By winning the last game of the season from Oklahoma the Aggies completed the record of having defeated every team in the valley since Corsant has been coaching.

Another tradition which the Aggies hold and made more apparent than usual this year was their ability to upset the dope sheet by defeating the leaders and losing to the poorer teams. This is easily proved when it is considered that the Aggies beat Kansas, Missouri, Oklahoma, and Washington all of which were doped to be vice versa. On the other hand the Aggies lost one game to Grinnell, a team which landed next to the cellar position.

Aggies Have Highest Score

In the total conference scoring the Aggies lead with a total of 472 points, an average of 29.5 to the game. Oklahoma coming second with 464, an average of 29 points to the game. Kerney Bunker, the Aggie midget forward, after one of the closest races ever recorded in the valley landed in second place in the individual scoring, being nosed out by the Kansas star, Ackerman, who made 166, two points more than Bunker. Bunker outscored Ackerman in field goals but the tow-headed forward showed his ability in making the free chances.

The Aggies' team was composed of practically new material this year, only four of the men, Doolen, Koch, Tebow, and Bunker having entered in valley competition before this year. Regardless of this the Aggies placed three men among the first 10 high scorers in the valley, Bunker, Byers and Tebow landing in the upper ten. The Aggies also placed two men, Doolen and Bunker, on the second all-valley team chosen by the Kansas City Journal-Post. Tebow, Koch, and Byers received honorable mention.

Six Regulars to Be Back

Four of the Aggies' six regulars will be back next year and there is a probability that Bunker may return and be eligible. Arthur Doolen will be the only man to graduate this year.

Summer Camp June 12 to July 23

The R. O. T. C. summer camps for infantry at Fort Snelling, Minnesota, and for artillery at Fort Monroe, Virginia, will be held from June 12 to July 23. Men who are intending to go this year should be making arrangements. There will be no basic camp this season because of lack of appropriation.

INTRAMURAL BOXING AND WRESTLING PROVE POPULAR

Large Crowd Present to See Final Matches Last Tuesday Night

The finals of the intramural boxing and wrestling tournament which were held at the Nichols gymnasium Tuesday night drew one of the largest crowds ever gathered there to see sports of this kind. The interest shown by the crowd seems to indicate that these two minor sports will take their place on the hill, and prove good drawing cards next year.

A special feature on the program, and one which attracted considerable interest was the match between Scott and Reef, members of Phi Beta Sigma, colored fraternity. These men did not enter the intramural contest however.

In the boxing matches, Dunlap defeated C. L. Barnette in the 115 pound class; F. O. Wolfenbarger and Westerman of the 125 pound class had to postpone their match after one round because of injury to Wolfenbarger; in the 135 pound class G. M. Young defeated R. G. Brown; in the 145 pound class Marion Donohue defeated Davies; in the 158 pound class R. D. Pugh won a decision over P. A. Skinner in four rounds; in the 175 pound class C. H. Towle defeated Dean in four rounds; in the heavy-weight class G. D. Frisbie won from Telford.

In the wrestling tournament L. E. Melia won from Yandell in the 115 pound class; in the 125 pound class Flipse won from Tomson; in the 185 pound class Cleafer defeated J. H. Johnson; in the 158 pound class C. E. Crews won from Lumb; in the 175 pound class C. H. Towle won from G. D. Frisbie; in the heavyweight class John Gartner threw Lowenheimer.

WRESTLERS GO TO LINCOLN

Four Men Represent College at Missouri Valley Meet

Four grapplers will represent Kansas State at the Missouri valley wrestling tournament which is being held at Lincoln today and tomorrow.

Only men who were considered to have a good chance of winning a decision were selected. The men making the trip are O. E. Walgren, captain and coach, 115 pounds, Denver, Col.; S. M. Fraser, 135 pounds, Talmage; H. W. Hinz, 158 pounds, Abilene; and Z. L. Pearson, heavyweight of 175 pounds or over, Manhattan.

Edward W. Merrill, '23, is living at Eugene, Ore.

R. O. T. C. OFFERS PRIZES IN AREA ESSAY CONTEST

Award of \$100 to Student Writing Best Article on "Citizen Soldier"

R. O. T. C. students at K. S. A. C., as well as men undergoing similar training in all schools and colleges in this corps area, are eligible to compete in the Beatrice essay contest for a cash prize of \$100, offered by the Reserve Officers association of Beatrice, Neb.

The essay, according to Captain Thomas P. Wilson, president of the Beatrice Officers Reserve corps and supervisor of the contest, must contain at least 2,000 words, must be typewritten or in legible hand, and must be submitted before April 15.

The subject for this year's essay is "The Citizen Soldier." The writer may handle the subject from whatever angle he may choose and judgment will be passed primarily on the basic thought and secondarily on the constructive value of the essay.

Full information relative to the conditions of the contest may be obtained from Captain Wilson, or from Col. Fred W. Bugbee, commandant of the K. S. A. C. unit.

MCCOLLOCH REPRESENTS STATE

Is Member of Plant Quarantine Board

Prof. J. W. McCulloch of the entomology department returned Sunday from Urbana, Ill., and Lafayette, Ind. At Lafayette he attended a meeting of the north central state entomologists. Plans and work for different experimental stations were discussed in order to prevent duplications. Mr. McCulloch represents Kansas in an organization of state plant quarantine inspectors which was established at this meeting. Next year the meeting of the North Central State entomologists and state quarantine inspectors will be held at Urbana, Ill.

NICKELL TELLS JOURNALISTS ABOUT NEWSPAPER PICTURES

Art Editor of the Capital Gives Practical Discussion

"Get the picture," was the rule given by Joe Nickell, feature writer and art editor of the Topeka Capital, in his lecture at the Journalism lecture Thursday afternoon. To cover up scoops by other papers the art editor must have pictures of the principals of the event. A posed photograph made by a staff member will give the best results, but it is often impossible to get such a picture. Every argument known must sometimes be used to get a person to pose for a photograph. When argument and entreaty fail the reporter must resort to concealed cameras, chance shots, and other uncertain methods of getting the picture.

Now and then a picture of a past incident must be faked, but this can be done only when the reporter knows exactly how the cut should look.

Because of the texture of newspaper, the ink must be thick and gummy. This makes it impos-

sible to use fine line halftone screens. Consequently pictures intended for regular newspaper work should be clear cut and with as few half tone shadows as possible. The rotogravure process of printing cuts is a greatly improved method which makes it possible to use pictures with a great deal of half tone shadows. However the cost of this process prohibits its use by any but the larger newspapers.

Rhetoric Experiment Is the Bunk Think Two Wise Freshmen

"Grading is a matter of following precedent, much as one day follows another," was the statement given out by two freshman students as the result of an experiment which they recently conducted, in line with the experiment being worked out by the English department, which has placed freshman students in classes according to their previous standing, in order to check up on the type of work they are able to do.

For convenience sake we will call these two students Mr. P and Mr. G. They are room mates. When the division of the sheep from the goats was made, Mr. G was given a place at the right hand side, while Mr. P found himself identified with those who barely pass within the gates.

It may have been Mr. P's idea, anyhow, when a themewas demanded, the boys decided to use the same theme, so they wrote it up as best they could, typed it, copied it, to the letter and comma, and handed the copies to their respective teachers. In due time the copies were returned, Mr. G's flaunting a G and Mr. P's bearing the insignia of his inferiority.

Music Students Give Recital

Students of the department of music gave the following program in recital Monday afternoon in the college auditorium: "Bourree in G" (Handel), and "Minuet in E flat" (Beethoven), Dorothy Stiles; "Du Bist Die Ruh" (Schubert), Lucile

Evans; "The Two Larks" (Leschetizky), Marian Eugene Knechtel; "O Divine Redeemer" (Gounod), Helen Jerard; "Turkish Rondo" (Mozart), and "Hungarian Dance, No. 5" (Brahms), Ferne Cunningham; "Panis Angelicus" from "Messe Solennelle" (Cesar Franck), Laura Russell; and "Sonata in C Major" (Handel), Ruth Faulconer.

Holy Week to Be April 6 to 9

Plans are being made for Holy week services to be held at noon during Holy week, April 6 to 9. Margaret Burtis and Richard Patton have charge of these annual services. Reverend Elliott of Ottawa has been invited to speak at the meetings. Further announcements will be made later.

Freshman Commission to Meet

The freshman commission will meet in the home economics room Monday at 4:45 o'clock. The program will be a discussion on men and women, the leader being Miss Wildy. Leaders of the discussonal groups are Dorothy Fulton, Clara Paulson, Louise Harrop, and Dorothy Johnson.

Is Quoted by "College Humor"

"Peter the Pumpkin Eater," an article written by Mrs. Blanche Forester, senior in industrial journalism, which appeared in the Leap Year number of the Brown Bull, last year, was reprinted in full as a page dis-

play in the last number of the College Humor magazine. Mrs. Forester's article, written in the manner of Sherwood Anderson, was first presented at a Quill club program. It was considered one of the best of last year's contributions to the Brown Bull.

N. D. Lund, '23, is doing engineering work at the Longview lumber camp in Washington state.

This Year You Can Go to EUROPE

RECENT reductions in Tourist Third Class steamship fares make it possible for practically everyone to afford a European trip. Round trip rates between New York and England are \$155 to \$167; between New York and Cherbourg \$162 and \$175.

Make your reservations now for one of these sailings:

S. S. Leviathan . . . June 13th
S. S. Geo. Washington . . . July 8th
S. S. Republic . . . July 15th

Exclusive Tourist Third Class on these ships is an assurance of a comfortable and delightful voyage at lowest cost. Enjoy light, airy and spotlessly clean staterooms for 2, 4 or 6 persons; attractively appointed public rooms; large, bright dining rooms and excellent food. Daily concerts, dances and sports on broad, sunny decks contribute to joyous days at sea. Ask the United States Lines' representative on your campus for full particulars and illustrated literature, including a Princeton Professor's account of his trip last summer. Practical itineraries and itemized costs of a variety of European tours are contained in this 32-page booklet.

THE KANSAS STATE COLLEGIAN

VOL XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, MARCH 17, 1925

NO. 48

CLEAR MYSTERY SATURDAY NIGHT

ZIEGFELD'S CHOICES WILL BE ANNOUNCED THEN

Six Most Beautiful Coeds Will Be Named at 10:30 O'clock at Pharaoh's Ball

Final arrangements for Pharaoh's ball have been completed and the big announcement party will be held in Harrison's hall, next Saturday night from 9 to 12.

During the intermission of the dance, Pharaoh's six most beautiful daughters, who are, incidentally, also the most beautiful Aggie women—at least in the eyes of Flo Ziegfeld, world famous beauty critic—will be announced by Prof. E. G. McDonald, of the public speaking department.

Announced in Reverse Order

No one in Manhattan, with the exception of "Doc" Read, business manager of the Royal Purple, knows who the queens are, not even the successful candidates themselves. Nor will they know until 10:30 Saturday night, when their placings will be announced in reverse order from the orchestra pit at Johnnies.

Invitations are being sent to all entrants entitling themselves and a guest to attend the ball without laying down the customary dollar and dime at the door.

"I am very desirous that all the entrants in the contest attend the ball, for Flo's tastes may differ somewhat from those who have entered the Collegian guessing contest," Doc stated. "We want all the entrants present in order that the six who place may blush in unison."

President and Mrs. Farrell and Dean Mary P. Van Zile will be guests. Prof. Hugh Durham will be chaperon.

Pictures of Winners in Journal-Post

Mr. Read has announced that the six beauties will appear in the rotogravure section of next Sunday's Kansas City Journal-Post. The editor of the section has promised that all six of the pictures will be used.

Admission to the ball will be \$1.10. There has been some little misunderstanding about the admission price. The \$2.50 which some thought was the entrance requirement is only the amount necessary to clinch a 1925 Royal Purple.

Mr. Read has kindly consented to move his business office to Harrison's hall Saturday night, and accept subscriptions for the Aggie yearbook, in order to accommodate those who have been neglectful about this matter.

CAMPUS CHEST DRIVE CLOSES

Contributions to Campus Chest Fund Total \$684.15

Contributions to the Campus Chest fund total \$684.15. Of this amount \$532.72 will be given to the Student Friendship fund, which aids students in Europe, furnishing them books and laboratory apparatus and in many cases, food and clothing. The remainder of the fund, \$151.43, will go to Canton Christian college in China.

"I wish to take this opportunity of thanking all chairmen and members of committees who assisted in solicitations for the Campus Chest fund," said Prof. W. H. Andrews, chairman of the Campus Chest executive committee. "Their cordial cooperation is gratefully acknowledged by the central committee."

Persons, other than Professor Andrews, who worked in the Campus Chest drive are as follows: Prof. H. A. Shinn, Prof. Chas. W. Matthews, Carlotta Swanson, Irene Barner, Hoyt Purcell, Alton Walker, Hale Brown, Helen Graham, Helen Hale, and Lillian Kammeyer.

FARRELL TALKS AT FORUM

"New Trends in Education" Is Topic for Last Forum

Acting President Farrell will give the last forum talk Thursday. His subject will be, "New Trends in Education." Last Thursday Professor Kammeyer talked on "Four Greeks and a Jew." This included the five programs of living, and he outlined the philosophy of life as held by Epicurus, Zeno, Aristotle, Plato and Jesus.

The students' forum was started in October and has been held every Thursday noon in the college cafeteria. The purpose of forum is to create thinking on political, religious, educational, and philosophical points of view. The largest attendance was over 300 and the average about 150.

These meetings have been fostered by the Y. W. C. A. and the Y. M. C. A., under the leadership of Dorothy Rosebrough, Josephine Cope-land, Mary J. Herthel, and Paul Ax-tell. Some of the speakers who talked in forum were Senator Curtis; Western Star, Washington correspondent for the Associated Press; Margaret Quayle; Professors Burr and Kammeyer; Paul Weigel; General King of Fort Riley; and Mr. Coleman, President of the Coleman Lamp Company of Wichita.

TICKET SELLING CONTEST ON AMONG LITERARY SOCIETIES

Prize Offered to Organization Selling Most Tickets to "Thank You," Intersociety Play

The annual ticket-selling contest between the literary societies, in connection with the intersociety play, "Thank You," started last week, according to Miss Gladys Sanford, business manager of the play.

The intersociety council offers prizes to the societies selling the most tickets for the play. Last year the Browning society won the \$25 prize for the greatest number sold. This year a \$15 prize will be awarded to the organization selling the most tickets and the societies placing second and third will each receive a \$5 prize. The contest closes Thursday noon, March 26.

Admission will be 50 and 75 cents and seats can be reserved at the auditorium box office beginning Monday, March 23.

"Thank You," the intersociety play, will be presented Friday evening, March 27, in the college auditorium. The cast is composed of members of the various literary societies and is under the direction of Earl G. McDonald of the department of public speaking.

NEW RAY MACHINES ARRIVE

Deep Therapy Lamp and Ultra-Violet Ray Machine Installed

Two new machines, a deep therapy lamp and a water cooled ultra-violet ray machine, arrived last Wednesday and are being installed in a room just north of Dr. C. M. Siever's office as part of the student health department equipment. The machines are the latest models obtainable.

The deep therapy lamp is used in the treatment of strains, sprains, lumbago, and in any ailment in which both light and heat are needed.

The ultra-violet ray machine is used in the treatment of diseased tonsils, nasal troubles, pyorrhea, skin eruptions, and various other disorders. Ultra-violet rays kill germs and the infected portion heals. Water cooling ultra-violet ray machines are much more effective than the air cooled variety. The body can be placed in closer contact with the water cooled rays without danger of blistering the skin, enabling the use of the shorter rays which have greater curative value.

PETERSON TO CONFERENCE

Mid-west Schools May Establish Honors Courses

Prof. J. C. Peterson is the K. S. C. delegate to the honors course conference which is to be held at the University of Iowa, March 17 and 18. The conference will be the first general meeting in the middle west held under the auspices of the National Research Council. Its object will be to discuss conditions which should be taken into account in establishing honors courses in middle western colleges and universities. Several nationally known educators will be among the speakers.

Crawford to Address Writers

Professor Crawford will attend the Writers' conference which is to be held the last of the month at Iowa university. He is scheduled for a lecture March 25 in connection with the poetry program.

Correction

Due to an inaccuracy in records a misstatement was made last week in the story concerning Mrs. Nellie Kedzie Jones. Mrs. Jones' first husband was Robert Kedzie, a brother to William K. Kedzie, who was a professor in the chemistry department here.

The statement that Professor and Mrs. Kedzie were the first instructors in home economics here is incorrect also, as the department originated several years before Prof. William K. Kedzie offered his first course in household chemistry in 1875, and Mrs. Robert Kedzie became a member of the faculty in 1882.

FLONZALEY STRING QUARTET

AGGIE DEBATERS WIN FROM K. U.

UNANIMOUS DECISION FOR K. S. A. C. TEAM LAST NIGHT

Is First Victory in Valley Debate—Two-Speaker Team to Oklahoma, Tomorrow Night

K. S. A. C.'s men's team won a unanimous decision over the Kansas university team in the debate here last night. This is our first victory in Missouri Valley debate this season.

The K. S. A. C. team upheld the negative of the question, "Resolved: That congress be given power by two-thirds vote to override decisions of the supreme court, declaring federal legislation unconstitutional." The men who debated were: Paul Pfeutze, Manhattan; Cecil E. Wait, Gove; and Frank Glick, Junction City. The judges were: D. L. McEachron, Washburn college; Prof. J. A. Irwin, Washburn college; and J. H. Clements, superintendent of the Junction City schools.

Meet Oklahoma Tomorrow

A debate is scheduled for tomorrow night with Oklahoma at Norman. A two-speaker affirmative team accompanied by Professor Summers will make the trip. The K. S. A. C. team is composed of Robert Hedburg and Forrest Whan. This is one of the debates on the second round of the Missouri Valley Debate league.

A men's debating team from the college met the University of Colorado in a no-decision debate last Saturday night in Junction City. The debate was held at the Woman's club under the auspices of the A. A. U. W. The Colorado team is the same one which met Kansas university at Lawrence, winning a two to one decision. Debaters for K. S. A. C. were Frank Morrison and Raymond H. Davis.

GET VIOLET RAY MACHINE

One of Latest Models Arrives at Veterinary Hospital

One of the latest ultra-violet ray machines arrived at the Veterinary hospital this week. It is to be used in the treatment of animals requiring ultra-violet ray treatment.

"The ultra-violet ray opens a new line in experiment work with animal diseases," said Doctor Frick. "It has already proved beneficial for skin diseases in small animals."

Athletic Field Is Under Construction

A new athletic field is being constructed west of the Home Economics building. No decision has been made yet as to whether it will be used as a girls' hockey field or for a football practice field.

Worried Vets Find That Touchdown II. Is Merely Angered

"The wildcat is sick and howling with pain; it's frothing at the mouth," gasped a messenger to Dr. E. J. Frick of the veterinary hospital the other day.

Doctor Frick feared the past basketball season had been too much for the mascot, and gathering together a part of the hospital hurried right over to the cage.

"How'll you manage to doctor him?" queried an excited friend.

"Well, if you'll just hold him, I'll do the doctoring," Doctor Frick answered. Unbroken silence greeted this offer.

When they arrived at the cage, the cat was found in a superb rage. He was not sick but had become very angry at a youngster who was poking a stick at the mascot through the high fence. No medical aid was necessary. Probably the friend longed to hold the young imp while Doctor Frick administered old-fashioned medicine.

CAFETERIA FEEDS 27,000

Open Door Patrons and 20 Banquets Also Served in Past Two Months

The college cafeteria during the months of January and February served approximately 27,000 people in the cafeteria alone. Aside from these quite a number were served in the Open Door tea room.

On Valentine's day and Washington's birthday special dinners were served and about 200 persons in various parties took advantage of them. Special dinners are also planned for St. Patrick's and April Fool's day and for the Saturday preceding Easter.

Twenty different dinners and banquets were served to local and out-of-town organizations at which about 2,700 people were served. The most outstanding of these were the banquets for President Jardine, the American Association of University Women, the Co-op Lassies, the general Farm and Home week banquet, the one for the alumni attending Farm and Home week, and the Father and Son banquet.

The open hours at the cafeteria are from 7:15 to 8:30 o'clock in the morning, 11:30 to 1 o'clock at noon and from 5 to 6 o'clock.

The cafeteria makes a specialty of puddings and students can nowhere else secure the variety of menu that the cafeteria offers.

GO-TO-COLLEGE TEAM OUT

"Questioning Fate" Is Being Presented to 10 High Schools

Agatha Tyler, Ralph Mohri, and Lynn Fayman left Sunday for a week's tour of 10 towns, where they will present the play, "Questioning Fate," in conjunction with the go-to-college program. The high schools in which the play will be presented are Oberlin, Norton, Phillipsburg, Agra, Smith Center, Mankato, Belleville, Jewell, Clyde, and Gaylord.

TAKE ANNUAL K. C. FOODS TRIP

Thirty-Seven Girls Go on the Trip March 8-10

Thirty-seven girls went on the annual foods trip to Kansas City March 8 to 10 this year. The places visited by the group were: Ridenour-Baker, wholesalers, where demonstrations of canned goods were shown; National Biscuit company, H. D. Lee Mercantile company, T. M. James China company, where the party heard a lecture on china and glassware, Swift's, Loose-Wiles, and Wolfman's. The institutional management class with Miss Mina Bates, visited cafeterias and tea rooms.

Those who made the trip are: Ruby Seward, Thelma Sharp, Grace Davison, Ruth King, Letha Olson,

Mabel McComb, Ruth Quinlan, Dorothy Stahl, Edna Hoke, Nora Bare, Roxie Bollinger, Mattie Babcock, Alda Henning, Mrs. Phyllis Miller and her mother, Margaret Manley, Louise Hattery, Ethel Scott, Stella Munger, Virginia Deal, Eva Timmons, May Danheim, Josephine Brooks, Ruth Long, Catherine Bernhisel, Vivian Jewett, Esther Tracy, Esther Otto, Cora Anderson, Doris Dweilley, Blanche Brooks, Susie Huston, Gladys Anderson, Olive Flippo, Gertrude Hamilton, Nora Meade, and Mary Brandy.

FIFTH ANNUAL HIGH SCHOOL JUDGING CONTEST HELD SOON

All High Schools of State Invited to Enter a Team or Individual

The fifth annual state high school judging contest will be held at K. S. A. C. on April 30 and May 1. All of the high schools in the state are invited to enter a team, or if no team is available, an individual in the contest.

To be eligible for participation in this contest, the individual or team must not have competed previously in any judging contest of statewide or national importance. The state high school contest at Manhattan is the only contest held in Kansas that is recognized as of statewide importance in interpreting this rule. An individual or team will not be eligible if it has inspected or worked on college livestock within 10 days previous to the contest.

The individuals who enter the judging contests will be ranked on a basis of their proficiency in judging all four of the following groups: (1) beef cattle, horses, hogs, and sheep; (2) dairy cattle; (3) grain; (4) poultry; and also on their proficiency in judging each of these groups separately. Teams will consist of three students from a high school and will be ranked in a similar manner. Each class judged will be graded on a basis of 75 per cent on placings and 25 per cent on reasons, except poultry, which will be graded on a basis of placings only.

Prizes will be awarded as follows: President Farrell, parchment certificate to the individual making the highest general average on all classes; Professor Payne, parchment certificate to the team making the highest general average judging poultry; Dean Call, parchment certificate to the team making the highest general average judging grain; Professor Fitch, parchment certificate to the team making the highest general average judging dairy cattle; Professor McCampbell, parchment certificate to the team making the highest general average judging beef cattle, horses, hogs, and sheep; K. S. A. C. Poultry club, medal to the individual making the highest general average in judging poultry; K. S. A. C. Klot and Kernel club, medal to the individual making the highest general average in judging grain; K. S. A. C. Block and Bridle club, medal to the individual making the highest general average in judging beef cattle, horses, sheep, and swine; K. S. A. C. Dairy club, medal to the individual making the highest general average in judging dairy cattle.

QUILL CLUB SHORT STORY CONTEST STARTS MARCH 14

Prize of \$10.00 Offered for Best Short Story Submitted

The short story contest held annually by the local run of the American College Quill club, will open March 14. Entries will be received until April 4.

A prize of \$10.00 is offered for the best short story submitted, and honorable mention given to second, third, and fourth places. Miss Ada Rice, associate professor of English, is the donor of the prize.

The contest is open to everyone. The winner of first place is also admitted to membership in Quill club if he is not already a member. Manuscripts should be submitted to Helen Norton, chancellor. Three copies of each story must be made and the name of the writer and title of the story placed in a separate envelope. No person may submit more than one story. A committee of five persons, one a member of Quill club, is appointed to judge the manuscripts.

Sigma Tau Elects Officers

Sigma Tau, honorary engineering fraternity, elected the following officers at its meeting March 9: President, Alton B. Nuss; vice-president, B. A. Rose; secretary, Roy Balner; treasurer, Harold Porter; corresponding secretary, Harry Isham; historian, R. L. Beach. These officers will be installed at the next regular meeting.

NOTED QUARTET LAST OF SERIES

FLONZALEY PROGRAM WILL CLOSE ARTISTS SERIES

Extensive Program Will Be Presented in Auditorium Tomorrow Night by This Famous Group

The Flonzaley quartet, recognized as the most perfect interpreter of the greatest works of chamber music, will give the fourth and last number of the 1924-25 K. S. A. C. Artists series in the college auditorium tomorrow evening, beginning at 8:15. Single admission prices, for those who do not have season tickets, are \$1.50.

Critics Praise Quartet

"When all has been said in praise of other famous organizations, there is still something to be said which is true of the Flonzaley quartet alone," stated the London Daily Telegraph not long ago.

The form of art presented by the Flonzaley quartet offers the ideal opportunity for the display of the finest qualities of great players, and of such as the four idealists who make up the personnel of the quartet. When listening to them, says a critic, one can readily understand the famous remark of the late James Gibbons Huneker, the foremost musical critic of America, when he said, "They play more like angels than like men."

Present Interesting Program

The program to be presented tomorrow night is as follows:

I. Beethoven—Quartet in B flat major, Op. 18, No. 6; Allegro con brio, Adagio ma non troppo, Scherzo, La Malinconia (Adagio), Allegretto quasi allegro.

II. Tschalkowsky—Andante cantabile. Moussorgsky-Pochon—A short suite for string quartet (from the piano pieces, "Pictures at an Exhibition").

(a) Promenade. (b) "An Old Castle" (a minstrel serenade). (c) Gossiping and quarreling on a French market place.

III. Schubert—Andante con variazioni ("Death and the Maiden").

IV. Dvork—Lento, Vivace assai (from "American" quartet).

"THANK YOU" IS STEADY FUN

Characters and Situations Are Gen-uinely Amusing

"Thank You," the comedy to be presented March 27 at the auditorium by a cast of intersociety players, has been well received by critics over the country as it presents a remarkable opportunity for good acting.

An underpaid country clergyman is the central figure of the play and the plot is based upon the complications arising when his homeless niece arrives from Paris and stirs up the community. Subsequently the clergyman is jugged out of his rut as a down-trodden servant of the public and becomes ambitious, prosperous, and modern.

Winchell Smith is the author of the play and he has given the somewhat familiar theme a new locale and a different treatment. There are several highly amusing characters who take part in a continuous series of amusing situations.

Summarize 200 Account Books

About 200 farm account books have been received for summarizing by the agricultural economics branch of the extension division. Most of these books come from counties which have organized farm account clubs but a few come from various parts of the state where the work is not as yet organized. The eight organized counties are Morris, Harvey, Sumner, Washington, Rawlins, Rice, Ottawa, Comanche.

Applications Due

Applications for the position of managing editor of the Collegian for the second nine weeks of the semester should be turned in to Prof. N. A. Crawford immediately. Any student in college is eligible for the position which offers a salary of \$5 per issue. The new editor will take charge beginning with the issue of March 31.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college.
Published every Tuesday and Friday of the college year.
Entered as second class matter at the postoffice, Manhattan, Kan.
The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, MARCH 17, 1925

CHEATING AND PUNISHMENT

It has again become necessary for the discipline committee of the S. S. G. A. to punish students who were caught cheating during examinations. The punishment ranged in degrees of severity up to expulsion from school.

Such drastic action may seem too severe to some persons. Nevertheless it has become increasingly necessary and unless the practice starts to retrograde will become even more severe. Where several years ago cribbing was decried by almost all as being dishonorable and unfair the sentiment towards it today has changed. The same students who frowned on the practice three or four years ago now wink at it. Anyone who discovers a new method of cheating in examinations is termed clever and is envied rather than scorned. When cheating is regarded with such a viewpoint, excluding entirely any ethical considerations of the problem, the authorities must inflict severe punishments in order to protect the scholastic standing of the college. If the institution becomes known as a place where one may obtain a degree without much study; where cheating in examinations is unnoticed, its position in the educational world will drop considerably.

Few students at the present time realize the growing enormity of the offense. The passive attitude in which it is held contributes to this lack of consciousness concerning it. If one really thought about the problem, weighed its advantages in one side of the balance and the chance and uncertain results in the other, he would not cheat. It is often actually less work to learn the material involved in a certain subject than to laboriously prepare a set of cards, a roll of paper, or any of the other devices used in dishonestly writing examinations. But the habit has become so firmly fixed in the minds of some students that they regard cribbing as necessary to their passing a subject. If these persons would spend the time used in planning and preparing their cheating program and paraphernalia in concentrated study the results might surprise them. It is an experiment well worth trying. And in addition to success in the course, the student, no matter how perverted his ideas of honesty, will

possess a feeling of satisfaction with himself because he knows he has been square and aboveboard.

R. G. B.

This dormitory idea is a pretty good stunt. It will serve the purpose of keeping all the dumb sex together. Sort of like an asylum where they keep 'em all in one herd, thus saving much of the trouble of looking after them.

By way of suggestion wouldn't it be a fairly good idea to have the dorm built in a large open space so that entrance to all parts could easily be viewed?

The present idea is to have it built just south of the sheep barns. That is, you might say, separating the sheep from the—ah—goats.

This proposition of trying to write is difficult. Everything appears to have been written about. Married men, single men, bachelors, divorced men, men who wish to marry but can't, men who don't wish to marry and don't—for a while, and all the women have been put down on paper. It seems that there are no more original plots to be had.

It goes even farther. Professor Davis claims that there are no more jokes. There are only eight of them now and they are just told over in new guises each time.

However, just whenever one feels that every line has been exhausted along comes some smart devil with an entirely new and different story. He makes a lot of cash and then tries it again.

These smart people should be assassinated.

The best place to get them is in college. There is nothing more disgusting than to have a smart person in one's classes—unless it is to have him be aware of the fact.

Of course it is no crime to be intelligent, but there is such a thing as carrying it too far.

Harry went home over the week end. He looks rather low so we infer that he made an ass out of himself again. He generally does.

Of course we all feel sorry for the debate coach, but there is this to be said. Authorities say that there is no such thing as being temperamental.

On Other Hills

Students taking magazine writing at Nebraska university made \$350 selling their writings last semester. The highest price received was \$60 and the second highest was \$40.

Fire did \$15,000 damage to the Beta Theta Pi house at Iowa university recently. It is thought that an overheated furnace caused the fire.

Students of Washington State college who have been on the staff of their school paper for five semesters are awarded a gold pin.

The University of Wisconsin is planning to send its track team to the University of California. Plans call for meets with the universities of Denver, New Mexico and Utah on the trip.

A rectifier system, whereby a steady direct current can be furnished at a potential of 20,000 volts is being installed by the department of physics at Kansas university.

Dean E. W. Lord of the College of Business Administration, Boston university says that the average college trapped man has earned \$72,000 more by the time he has reached the age of 60 than has the man with a high school education.

Thirty thousand live rabbits raised at the University of Kansas are in transit to Pennsylvania to repopulate the hills of that state. Each has a separate compartment on a fast train. Game wardens all over the state of Pennsylvania will receive the rabbits to be released there.

Coeds at Mt. Union college are allowed only two weekend and two Sunday dates a month. No girl is allowed to walk across the campus in the company of a man. All chaperones must be married women.

Famous cartoonists will draw the comic sections for the year book at Purdue university. "Sid" Smith of "Andy Gump" fame will be one of the contributors.

Regional Secretary Visits Y. W. C. A.

Miss Frances Perry of Denver, regional secretary of the Y. W. C. A., was in Manhattan Friday. Miss Lois Wildy accompanied her to Lawrence and spent the week-end there. They attended an executive committee meeting, in which the joint Y. M. C. A. and Y. W. C. A. conference was

planned. This conference is to be held in Estes Park, August 22 to September 1.

Studies in Marketing Available

E. A. Stokdyk, extension specialist in marketing, has recently completed a study of the tendencies in apple and potato shipments in various sections of the United States for the past several years. The data is now available in mimeographed form.

This Year You Can Go to EUROPE

RECENT reductions in Tourist Third Class steamship fares make it possible for practically everyone to afford a European trip. Round trip rates between New York and England are \$155 to \$167; between New York and Cherbourg \$162 and \$175.

Make your reservations now for one of these sailings:

S. S. Leviathan . . . June 13th
S. S. Geo. Washington July 8th
S. S. Republic . . . July 15th

Exclusive Tourist Third Class on these ships is an assurance of a comfortable and delightful voyage at lowest cost. Enjoy light, airy and spotlessly clean staterooms for 2, 4 or 6 persons; attractively appointed public rooms; large, bright dining rooms and excellent food. Daily concerts, dances and sports on broad, sunny decks contribute to joyous days at sea. Ask the United States Lines' representative on your campus for full particulars and illustrated literature, including a Princeton Professor's account of his trip last summer. Practical itineraries and itemized costs of a variety of European tours are contained in this 32-page booklet.

Society Happenings

Delta Zeta held initiation Saturday evening for the following girls, Mary Louise Clarke, Paola; Alice Beeler, Jewell City; Ruth Johnson, Manhattan; Le Vange LeVitt, Wilson; Arlene Pooler, Chapman; Cleda Scott, Westmoreland; and Margaret Tamm, Downs. A breakfast followed the initiation.

Guests at the Delta Zeta house this week end were: Mrs. McIntyre, Wakefield; Margaret Watson, Wakefield; Esther Oliver, Leonardville; Jerry Gilmore, Herrington; Lucille Boyd, Dwight; Mary Jensen, Keats; and Ella Wilson, Paxico.

Beta Theta Pi entertained at the chapter house Saturday night with a tacky party. Proctor's orchestra played for the dance. Cider and doughnuts were served throughout the evening.

Katherine Chappell, Dorothy Kendall, Nancy Carney, and Helen Cortelyou were dinner guests at the Pi Beta Phi house Sunday noon.

Sigma Phi Epsilon entertained Friday evening with its formal spring party at Elks hall. Festoons of red and purple, the fraternity colors, decorated the walls and formed a drop ceiling. A revolving crystal ball in the center of the room reflected the red and purple lights which lighted the hall. The fraternity crest and skins were hung on the walls. Each girl was given a silver vanity case as a favor. Riley-Ehrhart orchestra from Kansas City played for the dance. Mrs. Inez Sargent, Prof. and Mrs. H. W. Cave, and Prof. and Mrs. H. W. Davis chaperoned the party. The out-of-town guests were Fay Stice and Miss Flack, Alta Vista; Mary Allen and Betty Nars, Lawrence; Thelma Roberts, Baldwin; Mildred Alford, Glasco; Angeline Heleker, Lincoln, Neb.; Ruth Van Orsdol, Rossville; Mary Jensen, Keats; Joe Faulconer and Wallie Walker, El Dorado; Bob Platt, Hamilton; Leslie Hinkle, Junction City; Arthur Parks and Bob Sears, Eureka; Avery Alcorn, Gus Raw, Marvin Cheripel, M. McHugh, Lawrence; and Morse Salisbury, Manhattan.

Alpha Tau Omega entertained with its annual sister's day dinner at the chapter house, Sunday. A color scheme of green and white was carried out in the decorations and menu. The sisters were: Mrs. J. H. McAdams and Misses Mary Henry, Diantha Walker, Esther Rodewald, Elizabeth Rodewald, Mabel Horlacher, Mary Rolfe, Louise Wann, Adella Walker, and Vivian Shields of Topeka. The other guests were Mr. J. H. McAdams and son, Donald, and Mr. Harry Lamont.

Week end guests at the Kappa Sigma house were: Lloyd Beardsley, Russell; R. J. Van Winkle, Ponca City, Okla.; C. J. Kuykendall, Twin

Falls, Idaho; and D. L. Deniston, Louisville.

The annual Founder's day banquet of Iota Deuteron chapter of Phi Sigma Kappa was given Saturday evening at the Gillett hotel. The color scheme of silver and magenta was carried out in the decorations and menu. Vorlin E. Whan was toastmaster. Faculty and alumni guests were: Jerry Wilson, Prof. N. A. Crawford, Dr. J. F. Bullard, Dr. R. K. Nabours, Walter Law of Council Grove, A. B. Schmidt of Kingman, Leland Keffer of Salina, Frederick Gardner of Paola, and A. D. Mueller of Hanover.

Phi Kappa Theta announces the pledging of Duane E. Wollner of Nowata, Okla.

Alpha Xi Delta entertained, Sunday, with a tea for Pan-Hellenic representatives in honor of their national visitor, Mrs. Myrtle Coker Comb.

Phi Sigma Kappa held formal initiation Saturday morning for William E. Carroll, Coffeyville; and Joe M. Anderson, Salina.

Kappa Kappa Gamma announces the pledging of Miss Viola Ridge of Iola.

Mu Phi Epsilon announces the pledging of Mary Jackson, Blanche Lapham, Bertha Lapham, Cornelia Schauf, Mary Russell, Ruth Faulconer, Helen Jerard, and Lucille Stalker.

Miss Katherine Hudson of the clothing and textiles department entertained 32 of her friends with a bridge luncheon at the Gillett hotel, Saturday afternoon. Prizes were won by Miss Florence Clarke and Mrs. Wm. Wertz. The color scheme was yellow and green and the tables were decorated with Ophelia roses and smilax.

Mrs. Robert Gordon and Miss Mabel Murphy entertained the following guests at tea Sunday evening: Misses Elsie Smith, Clarice Painter, Edna Ellis, Ruth Scott, Dorothy Brown, Grace Hesse, and Mrs. Suzanne Pasmore.

Bethany Circle entertained Tuesday evening with a St. Patrick's party at the church parlors. A color scheme of green and white was used in the decorations and refreshments. Miss Mary Stutz was in charge of devotionals and Mrs. Eusebia Thompson led prayer. Miss Helen Clark reviewed book study and religion in Africa. Following the program, officers were elected. They are as follows: president, Mary Lowe; vice-president, Mary J. Herthel; recording secretary, Mary Chilcott; corresponding secretary, Vera Alderman; treasurer, Bernice Souders; recorder for the "Radins," Ruth Falconer; alumnae secretary, Kitty Falconer; delegates to the convention at Columbia, Missouri, on April 16 and 17, Elizabeth Sorenson and Mary Lowe.

Delta Zetas Late to Lunch as Result of a False Alarm

Scarlet fever! When the Delta Zetas went home the other noon they were greeted with the red and black. Even the mailman had refused to take their letters. Visions of a week with only one dress to wear appeared to the dumbfounded girls. They rushed over to Aggieville and called up the house. No one knew anything about the sign. No one was ill. No, no one knew who could have done it, unless of course, it was some frat. And of course it was.

Y. M. C. A. OFFICERS NOMINATED

Voting Will Take Place on April 1

Nominations for officers of the college Y. M. C. A. for next year have been announced by Dr. Howard T. Hill, chairman of the nominating committee. The nominees are as follows: President, Paul Pfeutze; vice-president, Fred Shideler and Paul Axtell; secretary, James Blackledge and Paul Skinner; board members, Donald Springer, Alton Walker, Frank Morrison, Roy Balner, John Price, F. E. Wiebrecht, Harry McGee, Eric Tebow, Joe Haines, and John Moyer. Five members will be elected to the new board, from the above candidates.

C. W. Corsaut was nominated to succeed Ira Pratt, and Dr. J. H. Burt

to succeed himself as members of the faculty board.

Ballots will be printed and sent out through the college postoffice March 31, so that all members can cast their votes on April 1.

Mrs. Crockett Sells Story

Mrs. Mary Elva Crockett, secretary to Dean Justin, recently sold a story to the Forecast which is to be published in the April number. The article is entitled "Anniversary Celebration in Kansas," and gives the development of home economics at this institution and the plans for the golden jubilee in April. Some of the prominent graduates and the work which they are now doing also is listed in the article. Mrs. Crockett, who is a member of Theta Sigma Phi, has written several other stories for the Forecast.

KANSAS BOXERS BEAT AGGIES

Jayhawkers Take Four Out of Seven Bouts in Close Meet

The Aggie boxing team lost a close meet to the University of Kansas at Lawrence Wednesday night, the Jayhawk taking four out of seven bouts. It was the first appearance of the Kansas team in intercollegiate boxing and the second for the Aggies this year.

The Aggies took two decisions and a technical knockout, while K. U. won two technical knockouts and two decisions. Pearson of the Aggies and Spencer of Kansas in the heavy-weight class put on the feature bout, Spencer being unable to continue in the third round.

The summary:
115-pound class: O. E. Walgren, (Aggies) of Denver, Col., won three-round decision over Jess Miller (K. U.) of Eureka.

125-pound class: Charles Einbinder, St. Joseph, Mo. (K. U.) won three-round decision over J. A. Stewart, Abilene (Aggies).

135-pound class: John Montgomery, Junction City (K. U.) won by technical knockout in third round over H. E. Miller, Lincoln, Neb. (Aggies). Time, 1 minute, 45 seconds.

145-pound class: C. L. Hoelzel, Kansas City, Mo. (Aggies) won three-round decision over Merle Price, (Richmond) (K. U.).

158-pound class: Leon Seelig, Kansas City, Mo. (K. U.) won by technical knockout in third round over H. Purcell, Manhattan (Aggies). Time, 1 minute, 57 seconds.

175-pound class: Marshall Smith, Kansas City, Mo. (K. U.) won three-round decision over T. S. Guthrie, Saffordville (Aggies).

Heavyweight class: Z. Pearson, Manhattan (Aggies) won by technical knockout in third round over Kenneth Spencer, Pittsburg, (K. U.). Time, 1 minute, 30 seconds.

EIGHTEEN MEN HAVE PASSED RED CROSS LIFE-SAVING TESTS

Eligible to Charter Membership in Corps to Be Organized Here

Eighteen men have passed the Red Cross life-saving tests and will be awarded the certificate and emblem. Two classes in Red Cross swimming were conducted last semester in connection with the physical education requirements. These men will be eligible for charter membership in a local Red Cross life-saving corps which is to be organized in Manhattan in the near future, according to

George Wheeler and Perry Thomas, local examiners.

The men who have qualified for life guards are: Rushton Cortelyou, Manhattan; Charles Weeks, Udall; Jack Vasey, Arkansas City; F. R. Carter, Bradford; T. L. Hoffman, Abilene; R. F. Carroll, Fredericktown, Mo.; E. L. Brady, Manhattan; L. H. Davies, Manhattan; E. L. Watson, Beloit; M. M. Kerr, Manhattan; H. C. Paulsen, Atchison; Paul Chappell, Manhattan; G. F. Martin, Manhattan; K. N. Hartzog, Humboldt; P. A. Skinner, Manhattan; Vance Eastwood, Manhattan; F. W. Pearson, Hutchinson; J. C. Schrader, Ford.

INTRAMURALS DRAW MANY

Large Number of Entries Causes Postponement of Events

So many contestants entered intramural track that only a few of the events scheduled for last Monday night were completed.

In the two-mile run 59 men competed. A. E. McGrath won the event, with a record of 10 minutes, 43 seconds; L. E. Moody took second; N. T. Dunlap third, V. H. Butterfield fourth. In the one-mile run there were 60 entries: A. E. McGrath again took first, his time being 4 minutes, 54.5 seconds. H. Allard was second, V. H. Butterfield third, Helguy fourth. In the high jump R. R. Zurbuchen took first with a jump of 5 feet, 8 inches. C. A. Logan was second, and Burton third.

CAMP HAD GREAT CAREER

Noted Athlete's Life Devoted to Elevation of Sport

With the passing of Walter Camp, Saturday morning sportdom is left to mourn a man who was probably the greatest of that not inconsiderable group of men who have devoted their lives to the elevation of sport and kindred activities.

Football was the chief field of Camp's activity. For six years he was a player on the great Yale eleven, and for 20 years he was coach of the football team of that school. Since that time he has generally been conceded to be the foremost football authority in the United States and

for several years has chosen the men for the mythical "All American Eleven."

At the time of his death, Camp was a member of the National Committee on Football Rules, and was attending the same convention as was M. F. Ahearn, director of Aggie athletics. It was between sessions of this convention that death by heart failure came to him.

Mr. Camp was famous not only as a football authority but as the man who has done more than any other one man toward promoting individual physical education all over the country. He was the author of the famous Daily Dozen system of physical improvement, and of many others, similar in purpose.

JUNIORS AND SOPHOMORES WIN

Women's Interclass Basketball Meet Held Tuesday

The junior and sophomore teams were victorious in the first games of the interclass tournament, which were played Tuesday in the women's gymnasium. The scores were: Juniors vs. seniors, 26-30; and sophomores vs. freshmen, 27-11.

The tournament will be played off on Tuesday and Thursday afternoons at 5 o'clock. Two games will

All Valley Teams (Kansas City Journal-Post)

First Team

Ackerman, Kansas, forward (c).
Minner, Washington, forward.
Goodson, Nebraska, center.
Volz, Nebraska, guard.
Wilkin, Kansas, guard.

Second Team

Bunker, Aggies, forward.
Wheat, Missouri, forward (c).
Wheeler, Oklahoma, center.
Doolen, Aggies, guard.
Cox, Washington, guard.

(Kansas City Star)

First Team

Ackerman, Kansas, forward (c).
Peterson, Kansas, forward.
Goodson, Nebraska, center.
Volz, Nebraska, guard.
Wilkin, Kansas, guard.

Second Team

Bunker, Aggies, forward.
Minner, Washington, forward.
Seago, Washington, center.
Cox, Washington, guard.
Tipton, Nebraska, guard (c).

Third Team

McBride, Oklahoma, forward.
Moran, Grinnell, forward.
Tebow, Aggies, center.
Belgard, Kansas, guard.
Buchner, Missouri, guard.

Honorable Mention

Forwards—Schmidt and Engle, Kansas; Ruppert, Oklahoma; Usher, Nebraska; Byers, Aggies; Everett, Drake.

Centers—Boge, Grinnell; Wheeler, Oklahoma; Jacobson, Ames.
Guards—Doolen, Aggies; Well, Washington; Dunlap, Oklahoma; O'Sullivan, Missouri.

Of the 1925 all-valley team selections, one might say, "and some are good, and some are bad, as good and as bad as—usual."

The Collegian, however, has no quarrel with any of the selections, save that in those of the Star, four Aggie men were placed in the list and the best all around basketball player on the team left off. We refer to Fritz Koch, guard.

Koch was given honorable mention by the Journal-Post. For his offensive work we refer you to the valley scoring list, for his defensive ability to Coach Charles Corsaut, and for his floor work to the Grinnell basketball team.

Those interested in track will do well to keep an eye on M. L. Sallee, Long Island, cross country letter man. In time trials last Saturday for the two mile Sallee covered the distance in 10 minutes, 3 seconds. It was outdoors on a raw day, using a 12 lap improvised board track. Several valley dual meets were won in slower time than that over a quarter mile track under good conditions last season.

With the passing of Walter Camp the position of leadership in the American football world is left vacant. Hundreds of athletes worked under him during 20 years of coaching at Yale. Thousands more have learned fundamentals of the game through his books on the subject. And practically every sport follower in the United States knows of Camp as picker of "All-American" football teams.

Though it is difficult to tell who will take Camp's place as dean of the American game, his leadership in writing probably will pass to Chicago and Walter Eckersall, who occupied the same relative position as a western star that Camp did in the east during collegiate days.

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, MARCH 20, 1925

NO. 49

TABLES TURNED ON K. U. BOXERS

WILDCAT TEAM TAKES FOUR OUT OF SEVEN MATCHES

Pearson Scores Technical Knockout
—Nearly 2,000 Persons At-
tend Meet Wednesday

The Kansas Aggie boxing team reversed the count in the return meet with the University of Kansas in Nichols gymnasium, Wednesday night, and won the match by taking four bouts out of seven. The Wildcats started off by taking the first three bouts, and dropped the next three, tying the count.

In the heavyweight match, which decided the meet, Zurlinden Pearson, Manhattan, scored a technical knockout over K. Spencer, Pittsburg, K. U. Pearson outweighed Spencer by about 30 pounds, and started out in earnest. At the end of 42 seconds Spencer went "out" from a blow on the chin.

K. U. Wins Feature

The feature bout of the evening was between Captain C. F. "Pug" Hoelzel, Kansas City, Aggies, and Captain John Montgomery, Junction City, K. U. Montgomery was switched from the 135 to the 145 pound class to meet Hoelzel. Montgomery took the first round, in which Hoelzel did not open up. In the next two, fighting was practically even, with Montgomery having a shade the edge, though the match nearly went the extra round. The bout was "worthy of a professional rating," according to Rev. E. A. Blackman, referee.

In the lightweight class Walgren slashed away a victory over Craven.

Stewart Reverses Decision

Stewart of the Aggies, who lost a close decision at K. U. last week, had the edge in his favor at the close of the 125 pound bout against the same man. Rose, Aggies, profited by the shifting of Montgomery to the 145 pound class to outpoint Merrill of Kansas in a close bout. Rose won out by hitting cleaner, harder blows, though Merrill put up an excellent fight.

Farrell took an unmerciful lacing from Seelig for a round and a half, when his shoulder was thrown out of place and the bout stopped.

Superior boxing experience won the 175 pound bout for Smith of Kansas from Tombaugh, who carried the fight but was outpointed in landing clean cut blows.

Nearly 2,000 persons attended the matches. It was the first intercollegiate boxing match ever held at the college.

The summary:

155 pounds—O. E. Walgren, Denver, Col., Aggies, outpointed Cleo Craven, Oberlin, K. U.
125 pounds—J. A. Stewart, Manhattan, Aggies, outpointed Charles Elinbinder, St. Joseph, Mo.
135 pounds—F. T. Rose, Kansas City, Kan., Aggies, outpointed Steve Merrill, Garden City, K. U.
145 pounds—John Montgomery, Junction City, K. U., outpointed C. F. Hoelzel, Kansas City, Mo., Aggies.
158 pounds—Leon Seelig, Kansas City, Mo., K. U., defeated Stewart Farrell, Manhattan, Aggies, one and a half rounds.
175 pounds—Marsh Smith, Kansas City, Mo., K. U., outpointed Si Tombaugh, Kansas City, Kan., Aggies.
Unlimited—Zurlinden Pearson, Manhattan, Aggies, defeated K. Spencer, Pittsburg, K. U. Technical knockout after 42 seconds.

CRAWFORD WRITES ON HIGHER STANDARDS FOR JOURNALISM

Article in Christian Science Monitor
Stresses Cooperation of Schools
and Press

"Higher Standards in Profession Is Aim of Journalism Schools," an article written by Prof. N. A. Crawford, appeared in a recent issue of the Christian Science Monitor. Professor Crawford is head of the K. S. A. C. Journalism department and president of the American Association of Teachers of Journalism. His article has been reprinted in part or in full by several newspapers and has received much favorable comment.

Although journalism has been taught only about 20 years, the schools and departments of journalism have already developed numerous plans for special service to the newspapers and other publications of the country, according to Professor Crawford.

"The work of none of the great colleges and universities of the United States is now confined to its own campus," he said. Writing and editorial work is one service rendered to the profession by the teachers of journalism who take this up. Short courses for editors and pub-

lishers, and mechanical instruction were cited as special service features by Professor Crawford. Contests and conferences have been arranged as benefits to high school newspapers.

"Probably more important than any of these specific practical activities is the fostering, by schools of journalism, of higher and at the same time more realistic standards in the profession," Professor Crawford declared. "Working in cooperation with each other as they regularly do, the schools of journalism and the press make a more profound impression upon journalism than either would be able to make alone."

PFUETZE HEADS CONFERENCE

Is Elected Chairman of Estes Park
Discussion Conference

At the executive committee meeting of the Y. W. and Y. M. held in Lawrence last week, Paul Pfuetze, candidate for president of the local Y. M. C. A., was elected chairman of the Estes Park conference to be held at Estes Park August 22 to September 1. The Y. W. C. A. chairman elected was Marjorie Day, ex-president of the organization at Kansas university. This is the first time in the history of the United States that the joint Christian organizations have held conferences together, as they are planning to do this summer at Estes Park. Other student movements of Europe and Canada have been practicing this plan for some time.

At the conference this summer there will be 500 students present, 200 women and 200 men coming from the Rocky Mountain region, Colorado, Wyoming, Kansas, Nebraska, and New Mexico, and 100 women coming from the southwest region, including Texas, Missouri, Oklahoma, and Arkansas. College campuses will have quotas and students must apply to go to the conference as they did for the Indianapolis convention.

Dr. A. Bruce Curry, of White Biblical Seminary, will conduct the Bible study presentations each day and will train the discussion group leaders. Doctor Hutchins, president of Berea college, Kentucky, and vice-president of Oberlin college, will give a series of addresses on the fundamentals, "Purpose of Life Conception of God," "Source of Power," "The Person of Jesus Christ," and also a talk on the educational system. There will be other prominent leaders to present economic and international problems and solutions.

PROM AND HOP APRIL 17-18

Chuck Shofstall Will Play for Annual
Class Affairs

Plans for the junior-senior prom and the freshman-sophomore hop are moving forward according to Guy Faulconer and Jack Spurlock, respective managers of the two annual affairs.

Chuck Shofstall's seven piece orchestra has been secured for both nights.

The prom will be held April 17 in the gymnasium from 10 to 1:30 o'clock. The dance will not begin until 10 o'clock because of the program to be given that night by the division of home economics.

Mr. Helder of the architectural department will have charge of the decorations and is planning something new. The program will consist of numbers by the men's quartet, a specialty dance, songs by the blues singer of the orchestra, and the presentation of the crook to the junior class. Laureda Thompson, president of the senior class, will present the crook to Paul Brantingham, president of the junior class.

The same decorations with some alterations, will be used for the hop, which will be held the next night at the gymnasium from 8:30 to 12 o'clock. The men's quartet will sing. President Harold Souders of the sophomore class will present the key to the new president of the freshman class.

Discuss Old and New Policies

Katherine Welker, the recently elected Y. W. C. A. president, presided at the vesper services Tuesday afternoon in Recreation center. "Old and New Policies" was the subject for the afternoon. Evelyn Colburn discussed old policies mentioning especially retreat, where the girls gather to discuss "life at it best." The organization expects to hold retreat March 28 and 29 this year. Charlotte Swanson led a discussion on new policies, and invited everyone to express an opinion or suggestion for Y. W. C. A. management.

Edelena O'Neal, f. s., has moved from 1018 Vine to 628 Throop, Kansas City, Kan.

59 ENROLLED IN ELECTRIC METERMEN'S SHORT COURSE

Increase of 20 Per Cent Over Last
Year—Prominent Authorities
Are Instructors

Enrolment in the third annual short course for electric metermen totals 59, an increase of 20 per cent over last year's enrolment, according to Prof. C. E. Reid. The course is being held here from March 16 to 20 under the direction of the electrical engineering department.

Among the authorities on meter problems who are lecturing during the course are J. E. Brown, head of the Kansas Electric Metermen's association, Lawrence; William Gearhart, Kansas Electric Power company; W. B. Deffendall, Duncan Electric Manufacturing company; F. A. Lehmann, United Power and Light corporation; H. A. Howrey, who is in charge of the meter department of the Kansas City Light and Power company; L. E. Northshield of Chicago, meter specialist for the General Electric company; L. E. Emerick of Philadelphia, Leeds and Northrup company; H. L. Gay, meter specialist for the Westinghouse Electric and Manufacturing company; F. J. English, Sangamo Electric company; and J. W. Jones, Weston Electrical Instruments company.

The course is divided into two parts this year. The first course, one in single phase meters, is designed for those of more limited experience and training, and for those engaged where metering problems are not so complicated. The polyphase meters course is planned for the more experienced metermen who wish to supplement their practical experience and knowledge with more technical information and with ideas to be gained by contact with experienced men from other utilities. Employees of utilities companies throughout the state were invited to take the courses.

Through the courtesy of the United Light and Power corporation a banquet for the short course men will be given this evening at the Pines. The program is to be in charge of officers of the Kansas Electric Metermen's association.

ADDRESSES STUDENT FORUM

Farrell Speaks on "Present Trends
in Education"

President F. D. Farrell spoke on "Present Trends in Education" at yesterday's student forum, the last of the series of forum talks to be held this year.

Trends in education cited by President Farrell were those towards placing more emphasis on personal qualities as factors for individual success, anxiety lest education become over-vocationalized, and the return to the idea that the student should pay the costs of his education.

NEW FACULTY APPOINTMENTS

New Members in Horticulture, Domestic Art, and Extension
Departments

Among recent appointments to the faculty is that of Ray Wick, as a temporary instructor in landscape gardening. Mr. Wick attended K. S. A. C. in 1899 and 1901 and received his B. S. degree in civil engineering from K. U. in 1905. He has had 14 years of civil engineering experience.

Miss Maude E. Deeley, former Clay county home demonstration agent, has been appointed an instructor in clothing and textiles in the extension division. Another change in the extension division is the appointment of Walter G. Ward, former extension architect, to take charge of the engineering department of the division.

HIGH SCHOOL SCHOLARSHIP CONTEST BEGINS MAY 2

Purpose of Annual Contest Is to En-
courage Scholarship in Kan-
sas High Schools

The annual high school scholarship contest held at the college in the spring of each year will begin at 8:30 Saturday morning, May 2. The purpose of this contest is for the encouragement of scholarship among the high schools of Kansas. Any four-year high school in the state of Kansas is entitled to enter a contesting team of three members selected from its senior class.

The tests will be of the objective type, about 20 minutes in length for each subject. Each contestant will take eight tests as follows: English composition, English literature, first year algebra, plane geometry, American history, civics, physics and botany, general science, or elements of agriculture.

Silver loving cups are awarded to the three teams making the best score. Gold medals are given to the members of the team making the best score, silver medals to the ones making the second best score, and bronze medals to the ones making the third best score. Scholarships of \$100, \$75, and \$50 are awarded to the individuals making the first, second, and third best scores, respectively, and \$25 each to the persons ranking fourth, fifth, and sixth. The cups and medals are provided by four of the scholarship organizations in the college, Phi Kappa Phi, Phi Delta Kappa, Alpha Zeta, and Sigma Tau. The scholarships are good only if used at this school.

WAR HORSE PLACED HERE

College Secures General Haig, Thoroughbred Race Horse, from War
Department

The animal husbandry department has secured a thoroughbred horse, General Haig, that has won more than \$25,000 in prize money as a race horse. This is one of the horses placed in different localities throughout the United States by the war department that the farmers may use them for breeding purposes.

There is a need and market demand for riding horses in the country. Wealthy men, who are interested in better livestock in the United States, are donating to the army the kind of horses that will serve good riding horses. The army, in turn, is placing these horses where the farmers may have the use of them.

The horse received by K. S. A. C. was raised in Kentucky, and is one of the best horses that has ever been owned by the college.

During the world war, three-fourths of the mounted soldiers had to ride plow-horses because of the shortage of riding horses. The placing of these horses by the army is a protective measure as well as an aid to the farmers and those city people who enjoy good riding horses, as it will make more riding horses available in case of war.

REUNION PLANS BEING MADE

Several Classes Have Started Pre-
parations for Meetings

Preparations for class reunions have been started by the classes of '85, '90, 1900 and '15.

The alumni association is trying to get all the classes of years which are multiples of five to hold a reunion this year. The association encourages these reunions as much as possible because it helps to keep the alumni interested with the work and progress of their college.

MODERN SCIENCE OFFERS VAST FIELD FOR FREE LANCE WRITER

Crawford Believes Supply of Scientific
Articles Short of Demand

In the realm of modern science lies a vast and almost unexploited field for the free lance writer, Prof. N. A. Crawford, head of the department of industrial journalism at the Kansas State Agricultural college, told students in the department at the weekly lecture last Thursday.

"Ten times as much scientific material as is now being published could be sold to the press," Professor Crawford said. "The rapid growth of demand for articles on science is revealed in the fact that the circulation of the Popular Science Monthly has grown from 7,000 to 262,000 in 12 years, by the increase in the amount of space devoted to science in the general magazines, by substantial sales of popularly written books on science, and by the success of feature services supplying science material to newspapers."

The qualifications for writing science articles are a grounding in the sciences and an ability to write in language the casual reader will understand. Professor Crawford stated. The subject matter is of greatest interest in science writing, and timeliness is not especially important.

"Neither the ordinary reporter nor the scientist produces, as a rule, good scientific stories," Professor Crawford commented. "The reporter makes too many errors and the scientist does not present the material in popular style."

"Accuracy and intelligibility are the most important requirements for success in writing scientific articles."

ENGINEERS RECEIVE OFFERS

Practically All Seniors Have Posi-
tions After Graduation

Practically all senior engineering students have received one or more offers for positions after graduation. Final decision has not been made in some cases.

The General Electric company at Schenectady, N. Y., gave offers to the following: T. M. Berry, Jr. EE.; H. O. Bennett, Sr. EE.; R. M. Hill, Sr. EE.; R. B. Melvin, Sr. EE.; W. E. McKibben, Sr. EE.; G. A. Plank, Sr. EE.; C. W. Schemm, Sr. EE.; S. B. Storer, Sr. EE.; H. R. Wege, Jr. EE.; W. L. Howell, Jr. EE.; Perle Rumold, Sr. FME.; H. D. Franklin, Jr. ME.; W. A. Johnson, Sr. ME.; H. W. Uhrig, Sr. ME.

A. F. Rheberg, Sr. EE., received an offer from the General Electric company at Lynn, Mass.

The Westinghouse Electric company offered positions to Nathan Chilcott, Sr. EE.; Merle Crawford, Sr. EE.; H. M. Porter, Jr. EE.; W. D. Hemker, Sr. AE.; Ernest Miller, Sr. ME.; and Fred Shell, Sr. ME. Several students who graduated last February have received positions under the Westinghouse company.

Keith Nowell, Sr. EE., will be connected with the Associated Bell Telephone companies; C. H. Johnson, Sr. EE., with the United Light and Power company in Manhattan; M. R. Buck, Sr. ME., with the Santa Fe railroad in Topeka; K. R. Bunker, Sr. ME., in business with his father in Kansas City; R. H. Watson, Sr. ME., with the Western Electric company at Chicago.

The companies sending representatives to interview the junior and senior engineering students were Century Electric, General Electric, Westinghouse Electric and Manufacturing, Wagner Electric, and the Associated Bell and Telephone.

PLAY HAS UNUSUAL PARTS

"Captain Applejack" Calls for
Vamps, Villains, and Pirates

Vamps and villains, pirates and bandits will lead the cast of "Captain Applejack." Purple Masque spring play to be presented during Festival week. This romantic melodrama that moves along with a spirit of adventure calls for unusual characterizations and dramatic ability.

Anna Valeska, a Russian dancer, is the female lead that requires a decided French accent and a Barbara LaMarr type of beauty. A quaint old-fashioned person with quaint old-fashioned ways is Poppy Fairie who drops her old time mannerisms and becomes a dashing cabin boy on the pirate ship in the second act.

An almost dual role is that of Ambrose Applejohn, a mild, settled, English bachelor who falls asleep and is transported to a bandit ship. As Captain Applejack his swagger and bravado are truly piratical and he faces the maddened crew with confidence unknown to the Englishman. Borolsky is a suave, oily, Russian villain whose crook methods are concealed by the easy polish of a nobleman.

These four leads are supported by a cast that includes old maid aunts, Englishmen, Chinamen, pirates and butlers.

Tryouts for the play will be held only one day, Monday, March 23 in G56 from 3 to 6 o'clock. Candidates may read the manuscript before Monday at the public speaking office.

Frances Perry Vespers Speaker

Miss Frances Perry will speak on the subject, "Are You Alive?" at vespers Tuesday afternoon in Recreation center. Miss Perry is Y. W. C. A. regional secretary of the Rocky mountain region, and was formerly a Girl Reserve secretary traveling among the high schools in this region.

Tuesday afternoon's vesper service is the first of a series of pre-Easter meetings planned by the Y. W. C. A.

Russell Rosene is ill with scarlet fever.

FINAL STADIUM DRIVE APRIL 7

STUDENTS ASKED FOR \$40,000 IN
PLEDGES

W. A. A. and K. Fraternity in Charge
of Campaign—Expect Quick
Wind-up of Drive

Under the leadership of the Women's Athletic association and the K. fraternity a final home campaign for funds to finance the completion of the Memorial Stadium will be launched April 7 at a student assembly. It was announced this morning \$50,000.

The objective of the campaign V. E. Whan, field manager in the final campaign among Kansas alumni, has acceded to the request of the W. A. A. and the K. fraternity that they be given the organization of the campaign among students.

From Students, \$40,000

Of the total which is to be secured in this last effort on the campus and in Manhattan, \$40,000 has been allotted to the student teams. Faculty members and Manhattan townspeople will be asked to subscribe \$10,000.

"This campaign is the wind-up of the Stadium effort on the campus and in Manhattan," Mr. Whan stated. "With the \$50,000 goal attained subscriptions to the Memorial Stadium fund from Kansans will total approximately \$375,000. The alumni living outside the state will be given an opportunity to raise the remaining amount needed to complete the fund which will be required to build the stadium as planned."

Expect Ready Response

W. A. A. and K. fraternity members are confident of an enthusiastic response from the student body to the Stadium funds appeal. Those who are seniors remember the remarkable student assembly which opened the Memorial Stadium campaign on April 28, 1922. At this assembly \$66,000 was pledged. The organizers of the final effort expect as eager a reaction on April 7. If it is obtained the campaign will be finished in one day.

Probably two-thirds of the present student body have not subscribed to the Memorial Stadium fund. Those who have contributed will be designated by tags on the campaign opening day and only students who have not helped to "Make It Unanimous" will be solicited.

KAPPA PHI ELECTS OFFICERS

Pledge Service to Be Held at Next
Meeting, April 7

The following officers were elected at the meeting of Iota chapter of Kappa Phi held Tuesday evening: President, Agnes Norton; vice-president, Gladys Stover; recording secretary, Ruth Ball; corresponding secretary, Esther Babcock; treasurer, Bernice O'Brien; chaplain, Verna Lawrence.

Devotionals were led by Grace Steininger, and a report of a visit to Alpha chapter at Lawrence was given by Agnes Horton. The program consisted of a piano solo by Cornelia Schaaf and a talk by B. A. Rogers.

The next meeting will be held April 7. A special pledging service, the last of the year, will occur then. All girls wishing to be pledged at this time are asked to notify Laura Russel.

Dean Justin Goes on Speaking Tour

Dean Margaret Justin will leave on a speaking tour to junior colleges in the state. Garden City, Arkansas City, and McPherson will be visited on this trip. Last week end Dean Justin visited similar institutions at Independence, Iowa, and Fort Scott. In those towns she met with the extension workers and talked on "Food, the Weather, and Health."

LOSE TO OKLAHOMA

Aggie Debate Team Is Defeated in
Another M. V. Contest

A K. S. A. C. two-speaker affirmative team lost a unanimous decision to Oklahoma at Norman, Wednesday night. The men who made the trip are Robert Hedburg and Forrest Whan accompanied by Prof. H. B. Summers. This debate is one of those on the second round of the Missouri Valley Debate league schedule. Oklahoma has an exceptionally strong team this year, having won all debates so far, and stands a very good chance of winning the valley championship.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

CHAPEL PROGRAMS

Do you attend assembly programs? And if you do, why do you do so?

Judging from the attitude of quite a number of the chapel attendants the minutes allowed for the program serve only as a period which they use to use for recreation and conversation. They seem to have forgotten entirely that the program is being given for their benefit and information; that the information is often valuable.

This inattention and lack of fundamental respect and politeness toward a chapel speaker, that exists all too generally among students of K. S. A. C., constitutes a problem that will require the cooperation of everyone to solve. To an outsider this lack of attention is an excellent indication that a very inferior class of students attend the college. And most of the chapel speakers are men of national or regional prominence outside of Manhattan.

Picture yourself giving an address before the student body in chapel. You have worked hard on the speech and spent much time in carefully preparing material that should prove of interest to men and women of college age. When you appear on the stage you look over your audience. Scattered in various seats throughout the building you see several persons apparently asleep. Others are engrossed in reading newspapers or textbooks. Others are laughing and causing a general commotion in their particular vicinity. And others are busily engaged in conversation; men with their dates, girls telling each other the latest news. Would it not be discouraging and creative of a very bad impression of the school?

Those in charge have not set aside the weekly chapel periods in order to allow students to catch up with sleep, to feed their stomachs, or to gossip. Neither have they set aside the time to perpetrate boring and tiresome lectures upon the student body. The non-compulsory attendance at chapel is excellent proof of this. But they do hope that the students will appreciate the recreational and educational opportunities the assemblies offer. Obviously, it is only courtesy and fairness on the student's part to attend chapel and at least appear interested. If one finds it impossible, either through his lack of appreciative intelligence or mental capacities to be interested in the programs, the only alternative is to remain away.

People talk a lot about the coming of spring and make a big fuss over it, but it doesn't make much difference. Spring comes anyway.

Certainly girls have a place in the world. One is forced to admit that.

But confound 'em, why don't they stay in it.

A person can't help but be thankful for the little rainy spell the other day. It finally gave a bunch of the college boys—and also many fair damsels—the long sought opportunity to wear their bright yellow slickers.

And then the rain was a deciding factor in determining whether or not many of these "naturally curly" heads were naturally curly. Most of them weren't.

Real honest to goodness luck is when you have absolutely no preparation for class and then the professor doesn't show up. But that seldom happens.

A sure way for a professor to gain popularity is for him to fail to show up about eight or 10 times during the semester. Very few professors care to be popular though.

This may not be a sure test of intelligence, but did you ever notice which part of a Sunday paper most folks read first?

A visitor would imagine that Aggie students are music lovers because they make less noise at a musical chapel than at any other. That isn't it at all. The noise of the students just can't be heard above the music.

We greatly admire a man who can get out and handle the ladies with ease and dispatch, but we take off our hat to the fellow who up and tells a girl that he is getting tired

of going with her, whenever he feels so inclined.

A great man indeed! And a brave one.

In an effort to gain attention and sympathy and to be in up to date style, Harry pretends that he has succumbed to the recent wave of disease. We sincerely hope he takes the scarlet fever.

We deplore the fact that the word "wench" is seldom used any more. Always rather liked the word and it seems to fit most cases so nicely. "A handsome wench." Ah! what a fine phrase.

Send the Collegian home.

There Is Ample Proof of the Unfailing Superiority of J. C. Penney Co. Quality!

You can buy at this Store positively assured of receiving the utmost satisfaction from the service your purchases will give. For 23 years, this has been the enjoyment realized by patrons of this Company.

If it were not so, would it today be the World's Largest Chain Department Store Organization?

If it were not so, would it have grown from one small Store in 1902, to a Nation-Wide Institution of 571 Department Stores in 1924?

If it were not so, would it have been possible for its annual sales to increase from \$28,898 to over \$74,000,000 in less than a quarter of a century?

If it were not so, would it today be the choice of more than a million families in 41 States?

If it were not so, would it have been possible for it to sell last year approximately 18,000,000 pairs of hosiery; 6,000,000 knitted undergarments; 4,000,000 handkerchiefs; 1,500,000 ready-to-wear garments for women and children; 5,000,000 pairs of shoes; 4,500,000 shirts and 2,500,000 pairs of overalls?

If it were not so, would it have sold last year 7,500,000 yards of muslins and sheeting; 5,000,000 yards of ginghams and 5,000,000 yards of percales among other dry goods items?

If it were not so, would 100,000 men and 150,000 boys have bought their suits from us?

If it were not so, would it enjoy its indisputable leadership in the mercantile field today?

No, indeed!

J. C. Penney Co.

Young Men's Spring Suits The Newest of the New

With the lines of youth definitely accentuated—with the vigor of young manhood in every line—with value that goes into every hidden seam and stitch, these are the Suits we're featuring for Spring at—

Society Happenings

Friday, March 20

Tobacco dance, Harrison's.
Graduate club party, Recreation center.

Saturday, March 21

Mu Phi Epsilon dinner dance, cafeteria.
Pharaoh's ball, Harrison's.
Alpha Theta Chi spring party, Country club.

The members of the College club entertained Tuesday evening with a formal party at Elks' hall. The Pines Serenaders furnished the music. Fourteen couples were present.

Beta Pi Epsilon announces the pledging of E. C. Kuhlman, Pratt.

Professor Keith of the journalism department went to Kansas City this week to meet his wife and family who are returning from Florida.

Sigma Phi Sigma announces the pledging of DeWitte Saxe, Wichita.

Prof. N. A. Crawford entertained with a dinner Monday evening at the Gillett hotel. The guests were Mr. and Mrs. C. E. Rogers, Mr. and Mrs. Sam Pickard, and Miss Muriel Shaver.

President and Mrs. F. D. Farrell, Coach and Mrs. C. W. Bachman, Miss Ruth Scott, and J. G. Swartz were dinner guests at the Alpha Sigma Psi house last Sunday.

Roberta Owens spent the week-end with her sister in Topeka.

Ruth Stewart, who has been in Eureka the past week to attend the funeral of her grandmother, returned to school yesterday.

Miss Dorothy Neely, Abilene; Lucille Kinnamon, Wichita; and Mrs. Everett Stevens, Concordia, were week end guests at the Alpha Delta Pi house. They attended the Enchiladas party which was given at Harrison hall Saturday, March 14.

Mrs. Alice Marcotte, house mother at the Kappa Phi Alpha house, who has been ill at her home in Concordia, is reported as recovering.

Preceding the Flonzaley concert Wednesday evening Prof. C. W. Matthews entertained in the art room of the college cafeteria in honor of six guests from the music department at Lindsborg. Dinner was served at eight quartet tables, and a color scheme of green was carried out in both menu and decorations. Following the dinner, Professor Byler of Lindsborg gave two piano numbers, and Miss Buck, a piano student at Bethany college, played one selection. Mrs. Suzanne Pasmore and Harry Lamont of the K. S. A. C. music faculty repeated the number given in assembly Wednesday morning.

Out of town guests were: Professors, Thorsen, Stensaa, and Byler, and Misses Buck, Strom, and Dittmer.

Delta Zeta pledges entertained the active members last Saturday afternoon at bridge. After bridge a two course St. Patrick's luncheon was served. A color scheme of green and white was carried out to represent St. Patrick's day.

Prof. J. W. McColloch of the entomology department has been appointed chairman of the committee on arrangements for a meeting of the American Association of Economic Entomologists to be held at Kansas City the last week in December.

Dr. Minna Jewell, Miss Bertha L. Danholm, Mr. Elmer Cheatum, and Miss Martha Foster went to Winfield last week-end to attend a biological banquet given by the biology department at Southwestern college.

Harold Hedges, instructor in marketing, was called to Indianola, Nebr. last Wednesday by the serious illness of his father.

Plans Commencement Activities

The board of directors of the Alumni association met in Dean Willard's office on Monday afternoon, March 16. Plans were made for alumni participation in the commencement week activities, most of this participation to center around the alumni, faculty and senior banquet on the Wednesday evening preceding Commencement day.

Prof. G. A. Dean, head of the entomology department, left Monday for Cowley and Sumner counties, where he will select orchards for experiment work and will make arrangements with the orchard men and county agents relative to experiment projects.

"Converted," a poem written by Prof. N. A. Crawford, was published in the current issue of the Halde-man-Julius Monthly.

The Flonzaley Quartet

What a rhapsody one might write in praise of a Flonzaley concert!

What a joy to write a lyric criticism in Duke Orsino's vein, and cry with him

"That strain again . . .
O! it came o'er my ear like the sweet sound
That breathes upon a bank of violets."

What a joy to be, for once, untrammelled in one's praise: to use recklessly, prodigally, every superlative in one's critical vocabulary, only to find that the most extravagant phrase isn't half good enough!

But how foolish!

One might write columns about perfect harmonies, perfect tone lines, perfect dynamics, contrapuntal perfection—but to what end? For, to define perfection; what is it but to be nothing else but perfect! Say perfect, and what more is there to say? Say perfect and the rest must be appreciative silence.

It would be insulting to say that the Flonzaleys were "the best in this season's artists series;" that they were "the best organization of their kind heard here in recent years," or that "their visit to our little city is a new chapter in the musical history of our college." It would be most silly to use any of the space-filling inanities that glide so easily into the pages of musical criticism. The Flonzaleys are not to be thought of in terms of "this year's artist series," or "the musical history of this college." They are to be thought of in terms of "this generation." When one speaks of the Flonzaleys, he speaks of a standard of musical perfection. Other organization of a similar nature—Elman's Quartet, London Trio, New York Chamber Music society—are judged to be good on the basis of the nearness of their approach to the Flonzaleys. In the field of chamber music, he who has not heard the Flonzaleys is not competent to judge; he has no standard of comparison. If he has heard the Flonzaleys he will have no difficulty in judging; the difference between the Flonzaleys and most other string quartets is so obvious that a deaf man could detect it.

Is it the business of education to furnish standards of judgment? Probably so; if we aren't too positive about the standards. On March 17, in Topeka, Paul Whiteman and his orchestra gave a program of Ish-

am Jones, George Gershwin, Victor Herbert, Leon Sowersby, and Irving Berlin. The instrumentation and orchestration were new to American music—two pianos, and such instrumental hybrids as the celeste, the cymbalom, Fluegel horns, Heckelphones and Clariphones, playing dissonances in five-four and seven-four time. The audience was wildly appreciative. Musically it was a marvelous program.

On March 18, in Manhattan, the Flonzaleys gave a chamber music program of Beethoven, Tschalkowsky, Moussorgsky, Schubert and Dvorak. The instrumentation was the regular string quartet—violins—first and second—violinello and viola. The program was one of faultless excellence. The audience was wildly appreciative. It was a marvelous program!

Flonzaleys—Paul Whiteman. Paul Whiteman—Flonzaleys.

Both are names to conjure with. But what about the standard?

If they are the greatest in the world, they are standards. Don't make a mistake. Hear both!

C. W. M.

Prof. C. W. Matthews, Harry Erickson, Morse Salisbury, Miss Martha Kramer, and Mrs. C. E. Rogers were among those college people attending the Paul Whiteman concert in Topeka Tuesday night.

Roy Lagerquist, freshman in rural commerce, has withdrawn from school and returned to his home at Leonardville after a prolonged illness of flu.

Dean J. T. Willard is out of town this week attending a meeting of the North Central Association of Colleges and Secondary Schools at Chicago.

D. S. Livers of the agricultural economics branch of the extension

division, is in Council Grove this week working with County Agent Paul B. Gwin on the farm account club work of that county.

State Statistician Here

E. C. Paxton, agricultural statistician for Kansas, was in Manhattan on Friday, March 20, to confer with members of the department of agricultural economics concerning the United States Department of Agriculture reports on farmers' intentions to plant spring crops in 1925.

Leads Conference Discussions

Prof. N. A. Crawford, head of the department of journalism, will be one of the discussion leaders of the writers' conference which is to be held at the University of Iowa, March 25. Professor Crawford is an alumnus of Iowa university.

Will Your Children and Theirs go to College?
Do You Know

—that Brown goes back to his twentieth reunion this spring, and that he has just taken out educational insurance?

To this day he doesn't know which parent or aunt or uncle paid most of his school and college bills. But he does know that he can never repay those obligations created, except by insuring ample money for the education of his own two children.

So he has recently arranged endowment policies for both, to

mature at the beginning of each school and college year. He believes that his children will more genuinely appreciate their education by paying for it out of their own funds.

And Brown also believes that they will better capitalize their own increased capabilities, on or before graduation, by taking out insurance for the education of the next hoped-for generation, as well as to create an immediate estate and financial guarantee of family unity.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

60 MEN OUT FOR SPRING FOOTBALL

PROSPECTS BRIGHTEN WITH UNUSUAL TURNOUT

Largest Pre-Season Squad in School's History Is Taking Daily Workouts

More than 60 men have checked out suits for spring football practice, and with this material as a nucleus, Coach C. W. Bachman hopes to build a powerful machine for the 1925 season. This is nearly three times as many men as have ever reported for spring practice before, and with the type of material that is coming out, Aggie hopes are "looking up."

"Prospects Better Than Ever"

"Prospects are much better this year than ever before," said Coach Bachman when asked about the team, "but as far as that is concerned, prospects are usually 'better' for every school about this time of year."

A "low grade" scare which loomed up as a trouble maker has blown over, according to Bachman, and indications are that the men will be up in good shape next fall.

The wealth of material holding over from last fall will again make it possible for the Aggies to use a considerable reserve supply, a thing which was almost impossible in teams of the past.

Sixty Men Out for Practice

Especially in the backfield the material is showing up to good advantage. K. C. Enns, Inman, is putting his bid in early for the quarterback position and K. A. Boyd, Irving, and J. F. Holsinger, Kansas City, are new candidates trying out for the halfback positions. Captain Harry McGee, Ramona, will lead the line in both offensive and defensive work. A. Ehrlich, Marion, is expected to fill the end position vacated by Doolen.

A list of the men who are out for spring practice includes: J. Anderson, Salina; M. C. Barkley, Manhattan; L. C. Benne, Washington; C. R. Bradley, Mayetta; Edward Bramlage, Junction City; C. E. Crewes, Elk Falls; R. M. Crouse, Beattie; J. Douglass, Burlington; H. Dayhoff, Abilene; C. L. Dean, Manhattan; R. E. Dunnington, Manhattan; J. T. Elliot, A. Ehrlich, Marion; K. C. Enns, Inman; C. R. Feldman, Sabetha; G. D. Frisbie, Kingman; M. B. Franklin, Topeka; L. C. Gates, Seward; F. W. Hinkle, Junction City; W. Koerner, Manhattan; K. Boyd,

Irving; G. Lehmen, Cleveland; L. K. Linscott, Manhattan; E. Lyness, Walnut; J. A. McCutcheon, Eldorado; R. W. Mohri, Kansas City; H. L. McGee, Ramona; M. J. Reed, Turon; J. R. Nettle, Eldorado; L. H. Norton, Kalvesta; Z. L. Pearson, Manhattan; G. H. Patterson, Harper; J. Price, Manhattan; W. E. Sears, Eureka; L. C. Reed, Clay Center; J. G. Royal, Oatville; G. H. Strickenfinger, Horton; D. N. Spears, Wamego; L. S. Sheetz, Chillicothe, Mo.; R. C. Smith, Cherryvale; L. A. Street, Topeka; J. M. Stout, Emporia; J. C. Schraeder, Ford; D. A. Springer, Manhattan; E. H. Simpson, Conway Springs; C. H. Towle, Wakefield; M. P. Thornton, Cherryvale; R. C. Tate, Oakley; J. N. Tobias, Manhattan; D. M. Telford, Manhattan; S. J. Tombaugh, Kansas City; G. B. Wagner, Whiting; Cecil Wagner, Manhattan; D. M. Wingfield, Junction City; C. K. Williams, Elgin; J. C. Hopkins, Chapman; J. B. Limes, LaHarpe, and W. F. Woodward Yates Center.

EIGHT HIGH SCHOOL TEAMS HERE IN BASKETBALL MEET

Tourney Starts This Afternoon and Ends Tomorrow Night—Finalist to State Contest

One of the nine sectional basketball tournaments being held throughout the state this week will be in Nichols gymnasium today and tomorrow. The winners of the tournament will be eligible to enter the state tournament to be held at Lawrence next Friday and Saturday.

Eight teams have entered the tournament which started this afternoon and will continue through tonight, tomorrow afternoon, and tomorrow night. The eight teams which have entered are: Manhattan, Marysville, Havensville, Salina, Abilene, Clay Center, Concordia, and Narka. Salina is favored to win the tournament as they have the best record, but tournament basketball is much different than regular contests, so the team with the best reserve may have the edge.

Two loving cups will be offered as

prizes, one going to the first place and the other to the second place winners.

FROSH-VARSITY BASKETBALL TEAMS TANGLE TOMORROW

First Year Five Will Meet Regulars Following Finals of Sectional High Tournament

Whether the red shirted basketball freshmen are superior to the purple jerseyed varsity will be decided when the two basketball teams meet tomorrow night in the gym immediately following the finals of the sectional high school tournament.

Heated rivalry has been exhibited by the two teams in practice games all along and the score sheet shows that the frosh were able to out tally the varsity several times.

Coach Corsaut will start his regular lineup against the freshmen, but perhaps will substitute frequently if the varsity obtains a safe lead. Coach Frank Root has 10 numeral men from which to choose his five, and there is some question as to who will start. At present the following lineup is probable:

LAST YEAR'S RELAY WINNERS HAVE STRONG COMPETITION

Kansas Relays to Be at Lawrence April 18

Lawrence, Kan., March 20.—(Special.)—Though all schools which sent winning teams to the Kan-

sas relays last year will be back to defend their titles, April 18, when the relays will be staged in memorial stadium here, they will have to overcome strong competition if they expect to be winners.

In the university class, relays title defenders will be Nebraska in the half mile, Iowa in the mile, Northwestern in the two mile, Oregon Aggies in the four mile, and Texas in the medley. Wisconsin, Notre Dame, and Texas A. and M. from outside

the valley have entered. The referees for the relays this year will be Knute Rockne of Notre Dame. John Grover of Kansas City will be starter.

Spring Sports Begin April 1

Schedules are being arranged for the spring sports for the women. Classes in baseball, track and field, and archery will begin April 1. Advanced tennis will be given by appointment.

A DOZEN TRACKMEN WILL COMPETE IN VALLEY MEET

Aggies Will Go to Kansas City Tomorrow Night—Definite Selections Have Not Been Made

A squad of 10 or 12 Aggie trackmen will be picked today for the Missouri valley indoor meet in Convention hall, Kansas City, tomorrow night. Though tryouts have been in process for more than a week, definite selections have not been announced by Coach Bachman.

Sports writers over the valley figure a close race for the title between Kansas, Missouri, and Nebraska, with a slight edge for Kansas because of her mile relay team. The Aggies, Oklahoma, and Ames are pointed for a close battle for the remaining positions, because of lack of hurdlers, jumpers, and weight men. The Aggie team, however, has several runners entered who should be good for points, and may go up into the first three if competition is keen for points in fields in which the Wildcats are weak.

Ralph Kimport, Norton, is well known among valley milers, and when running in form is almost a certain point winner. A. I. Balzer, Inman, is expected to be one of the chief dope upsets. Balzer was an important Kansas State distance man last year but his improvement has been so great during the last few months that he will hardly be recognized as the same runner. His strongest opposition probably will be found in Captain Poage of Missouri.

M. L. Sallee, Long Island, is a sophomore who has been making excellent time in the two mile. He was on the champion cross country team, and placed fifth in the 1500 meter race at Illinois. Probably only one Aggie man will run the quarter mile, since Bachman is expecting to save his quarter-milers for the mile relay team. The men to run the relay will be Captain K. G. Knouse, Valley Falls; H. A. Brockway, Olathe; or L. L. Davis, Effingham.

E. von Riesen, Marysville, who has been on the list of those injured, suffering from a bad ankle, is not expected to run in the meet.

The names of 15 men have been entered, but not all of them will make the trip. The names and events follow.

Fifty yard dash: C. P. Foote, Wichita.

High hurdles: N. L. Roberts, Manhattan.

Four hundred forty yard dash: K. G. Knouse, Valley Falls; H. A. Brockway, Olathe; L. L. Davis, Effingham.

Half-mile run: E. E. Coleman, Alma; P. A. Axtell, Argonia.

Mile run: R. E. Kimport, Norton; E. von Riesen, Marysville.

Two mile run: A. I. Balzer, Inman; M. L. Sallee, Long Island.

Mile relay: K. G. Knouse, Valley Falls; H. A. Brockway, Olathe; L. L. Davis, Effingham; H. N. Russel, Topeka.

Pole vault: P. R. Carter, Harveyville.

Shot put: L. E. Munn, Colby; F. A. Brunkau, Ellinwood.

WICHITA TEAM VICTORIOUS

Seven Basketball Teams Here for Catholic High School Meet

The Wichita team won the state Catholic high school basketball tournament which was played last Friday and Saturday on the Nichols gymnasium court at the Kansas State Agricultural college. The winners defeated St. Marys 21 to 14 in the final game. Manhattan defeated Junction City for third place. Kansas City won the consolation round, defeating Hutchinson. Aurora and Topeka were the other teams entered.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, MARCH 24, 1925

NO. 50

"THANK YOU" TO BE PRESENTED

ANNUAL INTERSOCIETY PLAY WILL BE GIVEN FRIDAY

Plot Centers Around Country Preacher and His Niece, Supported by a Cast of Sixteen

"Thank You," the annual intersociety play, which will be given Friday evening in the auditorium by a well-chosen cast of eighteen literary society members, promises to be one of the best productions of the school year.

The play, a three act comedy by Winchell Smith and Tom Cushing, is a continuous series of very amusing situations. It was first presented by John Golden at the Longacre theatre, New York City, some three years ago and since that time has had successful runs in many of the larger cities of the country.

Country Preacher Is Central Figure

An underpaid country clergyman is the central figure of the play and the plot is based upon the complications arising when his homeless niece arrives from Paris and stirs up the community. Subsequently the clergyman is jugged out of his rut as a down-trodden servant of the public and becomes ambitious, prosperous, and modern.

Ralph E. Ewing, Manhattan, as David Lee, the clergyman, plays the masculine lead while Mildred McGirr, Vinton, as Diane Lee, his niece, takes the leading feminine role. Harold Cary, Ogden, as Kenneth Jamieson, very ably portrays the part of a millionaire's son who aids Diane in showing the community how economically she can run the Rector's home.

Eighteen Characters in Cast

The other members of the cast are: Mrs. Ruth Nettleton, Lenora; Dorothy Johnson, Lyons; Alvin Ritts, Topeka; Earl L. Hinden, Strong City; Laura Russell, Manhattan; Inez Howard, Burton; Milton Kerr, Manhattan; Gene Conklin, Hutchinson; Lionel Holm, Denmark; Frank Brokesh, Menden; John McKean, Scott City; Hale H. Brown, Norton; Glen Reed, Galesburg; Alex Van Pelt, Carthage, Mo.; Alfred Zeldier, Manhattan.

Earl G. McDonald of the public speaking department is directing the production and Gladys Sanford, Kansas City, Kan., is the manager.

EXPERIMENT MEN MEET HERE

Superintendents and Field Workers Will Hold Conference April 13-14

A two day conference of the branch experiment station superintendents and field workers will be held April 13 and 14.

The purpose of the meeting is to discuss the experiment work that should be done and to help the men organize. Most of the time will be spent in round table discussion. "The Livestock Problems That Branch Stations Can Help Solve" will be discussed by E. C. Chilcott, superintendent of the Woodward, Okla. experiment station. J. E. Sieglenger also of the Woodward station will talk on the topic, "Better Grain Sorghums for the Southwest."

MUST BUILD ROAD SYSTEM TO CARRY FUTURE TRAFFIC

Professor Conrad Says Increase in Cars Must Be Considered

Kansas must be careful to avoid the mistake of building a state road system to fit present conditions, according to Prof. L. E. Conrad, head of the department of civil engineering, at the Kansas State Agricultural college.

It would be foolish, Professor Conrad feels, to plan the state system for a travel load including less than an increase of 50 per cent in the present number of cars and trucks within the next 10 years.

"Within the past 20 years the character of the traffic on our highways has been almost completely changed, in regard to the vehicle and its convenient, economical radius of operation," said Professor Conrad. "In other words, this generation had bequeathed to it a lot of roads which were developed over a period of some 300 years to serve an unchanging traffic, while traffic has, in the past 15 or 20 years, been entirely changed in character."

Professor Conrad predicted that there will be a traffic load of 2,000 cars per day over the 40-mile stretch of road between St. Marys and Camp Funston, within the next two years, and that less than half of this traffic will be local.

"This being the case, the improvement should be planned with the view to serving the through, rather than the local traffic. This view,"

he thinks, "will seem less unreasonable to local road authorities when they recollect that on most such projects it is possible to obtain at least half of the funds required for the improvement from federal or state aid. This also leads up to the question of whether or not we wish to give up our federal aid in Kansas. Since we will have to handle the traffic, it would seem to me extremely foolish to give up the federal aid."

ANNUAL SPRING FESTIVAL PROGRAM OPENS APRIL 28

Minneapolis Symphony Orchestra Under Direction of Henri Verbruggen Is Feature

The annual spring festival program will open this year on April 28 and will close on May 2. Seven programs, two of them matinees, are included in the week's schedule. The dates of the festival were fixed with reference to the schedule of the Minneapolis Symphony orchestra, which again will give the "big" program of the week, and which could come to Manhattan only on Saturday, May 2.

Jose Mojica, leading tenor of the Chicago Opera company, will appear in recital Friday night, May 1. He will be assisted by Albert Hougelet, pianist and accompanist. Saturday afternoon the following three artists will assist in the presentation of two oratorios: Madame Julia Clausen, leading contralto of the Metropolitan company; Marie Tiffany, soprano of the Metropolitan company; and Judson House, American tenor.

Other features of the week are the joint concert of the K. S. A. C. glee clubs assisted by the faculty trio—Harry Lamont, violinist; Robert Gordon, cellist; Mrs. Suzanne Pasmore, pianist; the Purple Masque spring play, the concert by the college orchestra, the campus band concert, and the presentation of two oratorios, "Olaf Trygvasson," by Grieg, and "Hymn of Praise" by Mendelssohn, by the college orchestra and visiting artists. The Minneapolis Symphony orchestra will play the score.

The Minneapolis Symphony orchestra is appearing under the leadership of Henri Verbruggen, the new conductor, who is carrying the orchestra to even greater heights than those reached in past performances. The musical publications have been full of the striking success achieved by Mr. Verbruggen in his new connection. He succeeded to the post of conductor upon the resignation of Emil Oberhoffer, for 19 years head of the orchestra. Previous to his present connection, Mr. Verbruggen scored triumphs in England and Australia as a conductor of symphony orchestras.

Pharr Writes for Breeder's Gazette

T. R. Pharr, '20, who is teaching vocational agriculture at Gap Mills, West Va., is the author of a highly interesting article in the March 12 issue of the Breeder's Gazette. The article, which is entitled, "West Virginia Boys Raise Sheep," tells how Mr. Pharr taught his class of 17 West Virginia farm boys the best practices in sheep husbandry and better methods of sheep marketing through the practical application of knowledge gained from reference materials and from the sheep flocks on farms in the community.

Graduates Engage in Dietetic Work

Blanche Elliott, who received her degree at the end of last semester, has accepted a position as assistant dietitian in the Research hospital at Kansas City. Zoe Wertman, '23, who held this position, will go to the Lutheran Memorial hospital in Chicago as chief dietitian. She will have charge of ordering all the supplies, planning special diets and other similar work.

AGGIE RIFLE TEAM PLACES IN SEVENTH CORPS MATCH

K. S. A. C. Wins Fifth Place—Secures Entrance in National Meet

The K. S. A. C. rifle team placed fifth in the Seventh Corps Area rifle match which ended the first of this month. This entitles them to fire in the national intercollegiate match which starts this week and lasts until April 16. The first five schools in every corps area match fire in this match. The rifle team is also shooting on the Hearst Trophy match which will be completed at the end of the month.

The rifle team of this school placed third in the Seventh Corps area last year but was handicapped this year by lack of men trying out and scarcity of experienced material. Last year 15 men fired in each match and the 10 high scores were counted. This year there were only 10 men on the team, making it necessary to count each score.

Searing Print of Branding Iron To Mark Misdeeds of the Guilty

Ye Gridiron Banquet

The iron is red, and ghosts long dead, Will soon begin to rattle. We've found out where the corpse is hid, And of the sport we'll tattle.

All of which is a somewhat roundabout way of announcing that Sigma Delta Chi will give its third annual Branding Iron banquet Thursday evening, April 23, in the college cafeteria—if not some place else.

But check thy mad scramble, Thomas, Richard, and Harry, toward the journalism building, for if your presence is desired at the banquet you will be summoned. And take care that you fail not to heed the summons, for, like opportunity, the Branding Iron banquet knocks but once. Those who fail to respond are blacklisted for at least two years, and in some cases permanently. Less than a score of students have been selected as marked men and will

receive the fatal sign of the branding iron.

The remainder of those summoned for an exposure of their misdeeds are prominent residents of the city of Manhattan and the state of Kansas. "It will be strictly a stag party, according to Byron Short, manager, and any girls caught hiding about the building will be boiled in oil." Three were found last year, and these were roasted in the cafeteria ovens, adding much to the warmth of the reception. Officers of the law also will be included as such, Mr. Short said, as Sigma Delta Chi has no wish to cripple the working of the college, the city, or the state by subjecting those attending to prison sentences for their past misdeeds.

Chief among those to feel the searing print of the glowing iron is Acting President Francis David Farrell. The banquet will be to honor that gentleman, and "every one else who needs honoring," said Mr. Short with a sinister smile.

OTHER TEAMS LEAVE SOON

Go-To-College Teams Prove Very Popular

The second go-to-college team will leave next Sunday for a week's tour of high schools in the western part of the state. The members of the team which will make the trip are John Moyer, Bill Mathias, Lee Thackrey, and A. A. Jackson. Harry Erickson will be accompanist to the quartet.

Nickerson, Ellinwood, Great Bend, St. John, Kinsley, Lyons, Holsington, Stafford, Macksville, and Dodge City are the high schools that will be visited. Floyd Hawkins, '20, who is state secretary for the southwest district of the Y. M. C. A., will have personal charge of this tour, as well as the one which will start April 5.

Another quartet composed of H. A. Goering, Harold Howe, Kay Beach, and A. H. Ziedler, with Roy Batner as accompanist, will leave April 5.

Buhler, Turon, Pratt, Greensburg, Protection, Partridge, Preston, Haviland, Bucklin, and Coldwater high schools will be visited by this team. The popularity of the go-to-college teams is manifest by the requests received from Rotary clubs, Kiwanis clubs, Cooperative clubs, and other civic organizations asking that the teams put on a program at their weekly luncheons. Both of these teams will conduct free evening concerts in the vicinity in which they are visiting. The first team has been asked to stay over in Dodge City on Saturday, April 4, in order to be on the program for the Dodge City Older Boys' conference.

EXAMINATIONS FOR MARKET SPECIALIST ANNOUNCED

Vacancies in U. S. Bureau of Agricultural Economics to Be Filled

A competitive examination for the position of junior marketing specialist has been announced by the United States civil service commission. Receipt of applications will close April 25. The date for the assembling of competitors will be stated on the admission cards sent to applicants after the close of receipt of applications.

The examination is to fill vacancies in the bureau of agricultural economics, department of agriculture, Washington, D. C., at an entrance salary of \$1,860 a year. Advancement in pay may be made without change in assignment up to \$2,400 a year. Promotion to higher grades may be made in accordance with the civil service rules.

Examination will be given in the following optional subjects: marketing grain, hay, feed, or seed; marketing fruits, vegetables, and miscellaneous products; marketing livestock and animal products; marketing dairy products; marketing poultry and eggs; marketing wool; and the economics of marketing.

Competitors will be rated on agricultural and commercial geography; practical questions on each optional subject chosen; a thesis to be handed to the examiner on the day of the examination; and education, training, and experience.

SOPHS WIN THREE GAMES

Play Two Games a Week in Interclass Tournament

The sophomore team has won all three of its games in the interclass tournament which is being played off in the women's gymnasium. A week ago Thursday they beat the junior team 18 to 12, and Tuesday they won from the seniors by a 31 to 6 score. The freshman team beat the junior team 25 to 11 and the senior team 25 to 6.

OSCEOLA BURR TO BOSTON

Has Accepted Position with School of Expression and Dramatic Art

Miss Osceola Burr, who is recognized nationally as an outstanding leader in pageantry through her work in composing and directing pageants at K. S. A. C. and throughout the state has accepted a position for her coming summer with the Boston School of Expression and Dramatic Art.

The third number in the trilogy of pageants prepared for the college and Manhattan by Miss Burr will be omitted from the summer program this year. Plans are being made to make this pageant an annual event at the college, comparable to what the Messiah is to Lindsborg.

Miss Burr is a graduate of K. S. A. C. and is now a candidate for a master's degree. She majored in education and for the past two years has been a graduate assistant in the public speaking department, and during the summer sessions a member of the regular English and public speaking departments faculty and director of pageantry. Fourth of July pageants, written and directed by Miss Burr, have been presented for the last three summers on the campus. Miss Burr's thesis for her degree is on "The Educational Objectives of Pageantry."

Programs of dramatic readings and impersonations have been presented by Miss Burr in more than one hundred communities in Kansas. She has appeared on lyceum and assembly platforms in such impersonations, and has recently been in demand for lecture recital work and technical addresses on pageantry. She will teach public speaking and pageantry in her new position.

ANNUAL Y. W. C. A. RETREAT TO COMMENCE MARCH 28

Cabinet to Be Formed After Retreat Is Over

The annual Y. W. C. A. Retreat will be held the week-end of March 28. The purpose of this retreat is to enable a group of girls interested in the Y. W. C. A. to meet together in fellowship, Bible study, and discussion of the purpose and nature of the Y. W. C. A. on the campus.

Last year about 40 girls attended. The cabinet will be formed after this retreat, when definite decisions have been made regarding the exact work which the organization desires to follow. Miss Winifred Wygal, national secretary of the student's department of the Y. W. C. A., will be here for the Sunday program and will remain in Manhattan over Monday.

All girls who are interested and would like to attend the Retreat may register in the Y. W. C. A. office Thursday. The cost of the meals which will be about \$2 is the only expense.

LOW GRADE CERTIFICATES DISCONTINUED IN NEW BILL

Many Kansas School Teachers Affected by Recent Legislation

Approximately one-fourth of the grade school teachers in Riley county and probably a corresponding number throughout the state will be affected by the recent act of the legislature, discontinuing many of the low grade certificates.

Certificates that will be discontinued are county temporary, county third grade, one year state from teachers' colleges, one year state by board of education, permanent normal training, certificates on experience, certificates on eminent fitness, three year elementary for first grade county, and permanent elementary. The requirements for second grade

county certificates on examination have been raised so that all grades must be above 70. Formerly the low grade mark was 60. The required average of 80 per cent will remain the same.

The requirements for second grade certificates remain unchanged except that the required experience has been raised to 16 months, and applicants will be required to pass an examination in algebra instead of physics.

COMMENCEMENT SPEAKERS FOR HIGH SCHOOLS AVAILABLE

Arrangements to Be Made Directly with Speakers This Year—Large List of Lectures

A list of commencement speakers available for a limited number of lectures is sent out to high schools of the state every year by the division of extension. Previous to this time all arrangements have been made by the division of extension but this year the schools are to arrange for their lectures with the speakers themselves.

The following members of the faculty are available for the listed lectures:

Prof. T. J. Anderson, "Education—An Open Door," "Truth and Illusion as to Education," "The Development of the International Mind."

Prof. P. P. Brainard, "The Opportunities of this Generation," "Educated Power."

Prof. Walter Burr, "Our Kansas Heritage," "The New American," "The Four Square Life."

Prof. Nelson A. Crawford, "The Open Book and the Open Mind."

Prof. H. W. Davis, "The Mission of Humor," "Creative Thinking," "Informal Education."

Prof. J. O. Faulkner, "Educating for Social Efficiency," "Hopeful Signs," "Youth is Safe," "The May Harvest," "Effective Thinking."

Prof. R. M. Green, "How to Wear Your Learning," "Getting Work Out of Tools and Sense Out of People."

Prof. W. E. Grimes, "Forces of Today."

Dean E. L. Holton, "The Copybook Maxims," "Predicting Success."

Dr. A. A. Holtz, "The Youth Movement, Is There Cause for Alarm?" "Europe Today," "What Europe Expects from America," "The Significance of the American Youth Movement."

Dr. Margaret M. Justin, "The Vision of Youth," "The Land of Tomorrow."

Prof. C. W. Matthews, "The Right of Way," "Milestones," "Assets and Liabilities."

Dr. R. K. Nabours, "The Alluring Fields Open to the Biologist," "The Relations of Heredity and Environment, or Nature and Nurture, in the Development of Leading Men and Women," "The Call of Foreign Fields of Science, Business, Religion, and Education to Educated America."

Dr. J. C. Peterson, "Human Engineering," "Mental Health," "The Old Order Changeth."

Dean R. A. Seaton, "A Changing World."

Prof. H. A. Shinn, "International Calf-Paths," "Confessions of a Lunkhead."

Prof. V. L. Strickland, "The Leaven of Accomplishment," "The Call of Leadership," "Intellectual Hardihood."

Prof. H. B. Summers, "Education for Service."

Prof. C. V. Williams, "The Things Most Worth While," "The Master Builder," "Meeting Your Own Best Challenge," "Vocational Education."

Non-faculty members:

Rev. W. U. Guerrant, "Isn't Life Wonderful?" "None But the Brave," "Mud and Stars," "Through the Eyes of Youth."

Rev. B. A. Rogers, "The Overflow," "What's in a Name?" "Economic Extravagance," "Wonderlust."

INEZ JONES WINS BEAUTY CONTEST

IS SELECTED BY FLO ZEIGFELD, FOLLIES KING

Edith Caraway Wins Second Place—Pictures of Winners Appear in Kansas City Paper

Miss Inez Jones of Kansas City was selected by Flo Zeigfeld as K. S. A. C.'s most beautiful coed in the beauty contest recently conducted by the Royal Purple. Miss Jones is a sophomore in rural commerce and a member of Alpha Delta Pi sorority. Mr. Zeigfeld said he considered Miss Jones "very beautiful and a good type."

Miss Edith Caraway of Shreveport, La. was Mr. Zeigfeld's choice for second place. Miss Caraway is a freshman in music and a member of Chi Omega sorority.

Four others were selected from the list of 18 submitted. They, in the order named, were: Virginia Reeder, Troy, Delta Zeta; Nora Yoder, Newton, Pi Beta Phi; Ruth Stewart, Manhattan, Delta Delta Delta; and Katherine Kimball, Miltonvale, Alpha Xi Delta.

Reid Presents Corsages

As the winning contestants were announced at Pharaoh's Ball Saturday night, they were called to the front and presented with corsages by G. A. Reid, business manager of the Royal Purple.

The picture of the six girls were published in the rotogravure section of the Kansas City Journal-Post Sunday morning.

This is the first year that a contest of this kind has been conducted here. Heretofore the Royal Purple has always conducted a popularity contest.

Egyptian Motif in Royal Purple

E. G. McDonald, of the public speaking department, in announcing the selected contestants explained that these girls were called Pharaoh's daughters because of the Egyptian motif which is being carried out in this year's Royal Purple.

Mary Marcene Kimball, Manhattan, won the year's subscription to the Collegian offered in the Collegian contest to person successfully naming the contestants in the order in which they were selected by Mr. Zeigfeld.

STUDENT WRITES PUZZLE

Helen Schneider Makes Up Puzzle of French Terms

A crossword puzzle consisting of definitions and synonyms in French has been turned in to Prof. L. H. Limper, professor in French, by Miss Helen Schneider, sophomore in industrial journalism. The puzzle contains no abbreviations and has one 13 letter word extending the entire width of the puzzle.

HOME ECONOMICS DINNERS TRAIN MEN TO BE GOOD HOSTS

Course Begins March 30—Lasts Six Weeks

Are you a charming hostess or an experienced host? Can you serve a meal attractively, carve a chicken gracefully, direct an interesting dinner conversation? Whether you can or not, there is always room for improvement.

A course in marketing and serving, which begins on Monday, March 30, and continues for six weeks, will offer an opportunity to cultivate ease of manner at meals of various types. Men who would like to have training in serving as hosts, are especially invited, and instructions for hosts will be given.

Serving during the first two weeks will be on Monday, Wednesday, and Friday, every day in the week during the second two weeks period, and on Tuesday, Thursday, and Saturday during the last two weeks.

Meals will be served at 12 o'clock in the home economics dining room. Reservations can be made by notifying the department of food economics and nutrition, telephone 919.

Senior-Alumni Banquet to Be Held

The senior-alumni banquet, which was a very successful feature of the alumni program last year, will be held again this spring, the alumni association decided at a meeting held Monday.

More than 500 persons, alumni and members of the senior class, attended the banquet last year.

Jack Rolfe in Who's Who

Jack Rolfe, '22, a graduate of the department of architecture and now head of the department of architecture at South Dakota Agricultural college has had his name placed in the 1925 Who's Who.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural College. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

"WRESTLERS"

A prominent student was speaking.

"You can't get the students in this school interested in anything except going out almost every night and 'wrestling'."

Although this constitutes a very plain, blunt, and somewhat slangy manner of more or less overemphasizing a condition that exists at K. S. A. C., it is a very expressive one. It states a theory that is recognized by quite a number of persons as being at least partially correct. A portion of the students and faculty members openly admit that it is true; others indicate their knowledge of existence by being non-committal; and others deny the accusation.

There may be some persons who do not understand the meaning of the term "wrestling" as used here. More common expressions of the same practice are "necking," "mugging," and "petting." Some even call it "loving."

Recreation center, fraternity and sorority house conversation states that "wrestling" couples may be found on practically any night, more particularly on week ends, in a great many of the more or less secluded places in and around Manhattan. Automobiles, with all lights extinguished and tenanted with several couples, have been observed along the byways about town. Sorority and rooming house receiving rooms, either dimly lighted or without lights, have been reported to contain their quota of "wrestlers." Everyone has noticed the large numbers of students who go on "blanket" hikes when the weather is favorable. These practices and others have become so common as to be passively tolerated by both the citizenry and the student body. Several of the college humor publications have defined a college town as "a place where a man can walk down the street with a girl on one arm and a blanket on the other and get by with it."

It is not advisable at the present time to attempt to dictate any particular code of morals or to decide whether the practice is right or wrong. The almost lightning-like change that has come to be existent in the modern standard of morals precludes any statement for or against the current practices coming under this category. But we do wish to register a protest against the tendency of altogether too many students allowing "petting" to claim too much of their attention.

It has been suggested and logically so, that this "wrestling" problem has been occasioned by some students spending too much of their time in "dating." Wise men have told us, again and again, that we get out of a thing just what we put into it. Most of us attend college in order to fit ourselves to enjoy life after school is over. But if we are merely passively interested in scholastic work, and possess no interest at all in other school activities,

we cannot possibly obtain knowledge that will enable us to be financially successful after school. And there are very few positions open to "love experts."

There is a vital need at K. S. A. C. for more student interest in college activities. Things are being done in a sort of humdrum fashion with those few who are willing directing all the affairs. Opportunities for doing things are everywhere, and in most cases the only necessary qualities are willingness and time.

This suggested correlation offers a means of solving both the problems. You undoubtedly know if you are spending too much of your time outside of school activities. If you are doing so, a centering of interest in college activities, athletic, literary, or otherwise, might conceivably be beneficial both morally and educationally.

We would give a lot to know just how much the original decision of Flo's was altered before it was presented to the general public—going, of course, on the assumption that Flo really did have something to do with it.

Anyway, whoever did the picking certainly was either very diplomatic or awfully fair minded—or else he made a lucky guess—referring to the fact that the winners were so evenly distributed among the sororities.

The Collegian came out very lucky though. Few if any were able to guess the same way that the judge did. Honorable editor knew he was pretty safe all the time, but the advertisement was great.

But nevertheless, congratulations to the winners. And may the losers offer no physical violence.

Mid-semesters are about as untimely a subject as anyone could propose at this time of the year. Every one was floating along so happily in the spring atmosphere without studying that it was thoughtless and inconsiderate of the faculty to broach such a subject.

It wouldn't be so darn bad if the professors didn't insist on asking questions that the students didn't know. But no, most of them have to go ferret out little details that no one ever heard of. Just like the faculty!

The book on Etiquette gives a list of foreign words and phrases commonly used in social circles. Mayonnaise is included in the list, but we always thought that the word was an American coined word.

Yes, Harry bought a set of those etiquette books. He is intending to give one of these real aristocratic girls (we doubt if there are any of them in school) the rush. Perhaps a bit of his boorishness can be worked off anyway.

It has long been a question, an important question, as to whether a blonde or a brunette was the greatest asset to man. Or perhaps it would be better to say the least of a liability to man.

As a general run it seems that the blondes have the advantage in looks, but when you find a good looking brunette she is really that way.

On the other hand, the blondes are usually less sufficiently equipped with brains than the darker females. However, occasionally you find a blonde with fairly good intelligence.

So it narrows down to the issue of which is the more of an asset, less looks and less brains, or more looks and no brains.

Personally, we pass the buck until the last issue of the paper.

On Other Hills

If the present plans work out, the University of Oregon will have the honor of participating in the second radio debate in history, so far as is known, where two broadcasting stations are used and the teams are hundreds of miles apart.

A lecture course on etiquette has been offered at Oregon Agricultural college.

A school for cheer leaders has been organized under the direction of the departments of speech and physical training at the University of Iowa. It

will include voice training and gymnastics.

Fraternities at the University of Michigan have passed under the financial control of the university through a ruling of the senate committee of students' affairs, requiring that all local fraternities, sororities, and house clubs submit plans with a financial budget to the local committee before incurring any debts against the fraternity.

A new ruling has been made at the University of Chicago to the effect that students who do not average "C" in their work will be placed on probation at the end of the year.

A student at Ohio State university has had five hours added to his requirements for graduation by President Thompson for throwing chalk at a passerby, from a window. The president stated that he desired to give all students time to reach maturity before graduation and for that reason had added the five-hour requirement.

The psychology department of the University of Arizona is conducting tests on the students of the department in an effort to determine whether or not there is any definite law of luck.

A university press costing \$7,500 is soon to be installed at DePauw university.

Send the Collegian home.

OPTOMETRY IS DRUGLESS FITTING

Modern Methods

and equipment are used by the up-to-date Op-tom-e-trist.

"Drops" which paralyze the eyes for hours, and sometimes for days, are unnecessary in fitting glasses these days.

You will be pleased with our methods, and YOU CAN GO RIGHT ON USING YOUR EYES as soon as the examination is finished. No need for dread or delay.

Do Professors Get Flunk Slips? Davis Thought to Be Guilty

Do professors get flunk slips?

The other day we were in Professor Davis's office and on his desk was a neat pile of small yellow envelopes similar to those sent out to students at the quarter semester, but these were not addressed to students. Professor Davis's name was there in bold type.

The professor was sitting behind his desk with his head in his hands but when he saw us staring at the envelopes he hastily got up and put them in his desk. If he was not ashamed of those letters why should he have put them away?

Being a freshman, we felt sorry for him because we knew how it felt to get a whole raft of them at the

same time. We heard the other fellow say, "My Lord, he got four."

Society Happenings

Tobacco entertained with a dance at Harrison's hall Friday night. The Pines Serenaders furnished the music.

Mu Phi Epsilon entertained Phi Mu Alpha with a dinner dance at the cafeteria Saturday night. Purple and white decorations were used throughout the rooms. A six course dinner was served to 32 couples. Between courses a program was given consisting of two vocal solos, Esther Ankeny; violin solo, Mary Jackson; reading, Dorothy Sanders. Music for the dance was furnished by Wade's orchestra.

Alpha Theta Chi entertained with its annual spring party Saturday evening at the Country club, with Mr. and Mrs. E. L. Askren as host and hostess. Music for the dancing was furnished by the Burns' orchestra of Junction City. Out of town guests were: Margaret Moore, Salina; Frances Hoyt, Junction City; Gertrude Wickers, Downs; and Thelma Gossard, Horton. The party was chaperoned by Mr. and Mrs. E. L. Askren, Mr. and Mrs. W. T. Foster, Prof. and Mrs. C. V. Williams, and Mrs. Pennington. Additional guests included: Misses Katherine Hudson, Mary Brownell, Ruth Morris, Hester Smith, Agnes Patterson, Gladys Tracy, Helen Kimball, Louise Crowder, Lenora Russell, Professors W. B. Balch and J. T. Helm, and Mr. and Mrs. E. A. Stokdyk.

Week-end guests at the Alpha Theta Chi house were Misses Frances Hoyt, Junction City; Gertrude Wickers, Downs; Thelma Gossard, Horton; and Margaret Moore, Salina.

Guests at the Beta Theta Pi house for Sunday dinner were Viola Ridge and Don McKee of Hiawatha.

The Graduate club entertained with a dinner dance at the Open door tea room Friday night.

Phi Omega Pi held open house for Delta Tau Delta Saturday evening.

Kappa Delta entertained with a Pan-Hellenic bridge party Saturday afternoon. Bridge was played at five tables.

Alpha Xi Delta held pledge services Sunday morning for Gladys Hawkins of Marion.

Gamma Phi Delta gave its annual Founders' day banquet Saturday evening at the Gillett hotel. A color scheme of green and gold, the sorority colors, was carried out in the menu and decorations. Yellow jonquills were used on the table. Catherine Bernhisel acted as toastmistress. The toasts given were: "Midsummer Night's Dream," Connie Foote; "A Comedy of Errors," Fern Harris; "Much Ado About Nothing," Alice Englund; "As You Like It," by Margaret Raffington; Fern Russell gave a reading. The guests besides the active members were: Mrs. Donald Silkett-Prull, Ruth Enlour, Connie Foote of Kirwin, Elmira King of Maple Hill, Margaret Raffington of Culver, Mrs. P. J. Newman, Mrs. A. W. Long, Mrs. J. O. Faulkner, Mrs. Elva Crockett, Mrs. Fred Miller, Mrs. R. K. Nabours, Mrs. Jennie Coles, and Miss Thelma Brown.

Pi Beta Phi entertained with a brothers' day dinner at the chapter house Sunday noon. The guests were: W. C. Epperson, Jack Eakin, Norman Bressler, Melville Thompson, Leslie Evans, Phil Thatcher, Frank Sheetz, and Carl Wilson.

Alfred Robinson, Harold Weddle, Edward Crawford, Harold Crawford, Claude Priest, and Rael Morris attended the Sigma Nu party in Lawrence last Friday night.

Dinner guests at the Pi Beta house last Thursday evening were Prof.

and Mrs. H. P. Wheeler, and Prof. H. K. Lamont.

Edith Holsinger, Marjorie Hubner, Ruth Wilson, Kathleen Schoffner, Welthalee Grover, and Margaret Pickett will spend the week end at the Kappa Kappa Gamma house in Lawrence.

Delta Tau Delta entertained Wednesday evening with a banquet in honor of President F. D. Farrell and Dean L. E. Call. The guests were: F. D. Farrell, L. E. Call, George Givin, O. B. Burtis, F. P. Rude, N. S. Spangler, Ray Pollom, Werner Blanchard, Charles Enlow, and Emmett Skinner.

Sigma Nu Conference Here

The eleventh and twelfth divisional conference of Sigma Nu will be held April 3 and 4 at Manhattan. The Beta Kappa chapter at this college will act as hosts. Chapter delegates will attend from Kansas university, Oklahoma university, Oklahoma Agricultural and Mechanical college, Washington university at St. Louis, Missouri university, William Jewell college at Liberty, Mo., Drury college at Springfield, Mo., Missouri School of Mines at Rolla, Mo., Arkansas university, and Nebraska university.

Original Addition to A.T.O. Sunday Menu Is a Case of Mumps

The A. T. O. evidently believe in having original menus. They entertained a number of guests at dinner recently and by evening one of the chapter was entertaining the mumps.

Doc Siever, hearing of the case, began sleuthing around to find out the names of the dinner guests in order to have them quarantined. After careful deduction he proved Harry K. Lamont of the music department was one of the guilty. He decided to telephone him for a complete confession. With his staff gathered around him Doc Siever called the number.

"Mr. Lamont," he said, "you happened to dine at a place where they had mumps for dinner Sunday."

Spontaneous and hearty laughter broke forth from the group in Doc's office. A dull red mounted Doc's face, but he grimly hung on to the phone, for his job was to get his man, dead or alive.

Dean Willard Goes to Chicago

Dean J. T. Willard went to Chicago, March 18, to represent the Kansas State Agricultural college at the meeting of the North Central Association of Colleges and Secondary schools. He will return March 22.

PROSPECTS FOR TRAINED AGRICULTURIST ARE BRIGHT

L. E. Call Has Optimistic Outlook for Farmers—Speaks at Dinner in Honor of Farrell

"Never has there been a time during the 18 years I have been connected with the Kansas State Agricultural college that the prospects for success were so bright as they are at present for the young man trained in agriculture," said L. E. Call, acting dean of agriculture, at a dinner in honor of F. D. Farrell, acting president of the college, and Professor Call Thursday of last week. About 200 students and members of the faculty attended. The dinner, given by the Agricultural association of the college, was in the college cafeteria tea room.

Training in agriculture is given for three purposes, Professor Call said. These purposes he spoke of as preparation for actual farming operations, for business associated with farming, and for agricultural professional work. About 50 per cent of the college graduates in agriculture, he said, engage in farming after completion of their college training.

"The college cannot hope to train a very large proportion of the farmers of the state," continued Professor Call. "There are, however, two state and federal agencies for training farmers for better agriculture, those provided by the Smith-Hughes and the Smith-Lever acts. In fulfilling our responsibility we must train men for professional work, funds for which are provided by these acts."

"Experiment stations receive about four times as much money from the government alone as they received 18 years ago. The Purnell bill just passed by congress will provide funds for 500 additional experiment station workers in the United States."

Professor Call spoke of the opportunities for men trained in agriculture in businesses allied to agriculture, such as packing houses, banks, creameries, and others, adding that these branches of work are a development of the last 18 years.

Dean Farrell urged the students to cultivate an unquenchable pride in their profession. "It is the most important, the most beautiful profession," continued Dean Farrell. George Ellis, senior in agriculture, was toastmaster. Prof. George Dean spoke in behalf of the faculty not a part of the division of agriculture. D. J. Van den Berg, a graduate student in the division of agriculture, spoke in behalf of foreign students, quoting statistics to show that 30 foreign countries have been represented by students at K. S. A. C. since 1915. R. I. Throckmorton, acting head of the department of agronomy, drew character sketches of the two guests of honor in an address which he termed, "My Bosses."

Bright Colors Are Harbinger of Spring When Worn by Brave

Spring, long sought after, much heralded spring has arrived at last. With birds on the wing, tra la, breezes, flowers, and all the other well known symptoms. Yes, spring has come, and the most significant sign in this case was not black ant, new hats and bluebirds, but was brought by a boy. At least brilliant purple corduroy trousers are a sign of some form of insanity, and they might as well be blamed upon spring.

The cause of this meandering was a youthful, among-those-to-be-educated at K. S. A. C. He stalked dignifiedly across the campus clad in purple trousers and a startling red necktie. Now, a red tie in itself is enough to make the proverbial bull blind with fury, so the boy must at least be endowed with great courage to tread the halls of a cow college so attired. But when one adds purple trousers, and everyone knows that purple signifies royalty and that girls are always running after royalty, then and only then can the tremendous courage and braveness of the boy accurately be gauged. However, it might be that it is only spring again.

FOURTH IN M. V. MEET TO AGGIES

PLACE IN INDOOR TRACK MEET
AT KANSAS CITY

Kimporf and Balzer Break Valley
Records in Mile and Two
Mile Runs

The Aggies placed fourth in the Missouri valley indoor track meet held last Saturday at Kansas City. Nebraska was first with a total of 32 points, Kansas placed second with 30 points, Missouri ran up 24 points, and the Aggies followed with 14 points.

Several valley records were broken at the meet. Ralph Kimporf of the Aggies broke the mile record by cutting the time to 4:25.8. A. I. Balzer, also on the Aggie team, made a new Missouri Valley record when he ran the two mile race in 9:37.6.

Kansas Takes First in High Jump
In the high jump Poor and Graham, Kansas, tied for first at a height of 63 1/4 inches. This also ties the Missouri valley record. Weir of Nebraska ran the 50 yard low hurdles in six seconds, which ties the valley record. Lancaster of Missouri set a new record in the pole vault, clearing 12 feet, 8 inches.

The Aggies placed third in the mile relay. The team was composed of Knouse, captain, Russel, Brockway, and L. L. Davis. Carter of the Aggies tied for second in the pole vault with McDonald of Washington and Versig of Nebraska. Carter also tied for second place in this event at the 1924 meet.

Kimporf Is Pace Setter in Mile

Kimporf's victory in the mile was one of the features of the meet. Running a fast steady race and setting the pace for the rest he still had enough strength on the last lap to make a last dash of speed and clear the tape 10 yards ahead of Grady of Kansas. Kimporf cut down the record time for this event by three seconds. Pittenger of Missouri was the former holder of the record.

Balzer was a dark horse in the two mile. Unheralded by sport writers and almost unknown by valley distance men he proved a surprise to everyone. In the event he easily outdistanced the field and established a new valley record. Rathbun of Ames held the former record of 9:43 2-5.

Placing of Events

The summary of events follows:
Mile relay: Won by Nebraska; Kansas second, Kansas Aggies third, Oklahoma fourth. Time 3:29 4-10.

50 yard dash: Won by Locke, Nebraska; second Farley, Missouri; third Wongwal, Kansas; fourth Lindsey, Oklahoma. Time 5 4-10.

Mile run: Won by Kimporf, Kansas Aggies; second Pratt K. U.; third, Grady K. U.; fourth, Breidenbach, Grinnell. Time 4:25 8-10. (New conference record.)

50 yard high hurdle: Won by Weir, Nebraska; second Green, Grinnell; third, Taylor, Grinnell; fourth, Cunningham, Missouri. Time 6 6-10.

High jump: Poor and Graham of Kansas tied for first; third, Bransford, Missouri; fourth, Hageman, Washington. Height 63 1-4 inches. (Ties Missouri Valley record.)

880 yard run: Won by Lewis, Nebraska; second, Watson, Kansas; third, Ponder, Missouri; fourth, Rounderscheidt, Nebraska. Time 2:03 5-10.

440 yard dash: Won by Frank, Oklahoma; second, Rooney, Kansas; third, Morgan, Drake; fourth, Fisher, Kansas. Time 52 2-5.

50 yard low hurdles: Won by Weir, Nebraska; second, Locke, Nebraska; third, Cunningham, Missouri; fourth, Vogle, Oklahoma. Time 6 seconds. (Ties Missouri Valley record.)

Shot put: Won by Richardson, Missouri; second, Etter, Missouri; third, Meeter, Grinnell; fourth, Kreimel-meyer, Nebraska. Distance 46 feet, 10 1-8 inches.

Two mile run: Won by Balzer, Kansas Aggies; second, Pratt, Kansas; third, Grady, Kansas; fourth, Poag, Missouri. Time 9:37 3-5. (New Missouri Valley record.)

Pole vault: Won by Lancaster, Missouri; Carter, Kansas Aggies; McDonald, Washington, and Versig, Nebraska; tied for second, third and fourth

OLD DIARY GIVES GLIMPSE OF COLLEGE 50 YEARS AGO

W. E. Grimes Finds Sketch of Pioneer Life—Farming Methods Appear Crude Today

"Very cold snap. All the teams sick with epizootic. No work done except taking care of teams and repairing feed boxes in stable and fixing up stall which mules tore down Sunday night."

So reads the entry for Monday, December 23, 1872, in the diary of James C. Mayos, foreman of the Kansas State Agricultural college farm. Not a very happy prospect for Christmas—an unexpected drop in the temperature, the teams afflicted with the "epizootic," the mules performing in typical mule fashion—and yet we are told that Wednesday, December 25, was "Christmas day, Holiday for all hands."

This old diary fell into the possession of the writer a few years ago when he rescued it from among some material destined for the rubbish heap. And a rare find it was! Better than a story book is its terse account of the trials, troubles, and tribulations mingled with the happy incidents occurring on the college farm in 1872.

From the fly leaf we learn that Foreman Mayos was assisted by two hired men, T. B. Morgan and Hugh Whittington, and various entries reveal the fact that student help was also used, for in one place it is recorded that "three students worked some." No explanation is offered for the "some." Probably things other than mules were running true to form in those days!

Speaking of mules,—they appear to have played a very prominent part in the farm affairs. They are credited with tearing down the stables on numerous occasions and June 17 they "ran off with Mayos and dragged Mayos across the field." The casualties are not enumerated.

But the count was not all in favor of the mules for we find that the college entered the ranks of the "hoss traders" on March 30 and Foreman Mayos "sent off Dick mule—traded him for another large dark mule."

But listen, ye faculty. On March 22 a new faculty member arrived in town and immediately requisitioned the college teams and men to "haul [his] goods from depot." Shades of the moving van! Them days is gone forever!

March 28 was a red letter day! The regents arrived and the time of two men and teams was required to "drive Regents round the farm." Via lumber wagon? Not so, today!

Page Professor Call! Oats were not seeded until late in April and then "Excelsior" oats were seeded and rolled afterward. One entry reads "sowing oats and plowing them under with a single shovel plow—also covered a few rows of potatoes at night." Dark or light of the moon?

Corn was planted with a planter but two men were required to run it, one to drive and one to "drop the

corn." July 11 found "Morgan cradling oats on experimental piece, all day." But not all of the grain was cut with a cradle for on July 13 "Mayos [was] stacking rye for President Denison, also two hours fixing reaper and making gate." All grain was bound by hand.

Did you ever get a stack of grain half done and then have it rain? Then, you will appreciate the entry on July 25, "making stack bottoms and stacking oats—a thunder storm came on at 4 1/2 o'clock p. m." and on the 26th, "Hauling old fence posts and fixing fence in pasture, also building worm fences in southwest corner of pasture, also opening bottom of stack and drying it." All sons of Kansas who can build a "worm fence and stake and rider it" step forward please!

On the afternoon of August 5 we find all hands "threshing oats with machine" with a total of 202 bushels threshed in the afternoon. No self feeders or wind stackers on the threshing machines of those days!

Notable among the crops grown are millet, rye, beets, corn and potatoes. Wheat? Not mentioned in the entire diary. Sub-soiling and liming are included among the farm operations. On October 29 Mayos went "to town to get mules shod, but the blacksmithing shops were so crowded could not get them done." No congestion now, thanks to Henry and John D.

The health of the men also comes in for its share of notice and on May 1 we find Mayos "sick with ague" and on May 9 "Mayos and Morgan slightly shaky with ague."

Such was farming in 1872 and in some regards so it is today. The

Coming back for more year after year—that's a pretty keen criterion of the grip of any product on men's minds. And that's the way men follow the lure of Interwoven Socks.

Take a look at our fine assortment of materials and colors at popular prices.

mules still kick down the barn on occasions, the rain gets the unfinished stack wet, and the teams get sick even though we may not call it the "epizootic." But the cradle and the reaper have given way to the binder and the header; the "stirring" plow has been displaced by the sulky and the gang; wheat, alfalfa, and the sorghums have taken prominent places in Kansas agriculture; many practices have been discovered which increase profits; and the automobile

has displaced the team and wagon as a passenger conveyance.

**ENROLMENT FOR SCHOOL
YEAR MORE THAN 4,000**
Second Semester Figures Bring Total to New High Point

Enrolment in the Kansas State Agricultural college for the current school year, starting with the summer school of 1924, is approximately 4,000 Miss Jessie McDowell Machir,

registrar, announced at the conclusion of second semester registration.

The gain in enrolment is marked in view of the fact that last year's figures included a number of sub-collegiate students, in training under the United States veterans' bureau. The second semester enrolment consists entirely of collegiate grade students, the veterans' bureau having completed its training of vocational students.

Sporting Comment

Credit Spencer, University of Kansas heavyweight, with being a mighty game boxer. Knocked out in his first match with Pearson of the Aggies, he came into the ring smiling and determined in the Aggie-Kansas meet here last week. Before a minute had passed he was knocked out again, but came "out of dreamland" wanting to keep right on fighting. After it was over, he enjoyed the joke as much as anyone in the gym. Such men are great factors in cementing mutual respect between the two state schools.

Likewise chalk down one for J. A. Stewart, Aggie 135 pounder. Stewart was shaded at Kansas in a mighty close bout, but came back from under that handicap and beat his man in the return engagement.

Tennis enthusiasm has become so great that players are wallowing over and through the surface of the new courts in order to play, the three courts now in shape being in use continuously.

It was unfortunate, to say the least, that the make-up man should have chosen to substitute a "Sport Whimpers" head for the "Sporting Comment," which belongs above this column, on the very day on which the writer took issue with the pickers of the all-valley for leaving an Aggie man out of the selections. In spite of the inference, we believe the criticism to be justified.

Football and basketball attract more interest than any other valley sport hereabouts. But for advertising value to a school consider the case of track—Gallagher, Watson, Riley, Erwin, and now Kimporf and Balzer.

In the past few years these men have carried the standard of Kansas State all over the world. Riley and Watson were on the Olympic team. Gallagher held a world's low hurdle record for a time. Riley still holds one. East, north, south, and west, these men have traveled under colors of the Illinois and Kansas City Athletic clubs, carrying the fame of their alma mater. It was an Aggie cross country team that won the valley title at Des Moines last fall. And now out of the valley indoor comes the news, "Valley records in the mile and two mile were broken by Kimporf and Balzer of the Kansas Aggies."

**CLAY CENTER TEAM WINS
SECTIONAL TOURNAMENT**

Abilene and Manhattan Place Second and Third in Basketball Meet

The sectional basketball tournament held in Nichols gymnasium last Friday and Saturday was won by Clay Center when it defeated Abilene in the final game 20 to 18. Third place went to Manhattan as the result of a forfeit from Salina.

The feature game of the tournament was the Salina-Abilene contest in the semi-finals. Dope pointed to a Salina win as the team had defeated Abilene three times this season. Abilene's rally in the last three minutes of play netted them six points, giving them a 15 to 8 victory.

Loving cups were awarded to Clay Center and Abilene for placing first and second. Both teams are now eligible to enter the state tournament at Lawrence next Friday and Saturday.

Electric Cable Is Removed
The electric cable from the abandoned pump house on the east side of the campus to the power plant which is near the shops has been taken up to be salvaged. On account of the new water system this cable is not needed any more.

WILL NOT HAVE ARMY FIELD DAY

TO BE POSTPONED UNTIL ARMISTICE DAY

Dates Conflict with Those of Other Events—Colonel Bugbee Believes K. S. A. C. Will Rank High

Army field day, which has been held every spring for the past few years, will not be held this spring, according to a statement of Colonel Fred W. Bugbee, commandant of the R. O. T. C.

It is the consensus of opinion of the college authorities and leading downtown business men that the annual field day should be held on next Armistice day. Conflicting dates of conventions and other events have made it impossible for the annual affair to be held this spring.

Battalions to Have Field Days

However, each battalion will have a field day individually of the other. These will be held on Saturday, April 9, and Monday, April 11. Equipment races, foot races, hurdle races, and other forms of athletic competition will make up most of the program. Colonel Bugbee states that the battalions will not engage in sham battles on this day.

On Friday and Saturday, May 1 and 2, two inspectors from the war department will hold their annual inspection of the R. O. T. C. post at K. S. A. C. This inspection includes examination of class room work, company drill, practical work in machine guns, automatic rifles, map making and reading, artillery problems, tactics, and other military problems.

K. S. A. C. Ranks High in Area

The reports of these inspectors will determine whether or not the K. S. A. C. unit will be placed on the distinguished list. The distinguished list is made up of the five highest ranking schools in the army area, which includes all the states west of the Mississippi river, with the exception of Louisiana.

While he did not want to appear to be bragging on the work accomplished by this school in R. O. T. C. work, Colonel Bugbee said that he had high hopes of K. S. A. C. being placed on the distinguished list this year.

TO HAVE NEW RADIO FEATURE

Radio Commencement to Be Held April 17

Eighteen hundred "Aggies of the Air," students enrolled in the extension courses conducted by radio, during the last seven months, will be invited to attend the first radio commencement in history.

This event is to be held April 17, at the same time the home economics golden jubilee will be in session. Faculty and college students will cooperate in acquainting the visitors with the school they "attend from a distance."

"College of the Air" students will themselves participate in the commencement exercises presented from Station KSAC for those members granted certificates in absentia. The rural schools which close on April 17 may hear the program which will be held in the afternoon for their benefit.

The program will include an address by Acting President F. D. Farrell; a one-act comedy, "Static," with an "Aggie of the Air" cast; and special musical numbers and readings by the radio students. Dean H. Umberger, director of extension, will preside.

The "College of the Air," an innovation in educational work, has been popular. Enrollments in the various courses in general science, agriculture, engineering, and home economics, total almost 20,000. The printed lectures are sent students the day they are broadcast and examinations are given at the end of each eight weeks period. Certificates will be presented or mailed to those completing their work.

FORMER FACULTY MEMBER TALKS TO AGRONOMISTS

A. H. Leidigh, Assistant Director of Texas Experiment Station, Is Here

A. H. Leidigh, assistant director of the Texas experiment stations, was in Manhattan last week and talked to the Genetics club, Klod and Kernel club, and at the agronomy seminar.

Mr. Leidigh was formerly an instructor in the K. S. A. C. agronomy department. He is now working together with C. O. Johnston of the college botany department on the development of rust resistant varieties of wheat and on the relation of rust infections in Texas and Kansas. Mr. Leidigh and Mr. Johnson are

investigating the theory that high winds from the south blow the rust from Texas to Kansas wheat. Mr. Leidigh came here to take notes on wheat in the college greenhouses. Mr. Johnson will visit parts of Texas sometime this spring.

STADIUM DRIVE TO RAISE FUNDS FOR STONE WALLS

Cut Stone Will Make It Unique Among American Stadiums—Will Remove Crowded Condition

Contributors to the Memorial Stadium fund of K. S. A. C. are subscribing aid in the erection of a structure which will be one of the most beautiful on the campus and a useful one as well, officials of the Memorial Stadium corporation point out.

The stadium as it now stands possesses the utilitarian features of the structure which eventually will be the Memorial Stadium, but it has not been provided with the cut stone walls which will make it unique among American stadiums. Funds secured in the campus and Manhattan drive soon to be inaugurated will aid in constructing these walls.

The architectural design of the Memorial stadium will follow in general the design of Nichols gymnasium. This type of architecture is particularly suited for large, massive structures, and is preeminently a type of design suitable for the native stone used in all the college buildings.

The towers and turrets of the design lend themselves particularly well to an interesting skyline which will be accentuated and emphasized on gala occasions by the flags and pennants on the flagpoles arising from the towers and battlements. The curves of the horseshoe plan are structural features which enhance the appearance of the structure. The vistas and perspectives which one will have from all angles along these broad sweeping curves with receding towers, arches, and battlements will be among the most impressive views on the campus.

This will be the only stadium in the country built of stone, or with so impressive and complete an architectural treatment.

When the space beneath the seating decks is enclosed provision can be made for taking some of the strain off the facilities in Nichols gymnasium which now are overtaxed to handle the intramural athletics plans of the department of physical education. The completed stadium will have beneath the seating decks boxing and wrestling rooms, handball rooms, an indoor running track, offices, and dressing room accommodations.

All these are necessary to the carrying forward of the "everybody in the game" program which K. S. A. C. in common with other American colleges and universities has adopted, and the Memorial Stadium corporation is anxious to complete the stadium and make them available.

Waltz Receives Croix de Guerre
Captain Waltz, who served in the First Division in France throughout the World war, received a Croix de Guerre citation from the French government last week. It was presented for gallantry in action during the Argonne campaign.

TWO QUILL CLUB CONTESTS CLOSE FIRST WEEK OF APRIL

Manuscripts for Membership and Best Short Story to Be Judged

Two contests of the Quill club are on at the present time. The one for membership in Quill closes April 1, and the contest for the best short story closes April 4.

Manuscripts of applicants for membership should be typewritten, on one side of the paper, double spaced, on letter head size paper. The name of the person submitting the material and the titles should accompany the manuscript in a separate envelope. Essays, poems, editorials, criticisms, short stories, or feature stories may be submitted.

The short story contest is open to everyone, \$10.00 being offered for the best story submitted, and honorable mention given to second, third, and fourth places. Miss Ada Rice, associate professor of English, is donor of the prize. If the winner of the first place is not a member of Quill club, he will be admitted to membership. Manuscripts should be submitted to Helen Norton, chancellor. Three copies of each story must be made, and the name of the author and the title placed in a separate envelope. No person may submit more than one story, in case no story submitted is of sufficient merit no award will be made. A committee of five persons, one of whom is a member of Quill club, have been appointed to judge the manuscripts.

SECOND PLACE GOES TO GIVEN

KINGSLEY GIVEN WINS SECOND HONORS IN CONTEST

Represents K. S. A. C. in Missouri Valley Oratorical Contest at Washington University

Kingsley W. Given, representing K. S. A. C., won second place in the Missouri Valley Oratorical contest at Washington university, St. Louis, Friday, March 20. The University of Texas entry, Blake Johnson, won the contest and the Drake entry, W. O. Chatterton, placed third.

The contest this year was perhaps the keenest, in point of quality of the speeches, of any yet held, said Dr. Howard T. Hill, head of the department of public speaking, who accompanied Mr. Given to St. Louis. The subjects chosen were timely and offered very good opportunity for effective presentation.

"National Problems and Public Responsibility" was the subject presented by the Texas university entry; Mr. Given spoke on the topic, "In Contempt of Court;" and the Drake representative spoke on "States Rights vs. Civilization."

K. S. A. C. Ranks First in Valley

In regard to ranking the participating schools for the contests in the past five years, K. S. A. C. holds first place, having won one first, two seconds, and two thirds. At the business meeting held after the contest the oratorical league admitted as new members, Colorado university, the University of South Dakota, and the University of Texas. Schools already in the league which participated in this year's meet in addition to those which took the first three places, are: Oklahoma university, the University of Kansas, Missouri university, and Washington university.

INTER-SOCIETY PLAYERS TO GIVE "THANK YOU" TONIGHT

Play Is Third of the Successful Golden Productions to Be Given Here

"Thank You," which will be presented at the college auditorium by a cast of intersociety players tonight, is one of three plays successfully produced by John Golden and later given by college organizations.

A Purple Masque production in the fall of 1923, "Three Wise Fools," was originally produced by Golden and written by Winchell Smith, author of "Thank You." "The First Year," last fall's Purple Masque production, is another play successfully presented by Golden.

In comparing "The First Year" and "Thank You," Shepherd Butler, at that time critic of the Chicago Tribune, said, "Thank You," the new play produced by John Golden, has won more praise than an earlier success, "The First Year." Critics have judged the three Golden plays to be among the foremost productions of the American stage.

Eighteen characters make up the cast. The central character is a poor clergyman who progresses from the position of down-trodden servant of a rural community to a heightened situation of wealth. A homeless niece from Paris helps the preacher solve his problems.

Mrs. C. E. Rogers, Miss Izil Polson, and Mr. Morse Salisbury drove to Topeka Monday to hear Tito Schipa in concert.

Journalists Benefit Not Only Themselves But Girl Architects

Publicity is a great thing.

At least that is what Miss Frances Schepp, Kansas Aggies' only girl architect thinks, after landing a neat job as a result of publicity.

Not long ago her picture appeared in the Kansas City Star and other papers, accompanied by an article telling of the architectural work and of her being the only girl enrolled in architecture. Dr. C. W. Butman of Hebron, Ind., saw her picture, and being inclined to help striving young architects, he sent word that he would like to have Miss Schepp plan for him a combined two story business building and dwelling. The outside will resemble a business building, and the lower floor will consist of his office, consultation room and rest room. His living rooms will be on the second floor.

Miss Schepp immediately started work on the plans and submitted her sketches to Doctor Butman for approval. They have been accepted and the blue prints are to be finished by April 1.

SAM THACKREY NEW EDITOR

Has Had Several Years of Daily Newspaper Experience

Sam Thackrey, senior in general science was elected managing editor of the Collegian for the last nine weeks of the semester, at the Collegian board meeting Tuesday noon.

Two years of experience in the Kansas City, Kan., office of the Kansas City Star, and a year with the Daily Oklahoman at Oklahoma City, make Mr. Thackrey especially qualified for the position. He is a member of Kappa Phi Alpha, Purple Masque, and Phi Mu Alpha.

Applications for staff positions for the remainder of the semester should be forwarded immediately to John Gartner, editor-in-chief of the Collegian.

REMAINING PROGRAMS FOR ASSEMBLY ARE ANNOUNCED

List Includes Special Assembly for Stadium Drive—Also Scholastic Recognition Day Program

The assembly programs for the remainder of the semester have recently been completed by Professor Kammeyer of the economics department, who is in charge of the arrangements.

Friday, March 27—A debate between Oregon Agricultural college and K. S. A. C. on the question of overriding supreme court decisions by an act of congress when constitutionality is brought into question.

Thursday, April 2—Dr. A. B. Hulbert, professor of history at Colorado college will speak on the subject of "Soils and Migration." Professor Hulbert will also give an illustrated lecture at the Science club in the evening.

Tuesday, April 7, is special assembly to launch the drive for Stadium funds.

Noted out-of-town guests at the home economics jubilee, including Mrs. Henrietta Calvin of Philadelphia and Mrs. Kedzie Jones of Chicago will speak at assembly Friday, April 17.

Tuesday, April 21—Charles Kingsley Webster of London, England, will talk on "History as an Applied Science."

Tuesday, April 28—Dr. Shailer Mathews of Chicago university will speak. Subject not known.

Friday, May 8, will be the annual Phi Kappa Phi address. Selected speaker.

Friday, May 15, will be the recognition day program in honor of students who, during the year, have achieved scholastic honors of one kind or another.

"The last assembly of the year will be under the auspices of the senior class and will come either on May 26 or 27," said Professor Kammeyer.

PLAN COUNTY FAIR

Chamber of Commerce Sponsoring Fair for Next October

R. W. Morrish, director of boys' and girls' club work, James L. Perry, manager of the Perry Packing company and president of the Club Fair association of Riley county, and W. E. Grimes, head of the department of agricultural economics and secretary-treasurer of the Club Fair association, will attend a meeting at the Oak Grove school house on Friday evening, March 27. The Oak Grove school house is the first one east of Manhattan on the Golden Belt. The meeting is being held for the purpose of discussing boys' and girls' club work in that community. Boys' and girls' clubs are being or-

ganized under the auspices of the Manhattan chamber of commerce in every community within Riley county. A fair will be held in Manhattan on October 9 and 10. At this time, the results of the club work will be exhibited and premiums will be given for the best results.

TWO OREGON DEBATERS MEET AGGIES ON 10,000 MILE TOUR

Discuss Supreme Court Constitutionality Question from Coast to Coast—Aggies Their First Opponents

Special to the Collegian
By Lindsey H. Spight

Two members of the Oregon Agricultural college debating team who have traveled 2,000 miles from Corvallis, Oregon, met Helen Correll and Charlotte Swanson, representing the Kansas Aggies, in the auditorium this morning at 10:15. The question for debate was, "Resolved, That Congress Have Power, by Two Thirds Vote, to Overrule Decisions of the Supreme Court Declaring Acts of Congress Unconstitutional."

Robert M. Kerr and Frank DeSpain of the Oregon Aggies are the two speakers who upheld the affirmative. The visiting debaters arrived in Manhattan yesterday afternoon at 1:15 from Denver, where they had been resting in preparation for their debate here this morning. They are on a 10,000 mile debating tour of the United States which will carry them through 31 states.

President F. D. Farrell presided this morning at the forensic contest between representatives of the two great agricultural colleges. The question is considered one of the liveliest of the day and has been debated in public life as well as intercollegiate forensic affairs.

This is the first debate of the trip for the far-western forensic stars. From here they go to Chicago where they will meet Northwestern university, Monday. During the trip they meet Purdue, Ohio State university, Penn State, Bates college of Lewiston, Maine, Massachusetts "Tech," Syracuse university, and New York university.

The last debate in the east is with Syracuse university and from there the Oregon Aggie debaters travel across the continent to Seattle where they meet the University of Washington in the last debate before returning home. The entire trip will take nearly six weeks.

TWO MORE TEAMS OUT

Men's and Women's Quartets Leave on Go-to-College Tours

Two go-to-college teams, in addition to the one one announced in Tuesday's Collegian, will leave Sunday.

The college male quartet composed of Lawrence Hedge, Oren Clency, Harry Wilson, and Floyd Strong, will present programs in the following high schools: Atchison, Edinburg, Valley Falls, Oskaloosa, Leavenworth, Tonganoxie, Kansas City Central High, Argentine, Rosedale, and Shawnee Mission.

The college women's quartet, Mary Frances Platt, Esther Ankeney, Nell Russell, and Corrine Wiltrout, will give programs at Downs, Beloit, Lincoln, Lucas, Russell, Ellsworth, Salina, Solomon, Minneapolis, and Abilene.

According to Dr. A. A. Holtz, secretary of the Y. M. C. A., the organization which is sponsoring the teams, many invitations from high schools requesting a team will have to be turned down on account of insufficient funds.

XIX SELLS FESTIVAL TICKETS

Senior Girls Cooperate with Pratt in Sales Campaign

Sale of spring festival tickets has been undertaken by XIX, senior women's honorary organization. The festival is to be held April 28 to May 2, inclusive, this year.

Catherine Bernhisel and Prof. Ira Pratt are planning the ticket-selling campaign. XIX members are Evelyn Colburn, Laureda Thompson, Maxine Ransom, Gladys Sanford, Elizabeth Bressler, Phyllis Burtis, Florence Haines, Mildred Moore, Hilmarie Freeman, Lois Richardson, Catherine Bernhisel, Lucile Herr, and Laura Russell.

Ag Publication off Press

The Kansas Agricultural Student, for March is off the press this week. This magazine is a quarterly publication put out by students of the agricultural division.

Stickney and Cole to Leave

Captain Stickney and Lieutenant Cole will have finished their R. O. T. C. work at the end of this school year and will then leave this country for foreign service.

294 COURSES IN SUMMER SCHOOL

121 INSTRUCTORS WILL BE RETAINED

Well Known Educators Will Lecture—Session for Rural High School Teachers During August

Heightened standards in training required of public school teachers will result in the largest enrolment yet recorded for the 1925 summer school session at the Kansas State Agricultural college in the opinion of E. L. Holton, dean of the summer school. Adoption of more stringent requirements for school teachers has increased the demand for summer school training. Dean Holton expects an enrolment of 1,200 this year, 60 per cent of whom will be teachers. The 1924 enrolment was 1,016. This year's session will open on June 1 and will close on August 1.

For the benefit of teachers in attendance superintendents of schools in Kansas cities of the first and second class will give a series of weekly talks on "Practical Problems of Teaching." E. B. Gift, superintendent of schools in Manhattan, will have charge of the arrangements for the series.

Offer 274 Courses

A total of 274 courses, 23 in the division of agriculture, 20 in the division of home economics, 47 in the division of engineering, and 184 in the division of general science, will be offered. The summer school faculty will number 121.

The course in coaching for high school athletics directors will be continued by the department of physical education. An intensive short course during the first three weeks of the session will be offered for those who are unable to attend for the full nine weeks.

Lectures by noted educators and scientists will be given at the weekly student assemblies. Dr. C. A. Prosser, director of Duwoody institute of Minneapolis, and Dr. E. H. Reiser of the department of education, Columbia university, are two of the speakers who have been secured.

Special Course in August

The annual summer school play again will be presented under the direction of the public speaking department. "Know Your College" tours to all parts of the campus and farms, during which members of the department faculties will explain the work of each section, will be given to familiarize summer session students with the campus. Campus picnics for the entire student body and faculty will form part of the social activities of the session.

During the month of August a special summer school for vocational agriculture and home making teachers whose work is provided for in the Smith-Hughes vocational education act will be given. Courses will be offered under the direction of federal bureau of education regulations by members of the college staff. It is expected that the majority of teachers handling this type of work in Kansas will attend the special session.

CAST CHOSEN FOR SPRING PLAY, "CAPTAIN APPLEJACK"

Leading Roles Taken by Helen Bennett, Agatha Tyler, and Ralph Mohri

The cast for "Captain Applejack," Purple Masque spring play to be presented during Festival week, has been announced by Earl G. McDonald of the public speaking department.

Leads will be played by Helen Bennett as Anna Valoska, Agatha Tyler as Poppy Faire, Ralph Mohri as Ambrose Applejohn, and Paul Pfuetze as Ivan Borolsky. Supporting parts will be taken by Paul Chappell, Charlotte Swanson, Eleanor Mims, Jack Kennedy, Ruth Stewart, Melvin Thompson, and Lynn Fayman.

With only two exceptions this is an experienced cast and with a play like "Captain Applejack" as material, this should well be the best Purple Masque production of the year. Rehearsals will begin immediately and the play will be produced April 29 in the college auditorium.

Is National Bureau Employee

H. I. Richards, '22, former member of the department of agricultural economics, plans to return to K. S. A. C. for commencement, as he is completing his work for his master's degree. Mr. Richards is now employed by the bureau of agricultural economics at Washington, D. C., and has been in charge of studies of the relation between local consumption and local production of farm products in eastern communities.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

MORE "WRESTLING"

Forty years ago the editor of The Industrialist printed the following comment on the subject of "wrestling."

"We do not remember a year in which our students have shown so little 'nonsense,' and so much earnest 'business' feeling as during the college year now drawing to a close. The spoony young man, and the young woman who cannot conceal her love of admiration, and does not try to, if not entirely unknown, have been content to remain comparatively and quite decently inconspicuous. To such an extent has the business idea prevailed that we heard a young lady recently express the doubt whether the lady students really received the attention that they were entitled to. Well! Well!"

WALKS AND GRASS

Walks have been constructed which make all places on the campus accessible. Grass and shrubbery has been planted in order to improve the appearance of the campus. Some of the thoughtless students might well remember these two facts and their very obvious correlation.

WHAT DO YOU THINK?

There has been considerable discussion and comment aroused among the student body concerning the editorial titled "Wrestlers" printed in this column last Tuesday. Condemnations of the attitude taken have been expressed as well as praises. The editor would be glad to print any comment from members of the student body or faculty concerning the subject in the "Judge for Yourself" column. If you object to the discussion as presented or if you favor it you have the opportunity of expressing your own opinions publicly. All communications must be signed although the name will be withheld from publication if the writer so desires.

It has come time for a show down between us and the editor of this paper. He insists on commenting and advising along those special lines which we consider our privilege. Once before he interfered and now he calmly takes the important place on the page and orates about "wrestling" when that was an item for us and us alone to comment on.

One more break out of him and there will be something said about the way he acts on a date. A fine type to expostulate upon the modern code of morals!

The Pi Beta Phi sorority recently constructed a fence around their place of business, but we can't see what good it does. You can see right through it.

Nearly every sorority girl in town rose up in indignation and anger when the subject of late sneak dates was broached. Ain't a conscience a funny thing?

School Work

Becomes more strenuous as one advances.

A great excess burden often falls upon the eyes. They are the AVENUE OF EDUCATION, and often determine the extent to which it may be acquired.

Don't wear your eyes, your nerves, or your health, or give up your studies if we can help you with glasses.

J. A. HOLLIS

Marshall Bldg.

Mary Marcene Kimball deserves hearty congratulations. Not on the fact that she is such a good guesser but because she was able to keep the secret for four or five days.

The fact that she knew the results of the beauty contest coupled with the fact that she is on the staff may have had a bit to do with her ability to guess. Possibly.

A pest is a man who insists upon talking to you while you are trying to talk over the phone to your girl.

The faculty should be happy for about a week now that they have forced everyone to demonstrate their ignorance, (not the ignorance of the faculty. They keep that pretty well concealed.)

Some means should be devised by which it could be discovered whether or not each professor could answer all the questions he asked in an examination. As it is, we have grave doubts.

Along the blonde and brunette controversy Harry says that a blonde is better looking and has more sense than any two brunettes. But then, Harry is prejudiced. His last girl was a brunette.

If a girl is good looking; if she can dance wonderfully; if she can cook and bake, and so forth; if she can keep house; if she can play and sing; if—but what's the use. No girl can qualify.

We've decided that the custom which the women in Turkey have, of wearing veils over their faces was forced upon them by the men who preferred to look at the veils rather than the faces.

On Other Hills

According to figures compiled by F. P. O'Brien, professor of education of the University of Kansas, there are now 13,453 students enrolled in state schools, private schools and junior colleges in Kansas. Douglas county, seat of the University of Kansas has the largest registration with 958 students, and Sedgwick county is next with 858.

The Harvard university student council has rejected as impractical the honor system. A committee investigating the matter reported that the changing nature of examinations was detrimental to an honor system.

A new use for flesh colored hose was recently discovered when a professor got suspicious at West Virginia Wesleyan and carried on an investigation which brought out the startling fact that women were inscribing notes on their ankles which became easily visible when the hose were drawn tight.

Weekly lectures on athletics are being given women students of the University of California, in order that they will be better able to understand sport events.

Every national sorority in the United States has a chapter in the University of Minnesota.

Ground for the New-Northwestern university sorority quadrangle will be broken soon and the buildings will be ready for occupancy by the fall of 1926.

dormitories for University of Minnesota students was advocated by Mrs. Warren, a member of the board of regents. In this way the added burden of taxation, brought on by the building of expensive dormitories would be removed.

An annual spelldown is held in connection with Freshman English and rhetoric classes at Oregon State Agricultural college.

Students who make failing grades in more than 50 per cent of their work at the agricultural college at Fort Collins, Colo., are placed in special study classes which meet every afternoon.

The journalism department of the University of Iowa has a newspaper library which contains an edition of every daily paper published in the United States, 2,500 in all.

A complete history of the world war is being compiled at Texas university under the direction of the history department.

"Each student in Ohio State university costs the tax-payers of Ohio \$360 a year," was a statement made by Dean Henderson of the College of Arts at the university.

WEIGEL NAMED PRESIDENT OF KANSAS ARCHITECTS

Head of Department Here Has Had Wide Experience and Travel

Prof. Paul Weigel, head of the department of architecture at K. S. A. C., was elected president of the Kansas section of the American Institute of Architects, at their meeting in Topeka last Saturday.

Professor Weigel became head of the department of architecture last summer, succeeding Professor Baker, who went to Cincinnati, Ohio. He came here in 1921 as assistant professor in architecture, was made associate professor and acting head of the department in 1923, and last summer was named head of the department by Dean R. A. Seaton, because he handled the work so well.

Professor Weigel has had varied experiences and training in architecture. After his graduation from Cornell university, he worked in the

office of the state architect at Albany, N. Y. Later he spent five years as a designer of structures for the Panama canal. He was also a practicing architect in New York City for several years.

Last summer, Professor Weigel toured Europe, studying examples of ancient and modern architecture. He also has traveled extensively in Central America and the United States. He drew up the plans for the new library last fall, and is now busy on plans for the new women's dormitory.

Sixty-Eight Attend Luncheon

Speakers at the regular bi-weekly experiment station luncheon at the cafeteria Saturday were Dr. A. M. Brunson and Prof. J. H. Parker. Sixty-eight plates were served.

Discussions relative to the work being done in the various departments of the experiment station are the features of these luncheons. The menus are always suggestive of the special department whose work is being considered at that meeting. The menu this week was Marjout barley soup, breaded veal chops, Durum wheat macaroni, Pride of Saline spoon bread, Kanred wheat bread, Kansas Orange Sorgo gingerbread, Kanota oatmeal cookies and coffee Arabica.

Fifty Attend B. Y. P. U. Conference

About 50 Manhattan young people attended the Kaw Valley B. Y. P. U. rally at Lawrence last Saturday and Sunday. Among the college people who went were: John Kels, Harold Lanis, Floyd Carroll, Ralph Evans, Herbert Coolidge, Loleta Toothaker, Hazel Dalton, Ethel Oatman, Alice Bell, Melvina Schrader, Susie Geiger.

Prof. and Mrs. L. H. Limper entertained the modern language department at a dinner Thursday evening. Guests were Prof. and Mrs. J. V. Cortelyou, Miss Grace Hesse, Miss Mary Brownell, and Miss Edna Williamson.

Dr. Mary T. Harman, Miss Elsie Smith, Miss Clarice Painter, Miss Maude Williamson, and Miss Grace Hesse motored to Topeka Monday evening to hear the Tito Schipa concert.

Miss Ruth Hartman, Miss Marjorie Moody, and Miss Alleen Rhodes spent Monday in Topeka observing public school music work. In the evening they attended the Tito Schipa concert.

Guests at the Phi Delta Theta house this week-end were: Ralph Dashner, Jerome Meisenheimer, and Burr Swartz of Hiawatha.

Misses Pearl Ruby, Aline Hinn, and Florence Clarke gave a party Saturday evening at their apartments. Guests were Misses Mary and Izil Polson, Amy Kelly, Emily Bennett, Grace Hesse, Messrs. Morse Salisbury, L. C. Williams, R. W. Conover, J. F. Bullard, H. R. DeRose, M. C. Sewell, R. M. Kerchner, and Paul Weigel.

Hamilton literary society announces the following new members: A. T. Lhotak, Irving; L. H. Spears, Manhattan; T. H. Long, Wakeeney; and G. R. Collier, Colwich.

Omega Tau Epsilon announces the pledging of Theodore Keller, Manhattan.

Gamma Phi Delta announces the following initiates: Alice Williams, Conway Springs; Edna Sulter, Macks-ville; Mary Brookover, Eureka; Reva

Emily, Pleasanton; Fern Russell, Manhattan; and Marian Rude, Great Bend.

Alpha Sigma Psi announces the pledging of J. G. Swartz, Atchison, and Carl M. Horn, Miltonvale.

Prof. Otis Gruber and Mr. H. H. Steup went to Topeka Monday to attend the Tito Schipa concert.

Delta Sigma Phi announces the pledging of J. A. Stewart, Manhattan.

Sunday guests at the Delta Sigma Phi house were Mr. and Mrs. A. W. Wise, Clearwater; Miss Ruth Wise and Miss Donna McCormick, Walton; and Mr. Elwyn Scheel, Topeka.

Prof. Walter Balch is attending the National Flower show being held in Kansas City this week.

Guests at the Kappa Kappa Gamma house this week-end were Dolly Callahan, Maude Irene Whitehead, Imogene Toliver, and Lorna Troup of Abilene, Robina Manley of Junction City, and Polly Hedges of Clay Center.

AG STUDENTS NEED ECONOMICS

Demand for Those Trained in Economics Great, Says Grimes

"Graduates in agriculture who have had some training in economics are too few for the demand," says Prof. W. E. Grimes, head of the department of agricultural economics. "Many commercial firms whose work has a direct relation to agriculture prefer to employ college graduates whose training has been along agricultural lines. But they want graduates who know something of other industries as well as of agriculture. Consequently, men having training in agricultural economics are much in demand by these firms."

The department is getting calls for more men than it can supply, according to Dr. Grimes. Commercial firms are interested in securing graduates of agricultural economics who wish to go into commercial work. One

company has gone so far as to offer to send a representative here to interview men who are interested. The commercial work offers opportunities in the packing industry, livestock and grain commission exchanges and with grain companies in various parts of the country.

In addition to commercial work, there are many opportunities for advanced work in other institutions. Many of the men now in the department are preparing for the teaching of agriculture or for county agent work, and are finding ready opportunities to go into these lines of work. Still others plan to farm. Graduates in agricultural economics who have gone back to the farm, are finding their agricultural economics training of much value. The training which they have secured has enabled them to follow changing economic conditions, much to their own advantage.

ARE YOU BEAUTIFUL?

Girls to Discuss Question in Vespers Meeting

"Are you beautiful?" is the topic to be discussed in vespers next Tuesday. It is to be a continuation of the talk given last Tuesday by Miss Perry, Y. W. C. A. secretary. There will be four groups of girls who will discuss the question. It is believed that such divisions will bring girls together and increase acquaintance. Leaders of the four discussion groups will be: Florence Barnhisel, Mary Brandley, Josephine Heath, and Ruth Bachelder.

COLLEGE BUYS MORE LAND

Legislature Appropriates Money for Three Tracts

Three additions of land to the college grounds will be made with the appropriation granted by the legislature for that purpose.

The three tracts which comprise in all 21 acres increase the total of land owned by the college at Manhattan to 1419 acres. They are: The Mosley tract west of the athletic field, now used under lease by the departments of botany and entomology in the study of plant diseases and insect pests; three acres owned by M. C. Aye, now under lease as a part of the plant breeding nursery; and the Gish farm north of the poultry plant, which will furnish the needed space for the expansion of that department.

Music Students Give Program

Students of the department of music gave the following program in recital, Monday afternoon: "Impromptu," Op. 90, No. 4 (Schubert), Maxine Brown; "Sonata," No. 1, G major, "Andante," and "Allegro," (Hady), Dorothy Stiles, pianist, and

Mary Jackson, violinist; "Polonaise," Op. 26, No. 1, (Chopin), Frances Allison; "The Answer," (Terry), Madge Riekey; "Come Back to Erin," (Hoch), Lucile Heath; Turkish Rondo from "Song of Mozart," (Mendelssohn), and "Hungarian Dance," No. 5, (Brahms), Fern Cunningham; "Reverie," (Schumann), and "Rigaudon," (MacDowell), Thelma Coffin.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

FOR IT'S SPRING!

Youth In Every Line

Of the Young Men's Spring Suits

The new suits for Spring have PERMANENT Style. Not for a week or month only but as long as the clothes last, the lines and the style are definitely apparent. The group at—

\$29.75
2 pr. Trousers

—have style, but more than that, they have real value. They have value that goes into every hidden seam and stitch; value that only dependable fabrics could possibly give.

Designing and buying clothes for several hundred stores means large savings in costs. This means a lower price for every suit we sell; it means better tailoring; lower prices.

The two-button model pictured is fashioned of excellent, serviceable fabrics, in all the shades and mixtures for Spring.

Other splendid models in Men's and Young Men's Spring Suits at \$24.75 and \$42.75

Dress Trousers — Values

For Young Men

INTRAMURAL BALL STARTS MONDAY

TWENTY-ONE TEAMS IN FOUR LEAGUES

Three Diamonds Used for Intramural Games—All Games Played by Last of April

Intramural baseball games are scheduled to start tomorrow, according to an announcement by E. A. Knoth. Three diamonds will be used in the playing of the games, two in the city park and the varsity diamond.

Twenty-one teams are entered in the intramural games and are divided into four leagues. Divisions A and B are made up of the Pan-Hellenic fraternities, division C is composed of local Greek letter organizations, and D is composed of clubs.

All games are to be played by the last of April. A list of umpires will be posted later by Mr. Knoth.

Intramural managers are requested to use the varsity baseball players and college faculty members as far as possible for officials. Team managers are responsible for selection of officials, which should be made at least a day before the game. Postponed games can be played off by agreement at any time except Sunday, or during the first week in May. The intramural office will furnish a regular score card for each game, which must be turned in at the end of the season.

Cups and individual medals will be given to members of championship teams.

The first game of the season will be played tomorrow in the Independent division between the Aggieville Athletic club and the Aggie Pickups.

Team captains are requested to turn in team scores at the end of each week to the Collegian through the college post office.

The schedule follows, with name, date, time, and diamond number in order:

Division A—Pan-Hellenic

Division A, Pan-Hellenic — Alpha Tau Omega vs. Phi Kappa, March 31, 4:30, two; Sigma Alpha Epsilon, April 11, 1:30, two; Sigma Nu, April 18, 4:30, one; Lambda Chi Alpha, April 28, 4:30, one; Delta Tau Delta, April 25, 1:30, one; Sigma Phi Epsilon, April 16, 4:30, one.

Sigma Phi Epsilon versus: Phi Kappa, April 4, 4:30, two; Sigma Alpha Epsilon, April 1, 4:30, one; Sigma Nu, April 11, 3:00, two; Lambda Chi Alpha, April 11, 3:00, two; Delta Tau Delta, April 28, 4:30, two; Alpha Tau Omega, April 16, 4:30, one.

Delta Tau Delta versus: Phi Kappa, April 15, 4:30, one; Sigma Alpha Epsilon, April 11, 3:00, two; Sigma Nu, April 11, 4:30, two; Lambda Chi Alpha, April 25, 4:30, two; Alpha Tau Omega, April 25, 1:30, one.

Lambda Chi Alpha versus: Phi Kappa, April 24, 4:30, one; Sigma Alpha Epsilon, April 15, 4:30, two; Sigma Nu, April 6, 4:30, two; Delta Tau Delta, April 11, 3:00, two; Sigma Phi Epsilon, April 18, 4:30, two; Alpha Tau Omega, April 28, 4:30, one.

Sigma Nu versus: Phi Kappa, April 29, 4:30, one; Sigma Alpha Epsilon, April 24, 4:30, two; Lambda Chi Alpha, April 24, 4:30, two; Delta Tau Delta, April 1, 4:30, two; Sigma Phi Epsilon, April 11, 3:00, one; Alpha Tau Omega, April 18, 4:30, one.

Sigma Alpha Epsilon versus: Phi Kappa, April 20, 4:30, one; Sigma Nu, April 24, 4:30, two; Lambda Chi Alpha, April 15, 4:30, two; Delta Tau Delta, April 6, 4:30, one; Sigma Phi Epsilon, April 1, 4:30, one; Alpha Tau Omega, April 11, 1:30, two.

Phi Kappa versus: Sigma Alpha Epsilon, April 20, 4:30, one; Sigma Nu, April 29, 4:30, one; Delta Tau Delta, April 15, 4:30, one; Sigma Phi Epsilon, April 4, 4:30, two; Alpha Tau Omega, March 31, 4:30, two; Lambda Chi Alpha, April 24, 4:30, one.

Division B—Pan-Hellenic

Kappa Sigma versus: Phi Delta Theta, April 3, 4:30, two; Acacia, April 12, 4:30, one; Beta Theta Pi, April 9, 4:30, two; Phi Kappa Alpha, April 18, 1:30, one; Phi Sigma Kappa,

April 21, 4:30; April 29, 4:30, two.

Phi Sigma Kappa versus: Phi Delta Theta, April 8, 4:30, two; Acacia, April 4, 1:30, one; Beta Theta Pi, April 12, 4:30, one; Phi Kappa Alpha, April 25, 3:00, two; Kappa Sigma, April 21, 4:30, two; Delta Sigma Phi, April 2, 4:30, one.

Phi Kappa Alpha versus: Phi Delta Theta, April 13, 4:30, one; Acacia, April 9, 4:30, one; Beta Theta Pi, April 4, 1:30, two; Phi Sigma Kappa, April 25, 3:00, two; Kappa Sigma, April 18, 1:30, one; Delta Sigma Phi, April 7, 4:30, one.

Beta Theta Pi versus: Phi Delta Theta, April 17, 4:30, two; Acacia, April 25, 4:30, one; Phi Sigma Kappa, April 4, 1:30, two; Phi Sigma Kappa, April 12, 4:30, one; Kappa Sigma, April 9, 4:30, two; Delta Sigma Phi, April 21, 4:30, one.

Acacia versus: Phi Delta Theta, April 22, 4:30, one; Beta Theta Pi, April 25, 4:30, one; Phi Kappa Alpha, April 9, 4:30, one; Phi Sigma Kappa, April 4, 1:30, one; Kappa Sigma, April 12, 4:30, two; Delta Sigma Phi, April 16, 4:30, two.

Advertising in College Papers

—is like radio broadcasting which is delivered to an unseen audience, and the "broadcaster" knows nothing of the message registration unless responses are sent in.

In December the John Hancock ran in this paper an advertisement headed "Do College Students Read Advertisements?" Here are some of the responses:

"Your advertisement in the Dartmouth was an unusual one, and I want to express my approval."

"If there were more ads like

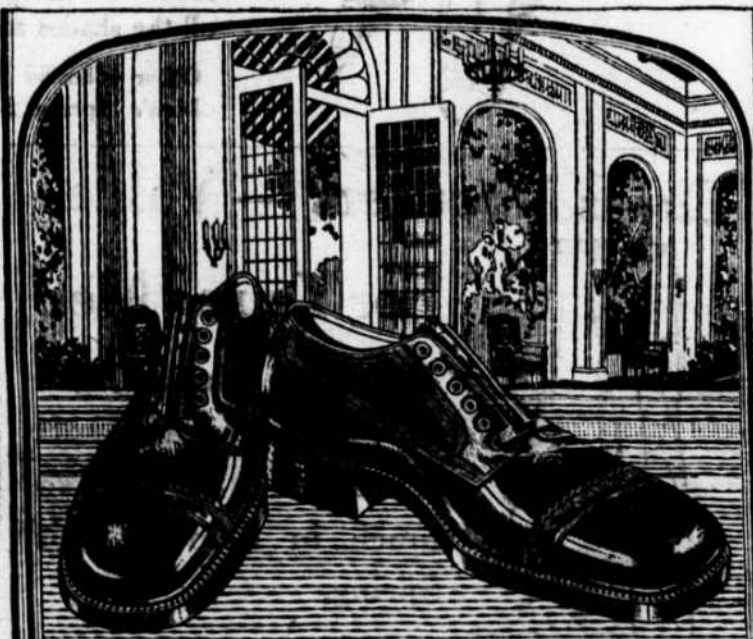

the one you ran in the Princetonian this morning it would be a pleasure to read a paper of nothing but ads."

"The students here in Harvard not only read the advertisements but also patronize the advertisers."

"The advertisement in the Illinois is written from the college students' point of view. I believe in insurance because of the sound economic principles which underlie it. There remains then only the kind of policy and the company. What have you got?"

BASEBALL TEAM SHOWS UP WELL

NEW MEN PROMISE MUCH DEVELOPMENT

Greer, Ames Letter Man, One of Best Valley Pitchers, Is Eligible for Team

The prospects for a good baseball team are becoming more apparent every day as is evidenced by the squad in their workouts each afternoon in the city park. At first Coach Corsaut was very doubtful as to what showing the Aggies would make in the valley, there being only four letter men eligible, but as last year's freshmen have presented some exceptional material the outlook at present is very bright.

Another big asset to the Aggie squad is the returning of Joe Greer, a letter man from Ames who at first was considered ineligible. He is considered one of the best pitchers in the valley, besides being one of the best hitters on the Aggie squad. Although he has been out for practice only a short time he is showing excellent form and should be a mainstay on the pitching staff.

Only One Letter Man Out for Pitcher

Bernard Conroy is the only letter man on the pitching staff and consequently he is expected to play in the majority of the earlier games of the season, while Corsaut is developing some new men. Conroy was the Aggies' pitching ace last year, and is a two letter man.

Besides these two pitchers, Corsaut has Leslie Marsh, a junior who has exhibited some real speed but as yet has not showed sufficient control to make him a leading candidate. "Lefty" Byers the only southpaw on the pitching squad is showing some real form with his curve balls and together with his peculiar delivery, which confuses the batter, shows that he should be a probable starter in several games. Logan, Hayes, Caraway, and Youngman are the remaining candidates for pitchers but as this is their first year on the Aggie squad it is doubtful whether they can be welded into shape before the last part of the season.

Catching Position Is Filled

The catching position has been filled by "Bing" Miller, a sophomore. Miller is one of the best natural catchers in school, and his consistent bullet throw to second will no doubt keep many a runner from stealing second. Hayley is the only substitute for the catching position.

For first base "Judge" Bryan is the only candidate and at present he is showing form equal to Swartz, last year's first baseman, and he is a much better hitter. Second base is still doubtful, with Emil von Riesen and "Red" Lutz the two outstanding players. Captain Karns is an outstanding player on the squad, who may be counted on to hold down the shortstop position and land many a safe blow throughout the season. Third base is now being played by Guy Huey, a senior who had experience on the squad last year. He is one of the fastest infielders on the squad and a long range hitter.

Outfield Positions Still Open

The outfield positions are still open, but Lyle Munn is the leading candidate for left field and will no doubt land the position. Munn won his letter last year playing as substitute outfielder. Rex Huey, L. H. Smith, E. Cunningham and Bernard Harter are the four remaining outfielders who are showing some real ability at catching flies. Huey and Smith are the best hitters and are therefore doped to play right and center fields, respectively.

The Aggies' first game of the season is with St. Marys, April 6. The first scheduled conference game is April 17, with Missouri, and is to be played here.

NO. 52

START CAMPUS GARDEN PLANS

TO BUILD LAKE NORTH OF GREENHOUSES

New, Illuminated Columns at Entrances—And Formal Garden East of President's Home

Extensive plans are in progress for campus beautification and improvement, according to A. H. Helder, professor of landscape gardening.

Work has already started in several parts of the campus. The stone wall along the eastern border of the campus is being torn down and a new and more architectural wall erected. The fact that the old wall was not parallel with Manhattan avenue necessitated building the new one. At the three east entrances, on Bluemont, Vattier, and Bertrand streets, large columns, six by eight feet, will be placed. The columns also will serve as bases for cluster of electric lights to illuminate the entrances. Intermediate columns will be placed along the length of the wall.

Lake Will Be Gourd Shaped
The creek which runs through the northeast part of the campus is to be improved and a series of small pools fed by springs are to extend along its length.

An artificial lake, covering one and one-half acres, is to be built a short distance north of the greenhouses. The lake is to be gourd-shaped, with the narrow portion to the south. The ground around the lake is to be landscaped. The plot at the southern end of the lake is to be devoted to aquatic gardening, and is to be used as a laboratory for landscape gardening students. A work shop and implement shed for the horticultural department is proposed for the space northeast of the greenhouses.

The nursery stock which is planted east of the horticulture building eventually will be removed and this section converted into a vegetable garden. East of this plot is a tract of land on which grass experiments are to be carried out. South and east experiments in foreign plants are to be carried out by the agronomy department for the United States Department of Agriculture.

Formal Garden Under Construction

A formal garden now is under construction just east of the president's house. All of the space from the president's garden to Vattier street is to be a park. It is recommended that no more buildings be located east of the cafeteria. A rock garden has been completed north of the horticulture building and planting now is in progress. The new greenhouse, for which the state legislature made an appropriation last month, will be north of the present one.

The plaza in front of the engineering building now is being landscaped. Trees and shrubs will be planted generally over the campus and it is proposed that several of the roads and walks be improved and widened. It is the opinion of Professor Helder that the work now in progress will begin to show results in a more beautiful campus at least by the end of two years.

Another Student Forum Thursday

Although it was announced that the last student forum had been held it has been decided to have another Thursday, April 2, under the auspices of the Cosmopolitan club. Short talks will be given by three members of the club. All students interested are urged to attend this last forum of the year.

EXPERIENCE IS NECESSARY FOR EFFECTIVE WRITING

Professor Burr Advises Young Writers to See the World

A writer must have a background of general experience before he can write effectively, Walter Burr, extempore printer, and professor in the department of economics said, in his talk before the journalism lecture Thursday afternoon.

"Many people," said Professor Burr, "think that when a writer comes into prominence his success has been suddenly acquired, while, as a matter of fact, it has been the result of hard work and countless experiences."

"Jack London did not receive his inspiration for 'The Call of the Wild' from the streets of Oakland. He got it from his experiences and hardships in the Klondike gold rush." However, Professor Burr advised embry writers not to overdo the personal experience method of gaining color as Jack London did.

From his own experience Professor Burr warned the embry writer not to depend on his writing ability alone to earn his living while he is

working up the ladder to success. "Get a job," he said. "One which, if possible, is in the line of writing, and make your living by that while you develop your writing powers and gain experience. Besides the income element, a position with a good concern usually gains some attention from editors and publishers to whom the writer wishes to sell his work."

"Persistence is the greatest need of the beginning journalist," Professor Burr said. "Keep at it and don't let the editor's refusal stop you. When you have a task to do don't wait until you get into the notion. Begin it."

ARRANGEMENTS ARE BEING MADE FOR LABORATORY

All Testing Under New Pure Seed Law to Be Done at K. S. A. C.

A committee from the state board of agriculture was here last week making arrangements with Dean L. E. Call and other members of the faculty for the germination and analytical work to be done in the administration of the new pure seed law. They also discussed transferring the state dairy commission and the livestock registry board to Topeka.

The new seed law, passed by the last legislature, will become effective July 1. It carries an appropriation of \$10,000 for the first year and \$5,000 for the second year. This money will be used in equipping a seed laboratory and in the administration of the work. While the laboratory will be at the college, administration of the law will be under the state board of agriculture.

According to an announcement by Dean Call, Prof. J. W. Zahnley of the agronomy department probably will direct the work of the laboratory. Mrs. Elizabeth Harling will be chief analyst.

In speaking of the law Dean Call says that it is expected that the seed law will do much to help improve the farm seed sold in Kansas.

"Kansas is surrounded by states that for many years have had pure seed laws. Consequently Kansas has been the dumping ground for inferior seed that it was difficult to sell in the states that had official seed laws. Proper enforcement of the new seed law will do much to stop this practice."

No, He Hasn't Come Yet But I Expect Him Any Moment

Scene: Doctor Siever's office.
Time: Any day.
Character: One nurse, several students.

"Fill out a card, please. Yes, this is March 30. My, your jaw looks swollen! Have you had the mumps? You say your wisdom tooth is bothering you? Looks like mumps to me. You'd better see the doctor. No, he hasn't come in yet—but I'm expecting him any moment."

"Has your throat been sore? Yes, you may go back to class, then. No, the doctor hasn't come in yet—but I'm expecting him any moment. You'd better see him I think. Just take that chair over there."

"How did you sprain your thumb? No, it isn't out of place but the Doctor had better see it. Just wait over there. Are you waiting to see Doctor Little? Oh, yes, we have plenty of sulfur soap. The itch certainly is hard to get rid of, isn't it? But I'm sure that if you follow this treatment faithfully, you'll be cured eventually."

"No, the Doctor hasn't come in yet—but I'm expecting him any moment. Yes, we can take an X-ray of your sprained ankle, but could you come up tomorrow to have it taken? We're out of plates just now. Good morning, Mr. Gates, how's that boil this morning? Hm-m-m, looks pretty bad. Better see Doctor Siever. No, he hasn't come in yet—but I'm expecting him any moment. No more chairs?—well, it won't be long until the Doctor arrives. Yes, write it down just as you would tell it to the doctor. No, he isn't here yet—but I'm expect—Oh, there's the Doctor now. Just go right in."

MEMORIAL STADIUM DRIVE ON

Finished Structure Is Objective of Greatest Aggie Game

Chancellor Lindley of the University of Kansas recently said, "A college is only as great as is the idealism and devotion of its students, faculty, and alumni. Its devotion comes through deep affection and affection attains its height only through sacrificial giving."

The greatest game in the history of the Kansas State Agricultural college is being played, a game in which a finished stadium figures as the

objective. This stadium must be completed and completion can be accomplished only through the aid of the Kansas Aggies.

Three years ago, April 27, 1922, the first drive to erect a memorial stadium to our boys in France was launched. We had nothing material on which to base our ideas; just a dream of what a stadium could be and mean to our college. The students at this time raised \$77,000. Today our dreams are realized. They have taken form and a stadium of which we are justly proud has been started. But, this stadium is only partially finished. The students are being asked for financial aid in order to complete it.

It would seem as if everyone would give even more willingly now when they actually can see the stadium and have come to know what it means to us, than three years ago when it was only a dream, a possibility.

This is the only time in the history of our school, which is sixty-four years old, that the officials of the school have called on students and alumni to contribute to a K. S. A. C. project, while in many other schools such requests are common.

In view of this fact and because the Aggies always finish what they start, every Aggie must do his share toward finishing the erection of the K. S. A. C. Memorial Stadium.

Davis's New Book Off Press

Prof. H. W. Davis's new writing text, "Self-Improvement in English," is just off the press.

"The text," said a reviewer, "is written for the average high school student whose knowledge of English grammar should include something more fundamental than the difference between a loose and periodic sentence, for the student who would be able to say 'whom' without feeling self-conscious, for the student who would use correct English seven days a week."

Y. W. RETREAT WAS SUCCESS

Winifred Wygal, National Secretary, Led Discussions

The Y. W. C. A. retreat was held Saturday and Sunday, with an average attendance of 30 girls. A luncheon was served in the home economics rest room, during which a discussion was conducted by Evelyn Colburn, ex-president of the Y. W. C. A. Saturday evening an Estes Park supper was enjoyed at the quarry. A fellowship meeting around the fireplace in the home economics rest room concluded the day's program.

Early Sunday morning services were held in Lovers' Lane. Two meetings were held Sunday, one in the forenoon and one in the afternoon. A dinner was served in the dining room of the home economics building and members of the advisory board were guests. Miss Winifred Wygal, national student secretary of New York City, led the discussions. The meeting was closed by Katherine Welker, president of the Y. W. C. A. for the coming year.

The purpose of the retreat was to discuss the plan of life and the relation of the Y. W. C. A. to girls on the campus.

Faculty Relieved from Risk

Faculty members will not be called upon to risk their lives this year by umpiring intramural baseball games, according to E. A. Knoth. In choosing umpires for the games, anyone who is agreed upon by both sides is satisfactory to the athletic department. However, it is supposed that a varsity man will be obtained whenever possible, Mr. Knoth said.

HOPE TO "CLEAN UP" IN RELAYS

AGGIE TRACK TEAM TRAINS FOR DRAKE-KANSAS MEETS

With Two Valley Records Tucked Away, Relay Teams Hope to Shatter More

Two big relay meets are next on the program for the Kansas Aggie track team, which came through the valley indoor meet with two new records and a fourth standing to its credit. The Kansas relays at Lawrence April 18, and the Drake meet at Des Moines April 24 and 25 both will find almost full teams of Aggie men entered, though entries in the Drake meet will depend in large measure on the teams showings in the Kansas meet.

To Enter Four Relays

Coach Bachman probably will enter teams in four relays at the Kansas meet, and select two or three to run at final tryouts the week before the meet.

The Aggie four mile team is almost certain to run, as it finished second in the Illinois indoor meet and has as members Kimport and Balzer, both holders of valley distance records. Though the Aggie mile relay team was third in the valley meet, it is capable of making faster time under greater competition. In the valley meet the Aggies were matched against Missouri, Kansas met Nebraska, and Oklahoma raced Drake. Winners for meet points were determined on a basis of time, and since Kansas and Nebraska ran the closest race it was the fastest.

A Speedy Medley Team

Axtell, Coleman, Russell, von Risen, and others should be able to make up a speedy half mile team. The medley will not be much slower than that of last year, which broke the existing world's record in finishing second, while Texas, winner of first, set a new record. The Texas team is again entered, but has a much slower quartet than that of last year. Davis in the 220, Knouse or Brockway in the quarter, Coleman or Kimport in the half, and Balzer or Kimport in the mile would be the probable composition of such a team.

Aggie men also will enter the individual events "in force." John Gartner, winner of third in the discus last year, has adopted a new system of training and hopes to go up a notch this season. Lyle Munn and Brunkau probably will enter the shot.

Carter to Vault

C. P. Foote, Manhattan, stands a chance to represent the Aggies in the 100 or 220 yard dashes, though Davis may enter both races if he does not run as a part of the medley relay team. Phil Carter, Bradford, cleared 12 feet in the K. C. A. C. indoor and has a good chance to place high in the outdoor if he can add a couple of inches to his indoor mark.

Norman Roberts, Manhattan, probably will be the only hurdler entered from here. H. D. Sappenfeld may enter the broad jump, though it is somewhat doubtful, as competition in that event is especially keen.

The great strength of the Aggie track team lies in the feature relays, however, and in those events it is entirely possible that the Wildcats may cause a sensation in at least two races.

HAVE SKIRMISH WITH INDIANS

Entire Football Squad to St. Marys for Practice Saturday

The entire Aggie football squad drove to St. Marys Saturday afternoon and held a practice skirmish with the Haskell Indians. The purpose of the practice was to give the coaches a chance to see the men under fire, find out the weak points of the team and give the coaches a chance to tell the team where certain plays were to be used.

The Indians had a line which averaged close to 200 pounds and a backfield that was nearly as heavy. They were able to gain frequently on the Aggies but Bachman's comparatively light backfield tore through for some long gains.

HOLY WEEK STARTS MONDAY

Services to Be Held Daily in Home Economics Rest Room

Holy week services will begin Monday, April 6, and will be held in the home economics rest room from 12:25 to 12:55 o'clock every noon. The program to be given is: Monday, April 6—"Sin." Rev. O. E. Allison of the First Methodist church of Manhattan; Y. M. C. A. quartet; Lois Wildy, presiding.

Tuesday, April 7—"Suffering." Rev. W. A. Elliott of the First Baptist church of Ottawa; violin solo, "Londonderry Air," by Elizabeth

Van Ness; Paul Puetze, presiding. Wednesday, April 8—"Love of God." Rev. W. A. Elliott; solo, "The King of Love," P. P. Brainard; Beatrice Gates, presiding.

Thursday, April 9—"He Is Our Peace." Rev. W. A. Elliott; Girls' Double quartette, "The Lord Is My Shepherd;" Rev. Walter Halbert, presiding.

Reverend Elliott is conducting the weekly pre-Easter services at the Baptist church in Manhattan now. He is well known and liked by students. Reverend Elliott is manager of the Boulder Chautauqua during the summer.

SOPHOMORE CLASS WINS IN WOMAN'S BASKETBALL

Team Goes Through Tourney with Six Straight Victories—Is Second Consecutive Title

Six games won out of six games played is the record of the sophomore girls' basketball team in the recent interclass tournament. The freshman team was second with four won and two lost.

Every game of the champion team was won by a large margin, the closest being perhaps the last one with the freshmen. The freshmen had a two point lead at the half but in the last period the sophomores outplayed their opponents and the game ended 27-17.

The class of '27 won the tournament last year also so its numerals will be engraved twice consecutively on the large cup.

The members of the winning team were: forwards—Clarella Odell, Manhattan; Merle Nelson, Jamestown; and Ruth Hubbard, Barnes; centers—Thelma Brown, Manhattan; and Elsie Bergstrom, Green; side centers—Kathryn Kimble, Miltonvale; Gladys Hawkins, Marion; and Anna Rehberg, Bennington; guards—Inez Jones, Kansas City; Marie Farmer, Kansas City; and Dorothy Zeller, Manhattan.

Hulbert Will Address Science Club

An illustrated lecture, "The Oregon Trail," is the program for the meeting of the Science club, Thursday, April 2, in C26, at 7:30 p. m. Dr. Archer B. Hulbert of Colorado college, Colorado Springs, Col., will give the address, using slides in illustrating.

Noted Opera Star Gives Concert for Sing Sing Prisoners

Not long ago Julia Clausen, the Metropolitan mezzo-soprano who is coming to Manhattan for the spring festival week program, appeared at the gate of Sing Sing prison. With her was her friend and accompanist, Kathryn Kerin. She came to fulfill a promise to sing for the unfortunate souls within the heavy gray walls.

She was greeted by the director of entertainments of the Mutual Welfare league, who, accompanied by two keepers, escorted her through the many gates and narrow corridors one must pass in order to reach the chapel, where the concert was to be given.

Mme. Clausen's program included the "Gavotte" from "Mignon" and "Mon Coeur" from "Samson et Delilah." Among her English songs were Sprose's "There's a Lark in My Heart," Nevin's "Oh! That We Two were Maying," and "Mother Machree."

There was a strange atmosphere over this concert under the shadows of the prison walls. The audience was very appreciative. As the program went on many a listener was seen dropping his head, weeping—overcome by an emotion that would not be restrained.

The day after her concert at Sing Sing, Mme. Clausen visited the prison, its hospital, library, bakery, commissary, school and cells, death house, and electric chair.

She was seen talking to many of the prisoners—there were words of good cheer, of kindness and of gratitude exchanged, and there were moments seemingly when both those lodged behind the prison walls and the visitors were moved.

A sign over the entrance to the Death house says "SILENCE." However, the sombre atmosphere of this place of sadness has already cast its spell over the visitors entering the chamber—one is absorbed in a melancholy reflection standing at this threshold—the last, for those unfortunate who never are to return to life.

Prof. Morris Evans discussed his thesis which deals with "Phases of the Poultry Industry in Kansas," at the graduate seminar in agricultural economics on Thursday, March 26. The discussions were led by R. W. Russell, and C. G. Iles, students in the department.

AGGIES RECEIVE DEBATE DECISION

GIRL DEBATERS WIN FROM MEN'S TEAM OF OREGON

First Debate on Schedule of Visiting Team Making Six Weeks' Trip Covering 31 States

The K. S. A. C. affirmative debate team composed of Helen Correll and Charlotte Swanson received the decision over the Oregon Agricultural college in a debate held in the auditorium Friday morning. The question for debate was, Resolved: That congress be given power to override by two-thirds vote decisions of the supreme court declaring acts of congress unconstitutional. Frank DeSpain and Robert M. Kerr upheld the negative for Oregon. President F. D. Farrell presided at the debate. Prof. Martin Holcombe of Bethany college, Lindsborg, was the judge.

First Debate on Long Trip

This was the first debate on the schedule of the Oregon team which is making a 10,000 mile debating trip covering 31 states. The debaters, Blair Stewart, Frank DeSpain, and Robert M. Kerr are accompanied by their coach, Earl E. Wells, and publicity agent, Lindsey H. Spright. From here they go to Chicago where they will meet Northwestern university Monday.

On the trip they will meet Purdue, Ohio State university, Penn State, Maine, Massachusetts Tech, Syracuse university, New York university, and Bates college, Lewiston, Maine, which holds the world's championship.

Seattle Will Be Last

The eastern trip ends at Syracuse and from there the Oregon debaters will go to Seattle where they meet the University of Washington in their last debate. The entire trip will take nearly six weeks.

The Oregon debaters were guests at the Chamber of Commerce Smoker which was held Friday night at Harrison's hall.

BRANDING IRONS ARE READY

Electrical Equipment Obtained for Annual Grid

Special electrically heated branding irons have arrived in Manhattan to be used at the third annual grid-iron banquet to be given on Thursday evening, April 23, at the college cafeteria.

In former years there has been some delay in the rapid fire and torrid cowboy expression because of the necessity of changing the cooled irons, for red hot ones. This year the delay will be unnecessary and the cowboys will do their stuff with a line of chatter that will give the guests a big kick.

There will be a dramatic inaugural stunt, besides some exciting new incident to be presented every minute. Invitations are being mailed out to the most prominent faculty members of the college and business men of Manhattan and Aggieville. A limited number of students are on the list. Also Governor Paulsen and a good many politicians and newspaper men from over the state will be invited.

COLLEGE SHIPS CERTIFIED SWEET POTATO SEED

Carload Sent This Week to Garden City

A carload of certified sweet potato seed, the first ever shipped in the state of Kansas, was sent this week from Manhattan to Garden City by Mr. A. W. Travis. Certified seed is seed inspected in the field, and in the bin by a duly authorized inspector of the Kansas Entomological Commission and found to be free from sweet potato weevil, black rot, stem rot, mosaic or other injurious insect pests and plant diseases.

For the past four years, extension specialists have been doing considerable work to improve the strains of potato seed and to control plant disease, and within the past year some of the seed in the state has approached the standard set. The carload of certified sweet potato seed being shipped this week is to be distributed among farmers who are attempting to win back former yields which were lost through plant diseases.

"Vocational Agriculture Under the Smith-Hughes Law," and "Extension Work in Agriculture," were the two subjects discussed at the agricultural economics seminar on Thursday, March 26. The discussions were led by R. W. Russell, and C. G. Iles, students in the department.

E. A. Stokdyk, extension specialist in marketing, spent several days last week in Kansas City.

TUESDAY, MARCH 31, 1925

CLASSES FOR FLUNKERS

The Colorado Agricultural college has instituted the plan of holding afternoon study classes for students who make failing grades in more than 50 per cent of their work.

The suggestion has been made that such a plan would be very valuable to quite a number of the students at K. S. A. C. But before coming to any decision on the proposition it is advisable to consider one important aspect of the question.

One limiting factor in the successful operation of such a plan is the attitude taken by the flunkers. If such persons have been sincere about their work, and have failed because of individual inability to learn a certain subject adequately in the allotted time, afternoon study classes conducted in the proper manner would be crowded. But if flunking a subject is considered as an unimportant event of a day, afternoon study classes would be a waste of the time and energy of the instructors.

Judging from conversational contact with quite a large group of students, and with no definite statistics or information available, we feel that of the number who fail to pass half of their work 50 per cent belong to each of the above named classes.

However, as such a conclusion is merely a guess, it might be well, if administrative circumstances permit, to emulate the Colorado Aggies and establish study periods for flunkers. The most modern educational methods recommend additional aid for students who are unable to accomplish passing work. The afternoon study plan is an excellent method of carrying out this recommended policy with the least financial and organizational expenditures.

If investigation shows that there are enough serious minded students who would welcome the opportunity of supervised study, as there undoubtedly are, the adoption of a plan similar to that of the Colorado Aggies would be a forward step in more thorough education.

The editor recently hit hard at the great problem which he termed "wrestling." However, there was no provision or suggestion made as to the control of the evil. And the cure, as it were, will be less touching than the disease.

Of course, the best method of control would be the elimination of the men or the eradication of the women from the school, but as the school is

STUDENTS A SPECIALTY

School Work

Becomes more strenuous as one advances.

A great excess burden often falls upon the eyes. They are the AVENUE OF EDUCATION, and often determine the extent to which it may be acquired.

Don't wreck your eyes, your nerves, or your health, or give up your studies if we can help you with glasses.

J. A. HOLLIS

Marshall Bldg.

fairly well established for its present condition the method might prove impractical. And it would scarcely be good policy to rebuild the school.

It must be admitted, however, that the eradication of the women would help. That would help any place.

In controlling the sport as it is carried on in the cars it might be good to prohibit the bringing of any car, including second hand Fords, to school unless one had a good excuse. Of course everyone could have a good excuse.

That being the case the use of autos after the hour of eight might be prohibited. It might also be enforced. Then too, the authorities might set a definite limit on the distance one could ride from town, say three yards, for instance.

This plan might require some deep thinking on the part of the school authorities and therefore could not be a success.

In preventing the "love affairs" from taking place along the gutters, lights might be placed at 30 foot intervals on every street in town. This plan would be okeh until the participants grew absolutely shameless. Or in other words, for about a week.

The prevention of the struggles from taking place in the darkened corners of sorority and rooming houses is simple indeed. Just tear down all the present houses and build the new ones with round rooms.

This, of course, eliminates the corners and is just as good as doing away with the wrestling.

Or, if this is not done then merely have the sorority houses acquire about four more house mothers, provide them with roller skates, and pave the floors with cement. This would enable them to move quickly and with facility about the house, thus keeping an eye on all the corners. They also could be provided with flashlights.

Faculty members would be glad to serve in that capacity on night shifts.

As a last prohibitive step we would suggest making this horrible crime punishable by death. After being killed a few times the student would be sure to stop—perhaps.

Oh, there are numberless ways to exterminate this terrible moral destroying crime. All one needs is the time, the inclination, the authority, the punch, the size, the backing, the nerve, and of course, the crime.

Judge for Yourself

Mr. John Gartner,
Editor-in-Chief,
Kansas State Collegian.

Dear Mr. Gartner:

Allow me to congratulate you for your editorial on "Indoor wrestling." Having been considerably embarrassed at times by coming unexpectedly upon a bunch of parlor petters

who blinked, and coughed reproachfully, in a sudden glare of electric light, I am glad to see some one take a stand against this nuisance.

However, I do not think the condition is quite as general as you would have one believe. There is a certain 5 or 10 per cent of the "plastic age" which must furnish copy for such depictees of college youth as Percy Marks and Dorothy Speare, or the oldest "old grads" and the people who don't go in for higher education and all that sort of thing will get the idea that the modern college is a place where students spend most of their time studying history and economics and working chemistry equations.

We must preserve the popular traditions anent the gown for the edification of the town, and we need not go far afield to find some one admirably fitted for the task. When one sees a youthful exquisite trying to look sophisticated in a Sing Sing sweater, kid brother's knee trousers, cross-word-puzzle half hose, and pussywillow tie—well, well, who wouldn't pet it?

The "younger and more rising generation," having had more freedom within the last few years than it knows just what to do with, undoubtedly has become a little careless, and lax in the observance of conventions that our forbears held most dear, but we should not judge the many by the conduct of the few. These few should be reminded that unlighted receiving rooms, and porches, automobiles parked two or three miles out in the country, with the lights out, and "blanket" hikes, furnish food for thought for others than the editors of humor publications.

Very truly yours,
Senior Student.

On Other Hills

Oregon university dormitories have arranged a special diet table for overweight girls.

With an enrolment of 40,000 including the extension students, the University of California is the largest educational institution in the world.

Because of scholastic deficiencies, 257 students were dropped from Cornell university at the end of last semester. Most of these were dropped from the engineering school. The

average number dropped in the last five years at the end of the term is 255.

Women law students at the University of Iowa maintain higher scholastic averages than the men.

Of the total number of 81 cars owned by the students of the University of Colorado, 50 are Fords.

Five Varsity boatloads of crewmen work out every day at the University of California in spite of bad weather. The rain has been so furious that it sometimes is difficult for the coach to see the oarsmen.

Stanford university has a flock of sheep on the campus that is a money making proposition. The sheep keep the lawn trimmed, and yield about \$360 worth of wool at each semi-annual shearing.

The relay team of Pennsylvania university has entered the international track meet to be held in London during the second week of April.

The University of Chicago is using Victrola records as an aid in teaching French.

Northwestern university has invited Paavo Nurmi, the phantom Finn, to participate in the thirteenth

annual scholastic track and swimming meet.

Students are fined \$5 as a penalty for attending dances at the University of Oxford.

Jacobs Easter candy. The College Drug Store.

Kansas plans to have a speedy four mile relay team in the relays at Lawrence April 18. Iowa university, the team which beat the Aggies out of first at the Illinois relays, will be entered. Quite an incentive for speed on the part of the Aggie relay team right there.

—and even electrical engineers
are needed in the
electrical industry

Nowadays the electrical industry needs so many types of men that it may be well to point out it still needs engineers, good engineers—but with a difference.

Vision, initiative, technical skill are needed qualities, now as always. But here's another. Can you work on the team? Will you be able to back up the other members in the manufacturing and commercial ends of the business?

The engineer today should be no recluse in a laboratory. He can make his work more effective once he sees how it relates to the work of men around him.

In your studies and college activities, you have the chance now to develop this point of view. In the broader activities of the electrical industry, you may have the chance later on to carry it further.

Society Happenings

Dean Mary P. Van Zile was a dinner guest at the Gamma Phi Delta house Sunday.

Erma and Walter Hinz were called to their home at Abilene Sunday by the death of their grandmother.

Miss Myrtle Zener, secretary to Dean Willard, has returned to work after a short illness.

Mr. and Mrs. Eric Englund entertained with a dinner dance, Saturday evening on the second floor of the cafeteria. A two course buffet supper was served. The rooms were decorated with spring flowers. Sweet peas and hyacinths decorated the tables and tulips, jonquills and cherry blossoms were used in the other rooms. Guests were: Misses Pearl Ruby, Florence Clarke, Alene Hinn, Katherine Hudson, Martha Kramer, Mina Bates, Elma Stewart, Jean Dobbs, Izil Polson, Mary Polson, Grace Hesse, Ruth Hartman, Emily Bennett, Helen Brown, Dorothy Cashen, and Dean Margaret Justin; Mr. and Mrs. Roger Smith, Mr. and Mrs. R. R. Price and Messrs. Paul Weigel, M. C. Sewell, W. H. Riddell, W. P. Balch, L. C. Williams, R. Moore, J. F. Bullard, A. J. Schoth, Morse Salisbury, R. W. Conover, H. K. Lamont, R. M. Kerchner, R. H. Lush, and E. G. McDonald.

Prof. and Mrs. H. W. Davis, Prof. and Mrs. H. W. Cave, and Prof. R. W. Conover entertained Sunday evening at the Davis home with a buffet supper for the members of Sigma Phi Epsilon.

Lowell Grady of K. U. was a guest at the Alpha Tau Omega house Saturday and Sunday.

Phi Lambda Theta entertained with its spring party Saturday evening at Elks' hall. The color scheme was red and blue, the fraternity colors. Art Dodge's orchestra furnished the music. Out of town guests were: Dorothy Barnes, Topeka; Gretchen Gay, Topeka; Louise Crum, Wichita; Dolores Poland, Topeka; H. W. Retter, Topeka; C. V. Robinson, Topeka; E. D. Covert, Topeka; Henry Bergen, Topeka; John L. Willman, Kane, Pa.; and Mr. and Mrs. H. H. Krehbiel, Junction City; Mrs. Louise Stahl, Prof. and Mrs. A. J. Mack, Prof. and Mrs. E. C. Converse, and Dr. and Mrs. G. H. Ross chaperoned the party.

Prof. and Mrs. J. B. Fitch entertained at dinner Saturday evening for members of the dairy department. President and Mrs. F. D. Farrell, and Dean and Mrs. L. E. Call.

Miss Helen Hennen, who was assistant professor of violin at the college two years ago, arrived Saturday for a short visit with friends at Manhattan. After leaving K. S. A. C. Miss Hennen studied a year at Northwestern university. At present she

is supervisor of instruction of orchestra of all the elementary schools of Cleveland, O. Miss Hennen came west to attend the Music convention at Kansas City.

Miss Grace Hesse, Misses Izil and Mary Polson, Miss Emily Bennett and Miss Elsie Smith were hostesses at a tea given Sunday evening in honor of Miss Helen Hennen, formerly a member of the music faculty here who is visiting here for a few days. The guests were Dean and Mrs. J. T. Willard, Prof. and Mrs. E. V. Floyd, and Prof. and Mrs. H. P. Wheeler.

Mr. and Mrs. C. V. Williams, and Mr. and Mrs. F. E. Floyd were guests at the practice house Thursday evening.

The Cosmopolitan Club met last Thursday. The program included two numbers by the Gospel Team Quartette; "Some Impressions of America" by Zaven Surmelian and G. V. Wazlawar; and "My Impressions of Foreign Students" by Gladys Sanford.

Kappa Sigma entertained with a house dance Saturday evening. Proctor's orchestra furnished the music.

Dinner guests at the Sigma Nu house Sunday were Prof. and Mrs. H. H. Haymaker, and Mr. and Mrs. H. W. Marston.

Miss Ruth Hartman is spending the week in Kansas City attending the national convention of supervisors of music.

Miss Melvena Burris spent the week end at the Delta Sigma house, Lawrence.

Alpha Delta Pi announces the pledging of Fairy Hill, Coffeyville.

Guests at the Kappa Kappa Gamma house last week-end included Curtiss Watts, and Virginia Stott, Winfield; Polly Hedges, Clay Center; and Robina Manley, Junction City.

Freda Childress and Mildred Troutfetter spent the week-end in Topeka.

PFUETZE AND SHIDELER UP FOR Y. M. C. A. PRESIDENCY

Officers for Next Year to Be Elected Tomorrow

Officers for the college Y. M. C. A. for the remainder of this year and all of next year will be elected tomorrow. Ballots will be mailed to every member of the organization. Votes may be cast at the window opposite the post office.

Following is a list of the candidates: President, Paul Pfuetze and Fred Shideler; vice-president, Paul Axtell and Hale Brown; secretary, James Blackledge and Paul Skinner; board members, Donald Springer, Alton Walker, Wayne Rogler, Frank Morrison, Roy Bainer, John Price, F.

E. Weibrecht, Harry McGee, Eric Tebow, Joe Haines, and John Moyer. Five board members will be elected.

C. W. Corsaut is a candidate to succeed Ira Pratt, and Dr. J. H. Burt a candidate to succeed himself, as members of the faculty board.

Howard T. Hill was chairman of the nominating committee.

EASTER

Expressing the Spirit of Spring

For a woman, the first harbinger of Spring is not the dusky violet nor the feathered songster—but the new Spring Dress! She feels an urge to blossom forth, too, in new and beautiful raiment. This Store is now receiving its new Spring dresses, direct from New York.

Colors!
New Dresses Are Gay

First and foremost, this is a season of gayety. Colors run riot with such fascinating names as: Goblin Blue, Venetian Rose, Titian Sand, and Brick Dust. Any of the red shades are particularly in favor.

Dresses are elaborate rather than plain. Ruffles, beads, shirring, embroidery, plaits, tucks, and throws are featured. If you have wanted something different in dresses, you will find it in these Spring Silks!

Rich, lovely Satin Canton and Flat Crepe are the materials.

174 ENTERED IN TENNIS SINGLES

54 TEAMS WILL PLAY IN INTRAMURAL DOUBLES

Increase Over Last Year's Singles Entries Is 100 Per Cent—Games Start Saturday

Intramural tennis matches are scheduled to start next Saturday, according to E. A. Knoth of the physical education department.

Up to Monday morning 174 entries had been made in the singles and 54 teams had been entered in the doubles. Last year there were 77 entries in the singles and 49 teams entered in the doubles, showing an increase of more than 100 per cent in the singles over last year.

The games will be played on the college courts west of the Gym. Entries for the tourney closed Monday, March 30.

These are the entries in the singles matches by organizations:

Sigma Phi Sigma: Allard, Platt, Obrien, Kriuse, Wright, Cassel, Callis, Bock, Gelmore, Sewick, Pargett, Cooksey, Salbe.

Sigma Phi Epsilon: Addams, Erick, Michelstetter, Levitt, Smith, Stout, Eldred, Wilson, Boyd, Hopkins, Clark.

Beta Theta Pi: Evans, Gilman, Rowland, Randall, Stark.

Aggieville Athletic Club: Sproul, Hays, Dunlap.

Alpha Sigma Psi: Johnson, Blackburn, Dade, Magaw, Kocher, Larson, Pi Kappa Alpha: R. Huey, G. Huey, Omega Tau Epsilon: Wilson, Norton, Lehmen, Gregg, Rinker.

Kappa Sigma: Coleman, R. Brown, H. Brown, Kennell, Dale, Anderson, Biekle, Crouse, Hollis, Knouse, Williams, Shellenberger, Denniston, Edwards.

Phi Delta Theta: Fayman, Smalley, Mohri, Springer, Davidson, Batdorf.

Phi Lambda Theta: Rumold, Williams.

Alpha Rho Chi: Olmstead.

Lambda Chi Alpha: Dannevik, Werts, Grubb, Day, Staybaugh, Winkler, Harter, Hlybskman, Weidenbaugh, Patterson, Johnson, Johnson, Lalleker, Davis, McCoy.

Delta Tau Delta: Coburn, Donoho, Clency, Miller, Amos, Skinner, Wilson, Rector, Long, Read, Mortel.

Kappa Phi Alpha: Stewart, R. Thackrey, S. Thackrey, R. Youngman.

Delta Sigma Phi: Stuenkel, Miller, Emery, Wise, Phinney, Volkel, Brown, Cushing, Stewart, Campbell, Cox, Wilson, Ennis, Olson.

Cigma Nu: Weddle, Lemon, Weiden, Manley, Robinson, Morris, Lutz, McMillan.

Phi Sigma Kappa: Carrol, Baker, Gilbert, Bachelor, Mell, Myers, Merryfield, Wilson, Whitford, Convest, Vanderbilt, Patterson, Dean, Faulconer, Hayslip, Bond.

Phi Kappa: Nass, Quinn, Larson, R. Reed, W. Reed, McGrath, Fiedler, Cutshaw, Tate, McDade, Weibrecht, Watson, Cunningham, Rodney, Bramlege, Morap.

Sigma Alpha Epsilon: Tombaugh, Prudden, Holsinger, Hagenbusch, Purcell, Cole, Varney, McCormick.

Unattached: Sappenfield, Roper, Lyon, Butterfield, Shuff, Cress, Yost, Brunkau, K. Rector, Moody, Olmstead, Cabacungan.

The entries for the Doubles by organization:

Sigma Phi Sigma: Allard and Wright, O'Brien and Platt, Callis and Cassel, Bock and Miller.

Sigma Phi Epsilon: Levitt and Smith, Stout and Eldred, von Riesen and Webber, Pierce and Young, Erick and Michelstetter, Clark and Moore.

Beta Theta Pi: Evans and Kirk, Randall and Stark.

Phi Kappa: Nass and Quinn, Larson and McDade, B. Reed and W. Reed, McGrath and Elder, Cutshaw and Fiedler.

Aggieville Athletic club: Sproul and Hays.

Alpha Sigma Psi: Johnson and Blackburn.

Omega Tau Epsilon: Wilson and

Norton, Pearson and Lehmen, Gregg and E. Peterson.

Kappa Sigma: Dale and Edwards, H. Brown and Hollis, Deniston and Coleman, Kennell and Anderson, R. Brown and Biekle, Crouse and Knouse, Shellenberger and Williams.

Phi Lambda Theta: Rumold and Williams, Lyons and Bond.

Lambda Chi Alpha: Grubb and Werts, Day and Dannevik, Patterson and Winkler, Weidenbaugh and Lalleker.

Delta Tau Delta: Coburn and Donoho, Clency and Miller, Amos and Skinner, Wilson and Rector, Long and Read.

Delta Sigma Phi: Miller and Stuenkel, Wise and Cushing, Gates and Emery, Olson and Campbell, Stewart and Phinney, Volkel and Brown, Cox and Wilson.

Sigma Nu: Morris and Weddle, Lutz and Manley.

Sigma Alpha Epsilon: Hagenbusch and Holsinger, Tombaugh and Prudden, McCormick and Purcell.

Kappa Phi Alpha: Thackrey and Youngman.

Pi Kappa Alpha: R. Huey and G. Huey.

Unattached: Roper and Olmstead, Sappenfield and Wazalwar, Brunkau and Yoste.

DAVIS WINS \$50 PRIZE

Submits Best Answer to Question on Democracy in "Life"

H. W. Davis of the English department is the winner of the \$50 prize in Life's Question Contest of this week. Life's question, "Is Democracy a Success?" he answers like this:

"Democracy is a rip-roaring success. If you don't believe so, say out loud that it isn't and run for your life."

"Democracy puts the greatest number of people on the back and makes the most promises. Of course it seldom delivers. But what of that? We live and are made happy by promise, not performance."

"And happiness is success, for all that anybody has been able to prove to the contrary. Ergo, democracy is a success."

"There! The pup has his tail in his teeth."

KANSAS MILLERS MEET HERE

Jardine Will Send Message to One Day Conference May 9

A joint meeting of two district organizations of the Association of Operative Millers will be held here Saturday, May 9. Every man connected in any capacity with the milling industry is invited to be present.

The college's 500 experimental plots and flour mill will aid the meeting to bring up all the practical phases of the wheat question. Discussions will be held in Waters hall and those attending will be served luncheon at the college cafeteria. The Ag fair will provide entertainment for the evening.

B. C. Williams and P. H. Lawson, chairmen of the district, will divide the time in presiding. W. M. Jardine will send "A Message from the Secretary of Agriculture to the Millers of the Southwest." Papers are to be read by James Miller, superintendent of elevators for the Red Star Milling company of Wichita, and J. Carter, superintendent for the Aunt Jemima Mills Co. of St. Joseph, Mo., and members of the K. S. A. C. faculty will speak and read papers.

Sporting Comment

The annual campaign to "boost track" is well under way. Track, however, has made considerable progress toward boosting itself in the past year.

On May 16 the college will be host to the Missouri Valley Interscholastic relays, which has developed into one of the greatest high school meets of the middle west. Men from at least five states will be present. Perhaps the biggest "boost for track" at K. S. A. C. lies in making the 500 odd men from 70 schools feel mightily at home during their visit.

The basketball team is having trouble electing a captain. College rules provide that only letter men shall vote, but do not specify procedure in case of a tie. One has developed, which may or may not have been broken by the time this is printed. The rivalry is perfectly friendly, and a solution suggests itself which has proven successful in similar cases. Why not split the season, alternating the captains? With such a small group the problem of team leadership will be solved in the same manner anyway, regardless of who is captain.

In the recent football high school tournament here Salina high school—the favorite—was eliminated in the semi-finals by Abilene in an afternoon game. Immediately Salina pulled out for home, without notifying tournament officials, in spite of the fact that they were due to perform against Manhattan in the consolation game that night.

Doubtless it was purely thoughtless, but the act disappointed a good sized crowd and didn't leave a very good taste.

We refuse to announce in big headlines that the Aggie football team is going to win the Valley title next fall. It has been done before, without affecting the ultimate standing in any degree. But we do say that the 1926 Aggies will be one of the most interesting teams to watch, not only in the valley but in the middle west provided the freshman stars of last fall "keep up the old fight."

Valley coaches may breathe a sigh of relief when Roland Locke of Nebraska completes his four years of valley competition. After repeated unsuccessful trials, Locke last spring took a couple of races from our own "Red" Edwin, heretofore considered supreme. Aggie fans have additional cause to remember him as the boy who ran 70 yards for a touchdown on the Aggie gridiron last fall. Now he is at it again, and took the 50 yard dash and second in the hurdles at the valley indoor meet.

K. U. PREDICTS NEW RECORDS AT THIRD ANNUAL RELAYS

Texas U. Will Make Its Third Bid for Medley Relay Honors

Lawrence, Kan., March 31.—The third annual University of Kansas relays will offer star athletes of the middle west their first opportunity to show their stuff against a widely representative field of athletes and it is predicted that many new meet marks will be set up.

Last year eighteen new meet records were established for the Kansas games and some were of such class that they may remain safe this year.

The Texas university medley team set a new world and American outdoor record in the mile and seven-eighths medley relay at 7 minutes 38.2 seconds last year at the Kansas relays. The Texans also won the same race the year before, and will be back again this spring to try for a third victory. Iowa university also is a two time winner at the Kansas relays in the mile relay and holds the record at 3 minutes 22.6 seconds. The Hawkeyes will be here April 18 to defend their laurels.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, APRIL 3, 1925

NO. 53

MORGAN NAMED ON REGENT BOARD

NEWSPAPER MAN FIRST MEMBER TO BE ANNOUNCED

Appointments for Board Will Take Effect July 1—Other Names Announced Later

W. Y. Morgan, editor of the Hutchinson News and former candidate for governor, will be the first appointee on the new nine-man board of regents, Governor Ben S. Paulen announced today. The appointment has not been made officially, but Governor Paulen has given assurance that Mr. Morgan will be on the new board. Other announcements probably will be made soon.

New Board in This Week
The Kansas State Agricultural college, together with other state institutions, came April 1, under the supervision of a new board of administration which will hold office until July 1, when the system of control of the state educational institutions will be altered, a non-salaried board of regents taking over the schools while the board of administration remains in charge of penal and charitable institutions.

The vice-chairman of the new board is Dr. Charles S. Huffman of Columbus, who was appointed January 1 to take the place of W. P. Lamberton who resigned, and who was succeeded for a short period by Mrs. Lena Cable of Kansas City. Governor Ben S. Paulen is ex-officio chairman of the board. Lacey Simpson of Canton and H. E. Peach of Emporia are the other members of the new board. Retiring members of the board are A. B. Carney of Manhattan, who served as vice-chairman during the Jonathan M. Davis administration, and Roger Williams of Lawrence.

Board of Regents, July 1
On July 1 the three state teachers' colleges, the state university, and K. S. A. C. will go under the control of a non-salaried board of regents with nine members. The board was created by House Bill 310 enacted by the 1925 session of the state legislature and signed by Governor Ben S. Paulen.

The regents will have all the powers over the state schools now possessed by the state board of administration except that "all powers and duties now or hereafter conferred by law upon the state business manager relating to said educational institutions herein named, shall be exercised by such business manager by and through such board of regents." The board "shall have full power and authority to appoint the executive heads of the institutions under its jurisdiction with power to remove said executive heads, deans, professors, teachers, or other employees at the discretion of the board," according to the provisions of the act.

FREDERICK A. HALL DIES

Emeritus Chancellor of Washington U., Succumbs to Pneumonia

Chancellor Emeritus Frederic A. Hall, who had been connected with Washington university for 24 years and had served as Chancellor for 10 years died March 24 of bronchial pneumonia. He was considered one of the foremost educators of the middle west and was especially noted for his love and enthusiasm for the classics.

SEVENTEEN SCHOOLS RECORD HOLDERS IN KANSAS RELAYS

Five Schools Hold Two Records Either in Mile Relay or in Special Events

Lawrence, Kans., April 2—Seventeen universities, college preparatory schools and high schools, representing eleven states are included in the record holders of the twenty-six events on the Kansas relays program. Institutions holding two records either in relay races or in special track or field events are: Iowa university in the mile relay and 120 yards high hurdles; Nebraska university in the half mile relay and the shot put; Kemper military academy in the one mile and medley relays; Northeast high of Kansas City, Mo., in the two mile and medley relays; and Cedar Rapids, Ia., high in the half mile and one mile relays.

Kansas university holds the record in the quarter mile relay and the high jump and is point holder with Nebraska in the half mile relay.

In the college class all four relay records are held by Occidental college of Los Angeles.

The Kansas relays this year mark the third annual holding of the event

and April 18 is the day set. Here are the records the new crop of athletes will have to shoot at:

University Class Relays
One-quarter mile—Kansas, 1923; 43 seconds.
One-half mile—Kansas, 1923; Nebraska, 1924; 1:29.5.
One mile—Iowa, 1923; 3:22.6.
Two mile—Northwestern, 1924; 8:43.
Four mile—Oregon agricultural college, 1924, 18:39.
Medley (1-7/8 miles)—Texas, 1924, 7:38.2.

College Class Relays
One-half mile—Occidental, 1924, 1:31.5.
One mile—Occidental, 1924; 3:26.3.
Two mile—Occidental, 1924, 8:12.
Medley (1-7/8 miles)—Occidental, 1924, 7:48.

High School Class Relays
One-half mile—Cedar Rapids, Ia., 1924, 1:34.3.
One mile—Cedar Rapids, Ia., 1924, 3:34.5.
Two mile—Northeast, Kansas City, Mo., 1924, 8:32.6.
Medley (1 mile)—Northeast, Kansas City, Mo., 1923, 3:47.4.

Military Class Relays
One-half mile—St. Johns, Delaware, Wis., 1924, 1:35.
One mile—Kemper, Boonville, Mo., 1924, 3:33.6.
Medley (1 mile)—Kemper, Boonville, Mo., 1924, 3:43.6.

Special Events
100 yards dash—Erwin, K. S. A. C., 1924, 10 seconds.
120 yards high hurdles—Crawford, Iowa, 1923-1924, 15.5 seconds.

220 yards low hurdles—Sanford, Burlington college, 1924, 25.3 seconds.
16-pound shot put—Hartman, Nebraska, 1924, 42 feet 7 3/4 inches.

Javelin throw—Oberst, Notre Dame, 1924, 197 feet, 6 inches.
Discus throw—Platt, Denver university, 1924, 139 feet, 1 1/4 inches.

Running high jump—Poor, Kansas, 1924, 6 feet, 4 inches.
Running board jump—Jones, Depauw, 1924, 24 feet, 6 7/8 inches.

Pole vault—McKown, K. S. T. C., Emporia, 1924, 13 feet, 1/2 inch.

400 meter hurdles—Ivan Riley, Illinois A. C., 1924, 55.9 seconds.

PFUETZE IS Y. M. C. A. HEAD

Paul Axtell Is Elected Vice-President and Paul Skinner Secretary

Paul Pfuetze, Manhattan, sophomore general science student, was chosen as president of the Y. M. C. A. for the next school year, as a result of the annual election of officers which was held in Anderson hall Wednesday.

Paul Axtell, Argonia, and Paul Skinner, Manhattan, were chosen as vice-presidents and secretary respectively. From the 11 candidates nominated for the student board, the five elected were Fritz Koch, Burlington; Wayne Rogier, Matfield; Eric Tebow, Scandia; Roy Balmer, Manhattan; and James Price, Manhattan. Dr. J. H. Burt and Coach C. W. Cora were elected to the board of directors.

Installation probably will be held the last week in April at the annual retreat. The new officers will take over May 1.

THIEF STEALS MASTER'S THESIS

Year and a Half of Work Gone Unless Thief Repents

The vagaries of a thief may prevent Mrs. Charles Nitcher, candidate for the master's degree this spring, from receiving her degree.

Mrs. Nitcher left her thesis, the product of the work of a year and a half, in her car this week. When she returned she found that some one had stolen the notebook containing her completed thesis and all the notes and references from which the thesis was written.

Unless the material is returned, it will be impossible for her to complete her work for the degree. Mrs. Nitcher said. She has not even the references which will enable her to make a new copy of the thesis.

Mrs. Nitcher has offered a reward for the return of the thesis, and has promised immunity from prosecution if the persons who took the notebook will return the material to her, either in person or through the college post-office. The material was taken while the car was standing at 807 Kearney street.

Positions Waiting for Three Ags

The John Deere Plow company will offer positions to one graduate and two undergraduates of agricultural engineering from this college at the end of the school year. The company executives also have authorized a selection of 10 graduates and 20 undergraduates to be distributed among their large branch houses, the undergraduates being used for summer work. K. S. A. C. is in the Kansas City district, under the management of M. J. Healy.

Give What You Can Afford

Code of the K Fraternity and W. A. A. for the Stadium Drive

The final home campaign for the funds to complete the Memorial Stadium opens Tuesday, April 7.

Every student, every member of the faculty, every citizen of Manhattan, who believes in the college and its future, who believes in himself, will contribute as liberally as his means will allow, toward the memorial fund.

A \$500,000 memorial to the Aggies who gave all in the World war will not entail a heavy sacrifice on any student, if every student gives his share.

The completed stadium is a necessity if the Kansas State Agricultural college is to hold a place in the front rank among the Missouri Valley schools.

Think carefully and decide what you can afford to contribute. Contribute enough to make a slight sacrifice, not enough to cripple you financially. It is not necessary that any person impair his chances of finishing college to support the memorial stadium.

Ten dollars a year for four years from every student will insure the memorial stadium. Be fair with the other students. If you have a liberal allowance, don't shove a part of your burden on the fellow barely making both ends meet by signing up only for the average amount. Make your contributions large enough to count.

Give what you can afford to give, neither more or less.

STADIUM DRIVE OPENS TUESDAY AT ASSEMBLY

Division Managers Announced Today—Cafeteria Dinner for Workers Monday Night

The final Memorial Stadium drive will be launched this week under the auspices of the K. club and the W. A. A. The aim is to raise \$50,000, \$40,000 coming from the students and \$10,000 from the faculty and townspeople.

Mr. C. W. Middleton, citizen of Manhattan, is at the head of the town canvass of the stadium drive. At the college the work is to be taken care of by divisions. The five deans are to handle the faculty, which includes Dean J. T. Willard, general science; Dean Margaret Justin, home economics; Dean R. A. Seaton, engineering; Dean R. Dykstra, veterinary; and Dean L. E. Call, agriculture.

The student campaign is to be taken up by divisions also, with these persons in charge of each division: Mr. F. W. Kitch, agriculture; Mr. W. E. McKibben, engineering; Miss Florence Haines, home economics; Mr. H. F. Lutz, general science; and Mr. G. R. Dowd, veterinary.

At the opening of the first drive the students set their own standard, \$40 per person from the student body, payable \$10 a year for four years with the first payment due August 1. At present only about one-third of the student body has subscribed to this fund, the stadium is not finished, and more funds are needed. The students must raise their standard to 100 per cent subscription if the campaign is to be successful.

Ten dollars a year is only a little more than two and one-half cents a day, or about two picture shows a month. All the organizations of K. S. A. C. are making an attempt to attain 100 per cent subscription. When any one organization reaches this a card telling of their 100 per cent subscription will be placed in Anderson hall.

A banquet will be held Monday night at the college cafeteria for the workers of this second stadium drive. This banquet is for the purpose of explaining plans for the drive.

On Tuesday the chapel program will be given over to the students. R. V. Hutton, president of the K fraternity will preside. Prof. H. H. King, Prof. M. F. Ahearn, Acting President Farrell, Prof. H. T. Hill, and Coach C. W. Bachman will be among the speakers.

Contest Opens for Ag Engineers

An essay contest on "Advantages of Tractor Farming" is being offered by the J. I. Case Plow company, to juniors and seniors in agricultural engineering. The contest is being conducted to obtain current material for a booklet, "Tractor Farming," used by the company in its advertising.

UNION CHRISTIAN ENDEAVOR MEETING TO BE WEDNESDAY

A. J. Shartle, C. E. Field Secretary, Will Be Principal Speaker

A union meeting of the Christian Endeavor societies of Manhattan will be held Wednesday evening at the Presbyterian church. Mr. A. J. Shartle, treasurer and field secretary of United Society of Christian Endeavor, will be the speaker. Mr.

Shartle is an outstanding figure in the C. E. movement. He will talk on "World Wide Christian Endeavor."

The meeting will be opened at 6 o'clock with a mixer, program, and social good time. At 7 o'clock a lunch, for which a 15 cent charge has been fixed, will be served. Mr. Shartle will give his address at 7:30 o'clock.

Many students who are active in the Christian Endeavor work in Manhattan and their home towns, are expected to attend the meeting. Mildred Moore and Glen Reed are co-chairmen on arrangements for the mixer.

Group Discussions Held at Vespers

Vesper services were held Tuesday in Recreation center. The meeting was carried out on the discussion group plan. There were four groups, the leaders being Josephine Heath, Florence Barnhisel, Ruth Bachelder, and Mary Brantley. The subject, "Are You Beautiful?" was discussed. This was a follow-up discussion of the preceding discussion, "Are You Alive?" led by Miss Perry.

FRESHMAN CAPS DUE AGAIN

Lower Class Insignia Must Be in Evidence Monday

Freshmen will don their purple caps again next Monday—the day of the opening of the baseball season, when the Aggies play St. Marys.

Following the established custom at K. S. A. C. the first year men will be required or permitted to wear the distinguishing headgear during the baseball season. The "K" fraternity has charge of seeing that the time-honored custom is respected. Just how they will enforce it has not been announced, but according to members of the organization, an entirely new method, which promises to be effective will be employed.

For the freshmen who have been so unfortunate as to lose their purple identifiers, the "K" fraternity has a small number left over from last fall, which they will sell for \$1 each, obtainable at the Royal Purple office.

DELTS LEAD INTRAMURALS

Boxing and Wrestling Give Delta Tau Delta Big Advantage

Delta Tau Delta has a comfortable lead of 94 points over its closest rivals in the intramural contests which have taken place this year. A total of 294 points has been scored by the fraternity. Kappa Sigma and Sigma Phi Sigma have each scored 200 points, and Omega Tau Epsilon follows closely with 191 points.

Standings, recently computed, in the boxing and wrestling tournament gave Delta Tau Delta first with a total of 109 points. Sigma Phi Sigma took second place with 62 points, Omega Tau Epsilon third with 53 points, and fourth place went to Phi Kappa with 45 points.

SPECIAL COURSES AT IOWA

Summer School Curriculum Contains Several New Features

Iowa university is announcing courses and special additions to the regular faculty for the coming summer school term. Courses in public health nursing, character education, the psychology of religion, commerce,

and Latin will be given special emphasis.

Miss Edna L. Foley, superintendent of the Visiting Nurses Association of Chicago; Miss Anna M. Drake and Miss Ruth Houlton, directors of the Iowa and Minnesota bureaus of public nursing, are summer school additions to the regular faculty in public health. Notable additions to the Latin staff are N. W. DeWitt of the University of Toronto and Charles N. Smiley of Grinnell.

RADIO ORDINANCE CONSIDERED

City Commission's Plan Is to Have Aerials Installed by Electricians

Radio aerials in Manhattan will have to be installed by a regularly licensed electrician, under a new ordinance being considered by the city commission. The aerial also will be subject to inspection and approval, the same as any other electrical work.

Another section of the proposed ordinance provides that in all new installations, the service wire will have to be encased in a conduit to the entrance of the switch.

This action is being considered by the commission as a safety measure for those who are not familiar with the danger involved in installing aerials.

Former Student to U. S. D. A.

M. W. Watt, '20, who has been taking graduate work at the University of Wisconsin, is now employed by the bureau of agricultural economics of the United States department of agriculture. His work is in connection with the surveys dealing with the utilization and valuation of land in Illinois and Wisconsin.

Holy Week Services Begin Monday

Holy week services are scheduled to begin Monday, April 6, from 12:45 until 12:55 o'clock. Rev. O. E. Allison, pastor of the Methodist church, who recently came here from Baker, will give the first address, his subject being, "Sin."

HOLIDAYS START ON APRIL 9

Easter Vacation to Last Until Evening of April 13

Students of K. S. A. C. are soon to enjoy the first spring vacation in the history of the college, according to a report from the president's office. The vacation will be known as the Easter holidays and will start this year at 6 o'clock on the evening of April 9 and continue until 6 o'clock the evening of April 13.

The new vacation has been made possible by the discontinuation of Roughneck day and campus clean up day, with one day thrown in for good measure. Roughneck day has been observed at the college for the past 10 years, but for the last two or three years it has been used by the students, purely as a holiday, instead of as it was intended, a day for different school events.

The new vacation will be the only break in the second semester, except for Washington's birthday, which usually is a partial holiday. A general exodus of students toward their homes is expected to begin about noon Thursday.

OATS EXPERIMENTS BEING CONDUCTED BY AGRONOMISTS

3,500 Separate Rows of Oat Varieties Are Being Studied

Experiments involving 3,500 separate rows of oats varieties are being conducted by plant breeders in the agronomy department on the crop improvement nursery at the northwest corner of the campus.

These preliminary experiments include the introduction from other states and foreign countries of different varieties of wheat in order to determine their adaptability to this section, with the object of obtaining a high yielding, early maturing, and smut resisting strain.

Experiments with barley also are being conducted, but not so extensively as with wheat, because barley is not well adapted to this section of the state.

Rev. Rogers to Speak at Vespers

Vesper services will be held in connection with Holy week services next Tuesday. The Rev. B. A. Rogers, student pastor of the Methodist church, will deliver an address on "The Significance of the Cross." The meeting will be held in the home economics rest room.

Freshman Commission Meets Monday

Freshman commission will meet Monday at 4:45 o'clock in the home economics rest room. Dr. A. Herbert Gray's book, "Man, Woman, and God," will be discussed. All freshman girls are urged to attend. Copies of the book may be taken from the library for reading or study.

DEBATE TEAM TO WEST COAST

HEDBURG AND WALT COMPOSE THE TEAM

Hedburg to Give Oration at Pi Kappa Delta Convention in Los Angeles April 8-12

SCHEDULE OF DEBATES
Thursday, March 26—Colorado Aggies at Fort Collins.
Saturday, March 28—University of Wyoming at Laramie.
Monday, March 30—Montana Aggies at Bozeman, Joint Debate and Oratorical.
Tuesday, March 31—University of Montana at Missoula.
Wednesday, April 1—State College of Washington at Pullman.
Friday, April 3—Oregon Aggies at Corvallis.
Monday, April 6—Leland Stanford at Palo Alto.
Wednesday to Sunday, April 8-12—Pi Kappa Delta convention at Los Angeles.
Monday, April 13—University of Arizona at Tucson.
Wednesday, April 15—University of Texas at Austin.
Thursday to Saturday, April 16-18—Debates as yet unscheduled.
Monday, April 20—Return to Manhattan.

Bulletin

The Aggie team was awarded the unanimous decision in the debate against the State College of Washington, Pullman.

For the first time in the history of K. S. A. C. an extensive debate trip is being made. At the present time Prof. H. B. Summers and a two-speaker debate team are making a trip to the Pacific coast, meeting virtually every large school enroute.

The men who are making the trip are Robert Hedburg, Oklahoma City, and Cecil E. Walt, Gove. Both of them have done exceptional work in debate, Walt being a last year's intercollegiate debater, and Hedburg having debated for Park college. Both have participated in several debates this season.

First Debate, Colorado Aggies

The first debate of the trip was with the Colorado Aggies at Fort Collins. K. S. A. C. lost the decision. This was a one-judge debate. The question was: Resolved: That congress be given power to override by two-thirds vote decisions of the Supreme Court declaring acts of congress unconstitutional.

The debate with Wyoming at Laramie last Saturday was a no-decision debate upon the Japanese question. The joint debate and oratorical contest was held with the Montana Aggies at Bozeman Monday. Robert Hedburg, the orator for K. S. A. C., won the unanimous decision of the judges. The question for the debate was the one used in the Colorado debate, and this debate was given to Montana by a two to one decision.

Hedburg to Convention

Tuesday night a no-decision debate was held with the University of Montana upon the same question. No results have been received here of the outcome of the debate with the State College of Washington held at Pullman Wednesday night.

The national Pi Kappa Delta convention which will be held in Los Angeles April 8 to April 12 is on the schedule of the K. S. A. C. debating team, and Robert Hedburg will be one of the orators at this convention.

The return trip will be through Arizona and Texas, the debaters arriving in Manhattan about April 20. If it is possible a similar trip will be made by debaters from here next year to the Atlantic coast, upon which eastern and southern schools will be met.

FRIDAY, APRIL 3, 1925

FRESHMAN CAPS

The K fraternity has voted to enforce the tradition for freshmen to wear caps from the time of the first baseball game until school closes in May.

It is not necessary at the present time to restate the many and various reasons as to why first year men should wear the purple headgear. But it is advisable to warn the yearlings that the tradition must be obeyed.

During the past two or three years the wearing of the caps in the spring has been neglected somewhat. This has been due partly to laxity on the part of the members of the K fraternity in enforcing the tradition and partly to lack of proper spirit among the freshmen. The attitude shown by some of the yearlings during the latter part of the football season was completely out of tune with the recognized custom. The athletes have the organization and the power to force the freshmen to wear the headgear, and if expediency demands they intend to use it.

But it should not be necessary to even suggest the use of compulsion in cap wearing. If a little thought is devoted to the question by the first year men all trouble will be avoided.

Great big boys wear knickers; little boys wear long pants; girls wear trousers, men are making their pants more and more like skirts; chaperon is an obsolete word; love making and kissing are exposed to the glare of daylight and publicity. Verily, times have already changed.

They say a journalist seldom commits suicide. That's not optimism at all. It is cynicism. Journalists always starve to death.

Deep dark cynicism has bitten into our once cheerful soul. There is

The Reason Why Acute and Chronic Ailments Respond to Non-Drug Treatments

Medical science formerly explained inherited disease by the claim that the "taint" in flesh and blood was handed down from generation to generation.

Now the drugless physician finds that just as the contour of the face is inherited, just so does one inherit certain places in the spine which easily slip out of place, resulting in mental derangements, stomach and bowel troubles, deafness, heart and lung weaknesses, etc.

Mental and physical strains, catching cold and the like, tighten such joints, the vital-force channels close to such an extent that many forms of disease result.

The drugless physician helps most surely and quickly in relieving these congestions and the vital-forces do their work and you regain health.

The Treatment You May Expect at This Office

1. Careful diagnosis in different ways so as to determine nature and extent of complaint.
2. Ease and precision in adjusting all ailments.
3. The most modern and efficient drugless methods of relieving pain.
4. Manipulative work which will strengthen all weakened joints in order that the adjustments will hold and result in permanent cures.

Consultations and examinations cheerfully given without any further obligation.

Hours, 8:30 to 12:00—1:30 to 5:30

(Aggieville) Manhattan, Kan.
Twelve years experience in Drugless Therapy

no good in the world. It's all bad. The men are bad, the professors are worse, and the women are terrible. Everyon's selfish. No one's broad minded. And the women are concealed.

Yes, we snarl, the women are the cause of all trouble. Men are bad enough, but women are hopeless. Ask any married man.

But, what are we going to do about it?

For the sake of those who are anticipating such sport, there will be no midnight boating on the broad expanse of the new lake. The lake is for looks and not for business.

It is still hoped that the beautification process will go around as far as the new cage for Touchdown II. Thirty years is a long time for the present cage.

Among other things that would improve the school is some pads or cushions for the steps in the auditorium. Those who must leave chapel five minutes before the close really hate to disturb the rest of the rest, but those stairs will creak.

Harry remarks that it is odd that no one ever finds any reputation lying around when so many are being lost over and about the surrounding country.

After three years on the hill one chap notes that he has learned at least one thing. The professors on the hill don't know a whole lot more about their subject than does the student.

That fits right in with our cynicism.

Cynicism is that property which you have that makes you laugh at people when they are forced to walk along in the rain without an umbrella or raincoat.

Some of the boys suggest that when the next sorority house builds they have none of these little balconies, or if they do then make them closer to the ground. It makes a long leap as it is in some of the houses—so they say.

Judge for Yourself

The discussion concerning the "wrestling" question at K. S. A. C. is still continuing. For this reason the following clipping was taken from the American Mercury magazine. Although the probable accuracy of the statistics given is somewhat doubtful, the facts and figures given are, to say the least, interesting.

As an indication of the things college students ponder over, here is a clipping from the Carolina Magazine of the University of North Carolina. It is in answer to a questionnaire sent out to the students and the table represents 17 answers—each line a report from each man student who responded:

No. of different girls had dates with during summer	Tried to neck	Necked at first attempt
17	17	13
8	1	1
2	2	1
1	—	—
5	3	0
4	2	1
6	3	3
12	5	5
6	6	4
13	5	4
1	0	0
0	0	0
8	4	0
1	—	1
14	7	4
7	1	1

The average number of girls each man had dates with was about 6; the average number of girls each tried to have a petting party with was about 4; and the average number of girls petted was slightly less than 4. Thus 87.7 per cent of those tried were necked.

You will be surprised at the excellent quality of our lunch service. A trial will convince. Cozy Inn; 1403 Anderson, Phone 1328X.

Genevieve Tracy and Vera Alderman left Wednesday to attend the W. A. A. convention which is being held at the University of Illinois, Urbana.

At the left of this group is Lieut. J. A. Macready, U. S. A., former holder of the world's altitude record. Just behind the propeller you can see the G-E turbine supercharger which kept the Liberty motor running in the thin air, six miles high.

Over the mountain by a mile

Year after year, plucky explorers try to climb Mount Everest, the world's highest peak, 29,141 feet high.

With a G-E supercharger feeding air at sea-level pressure to the engine, an airplane pilot can go far higher. Lieut. Macready has reached 34,509 feet over Dayton, Ohio. He would have soared over Mount Everest with more than a mile to spare!

The tasks attempted for centuries in almost every form of human endeavor have been conquered with the aid of electricity, with more than a mile to spare.

The impossible today will be accomplished by men and women now in college. The scientist and engineer are doing their share. It remains for men and women entering upon their life's work to profit by the new opportunities that are constantly appearing in every profession and vocation in the land.

The supercharger is a turbine air compressor, which revolves as fast as 41,000 times a minute—the highest speed ever developed by a commercial machine. It is designed and made by the General Electric Company, which also builds the big turbines that supply electric light and power.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

Week-end guests at the Triangular house were Joe Brewer, D. C. Johnson, and Cyril Scott from the Delta Sigma Lambda chapter of Lawrence.

Dinner guests at the Phi Delta Theta house Sunday were Mr. and Mrs. A. R. Springer, Mr. and Mrs. J. V. Cortelyou, Mr. and Mrs. R. R. Price, and Mr. and Mrs. Hugh Durham.

Mrs. H. P. Wheeler entertained Monday afternoon with a musical tea in honor of Miss Helen Hannen of Cleveland, Ohio, and formerly of the K. S. A. C. music department. The rooms were decorated in rose, white, and yellow. Mrs. J. T. Willard, Mrs. H. W. Davis, and Miss Grace Hesse assisted.

Mrs. H. W. Davis, Mrs. Robert Gordon, Mrs. E. V. Floyd, and Mrs. Ira Pratt entertained at the Davis home Tuesday evening with a dinner in honor of the members of Mu Phi Epsilon.

Delta Delta Delta held formal initiation Sunday afternoon for the following girls: Bernice Read, Nellie Conroy, Manhattan; Kathryn Osborne, Clifton; Louise Stockwell, Larned; Frances Reed, Glasco; Marjorie Anne Richards, Delphos; Sue Margaret Burris, Chanute; Martha Griffin, Girard; Helen Thompson, Herington; Marjorie Streeter, Hiawatha; Paula Leach, Caney; and Roberta Owens, Russellville, Ark.

Miss Elizabeth Davis entertained at a supper Sunday evening in honor of Miss Miriam Clay of Omaha. Miss Clay formerly was head of the loan department of the K. S. A. C. library. The guests were Misses Helen Rushfeldt, Helen Elcock, Margaret Russell, Nellie Aberle, Mary Kimball, Louise Everhardy, Josephine Hemphill, Helen Norton, Nora Dalbey, Myrele Zener, and Mrs. Marcia Hall.

The Franklin literary society announces the initiation of three new

members: Miss Doris Dwelley, Miss Hazel Dwelley, and Charles Burt.

The Sigma Nu district convention will be held here this week-end. Representatives are expected from the chapters in Kansas, Nebraska, and Oklahoma.

Dr. Margaret Russel entertained at dinner at the Gillett hotel, Wednesday evening, in honor of Miss Miriam Clay of Omaha. Guess were Mrs. F. A. Derby, Miss Grace Derby, Miss Nellie Aberle, and Miss Elizabeth Davis.

Shad-U-Kam, the annual spring banquet given by the Eurodelphian literary society, was held in the banquet room of the cafeteria on Monday evening. The society colors, brown and gold, were used in the decorations and a three course dinner was served. Phyllis Burtis was toastmistress and toasts were given by Dorothy Rosebrough, Mildred Leech, Marie Insley, Stella Heywood, Eva Brownlee, and Ferne Harris. A violin duet by Mary Jackson and Lucile Stalker and a reading by Margaret Burtis completed the program. About 50 members of the society attended. The alumni members present were Mildred Thornberg, Conle Foote, Mabel Ginter, Mary Polson, Mrs. Henrietta Darby, Mrs. Agnes Honeywell, and Mrs. M. Baxter.

Dinner uests at the Sigma Phi Epsilon house Sunday were Mr. and Mrs. B. L. Remick, Mr. and Mrs. J. O. Faulkner, and Mr. and Mrs. C. E. Reid.

The American Association of University Women, held an election of officers Monday. The officers elected were: president, Helen Elcock; vice-president, Nora Dalbey; secretary and treasurer, Alene Hinn; and members of the executive board, Mrs. R. J. Taylor and Mrs. H. H. Haymaker.

Sunday dinner guests at the Delta Sigma Phi house were Miss Doris Dwelley and Miss Beatrice Veeh.

Miss Grace Derby entertained with a buffet supper Saturday evening in honor of Miss Miriam Clay of Omaha.

PLAY ST. MARYS HERE WEDNESDAY

FIRST BASEBALL GAME WAS
SCHEDULED FOR MONDAY

Starting Lineup Doubtful—Conroy
and "Bing" Miller Expected to
Fill Battery Positions

Wednesday the Aggie baseball team opens the season when it meets St. Marys college on the home field. The game first was scheduled to be played on Monday, but St. Marys postponed the game in order to play Nebraska on that day.

Weather conditions will determine on which field the game is to be played. The varsity field will be used if the ground can be worked into shape, but if bad weather continues the game will be played on the city park diamond. The new backstop has been finished on the varsity field and bleachers will be erected if the game can be played on this diamond.

The game is not a conference game and a win or lose will not affect the Aggies in the Valley race. The contest will give Corsaut a chance to see his men in action and determine the weak points which will have to be remedied before the first valley game with Missouri April 17.

Conroy or Caraway to Pitch
The starting lineup for the Aggies is rather doubtful but at the present the dope points toward Bernard Conroy, Manhattan, as the most likely to take the mound for the Aggies. Conroy is a two letter man and was the Aggies' pitching ace last year. L. P. Caraway, also of Manhattan, is showing up well on the mound and may start the game if Conroy's arm is not in the best of condition. Coach Corsaut said. Caraway is a senior and playing his first year on the Aggie squad.

For the infield Corsaut probably will start "Bing" Miller, Washington, D. C., in the catching position as he is the outstanding catcher in school and has had considerable experience. First base will be played by "Judge" Brion, Ada, a sophomore who is showing real form on the first sack and hitting a good average. Second base is doubtful, with the choice lying between Emil von Riesen, Marysville, and "Red" Lutz, Sharon Springs. Third base will be filled by

Guy Huey, Louisville. Captain Ralph Karns, Ada, will play short-stop, and will no doubt be the mainstay in the Aggies' offense and defense.

Outfield Doubtful

The starting outfield is the most doubtful. Right field will be played by either Rex Huey, Louisville, or Albert Cunningham, Manhattan. Corsaut has a choice between Chester Hayley, Frankfort, Don Meek, Idana, and L. H. Smith, Lebo, for center field, all of whom are showing real form. Lyle Munn, Colby, is the most likely candidate for left field, but Bernard Harter, El Dorado, is pushing Munn for his position.

The game is scheduled to start at 4 o'clock, unless transportation conditions force an earlier "Play Ball."

FIRST VARSITY TENNIS MEET TO BE WITH K. U. APRIL 11

Goodell and Sappenfield Are Only
Varsity Players Back—Four
Games Scheduled

The tennis season will be officially opened for the Kansas State team when they meet the Kansas university team here at Manhattan April 11.

W. C. Goodell, Independence, will be captain of the team this spring. Goodell and H. D. Sappenfield, Abilene, are the only varsity players back this year, although there are several good men trying for places on the team who have never been eligible before. Both varsity players are showing a much improved brand of tennis this year, and Goodell's game is far superior to any tennis played here last year.

The 1925 Aggie team, however, is a more or less unknown quantity and will remain so until it is given a chance to show what it can do against K. U. The men who will make up the team have not been chosen, and according to Captain Goodell there is still plenty of chance for good tennis players to make the team. Men wishing to try out should report to Captain Goodell at the gymnasium or at the courts.

Four games have been scheduled to date, and according to M. F. Ahearn, director of athletics, correspondence is being carried on with other schools with the purpose of booking several more. The games scheduled are:

April 11—Kansas university at Manhattan.

April 18—Kansas university at Lawrence.

May 14—Missouri university at Manhattan.

May 16—Washington university at Manhattan.

Fraternities Will Give Awards

Medals and cups for winners of the annual high school scholarship contest will be purchased by five professional and honorary fraternities of the college. The contest, sponsored by the department of education, is to be held here May 2, and the college will award scholarships amounting to \$300 to the high scoring individuals.

The fraternities which have volunteered to furnish the cups and medals are Sigma Tau, Gamma Sigma Delta, Alpha Zeta, Phi Delta Kappa, and Phi Kappa Phi.

FOR SALE

Fine, improved farm only two miles from agricultural college. All first class bottom land. Seven room house. Corncrib. Electric light and power. Seventy-two acres, all tillable. Good terms. Dodds and Swingle, 303a Poyntz avenue, Manhattan, Kan. 52t2.

Prof. F. E. Coluburn and Prof. E. T. Keith spent Wednesday in Topeka.

Mrs. Mildred Browning Wilson, '19, of Versailles, Mo., visited in Manhattan this week.

For Your Easter Outfit

The Young Men's Own Ideas
In Our New Suits for Spring

In designing Spring Clothes for several hundred stores we have tried to interpret what Young Men want in Clothes. Our Spring Suits at—

\$29.75

—are in tune with the Spirit of Youth; Young Men like them because they are Stylish, with plenty of "PEP," without being freakish. New, unusual patterns and mixtures.

Only excellent quality fabrics are used—serges, cassimeres and unfinished worsteds of dependable quality and real value; Silk Mixtures, Stripes and Checks; new Spring shades.

Two-button, single breasted models are the favorites; these suits have semi-blunt vest and medium to full trousers; not extreme—just right.

Others \$24.75 to \$42.75

AUCTION SALE!

HIGH GRADE

Diamonds, Watches, Silverware, Jewelry, Etc., Etc.

At Your Own Price

We have purchased from the Scott Jewelry Co., Kansas City, Mo., TWENTY THOUSAND DOLLARS worth of the finest Diamonds, Watches, Etc., that can be had anywhere and we bought these goods for less than 50% of their real value. We only did this by agreeing to pay \$5,000 CASH WITHIN TEN DAYS' TIME.

We have decided to put all these Fine Goods on Sale at Public Auction—every article to be sold to the highest bidder—until we have raised the \$5,000, then sale will stop. This sale, coming as it does just before Easter and Graduation time, gives our friends and the people of this vicinity an opportunity to buy fine, lasting gifts at a fraction of their real worth.

SPECIAL NOTICE.—A handsome gift will be presented to the first 25 ladies attending the opening sale, and valuable presents FREE at each sale and a DIAMOND RING FREE EVERY NIGHT.

Sale Starts Saturday, April 4,

at 2 P. M.

and continues daily, starting at 2 P. M. and 7:30 P. M. each day.

Marathon Hats For Easter Ready!

NEVER before did Marathon Hats reflect more definitely unmistakable style and strong, sure grace of line than in the new arrivals. Above all else, they have STYLE of the sort to suit YOUR PERSONALITY.

"The Victor," a full shape with concealed welt edge, featured in pecan, maltese, London and pearl with contrasting colored band. Exceptional value at—

\$2.98

"The Star," another of our Marathon hats for Easter; bound edge; satin lined; finest trimmings. In moka, powder, ocean and maltese, at—

\$3.98

"The Upton," combines style with fine materials; new open flange and concealed welt edge; satin lined; comfort-fitting leather. In nutmeg, pearl, fog and maltese. At—

\$4.98

Regardless of price, ALL Marathon hats have good workmanship, quality and value. They look well; they wear even better. Shown here now in the newest shades. Make YOURS a Marathon this Easter.

"Let Us Be Your Hatter"

"MAKE IT UNANIMOUS"

"STADIUM TIME HAS ARRIVED"

SAYS "MIKE" AHEARN, HEAD OF AGGIE ATHLETICS

Stadium Necessary for Self Respect, He Believes—Value in Other Schools Cited

By M. F. AHEARN

The time has arrived when every loyal member of the college personnel should respond to this slogan, "Complete the Memorial Stadium." Much has been already accomplished through the generosity of the faculty, alumni, students, townspeople and friends of this institution.

A survey of the physical equipment of the athletic department at the present time awakens in every true Aggie heart a feeling of justifiable pride. Where formerly there was a swampy ravine there is a beautiful blue grass field surrounded by a well constructed running track. Not many years ago a rickety grandstand with a seating capacity of 480 graced the sidelines. Today there are two handsome concrete stands that permit over 15,000 fans to watch the football classics from comfortable seats.

Tennis Facilities Trebled

Formerly the department boasted of six tennis courts whereas there are 16 courts available at the present time for devotees of the net game. In addition to these facilities for taking care of the growing demand of the physical training department, there is a new baseball field, and a new practice ground for football. Truly there has been a phenomenal growth in the various branches of physical education.

A study of these facts naturally leads one to believe that a request for money to provide further equipment is superfluous and decidedly in bad taste, but a more searching investigation brings to light the information that there is a real and urgent need for the completion of the plans outlined at the beginning of the stadium drive.

Congestion Still Unrelieved

The original plans and specifications called for the erection of a concrete stadium with a seating capacity of 21,000. The stadium was to be walled with cut limestone enclosing dressing rooms, classrooms and offices. These rooms when finished were expected to relieve the congestion in Nichols gymnasium.

It is quite evident that until the stadium is completed this congestion will not be relieved. During the fall of 1920 a large crowd was in attendance at the K. U.-Aggie football game in Manhattan. The total estimated attendance was 5,280, and this included the complimentary list and the uninvited guests who made it a point not to recognize the gate keepers. Four years later over 12,000 football fans enjoyed the game from stadium seats.

Is it too much to expect that with the construction of better highways in Kansas that in 1928 the crowd will number 20,000? At Colorado university a new stadium seating 17,000 was built last year. The previous high mark for paid admissions was approximately 7,500. Last fall every seat of the 17,000 was occupied at their big game. The same reports are forthcoming from many other colleges and universities.

The best argument for the completion of the stadium is that we owe it to those to whom we pledged a memorial for their loyalty to country, and we owe it to ourselves to finish the building of the stadium in order to satisfy our self respect.

AGGIE RUNNERS TO RACE FINN

Paavo Nurmi Will Contest in K. C. A. C. Meet

As the fastest men in the Valley in the distance events, Ralph Kimport, Norton, and A. I. Balzer, Inman, Aggie miler and two miler will meet Paavo Nurmi, "the Phantom Finn" and greatest living distance runner, in a special mile-and-a-quarter race at Convention hall, Kansas City, April 13. The race will be the feature event of an invitation meet to be held by the Kansas City Athletic club.

Besides Nurmi there will be several other distance runners of national and international fame. Jole Ray, Illinois Athletic club star, who has been famous in sport circles for the past 10 years and holds many national records probably will enter this race. Willie Ritola, Nurmi's countryman, and probably his strongest opponent, is expected to run. Loyd Hahn, Boston Athletic club star, is entered. Besides these men several collegiate stars, especially from the Missouri valley, will compete.

Nurmi will be running one of his last races in the United States when he enters the race at Kansas City. During the short stay he has made in the United States, less than a year, he has made 34 records, in events ranging in distance from three-fourths mile to two miles, many of which still stand. Nurmi does not speak or understand English. The Kansas City trip marks his farthest advent west.

Kimport and Balzer proved their supremacy among Missouri Valley athletes in the recent Missouri Valley indoor track meet when Kimport broke the mile record of 4:28 8/10 made by Pittinger of Missouri, lowering it three seconds, and Balzer sliced four and four-fifths seconds off the two-mile record made by Rathbun of Ames in 1922. The coming race will give these men a chance to show what they can do against much stronger competition than either one of them had when they made their records.

Kimport and Balzer proved their supremacy among Missouri Valley athletes in the recent Missouri Valley indoor track meet when Kimport broke the mile record of 4:28 8/10 made by Pittinger of Missouri, lowering it three seconds, and Balzer sliced four and four-fifths seconds off the two-mile record made by Rathbun of Ames in 1922. The coming race will give these men a chance to show what they can do against much stronger competition than either one of them had when they made their records.

JOSE MOJICA TO SING MAY 1

Chicago Opera Tenor in Music Festival Week Recital

One of the outstanding musical events of the ninth annual spring festival week, April 28-May 2, is the recital Friday evening, May 1, by Jose Mojica, leading tenor of the Chicago Opera company.

M. Mojica appeared with Mary Garden at the Boston opera house last month in "Pelleas and Melisande," and his wonderful interpretation of the role of "Pelleas" drew the most enthusiastic audience of the season.

"M. Mojica's Pelleas was indisputably in every way the most persuasive that a Boston audience has seen and heard," commented the Boston Post. "As Pelleas," according to the Musical Courier, "Jose Mojica disclosed the greatness of which he is capable. He brought to the role not only the youth and ardor that are indispensable for its effective portrayal, but also notable artistic restraint and beauty of voice. Here was indeed a Pelleas to companion Miss Garden's matchless Melisande."

Chicago critics have been as lavish as those of Boston in their praise of the young tenor. "The young and distinguished artist who has slowly but deservedly won his place in Congress street by honest and zealous work, incorporated the difficult role of Pelleas with uncommon distinction. He was at all times a picturesque figure, adolescent, with all the halting grace of adolescence, beautifully bewigged and well costumed, acting with ease and considerable personal dignity, and singing suavely and sympathetically."

The President's Message

F. D. Farrell

"To take an active part in the building of the Memorial Stadium should be regarded as a privilege by students, faculty members, and alumni. When we make a voluntary contribution to the Stadium fund, we express a sincere interest in the institution as a whole, in one of its most important activities—its athletics—and in our common desire to express appreciation of the sacrifices made by those sons of K. S. A. C. who gave their lives to our country in the World war."

"In one respect the Stadium is like the college library: It can be used with benefit by every student and faculty member and by thousands of alumni. It will serve increasingly as a center for the development of college spirit and college enthusiasm. It combines opportunity for entertainment with facilities for manly and womanly development. It combines practically with fine sentiment. The building of the Stadium is a worthy enterprise. Practically everybody who enthusiastically supports the enterprise, even at some sacrifice, always will be glad he did so."

BUILDING COST IS QUITE LOW

OTHER SCHOOLS PAY MORE PER CAPITA FOR STADIA

Native Limestone and Local Architectural Planning Lower Costs—\$40 from Each Student Is Aim

The Kansas Aggies, blessed with an abundance of native limestone which is readily available, an engineering division which drew the plans, eliminating the expense of a hired architect, and a student body which will pay up subscriptions as they come due, have been able to plan and partially complete their stadium at a smaller per capita cost than almost any other school. Prof. J. V. Cortelyou, chairman of the faculty committee, said recently.

Average Subscription \$102 at Illinois. At the University of Illinois, for instance, the average stadium subscription was slightly more than \$102. Kansas Aggie students are being asked for an average of \$40.

At the University of Kansas, in 1920 and 1921, the student body was asked for, and gave, \$172,810. Three years ago, at the first campaign for the Aggie stadium, the students were asked for, and gave \$77,000.

The residents of Lawrence subscribed nearly three times as much as the total amount which is being asked from Aggies in this final drive for the stadium, Professor Cortelyou declared.

"The figures from other schools over the entire country show that the Kansas Aggies are being asked for less money than at almost any other school. We believe there will be little difficulty in obtaining the amount necessary to complete the stadium, but the difficulty can be removed only by the whole-hearted cooperation of every one on the campus."

Must Have Cooperation

"We want a subscription from every person on the campus who has not already subscribed. If a former subscriber feels that he can give more, all right. If a prospective subscriber feels he can give more than \$40, all right. The \$10 a year payment feature, however, should make it possible for every person on the campus to give that much, and that much will put the stadium over."

As a further example of the cost of stadia at other schools, members of the Stadium Corporation cited also the cases of several other schools.

Ames, the Aggies' big rival as an agricultural school, required a student average of \$58 to build its stadium. At Oklahoma, graduates were assessed \$250 each. Purdue university asked, and received, \$410,000 on its initial drive.

Use of Limestone Reduces Cost

At Nebraska the first campaign was for a total of \$430,000. Michigan raised nearly a million and a half. These figures do not mean that the Aggies, with their smaller advantage for a stadium, will have a poor

er stadium in any sense. In many ways the stadium will be equal to anything the other schools can do, and in several ways it will be better. The only meaning of this difference in cost, campaigners pointed out, is that, with the limestone available, the architects willing and the labor near at hand, the cost of the stadium will be less than at schools where stone must be imported or cement shipped long distances; where high-priced architects must be obtained, and where labor is at a premium.

KANSAS SCIENTISTS TO HOLD MEETING HERE THIS MONTH

Discussions Open to Public—Include All Branches of Science

The Kansas Academy of Science will hold its 57th annual meeting at K. S. A. C. on April 10 and 11. The meeting will include all the branches of science. This meeting is expected to attract several nationally known figures in the world of science.

A large number of people are scheduled to appear on the program. Various subjects of interest dealing with the latest contributions to science will be discussed. These discussions will be open to the public.

One feature of the academy meeting will be the banquet to be held Friday evening, April 10. There will be speeches and toasts by prominent persons. The public is invited.

Professor H. H. Nininger, retiring president of the academy, will deliver an address on "Kansas Meteorites." He will bring with him a collection of meteorites that have fallen here in Kansas. Dr. J. E. Ackert is first vice-president of the academy.

This meeting is one of three meetings of state wide importance that are to be held here during the month of April. The home economics "Golden Jubilee" will be celebrated on April 16, 17, and 18. The Popenoe Entomological club composed of faculty and students in entomology of the college have invited entomologists from over the state to meet here with them on April 9. There will be local discussions of several problems of local interest at the meeting. This is the first meeting of its kind, but it is hoped that it will become an annual affair. Replies that have come in indicate that there will be a good attendance.

A SHOT FOR EACH \$5,000

Military Department Will Mark Campaign Progress

A cannon will be fired to mark the raising of every \$5,000 subscribed toward the \$50,000 stadium drive total. The military department is taking an active interest in the campaign and takes this means of letting the students know how the drive is progressing.

Class Designs Car Stickers

Miss Polson's class in Design A is making plans for designing car stickers to be used during the week of the International chicken show. The plans are not yet completed, but several clever ideas for the stickers have been brought in by members of the class.

KICK-OFF IN FINAL STADIUM DRIVE COMES THIS MORNING

STUDENTS, FACULTY, AND MANHATTAN WELL ORGANIZED FOR CAMPAIGN

W. A. A. AND K FRATERNITY HOPE TO RAISE QUOTA IN ONE DAY OF WORK ON THE CAMPUS

BRINGS BACK MEMORIES OF 1922

Total of \$65,000 Subscribed at Memorial Special Student Assembly When Stadium Campaign Was Opened Three Years Ago

Organization work has been carried to completion. The preparations are made for a quick, vigorous, and successful wind-up of the Memorial Stadium campaign on the campus and in Manhattan, according to members of the K fraternity, the Women's Athletic association, the faculty organization, and the Manhattan chamber of commerce.

The kick-off will take place at 10:15 this morning when the special student assembly, sponsored by the W. A. A. and the K fraternity, will open. Ronald Hutton, president of the K fraternity, will preside.

The chapel is expected to be a repetition of the well-remembered one of April 25, 1922, when students subscribed \$65,000 in less than half an hour. That assembly marks a high point in the history of Aggie school spirit. The Kansas Industrialist, official college paper, describes it as "The most enthusiastic student assembly since the one in 1909 that saved the engineering school for the Kansas State Agricultural college."

"Make It Unanimous" Adopted

"Students and faculty at the college adopted the slogan proposed by the engineers on the student memorial committee, 'Make It Unanimous,' the Industrialist reads. "There was no preliminary excitement such as usually precedes drives. No heavy subscriptions were asked of students, but an earnest effort was made to have every student get his name on the honor roll. Some of the teams still are working and indications are that 95 per cent of the students in the college will take part in building the memorial to those who sacrificed all in the World war." The Industrialist account was written before all the teams had reported. It is a matter of record that 98 per cent of the students enrolled on April 25, 1922, subscribed to the Memorial Stadium fund.

"The Memorial Stadium assembly at the auditorium Tuesday morning crowded the capacity of the building," the account continues. "Charles C. McPherson, chairman of the S. S. G. A. council and student director of the memorial campaign, presided at the meeting. Prof. H. H. King, Mike Ahearn, and W. A. Bibby of Topeka, father of Ernestine Bibby, '20, were scheduled to make the principal speeches at the meeting. A football coach by the name of Bachman, Charles W. Bachman, fooled himself, the other speakers, and the crowd by making the speech of the occasion. He probably will never make another like it—but why should he?"

\$65,000 Pledged First Day

"Following the speeches McPherson urged that every student who could afford it subscribe at least \$10 a year for four years. The bulk of the pledges was made at the auditorium. When the pledges were counted afterward it was found that \$65,000 was subscribed by students at the assembly."

The same Bachman, the same Ahearn, and the same King will speak at the assembly this morning. They will be aided by Acting President F. D. Farrell and by Dr. H. T. Hill of the department of public speaking.

As in 1922 the campaign this year will be carried forward through student organizations and through the divisional faculties. Teams have been made up to solicit the subscriptions of each student and each faculty member who has not already

entered his pledge to the Memorial Stadium fund. The campaign will be concluded more quickly if the assembly this morning "crowds the capacity of the building," as did that memorable one of three years ago.

Each student and faculty member who has entered his subscription to the Memorial Stadium fund has received through the mails a tag bearing the campaign slogan, adopted from the organization of the original campaign, "Make It Unanimous," and these tags will be distributed to each one who makes his pledge today. Those who already have subscribed will don their tags at the start of the assembly period.

Organizations Going 100 Per Cent

The various student organizations have undertaken the task of soliciting their members and making their records 100 per cent for the Memorial Stadium. With this organization and with the divisional teams, a thorough canvass will be made of the student body. Divisional teams of faculty members will handle the renewed campaign among the members of the instructional and clerical staffs of the college.

The student body is asked to make an average pledge of \$40, payable in four annual installments of \$10 each. The first installment will not be due until August 1, so the student will have had an opportunity to lay away vacation earnings to meet the charge. The W. A. A. and K fraternity officials sponsoring the renewed campaign have set as their goal a pledge of \$40,000 from the student body. Less than half the present students of the college have given toward the construction of the Memorial Stadium. Ninety-eight per cent of the students enrolled in 1922 pledged aid in the building of the stadium, and approximately half of the money which has been put into the section of the stadium which has been built was contributed by students.

Want \$10,000 from Faculty

Additional pledges totaling \$10,000 are expected from faculty members who have not as yet given to the stadium fund, and from townspeople who have come to Manhattan since the first campaign, or who failed at that time to contribute. The canvass in the Manhattan business district will be made by chamber of commerce committees which will work under the direction of Walter E. Moore.

With the goal set in the campus and Manhattan final campaign reached, Stadium fund subscriptions will stand at \$375,000. The remainder of the fund required to complete the Stadium as a monument to the Aggie war dead and as a valuable feature of the college equipment will be obtained among alumni and friends of the college living outside the state who have not yet been canvassed except by mail, and among alumni and friends living in Kansas who have not yet been given an opportunity to contribute.

KOCH WILL LEAD THE AGGIES

Last Season's Guard to Pilot Next Year's Team

Fritz Koch, running mate of Captain Arthur Doolen last season in the guard position, will lead the Aggies next year in basketball. Koch was elected last week after the election had been postponed several times.

Koch is a junior in rural commerce this year. His home is at Burlington. He won his second letter in basketball this season and played in every game on the Aggie schedule.

Koch was a sure man on defense and the scoring column showed that he could shoot when it was necessary. Opponents during the last season said Koch was one of the stiffest guards in the valley, because he always was on the ball.

The first campaign for the stadium funds was planned for the spring of 1922. It seemed advisable to limit this campaign to Manhattan and vicinity, and to use a portion of the funds there raised for the construction of the west seating deck of the stadium.

Five business men also were appointed by the president to help work out the plans for the campaign: P. G. Dalton, Carl Floersch, Judge F. R. Smith, John McClung, and Fred Boone, and a K. S. A. C. Memorial Stadium Corporation was incorporated to handle the business connected with the stadium.

"Make It Unanimous" Is Slogan

The first section of the Aggie Memorial Stadium was assured by April 27, 1922, when the students' pledges amounted to \$76,000. The total pledged on the hill by noon was \$99,000. Manhattan approached her goal of \$62,500 with \$40,000 subscribed. The faculty on this campus pledged more per capita than any other faculty on a like proposition. The slogan adopted was "Make It Unanimous." More than 65 of the 70 organizations that took part in the campaign subscribed 100 per cent to the fund.

With the east and west sections constructed the drive now is on to complete the stadium and build the walls. This is expected to be the final campaign.

COLLEGE DISPLAYS WILL BE FEATURE OF FLOWER SHOW

To Display Tropical Collections and New Varieties of Gladiolas.

Cooperation between the department of horticulture at K. S. A. C. and the Manhattan Flower association is evidenced in the displays by the college which will be a feature of the Manhattan Flower show to be held June 6.

New varieties of gladiolas will be an exhibit of central interest, and displays of snapdragons and sweet peas also will have a prominent place in the show. If weather conditions continue favorable many varieties of outdoor flowers will be ready to exhibit. This group probably will include carnations, verbenas, and bel-

ardias. A tropical exhibit from the collection of the college also will be displayed. This will include bananas, oranges, lemons and grapefruit.

The Manhattan Flower Association, of which Dr. J. W. Evans is president, has on its executive board two members of the college faculty, R. A. Seaton, dean of the engineering division, and Arthur Helder, landscape architect and professor of Horticulture.

K. S. A. C. IN ORATORICAL ASS'N

Next Contest of Association to Be at Emporia April 2

Announcement has been made by Dr. Howard T. Hill, head of the department of public speaking, that K. S. A. C. has been admitted to membership in the Women's State Oratorical association. The next contest in the association will be held at Emporia, April 2. Tryouts for contestants will be announced later.

"Show that Aggie fight—make it unanimous and finish that stadium." —M. S. Thompson, president, Purple Masque.

STADIUM NEED GROWS YEARLY

FIRST ATHLETIC FIELD IN BLUE-MONT SCHOOL BLOCK

Students and Faculty Pledged Liberally in First Campaign for Memorial to War Dead

Attendance at K. S. A. C. football games has increased from the banner crowd of pre-Missouri Valley days 2,000, to the record of 13,000 made last fall at the K. U. game. Since the college entered the Missouri Valley conference in 1911, attendance at the major games has increased to such an extent that until last fall it was impossible to seat the crowds who came. This prevented hundreds of persons from attending Aggie games.

First Grandstand in 1908

The block where the Bluemont school now stands was used as the college athletic field until 1910. The first grandstand, built there in 1908, became a part of the wooden grandstand later placed on the athletic field. The southwest corner of the college campus formerly was an orchard which was leveled up for a playing field in 1911 under the direction of President H. J. Waters.

In 1919 the president appointed a

committee of alumni and faculty members to establish a suitable memorial for our graduates and students who gave their lives during the World War. A questionnaire was sent out to find the type of memorial desired, a monument, campanile, or building. The majority favored the building. Some pledges for the memorial were obtained as early as this.

Jardine Appoints Committees

In 1921 the athletic board began to take seriously the advisability of building a stadium. They talked with President Jardine and laid before him temporary plans for construction. This fit in with the memorial plans, so President Jardine then appointed the following committee to take over the work: for the athletic board—Dr. H. H. King, chairman, Mike Ahearn, and Dean R. A. Seaton; for the alumni—Dean J. T. Willard, Dean H. Umber-

ger, and Cliff Stratton; for the faculty—Dean F. D. Farrell, Dean Helen B. Thompson, Dean R. R. Dykstra, and Dr. J. V. Cortelyou.

This committee met for the first time on December 20, 1921. After much discussion it was decided to recommend to the president that a stadium be erected as a memorial to our graduates and students who lost their lives during the World War. Doctor King appointed Dean Seaton, Mike Ahearn, and Doctor Cortelyou to look over preliminary sketches and cost estimates for a 5,000 seating section of the stadium.

The action of the committee met with the approval of the president.

English Model Suits —The Leader With Young Men!

That much-desired "atmosphere" which young men demand in their Suits characterizes this particular model and gives it an unquestionable pre-eminence. The semi-straight back of the coat which has no vent, the semi-blunt vest and the straight hanging trousers makes it distinctively the leading style for Spring. Furthermore, its easy fitting lines make it decidedly smart.

Two Button Single-Breasted Suits

as illustrated here, and as created by an authoritative designer of stylish clothes for young men.

We have this model in three attractive price groups but the one we wish to especially bring to your attention offers you a truly remarkable saving. The price is

THE STADIUM

The drive to complete the K. S. A. C. Memorial Stadium has been instituted. \$50,000 is needed to accomplish the work. It must be subscribed.

This edition of the Collegian is full of reasons as to why we need the Stadium and as to why it must be completed. They are many and varied and all worth while. But we wish to emphasize one consideration which we believe is more important than all the rest.

Only about one-third of the students at present enrolled have subscribed their quota to the Memorial. The most fitting thing the remaining two-thirds can do is to give their share when they are solicited.

Loyalty and love for K. S. A. C. cannot be shown by loud-mouthed boasts. True regard for anything, whether it be a human being or a significant pile of stone, can only be shown through service and sacrifice. It will undoubtedly require actual work and much sacrifice for most students to give the \$40 individual quota asked. But the satisfaction that results from such a sacrifice, even though one receives no tangible reward, is far greater than any material thing. For a day or so you may wear the little white tag which makes it known to everyone that you did your share. But the real reward comes later; when your heart beats proudly as you gaze upon the finished Stadium, a massive, towered symbol of strength which indicates true love of your college and of its men who died on the field of battle.

Jacobs Easter candy. The College Drug Store.

As a word of explanation to freshmen, new students, old students, professors, the public at large, and the sophomores, and any others who do not know we might say that the Stadium drive has nothing to do with golf and neither is it a proposed highway.

It is not a plan to tear down the present structure and build a new one. That was just done a few years back.

No, the idea is only to raise a bit of money, a mere trifle to be sure, but money nevertheless. With this money more mass and weight is to be added to the stadium as it stands. \$60,000.00 ought to have a lot of weight.

Providing the R. O. T. C. doesn't object to losing their rifle cleaning space the plans for building the walls enclosing said space will go forward rapidly.

With the help, aid, and advice of Harry we are engaged in formulating an elaborate scheme for beautifying the entire structure.

Seeing as how the athletic department can stand to be crowded for some years yet we intend to use the enclosed space for a series of halls. Dance halls, pool halls, eat halls, and overalls. It is a much better idea than using the rooms for boxing and wrestling. (Athletic wrestling.) Space can be provided for the other kind if necessary.

On the field itself we intend to plant flowers. In the center will appear the words "S. S. G. A." made by beautiful purple lilies and set off by rhubarb plants.

On either side will be planted asers, cannas, hyacinths, cactus and even horseradish. Around the track will be planted rows of peonies, hollyhocks, and carrots. It will give the appearance of a sunken garden. The garden comes from the fact that there are flowers and the sunken comes from the fact that it is sunk.

The goal posts are our master pieces, though. Purple sunflowers

below and white poison ivy chambering over the cross bar. Marvelous!

As for the games they can be played on the other athletic field.

Anyway, the thing is worth getting behind and pushing or getting in front and pulling.

But seriously, any loyal Aggie

could afford 40 bucks to see the experiment tried. And cheer up, perhaps our plan won't go through.

Along the line of 'improbabilities,

perhaps Touchdown II can rate a little niche in the wall which he can term his home. Perhaps.

Send the Collegian home.

Society Happenings

George Winter, '23, of Downs was a guest at the Delta Tau Delta house last week. Mr. Winter left Saturday night for Mexico, where he will be in the consular service.

Miss Helen Green, a former instructor of home economics at the college, is visiting friends at the college this week.

The Browning-Athenian banquet was held Saturday evening at the Gillett hotel.

Gamma Phi Delta entertained with a house dance Friday evening at 1521 Leavenworth. Music was furnished by the Sigma Phi Epsilon fraternity. The chaperones were Prof. and Mrs. J. O. Faulkner, Mr. and Mrs. A. W. Long, and Mrs. Elizabeth Brooks.

Chi Omega held their Founders' day banquet at the chapter house Sunday evening. The decorations were carried out in the colors of cardinal and straw.

Phi Kappa Alpha fraternity entertained with its annual spring party Friday evening at the Elks' hall. Music was furnished by the Nebraskans, with Orville Andrews as entertainer. Garnet and gold were the colors of the decorations in the drop ceiling and in illuminated baskets of flowers in each corner of the room, and in the large basket in the center. Cut flowers were used about the walls. Silver vases with the Greek letters were given as favors.

Dinner guests at the Alpha Xi Delta house Sunday were Miss Lois Wilby and Miss Thelma Brown.

Sigma Nu fraternity entertained Saturday evening with the eighth annual 11 and 12 division convention party at the cafeteria. Music was furnished by Ted Morris's "Topeka Troubadours." Special guests were Prof. and Mrs. H. H. Haymaker, Prof. and Mrs. H. W. Marston, and

Prof. and Mrs. A. P. Davidson. Twenty-five representatives from other chapters were the guests of this chapter.

Mrs. Amy Jane Leazenby-Englund entertained with a bridge luncheon Saturday afternoon at the country club.

Acacia fraternity entertained with their annual spring party Saturday evening at the Elks' hall. Fraternity colors were used in the decorations.

Invitations for a reception to be given Wednesday, April 15, at the Woman's club in honor of Mrs. Nellie Kedzie Jones, Mrs. Henrietta Willard Calvin, Mrs. Agnes Fairchild Kirschner, and Miss Abby Marlatt have been issued by Mrs. J. T. Willard. Mrs. W. H. Sanders, Mrs. Emma H. Bowen, Mrs. Phoebe McKeen, and Mrs. B. L. Remick.

Alpha Rho Chi entertained with a house dance Friday evening. Art Dodge's orchestra furnished the music. The chaperons were Mrs. Libbie Hughes, and Mrs. Inez Sargent.

Mr. and Mrs. E. L. Askren entertained with a spring party for Lamb-

da Chi Alpha at the country club Saturday evening. The rooms were decorated in the fraternity colors, and silver vanity cases were given for favors.

Misses Ruth Broadhurst, Elizabeth Strickensinger, and Thelma Gossard of Horton were in Manhattan to attend the Acacia spring party and spent the week-end at the Alpha Theta Chi house.

Alpha Theta, Chi held initiation Sunday morning, April 5, for Ermine Werts of Republic and Gladys Stover of Manhattan.

Kappa Phi Alpha held initiation services Sunday morning for R. L. Youngman, Kansas City, Kan.; Otis Bair, Minneola; and H. B. Carter, Vinita, Okla.

R. P. Campbell, '13, of Attica, was a visitor in Manhattan on Thursday.

Delta Sigma Phi announces the pledging of Chester S. Smith, Fellsburg; James C. Wagner, Concordia; and Paul C. Perry, Fredonia.

Phi Omega Pi held a formal spring

party Friday evening at Woodman hall. Lattice work and blue lights were used in the decorations and a large illuminated pin hung at one end of the hall. Favors were silver cigarette cases.

"The Stadium is for everybody. When every student, every faculty member, every college employee, and every citizen in Manhattan gets his name on the subscription roll everything will be fine and everybody will be feeling good. The 100 per cent idea is bigger than the Stadium can ever be."—H. W. Davis.

"I believe that Kansas Aggies should finish what they start. The mammoth monument erected in memorial is a wonderful symbol of college spirit. Let's make it go."—Laureda Thompson, president, Women's Athletic association.

"I believe the Kansas Aggies should finish the Stadium because it is the most useful, the most representative and the most fitting memorial

that can be built for athletics."—Harry McGee, captain of 1925 football team.

"The signals for the kickoff of the stadium campaign will be called Tuesday, April 7. Come on gang, let's go!"—Joe Anderson, quarterback on Aggie team.

"Spring has come, snow has went. Some birds haven't gave a cent." Lyle "Cocky" Ernst, Senior Ag.

Sigma Delta Chi Installs
Sigma Delta Chi held installation of the new officers Sunday afternoon in the chapter room. Those who were installed are Russell I. Thackrey, Manhattan, president; Fred Shideler, Girard, vice-president; Gene Conklin, Hutchinson, secretary; Gerald E. Ferris, Chapman, treasurer; Newton Cross, Manhattan, Quill correspondent.

Easter—and Spring

Everywhere signs of Easter—the gateway to long months of flowers, sunshine and gayety are reflected in fashion displays atune with the demands of the season. Styles are as fresh and fragrant as Easter lilies, variety being the keynote.

COLE'S

"THE HOME OF STANDARD MERCHANDISE"

SIX BASKETBALL LETTERS GIVEN

DOOLEN IS ONLY THREE LETTER MAN ON SQUAD

Four Out of the Six Letter Men Will Be Back for 1926 Season

Six varsity basketball letters were awarded to members of the 1925 Kansas Aggie squad at the regular meeting of the athletic board of the college this week. Last year the same number of letters were granted, and again this season only the names of men who actually played in a majority of the games of the season were recommended by Coach C. W. Corsaut.

Men receiving "K's" are C. A. "Lefty" Byers, forward, Abilene, sophomore; Kerney Bunker, forward, Kansas City, Mo., senior; Eric Tebow, center, Scandia, junior; Fritz Koch, guard, Burlington, junior; A. H. Doolen, guard and captain, Manhattan, senior, and H. M. Weddle, center-guard, Lindesborg, junior.

Doolen's Third Letter

The only man on the squad to hold three letters is Doolen, and he is the only man who has won his letter in another branch of sport. Doolen made two football letters playing end. Koch, Tebow, and Bunker were awarded their second letter while Byers and Weddle, both sophomores, were given first letters.

Four of the six letter men will be back for the 1926 season, those expecting to return being Koch, Tebow, Byers, and Weddle.

Freshmen Also Decorated

The board also voted to award freshman basketball numerals for the first time in the history of the college, but turned down a request for awarding of freshman baseball and track numerals. Freshman numeral men are R. R. Osborne, Kansas City; Elmer Mertel, Kansas City; G. J. Davidson, Kansas City, Mo.; George Dieus, Hutchinson; Albert Edwards, Fort Scott; James Price, Manhattan; Austin Lovett, Larned; and F. L. Hawkins, Manhattan.

COUNTY CONTEST HERE

Music, Spelling, and Athletic Events Make Up the Schedule

Plans for the county contest which will be held at the college April 11, virtually are completed. Music, spelling and athletic events are the three divisions of the contest. It is expected that every school in the county will have representatives in at least one of these. The spelling contest especially is expected to draw a large entry list.

Practically all of the contests will be in progress at the same time, it was said. The spelling contest will be held in the east and west wings of Waters hall. The music contests will be in the auditorium and the athletic events on the athletic field. Judges in the various contests will be selected by the college. Prof. Ira Pratt will select the music judges and it is expected that the athletic officials will act as judges in the athletic events.

SIX AGGIE TEAMS ENTERED IN K. U. RELAYS APRIL 18

Bachman Will Enter Teams in Only Those Races in Which Good Time Has Been Made

Six relay teams have been entered by Coach C. W. Bachman in the Kansas relays, track classic of the middle west, which will be held Saturday, April 18, at Lawrence. In addition to the relay entries the names of seven men have been entered in individual events.

The relay events in which Aggie

teams are entered are the 440-yard, 880-yard, one mile, two mile, and four mile, and the medley. It is probable that teams will not participate in all of these races, but only in those races in which the squad makes the best time.

Indications are that the mile team will be virtually the same team as that which ran at the Missouri Valley indoor meet at Kansas City. They are K. G. Knouse, Valley Falls, captain; H. A. Brockway, Olathe; H. L. Davis, Effingham; and H. A. Russell, Topeka. This team is expected to turn in a much better record than at the valley meet, partly because they are in better condition, but chiefly because they will have keener competition than was afforded by Missouri in the indoor meet.

The four mile relay team probably will be the same team that beat Notre Dame at Urbana but was outdistanced by the Ames quartet. Since that time two of the members of this team have become Valley record holders. The probable milers are A. J. Balzer, Inman, holder of the Valley indoor two-mile record; Ralph Kimport, Norton, holder of the mile record; P. A. Axtell, Argonia; and E. E. Coleman, Alma. Four other men also are entered in this event, E. von Riesen, Marysville; M. L. Saltee, Long Island; R. P. Aikman, Anness; and V. H. Butterfield, Manhattan.

The personnel of the two-mile relay team will depend largely on the men

selected to run in the four mile race. Bachman said, because the same men are entered in both events. The medley relay team may be chosen from the entire list of runners entered in other events, since almost all of them have been entered in this race.

In the sprints and dash relays, 440 and 880 yards, the entries are C. P. Foote, Wichita; Don Meek, Idalia; K. R. Bunker, Kansas City; H. D. Sappenfeld, Abilene; and T. M. Shaw, Manhattan.

P. R. Carter, Harveyville, who tied

for second place in the Valley indoor meet, will enter the pole vault. H. D. Sappenfeld is entered in the broad jump. Two weight men probably will compete, J. F. Gartner in the discus throw, and F. A. Brunkau, Ellinwood, in the shot put.

"If the growth of the college is to be rational and balanced then it is essential that the stadium be completed as soon as possible," G. A. Reed, business manager of 1925 Royal Purple.

STUDENTS

For vacation—traveling position. Give age and full details in letter. —William Hughes, 300 Goodrich Building, Kansas City, Mo. 11-Tu.

Marian Randles, '24, who is teaching clothing work in the rural high school at Wilsey, visited friends at K. S. A. C. recently. She reported a very interesting year at Wilsey and says that she plans to attend the semi-centennial celebration of the division of home economics.

THREE TEAMS SURVIVE CUT

FIRST BASEBALL GAME SCHEDULED FOR APRIL 6

Only Three Letter Men Are Back—Will Play Nine Games Here and Six Away

Three full teams survived the first cut in the Kansas Aggie baseball squad, announced yesterday following practice. The men remaining on the squad are considered as varsity candidates, and will be ineligible for intramural competition, Corsaut said. Though only three letter men are back in school, the new men have come through in such shape as to make prospects even better than last season, when the nine was made up mostly of veterans.

Conroy Is Mainstay

Bernard Conroy, the only letter man on the pitching staff, is expected to be the mainstay among twirlers, as he won eight games in the past two years to four defeats.

Joe Greer, a former letter man at Ames, also is looking "mighty nice" in the pitching role, with Marsh, Caraway, Snyder, Byers, Logan, and Hays all showing enough to be counted as regular possibilities.

Positions are beginning to simmer down to a contest between one or two men, with favorites developing in nearly every case. M. B. Miller and Huey are expected to handle most of the catching work.

C. W. Brion, Ada, has made good at first after being shifted from the catching job, while second base has E. von Riesen and "Red" Lutz as candidates. Guy Huey, a letter man, at third, and Captain "Shorty" Karns at shortstop complete the infield.

Outfield Hard to Dope

The outfield is somewhat harder to "dope." Lyle Munn, football captain, is showing a tendency to develop into the regular left fielder, and probably will stay in that place if his batting average keeps up.

Meek and Smith in center field, and Harter and Huey in right field are other leading outfielders.

The outfielding list also contains the names of Krause, Mills, Reid, and Walker as men of varsity calibre.

The first game of the season is April 6, with St. Marys at Manhattan.

The schedule:
April 6—St. Marys at Manhattan.
April 11—Open.
April 17 and 18—Missouri at Manhattan.

April 24 and 25—Oklahoma at Oklahoma.

May 1 and 2—Nebraska at Manhattan.

May 7 and 8—Kansas at Lawrence.
May 15 and 16—Oklahoma at Manhattan.

May 19 and 20—Nebraska at Lincoln.
May 27 and 28—Kansas at Manhattan.

W. A. A. SPRING HIKES START FOR THOSE WHO WISH POINTS

One Point Awarded for Each Mile, Maximum Number Is 40

Spring hiking began for girls, who are making points for W. A. A., March 30. A point is awarded for each mile hiked under supervision but a maximum of 30 points can be made in this way in one semester.

Most of the hikes will be five and ten miles in length and will start from the gymnasium at 5:10 o'clock on the afternoons scheduled. There will be a twenty-five mile hike to Junction City April 25.

The following schedule has been posted: April 2, 10 miles; 6:10; 8:10; 14:10; 16:10; 20:10; 22:10; 24:10; 25:25; 28:10; and 30.5. May 1-10: 4:10; 6:5; 7:10; 8:10; 11:10; 12:10; 13:10; and 14:10.

BACHMAN SHINES IN MANY LINES

AGGIE FOOTBALL COACH HAS
MANY ACCOMPLISHMENTS

Inventor—Author—Publisher—Family Man—Track Coach—Football Coach—That's Wildcat Mentor

Inventor, author, orator, family man, whom a great number of people all the time football coach of the Kansas Aggies. That's Charley Bachman whom a great number of people know by his coaching title, but few by his other accomplishments.

Since coming to K. S. A. C. Bachman has developed a habit of turning out football teams that have done things Aggie teams of the past were unable to accomplish. Since "Bach" has been here an Aggie team has finished second in the valley race, the highest standing since the Wildcats went into the conference. In 1923 his team established what is believed to be a world's forward passing record, completing 67 per cent of all tries, and last fall it defeated Kansas and broke an 18 year jinx.

In track the names of Watson, Gallagher, Riley, Erwin, and more recently Kimport and Balser are sufficiently well known to speak for Bachman's record. As a public speaker "Bach" is credited with having raised \$66,000 for the stadium in a single hour by a brief address.

Few people, however, think of him as Prof. C. W. Bachman, author, inventor, and somewhat of a scientist. Recognizing the fact that the problems of the high school coach are not those of the college coach, "Bach" evolved "A Manual of Football for High Schools" as a guide book to suit the financial, mental, and physical limitations of the high school team. It has been three years since the book came off the press, but it remains one of the few usable texts on the subject.

Invents Charging Sled

The first major venture of the Aggie coach into the inventive line was with the automatically registering charging sled, which was perfected this winter. A charging sled, for those who do not know, is in its most common form a device somewhat resembling a "go devil" hay rake with the wheels removed, which football men shove around the field with their shoulders to develop strength.

Also in connection with football Bachman introduced the ultra-violet ray for clearing up infections. It also seemed to have a beneficial effect on the system in general, so use was continued by the track team. In the valley indoor Kimport and Balser of the Aggies broke records.

Goods Now on Sale

Next "Bach" and Dick Hanley, coach of the Haskell Indians, turned their attention to protection of football men, believing that the existing protectors allowed of too many injuries. So after months of confer-

ring, carving, and trials in actual practice, football pads of harness leather were produced, the first time such material had been used in football.

Today a large sporting goods house is manufacturing the product. It was "Bach" who helped experiment and kept after the chemistry department of K. S. A. C. until it turned out a real Royal Purple leather dye for Aggie headgear, the first time anything better than a deep blue had been available.

Between times, when he is not "authoring" or inventing or coaching, Bachman plays with the family, Miss Margaret Bachman, who is learning to talk fluently, and Charles W., Jr. His wife, whom he met while she was a summer school student at K. S. A. C., says that he is "mighty handy around the house" and it is stated on excellent authority that he is a "mean man on the dance floor."

NO PAGEANT THIS SUMMER

Absence of Miss Burr Causes Omission of Summer School Pageant

The third number in the trilogy of pageants prepared by Miss Osceola Hall Burr for the Kansas State Agricultural college will be omitted from the summer session program this year. Miss Burr has accepted an offer to teach in the Boston School of Expression and Dramatic Art during the coming summer session, and will leave soon for the east.

In 1922 Miss Burr presented the first number of her trilogy, taking the personal responsibility for the success of the pageant and working without pay. The work was so highly appreciated that by request Miss Burr repeated the same pageant in the summer of 1923, when she was a member of the summer school faculty. In 1924 she presented the second number of the trilogy. President W. M. Jardine wrote Miss Burr: "It is the greatest piece of work you have yet done. I want to see you complete the trilogy, and am sure the third number will exceed, if possible, the other two."

Aside from her Manhattan pageants, Miss Burr has written and directed a number of pageants throughout the state. The biggest cast was the one presenting a pageant in Atchison county, in which 1,800 persons participated. The biggest attendance was in Leavenworth county, where the spectators numbered 12,000.

Fat, Slim or Otherwise, Girls Like to Test Their Courage

Whether "tis nobler to learn to swim, and in the learning suffer the whole gamut of fears, or to remain near the edge of the pool and thereby incur the scorn of others is the question confronting the girls in the swimming classes.

The purposes in learning to swim are the same as those for going through hell week, taking out an assignment, fighting dragons, or keeping house—to test courage. Swimming tests the courage of all kinds of girls—fat girls, slim girls, and regular girls.

To plunge, the girl must possess a dare-devil spirit, an unbreakable disposition, and a dorian, to replace the complexion lost in submerging. The dorian may be carried in the toe of the bathing slipper as, invariably, the feet remain above water while the head sinks. To float is a much harder task. However, several of the girls have successfully floated 10 seconds.

The dive is the supreme test. Each victim manages to stand erect on the diving board, arms outstretched—for mercy—and then comes the final command, "Dive!" No splash. The diver is seen standing on the diving board. Again comes the command, "Dive," and again the scenery remains unchanged. "DIVE!" This time a choice is offered between the fear of being thought a coward and fear of the water. The frantic girl chooses the water and falls gracefully in. Her courage has been tested.

DAIRY CONTEST IN APRIL

Two Divisions in Annual Judging Contest This Year

Arrangements have been completed for the annual dairy judging contest which will be held April 25. The contest this year will be divided into junior and senior divisions. In the senior division any one is eligible to

enter but any student that has taken advanced dairy judging, is required to enter this division. The junior division is for those who have taken only beginning dairy judging or those who have not had any course.

Another difference in this year's contest is the senior division will give oral reasons for their placings. However in the other division the reasons will be written. Members of the faculty of the dairy department will grade the reasons and determine the winners. The entire contest will be under supervision of this year's dairy judging team.

The three high men in the junior division will be awarded a gold, a silver, and a bronze medal respectively. First prize in the senior division is a gold watch, and \$5 in cash will be the second prize. Many farm publications are also offering yearly subscriptions as individual awards.

Last year's contest was won by C. W. Thole who is now a sophomore in agriculture.

E. B. Keith, '13, and wife announce the birth, March 14, of a son whom they have named Donald Ernest. Mr. Keith is a member of the faculty of the chemistry department of K. S. A. C.

"We need the Stadium finished so that every Aggie student can participate in some form of athletic sport."—Arthur Doolen, captain of basketball, 1925.

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, APRIL 14, 1925

NO. 55

HEDBURG WINS TWO CONTESTS

AGGIE DEBATERS TAKE TWO FIRSTS AT LOS ANGELES

Invited to Appear Before Pi Kappa Delta Convention—Oklahoma Boy Is Victorious

Robert Hedburg, Kansas Aggie debater who is on the trip to the west coast, took first place both in the oratorical contest and the extempore speaking contest at the Pi Kappa Delta convention of the west coast Saturday at Los Angeles, according to a telegram received here yesterday.

The convention included representatives from all the larger schools along the west coast. Pi Kappa Delta, as an honorary forensic fraternity, is made up of students who are interested in oratory and debate. Hedburg, who was invited to appear in the contests as a representative of the college, received the decision in both branches of the contest.

Japanese Debate Heated
Hedburg and Cecil E. Walt, accompanied by Prof. H. B. Summers, debate coach, are making a trip which includes virtually all the western part of the country and are meeting with most of the larger schools of the western states.

Last Wednesday the two took part in an open forum debate on the Japanese question at Leland Stanford university, in which the argument became quite heated, according to reports.

"Mike" Emerson Liked It

J. G. Emerson, formerly a member of the department of public speaking at the college, and now on the staff of Leland Stanford, said the debate, which was entirely extempore, was one of the most interesting he had heard, particularly after the injection of personal feeling into the talks by a Japanese student at the university, who took violent exception to some of the statements of the Aggie debaters. No decision was given on the debate.

The Aggie team appeared Monday night at the University of Arizona at Tucson and Wednesday night will be at the University of Texas, Austin. This is the last debate scheduled for the team. The debaters are expected home about April 20.

The first debate of the trip was with Colorado Aggies; the second with the University of Wyoming; the third, Montana Aggies; the fourth, University of Montana; then came the state college of Washington, Oregon Aggies, and Leland Stanford.

WILDCATS OPEN SEASON FRIDAY WITH MISSOURI

First Conference Game Here—Conroy or Greer and Miller Probable Battery

BULLETIN

The Aggies lost the first game of the season Monday to St. Marys, 5 to 1. Greer opened the game in the box, and later was replaced by Conroy. Errors and failure to hit when hits were needed caused the Aggie defeat, according to Coach C. W. Corsaut.

Rated as exceptionally good dark horse material, the Kansas Aggie baseball team will open up its home season and conference season Friday afternoon against the University of Missouri nine, which also will meet the Aggies here Saturday. Both games will be played on the new varsity diamond west of the engineering building provided it is in condition for play, otherwise hostilities will be shifted to the city park.

In spite of the fact that only three letter men have returned from last year, the Aggies are seriously to be considered as championship contenders. Iowa State, title claimants last year, reports a sparkling infield, but a shortage of pitchers. The Aggies have both an infield and pitchers who have looked well in practice, and the game with St. Marys yesterday and the Tigers this week end should determine their real worth.

Coach C. W. Corsaut has worked out a batting order which promises to be even stronger than the "murderer's row" which pulled several games out of the fire last season. In the first Aggie-Tiger game here last year the Wildcats overcame a seven-run lead to win, and the second barely fell short of accomplishing the same feat.

The probable line-up for the first Missouri game will include Conroy or Greer as pitcher; Brion on first; Lutz on second; von Riesen on third; Karns at short; and Miller catching. The outfielders probably will be Huey

in right field, Al Cunningham in center field, and Munn in left field.

In the opening games of the southern end of the valley loop Kansas lost a pair to Oklahoma. The St. Marys team defeated Nebraska last week.

POULTRYMEN HERE IN AUGUST

Committees Are at Work Preparing for Conference

The American Association of Instructors and Investigators in poultry husbandry will meet in its seventeenth annual meeting in Manhattan August 12 to 15. This meeting will follow the annual National Baby Chick meeting which will be held in Kansas City the first week in August, according to Prof. L. F. Payne, head of the department of poultry husbandry at K. S. A. C.

Dr. M. A. Jull, senior poultryman of the United States bureau of animal industry at Washington, D. C., has called a meeting two days previous to the national meeting for the purpose of standardizing egg-laying contests, flock certification, and accredited hatchery work. One or more delegates from each state and eight or 10 specialists from Washington are expected to attend this standardization meeting.

Fifteen committees have been appointed by President Farrell to arrange for local preparations and entertainment of the delegates. General King, commandant at Fort Riley, has promised his cooperation on one afternoon's entertainment.

CRAWFORD ACCEPTS PLACE AS JARDINE'S ASSISTANT

Head of Journalism Department on Year's Leave—Rogers Will Be Acting Head

The position of assistant to Dr. W. M. Jardine, United States Secretary of Agriculture, tendered to Prof. Nelson A. Crawford, head of the department of journalism, sometime ago, has been accepted. Professor Crawford has been granted a year's leave of absence from the college and will take up his duties in Washington, D. C., May 1.

Professor Crawford is the author of a widely recognized text, "Ethics of Journalism." He has published a book of his verse, "The Carrying of the Ghost," and his "Anthology of Great Christian Hymns" has recently been published by the E. Haldeman-Julius press.

At present Professor Crawford is associate editor of The Midland magazine, one of the editors of the Journalism bulletin, and a contributor to several magazines. He was elected president this year of the American Association of Teachers of Journalism. For two years he was president of the Kansas Authors' club and is its critic this year. For several years he has been National Chancellor of the American College Quill club.

Since 1910 Professor Crawford has been connected with the K. S. A. C. department of journalism and since 1915 has been head of the department. His intentions at present are to return to the college after he finishes his work with the department of agriculture.

C. E. Rogers, associate professor of journalism, will be head of the department during the absence of Professor Crawford. Professor Rogers came to the college in 1919 from Kansas City where he was assistant literary editor of the Kansas City Star.

POEM WILL BE MAY FETE THEME

Stevenson's "Land of Nod" Will Be Basis for Festival

Stevenson's poem, "The Land of Nod," will furnish the theme for the May Fete this year, which will be presented on the stadium field, May 15, by the women's athletic department.

About 250 women of the college will participate in the various dances and parts of the fete. Children from the grade schools will give the May Pole dances. The college band is working on the pieces which it will play during the fete.

Special dances will include "The Makers of Dreams," and the "Dance of the Winds." Some of the characters will be: Yama-Yama girls, sugar plums, stick candy, jack-o'-lanterns, bees and butterflies, brownies and bats, the Bogie-Bogie man, and the Sandman and his retinue.

Miss Florence Clark is assisting with the costumes and Miss Frances Schepp is planning the design of the rostrum.

Laureda Thompson, as president of W. A. A., is chairman of the production and the training for the parts will be given by instructors of the women's athletic department, Miss Ruth Morris, Miss Geneva Watson, and Miss Myra Wade.

JUBILEE ACTORS SHOW OLD WAYS

EDUCATIONAL CHANGES PART OF SEMI-CENTENNIAL

Costumes and Methods of Last Century Will Be Shown by Group of College Players

Amusing and entertaining episodes portraying the progress of education will be a feature of the Home Economics Jubilee program, presented by the local branch of the American Association of University Women at the college auditorium Friday evening, April 17. Girls of the Home Economics association and men students of the college will take the leading parts. Children from the Manhattan kindergarten will be used in the first scene.

The old English dame school, with its horn books and stocks for the children, the academy, and the grammar school will be depicted in the first three scenes. All costumes will adhere strictly to their periods, and will show the idiosyncrasies of the times.

Beginning of Coed System

College education for women really begins in 1841, when three girls were granted degrees from Oberlin college, and gains a foundation with the establishment of a college by Matthew Vassar in 1865. An early K. S. A. C. cooking class, agronomist, and presided over by Mrs. Nellie Kedzie Jones, who wears her little widow's cap, is one of the episodes. It is followed by the final scene, "The Spirit of Education."

Old Songs and Dances

There will be atmospheric interludes of music and dancing. Prof. Ira Pratt, dressed in the costume of the time, will sing old English ballads. Miss Dorothy Brown will sing the tinkly, tuneful songs of the Civil war period. She will play her accompaniment on a historic old piano, borrowed for the occasion from Mrs. S. M. Fox of Manhattan. A square dance will give modern dancers a chance to see how it used to be done.

Miss Grace Hesse is general executive chairman of the affair, and Mrs. Blanche Forrester is production manager. Those in charge of details of the presentation are as follows: properties, Miss Emily Bennett and Mrs. Lucile Rust; costumes, Misses Mary Polson and Florence Clarke; interludes, music, and dancing, Misses Elsie Smith and Myra Wade; publicity, advertising, and tickets, Misses Izil Polson and Anna Sturmer.

The show will begin promptly at 8 o'clock. Admission will be 50 cents, and no seats will be reserved.

Among those who will take part in the productions are Mrs. Blanche Forrester, Miss Mary K. Wilson, Miss Josephine Copeland, Miss Josephine Brooks, Miss Lora Hilyard, Miss Olympia Kubic, Miss Dorothy Brown, Miss Ruth Long, Mr. Ira Pratt, Mr. James Price and Mr. Frank Garrett. Miss Dorothy Sanders, Miss Lillian Kammerer, and Mr. James Price of the Purple Masque fraternity will be assistant directors.

Many Invitations Accepted

The home economics jubilee promises to be a bigger event even than the division expected, Dean Justin said. Invitations were sent to persons interested in home economics and the college. Acceptances received to date include those from Agnes Saunders, Pittsburg, Kans.; Bella Nelson, Topeka, Martha Harbord Foreman, Manhattan, Amanda Rosenquist, Osage City, Alice Skinner, Topeka, Jessie M. Hoover, U. S. Department of Agriculture, Bureau of Dairying, Washington, D. C.; Lita Bane, executive secretary of the American Association of Home-Economics, Washington, D. C.; Ivy Barber Selvidge, Columbia, Mo.; Ethel Snodgrass, Director of home economics at K. S. T. C., Hays, Rosalie Godfrey, manager of M. U. cafeteria, Columbia, Mo.; Frances L. Brown, state demonstration agent, Stillwater, Okla.; H. J. Waters, Kansas City, Zoe Wolcott, Pittsburg, Kan.; Mrs. Ella M. Kedzie, East Lansing, Mich.; Miss Abbie L. Marlatt, Madison, Wis.; Mrs. Henrietta Calvin, Philadelphia, and Mrs. Nellie Kedzie Jones, Madison, Wis.

PROMENADE ALL!

That we haven't any people "out west" who can dance the good old-fashioned dances seems to be the general belief of our eastern friends. But this viewpoint will be changed for those who see the square dance which will be put on by the Manhattan Dancing club in the fifth interlude of "Episodes" Friday night. There will be a fiddler who will make everyone want to get up and try to follow the calls of the caller.

Crawford Weds Miss Shaver

Miss Muriel Shaver, senior in industrial journalism, and Prof. Nelson Antrim Crawford, head of the department, were married yesterday in Kansas City, Mo. The ceremony was performed at St. Mary's Episcopal church.

Mrs. Crawford is a daughter of A. N. Shaver, a banker of Cedarvale. Guests at the wedding included Mr. Shaver, Mr. N. A. Crawford, Sr., of Lincoln, Nebr., Professor Crawford's brother, R. P. Crawford of Lincoln, and Dr. H. J. Waters, former president of the college.

Professor and Mrs. Crawford returned to Manhattan last night. About May 1 they will drive to Washington, where Professor Crawford will assume his duties as assistant to Dr. W. M. Jardine, secretary of agriculture.

PROM AND HOP PLANS COMPLETE

ANNUAL CLASS AFFAIRS WILL BE HELD APRIL 17 AND 18

Shofstall Will Play Both Nights—Juniors Will Receive the Crook and Freshmen, the Key

Arrangements for the junior-senior prom have been completed, and the big party will be held as previously announced on Friday night, April 17. The freshman-sophomore hop, exclusive underclass party, will be held the following night.

"Chuck" Shofstall and his "hot" seven piece orchestra, from Kansas City, have been engaged for both parties.

Due to a mix-up of dates last fall, the home economics jubilee pageant and the prom were scheduled for the same night. In order that plans for both functions would not have to be altered, the S. S. G. A. gave the prom manager special permission to hold his party from 10:00 p. m. Friday to 1:30 a. m. Saturday, so as not to interfere with the pageant.

Both parties will be held in the gym. The decoration committees have been aided in their work by Prof. A. H. Helder of the landscape architect department, and they promise something very novel in the line of decorations.

Chance for Excitement

Little interest has been manifest on the surface over the presentation of the sacred Shepherd's Crook by the senior class to the guardianship of the juniors. However, muffled conversation and mysterious signs between a certain group of sophomores might indicate that more excitement than the mere formality of dancing will entertain those attending the prom. The Crook will be presented to Paul Brantingham, president of the junior class, by Laureda Thompson, president of the senior class.

According to Guy Faulconer, manager of the prom, ticket sales and other indications point to a lively time. Admission to seniors who attended last year's prom will be \$1.25. All juniors attending will be charged \$2.50, which will include their class dues for this year, and admission to the prom next year.

Hop Program Secret

The freshman-sophomore hop will be to the underclassmen what the prom is to the upperclassmen. The program has not been made public, but Jack Spurlock, who is manager of the party, has assured a good evening's entertainment.

"We hope to make this one of the best hops that has ever been held," Spurlock said yesterday. "It is the only time that the freshmen and sophomores have a chance to get together to hold an exclusive entertainment, so we are anticipating a large crowd."

The proverbial key, which has been handed down from class to class, will be entrusted by the sophomore class president, "Cap" Souder, to Paul Gartner, freshman president. Tickets to the hop are \$2.00.

STADIUM PLEDGES \$12,460

Drive Falling Short of Quota Set by Workers

The pledges secured since the opening of the stadium drive a week ago now amount to \$12,460. All the student workers have not reported and the results of the downtown canvass are not known. \$9,411 of this amount was obtained at the special assembly last Tuesday.

More than 100 persons, students and faculty members, were present at a banquet at the cafeteria on the evening before the launching of the drive. Here canvassing materials

were distributed and plans were made for the carrying forward of the campaign. As the workers were unable to complete their canvasses before Easter vacation the time has been extended and they will continue their work this week.

The goal was set for \$40,000 but at present, according to the members of the K fraternity and W. A. A., who are managing the drive, it is thought that perhaps no more than \$25,000 will be secured.

Eleven organizations have subscribed 100 per cent. They are: Sigma Phi Epsilon, Omega Tau Epsilon, Sigma Alpha Epsilon, Phi Sigma Kappa, Delta Tau Delta, Phi Kappa, and Triangular fraternities; and Pi Beta Phi, Alpha Xi Delta, and Gamma Phi Delta sororities. Solicitors for several other organizations report that they have but a few pledges to secure to reach the 100 per cent mark.

A chart in Anderson hall shows that 48 per cent of the student body has subscribed, 73 per cent of the faculty, and 91 per cent of the Kansas alumni.

Last Tuesday morning there were two discharges made from an anti-aircraft gun as the \$5,000 and \$10,000 marks were reached. Throughout the drive a discharge will be made as every mark which is a multiple of \$5,000 is reported.

All who will have rooms which can be used to house visitors at the Golden Jubilee of the division of home economics, April 16-17-18, are requested to call 536J.

PREXY TO JARDINE'S PLACE ON AGRICULTURAL BOARD

Farrell Accepts Appointment to A. B. A. Commission to Fill Vacancy of Former President

Acting President F. D. Farrell has accepted an appointment to the Advisory Council of the Agricultural Commission, American Bankers Association, to succeed Dr. W. M. Jardine, who resigned shortly after his appointment as Secretary of Agriculture because of the pressing demands upon his time by his new duties.

The appointment of F. D. Farrell was made by William E. Knox, president of the American Bankers Association. The other members of the Advisory Council are H. L. Russell, Dean of the College of Agriculture, Wisconsin university; and W. R. Dodson, Dean of the College of Agriculture, Louisiana State university.

The Agricultural Commission of the American Bankers Association is made up of a banker from each of the twelve federal reserve districts and was formed to bring bankers, farmers, and authorities from the state agricultural colleges into a closer relationship.

GRADUATE OF K. S. A. C. IS STATE HIGHWAY ENGINEER

Walter Van Buck Receives Appointment from State Highway Commission

Walter Van Buck, who was graduated from K. S. A. C. in 1911 with a B. S. degree, has been appointed state highway engineer by the state highway commission. Mr. Buck was assistant highway engineer from 1919 to 1922.

Mr. Buck was born near Oskaloosa, in Jefferson county. In 1917 he was recalled to K. S. A. C., his alma mater, and granted the professional degree of engineering.

He has served as assistant engineer for the city of Manhattan, city engineer at Junction City, and for two years he was in charge of the asphaltic construction of the A. Jakes company, paving contractors. For the past two years he has been field engineer for the Portland Cement association.

Mr. Buck served 26 months in the World War with the American forces. He was commissioned a captain and assigned to the Twenty-third engineers.

FESTIVAL SEATS ON SALE MONDAY

XIX IN CHARGE OF TICKET SALE CAMPAIGN

Fifty Girls Will Canvass College, City, and Nearby Towns—Mojica Is Headliner

Ticket sales for the ninth annual Spring Festival and Guest week, April 28-May 2, will begin Monday, April 20. The sales campaign has been taken over by XIX, an honorary society composed of senior women. Miss Catherine Bernhiesel of Hartford is chairman of the ticket selling

JULIA CLAUSSEN

committee, which includes 10 members of XIX, each of whom will be assisted by four girls. These 50 girls will canvass the business and residence sections of Manhattan, the college, and nearby towns. Season tickets for the week are \$3.00 and \$4.00.

Five noted artists and a symphony orchestra par excellence are the outstanding features of the ninth annual festival. Seven programs, two of them matinees, are included in the schedule. Prof. Ira Pratt, director of the department of music, states that the college talent this year is of the highest order in his four years at K. S. A. C., and that the entire Festival program is the most uniformly attractive yet given.

Mojica the Headliner

Jose Mojica, young Spanish tenor with the Chicago Grand Opera company, will sing Friday evening, May 1. Senor Mojica has been scoring triumph after triumph this winter with Mary Garden in "Pelleas and Melisande." Said the Boston Post of February 8: "Debussy's 'Pelleas' draw to the opera house yesterday afternoon the most enthusiastic audience of the season. Every possible place in the house was filled." The first part of Mojica's program will be straight recital; the second part a group of Spanish folk songs and love songs, sung in costume. Albert Hougelet, pianist and composer, and an artist in his own right, will accompany Mojica.

Julia Clausen, prima donna mezzo-soprano with the Metropolitan Opera company, is an artist whose peer has probably never been heard in Manhattan. Before joining the Metropolitan opera Mmes. Clausen sang for five seasons as a member of the Chicago Grand Opera company. She has sung leading roles in all parts of the United States, at the Royal Opera, Covent Garden, London, and at the Theatre des Champs Elysees, Paris.

Tiffany and House Soloists

Marie Tiffany, soprano, whose name "is on every tongue where music is recognized," is beginning her ninth season with the Metropolitan Opera company.

Judson House, the third member of the trio of visiting artists who will sing solo parts in the two oratorios given Saturday afternoon, May 2, is an American tenor who has engaged in practically every form of musical activity open to a singer—recital, concert, oratorio, opera, and soloist with orchestra. At the age of 20 he appeared as soloist with the New York Symphony orchestra under Walter Damrosch, and since then he has risen steadily in the musical world.

The Minneapolis Symphony orchestra, the only attraction on the Festival week program which has been heard in Manhattan before, will give two concerts, the afternoon and evening of May 2.

Formation of an interracial organization for the purpose of breaking down the racial barriers on the campuses of American universities and colleges got under way at Ohio State university when representatives of different groups met and organized an interracial committee to function the entire year.

UNFAIRNESS

The athletic board of K. S. A. C. recently voted to award freshman numeral sweaters to first year athletes in basketball but turned down a recommendation from the K fraternity to award sweaters to qualified yearling competitors in baseball and track. Freshman football sweaters have been given for several years.

This is the most unfair and partisan legislative act that the athletic board has ever passed. Such a ruling is completely out of tune with all ideas of democracy and common justice. Those in charge of athletics often comment on the fact that there is a lack of material to make up representative teams in track, particularly, and in baseball. These two sports are rightly classed among the group of majors, but they literally have to fight for any consideration. Winning track and baseball teams furnish just as much advertisement and prestige for the school, and are just as valuable as a means of physical training, as are football and basketball teams. And competitors in these sports, whether freshmen or not, are entitled to just as much reward for their efforts. Varsity athletes in all four majors are awarded the official block "K" of the college. Why shouldn't the freshmen be honored likewise?

The only possible reason for denying the yearling track and baseball men numeral jerseys is the monetary cost. But if even this reason is viewed from the standpoint of better athletics, it is rendered absolutely negligible. Baseball and track are admittedly the least powerful of the four majors; in order to build them up to the level of the others extra attention must be paid to them. The best way to create interest in a sport is to make it a winner. And the accepted manner of creating "winners" is to build up powerful teams while the future competitors are still freshmen. Freshmen will naturally show more interest in first year competition in sports where they receive a reward than when they merely receive exercise.

But disclaiming any prior right of track and baseball for freshman numerals over football and basketball, it should be plainly evident that the two former sports deserve at least as much consideration as the other two.

In the interest of fundamental fairness and justice in K. S. A. C. athletics there are but two alternatives open to the athletic board. It can either vote to award freshman sweaters to men recommended by the track and baseball coaches or it can repeal its decision to award emblems to football and basketball yearlings. Undoubtedly the most sensible course to follow is to grant all freshmen competitors in major sports the numeral jerseys.

Judge for Yourself

To the Editor:

Why do you write such asinine stuff about the condition you term as "wrestling"? You talk like a child who still believes in Santa Claus.

You admit in your editorial that

there is a very widespread indulgence in the "sport," not only at K. S. A. C. but over the entire country. But have you, with all your supposed wisdom, ever thought that there might be a good and sufficient reason for such a condition?

Statistics show that the American family is developing an ever growing tendency to become non-existent. Statistics also point out that the number of divorce cases is increasing enormously each year. Why? The family has always been considered the very backbone of America, how does it happen that it is losing its grip?

The answer is simple but some will consider it so daringly frank as to be almost untenable. Plainly stated it is: Human beings are primarily animals, they must have sex pleasures, and they refuse to be bound to a life of marital unhappiness merely to gratify such pleasures.

To explain. Take a normal youngster, either a boy or a girl. During his impressionistic days he is taught about the sanctity of the home, of the greatest thing in the world, love. He has the capacity to go to almost infinite length of happiness and service with his chosen mate. He desires to become a part of a family, to spend his life in service and love. His ideals are so high—and so flimsy. He still believes in the Santa Claus of true regard and affection.

Then he becomes old enough to look about and choose his life-mate. The young man discovers the girl, the young woman the man, of their childish dreams. The man proposes marriage but meets coldness and refusal. The young woman uses all her attractions but the man is uncaring. This one experience will puncture the glossy bubble of dreams for more than a few. Others will try again, and maybe again. But then the child has used all his suds; he can blow no more bubbles. He is still alive, nevertheless, but he isn't human any more, his heart is sealed against feeling, and he becomes an animal. He "wrestles," and "mugs," and "pets," and indulges in even more satisfying sexual pleasures.

Objectors will rise up unanimously and condemn me for writing this. They will ask why the family held together before if it wasn't successful. And I answer that governmental power and traditional religion kept it intact. Less governmental interference, but principally less consideration of handed-down religion, has changed this condition today. Men and women no longer find it necessary to marry in order to satisfy sexual desires, if marriage means unhappiness in other channels of interest. The less bold marry for a time and then divorce. Some others endure

unhappy marriage because of certain animal pleasures they wouldn't have the nerve to take in an unmarried state.

Objectors will also ask about the future. And they have reason to do so. In answer to this I refer to history. Roman civilization fell principally because of unlicensed debauchery. The reaction of this catastrophe created the family ideal again. But this same pendulum is swinging back again, not only in America but all over the world.

Some will state that such a reason as applied to college students is ridiculous. They aren't mature enough. It is said. And in quite a number of cases this is true. The condition in college is not caused entirely by loss of ideals but because the ideal wasn't there in the first place. They are part of the overwave that must go with the rest; they are affected by the reaction.

Please don't misunderstand me. There are some who do live happily in families; because they were favored enough to marry a person who at least approximated their ideal. Others incapable of enduring affection also enjoy themselves as best they may. But there are enough broken-hearted dreamers to start a reaction, and this reaction is constantly growing. The children of the modern generation will present a problem that bids fair to overthrow everything.

This is a very sketchy explanation of the reasons but if I use any more space this communication will be too long. It will probably go in the wastebasket anyway.

Cynic.

The College of Emporia is contemplating placing in its administration building a huge map of the world on which a tiny light will burn night and day for each College of Emporia man or woman who is in mission service.

Pretty hard to make it read "E. E."

WHY waste time and energy trying to twist yourself into an engineer when your natural bent is away from matters technical? It isn't necessary.

In these days, industry, and particularly the electrical industry, is so broad as to require men in all lines of work. Engineers of course, but there is plenty of opportunity for men in the purchasing, manufacturing, accounting, legal and other commercial departments as well.

There's a good rule to follow. Find out what work you are naturally fitted for—then go to it. And isn't it better to be a first-rate A. B. than a second-rate E. E.?

Do Clothes Make the Woman?

Some say that a woman's success depends upon her clothes. During the past three centuries woman's dress and woman's place have changed radically. Both her costume and her activities have become more like that of the man. From the frilly furberlows, the sighs and the weeping heroines of yesteryear have evolved the straight simple garments, the self sufficiency and the enterprise of the modern woman.

Costumes actually worn in past centuries will appear in "Episodes"—Three Centuries of Women, the Golden Jubilee dramatic program. Fifty characters, all authentically costumed according to the periods represented, from 1650 up to the present, will make this dramatic story one long to be remembered.

See it Friday, April 17, at 8 o'clock in the college auditorium. Admission fifty cents.

Society Happenings

Kappa Phi held pledge and installation services in the home economics rest room, Tuesday evening, April 7. The following girls were pledged: Virginia White, Emily Abel, Ruth Kimball, Wilma Nelson, Maryvyn Hawthorne, and Lenora Spence. The new cabinet officers who were installed were: President, Agnes Horton; vice-president, Gladys Stover; secretary, Ruth Bell; treasurer, Bernice O'Brien; corresponding secretary, Esther Babcock; and chaplain, Verna Lawrence.

Phi Omega Pi announces the pledging of Ruth Graham of Lovington, N. M.

The retiring cabinet and board of the Y. W. C. A. will entertain the new cabinet with a picnic supper Wednesday evening. Mrs. Henrietta Willard Calvin, who founded the Y. W. C. A. at K. S. A. C. and for whom the home economics building is being dedicated, has been invited as an honored guest.

Triangular fraternity announces the pledging of Clyde Stonestreet of Cullison, and G. W. Morris of Hoyt.

The Farm House fraternity entertained with a formal spring party at Harrison's hall, Thursday evening. The fraternity colors of green, white, and gold were used in the decoration of the hall. Pines Serenaders furnished the music. Silver vases bearing the fraternity crest were given to the girls as favors. The chaperones were: Mrs. M. L. Manley, Dean H. Umberger, Prof. and Mrs. George Dean, Prof. and Mrs. C. D. Davis, Prof. and Mrs. F. W. Bell, Prof. and Mrs. H. E. Reed, and Prof. and Mrs. A. D. Weber. Representatives from the Farm House chapters in Wisconsin, Nebraska, Missouri, and Illinois were special guests.

The Delta Tau Delta fraternity entertained with an informal spring party at the Bluemont pavilion Thursday evening. Shofstall's orchestra from K. U. furnished the music for the dancers. The pavilion was decorated with mural paintings of the futuristic design in the fraternity colors of white, gold, and purple. A circular light over the orchestra pit threw violet rays about the room. Leather vanities with the fraternity crest were given as favors. The chaperones included: Mrs. Martha Foreman, Prof. and Mrs. E. A. Knoth, and Mrs. and Mrs. R. H. Henderson.

The Triangular club fraternity entertained with a spring party at Elks' hall, Thursday evening. Burns orchestra from Junction City furnished the music.

Miss Lucile Maust of Emporia visited at the Kappa Delta house during the Easter vacation.

The music department presented the following program in recital Monday afternoon in the college auditorium: "Ich kann's nicht Fassen" (Schumann), and "Mein Liebster ist ein Weber" (Hildach), Esther Ankeny; "Fantasia in D minor" (Mozart), Edith Reel; "Vezzolette e care" (Falconieri), and "Gla il sole dal Gange" (A. Scarlatti), Mildred Michener; "Rigaudon" (MacDowell), Thelma Brown; "Madrigal" (Chaminade), Blanche Berry; "What the Forest Brook Bubbles" (Poldini), and "To the Sea" (MacDowell), Bertha Lapham; "My True Love Hath My Heart" (Cole), and "The Star" (La Forge), Lucile Evans; "Polonaise in C sharp minor" (Chopin), Mildred Michener; "Nina" (Pergolesi), and "The Asra" (Rubenstein), Donald Brown; and "Soirs Bois" (Staube), Mildred Troutfetter.

"Vegetable Woman" of Cafeteria Finds Work Interesting

When students are eating at the college cafeteria they seldom think farther back than the steam tables concerning the preparation of their food. Preparing food for a bunch of hungry college students is as interesting and necessary a process as any on the Hill.

Mrs. N. F. Wood, who is called the

"vegetable woman" at the cafeteria, has prepared enough vegetables in the five years she has been working at the cafeteria to feed an army. She still likes her work and says, "I would rather work here in my own little vegetable room than in any other part of the building."

Her room is light and sunshiny, being in the southeast corner of the lower floor of the building. It is provided only with the equipment necessary to the preparation of the vegetables.

The most useful and most used of the equipment is the electric potato peeler. Most of the other vegetables can be put into the machine and peeled as carefully as if done by hand. The eyes of course are removed with a paring knife. The machine holds a half bushel of potatoes at once and scrapes them clean in two minutes.

The machine consists of a vat lined with rough stone which whirled around in an opposite direction from the lid which is also lined with the rough stone. A constant stream of water runs over the vegetables, washing the scraped skins down through small holes in the bottom of the vat.

The potato dicer, which prepares the potatoes for serving in French, Lyonnaise, and creamed style consists of a series of horizontal and perpendicular knives. The dicer and cabbage slicer both are operated by hand. From one and one-half to three bushels of potatoes are used each day, the amount depending upon the way they are served.

"I worked several years in the old cafeteria," said Mrs. Wood, "and I find the new one so much more convenient that I wonder how we ever managed before."

Mrs. Wood is the mother of 10 children. Five sons have graduated from K. S. A. C. and the sixth finishes this spring.

Where Were the Cooks' Aprons?

Did you ever see the picture of the girls in the cooking class of 1889 at K. S. A. C.? More real than the picture will be the girls in Episode V, who serve dinner to the visiting board of regents. The costumes will be duplicates of those worn by the old cooking class who served dinner in the long ago to a visiting board of regents. Mrs. Nellie Kedzie Jones was instructor in that class, and she will be there in her widow's bonnet. Ruth Long is Mrs. Kedzie in "Episodes" Friday night.

A field trip to Niagara Falls is to be conducted by the Geology department of Ohio State university the middle of May.

Graduate Starts a Candy Shop That Pays From the Beginning

Miss Lucile Hartmann, '21, of Hutchinson, is capitalizing on her ability as a candy-maker and has gone into the business.

She went home a short time before Christmas and made a small amount of candy. She tried to sell a few boxes and found that they went like hot cakes. Then came the inspiration to sell candy as a business. Immediately the basement of the Hartman home was converted into a sanitary candy kitchen and as a result the candy business is growing by leaps and bounds.

Commencing in earnest in her new work on December 9, she made 150 pounds of candy before the Christmas holidays, putting them up in attractive boxes labelled "Lucile's Home Made Candies." She puts her candy up in half pound, and two pound boxes. A few of her varieties are chocolates, bonbons, caramels, nougat, and log cabin roll.

"I know that my candies went into the states of Massachusetts, Ohio, New York, California, Colorado, Nebraska, Oklahoma, and Missouri at least," Miss Hartmann says.

INTERCLASS SWIMMING UP FOR WOMEN THIS WEEK

Junior and Senior Teams Have Been Combined

Interclass swimming meets will begin April 16 at 5 o'clock in the women's swimming pool with a meet between the freshman and sophomore teams. The junior and senior teams have been combined and the other meets will be: sophomore vs. junior-senior, April 21; and freshman vs. junior-senior, April 28.

The order of events for the meets will be: 50 foot free style race; side

stroke for form; 100 foot free style race; breast stroke for form; plunge for distance (two trials); candle relay; diving (plain front, running front, back, and optional, two trials); and relay.

Each class may have two entries in each event. Points awarded will be: relay—5 points for first; other events—first, 5; second, 3; and third, 1.

The following girls have qualified for the class teams:

Junior-senior — Betty McColn, Wichita; Laureda Thompson, Manhattan; Merna Smale, Manhattan; Anna Jacobs, McCune; Lillian Worster, Manhattan; Bertha Worster, Manhattan; and Katherine Whitten, Wakarusa.

Sophomore—Doris Dwelly, Manhattan; Lillian Kammeyer, Manhattan; Clara Gray, Aurora; and Doris Kimport, Norton.

Freshman—Ruth Frost, Blue Rapids; Fern Bowman, Harper; Clara Long, Idana; Olive Manning, Peabody; Catherine Lorimer, Kansas City, Mo.; and Lucile Parker, Leavenworth.

"LISTEN TO THE MOCKING BIRD"

A square piano! We've all dreamed of seeing one, and of hearing the tinkling tunes played by a maiden in the dainty dress of the Civil war period. The ability to play the piano was at that time the accomplishment of only a very few.

A SIX FOOT LINE FOR 1925 TEAM

SPRING FOOTBALL MAKES "BACH" AN OPTIMIST

Freshmen Will Compose Most of
Backfield When Wildcats Take
Field Next Fall

"If the class of 1928 is as well represented in stadium contributions as it will be on the football team next fall there will be very little need for contributions from the rest of the college," said Head Coach C. W. Bachman Friday night as he put the spring football men through their paces. The personnel of the two teams then on the field seemed to bear out his statement, for seven out of the eight backfield men were "fresh" and a majority of the line likewise was of the first year faith.

He's Wary of Optimism

Though Bachman, like most coaches who really know their business, is inclined to be wary of putting out material with a rosy tinged hue on advance prospects, the Wildcat mentor is very well satisfied with the Aggie prospects for 1925. A six foot line from one end to another, and a backfield averaging 170 pounds are beginning to shape themselves out as certain for the team next fall, barring an unusually high summer drop out rate.

"While the present sophomore class furnished an unusual amount of quantity to the 1924 football squad, the present freshmen are injecting a lot of quality into the team, and it's quality that wins football games," Bachman says.

1924 Backs Into Line

Most of the heavier members of last year's backfield are being shifted to the line to make way for the new men, though there probably will be veterans back for every line position except the two ends. Elwin Feather, fullback last fall, will alternate at end and fullback in the coming season. He is one of the fastest big men in the valley, and has shown even more aptitude for pass catching than for line smashing.

Zurlinden Pearson, 200 pound Aggie boxer, is out this spring and may make a varsity tackle. Pearson was an excellent high school man, but was forced out of competition in college by a knee injury which has healed up now.

Varsity Men Return

Two varsity tackles are expected back in J. W. Ballard, a 190 pounder, and Leland Keifer, two-letter man. Captain Harry McGee, Ramona, will fill right guard, while St. Tombaugh, left guard, has been shifted to center.

Price and Fleck, both of the freshman squad last fall, and Al Ehrlich, sophomore, are competing with Feather for end positions.

Other line men among the sophomores who will be back to bolster up

the team are Krysl, tackle; Stone, Scott, Hamler, and Anderson.

While the freshmen will have difficulty breaking into the line except on the two end positions, each practice session seems to increase the possibility that the varsity letter men of last fall will have a hard time breaking into the backfield unless some of the yearlings go stale when they get under competition.

Field in Good Shape

Among the varsity backfield men are Anderson, quarter; Feather, fullback; and Havley, Smith, Meek, and Dayhoff, halfbacks. Dayhoff may have enough weight to be shifted to the line.

Prominent among the freshman backfield candidates are Limes and Enns, quarterbacks; Haskard, Holsinger, and Boyd, halfbacks; and Douglass, fullback.

The football field has been well cared for since the close of the season last fall, and the sod seems to have acquired a permanent hold. In a year's time, from the 1923 to the 1924 seasons, it was raised out of the mud into one of the best in the valley, and 1925 playing will find it even better.

ORGANIZE WATERWAYS SECTION

Conrad to Attend Convention of
American Civil Engineers

A special waterways section will be organized at the annual spring convention of the American Society of Civil Engineers to be held April 21 to 23 at Cincinnati, according to Prof. L. E. Conrad, head of the civil engineering department. The dredging of the Missouri and Mississippi rivers is a possible project of the waterways section. Professor Conrad, as head of the Kansas section of the society, will attend the convention.

Three Oxford university teams are being captained this year by Americans. A. C. Valentine, former Swarthmore football star, is leading the lacrosse team; R. H. Snow, Rhodes scholar from Illinois, is captain of the University Fencing club; and E. P. Eagen of Colorado is captain of the University Boxing club.

JOBS FOR AGGIES

Ed. Note—For the remainder of the school year the Collegian will print a list of civil service positions which are open for Kansas Aggies, with the minimum salary offered and the closing date for submission of applications. Further information is on file at the Collegian office.

Plant Pathologist—\$3,800—May 5.
Junior Agronomist—\$1,860—May 9.

Assistant Scientific Aid, Grain Milling—\$1,500—May 29.

THE DAME SCHOOL—1650

A modern Manhattan kindergarten, transported back into the days of 1650 with the ruffling, the spinning, knitting, and sampler work of the older girls, and the manners lesson of the younger children, all under the direction of a widow of that time, will be a feature of the A. A. U. W. presentation of "Episodes" Friday night at the college auditorium. The part of the widow is to be acted by Miss Mary K. Wilson.

Cozy Inn, 1403 Anderson, for excellent light lunches and quality eats. We deliver night orders. Phone 1328X.

C. F. Joss, '21, formerly located in Chicago with the General Electric company, has been transferred to the Minneapolis, Minn., office of the same company. His address is 107 South Fifth street, Minneapolis.

Mount Olympus, the fabled gathering place of the Greek gods, was the first stadium. There, when Zeus and the lesser gods sought amusement, athletic contests were held for their pleasure. Later, in authentic times, Athens had her dramas and athletic

contests in large open air structures. These were tiers of seats surrounding large oblong open spaces with curved ends.

Prospect Lodge No. 676 I. O. O. F. meets every Thursday night at 7:30 at 1131 A Moro street, over College State bank. A cordial invitation is extended to all Odd Fellows to attend our meetings.

AGGIES WORKING FOR K. U. GAMES

RELAY EVENTS SHOULD BE
WILDCAT PICKINGS

Bachman Will Pick Teams This
Week After Tryouts—Light in
Field and Dash Events

Try-outs this week will decide who shall be members of the Aggie team which will go to the Kansas relays Saturday. C. W. Bachman, coach, announced today.

Aggie interest is centered chiefly in the relay events, which are Aggie meat this year, with Kimport, Balzer, Sallee, Axtell, Coleman, von Riesen, Aikman, Butterfield and several others available. Kimport and Balzer hold the Valley records in the mile and two-mile events, and are the center-poles on which Bach will build his "big top" for the circus.

Mile Team Same as K. C. A. C.

The four-mile, medley, and mile teams are the probable Aggie entries, Bachman said. Kenneth Knouse, captain; Davis, Russell, and Brockway made up the mile team at the Valley meet in Kansas City, and won their heat, but were out-placed in time, finishing in third.

With stiffer competition than was furnished by Missouri at that time, however, Bachman expects better time in the meet Saturday.

Carter in the Hurdles

P. R. Carter will go for the pole-vault, Bachman intimated, and probably will meet Lancaster of Missouri and McKown of K. S. T. C., who holds the meet record with 13 feet, ½ inch. John Gartner will represent the Aggies in the discus event, and Brunkau probably will try the javelin.

Norman Roberts will be the only Aggie entry in the hurdles. Don Meek, H. D. Sappenfield, T. M. Shaw, C. P. Foote, and K. R. Bunker are trying for positions in the dashes. All of them virtually are unknown quantities on the track.

KNOX ON BOXING COMMISSION

Representing Ahearn, "Bud" Is
Elected Secretary

H. W. "Bill" Hargiss, coach at K. S. T. C. of Emporia, was elected chairman of the state boxing commission at its first meeting Saturday in Topeka. E. A. Knox, director of physical education of the Kansas Aggies, who represented M. F. Ahearn, was named secretary of the body.

Leslie Edmonds, of Topeka, was appointed temporary executive secretary.

Under the terms of the bill, which provided for boxing in the state, only clubs, religious or fraternal organizations, which have been holding regular meetings one year prior to the date of the granting of a license, are allowed to stage fights. Bouts are limited to ten rounds of three minutes each and all fights are "no decision."

More complete rules for the holding of fights will be drawn up by the commission as soon as possible, according to Knox's report when he returned from the meeting.

Chapel cuts must all be made up at Northwestern university. Chapel probation is considered as important as scholarship probation.

HOME ECONOMICS GOLDEN JUBILEE EDITION

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, SATURDAY, APRIL 18, 1925

NO. 56

NOTED ALUMNAE GIVEN DEGREES

HONORARY TITLES CONFERRED
ON THREE FORMER AGGIES

Ceremony Followed by Trip Over
Campus—Jubilee Will
Close Today

Honorary degrees were conferred upon three graduates and former faculty members of the K. S. A. C. home economics division by President F. D. Farrell at the Golden Jubilee convocation yesterday.

The program of the Jubilee began Thursday with a 4 o'clock tea at the rest room in honor of the Jubilee guests. The evening was given over

MRS. HENRIETTA W. CALVIN

to "Reminiscences," a meeting in Recreation center presided over by Dean J. T. Willard. Omicron Nu, honorary home economics fraternity, held initiation this morning, followed by a breakfast at the cafeteria.

Degrees Granted Yesterday

The special convocation began at 10:15 Friday, and the invocation was pronounced by Dr. J. D. Walters, dean emeritus of the engineering division. "Then and Now" was the subject of the address given by Miss Abby L. Mariatt. Dean Willard presented the candidates and President Farrell conferred the honorary degree of doctor of laws upon Mrs. Henrietta Willard Calvin and Mrs. Nellie Kedzie Jones, and the degree of doctor of science upon Miss Mariatt.

The audience remained seated while home economics students and alumnae headed by President Farrell, Dean Willard, and Dean Margaret Justin marched out of the building. The procession made a tour to all the campus buildings in which home economics has been taught in the order in which they have been used. At each stop Dean Justin announced the years during which the building was used and the names of the persons who taught there, and some woman who had studied in the building gave a three minute talk.

Calvin Hall Dedicated

When the procession arrived at the present home economics building, President Farrell, after giving a brief review of Mrs. Calvin's contribution to home economics and to the college, christened the building "Calvin Hall" and the new name tablet was unveiled. A luncheon was served by the girls taking dinner work in the dining room of Calvin hall immediately afterward.

The Kansas Home Economics association held a meeting Friday afternoon, and the guests were taken on automobile tours over the campus. The banquet was held last night at 5.45 in the cafeteria. Miss Lita Bane, president of the American Home Economics association, and

Miss Margaret Corwin of Yale university were speakers.

"Episodes" a Feature

"The Education of Woman," a series of episodes, was presented at the auditorium last night by the local branch of the A. A. U. W., assisted by members of Purple Masque.

Meetings of the Home Economics association will be held today. Various exhibits are being held during the celebration in Anderson and Calvin halls, and Ellen Richards lodge is holding open house.

Mrs. W. M. Jardine, Mrs. F. D. Farrell, and Dean Justin will entertain at tea for the association and the honored guests this afternoon.

FARRELL IS MADE DOCTOR OF SCIENCE BY NEBRASKA

Honorary Degree Conferred on President in Recognition of Service to Agriculture

An honorary degree of Doctor of Science in Agriculture was conferred upon Acting President F. D. Farrell by the University of Nebraska Wednesday, April 15, in recognition of his service in agricultural interests throughout the entire country. This honor was conferred upon President Farrell while he was at the University of Nebraska to deliver the commencement address of the School of Agriculture.

Doctor Farrell is an educator of national reputation and has rendered excellent service to the entire country in the fields of experimental agriculture, as scientific assistant in cereal investigation in the United States department of agriculture, 1907-'10; associate professor of irrigation and drainage at the Idaho university, 1910-'12; assistant agriculturalist in western irrigation agricultural investigation, 1913-'14; and supervisor of agricultural developments on government reclamation projects for the United States department of agriculture.

In 1918 he was appointed dean of the division of agriculture at K. S. A. C. and this year was named to fill the position left vacant by the appointment of President W. M. Jardine as secretary of agriculture.

STADIUM FUND IS INCREASED

Last Week's Campaign Nets \$3,312.52—Alumni Lead in Subscriptions

Subscriptions received during the past week have increased the stadium fund, on the last campaign, to \$15,772.52, V. E. Whan, manager of the campaign, said today. Pledges this week amounted to \$3,312.52.

The alumni members of the college still hold a subscription percentage of 91, leading the other classes of subscribers by a safe margin. The faculty is second with 75 per cent, and the student body third with 52 per cent.

Only 50 of the 200 workers appointed at the beginning of the drive have reported into campaign headquarters so far, Mr. Whan said. This leaves 150 reports, and a material increase in the amount received is expected when these returns come in.

Whan has requested that all persons who have envelopes for the drive complete their lists and turn them in as soon as possible.

RILEY SETS NEW RECORD

Former Aggie Breaks World Record in 50-Yard Hurdles

Ivan Riley, former Aggie hurdle star, now with the Illinois Athletic club, broke another world record April 7, according to information received here this week. Riley made a time of 6.5 seconds in the 50-yard high hurdles at the Michigan A. A. U. Relay Carnival at Detroit. The race was on an indoor cinder track.

Only Eighty-five Years Ago

Miss Ferol Stickle of Manhattan, junior in home economics at K. S. A. C., wearing a costume of 1840. This is the type of dress worn by the coeds of Oberlin college, when, in 1841, the first women were granted degrees.

There were three girls in the senior class at Oberlin that year. They had completed the same work required of the men, and had written

orations. But it was not considered fitting for a woman to speak from a public platform, and the trustees of the college were in a quandary.

Finally, after long discussion, it was decided that the girls might sit on the platform during the commencement exercises, but their orations were read by the professor of rhetoric. This practice was continued for 18 years.

STUDENTS WHO CHEATED, OUT

THEY ARE SUSPENDED FROM
COLLEGE INDEFINITELY

Evidence on Cheating Turned in Largely by Students—Cheating Divided into Three Classes

Ten students have been suspended from college, ten more have forfeited their grades in some subjects and have been put on probation, and 10 other cases have been dropped this year on charges of unfairness in study, it was announced today by members of the faculty committee on cheating.

Cheating, roughly, falls into three classes, the chairman of the committee said. Probably the most prevalent type which has come to the notice of the committee is the use of "ponies" or answer lists in the preparation of examination and quiz papers.

Copying Hard to Detect

The second classification, and one which does not come before the committee to such a great extent, is copying from other students or asking questions from other students. One reason for the scarcity of cases in this phase of the work, however, probably is due to the fact that teachers can not be in all parts of the room at once, and cases go undetected. Other cases also arise in which the teacher is positive the student has received unlicensed help in his examination, but is unable to bring up proof and lets the case drop.

The third phase, which also is rather difficult of apprehension, is the use of the work of other students in preparing note-books or papers for handing in, which are supposed to be the original work of the student who receives the credit.

The 10 students who have been suspended from school went out for "an indefinite period." This ruling requires special permission from the president before the student may re-enter, or the lapse of one semester. About one-half of these students were suspended outright, and must forfeit all their grades for the semester. The remainder will forfeit their grades in the subjects in which they cheated, the committee members said, but will be allowed to continue their studies in other subjects until the end of the semester, when their suspensions will go into effect.

Warnings to Some

The cases which have been dismissed or placed on probation were warned, and given a complete definition of what, in the eyes of the faculty, constitutes fair dealing.

"Students apparently do not real-

ize the seriousness of cribbing," the chairman of the committee said. "Some of the cheating is what we call involuntary; that is, the student looks on another paper or asks a question in a quiz without any premeditated idea of violating the rules. Some of it, however, is premeditated."

"When grades are forfeited for cheating the mark is entered on the registrar's report as 'F for cheating' and is permanent. The record is included in all transcripts of grades and is a permanent black mark against the record of the student."

The use of two sets of questions which are alternated in rows, and the alternate seating of students during quizzes, coupled with increased observance on the part of instructors has reduced the "involuntary" or unpremeditated type of cheating to a considerable extent, committee members declared.

Much Evidence from Students

Faculty members also have been compelled to increase their care in checking over note-books and written reports to detect substitutions of the work of other persons than the one handing in the report.

Much of the evidence on the cases this year has been turned in by students, the committee report shows. This is taken as an indication of a general desire on the part of the student body to enforce fair play, but the situation still is serious, the committee said.

EXPERIMENT STATION MEN HOLD CONFERENCE HERE

Representatives Spend Two Days in Round Table Discussion and Inspection Trips

Representatives of the branch experiment stations held a two day conference at the Kansas State Agricultural college Monday and Tuesday. The purpose of the conference was to help the men organize and to discuss the problems of the branch stations.

Most of the time was spent in round table discussions led by men from the various stations. Monday afternoon was spent in an inspection of field experiments in progress at the agronomy farm and in crop improvement and cereal disease nurseries and in the station greenhouse. The sub-station workers and some of the main staff were entertained that night at dinner at the home of Deah Call. Tuesday's program consisted entirely of discussion. These are the men who attended the meeting:

Superintendent L. C. Aicher; A. F. Swanson, in charge of cereal crop investigations; R. E. Getty, in charge of forage crop investigations; A. L. Halstead, in charge of dry-land agriculture, Fort Hays Branch Station;

Superintendent B. F. Barnes; W. H. Von Trebra, Experimental Assistant, Colby Branch Station; Superintendent A. F. Wagner, E. H. Coles, in charge of dry land agriculture, Garden City; Superintendent T. B. Stinson, Tribune Branch Station; I. K. Landon, in charge of experimental fields in southeastern Kansas; Superintendent E. F. Chilcott, and J. B. Sieglinger, Associate Agronomist in charge of the Woodward Field Station, Woodward, Okla.

ELEVEN AGGIE MEN TO BE ENTERED IN KANSAS RELAYS

Will Enter Three Relays and Two Field Events—Annual Event to Be Held at Lawrence Today

Eleven Aggie track and field men will make the trip to Lawrence to enter the Kansas relays today, according to Coach Bachman.

Three relays and two field events are on the Aggie schedule. The mile relay, the four mile relay and medley relay will be run, and Philip Carter, Harveyville, will enter the pole vault and J. F. Gartner will throw the discus.

The mile relay team will consist of H. A. Brockway, Olathe; H. A. Russell, Topeka; L. L. Davis, Effingham; and E. E. Coleman, Alma. The members of the four mile team will be A. I. Balzer, Inman; Ralph Kimport, Norton; M. L. Sallee, Long Island, and P. A. Axtell, Argonia.

In the medley relay, Davis will run the 220 yard dash, K. G. Knouse, Valley Falls, captain of the 1926 track squad, will run the 440 yard dash, Kimport will run the half mile and Balzer will run the mile.

MRS. NELLIE KEDZIE JONES

Ticket Sale Begins Monday

"Fifteen hundred tickets sold for the 1925 festival," is the ambitious slogan of the Xix members who have undertaken the ticket sales for the ninth annual Spring Festival and Guest week at K. S. A. C. Miss Catherine Bernheisel of Hartford is chairman of the committee, composed of 10 members of Xix, each of whom has four girls working under her. These 50 girls will begin an extensive campaign Monday, April 20, and will canvass the college, the business and residence sections of Manhattan, and nearby towns. Season tickets are \$3.00 and \$4.00. Address mail orders to Prof. Ira Pratt, K. S. A. C.

Ray Wick, extension landscape gardener, spent several days at Parsons, Neodesha, Girard, and Olathe this week. He talked with Farm Bureaus and Chambers of Commerce on suggestions for beautifying school grounds and parks.

PHI KAPPA PHI MEMBERS NAMED

THIRTY-TWO NAMES ON LIST OF
HONOR SOCIETY

Professor Jay William Hudson Receives Honorary Membership—Six Other Faculty Members Named

At a meeting last Tuesday afternoon, 32 persons including 12 seniors, 13 graduate students, six faculty members, and one honorary member, were elected to Phi Kappa Phi, national honorary scholastic fraternity.

Three elections are held during the year for members to Phi Kappa Phi, in the fall, in the spring, and at the close of summer school. Not more than 10 per cent of the senior class are eligible to election. Eighteen seniors, or about 5 per cent of those eligible, were elected last fall on the showing they had made the first three years in college. The election Tuesday, together with the one at the close of summer school, will fill out the other five per cent.

Those Selected

These were selected at the meeting Tuesday.

Division of agriculture—Glenn M. Reed, Galesburg, first with 2.31 points out of a possible 3.00; George Montgomery, Jr., Sabetha.

Division of engineering—John F. Sheel, Earlton, first with 2.14 points; Clifford W. Eshbaugh, Manhattan; Delos C. Taylor, Harveyville.

Division of home economics—Ruth M. Kell, Manhattan, first with 2.37 points; Mary S. Dey, Wellington; Mabel E. Lamoreaux, Waterville.

Division of general science—Margaret A. Newcomb, Garnett, first with 2.32 points; Lona G. Hoag, Manhattan; G. Elizabeth Bressler, Manhattan; Daisy B. Floyd, Manhattan.

Thirteen Graduate Students

Thirteen graduate students were elected to membership. Five of these—Harold W. Brown, Petoskey, Mich.; Mrs. Lucille O. Rust, Altamont; Lewis W. Taylor, Manhattan; C. V. Williams, Manhattan; and Jean S. Dobbs, Manhattan—tied for first place with perfect records, having made "E" in every subject during the year. Other graduate students receiving the honor are: George A. Filling, Cuba; Henry I. Richards, Howard; J. R. Swallen, Abilene; Elma R. Stewart, Topeka; Paul B. Sawin, Buffalo, N. Y.; Allan P. Davidson, Manhattan; Louis C. Williams, Manhattan; and Osceola Burr, Manhattan.

The faculty members elected are: Prof. Howard T. Hill, Prof. Amy Jane Leazenby Englund, Prof. H. F. Llenhardt, Prof. C. H. Scholer, Prof. Paul Weigel, and Prof. Lillian Baker. Prof. Jay William Hudson is the honorary member elected.

Only Ten Per Cent Eligible

While the rule that not more than 10 per cent of the seniors are eligible for membership is strictly adhered to, not more than 10 per cent of the seniors from any division are elected. Graduate students are not included in the quota from the senior class. Not more than one half the graduate candidates, who have had at least a year's residence here, are eligible to membership.

Last fall the number elected from each division was as follows: agriculture, 3; engineering, 5; general science, 5; home economics, 4; veterinary medicine, 1.

A COOKING CLASS OF 1890

Reading from left to right, in each row, they are: Callie (Conwell) Thoburn, '91; May Seerest, '92; Jennette Zimmerman, '91; Bird Seerest, '92; Mary Kemp, f. s. ('88-'90); Alice (Vall) Waugh, '92; Doris (Kinney) Riddell, f. s. ('87-'90); Susie (Hall) Linscott, '93; Irene Bridgman, f. s. ('89-'90); Nora (Baxter) Endregham, f. s. ('88-'91); Nellie (Sawyer) (KEDZIE) Jones, '76; Kate (Oldham) Sison, '92; Elizabeth (Edwards) Hartley, '92; Martha Cottrell, '94; Florence (Beverly) Smith, f. s. ('88-'90); Julia Green, f. s. ('88-'90); Lucy Ellis, '95; Jennie Green, f. s. ('88-'90); Ava (Hamill) Tillotson, '92; Sara (Bayles) Young, f. s. ('87-'91); Effie (Gustaf) (Frazier) Melton, '92; Phoebe (Turner) Clothier, '94; Allie Crooks, f. s. ('87-'90); Mattie Kemp, f. s. ('88-'90).

CALVIN HALL

Calvin hall, which was christened yesterday in honor of Mrs. Henrietta Willard Calvin. Mrs. Calvin was one of the early graduates of the home economics division, and is one of the foremost educators today in that work.

DISHONESTY

This issue of the Collegian carries on the front page a story containing some definite facts about the cheating problem.

Twice previously this school year suggestions concerning the question have been printed in this column. But the magnitude of the offense and the severity of the punishments involved cannot be too forcibly impressed upon the student body.

Cheating is merely a form of dishonesty; a trait that is universally condemned. The average student does not countenance dishonesty in any other phase of life, why should he in scholastic work? There is no basis whatever for judging the practice of cheating to be right.

Even the most elementary thinker, considering the problem from a personally selfish angle, should be able to reason out the sensible attitude. And, if he has the slightest amount of common sense, he will act accordingly.

The absence of the colm from the last issue might have been caused by the editor; or possibly the composing room didn't get it in the make-up; and again maybe the typesetter didn't set it. Then perhaps the reason it didn't appear was caused by the fact that nothing was written over the Easter vacation.

Yes, that may have had a bit to do with it.

Anyway, so few missed us that an apology is really not necessary. The space was admirably filled though. Some people actually thought the wrong head had been given to the Echoes.

But we disclaim any credit or discredit for what appeared. The "Cynic" out-cynic-ed our wildest dreams. Compared to his cheering sermon we were a pleasant optimist. Hereafter we retire to the obscurity of general pessimist and private woman pesterer.

We also hate to talk asinine stuff, but really isn't there a Santa Claus?

And another point that is not quite clear. If the youth of today grow up with high but filmy ideals and then lose these ideals because the dream of happiness is punctured by some one who grew up with the same ideals, how can it happen?

Can it be that the increase in divorces is in some way related to the increase in marriages?

That is a bit sketchy, but, —

Webster states that a vacation is a freedom from duty. The school granted a vacation and yet the professors refused to let it be such. Room for S. S. G. A. action.

And the next time a vacation is granted it will be only fair to make it a full week. One hates to miss one class and not another. One prefers to miss them all.

The XIX girls are selling tickets to some festival or other. We'd like to know who in blazes these 19 women are.

Harry is feeling rather down this week. When he came back from Easter vacation and opened his mail box a moth jumped out and bit his thumb. The bite didn't seriously injure him, but the moth died.

What every woman knows—nothing.

A lot of people want to be cynical and can't. They are only crabby.

Judge for Yourself

Editor of The Collegian:

For the sake of college students who may have been influenced by the article in the "Judge for Yourself" column signed by "Cynic," may I offer a few suggestions.

1. The "Cynic" is unbalanced. The medical department should employ a psychiatrist to deal with such cases, rather than to have them dealt with thru the public press. He seems to have some sex perversions and rationalizes any extreme notion he may hit upon. For example, he argues that any form of free love a person cares to indulge in is proper, since we are rapidly losing our ideals and will soon follow Rome in a wave of lasciviousness. Because we have an instinctive tendency and feel its urge within us is sufficient reason, he thinks, for our acting at once upon the impulse. If that is true then we should be justified in

breaking a show window to get a diamond, grabbing a box of chocolates when hungry, walking in on a private party out of curiosity, or choking to death the man who "beat our time." Civilization, as represented by law, social rules, Christianity, etc., is nothing more than a method developed or controlling and directing native tendencies. A person who thinks that such tendencies should be allowed free play in any way he selects, belongs in the state hospital.

2. The "petting," "wrestling," "necking," "mugging," etc., so flippantly discussed in recent years is not evidence of a passion which finds no outlet in home life and therefore must take this avenue of expression. It is the outward indication of inward maturity, preparatory to mating. The special pattern it takes in close dances, stalled autos, picture show petting, etc., is due first, to the fact that we now have dances, autos and picture shows which the last generation did not have and second to the relaxing of an over-cautious supervision by the old folks.

3. There are other forces in life besides sex, some Freudians to the contrary notwithstanding. Home-life is not unsatisfactory in every respect even though imperfect in many respects. It offers opportunities for the satisfaction of such deep seated and powerful instincts as hunger, resting, conversation, ownership, desire for approval, parental activity and others, besides those of sex and mating. No one can expect home life to be happy and ennobling if it is undertaken for the sole purpose of giving license to unbridled passion. Our cynic turns out to be no cynic, but a libertine, who would persuade others to accept his philosophy so that they may all have a glorious fling together.

Life is good and beautiful for those who can stand the sunshine and it is not necessary to abandon the American home to satisfy the perverted ideals of a few stray psychopaths.

P. P. BRAINARD

Associate Professor of Psychology

On Other Hills

Every seat in the Stadium will be on a curve and the seating plane will be slightly concave, so that each seat will afford a full view of the playing field. The length over all from north to south will be 660 feet and the width over all 300 feet. The wall will be 40 feet high, the two towers at the entrance will be 58 feet and the other four 48 feet high. The seating capacity of the completed stadium will be 21,700, and the cost approximately \$500,000.

A research fellowship in the chemistry of perfumes and essential oils has been endowed at Columbia university.

Two instructors at the University of Wisconsin have been referred to the faculty by the senior council be-

cause they did not leave the room during examinations. The honor system states that all faculty members shall leave the room during examinations.

Gertrude (Grizzell) Praeger, '08, wife of Herman A. Praeger, '08, finds the radio to be a strong tie to K. S. A. C. She writes to Dean Margaret Justin of the division of home economics that a home and family constitute her very busy career.

Thirty years after the first inter-collegiate football game in the United States, that between Harvard and Yale in 1876, the Yale Bowl was erected. It is built on the plan of which the Coliseum is the classic ex-

Colorado university soon will enter into another branch of sports if present plans materialize. Construction of a \$1,000,000 lake, four miles east of Boulder, by the Public Service Bureau of Boulder will provide an ideal place for rowing. If opponents can be obtained and the cost does not prohibit this sport will become a reality in Colorado. The lake is two miles long and one mile wide.

Classes in parent-training will be offered at the University of Iowa for three weeks this summer. Special conferences relating to the organization of child study groups and such special subjects as obedience, punishment, truth and falsehood and like problems will be considered.

A "matrimonial agency" has been instituted at Ottawa university. Two sophomore girls guarantee anybody a date for 25 cents.

Courses in first aid and mine rescue are being given to senior engineers at Arizona university.

Boxing matches at University of Syracuse will be discontinued because of the death of one of the students

Friday, April 17

Junior-Senior Prom, Nichols Gymnasium.

Saturday, April 18

Freshman-Sophomore Hop, Nichols Gymnasium.

Phi Delta Theta spring party, Elks.

Mrs. W. M. Jardine, Mrs. F. D. Farrell, and Miss Margaret Justin will be hostesses at a reception to be given at the president's home Saturday afternoon in honor of Mrs. Nellie Kedzie Jones, Mrs. Henrietta Willard Calvin, and Miss Abby Marlatt, who were granted honorary doctor's degrees during the Home Economics Jubilee.

The noted out of town guests besides Mrs. Kedzie Jones, Mrs. Calvin, and Miss Marlatt will be: Miss Norma Talbert, dean of the division of home economics at Oklahoma A. and M.; Miss Bella Nelson, supervisor of home economics of the Topeka high school; Miss Jessie Hoover of the United States department of agriculture, Washington, D. C.; Miss Lita Bane of Washington; Mrs. Iva Selva of Columbia, Mo.; Miss Ethel Snodgrass of the department of home economics of Hays Teachers' college; Miss Rosalie Godfrey, manager of the University Commons, University of Missouri; Miss Frances Brown, home demonstration agent, Stillwater, Okla.; Miss Zoe Wolcott of the department of home economics of Pittsburg; Miss Margaret Corwin, executive secretary of the graduate school of Yale; Miss Helen Rose, head of the home economics department of the Lawrence high school; Miss Elizabeth Sprague, head of the home economics division at the University of Kansas; Miss Louise J. Lahr of the division of home economics at Wittenburg college, Springfield, Ohio; Mrs. Ella Gale Kedzie, East Lansing, Mich.; and Miss Alma White of the College of Emporia.

Phi Kappa Theta held pledge services Wednesday evening for Norton Dunlap, Berryton.

Miss Grace Taylor of Kansas City was a week end guest at the Alpha Delta Pi house.

Sigma Xi, honorary scientific society, will hold a joint meeting with the Kansas chapter here, April 24. A banquet will be held at the cafeteria with talks on medicine, geology, entomology, and botany, as the program.

Dinner guests at the Alpha Delta Pi house Tuesday evening were: Mrs.

Monte Green, Mrs. J. S. Hughes, Mrs. H. W. Davis, and Mrs. C. E. Rogers.

Marjorie Dye of Norton is a guest at the Kappa Kappa Gamma house this week end.

Alpha Sigma Psi announces the pledging of Matthew E. Hamilton, Argonia.

Mrs. Mary Ziegler, house mother of the Kappa Delta sorority, entertained the House Mothers' club, Thursday afternoon.

The Dickinson County Aggie club students and alumni entertained at the Abilene country club with an Easter luncheon April 11, at which 56 Aggies were present.

Present Aggie students furnished the entire program consisting of a reading by Mary Steward, and three talks on subjects of interest to the alumni by Jack Kennedy, Clair Hoffman, and Doris Duckwall.

The following officers were elected to serve through the coming year: Mrs. David Townley, Abilene, president; Dr. S. R. Chaffee, Talmage, vice-president; Dorothy Neely, Abilene, secretary; and Mrs. Krater, Enterprise, treasurer.

Announcement has been made of the marriage of Miss Dorothea Mae Cross of Manhattan and Gerald L. Taylor of Marion which took place in Manhattan, Saturday, April 11. Mrs. Taylor has been employed at the Elite tailor shop for sometime and is well known in Manhattan. Mr. Taylor is a sophomore at K. S. A. C. and is in charge of the radio department at Kipp's music store.

Miss Dorothy Cashen and Mrs. Roger C. Smith entertained Monday afternoon with a tea in honor of Miss Dorothy Brown of the department of music at K. S. A. C. whose marriage to Mr. R. H. Lush will take place sometime in June. Miss Edna Ellis and Miss Elsie Smith furnished music during the afternoon.

W. H. Riddel, R. H. Lush, and J. B. Fitch attended a meeting of the Holstein Breeders' association held in Topeka, Thursday evening.

Kammeyer Explains Why Students Like to Go to Chapel

"It is a still hunt," said Prof. J. E. Kammeyer when asked how he found material for chapel programs. "I always have this little book in my vest pocket and I always wear my vest."

Professor Kammeyer has been chairman of the Public Exercises committee at K. S. A. C. for twenty-two years. In that capacity he has staged every commencement program during that period.

"Many of the speakers ask me how we get so many of the students out to chapel," he said. "I tell them we just started the right habit and the students keep on coming. We try to make the programs attractive."

Enough interest is taken in assembly that many successful drives and pep meetings have been held at those periods. The first Athletic

Recognition Day was established at chapel March 4. Other than speakers from our own college, representatives from seven other colleges and universities, two foreign countries, five editors and writers, and two ministers, have appeared on the programs this year.

According to Professor Kammeyer, K. S. A. C. has the largest non-compulsory chapel in the county.

MISSOURI AGAIN THIS AFTERNOON

SECOND BALL GAME SCHEDULED FOR TODAY

Conroy Will Pitch and Miller Goes
Behind Bat—Split Even
Last Year

BULLETIN

The Aggies won their first Valley game of the season yesterday, defeating Missouri 6 to 1. Joe Greer put his own game on ice by knocking a home run in the first, scoring Cunningham ahead of him, after Cunningham had scored Karnes and Brion with a two-bagger. Greer was replaced in the seventh by Caraway, who held the Tigers hitless and runless. The Tigers made one run in the fourth, and the Aggies made two more in the fifth.

The Aggies opened the 1925 Conference baseball season yesterday when they met the University of Missouri nine on the varsity diamonds. A second game with the Tigers is scheduled for 2:30 today.

Bernard Conroy is slated to take the mound for today's game, and as he is the only Aggie letter man on the pitching squad the Aggies are depending considerably upon his arm to win the second game. Joe Greer, a letter man from Ames, was first scheduled to pitch today's game but as Greer is a warm weather pitcher he was moved up to yesterday's game in order to take advantage of the warm sun. Both men have won praise for their pitching in the valley and therefore Coach Corsaut is depending upon these two to win the games throughout the year for the Aggies.

Miller in the Harness

"Bing" Miller is due to don the catching apparel again today. Miller has had considerable experience behind the bat and should aid materially in helping Conroy get under way. "Bing" has one of the best pegs to second that can be found in the valley and is therefore a real opposition to base stealers.

The Aggies have improved considerably in hitting since the game with St. Marys and as this was the big reason the first game was lost the indications are that the Aggies will again start a "murderers row" and win their games on hitting ability rather than depending entirely upon the pitchers.

Even Split Last Year

Last year the Aggies split four games with Missouri, winning and losing one game at home and the same on the road. This does show an even split can be expected, but as Missouri has lost one game to Oklahoma already this season the present odds point toward a win for Corsaut's nine.

The line-up for today's game is rather doubtful but probably will be the same as that which played yesterday. The probable starters are: Brion on first; Lutz on second; Von Riesen on third; Captain Karnes on short; Miller catching; Huey in left field; Al Cunningham in center field, and Munn in left field.

TENNIS OPENS TODAY

Aggies Meet K. U. at Lawrence for First Game

The official tennis season will open tomorrow morning when an Aggie team will meet the University of Kansas at Lawrence. The matches were scheduled to be played here, but were changed to Lawrence on a request from Dr. F. C. "Phog" Allen.

**DIXON'S
ELDORADO**
The master-drawing pencil
17 leads—all dealers

Three matches, two singles and one doubles, are on the program.

This will be the first match of the season for the Aggies, and the brand of competition which will be presented is unknown. Wallace Goodell, captain of the tennis team, was forced to withdraw from school, leaving Harold Sappenfield as the only tried man for the team.

Other applicants who will try for the trip include Harold Dayhor, Abilene; T. M. Kleinenberg, South Africa; Hoyt Purcell, and Cecil McCormick, Manhattan.

Last year the Aggies failed to win a match from the Jayhawks. Poor practice courts and the undeniable supremacy of K. U., both in the Valley and the Western Conference, in tennis, probably were responsible for the defeats. With new courts this year, Aggie coaches expect to form a nucleus around which winning teams may be built.

MISS ABBIE MARLATT

Clean-Up Week Begins April 20

The period of April 20 to 25 has been designated as Kansas clean-up week by Governor Ben S. Paulen. The week is divided into street and alley day, forestry day, building day, fire prevention day, truck day, and the final checking-up day. It is urged that all mayors, fire chiefs, commercial and civic bodies observe the week and aid in making it a success. The big object of the week is to remove fire hazards from all over Kansas.

PRIX MEMBERS ANNOUNCED

Members for Next Year to Act as Ushers at Pageant

Prix, junior girls' honorary, formally will announce the members for next year tonight at the A. A. U. W. pageant, "Episodes." These girls are chosen in their sophomore year, and

make up the membership of the organization during their junior year. The members for next year are to act as ushers. They are: Margaret Avery, Wakefield; Charlotte Swanson, Manhattan; Imogene Daniels, Caney; Louise Wann, Hays; Bernice O'Brien, Manhattan; Mary J. Herthel, Claflin; Dorothy Sanders, Manhattan; Dorothy Stiles, Kansas City; Vera Anderson, Arrington; Gladys Stover, Manhattan; Rachel Hurley, Topeka; Genevieve Tracy, Manhattan; Mary Lowe, Manhattan.

AG FAIR WILL BE BEST YET. PROMISE OF PROMOTERS

Red Hot Rodeo—Plenty of Side Shows on Program

"The best fair yet" is the slogan which has been adopted for the annual Ag fair to be held May 9. The same general plan of entertainment used in previous years will be presented.

A real rodeo with good riding, roping, and comedy, is promised by George Ellis who has charge of this feature. There will be a parade, educational exhibits, follies, minstrels, and a dance. The usual quantity of doll and candy racks, eats stands, and side shows will be on the grounds. The ferris wheel is to be improved and the management is making an effort to get a merry-go-round.

Lost: Opal necklace of unusual design. Finder please notify College P. O. Box 155. Reward offered.

Applications Due

Applications for the positions of Editor-in-Chief, Managing Editor, and Business Manager of the Kansas State Collegian for the fall semester 1925-26 should be turned in to Prof. C. E. Rogers immediately. Any student in school is eligible for any of the positions. The Editor-in-Chief serves for one semester at a salary of \$4 per issue. The Business Manager serves for a semester at \$6 per issue. The Managing Editor serves for 9 weeks at a salary of \$5 per issue. References are necessary.

ANNUAL GRAIN JUDGING CONTEST TO BE HELD APRIL 18

Prizes to Amount to More Than \$75
—Auspices Kiod and Kernel

Prizes amounting in value to more than \$75 will be given to the winners of the seventh annual students' Grain Judging contest. The contest which is under the auspices of the Kiod and Kernel Klub will be held Saturday afternoon, April 18.

The contest will be divided into three sections, each of which will

have a first, second, and third prize. The first section will consist of about 100 samples of varieties of farm crops. Commercial grading of wheat and oats and judging hard red winter wheat will be done in the second division. Corn, sorghums, and alfalfa constitute the third class to be judged.

There will be a first prize of \$15, a second prize of \$12, and a third prize of \$8 for the entire contest in both the senior and junior divisions. A prize of \$5 and \$3 will be given

to the two highest ranking freshmen. Prizes also have been contributed by several farm papers, grain companies and associations.

Camp at Leavenworth in August

A citizens' military training camp will be held at Fort Leavenworth August 1 to 30. Any one not in the advanced corps is eligible to go and this will be the only chance for the basic corps men to go to camp next summer. Information may be obtained from Colonel Bugbee.

STADIUM BRINGS TRACK SUCCESS

M. V. INTERSCHOLASTIC TRACK
MEET MADE POSSIBLE

Renaissance in K. S. A. C. Track Life
Brought About by Building of
Stadium—Irwin and Riley
Are Results

Track, as well as football, has been greatly stimulated by Kansas State Agricultural college Memorial stadium. Enthusiasm toward track participation, track training, and track meet attendance has received a big boost among the student body, the coaching staff, and the patrons of the sport.

Interest in Track Increases

During a short period prior to the time it was decided that there should be a Memorial stadium, Aggie track was progressing very slowly. Except for a few outstanding stars such as Ray Watson, famous distance man, and Cliff Gallagher, speed demon, track seemed to be making little headway.

But the announcement that there was to be a stadium brought about a renaissance in K. S. A. C. track life. Enthusiasm was quickened, and much greater interest was shown in track participation. Candidates for the squad became more numerous than ever before. The result was shown in the creditable records made by the Aggie teams during the past three years.

"Red" Irwin, sprint flash, and Ivan Riley, hurdler, were Aggie stars of this time. Riley has made several world's records.

'25 Season Gets Good Start

The 1925 track season has started very favorably. The four-mile relay team, composed of Ralph Kimport, Norton, A. I. Balzer, Inman; E. E. Coleman, Alma; and Paul Axtell, Argonia, placed second in the Illinois relays at Urbana when they defeated the Notre Dame team but were beaten by the Ames quartet. At the same meet, M. L. Sallee, Long Island, a recruit on the team, placed fifth in the 1,500 meter race.

In the recent Missouri Valley indoor meet the Kansas State team placed fourth. First, second, and third places went to the Kansas, Nebraska, and Missouri universities. Features of this meet were the breaking of the Missouri Valley indoor mile record by Kimport, and the two-mile record by Balzer. The mile relay team, K. G. Knouse, Valley Falls, 1925 captain; H. A. Brockway, Olathe; Harvey Russell, Topeka; and L. L. Davis, Effingham, placed third in its race. P. R. Carter tied for second in the pole vault.

The strongest Aggie prospects for this year's outdoor season are to be found in Balzer and Kimport, each of whom is expected to set a new Valley record in his event, and in the relay teams. Besides the men already mentioned those who will run individual races and from whom the men for the longer distance relay teams will be chosen are E. von Riesen, Marysville; R. P. Aikman, Anness; and V. H. Butterfield, Manhattan.

The sprint men are C. P. Foote, Wichita; Don Meek, Idana; K. R. Bunker, Kansas City; T. M. Shaw, Manhattan; and H. D. Sappenfield, Abilene. Aggie hopes for points in the pole vault are centered on Philip Carter, who has been clearing the stick at more than 12 feet. Two letter men will carry the "weight" burden, F. A. Brunkau, Ellinwood, shot put; and J. F. Gartner, Manhattan, discus thrower. Each made a "K" last year, and both show better pre-season form this year.

The Memorial stadium has made possible one event here each year that probably does more toward advertising the college where the advertising pays than any other single event; the Missouri Valley Interscholastic Relay carnival.

THE KANSAS STATE COLLEGLIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, APRIL 21, 1925

NO. 57

WHEELER TAKES PRATT'S PLACE

IS APPOINTED HEAD OF DEPARTMENT OF MUSIC

New Head Has Served Years at the College—Was in Army for Two Years

Prof. Harold P. Wheeler, associate professor of music and director of the college orchestra and band, has been appointed head of the department of music, it was announced by President Farrell, Monday morning.

Professor Wheeler's appointment which will take effect July 1, follows the resignation of Prof. Ira Pratt,

HAROLD P. WHEELER

who will leave in August for Chicago where he will work with Mrs. W. S. Bracken in the Cosmopolitan School of Music.

To K. S. A. C. in 1919

Professor Wheeler came to K. S. A. C. in 1919, as director of band and orchestra and as instructor in band and orchestral instruments. Previous to this, he attended the University of Wisconsin, and also studied in conservatories in Milwaukee, Wis. In both places he did a great deal of work in orchestras and as director of orchestras. During the war he served two years as conductor of an army band.

During the seven years in which Professor Wheeler has been connected with K. S. A. C., the development of the college orchestra and band has been extraordinary, both in size and in quality. In 1919, the orchestra consisted of eight pieces, and the college band had fifty pieces. The size of the orchestra has been increased to 46 while the band is now composed of 100 people.

Entire Orchestra in School

Professor Wheeler's orchestra has the distinction of being one of the few in the country in which the entire personnel is made up exclusively of members of the school, without the employing of imported talent for concerts. In addition to his work with the orchestra and band, Professor Wheeler has established courses in instrumentation, conducting, and orchestration.

When asked for recommendations for his successor, Professor Pratt made but one suggestion, and expressed his sentiments in the following statement:

"Professor Wheeler's artistic achievements do not need my personal approbation. They stand on their own merits and his work is recognized everywhere in the Middle West as of a very superior quality in everything he does. Manhattan knows Professor Wheeler as a man and all have respect and confidence in him. I have always felt that the department if properly organized and conducted, should be able to develop its own department heads whenever changes are necessary. My own contact with the college has given me four very happy years and has made possible the opportunities that have now opened for me in other fields. My very deep personal interest will always remain in the college and community and I hope to keep in touch with my K. S. A. C. and Manhattan friends."

MARRIAGE AN AID TO ARTISTS

Mme. Julia Clausen Says Singer Needs Many-Sided Life

That marriage is an aid and not a hindrance to an artistic career is the firm belief of Mme. Julia Clausen, who will appear here in recital Saturday, May 2, on the ninth annual Spring Festival and Guest week program. The prima donna was interviewed in New York recently, and she

gave her views with characteristic frankness.

"Marriage is good for an artist—I am sure of it," Mme. Clausen said. "But how could I help feeling so with such a husband!" This allusion to Captain Theodore Clausen caused that good looking gentleman to blush with becoming modesty. "It is this way," the singer went on to explain. "Love is the greatest thing in life. A woman who is an artist needs much in life for her development—love, marriage, home, children, happiness, and sorrow, too. A singer must grow, and only a many-sided life will yield a many-sided art. What is more, an artist tends to become self-centered, which of course is not well. She naturally loves the opera and the concert stage, and her circle of immediate interests becomes constantly more restricted unless she takes steps to counteract the tendency. A husband and family give her other responsibilities to think about, and therefore are broadening."

Mme. Clausen's views are given further interest by the fact that hers was a love match, and a runaway at that. She began her career at the Royal conservatory, Stockholm, when she was very young, and she married at the age of 20 against the advice of her friends, family, and teachers.

"They said to me that all would be lost if I married," laughed the prima donna. "But I said I was sure I would succeed if I worked hard regardless of the terrible handicap they told me marriage would prove. I am sorry for the artist who doesn't marry, or for anyone who doesn't love."

Captain and Mme. Clausen have two daughters, who have inherited their mother's musical gifts.

ACKERT ACADEMY PRESIDENT

Elected to Succeed Nininger of McPherson College

At the business meeting of the Kansas Academy of Science in Manhattan last week Dr. J. E. Ackert of the K. S. A. C. zoology department was named president of the academy for the coming year. The other officers elected were Howard M. Eisey of Kansas university, first vice-president; William Goldsmith, Southwestern college, second vice-president; L. D. Havenhill, Kansas university, treasurer; and E. A. White, Kansas university, secretary.

The invitation of Southwestern college at Winfield to hold the next annual meeting of the society at that institution was accepted. The time of the meeting will be determined later by the executive committee.

Doctor Ackert succeeds as president Prof. H. T. Nininger, dean of biology at McPherson college. Professor Nininger spoke at the annual banquet of the academy Friday night on the subject of meteorites, a subject of which he has made extensive study. He has collected many specimens in Kansas. Beginning next September the retiring president will take a year's leave of absence to study the work of his chosen field in the plains and mountain ranges of the western United States.

In attendance, program interest, and in other ways the fifty-seventh annual meeting was one of the best ever had, attending members agreed. There were 73 papers, many of them illustrated, 33 of them handled by members of the K. S. A. C. faculty, experiment station staff, or by graduate students in the college.

The executive committee is considering possible means of publishing the transactions of the academy. These were formerly published by the state printer but in the last revision of the Kansas statutes, this provision was omitted and the Kansas Academy of Science is not now officially recognized as a state institution. The academy possesses a valuable library of scientific literature which is stored at Kansas university. Exchanges are maintained with other academies and scientists in this and foreign countries so that the value of the library is constantly increasing.

ANNUAL Y. M. C. A. RETREAT WILL BE HELD APRIL 25-26

Hale Brown in Charge of Committee for Retreat

The annual Y. M. C. A. retreat will be held this year on Saturday and Sunday, April 25 and 26, at Camp Rotary.

Installation of officers will follow a picnic dinner given to the new officers and cabinet by the old officers and cabinet. Reports of various departmental heads also will be given at this time.

The Y. W. C. A. cabinet, members of the Cosmopolitan club, and the officers of the Manhattan Hi-Y have been invited to spend a day with the Y. M. members.

Hale Brown is chairman of the committee that is planning for the retreat, and promises an interesting series of meetings.

DOUBLE VICTORY IN FIRST GAMES

AGGIES TAKE TWO IN OPENING SERIES

Missouri Strikes Hard Luck in Second Game—Balk by Lippman Ties Score

The Kansas Aggies opened the 1925 baseball season with a double victory over Missouri last Friday and Saturday, and formally dedicated the new varsity diamond in so doing. The Aggies won the first game by a score 6 to 1, and the second 5 to 4.

Joe Greer pitched the opening game and held the Tigers to three hits, besides knocking a home run over right field fence, scoring Cunningham ahead of him. Greer was replaced in the seventh by Caraway, who held the visitors hitless and runless. Missouri scored their lone run in the fourth on a single by Swafford; an error by Lutz and a two-base hit by Bishop.

Four Runs in First Inning

The Wildcats found their way to Reagen's delivery in the first, after two outs had been made, and scored four runs. A single by Karns, a base to Brion after he had been hit by a wild pitch, a double by Cunningham and a home run by Greer did the work. The Aggies counted two more tallies in the fifth on a walk, an error, and a triple by Karns.

Cunningham was the batting star of the game getting a single and two doubles out of four times at bat.

Saturday's game was by far the most interesting game for it was not until the seventh inning that the Aggies were able to obtain the lead that gave them a 5 to 4 win.

Greer Outwits Missouri Pitcher

To Joe Greer, Aggie hurler, pinch hitting for Conroy in the seventh, goes the credit for outwitting the Missouri pitcher, causing him to balk, allowing Munn, who was on third, to walk in for the tying score. Greer, having previously advanced Munn, who had walked, from first to third on a fly ball which counted as a single when the Tiger right and center fielders stood waiting for each other to make the catch, then advanced to second on the balk was advanced to third on a single by Lutz who tried to stretch it into a double but was caught at second. Hard luck then hit the Tigers when Huey hit a hard bouncer to Swafford, Missouri baseman who made a low throw to first, causing Windle to raise his foot to make the catch. Umpire Hurley called Huey safe and Greer came home for the winning score.

Missouri scored one run in the second on an error, a sacrifice and a single, but Lyle Munn tied the score in the last half of the inning when he hit a home run over the right field fence. The drive started as a ground ball near first base but was hard enough to jump over the fence and out of the field.

Three more tallies were scored in the third by the Tigers when Swafford singled to right, Sunderworth was safe on a wild throw by Conroy, two men were walked in succession by Conroy forcing in one run, and a single by McQueen scored Sunderworth and Windle.

The Aggies tied hard to tie the score in the third but were able to make only two counters. These came when Karns doubled, scoring Lutz, who had walked, and Huey, who had singled.

Karns and Munn Batting Aces

Captain Karns and Munn were the outstanding batters of the day, Karns getting two doubles out of four times

at bat and Munn getting a homer and a single out of three times up.

The Aggies go to Oklahoma for a two-game series with the Sooners Friday and Saturday. Oklahoma also has a double win over Missouri this season and is considered one of the best teams in the valley.

MEMBERSHIP CAMPAIGN FOR ALUMNI BEING PLANNED

Life Memberships Go to Loan Fund—Seniors Conducting Drive This Week

Plans are under way to increase the student loan fund of the K. S. A. C. Alumni Association, through a campaign for life memberships in the organization, according to an announcement from the general office of the association here at the college. A committee to conduct the campaign among members of the graduating class has been chosen and following a meeting in Recreation center Wednesday afternoon at five o'clock for final instructions, will begin the work of securing memberships.

Alumni of the college become active members of the alumni association by virtue of paying dues, according to R. L. Foster, alumni secretary. The active member has two privileges, he may either pay annual dues of five dollars a year or take a life membership. Life membership in the association is \$50, under a plan voted upon at a recent meeting of the board of directors of the alumni association. The plan will be presented as a constitutional amendment at the general meeting of the association at the college next commencement.

Life memberships in the association go into the K. S. A. C. Alumni Student loan fund. The principle of this fund is loaned continuously to worthy students. The interest from the fund is used to help defray the expenses of the association. At present the fund contains approximately \$3,000 and it is much too small to accommodate the number of calls made upon it by deserving students. It is to increase this fund that the campaign is planned.

The plan further provides that the life membership may be purchased in five annual instalments. The first payment need not be made now, if the student does not have the money, but he may wait until next October 1. The remaining four instalments are made annually beginning June 1, 1926.

"The advantages of the life membership plan," Mr. Foster points out, "are that it provides a loan fund for students and at the same time will save money for the alumnus who intends to support the alumni association actively. Dean J. T. Wil-

lard is treasurer of the alumni student loan fund and since it was started several years ago, he has the admirable record of never having lost a penny of the principle through a bad loan.

"We believe that the students, especially of the graduating class, will see the value of the campaign to increase this fund and we believe that they will respond with pledges for life membership in the alumni association."

Members of the senior class who will conduct the campaign will meet in Recreation Center Wednesday afternoon at five o'clock. Following this meeting the campaign will be conducted until Saturday noon, at which time a luncheon will be given the committeemen by the alumni association. Teams from each department will make reports at the luncheon. The campaign is in charge of a faculty chairman, who is an alumnus, in each department.

JENSEN AND WATSON WIN IN GRAIN JUDGING CONTEST

Capture \$15 Prizes in Annual Event—Coffman and Rumold Second and Third, in Senior Division

A. G. Jensen of Manhattan and A. Watson of Osage City won first prizes of \$15 at the annual student grain judging contest Saturday afternoon. Jensen took the honors in the senior division with a score of \$62 points out of a possible 1015, and Watson placed first in the junior class with 782 points.

In the senior division E. B. Coffman of Manhattan was second with 711 points, and P. P. Rumold of Manhattan was third with a total of 709.5 points. S. M. Raleigh of Clyde was second in the junior division with 699 points and E. F. Carr of Byers placed third with a score of 605. Second and third prizes were \$12 and \$8 respectively.

There were 51 contestants, an enrollment somewhat less than of previous years. The contest was divided into three sections and the prizes were contributed by various organizations, companies, and farm papers.

RADIO CLUB ORGANIZED

Extension Division Forms Group to Build Sets

The Builders, a boys' radio club, has been organized by the extension division of the college. Application blanks are sent to teachers of rural schools who in turn present them to their students. Applications for membership are being received at the rate of approximately 50 per day. Upon receipt of the application a certificate of membership in "The Builders" and a list of suggestions for earning \$17, the retail cost of parts for a one-tube set, are forwarded to the boys.

Early next fall the members will be furnished with complete instructions for building a KSAC one-tube receiving set with a country wide range. Some help will be available from the college to Builders who organize into groups for the purpose of constructing larger sets. After the boy qualifies by building a set he becomes eligible for the larger and more important organization to be known as The Boys' Radio club of Kansas. Special programs of interest to boys will be broadcast for members from Station KSAC next fall.

BROWN BULLET IS LOOSE

The Brown Bull's Child Is Through the Fence

The Brown Bullet is grazing on the campus this week. It is a miniature joke magazine published by the students in Principles of Typography. R. Gordon Brown is editor-in-chief of the new booklet.

The purpose of the Brown Bullet, says the editor, is to point out the nobler side of humor. The staff promises that although the first issue of the magazine contains one or two vulgarities inclined to produce laughter, still they can assure us that the next issue will contain absolutely nothing funny whatever.

Y. W. C. A. PICNIC APRIL 21

Estes Park Songs to Be Part of Entertainment

The annual Y. W. C. A. picnic will be held in Lovers' Lane Tuesday, April 21, from 5 to 7 o'clock. All girls are to bring their suppers. Estes Park songs will be sung as a part of the entertainment. Committee work will be planned and the cabinet girls will explain the work of the year. Cards for every member to sign showing her preference of committee work will be given out.

All sorority houses are asked not to serve dinner that evening. Cafeteria lunches will be prepared for 25 cents. Orders for the lunches must be left at the Y. W. C. A. office by Monday evening.

DEBATERS HOME FROM LONG TRIP

VICTORY FOR HEDBURG AT PI KAPPA DELTA CONVENTION

Is Second Such Trip to Be Made by Team in This Region

The first extensive debate tour sponsored by K. S. A. C. ended with the return of Robert Hedburg, Cecil Walt and Prof. H. B. Summers last week end. The trip extended to the Pacific coast, the two-speaker K. S. A. C. team meeting 10 schools en route.

Of the ten debates in which Hedburg and Walt participated, five were no-decision debates. In two of the no-decision debates, an unusual system was used, each school splitting its team and using one member on the affirmative and one on the negative side of the question.

The K. S. A. C. team used two questions on the trip, Japanese Immigration and the Supreme Court. Walt, Aggie debater, used five different speeches on the trip, and due to the shifts in questions and sides practically all the work of the team was extemporaneous. The oration with which Hedburg won the oratorical contest at Montana was written on the train.

Loss on Supreme Court Case

The five decision debates were all upon the Supreme Court question, K. S. A. C. losing the four debates upon which it took the affirmative. The same question was used for the men's and women's teams here, and during the entire debate season only one affirmative team has received a decision.

K. S. A. C. won a unanimous decision from the State College of Washington at Pullman, debating the negative of the Supreme Court question.

Hedburg entered two contests for K. S. A. C. and won decisive decisions both times. He placed first in the oratorical contest held with the Montana Aggies at Bozeman. At the Phi Kappa Delta convention held in Los Angeles Hedburg was given first place in both the oratorical and extempore speaking contests.

Met by Aggies

With the exception of the University of Arizona the Aggie debaters met and were entertained at each school by K. S. A. C. graduates or former members of the faculty. This is the second such trip that has been made by teams from schools in this region of the country, the first having been made by the University of Oklahoma two years ago.

The next extensive trip which will be made by K. S. A. C. debaters will be to the Atlantic coast and probably will include numerous debates with southern schools. A trip to Emporia to a Pi Kappa Delta convention will be made about the middle of May. This will be taken by both the men's and women's teams.

The Schedule

The first debate was with the Colorado Aggies, Colorado receiving the decision; the second with the University of Wyoming, no decision; the third with the Montana Aggies, Montana receiving the decision; the fourth, University of Montana, no decision; the State College of Washington, K. S. A. C. receiving the decision; Oregon Aggies, Oregon receiving the decision; Leland Stanford, no decision; University of Arizona, no decision; University of Texas, no decision.

Hall Heads Lumber Firm

William L. Hall, '98, formerly with the lumber firm of Barker, Pentress, and Company of Chicago, has severed his connections with that company to resume the active direction, as president, of Hall, Kellogg, and Company in a general timber, land, and forestry business. Main offices of the company are in Chicago with branches in Portland, Ore., and Hot Springs, Ark. For several months Mr. Hall with his wife Gertrude (Lyman) Hall, '97, will be in Hot Springs, 522 Springs street.

Applications Due

Applications for the positions of Editor-in-Chief, Managing Editor, and Business Manager of the Kansas State Collegian for the fall semester 1925-26 should be turned in to Prof. C. E. Rogers immediately. Any student in school is eligible for any of the positions. The Editor-in-Chief serves for one semester at a salary of \$4 per issue. The Business Manager serves for a semester at \$6 per issue. The Managing Editor serves for 9 weeks at a salary of \$5 per issue. References are necessary.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, APRIL 21, 1925

THE MOTHER TONGUE

They speak their mother tongue—these college bred young men and women of today. Home sacrifices, state money, scientific investigation, and the culture of the past centuries are contributing to their education and they are learning, that they may be the highest type of the Americans of tomorrow. And they speak—

"Hi, kid!"
"Hi!"
"Where yuh goin'?"
"Canteen. C'mon. Whad'y yuh know?"

"Nothin'. How 'bout you?"
"Same here."
And they pass speaking their mother tongue.

"Say—s'anybody seen that Mary K.?"

"Naw. She's-t the show."
"Huh.—Good?"
"Fair—not in it with last week."
"Write this, will yuh?"
"Thanks."

And there is silence as each writes in his mother tongue.

"The accuracy with which men speak is a measure of the civilization in which they live." And thus our college students speak their mother tongue.—H. C.

This idea of freshman caps, paddies and so forth isn't at all bad. It gives the upperclassmen something to do during their lunch hours.

But then the freshmen have some consolation. The senior is important to no one but the faculty; the sophomore is important to only himself; while the junior and his girl are the only ones impressed with his importance. But look at the freshman, everyone has a hand in trying to run his business.

Complaints have been registered against the noise made by one of the organizations up on Fairchild hill. (Yes, a girls' organization.) it seems as if the girls reverted back to type in one of their entertainments recently and made more noise than real children do when they play such games.

Would you call the man who went around with an engagement ring in his pocket all the time an optimist or a cynic?

The barber back in our town hired a manicurist the other day, but the home boys are all so bashful that so far she hasn't done a thing but play checkers with the porter.

Most folks in this world are somewhat needy—and then the bigger their income becomes the needier they get.

To the editor, the cynic, and others.
If I make a date with a girl
And she lets me kiss and pet her.
I think, "She let's 'em all do this."
And then I go home and forget her.

If I make a date with a girl
And she will not let me pet her,
I think, "My gosh, this jane is dumb."
And then I go home and forget her.
—Penn State Froth.

That ought to clinch the argument for someone.

Harry says he isn't going to let his girl go to college because he read some place that the greater per cent of old maids were college graduates. And Harry can't afford to take the chance.

Judge for Yourself

Mr. John Gartner,
Editor-in-Chief,
Kansas State Collegian:
Since Noah landed his ark there has been the yap, "the younger generation has more freedom than it knows what to do with." The older generation says so, but what they

mean is not that the younger generation has more freedom than it knows what to do with but that it is failing to observe the few simple rules of life, which make for a better and cleaner world. The rules, which can if they are observed, raise the human being above the merely animal plane, and the rules the older generation has found out are the ones that greatly increase our chances for happiness in this world.

Is the disregard of rules to be interpreted as freedom? Are disobedience and freedom synonymous? We shall have freedom with tradition no longer imposes disobedience. So disobedience has been translated as too much freedom, and the younger generation likes to kid itself that such it is. They are allowing themselves to be governed by tradition; adopting the statutes of precedent as their law. So humanity continues to travel the primrose path of dalliance and to kid itself on each successive rung of the ladder that it is getting more and more freedom. The Quaker mother and father spoke of the younger generation as being rude and indelicate. We have the same old hash served up to us stated in more modern terms, "too much freedom." The older generation is suspicious and quick to condemn. They have a right to, they know their eggs, at least some of them do.

Not to be too severe, but to give this evil a justly deserved slap on the wrist, let us characterize blanket parties as having their derivation from a desire to pull something decidedly new and dashing on the older generation, contributed to by the fault of provincialism and ignorance on the part of the participants. While blanket and petting parties may find a limited application there is an attitude of a more general nature, taken by a large part of the men of the college (if such we may call them) toward the women of the college. An attitude of cynicism, of a regard provincial in the extreme, indicative of ignorance, of fault in the reasoning process. If men are unable to appreciate the beauty of creation and give it proper regard, it is because of a jealousy and antagonistic cynicism originating from faulty reasoning and contributed to by the revolt of the baser nature. In my short life I have failed to find any bad in women and certainly not a commensurate measure of goodness in men and have not lived in Podunk all of my life either.

To criticize and call attention to blanket and petting parties is to merely scratch the surface. If we are to criticize, then criticism of more general, constructive nature is of far greater value than is specific criticism, in a situation of this kind. If we have no other purpose in mind on coming to college than the mere acquisition of the mechanical means of promoting our existence, or what pleasure our sojourn here may occasion us, it were better we stayed in Podunk. If college is not to broaden us and enable us to break the narrow and restrictive bonds of provincialism, and to acquire a degree of sophistication, not in the ignoble sense of the word, but rather

the noble, then college has failed of its purpose, it has not taught us to live.

It is inconceivable that any of our group, composed supposedly of the cream of our nation, should participate in such base activities as characterize the lives of the masses. If we are not to be the shining example, and are not the group whose duty it is to uphold high standards of morality and right living, in the name of reason whose duty is it? It is not necessary that even a few should participate in activities inconsistent with the established moral code. Those who persist in doing so must be regarded as having less than average intelligence and lacking in the power to reason and to analyze the situation; without the necessary character and strength of mind to enable them to rise above the mere animal plane in their existence. In view of these facts they have no place in college life nor in its activities. They are too elementary in character and lacking in mental development and in consequence should never have ventured away from Punkinville Center.

In conclusion, virtue is its own reward; chastity as imposed by a Christian code of morals cannot be considered a barbarous and unnatural requirement.—James M. Mason.

At the left of this group is Lieut. J. A. Macready, U. S. A., former holder of the world's altitude record. Just behind the propeller you can see the G-E turbine supercharger which kept the Liberty motor running in the thin air, six miles high.

Over the mountain by a mile

Year after year, plucky explorers try to climb Mount Everest, the world's highest peak, 29,141 feet high.

With a G-E supercharger feeding air at sea-level pressure to the engine, an airplane pilot can go far higher. Lieut. Macready has reached 34,509 feet over Dayton, Ohio. He would have soared over Mount Everest with more than a mile to spare!

The tasks attempted for centuries in almost every form of human endeavor have been conquered with the aid of electricity, with more than a mile to spare.

The impossible today will be accomplished by men and women now in college. The scientist and engineer are doing their share. It remains for men and women entering upon their life's work to profit by the new opportunities that are constantly appearing in every profession and vocation in the land.

The supercharger is a turbine air compressor, which revolves as fast as 41,000 times a minute—the highest speed ever developed by a commercial machine. It is designed and made by the General Electric Company, which also builds the big turbines that supply electric light and power.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

Prof. and Mrs. C. E. Rogers entertained with a picnic breakfast on Wildcat Sunday morning in honor of Prof. and Mrs. N. A. Crawford. The guests included: Prof. and Mrs. N. A. Crawford, Prof. and Mrs. H. W. Davis and daughter, Mary Louise; Prof. and Mrs. Sam Pickard and son, Sammy; Miss Kathryn Hudson, Miss Mina Bates, Miss Martha Kramer, Miss Helen Willson, Mr. Morse Salisbury, Mr. R. W. Conover, Mr. C. W. Matthews, Mr. W. B. Balch, and Mr. Alan Dalley.

Gamma Phi Delta announces the pledging of Helen Graham of Manhattan.

The Manhattan chapter and alumnae members of Pi Beta Phi will drive to Topeka Saturday for their Founders' day banquet which will be given at the Country club. The active and alumnae members from the three Kansas chapters will be present at the banquet.

Phi Omega Pi sorority entertained with a thimble party for their patronesses Saturday afternoon. In the evening they entertained them with a buffet supper. The patronesses are Mrs. W. H. Sanders, Mrs. Fay Seaton, and Mrs. W. D. Womer.

Delta Zeta sorority entertained Saturday afternoon with a tea in honor of their national treasurer, Mrs. Myrtle Marlatt of San Antonio, Tex. Special music was furnished by Miss Mary Jackson and Miss Virginia Reeder. The guests included the alumnae and patronesses of Delta Zeta and the housemother and two representatives from each sorority and fraternity.

Week end guests at the Kappa Delta house were Miss Dorothy Noble, Wichita; Miss Betty Coulter, Mulvane; Miss Bertha Faulconer, Herington; Miss Dora Dean Dakin, Wamego; Miss Lola Hoover, Bonner Springs; and Miss Mildred Welton, Topeka.

Alpha Xi Delta held its Founders' day banquet at the chapter house Friday evening.

Dinner guests at the Alpha Tau

Omega house Saturday were Miss Betty Coulter, Mulvane, and Miss Helen Lank, Solomon.

Week end guests at the Pi Beta Phi house were Miss Virginia Mills and Miss Jane Thatcher, Lawrence; Miss Corrine Smith, Abilene; and Miss Marion Welch, Miss Beulah Helstrom, Miss Joan Lydall, and Miss Ruth Helstrom, McPherson.

The annual Junior-Senior prom was given at the gymnasium Friday evening and the Freshman-Sophomore hop was held on the following evening. The gymnasium was decorated with small cedars, colored lights, and davenport. Chuck Shofstall's orchestra from Lawrence furnished the music. The main feature of Friday night was the presentation of the shepherd's crook to the junior class. Saturday evening the key was given to the freshman class.

Kappa Phi Alpha held its annual founders' day banquet Monday evening at the Hotel Gillett. Simple decorations in the fraternity's colors were used. Guests were Prof. A. F. Peine, Prof. F. J. Cheek, Hal Harlan, Ira Snyder, Major Charles G. Hillman, Fort Riley; Eldon Haley, Lawrence; Fahy Hurst, Medford, Okla.; Glenn Niquette and Lester Davis of Wichita.

Guests at the Pi Kappa Alpha house on Sister day included: Mrs. J. D. Colt, Sr., Marybelle Read, Helen Huey, Katherine Chappell, Blanche Huey, Esther Otto, Eva Timmons, Betty Ermine Vawter, Grace Banta, Mary Grammer, Marjorie Corby, Neosha Fredenburg, Miss Swan, Isabel Potter, and Bernice Read.

Dean Margaret Justin went to St. Louis the first part of this week to attend a research council which is being held there.

Miss Clara Sours, a former student, who has been visiting friends at the college, will return to her home in Amsterdam, Mo., this week.

The man who wants more meat because it "sticks to his ribs" needs, instead, more exercise.

JARDINE VISITS MANHATTAN

Secretary of Agriculture Is in Fine Health

Dr. W. M. Jardine arrived in Manhattan Friday afternoon for his first visit since he left to become a member of President Coolidge's cabinet, February 28.

Doctor Jardine said that he was feeling fine and has gained five pounds since he has been in Washington. However he has had comparatively little time for recreation. His spare time is used for the most part in riding "Cal," the horse provided for his use by the department of agriculture.

Doctor Jardine's visit to Manhattan was a quiet one. He spent most of his time with his family and close friends and left Sunday afternoon for St. Louis to attend and address a meeting of land grant college representatives.

The Jardine family except to go to Washington about July 1. Doctor Jardine is making his home at the Mayflower, a new apartment-hotel there.

Y. W. C. A. INSTALLATION
SERVICE HELD TUESDAY

Service Planned by Dorothy Rosebrough and Gladys Sanford

The annual Y. W. C. A. installation service was held Tuesday, April 14. The new cabinet and members of the advisory board were commissioned for their work by the association membership. This service is one of the most expressive and beautiful services of the year, and this year, was planned in connection with Easter. The Y. W. octette, especially trained by Miss Grace Hesse, sang "Gallia," by Gounod. The installation service was planned by two K. S. A. C. girls, Dorothy Rosebrough and Gladys Sanford. It consisted of the commission service written on the theme of the Sermon

on the Mount and closed with a candle lighting service.

The new members of the Advisory board are Mrs. R. R. Cave, and Mrs. C. A. Scott. Other members of the board are: Misses Stella Harris, Margaret Ahlborn, Dean Mary P. Van Zile, Mrs. William Jardine, Mrs. Bennett, Mrs. L. R. Eakin, Mrs. George Clammer, Mrs. A. A. Holtz, Mrs. R. K. Nabours, Mrs. Fred Boone, and Mrs. F. H. Gulick.

TWO NEW SPANISH COURSES
TO BE OFFERED NEXT YEAR

Twenty-Hour Curriculum Will Make Minor in Spanish Possible

The department of modern languages will offer two new courses in Spanish next year. This increases the amount of Spanish offered in the department to 20 hours, and will make it possible for students to minor in Spanish.

The new courses include a two hour course in conversation, an oral course, to give practice in speaking the language; and a six hour course

in Spanish literature. There are two divisions of this course. The first semester a course in "The Novel" will be given, covering the Spanish novel from the seventeenth century to the present day, and in the second semester there will be a similar course in Spanish drama.

"We hope in a few years," said Miss Grace Hesse, professor of modern languages, "to be able to offer enough hours in Spanish so that students may major in that subject here."

An Opportunity for Mole Riddance

Lawns near the campus will be treated for mole runs at half the treatment's cost, which will be small, if those persons who desire the service will send the following information to the zoology department of the college: Name, address, part of lawn

affected, and estimated number of animals working. The zoology department is doing this for a short time as a part of its experiments on the destruction of moles.

M. V. HIGH SCHOOL RELAYS MAY 16

INVITATIONS SENT TO 1,500 HIGH SCHOOLS

Fourth Annual Relay Carnival Here
—Many Trophies Offered for Various Events

Invitations to attend the fourth Missouri Valley Interscholastic relay carnival, which will be held in the K. S. A. C. Memorial stadium, May 16, have been sent to about 1,500 high schools in the Missouri valley. The interscholastic relay carnival is the only big event of its kind for high schools and as such is generally considered to be the standard of comparison, in track and field events for high schools of the middle west. It has increased from 32 participating schools at the first carnival to more than 70 schools, including 400 athletes, in the third meet.

The program of events includes five relay races and eleven special individual events. In addition to these there will be a golf tournament and a tennis tournament.

Many Trophies Up

Winning relay teams will receive a 19 inch bronze statuette, to be a permanent possession of the school, and each member of the team will receive a gold medal. Members of the team taking second place will receive silver medals, and bronze medals will go to members of the third team. In addition to these awards there are special trophies for four of the five relay events.

They are: Ray B. Watson trophy—for mile relay—held by Northeast, Kansas City, Mo.; "K" fraternity loving cup—for two mile relay—held by Oskaloosa, Kan.; Eddie Wells Memorial trophy—formerly for four mile race but now for one-half mile relay—held by Oskaloosa; L. E. Irwin trophy—for medley relay—held by Woodward, Okla. These schools are holding these awards for the first time this year but if they should hold them for the next two years they will gain permanent ownership.

Watches for Individuals

The winner in each of the special events will receive a 7-jewel Elgin gold watch with a purple K engraved on it. Silver medals will be given for second place, and bronze medals for third. In the tennis and golf tournaments winning teams will receive trophies and winning individuals will receive medals.

It is possible, according to M. F. Ahearn, director of athletics, that some preliminary events will be held Friday so that there will be time for all of the finals Saturday afternoon.

Changes in the program have been

made by the addition of the 120 yard low hurdles race and the discontinuance of the four mile relay. The other track and field events are: 100 yard dash, 440 yard dash, 880 yard run, 120 yard low hurdles, 220 yard low hurdles, board jump, high jump, pole vault, shot put, javelin throw, discus throw, and the 440 yard, 880 yard, mile, two mile and medley relays.

OUTDOOR MEET IN MAY

Intramurals Expected to Draw Well
—Limit on Entries

The outdoor intramural track meet, which is to be held May 4 to 8, will be one of the biggest intramural events of the year, according to Coach E. A. Knoth. A record entry is expected this year, although each organization is limited to 15 entries in each event; all entries must be in the hands of Mr. Knoth not later than 6 o'clock April 29.

Schedule of Events

May 4—Preliminaries: 100 yard dash, low hurdles, running broad jump. Finals: Two mile run. To be run in heats against time.

May 5—Preliminaries: Pole vault high jump, 220 yard dash, high hurdles.

May 6—Preliminaries: Shot put, discus. Finals—Running broad jump, and the 440 yard dash, and one mile run, both to be run against time.

May 7—Semi-finals: 100 yard dash, low hurdles, high hurdles, 220 yard dash. Finals—Pole vault, high jump, 880 yard dash.

May 8—Finals: 100 yard dash, low hurdles, high hurdles, 220 yard dash, shot put, discus, and one mile relay of four men.

Aggie Tennis Team Loses to K. U.

The Aggie tennis team failed to win a match in the matches played with Kansas last Saturday. Three singles and one double match were played but Kleinenberg was the only Aggie man to win a set. The men who represented the Aggies were Harold Sappenfeld, Harold Dayhoff, and Tim Kleinenberg.

Fear Expressed for Future Grid-irons Won't Halt This One

Branding irons are being overhauled and private detectives are working overtime putting the finishing touches on the preparations for the third annual gridiron banquet which will be given Thursday evening, April 23, in the college cafeteria.

There is much worry among members of Sigma Delta Chi because the branding this year is going to be so severe that everyone from now on will travel the straight path and there will be no foundation for future affairs of this nature. However, this is not keeping the plans for a red hot branding party this year from being consummated.

With the new electrically heated branding irons there is no chance of any individual getting off easy on account of a cooled iron as has been the case sometimes in years past. Many dark and gruesome facts have been dug from the past of prominent people who will attend the banquet. These people will not be spared. On the other hand there are a very few benefactors of mankind who will be honored.

Makes Autos Go 49 Miles On Gallon of Gasoline

An amazing new device has been perfected by James A. May, of 7025 Locust Bldg., Sioux Falls, So. Dak., that cuts down gas consumption, removes all carbon, prevents spark plug trouble and overheating. Many cars have made over 49 miles on a gallon. Any one can install it in five minutes. Mr. May wants agents and is offering to send one free to one auto owner in each locality. Write him today.

There will be a dramatic inaugural stunt for the new president of Kansas State Agricultural college. Some exciting incident or dialogue will keep the guests in a continuous state of nervous tension. The nervous strain is expected to be so great, especially on some of the victims, that a doctor and special corps of nurses will be in attendance in an ante-room.

Distinguished guests from out of town, including Governor Paulen and many newspaper men, faculty mem-

bers, Manhattan business men and a limited number of students will make up the personnel of the banquet.

Y. M. DELEGATES NAMED

Shideler, Yandell, and Gillman Go to Mid-West Meet

At a meeting of the S. S. G. A. council last Thursday night, Harold Gillman, K. E. Yandell, and Fred M. Shideler were elected delegates from K. S. A. C. to the Mid-West Student

conference, which will be held in Manhattan April 30, May 1 and 2.

About 70 delegates, representing 33 of the largest state universities and colleges in the middle west, will attend the conference. Student problems of general interest and suggestions for the betterment of student governing associations will be discussed.

The last five presidents of the United States have been college fraternity men.

RECORDS FALL AT LAWRENCE

Aggies Win Fourth in Four Mile Relay

Four new world's records were set in the Kansas Relays held Saturday. One was tied and 17 carnival records were broken.

The new world's records which were set were made by Kansas university, when they ran the 440 relay in 42 seconds; University of Illinois, whose team ran the 880 relay in 1:27, and the University of Texas team, which ran the medley relay in 7:35.

The four-mile relay was the only event in which the Aggies were able to place and fourth place was the highest they were able to do in this.

Coach C. W. Corsaut has started the season with two victories over Missouri and 1,000 pct.

C. W. CORSAUT

FRESHMAN SWIMMERS WIN

Lillian Kammeyer the Individual Star—Freshmen Had Better Form

The freshman girls' swimming team won from the sophomore team Thursday by a score of 39-25. The sophomores took most of the speed events but the freshmen won the outstanding points in the events for form.

Lillian Kammeyer of the sophomore team secured the highest number of points of the meet with 18 points, secured by winning three first, two speed events and the plunge for distance, and second place in the diving event. She also passed the freshman contestant in the last lap of the candle relay.

In the last relay of the meet the freshmen were given a 10-foot handicap because Miss Kammeyer had been entered in two speed events. Catherine Lorimer of the freshman team won 11 points and was second in number of points.

DELTA TAU DELTA LEADS IN INTRAMURAL POINTS SO FAR

Sigma Phi Sigma Is Running a Close Second

The Delta Tau Deltas are leading in the race for the intramural cup but the Sigma Phi Sigmas are still in the running. The lead which these organizations hold will make it very difficult for any other to pass them. The standings in points toward the cup are:

Delta Tau Delta, 508; Sigma Phi Sigma, 435 1/2; Sigma Phi Epsilon, 334; Phi Kappa, 315 1/2; Omega Tau Epsilon, 307; Kappa Sigma, 246; Beta Theta Pi, 226; Lambda Chi Alpha, 204; Phi Lambda Theta, 166 1/2; Phi Kappa Alpha, 161 1/2; Kappa Phi Alpha, 157; Alpha Tau Omega, 157; Aggieville Athletic club, 155 1/2; Phi Sigma Kappa, 134; Delta Sigma Phi, 128; Kanza club, 123; Acacia, 116; Rinky Dinks, 111; Sigma Alpha Epsilon, 106; Sigma Nu, 104; Belmont club, 98; Phi Delta Theta, 94; Alpha Rho Chi, 82 1/2; Triangulars, 77; Alpha Sigma Psi, 75; Veterinary Medical association, 75; Beta Pi Epsilon, 67 1/2; Farm House, 3; T. THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, APRIL 24, 1925

NO. 58

S. S. G. A. MEETS HERE APRIL 30

CONFERENCE INCLUDES DELEGATES FROM 32 SCHOOLS

Purpose Is to Get Universities and Colleges Better Acquainted with Each Other

Approximately 70 delegates, representing 32 of the larger universities and colleges in the middle west, will meet at K. S. A. C. next Thursday, Friday, and Saturday, April 30, May 1, and 2, for the fifth annual Mid-West Student conference.

The purpose of the conference is to get the various delegates better acquainted with the conditions existing at other schools, so that they may carry back suggestions to their own student bodies. Discussion, in the main, will be grouped under the heading of publications, student government, and athletics. These will be split into various sub-heads to cover all questions that should properly come before the convention.

Entertainment Arranged
Besides the regular business sessions of the conference, those in charge of the conference have prepared various forms of entertainment for the visiting delegates.

Registration of delegates will take place at 9 o'clock in Recreation center. From here the delegates will go to the second floor of the cafeteria, where all of the sessions will be held. A dance will be held Thursday night at Elks hall. On Friday morning, cars will take the visitors to Fort Riley, where they will inspect the fort, and witness a riding show put on through the kindness of General Edward L. King. Friday night the annual conference banquet will be served at the Gillett hotel.

See Nebraska Games
On both Friday and Saturday afternoons the Aggies play the University of Nebraska in baseball, and the delegates will be given an opportunity to see two of the best teams in the valley in action.

Festival week activities also will afford the delegates an opportunity to hear some of the world's best music.

True D. Morse of the University of Missouri is president of the conference this year. Randolph Dodson, University of Tennessee, is vice-president; and Ralph L. Countryman, Northwestern university, secretary-treasurer. E. E. Yandell, Harold Gillman, and Fred M. Shideler have been elected as delegates from K. S. A. C.

Members of the conference are as follows:
University of Alabama, University of Arkansas, Carnegie Institute of Technology, University of Chicago, University of Cincinnati, Creighton university, DePaul university, University of Illinois, Illinois Wesleyan university, University of Indiana, Iowa State college, University of Iowa, Kansas State college, University of Kansas, University of Kentucky, University of Michigan, Miami university, Michigan Agricultural college, Minnesota university, University of Missouri, University of Nebraska, Northwestern university, Notre Dame university, University of North Dakota, Ohio Wesleyan university, University of Oklahoma, Pennsylvania State college, Purdue university, University of Tennessee, University of Texas, Tulane university, and the University of Wisconsin.

Harold Gillman has general charge of arrangements for the convention. Fred Shideler is chairman of the program committee.

MATTHEWS HERE NEXT WEEK

Noted Religious Writer and Leader Will Make Three Addresses

Shailer Matthews, dean of the divinity school of the University of Chicago, and one of the foremost religious writers and leaders of today, will be in Manhattan April 27-28. He will speak before the Science club Monday evening at 7:30, at chapel Tuesday morning, and a special forum will be held for him in Thompson hall Tuesday noon.

Aside from being the author of many books, Shailer Matthews is connected with several nationally known periodicals. He is editor of the social and religious department of the Literary Digest, associate editor of the American Journal of Sociology, and of the Biblical World, and contributing editor of the Christian Century. He is also president of the Western Economical and Historical association.

One of his books, "A History of Palestine in New Testament Times," has been chosen by the University of London as one of the four greatest histories. Among his latest books

are: "The Faith of a Modernist," "The Church and the Modern Man," and "Contribution of Science to Religion."

Following is the list of subjects on which he will talk:
Monday, April 27—At the open meeting of the Y. M. C. A. and Y. W. C. A. cabinets, in the home economics rest room, "Taking Jesus Seriously." At 6 p. m. an informal banquet will be held in his honor by alumni of the University of Chicago. At 7:30 p. m. he will speak before an open meeting of the Science club in Recreation center, on "Contributions of Science to Religion."

Doctor Matthews' subject for his chapel address is "The Arriving Generation and Its Moral Task." He will talk on "The Church and the Human Soul" at the special student forum in the cafeteria Tuesday noon.

FIVE AGGIES ARE ENTERED IN RELAYS AT DES MOINES

Four-Mile Relay Team Stands Chance to Place First—John Gartner Will Throw Discus

Five members of the Aggie track squad accompanied Coach Bachman to the Drake relays which are being held today and tomorrow at Des Moines. The four-mile relay team will enter that event and John Gartner will throw the discus.

The relay team will be the same one which placed fourth at the Kansas Relays and virtually the same as that which placed second at the Illinois indoor meet last winter. In the Illinois relays the members of the team were Ralph Kimpton, Norton, A. I. Balzer, Inman, Paul Axell, Argonia, and E. von Riesen, Marysville. At the Kansas Relays M. L. Sallee, Long Island, ran instead of von Riesen, who had sustained an injured ankle a short time before. Sallee will run at the Drake relays.

The world's record for the four-mile relay is 17 minutes 21 4-10 seconds, held by an Illinois Athletic club team, of which Ray Watson, former Aggie star, was a member. The Drake record for this event is 17 minutes, 45 seconds, held by an Illinois university team. But according to Coach Bachman, it is improbable that such fast time will be made there this year. The Kansas State four-mile team made the distance in 18 minutes and 20 seconds at Urbana and an 18 minutes and 17 seconds at Lawrence, but Bachman believes the team is capable of improving on this time a great deal and says they stand an excellent chance of "copping" first in the event.

John Gartner is entering the discus throw to try to throw the discus as far in an official meet as he has been doing in practice. Thus far in the meets he has never been able to duplicate his practice distances. At the Kansas relays he made a throw of about 132 feet which would probably have netted him third place in the event had he not fouled by stepping about two inches over the line.

DANISH STUDENT WINS FIRST

Holm Wins Senior Livestock Judging Contest—Lovett High Junior

Lionel Holm, Denmark, placed first in the senior division, and A. D. Lovett, Larned, placed first in the junior division of the livestock judging contest held Monday by the Block and Bridle club. Holm's score was 508 points and Lovett's was 548 points. Others placing high were: Senior division—C. N. Yarle, Rago, second with 489 points; Wayne Rogier, Matfield, third with 467 points; T. M. Kleinberg, South Africa, fourth with 465 points; and A. C. Hoffman, Abilene, fifth with 458 points.

Junior division—E. I. Chlicott, Manhattan, second with 528 points; D. A. Scheel, Emporia, third with 525 points; L. E. Mella, Ford, fourth with 518 points; and L. M. Pike, Goddard, fifth with 516 points.

The senior division was composed of students having studied advanced judging, and the junior division of those who had not. There were 17 entered in the senior division and 119 in the junior division. Points were given for judging cattle, hogs, horses, and sheep.

"THE ROCK" TO BE GIVEN BY
EPWORTH LEAGUE CAST
Religious Drama Centers Story on Life of Peter

The Epworth league of the Methodist Episcopal church as one of its special feature programs will produce the religious drama, "The Rock," in the college auditorium Sunday evening at 8 o'clock. This play has been given by many of the religious organizations in university centers and indicates a tendency on the part of the church to avail itself of an agency which originated within religious exercises and through in-

tervening centuries has slipped into commercial fields almost entirely.

The story of the play centers around the traditional life of Peter during the period of the ministry of Jesus of Nazareth. The cast of the play includes: F. M. Hartman as Simon Peter, Lois Grasty as Adina, wife of Simon; Vera Chubb as Deborah, mother of Adina; Alvin Ritts as Ucal, brother of Deborah; Glyde Anderson as Mary Magdalene, M. R. Buck as Titus, a Roman soldier; C. W. Eshbaugh as Pandira, a Greek; H. M. Nester as Agur, a physician.

No admittance will be charged but an offering will be taken.

Fraternity Granted National Charter
The local chapter of Phi Kappa Theta has been granted a charter by Phi Kappa Tau, according to word just received. This is the first chapter to be installed in a Missouri valley school.

Phi Kappa Tau was founded in 1906 at Miami university. At present there are 28 active chapters and no inactive chapters. Phi Kappa Theta was organized as a local fraternity May 21, 1922. Installation will probably be held the latter part of May.

POULTRY CLASS VISITS FARM
Clay County Flocks Inspected by Students

The class in poultry management, under Prof. L. F. Payne, visited a number of commercial poultry farms in Clay county on Wednesday, April 22.

Mr. C. R. Jaccard, Clay county agent, personally conducted the class to eight of the large farms in that county. The hatcheries at Wakefield also were visited by the class.

The trip was planned to visit those farms that differ greatly from the ordinary method of management used.

Members of the class that made the trip are: Fred O. Allison, R. L. Anderson, C. L. Browning, B. A. Campbell, E. A. Cleavenger, B. B. Rachel Holt, R. B. ohnson, B. B. King, G. R. McMahon, D. C. McMillin, Charles Nicher, Floyd Pattison, A. R. Sargent, and L. J. Schmitz. Dr. W. R. Hinchaw, Mr. R. Moore, Dr. J. S. Hughes, and Prof. L. F. Payne were the faculty members who made the trip.

HELEN CORRELL WILL DEBATE

Meets Washburn Debater Monday at Topeka

Helen Correll will represent K. S. A. C. in a debate at Washburn college in Topeka Monday of next week. The debate is to be held in student assembly and will be upon the question, "Resolved: That state control is preferable to private control of institutions of higher learning."

Miss Correll is the most experienced Aggie debater on the squad, having participated in 10 debates this season alone. She was a member of the K. S. A. C. team which defeated the Oregon Aggies. The Oregon team has had virtually a victorious trip with the exception of this defeat, even winning from Bates college, which has become famous for its debating talent.

The debate at Washburn is to be of an informal character, and an open forum following the presentation of the arguments probably will be held. Miss Lorraine Bates in the Washburn debater. Mrs. H. B. Summers probably will accompany Miss Correll upon the trip.

ENGINEERS SLIDE SATURDAY

New Dance Dedicated to the Slide Rule

The Slide-Rule Slide, an innovation in engineering social activity, will be held Saturday night, April 25, in Recreation center from 8:30 to 11:30.

It is planned to make the Slide an annual engineering dance. The affair is sponsored by Sigma Tau, national professional and honorary engineering fraternity. Admission to the dance will be \$1.00.

JUNIOR-SENIORS SWIM AWAY FROM SOPHOMORES IN MEET

Betty McCain Wins High Point Honors

The junior-senior girls' swimming team won from the sophomore team Tuesday afternoon by a 45 to 19 score. Betty McCain of the junior-senior team was high point winner with 15 points, winning first in two speed events and in the diving contest.

Laurea Thompson, senior, was second with 11 points; a first in the breast stroke for form and second in the diving events and 50 feet speed event.

Doris Dwelly, sophomore, placed first in the plunge for distance. The sophomore team took the last relay.

343 CANDIDATES EXPECT DEGREES

GENERAL SCIENCE DIVISION LEADS WITH 111 NAMES

Dean Davenport Will Deliver Commencement Address—Exercises Will Be May 28

Three hundred and forty-three students expect to be graduated from the Kansas State Agricultural college in May and at the close of the summer session.

Over 100 in General Science

The list includes 111 in general science, 85 in home economics, 59 in agriculture, 35 in electrical engineering, 25 in civil engineering, 15 in veterinary medicine, eight in agricultural engineering, two in flour mill engineering, two in architectural engineering, and one in architecture.

Dean E. Davenport, dean emeritus of the college of agriculture of the University of Illinois, will give the commencement address, which will be held in the college auditorium, Thursday, May 28.

Dr. A. E. Holt, former pastor of the Congregational church of Manhattan, will deliver the baccalaureate sermon, Sunday, May 24.

Following is the unofficial list of candidates for degrees at the close of the present semester:

Division of General Science—Emily Adams, Maple Hill; Ralph Edward Adams, Norton; Ruth Bachelder, Fredonia; Ivy Constance Barker, Manhattan; Marjorie Fern Barth, Manhattan; Paul Baum Bascom, Wichita; William Neff Batdorf, Burlington; Aubrey Ellsworth Bilger, Hunter; Mary Elizabeth Boyd, Manhattan; Grace Elizabeth Bressler, Manhattan; Lottie Mae Butts, Manhattan; George Henry Collis, Chase; Harold Edwin Collis, Chase; Arden Griffith Campbell, Wilson; Thelma Odell Carter, LeRoy; Lillian Ina Carver, Manhattan; Margaret Elma Chandlee, Kansas City; Louis Edward Childers, Wamego; Mary Ellen Cormany, Tulsa, Okla.; Helen Elizabeth Correll, Manhattan; Erma Evangeline Currin, Manhattan; William Alvo Dalton, St. George; Dorothy Davis, Delavan; Eleanor Elizabeth Dempsey, Manhattan; Rowland Leeds Dennen, Manhattan; Alberta Edelblute, Manhattan; Delbert Frederick Emery, Parsons; Alice Fisher, Manhattan; Audrey Genevieve Freeman, Junction City; Hilmarie Freeman, Courtland; Frances Opal Gadde, Bazaar; John French Gartner, Manhattan; Esther Lorena Gathers, Miltonvale; Herbert Albert Goering, Moundridge; Wallace Chester Goodell, Independence; Arthur Ernest Goodwin, Concordia; John Prentiss Hale, Hill City; William Henry Hanson, Concordia; Marian Hardman, Osborne; Bernard Cecil Harter, El Dorado; Vera Doolittle Hedges, Blue Mound; Mary Adella Higinbotham, Manhattan; Lona Gertrude Hoag, Manhattan; Ruth Laura Hochull, Holton; James Wing Honeywell, Manhattan; Frank Lucian Howard, Manhattan; Marjorie Hubner, Newton; Bertha May Hyde, Altoona; Everett Harold Ingersoll, Overbrook; Bernice Georgia Issitt, Navarre; Milo Herbert Johnson, Chanute; Grace Josephine Justin, Manhattan; Winifred Ellen Knight, Medicine Lodge; Ray Clinton Langford, Manhattan; James Waggoner Lansing, Chase; Elbert Willard Larson, Manhattan; George Gray LeVitt, Ellsworth; Carl Walter Londerholm, Manhattan; Charles Elbert Long, Hutchinson; Harry Francis Lutz, Sharon Springs; Elizabeth McCoin, Wichita; Mildred Cecelia Mast, Goff; Earl Ernest Mellis, Conway Springs; Louis Cunningham Miller, Norton; Julia Melvina Moehman, Manhattan; Margaret Alice Newcomb, Garnett; Anna Eleanor Nohlen, Cleburne; Helen Grosvenor Norton, Chanute; Alice Louise Paddelford, Cedar Vale; Wendell T. Perham, Madison; Robert Perkins, Oswego; Theodore C. Potter, Natoma; Richard Lawrence Pyncha, Salina; Harry Charles Quantie, Riley; Maxine Ransom, Downs; Alvin Verne Ritts, Topeka; Floyd Northup, Washington; Laura Faye Russell, Manhattan; Cecil Reed Ryan, Gooding, Idaho; Gladys LeVelle Sanford, Kansas City; Muriel Shaver, Cedar Vale; Francis Marlin Sherwood, Burlington; Glen Wesley Spring, Manhattan; Theodore Roosevelt Stell, Manhattan; Milan Burdette Swartz, Hiawatha; Floyd Raymond Swim, Newton; Melville Samuel Thompson, Manhattan; Ferdinand Volland, Jr., Topeka; Emil von Riesen, Marysville; Eugene Albert Waters, Wellsville; Curtis Crenshaw Watts, Winfield; Amanda June Zirkle, Berryton.

Civil Engineering—Alfred George Aldridge, Topeka; George Myron Baker, Wichita; Maurice Bradley, Winfield; Sidney Peter Eberhart,

Manhattan; Clifford Wayne Eshbaugh, Manhattan; Leo Emerson Garrison, Lincolnville; Chester Elmer Hammon, Smith Center; Frank Valburg Hoaska, Washington; Ezra Edson Howard, Garnett; Charles Frank Erwin, Manhattan; John Arthur Johnson, Manhattan; Irvin Bernell Kirkwood, Marysville; Rolla Daniel Mayden, Manhattan; Rael Fisher Morris, Oswego; Francis Joseph Nettleton, Lenora; Floyd Robert Oliver, Manhattan; Irwin Leslie Piffley, Manhattan; William Rankin, Manhattan; Hervey Omer Reed, Manhattan; Dean Alvin Smith, Russell; Clark Oliver Stratford, El Dorado; Delos Clifton Taylor, Harveyville; Paul Raymond Wise, Clearwater.

Electrical Engineering—Ralph William Bell, Kinsley; Theodore Orville Bennett, Wamego; Theodore McKinley Berry, Manhattan; Roy Eugene Boroff, Manhattan; Esteban Aguilar Cabacungan, Philippine Islands; Sherman Harold Carter, LeRoy; Nathan Goodman Chilcott, Mankato; Willis Ewert Garrat, Lawrence; Raymond Meredith Hill, Burrton; Conrad Hastings Johnson, Latimer; Smith Herman Lapsley, Manhattan; John Clyde Lentz, Holton; James Michael Leonard, Newton; Randall Birdell McIlvain, Smith Center; Wayne Edwin McKibben, Wichita; George Vernon Mueller, Sawyer; Vincent Werner Mass, Atchison; Keith Parson Novell, Reeds, Mo.; George Addison Plank, Kansas City, Mo.; Walter Hosea Reed, Manhattan; Alexander Frederick Rehberg, Niles; Christian William Schemm, Wakeeney; Sheldon Batchelder Storer, Osborne; James Kenneth Swales, Kansas City; Harry Alcid Swim, Severance; Isom Raymond Ward, Manhattan; Leroy Lawrence Wurst, Manhattan.

Flour Mill Engineering—Hugh Alexander Garvie, Abilene; Perle Rumold, Manhattan.

Agricultural Engineering—Alfred Douglas Edgar, Manhattan; Harold Chester Elder, Mankato; Walter Dedrick Hemker, Great Bend; Orrin Kem Howe, Manhattan; Earl Gladstone Johnson, Manhattan; Charles Alden Logan, Elkridge; Archie Ricklefs Loyd, Hiawatha; Henry Amos Wright, Welsh, La.

Architecture—Norman Losey Roberts, Jr., Manhattan.

Architectural Engineering—Willis Winfred Frudden, Charles City, Ia.; Wilmer Lee Oakes, Manhattan.

Division of Veterinary Medicine—Gulabsing Amarsing Ajwani, India; Fred Russell Allerton, Hamilton; Jules Louis Armandez, Manhattan; Lamar Perkins Caraway, Manhattan; Harold Lincoln Church, Manhattan; Gerald Roderick Dowd, San Francisco, Cal.; Verne Clifford Hill, Manhattan; Floyd Edgar Hull, Downs; Arthur O'Toole, Arnold; Armer Porter, Manhattan; Arthur Howard Riley, Manhattan; James Fred Savage, Wright.

Division of Agriculture—Fred Denman Allison, Hazelton; Robert Louis Anders, Kansas City, Mo.; Carl William Bower, Manhattan; Benjamin Augustine Campbell, Denison, Tex.; Anna Melvin Carnuff, Miltonvale; Herbert Harold Carnahan, Garrison; Doyle Henry Carter Trenton; Eugene Arthur Cleavenger, Lawemont; John Herbert Coolidge, Greensburg; Elmer Remington Crooks, Topeka; Mable Ellsworth Crouse, Harlan; Edward Aloysius Cunningham, Manhattan; Walter Jones Daly, Manhattan; George Forbes Ellis, New Mexico; Lyle Wayne Ernst, Manhattan; Harry Ludwig Gul, St. Louis, Mo.; Frank Alexander Hagans, Manhattan; Walter Henry Hukriede, Cleburne; Colbert Clinton Huntington, Eureka; Carl Grant Iles, Manhattan; Robert Bruce Johnson, Salina; John Clower Keas, Chanute; Cecil Earl Kiehorn, Cambridge; Forrest William Kitch, Ne-

FESTIVAL TICKET SALES ARE GOOD

TWO ORATORIOS WILL BE FEATURE OF THE WEEK

"Captain Applejack," Purple Masque Play, Will Be Presented—Minneapolis Symphony Orchestra Saturday

Tickets for the 1925 Festival and Guest week which opens next week are selling rapidly, and the XIX girls and their assistants who are in charge of the sales campaign have been working hard all week in a thorough canvass of the college, the city, and surrounding towns.

The first number of the spring festival will be a concert Thursday evening by the college glee clubs, assisted by the faculty trio—Suzanne Pasmore, pianist; Harry King Lamont, violinist; and Robert Gordon, cellist. Wednesday evening there will be a concert by the college orchestra, Harry King Lamont, violinist, and Robert Gordon, cellist.

"Captain Applejack" Thursday

"Captain Applejack," a highly entertaining if slightly delicious three-act farce by Walter Hackett, will be presented Thursday evening by the Purple Masque players. Ralph Mohri of Kansas City, Mo., plays the part of Ambrose Applejohn, the hero of this Arabian night's adventure, who seeks romance as a pirate on the Spanish main. The cast of characters includes Lush, the faithful butler, Paul Chappell, Manhattan; Poppy Fair, Agatha Tyler, Fredonia; Mrs. Whitcombe, Charlotte Swanson, Manhattan; Ambrose Applejohn, Ralph Mohri, Kansas City, Mo.; Anna Valeska, Helen Bennett, Norton; Mrs. Pengard, Eleanor Mims, Garden City; Horace Pengard, Jack Kennedy, Wichita; Ivan Borolsky, Paul Puetze, Manhattan; Palmer, Ruth Stewart, Manhattan; Dennet, Melvin Thompson, Manhattan; Johnny Jason, Lynn Fayman, Manhattan; pirates, Gene Conklin, Hutchinson; Earl Hinden, Strong City; Harold Cary, Manhattan; Hale Brown, Manhattan; Lionel Holm, Denmark. The play is directed and staged by Prof. Earl G. McDonald of the department of public speaking.

Mojica in Costume Songs

Friday's program includes a campus concert in the afternoon by the college band, H. P. Wheeler, conductor, and a recital in the evening by Don Jose Mojica, Spanish tenor with the Chicago Grand Opera company. Adalbert Huguete, pianist and composer, will accompany Mojica. The first part of Mojica's program will be straight recital, the second part a group of Spanish folk songs and love songs sung in the costume of a Spanish cavalier of the early nineteenth century.

Saturday is the feature day of the 1925 festival. In the afternoon the K. S. A. C. chorus with the Minneapolis Symphony orchestra will present two oratorios, Olaf Trygvasson, by Grieg, and Hymn of Praise, by Mendelssohn. Soloists who will assist in the concert are Julia Clausen, prima donna mezzo-soprano with the Metropolitan Grand opera company; Judson House, famous American tenor; Leslie Putnam, baritone; and Ruth Scott, soprano. Prof. Ira Pratt will serve as conductor. In the evening the Minneapolis orchestra will give a full concert, with Henri Verbrugghen, conductor, Gustave Tinot, solo violinist, and Marie Tiffany, soprano with the Metropolitan Opera company, soloist.

Season tickets for the festival are \$3.00 and \$4.00. Mail orders may be addressed to Prof. Ira Pratt, head of the department of music, Kansas State Agricultural college.

AHLSTROM DIES AT HOSPITAL

Heart Disease Fatal to Topeka Student

Ralph Emerson Ahlstrom, freshman in electrical engineering, died at the college hospital Wednesday evening at 5:45 o'clock. The cause of his death was heart disease, from which he has been suffering for some time.

Ralph Ahlstrom, who was 19 years old was a son of Mr. and Mrs. J. A. Ahlstrom of Topeka. His Manhattan address was 919 Humboldt street. The body was sent to Topeka Thursday noon.

Farrell to Speak at Vespers

Acting President Farrell will give a talk at Vespers Tuesday afternoon, April 28. The subject of his speech will be "Mr. and Mrs. Grundy."

William H. Koenig, '22, is in architectural construction work at Seneca Falls, N. Y.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

FRIDAY, APRIL 24, 1925

The following clipping was submitted by John Wilson, Manhattan, together with a letter commendatory of the stand taken by the recent editorial on "Wrestling."

"PETTING PARTIES"

The approach of spring weather resurrects the annual problem of so-called "spooning parties" by motorists in secluded spots along the county highways. The same problem, in fact, though not quite so acute, faces the authorities in suburban city areas.

Some county authorities have announced a vigorous policy of suppression of these meliorous practices, which verge upon the indecent at the most harmless and go over the moral line at the worst. The authorities who come in contact with these "spooners" do not hesitate to denounce them as guilty of immorality of a particular vicious character which cannot be discussed in public without employing euphemisms.

There is not the vestige of excuse or justification for these practices when the moral law is involved and even in less objectionable cases they foster laxity which leads inevitably to immorality.

No young woman with a proper conception of the dignity and sanctity of her womanhood will imperil her good name or her very character by indulging in these practices, which are inspired by an attitude toward life which gives rise to some of the most vigorous and most just complaints against the youth of today.—Neodesha Register.

With the coming of spring and the brightly hued dresses and stockings and so forth the girls of the college appear to be much more beautiful and attractive. Can it be that clothes do make the woman after all?

Possibly it is merely imagination on our part but being of low imaginative powers we are inclined to doubt that. The beauty must have been present all the time, but it was certainly well concealed last fall.

Whether it be the clothes or real beauty this is intended as a compliment and not as a derogatory article.

A striking comparison of love and war shows that engagements appear in both.

It has been recommended that if you must borrow money be sure and pick a pessimist for the victim because he doesn't expect to be paid back. That isn't so good though. Chances are that if a man had money to loan he wouldn't be a pessimist.

We hereby announce the changing of the name of K. S. A. C. to Kansas State college from Kansas State Agricultural college. This change will take effect as soon as the state approves of the idea.

But really, the idea is good. The name Kansas State is as much an improvement as a white shirt is over a blue one. Both are shirts, but—

Well, think it over.

They tell us that girls don't drink at dances any more. It's because they are always too full to hold any more.

Anyone knowing of a lot of nice pretty flowers that are easy to pick in the dark please inform the Delta Zetas. They are on the lookout for such objects.

The big show is about over for this year. We just have a bit of intense preparation, some mental fortification, and then the grand finale. After

that is over we can go home and receive our flunk slips.

Harry's girl asked him to kiss her last night, but he escaped on the plea that he wasn't a bit thirsty. Harry always was clever.

Judge for Yourself

WHY WORRY?

Of course they're worse! There never was a younger generation from the first baby monkey to today that wasn't hopelessly more lax, lazy, and salvationless than the group that immediately preceded them. Why worry? Everyone else has done that without successfully deterring the young folks.

Granddad liked his unchaperoned Sunday evening ride behind old Dobbin with grandmother and he took it; dad liked his mid-week prayer meeting dates with mother for the long dark walk home, he got them; we all like our all nite automobile parties and we'll have them. Why worry?

You old folks don't think you are so bad. You have a pretty good opinion of your own manners and morals. And frankly we're betting on ourselves when we're dads and mothers of tomorrow.

But that's a bad habit you have inherited from our grim old ancestors. They worried, you worry, and you think we probably will. They got grey and glum and out-of-date worrying rather than growing. We admit you grow better—but say—everytime I'm out late I think you're just a little greyer and more wrinkled. Why do you worry? Why don't you set us a better example and stop it?

We're yours and we aren't so bad—not bad enough to fret about—why worry?—Helen Correll.

CONCERNING AN A. B.

Will K. S. A. C. be permitted at some time within the near future to grant to the students of the general course an A. B. degree? For a number of years, particularly since the phenomenal growth of the general science division, this question has been sounded with steadily increasing vigor.

It has been said that for those students of Kansas to whom an A. B. degree was the more attractive K. U. was founded. This is in some measure true and a survey makes it evident that a large proportion of them attend that school. However this

same survey brings out the rather suggestive fact that 75 per cent of the students at K. S. A. C. are drawn from a territory within 75 miles of Manhattan and similarly, by far the largest part of the enrolment at K. U. is drawn from nearby territory. The obvious conclusion is that financial or other reasons are limiting the choice of students regarding schools even within the restricted area of a state. Consequently people who live in the immediate vicinity of Manhattan are destined by a bit of fate to prepare for a B. S. degree whether their natural inclinations and abilities make it desirable or not.

The counter agitation which has been advanced has been largely a matter of protest against a change in the nature of the school. The contention is made that K. S. A. C. was founded as a scientific school and as such should grant only a scientific degree. Those who are the supporters of this argument do not observe that the nature of the school is already in the process of changing—that it has in part changed. No longer are the predominant numbers of students Ags, and no longer is the field of home economics the only one attractive to women. It is not that the place of science is being usurped, it is rather that the school has broadened in scope to include a cultural curriculum as well.

K. S. A. C. will not be alone among state colleges in taking this step. Already Michigan and Penn State are granting A. B. degrees to those of their students who are graduates of the liberal course. This step was taken within the last few years and other colleges over the country are rapidly tending in that direction.

What are the benefits which K. S. A. C. might gain as a result of this change? In the first place she will hold her students for four years. At present there are many young people who enrol here for one or two years and then leave for K. U. or M. U. to get an A. B. degree. In the second place she will get more students for there are at present many who would like to come here but who go to a school where a course in the liberal arts is offered. As a matter of school growth then this is a desirable plan. From the aspect of national organizations we shall also better our standing. The chief obstacle in the way of the granting to Manhattan of a chapter of A. A. U. W. was this lack of an A. B. degree. True it was overcome, but it was with misgivings on the part of the national officers and only after long years in which the women graduates of this school were

refused recognition in all parts of the country. Other honorary organizations though willing and anxious to enter K. S. A. C. are kept out by the lack of a liberal arts degree. And yet the required courses are given here. We have attained the standard, why not receive the credit?—H. C.

Although the Aggies lost their first tennis match of the season to Kansas it must be remembered that Kansas has the outstanding men in the middle west on its team. Mufr Rogers not only was considered the best tennis player in the valley last year but he won sufficient outside matches to class him as an expert. Campbell and Hoke, the other two members of the team, also have won prominence by their playing in various city matches. Only one man on the Aggie team has been out for ten-

nis before and he was not a regular player last year.

Freshman baseball players are showing the real Aggie fight in the daily skirmishes with the varsity. With such enthusiasm as is being shown there is no question but that in a year or two baseball will no longer be classed as a weak sport at Kansas State.

The Y. W. C. A. held their annual picnic supper, Tuesday evening in Lover's Lane. Ruth Faulconer read from "God's Great Outdoors," by Henry Van Dyke, after which the chairman of committees gave talks, explaining the work to be done next year and the plans for carrying it out. About 75 girls and faculty members were present. The cabinet members were also announced, as follows: President, Katherine Welker; vice-president, Ruth Faulconer; secretary, Margaret Burdick; treasurer, Trena Olson, undergraduate representative, Mildred Leech; finance chairman, Genevieve Tracy; social chairman, Helen Eakin; membership chairman, Ruth Bell; vespers chairman, Mary Francis White; music chairman, Helen Graham; forum chairman, Josephine Copeland; ways and means chairman, Achesa Johnson; big sister chairman, Charlotte Swanson; Bible study chairman, Dorothy Rosebrough; and church chairman, Miriam Dexter.

The annual banquet of the Veterinary Medical association of K. S. A. C. was held last Tuesday night at the Gillett hotel. J. H. Mercer, state livestock commissioner, was the principal speaker. Others on the program were: Major R. J. Foster, Fort Riley; President F. D. Farrell; Dean R. R. Dykstra; Dr. T. J. Foley, Frankfort; F. E. Carroll, freshman in veterinary; H. N. Mills, sophomore; Walter Wisnicky, junior; and Joe Greer, senior. V. C. Hill was toastmaster and music was furnished by the Pines Serenaders.

Week-end guests at the Kappa Kappa Gamma house were: Gertrude Catlin, Fairbury, Nebr.; Elizabeth Nisson, Newton; Polly Hedges, Clay Center; Helen Brown, Emporia; and Robina Manley, Junction City.

Miss Emily Bennett of the home economics division entertained at Bridge Monday evening for Miss Helen Bishop of Decatur, Ill., who attended the golden jubilee. Bridge was played at three tables. Score prizes were won by Miss Elsie Smith and Mrs. Amy Jane Englund.

Miss Lita Bane, secretary of the American Home Economics association, was a house guest at the Ellen Richards lodge during the jubilee last week.

Kappa Phi held its regular meeting in the home economics rest room Tuesday evening. Reverend Allison gave the address on "Church Literature." Special music was furnished by Eugene Knechtel. Miss Verna Lawrence had charge of the devotionals.

A luncheon for all members of the advance corps of the B. O. T. C. will be held next Monday noon at the college cafeteria. The object of the meeting is to talk over problems of the local unit, and have a general get-together. All those taking advanced military are asked to attend and in uniform if possible.

Mrs. J. T. Willard is visiting her mother, Mrs. Lydia B. Gardiner at Excelsior Springs, Mo. She will be gone several weeks.

Harry L. Kent, president of the New Mexico Agricultural college visited the college Wednesday on his way to Hays where he will attend the Homecoming Roundup.

M. S. Coman of Emporia, sophomore in engineering, has withdrawn from school after being out several

weeks due to an operation for appendicitis.

H. B. Thompson of Wakarusa has withdrawn from school because of the illness of his father.

Carl Schaeble of Oakley, a freshman in rural commerce, has withdrawn from school after a five weeks' siege of the mumps.

Kappa Kappa Gamma will entertain with a tea dance Saturday afternoon at the Elks club. Music will be furnished by Bob Jenks' orchestra.

Miss Buena Childress, Joplin, is visiting her sister, Miss Freda Childress, at the Kappa house.

Richard Stone and James Murdock, Galena, were guests at the Beta house Tuesday and Wednesday.

You will be surprised at the excellent quality of our lunch service. A trial will convince. Cozy Inn, 1403 Anderson, Phone 1328X.

343 CANDIDATES
EXPECT DEGREES

(Continued from page 1)

koma; Louis Sauritson, Kansas City; Donald Craig McMillin, Manhattan; George Montgomery, Jr., Sabetha; Harry Forest Moxley, Osage City; John Evans Norton, Grainfield; Onie Lindsey Norton, LaCygne; Glen Bradshaw, Railsback, Langdon; Gladwin Adolph Read, Manhattan; Glenn McKinley Reed, Galeburg; John Imilo Rogers, Manhattan; Ralph William Russell, Jewell; Alfred Raymond Sargent, Manhattan; Lester John Schmutz, Junction City; Robert Ewing Sears, Eureka; Earl C. Smith, Pratt; Robert Burns Smith, Brilliant; William Scott Speer, Olathe; Fred David Strickler, Manhattan; Homer Lewis Sumners, Emory Newton Watkins, Manhattan; Jewell Kimball Watt, Topeka; Glenn Ivan Wood, Milan; Jay Raymond, Manhattan; Claude Newton Yaple, Rago.

Division of Home Economics—Leah Ellen Arnold, Manhattan; Nora Elizabeth Bare, Protection; Florence Anne Barnhiser, Emporia; Catherine Belle Bernhiser, Hartford; Neva Betz, Manhattan; Clorna Bidler, Manhattan; Sarah Hilda Black, Lewis; Emogene Bowen, Manhattan; Phyllis Winifred Burtis, Manhattan; Jessie Campbell, Attica; Evelyn Charlotte Colburn, Manhattan; Grace Ruby Curl, Olsburg; May Danheim, Blue Rapids; Ethyl Adeline Danielson, Concordia; Grace La-

vina Davidson, Michigan Valley; Laura Virginia Deal, Kansas City, Mo.; Helen Sarah Deely, Norton; Mary Session Day, Wellington; Lella Blanche Elliott, Caney; Ella Amy Franz, Emporia; Nellie Gertrude Fulton, Harper; Margaret Ruth Galimore, Arkansas City; Mary Lois Gordon, Manhattan; Florence Ina Haines, Haven; Florence Harris, Manhattan; Alda Henning, Burlington; Mabel May Herr, Medicine Lodge; Lois Holderbaum, Kansas City; Jennie Horner, Grainfield; Erna Johnsmeyer, Manhattan; Della Matilda Justice, Olathe; Ruth Marian Kell, Manhattan; Ruth Annabel King, Manhattan; Ida Frances Koenig, Kansas City, Mo.; Snoda Grace Kridner, Burns; Olympia Ethel Kubik, Caldwell; Mabel Ellen Lamoreaux, Waterville; Myrtle Agnes Lenau, Hobart; Hazel Bea McConnell, Russell; Louise Mangelsoff, Manhattan; Angie Howard Miller, Manhattan; Lena Josephine Moore, Wakarusa; Mildred Moore, Carthage, Mo.; Sarah Sylvanie Morris, Manhattan; Iva Manilla Mullen, Labette; Stella Constance Munger, Manhattan; Bernice Rae Noble, Manhattan; Helen Frances Northup, Washington; Mary Alice Patterson, Manhattan; Margaret Elizabeth Perry, Pleasanton; Helen Sarah Pickens, Lake City; Myrna Elizabeth Pilley, Kansas City, Mo.; Josephine Bowen Powers, Junction City; Virginia Louise Reeder, Troy; Lois Evelyn Richardson, Manhattan; Inga Ann Ross, Amarillo, Tex.; Ethel Nancy Scott, Burlington; Ruby L. Seward, Leon; Jennetta Fridlo Shields, Lost Springs; Grace Smith, Manhattan; Grace Ann Steininger, Clay Center; Laureda Thompson, Manhattan; Anna Jean Unruh, Manhattan; Ruth Elizabeth Welton, Manhattan; Jessie Helene Winder, Covert.

Those expecting to graduate at the close of summer school are as follows:

Division of General Science—Francis Myrtle Allison, Florence; Charles Warren Claybaugh, Pretty Prairie; Edgar Ellwood Coleman, Alma; Russell Dwight Dade, Hutchinson; George William Givin, Manhattan; Margaret Joye Howe, Manhattan; Herbert Lee Kammeyer, Manhattan; Nellie Charlotte Kneeland, Liberal; Harry Allipson Moore, Wichita; Lyle Smith Munn, Colby; Mildred Elvira Pound, Glen Elder; Elnora Wanamaker Seaton, Manhattan; Byron Elbridge Short, Fredonia; Myrna Maude Smale, Manhattan; Julia Smith, Junction City.

Civil Engineering—George Christopher Horning, Hunter; Harold Hetherington Theiss, Hutchinson;

Paul Raymond Wise, Clearwater. Electrical Engineering—Richard Michael Hartigan, Fairbury, Nebr.; George John McKimins, Westmoreland; Harry LeRoy Madsen, Natoma; Leo Harry Schutte, Wamego; Norris Ray Thomassen, Independence; Harry Richard Wege, Great Bend.

Division of Veterinary Medicine—Norris Daddsworth Cash, Manhattan; Joseph Emerson Greer, Manhattan; Elmer William Young, Manhattan.

Division of Agriculture—Waldo Emerson Atkins, Manhattan, August Irwin Balzer, Inman; Chester Leroy Browning, Kingsville; Jerry Milton Harris, Eudora; Kenneth Gardiner Knouse, Valley Falls; Schuyler Franklin Kollar, Woodward, Okla.; William Joseph Matthias, Perry; Harold Alfred Noyce, Manhattan; Glen Alvia Rixon, Cimarron; George Edward Truby, Anthony; Hugh Tucker Willis, Eureka.

Division of Home Economics—Cora Christine Anderson, Belleville; Maggie Mae Anderson, Belleville; Capitola Belle Bassett, Okmulgee, Okla.; Amella Blanche Brooks, Manhattan; Helen Edythe Cass, Manhat-

tan; Helen Clark, Valley Center; Evelyn M. Colwell, Manhattan; Judith Briggs Craig, Manhattan; Neosha Louise Fredenburg, Council Grove; Gertrude C. Hamilton, Wichita; Susie Katharon Huston, Manhattan; Julia Aurelia Jennings, Little River; Mary Isabel Laughbaum, Oklahoma City, Okla.; Hallie Alice Laughlin, LaCross; Mabel McComb, Wichita; Margaret Elizabeth Quail, Topeka; Eva Timmons, Riley; Virginia Elizabeth Watson, Ash Grove, Mo.

ONE HUNDRED AND FIFTY YEARS
Since the "Shot Was Fired Heard 'Round the World"

Do You Know

That from April on to June, Lexington and Concord, Arlington and Cambridge, with the residents along the line of the famous march from Boston to Concord in 1775, are playing host to the American Nation? This is the sesquicentennial of the colonists' first armed resistance to the mother country.

The events of that memorable day are celebrated in verse, story

and moving picture. It is an American epic and needs no retelling. Today Lexington and Concord are shrines of the nation, and this year thousands more will make their pilgrimage to these historic spots. It is said that the guest book of the Hancock-Clarke House at Lexington contains more signatures than any other historic place in the country.

The John Hancock is particularly interested in insuring college men and women and retaining college graduates for the personnel of the field staff.

MANHATTAN is fortunate in having many big worth while entertainments—thanks to K. S. A. C. There are none more important to Manhattan and community than the Spring Music Festival. The type of entertainments offered are educational as well as entertaining. Programs that are varied and given under ideal conditions. The prices bring them within the reach of all. Desired greatly by less favored communities, making our city one of the envied as a home community.

Because of this, and because we realize what a big thing it is for Manhattan we want to recommend the Music Festival as worth while. We think it is so big that we want, in a way, to link our name up with it.

AGGIES TO MEET SOONERS TODAY

OPEN TWO GAME SERIES WITH
OKLAHOMA AT NORMAN

Dope Would Split Games at Norman
Between K. S. A. C. and Okla-
homa University—Have Won
from K. U.

The Aggies open a two game series with Oklahoma at Norman this afternoon, playing one game today and a second tomorrow. Neither team has lost a conference game so far and consequently both teams have much at stake.

Oklahoma has four wins to its credit, having won double-headers from both Missouri and Kansas. The Aggies on the other hand have only taken two games from Missouri. The relative scores by which the Aggies and Oklahoma won from the Tigers show that both teams are on equal basis and should split the games. Last year the Aggies split four games with the Sooners, winning the two games played in Manhattan and losing both at Norman.

Greer Pitches Opener

Joe Greer is slated to pitch today's game and as he only allowed three hits in his first game, Coach Corgaut is relying upon his arm to win the big game of the series. Greer not only showed himself as the best pitcher on the staff but his hitting so far has been above the average.

Bernard Conroy, the Aggies' pitching ace for the last two years, is due to twirl the second game. Conroy was hit hard in the second game with Missouri but he showed real form on his curve balls which are his favorite throws. As he pitches much better ball in warm weather the warm sun in Norman should aid him considerably in downing the Sooners in Saturday's combat.

Twelve men made the trip to Oklahoma besides Coach Corgaut. The men who went were Captain Karns, Miller, Brion, Lutz, Huey, Munn, Cunningham, Meek, Greer, Conroy, von Riesen, and Caraway.

CHARLES KINGSLEY WEBSTER IS SPEAKER AT CHAPEL

Discusses "History as an Applied Science" at Tuesday's Assembly

"History is capable of contributing greatly to the solution of problems," said Charles Kingsley Webster, professor of international politics at the University of Wales, England, in his talk at chapel last Tuesday. The subject of Mr. Webster's talk was "History as an Applied Science."

"History clears the mind of the statesman and gives him a basis for his arguments," continued Mr. Web-

ster. "The historian helps to make history as well as record it."

Mr. Webster cited several examples of analogies in the past that have helped in the solution of recent problems. In closing Mr. Webster said, "It is easy to teach the statesman history but it is no use to teach statesmen unless you teach the people as well. It is necessary that we know something of the history of the past in order to judge rightly."

TENNIS MEET WITH MISSOURI TO BE HELD SATURDAY

Two Singles and One Doubles Are
Scheduled for the Meet

Kansas Aggies' second Missouri Valley tennis match will be played Saturday, April 25, with Missouri university. According to "Mike" Ahearn, the Missouri team ranks

high in valley tennis, probably holding second place at present.

The matches are scheduled to start at 2 o'clock. Two singles matches and one doubles match will be played. The men who will make up the team are Harold Sappenfield, Harold Dayhoff and Tim Kleinenberg. The doubles will be played by Sappenfield and Kleinenberg.

STUDENTS IN DESIGN HAVE GOOD EXHIBIT OF POSTERS

Tooled Leather Desk Sets Are Also
Part of Exhibit

The applied art department has held an exhibit in A 61, for the past week, of class work done by students during the year as a part of the jubilee program.

The display of Design I students is made up of posters, block printing and problems in proportion and col-

or. The feature of this display is composed of printed silks using the original designs of the students.

Arrangement and proportion of rooms and houses, and designs suitable for tapestries make up the Interior Decoration and Furnishing display.

Design II students have on display problems in arrangement in dark and light, warm tones and cool tones. Original designs, derived from descriptive verses, painted on cloth, are hung on the walls. Tooled leather desk sets, made by last year's handicraft students, make up an important part of the exhibit.

RIFLE TEAM CLOSSES SEASON

Hill, Taylor, and Walt Are Three
High Men on 1925 Team

The K. S. A. C. rifle team has finished its shooting for this season

and awards have been made. The three high men on the team are V. C. Hill, gold medal; D. C. Taylor, silver medal; and Cecil Walt, bronze medal. These medals will be presented before the battalions to which these men belong.

The following men will receive sweaters: V. C. Hill, D. C. Taylor, Cecil Walt, Norris Meek, E. R. Martin, Ernest Miller, O. K. Correll, E. E. Howard, T. H. Long, and R. L. Roberts.

Two Manhattans United

Manhattan, Kan., and Manhat-
tan, N. Y., will go 50-50 on their
wave length of 341 meters.

The Hotel McAlpin, N. Y., put in a radio some time ago and then found that they had no wave length and that their station was "pad-
locked."

The department of commerce

then discovered that the Kansas State Agricultural college had a wave length satisfactory to the McAlpin.

"Now," says a New York paper, "the two Manhattans have united together. One of which enjoys hearing about the price of potatoes and whether everything is happy in the cornfield. The other loves its 'jazz' but both are good sports and are willing to share the line."

Although the Aggies only placed fourth in the four mile relay at Lawrence they lowered the time which they made in the indoor track meet at Urbana, in winning second. Even though their time was lowered both Kimport and Balzer were unable to make their miles in their best time. With a week's rest and the experience of going through one meet they should tell a different story in the Drake relays today and tomorrow.

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, APRIL 28, 1925

NO. 59

AG FAIR, MAY 9, BIGGEST OF ALL

PARADE ONE OF BIG FEATURES THIS YEAR

Side Show and Shillabers, Rodeo and Riders Will Combine with Exhibits in Big Show

Plans for the Ag fair, which will be May 9, are practically completed. This will be the fifth annual fair sponsored by the agricultural division, and with the addition of several new features it will be the largest affair of this kind ever held at K. S. A. C.

The parade will be one of the outstanding features of the fair this year. The college band will head the procession, which is to be a mile in length. The parade will include prize winning livestock of the college and floats representing the various departments of the division of agriculture. Clowns and "take offs" on various people and institutions of the college will add variety.

All Departments Will Show

All departments of agriculture will have education exhibits on the grounds. The display will show the work done in this department of the college. It is planned to make the fair worth while for those who do not care to see the wild man and other attractions of a similar nature.

Other features of the fair will be the minstrels, the follies, the Farmers' vaudeville, and exceptionally good sideshows. The Rodeo promises the most excitement of the occasion, while a dance will be held from 8 to 12 for those who prefer milder sports.

Established in 1921

The Ag fair is promoted to foster divisional activities of the students of agriculture. The custom is general throughout the agricultural colleges of the country. It was instituted at K. S. A. C. in the winter of 1920-21 and since then has become an established event for the education and amusement of students and faculty.

The manager of the fair this year is Walter J. Daly. The other members of the board are C. C. Huntington, R. E. Von Trebra, and Geo. Montgomery. The committee chairmen are follies, G. E. Truby; vaudeville, Lyle Ernst; rodeo, George Ellis; concessions, Lionel Holm; sideshows, G. H. Faulconer; dance, G. A. Read; parade, Homer Summers; eats, W. S. Spear and S. F. Kollar; police, F. A. Hagans; educational exhibits, Carl Bower; arches, J. L. Taylor; ferris wheel, H. J. Broderick; publicity, A. C. Huffman, H. Wayne Rogier.

Two Aggies in Sigma Xi

C. A. Herrick, '21, and Ernest Hartman, '22, who are attending Johns Hopkins university have been elected to Sigma Xi, the national scientific organization. Members of this fraternity are elected on a basis of demonstration of ability for doing scientific research and investigation. Mr. Herrick received his master's degree at K. S. A. C. in '23 and Mr. Hartman in '24.

THOLE AND STEWART WIN

Dairy Judging Contest Won by Students from Stafford and Topeka

C. W. Thole, Stafford, and Arlo Stewart, Topeka, were winners respectively in the senior and junior divisions of the 18th annual students' dairy judging contest held Saturday. Thole scored 1,068 out of a possible 1,200 points and Stewart made 1,020 points. Thole, sophomore in agriculture, was the winner in last year's contest.

This year's event was conducted in a different manner than the previous contests. The contest was divided into senior and junior divisions. In the senior division only those who had taken advanced dairy judging were eligible. In the junior division those who had taken only a primary course or no course at all competed.

Ninety-four students entered in both classes—20 in the senior division and 74 in the junior division. Gold watches were given the winners. Silver and bronze medals were awarded for second and third places respectively. In addition several farm papers offered subscriptions for winners in various events.

The individual standings are as follows:

Senior division—C. W. Thole, 1,068 points; A. C. Hoffman, 1,045; Lewis Lauriston, 1,030; Howard Vernon, 1,017; Harry Rust, 1,005.

Junior division—Arlo Stewart, 1,020; A. D. Lovett, 1,000; H. A. Moore, 992; George J. Stewart, 988; H. E. Myers, 984; M. J. Springer, 978; Dale Wilson, 966; Lionel Holm, 965; Raymond Davis and Leslie

Wolf tied for ninth place with 960 points.

The individuals placing in the judging of each breed are as follows: Senior division—Ayrshire: George Ellis, first; E. G. Dawson and C. W. Thole, tied for second. Holstein—A. C. Hoffman, Lewis Lauriston, Earl Knepp, Jersey—Howard Vernon, L. R. Hanson, Lewis Lauriston, Guernsey—Lewis Lauriston, Howard Vernon, H. A. Moyce.

Junior division: Holstein—F. R. Stewart, Arlo Stewart, C. A. Stevenson, Ayrshire—H. A. Moore, F. S. Herr, and W. M. Mann. Guernsey—Vance Washington, M. E. Gregory, and Stephen Raleigh. Jersey—A. D. Lovett, M. J. Springer, and Arlo Stewart.

In the Jersey judging class Lovett scored 293 of a possible 300 points.

Stadium Seats Are Numbered by a Most Simple, Artistic Plan

Bringing art into practical use is the principle recently applied to the Memorial Stadium at K. S. A. C. The entire stadium has been block printed.

In the fall of '23, Mr. A. F. Nichols of the Building and Repair Shops of the college was assigned to the job of numbering the seats in the newly completed west wing. He was at a loss as to how to go about it. He realized that it was a tedious job, and that he must adapt the most successful and efficient process. He went to Miss Louise Everhardy of the art department, and it was through her that the final results have been accomplished. She suggested the simple, efficient, and artistic method of block printing.

Carrying out her instructions, Mr. Nichols made his numerical blocks by carving out the regular linoleum blocks that are used for block printing in design classes. These blocks with black paint worked successfully on the wood. But they did not prove satisfactory on the cement. After much experimenting Mr. Nichols found that by gluing a heavy layer of felt over a small block of wood, and then carving out the number, he could print on the cement with good results.

The east wing has been similarly treated under the direction of the athletic department.

ALUMNI LAUNCH CAMPAIGN

Securing of Life Memberships Is Purpose

The K. S. A. C. alumni membership campaign was launched Wednesday night at a meeting of senior committeemen in Recreation center. The campaign, which is for the purpose of getting subscriptions for life membership in the K. S. A. C. alumni association, will continue until Saturday noon, when a luncheon for seniors who are conducting the campaign will be given and each division will report the number of life members it has obtained.

The money from the life memberships is put in the Alumni Student Loan fund, a fund sponsored by the alumni to help students through college. The interest on this fund is 5 per cent which goes to pay the expenses of the association.

The senior committeemen are: Dairy husbandry—Frank Hagans and Edwin Cunningham.

Veterinary medicine—Floyd Hull and Joe Greer.

General science—Theodore Still, Richard Pycha, Alvin Ritts, Bernice Lassitt, Melville Thompson, Winifred Knight, Elizabeth Bressler, Eleanor Dempsey, Mary Higinbotham, and Edgar Coleman.

Industrial journalism—Louis E. Childers and Ruth Bachelder.

Rural commerce—Ferdinand Volland, E. R. Lord, and Harry Lutz.

Electrical engineering—T. M. Berry, W. E. McKibben, Merle Crawford, C. W. Schemm, R. M. Hartigan, and Arthur Thomason.

Animal husbandry—C. C. Huntington and G. F. Ellis.

Home economics—Nora Bare, Capitola Bassett, Evelyn Colwell, Neosho Fredenburg, Susie Hinton, Jennie Horner, Stella Munger, Helen Northup, Frances Koenig, Margaret Gallemore, Lane Moore, and Alice Fisher.

Civil engineering—Dean Smith, G. A. Hammon, and H. O. Reed.

Mechanical engineering—H. W. Uhrig and W. A. Johnson.

Agropomy—Fred J. Sykes and F. S. Kollar.

Agricultural and flour mill engineering—Earl Johnson and Archie Floyd.

Agricultural economics—J. K. Watt and Glen Railsback.

The second edition of the Home Economics News is just off the press. It contains a full history of home economics at K. S. A. C. and carries the pictures of the principal speakers at the golden jubilee. All of the older buildings on the campus are given picture space in the magazine.

FESTIVAL WEEK OPENS TONIGHT

JOINT CONCERT BY GLEE CLUBS INITIAL OFFERING

Julia Claussen, Jose Mojica and Minneapolis Symphony the Headliners for the Week

A joint concert by the college glee clubs will open the annual Festival week entertainment this evening at 8:15 o'clock in the college auditorium. The girls' glee club will be conducted by Miss Edna Ellis and accompanied by Miss Frances Allison, while Prof. Ira Pratt will conduct and Charles Stratton will accompany the men's glee club. The faculty trio—Harry King Lamont, violinist; Robert Gordon, cellist; and Mrs. Suzanne Pasmore, pianist; will assist the glee clubs in the concert.

Tonight's program is as follows:

"Come Again, Sweet Love" Dowland

"Song at Dusk" Terhune

"The Song Now Stilled" Sibelius

"Murmuring Zephyrs" Jensen

Men's Glee Club

"Maiden Remember" (Bergerette) Ar. by Weckerlin

"The Moths" Palcott

"Snow Patches" Forsyth

"The Swan" Saint-Saens

Violin obligato, Elizabeth Van Ness

Girls' Glee Club

Dumky Trio, for piano, violin and cello, Opus 90 Dvorak

Faculty Trio

"Gloria Patria" Palestrina

"Our Father" Gretchaninoff

"Bridal Chorus" (Rose Maiden) Cowen

Glee Clubs Ensemble

The college orchestra will give a concert tomorrow evening. Prof. H. P. Wheeler is the orchestra's conductor and Harry King Lamont will be concert master and soloist. The orchestra now consists of 46 pieces and in a concert earlier in the year did some remarkable work.

"Captain Applejack" Thursday

"Captain Applejack," the Purple Masque spring play, will be the entertainment Thursday evening. It is an Arabian night's adventure in three acts written by Walter Hackett, and directed and staged by Prof. E. G. McDonald. The leads in the production will be played by Ralph Mohri, Paul Pfeutze, Agatha Tyler, and Helen Bennett.

Friday's program includes a campus concert in the afternoon by the college band, H. P. Wheeler, conductor, and a recital in the evening by Don Jose Mojica, Spanish tenor, with the Chicago Civic Opera company. Adalbert Huguete will be Mojica's accompanist. The Spanish tenor has been appearing very successfully with Mary Garden in "Pelleas and Melisande" this winter. The second part of the recital will consist of a group of Spanish folk songs and love songs sung in costume. Many of the silver trimmings of Mojica's nineteenth century Spanish cavalier costume are old heirlooms worn by his ancestors.

Saturday Feature Day

Saturday will be the feature day of the festival. The college chorus with the Minneapolis Symphony orchestra will present two oratorios: "Olaf Trygvasson," an unfinished drama by Bjornstjerne Bjornson, music by Grieg, and "The Hymn of Praise," a sacred cantata by Felix Mendelssohn. Assisting at this concert which will be given in the afternoon will be the following soloists: Julia Claussen, prima donna mezzo-soprano with the

Metropolitan Grand Opera company; Judson House, famous American tenor; Leslie Putnam, baritone; and Ruth Scott, soprano. Professors Pratt is the conductor and Nelson Kennedy rehearsal accompanist.

The Minneapolis symphony orchestra will close the Festival program Saturday evening with a full concert. Henri Verbrugghen conducts the orchestra and Gustave Tintot is the solo violinist. Marie Tiffany of the Metropolitan Opera company will appear with the orchestra as soprano soloist.

Season tickets for the festival are \$3.00 and \$4.00.

GENERAL HARBORD TO CABINET?

Former Aggie Talked for Secretary of War

Major General James G. Harbord, formerly chief of staff of the A. E. F. and a prominent alumnus of K. S. A. C., is being boomed for the post of secretary of war in President Coolidge's cabinet according to a story in Monday's Kansas City Times.

General Harbord's return from an extended trip to South America, coupled with reports that the health of Secretary Weeks will not permit him to again take up the active duties of his office, is leading foundation to the rumor that the present secretary is to retire and that the portfolio is to be offered to General Harbord.

Secretary Weeks has spoken of General Harbord as one of the best officers ever developed in the United States army. General Harbord has a brilliant record as a soldier, an administrator, and as a business executive. The fact that he comes from the middle west and has almost the solid backing of the ex-soldiers and the American Legion, which he helped to organize, makes the appointment desirable from a political point of view.

CRAWFORD TO WASHINGTON

Head of Journalism Department to New Position

Nelson Antrim Crawford, head of the department of journalism, left yesterday for Washington, to take over his new duties as assistant to Dr. W. M. Jardine, secretary of agriculture. Mr. and Mrs. Crawford, who formerly was Miss Muriel Shaver, will drive through, and expect to arrive in Washington about May 1.

Professor Crawford is on a one-year leave of absence from the school. Prof. C. E. Rogers is acting head of the department.

WINS SECOND IN ORATORICAL

Geraldine Reboul Places in State Contest

Second place in the oratorical contest of the Women's State Oratorical association held at Emporia, April 22, was won by Miss Geraldine Reboul, representing K. S. A. C.

The subject of Miss Reboul's speech was "Christianity and War," with which she also won second place in the intersociety oratorical contest held last winter. Miss Oecola Burr of the department of public speaking accompanied Miss Reboul.

The State Teachers' college of Emporia won the contest. Other schools which competed and are members of the association are the College of Emporia, Southwestern, Winfield, Sterling college, Sterling, Friends and Fairmount universities of Wichita.

Morse Will Be Here for Conference

TRUE D. MORSE

The other officers of the Mid-West Conference are Randolph Dodson of the University of Tennessee, vice-president; Ralph L. Countryman of Northwestern university, secretary-treasurer. All three of the officers will be at the convention which opens Thursday, according to information received from Mr. Morse. President F. D. Farrell will give the welcoming address Thursday morning on the second floor of the cafeteria.

True D. Morse, of the University of Missouri, is president of the Mid-West Student Conference of Universities and Colleges, which convenes at K.S.A.C. Thursday morning. He has been interested in student self governing bodies for several years, and has done much for the betterment of student activities during his administration as president of the conference. He has charge of the program of the conference, and will be the leader of the discussion sessions. Mr. Morse hopes that as many of the students as possible will attend the sessions in order to get a better perspective on the function and value of student governing associations.

20 STATES REPRESENTED IN MID-WEST CONFERENCE

STUDENT LEADERS WILL GATHER TO DISCUSS SELF GOVERNING PROBLEMS

CONVENTION OPENS THURSDAY WITH ADDRESS

70 DELEGATES WILL BE HERE

Student Organizations, Politics, Elections, Publications, and Other Phases of Student Life to Be Discussed

Representatives of the student organizations of 32 large educational institutions of the middle west will register Thursday for the fifth annual Mid-West Student conference which is being held here. The conference will discuss the problems of students in 20 states.

The conference will have its first meeting Thursday morning at 10 o'clock, when President Farrell will welcome the delegates. Two voting delegates from schools will be seated, but all meetings are open and it is expected that many of the K. S. A. C. students and faculty who are interested will "sit in" on the meetings. Meetings will be held in the large room on the second floor of the cafeteria.

The conference is a business meeting of leading students from the various schools for the purpose of discussing the work of student organizations. Most of the schools have an all-student organization which serves to guide major student activities. An attempt is made to bring together the experiences of the various school organizations, to present common problems, and to make plans for furthering constructive student organization work. The discussion this year will center around student government, publications, athletics, student unions, student elections, dramatics, and finances.

Dates Back to 1909

Student self-government dates back to 1909 at K. S. A. C. The Student Council, which then was organized, was successful in guiding student affairs for several years, but the growth of the college and the increasing variety of student interests caused it to become inadequate. In the winter of 1918-19 the student body felt that a more efficient plan should be adopted. Accordingly, President W. M. Jardine ruled that a constitution must be drawn up and something definite done before January 1, 1920.

Prof. P. P. Brainard, associate professor of education, and Prof. J. G. Emerson, former head of the public speaking department, were the authors of the original constitution, which, with the exception of a few changes, is in effect today. Professor Emerson's idea was that students should have self-government. He believed in a cooperative form of government and thought that the S. S. G. A. should be a clearing house for all student problems. The suggested cooperative form of government was not included in the first constitution, but two years later it was demonstrated that the S. S. G. A. could not function alone, and the faculty council was organized to work with it.

Plan Here Original

Our S. S. G. A. plan is not copied after that of any other college. The executive council is larger than is usual because the organization is based upon a representation of student interests rather than classes or number of individuals. At the present time several groups, such as the local fraternities and sororities, are

not grouped as a single unit, and are therefore not represented on the council. Whenever these or other groups can show a large enough organized membership they may apply to the S. S. G. A. for the admission of a delegate to the executive council.

S. S. G. A. representatives from K. S. A. C. who attended the 1924 Mid-west conference at Knoxville, Tenn., last year, won the 1925 conference only after a hard contest with Tulane university of New Orleans.

Several Entertainment Features

A dance in honor of the visitors will be held Thursday night at the Elks' hall. On Friday morning cars will take the visitors to Fort Riley, where they will inspect the fort, and witness a riding show put on through the kindness of General Edward L. King. Friday night the annual conference banquet will be served at the Gillett hotel.

On Friday and Saturday afternoons the Aggies play the University of Nebraska in baseball. Festival week activities also will offer entertainment for the delegates.

About 70 visitors are expected. This includes the delegates and officers of the organization. True D. Morse of the University of Missouri is president of the conference this year.

HIGH SCHOOL FORENSIC MEET HELD HERE FRIDAY

Second Annual Contest to Be Given Under Auspices of Public Speaking Department

The second annual Interscholastic Forensic meet for high school students will be held at the college on Friday, May 1, under the auspices of the department of public speaking. Contests will be divided into four sections: Reading, original orations, extempore speaking, and debating.

The general subject to be used in the oratorical contest is "American Government and Politics." The debates will be upon the question: Resolved: That the United States should cancel all obligations owed by the governments of its present allies, incurred as a direct result of the World war.

Gold, silver, and bronze medals will be awarded to the respective winners of first, second, and third places in the oration contest, and similar medals will be awarded to winners of the three highest places in the final contests in reading and extempore speaking.

To the two students composing the winning debate team gold medals will be given, the team placing second will get silver medals. A silver loving cup will be presented to the school winning first place in the debate contest.

The school participating in all three public speaking contests and making the best average showing in all three will receive a silver loving cup.

Preliminary contests will be held Thursday afternoon and Friday morning. Finals will be held Friday afternoon in the public speaking auditorium, Room 56, of the education building.

STADIUM FUND HITS \$18,000

Many Teams Working for Subscriptions Have Not Yet Reported

Subscriptions in the final campus Memorial Stadium drive have reached \$18,000 although only 55 per cent of the students have subscribed. Many of the teams have not yet reported.

Of the 32 student organizations at K. S. A. C., 18 have 100 per cent subscription to the stadium fund. Their reports will undoubtedly swell this fund, according to V. E. Whan, chairman.

Of the 32 organizations at K. S. A. C. 14 have yet to reach 100 per cent subscription which the following 18 have 100 per cent subscription to the stadium fund:

Sigma Phi Epsilon, Omaga Tau Epsilon, Sigma Alpha Epsilon, Lambda Chi Alpha, Delta Sigma Phi, Alpha Xi Delta, Alpha Delta Pi, Phi Kappa, Triangular, Farmhouse, Kappa Delta, Pi Beta Phi, Sigma Kappa, Alpha Tau Omaga, Kappa Phi Alpha, Gamma Phi Delta, Delta Tau Delta, and Phi Delta Theta.

CULTURAL IMPROVEMENT

Cultural improvement is just as important and valuable to a person as is scientific, social, religious, physical, or any other type of education.

Because the Chamber of Commerce of Manhattan and the Music Department of the college realize this fact and believe in it sincerely the Spring Music Festival opens today. This event occurs notwithstanding the probability that the civic organization will forfeit a considerable sum of money in so doing.

Any proposition that receives such support from an organization such as the chamber of commerce must certainly be worth while. It is not unusual for any group to give its moral support to a project but when it is willing to back up an idea financially as well as morally, that proposition deserves deep consideration from those who should benefit thereby.

The only way in which K. S. A. C. and Manhattan can repay or show appreciation of the work of Prof. Ira Pratt and the music department for arranging and the chamber of commerce for backing the Festival is to attend the programs. Some of the foremost artists of the country have been engaged to appear here, a few of whom many persons have made special trips to larger cities to hear. The price of season tickets has been placed ridiculously low in order to make it possible for everyone to take advantage of the opportunity offered.

The Festival is not staged to make money. The sole motive influencing its promotion is altruistic: a desire to provide cultural education for the college and for Manhattan. It makes it possible for everyone to obtain something of desirable value for very little; and such occasions do not occur very often.

S. S. G. A.

Representatives of 32 of the larger universities and colleges of the middle west will meet at K. S. A. C. this week-end to discuss problems concerning student government.

The local S. S. G. A. organization has been in operation since its inception with very little cooperation and interest from the student body in general. But when an organization becomes active enough and efficient enough to warrant the holding of such a conference at this school in the face of this named difficulty it deserves very sincere commendation.

The awarding of this conference to K. S. A. C. is a reward well merited by those who have worked to carry out the aims of the S. S. G. A. Visiting delegates are welcome to investigate the organization and operation of the Student Self Governing association and we feel sure that although the idea has not reached the idealistic stage as yet it is at the present time a very creditable example of successful student government.

Judge for Yourself

Is the college leaving its biggest job undone? Are the students at K. S. A. C., as well as other colleges, learning the best and most efficient

way of studying? If they are, fine.

But how long is it taking the students to learn this best and most efficient method of study?

A prominent psychologist said 10 per cent of the money spent for school purposes and 10 per cent of the student's time in school is wasted by ineffective methods of teaching.

Why not save some of this waste (the student's time if nothing more) by making every freshman take a one hour course in How to Study? Just as most of them have to take Library Methods.

A course in How to Study even in the freshman's first semester would well be a real blessing to him.—Sophomore.

Since the baptizing of Calvin hall we can add the little title of "Calvin Cooks" to the home ecers. This puts them in a class with Kedzie Kids.

There can be no torture in hell as bad as the agony a journalist goes through in trying to recall an idea which has slipped through the coils of his magnificent brain.

An awfully good way to spend your spare time is as follows: Get a girl, a nice soft—but what's the use of telling you the rest? You never have any spare time around this college anyway.

The professors see to that.

All girls do not roll their stockings. Neither are all girls' stockings silk all the way up. Those two statements are based upon observation.

It's just like this, girls. A man may like to dance and play around a lot. He may like to love a lot. But just the same he has to eat.

If you want to feel lonesome and can't quite make it try going down to the railroad station just before train time. Watch all the bustle going on and then go out by yourself and watch the train pull in and then out. That ought to fix you up.

Kansas raises a lot of foolish children—but most of them go to K. U.

A Hasty Review of the Latest Book. The Checkbook. Balance—0.00.

The Chi Omegas enjoyed the show "Peter Pan" last week. It was an enjoyable show for the children.

"I wouldn't want a man around me who wouldn't always tell me the entire truth about everything," she

said firmly. So who can blame Harry for getting his hat and quietly leaving the house when she asked where he was the night before?

A poor sport is the professor who becomes indignant and assigns a big lesson to his class on the meeting following the time when he was 10 minutes and seven seconds late.

Some one very optimistically reports that college girls make the best wives. We are inclined to doubt it though as yet our experience does not permit us to say so definitely.

On Other Hills

Following the example of the Green Key of Dartmouth and the Red Key of Cornell, an organization known as the Blue Key has been installed at the University of Michigan for the purpose of providing entertainment for visiting teams. The first official act of the organization was a banquet given for the visiting Cornell track team.

Study of animal and vegetable life, started in Lake Mendota 20 years ago by Dr. E. A. Birge of the University of Wisconsin, has been extended to 200 Wisconsin lakes.

According to figures recently compiled, Amherst has a larger percentage of its graduates in "Who's Who in America" than any other college. There are 896 Amherst men out of the 10,000 listed.

"Cured While You Wait" is the idea of the University of Indiana physician. Students suffering with colds are confined one hour in a room filled with chlorine gas. They come out cured.

Columbia hereafter will take over patents arising from discoveries made in its own laboratories. Adoption of this policy, announced as a new and important departure in the Columbia administrative system, will, it is declared, protect the inventor and the public and enable the university, by sharing in profits, to promote research.

The Harvard Lampoon, humorous publication of Harvard university, was seized this week by postal authorities in Boston on the ground that the magazine contained indecent

To suppose that a baseball nine will all cover just one position is as far from the truth as to think that everyone in the electrical industry is an engineer.

This field will always need trained engineers. But with its great manufacturing, construction and commercial activities, the industry must have non-technical men too.

Since the industry is manned by many types, the result of your work will depend a good deal on the success with which you team up. The qualities that win are not only efficiency attained by the light of a study lamp, but that all-pull-together spirit of the athletic field.

This point of view may be useful to the man who has wondered whether campus activities, with all their striving and stern testing, their setbacks and their triumphs, have any counterpart in after life.

Society Happenings

Phi Delta Theta entertained with a sister's day dinner at the chapter house Sunday noon. The guests were: Misses Marion Dalton, Eleanor Minna, Elizabeth Sheetz, Bernice O'Daniels, Esther Williams, and Bertha Williams.

Phi Kappa fraternity entertained Saturday evening with a spring party at Harrison's hall. Pines serenaders furnished the music. Special guests were: Frances Suhran, Chapman; Gladys Fingel, Abilene; Mary Casey, Dorrance; Margaret Horan, Kansas City, Mo.; Marie Foster, Topeka; Anastasia Allen, Kansas City, Mo.; Marjorie Brandenburg, Frankfort; Mr. and Mrs. J. V. Quigley, Mr. and Mrs. Joe Hall, C. B. Quigley, and Ed. Watson, Kansas City, Mo.; Clarence Huycke, Topeka; Lamont Johnson and Ed. Morris, St. Marys; Walter Leonard, Junction City; Cyril Cregan, Chapman, and Tim Foley, Frankfort.

Sigma Nu entertained the sisters of the fraternity at dinner Sunday. Those present were Misses Virginia Deal, Virginia Reeder, Sarah Jolley, Imogene Tolliver, Eula Mae Currie, Beth Currie, Alice Nichols, Ruth Bell, Bernice O'Brien, Letha Crawford, and Alta Stevens.

Kappa Delta entertained with an informal dancing party at the Blue-mont pavilion Friday evening. Pines Serenaders furnished the music for the dancers. The out-of-town guests included: Misses Mae Alman, Topeka; Dora Dean Dakin, Wamego; Phyllis Brown, Salina; Jentra Foote, Hutchinson; Norma McCullough, Marion; Mildred Lorge, Hamilton; and Elsie Kern, Topeka. Mr. and Mrs. Hal Jerard and Mrs. Mary Ziegler chaperoned the party.

Alpha Xi Delta entertained with a formal spring party at Elk's hall, Friday evening. The hall was attractively decorated to represent a flower garden and the lights were shaded with rose colored baskets. Bob Jenks orchestra from Lawrence furnished the music. Out-of-town guests were: Misses Mary Felles and Louise Hoke, Kansas City; Ruth Akers, Ellsworth; Faure Davidson, Ethel Sexton, Rida Duckwall, Donna Duckwall, and Faith Noble, Abilene; Mildred Harris, Burrton; Wilma Harrison, Wichita; Helen Heise and Mary Heise, Topeka; Virginia Johnson, Leavenworth; Mrs. Wasson and Genevieve Wasson, Neosho Falls, Mo.; and Mrs. Kimball and Mary Kimball, Miltonvale.

Beta Theta Pi fraternity entertained with a house dance Saturday evening. The music was furnished by Art Dodge's orchestra. About 50 couples were present.

Phi Kappa held their annual Founders' day banquet at the chapter house Sunday noon. J. J. Moran was toastmaster and toasts were given by

Father Duschane, Maurice Casey, T. E. Larson, V. W. Nass, and J. V. Quigley. Special guests included T. J. Foley, Frankfort; Carl Floersch, Manhattan; Clarence Huycke, Topeka; C. B. Quigley, Ed Watson, and J. V. Quigley, Kansas City, Mo.

Sigma Phi Epsilon entertained with a Cliff Dweller's dance at the chapter house Saturday evening. Punch and waters were served during the evening. The house mother, Mrs. Inez Sargent, chaperoned the dancers. Music was furnished by Wade's Collegians.

Dinner guests at the Delta Zeta house Sunday were Jack Baney, Walton Johnson, and Gray LeVitt.

Misses Irene Barner, Karleen Garlock, and Grace Samson spent the week end in Lincoln, Nebr., where they attended the Delta Zeta spring party.

Guests at the Phi Kappa Theta house Sunday were Mr. and Mrs. J. C. Peterson, Mr. R. C. Smith, Mr. P. P. Brainard, Mr. and Mrs. W. M. Harwood, Wichita, and Mr. Knapenberger, Kansas City.

The boys of the Alpha Beta liter-

ary society entertained the Alpha Beta girls with a party in the girls' gymnasium Saturday evening. The party was a result of a recent program contest between the girls and the boys in which the boys were defeated. The evening was spent in playing games and dancing.

ARCHITECTS EXHIBIT

Pen and Ink Sketches, Original Designs and Colors on Display

The architecture department has held an exhibit in the art gallery, for the past week, of class work done by students during the year.

The display of the students in the class in history of architecture is made up of pen and ink sketches of famous European architecture. Water colors, charcoal work, and pencil sketches make up the free-hand drawing classes display. Original designs of building by students in architectural design classes make up an important part of the exhibit.

AGGIES SPLIT OKLA. SERIES

LOSE FIRST AND TAKE SECOND FROM SOONERS

Miller Gets Hand on Sensational Catches—He and Karns Heroes Both Games

A split of the two-game series with Oklahoma last week gives the Aggies a record of three games won out of four, and a standing of .750. The Wildcats dropped the first game to the Sooners, 5 to 1, but came back Saturday afternoon for a 3 to 0 win. The first game was played on a muddy field, and Oklahoma started the scoring when Munn stepped in a mud-hole while going after a long fly. Munn performed a few circus stunts and the ball hit safe. Greer pitched good baseball, allowing eight hits but spacing them out, but the combination of a bad field and a couple of errors in tight places was too much for him.

Karns and Miller Heroes
In the second game Conroy opened with a fast ball which was pounded, but soon switched to a break and held the Oklahomans to an eight-hit, no run game. Karns, Lutz, and Miller came through with the runs which made the game safe.

Karns and Miller were the outstanding players in both games, according to Coach C. W. Corsaut. In the second game Miller made a hit with the grandstand by making three spectacular catches of foul flies in one inning. One took him into the back-stop, the next to the Oklahoma bench and the third caused a fall over the Aggie bench just as he caught the ball. He came up with the pill safe, however.

Nebraska Is Next
The games this week will be with Nebraska here. These games will be crucial in the season, Corsaut said. If the Aggies can split the series here and the one at Lincoln with the Cornhuskers, the Valley race will be between the two schools, he said.
The box scores of the two games:

MISSOURI WINS TENNIS MATCH

Close Victory in Doubles Gives Tigers Biggest Score

Missouri university tennis team won its match with the Kansas Aggies here Friday afternoon by a 2-1 score. Kleinenburg defeated his Tiger opponent in straight sets but Cap-

tain Sappenfield bowed to Mindlin of the visitors in a three-set engagement.

All the matches were closely contested. Kleinenburg won from Turner 6-4, 6-2; Mindlin defeated Sappenfield 6-4, 5-7, 6-2; and Mindlin and Turner won from Kleinenburg and Sappenfield 6-4 and 7-5.

The Aggies had Missouri 4-2 in the first doubles match but the Tigers rallied and won. In the second the Aggies were leading 5-4 and were within one point of winning the set but lost it. The close victory in the doubles gave Missouri university the 2-1 win.

EIGHTEEN RECORDS BROKEN

Aggies Place Fourth in Four-Mile Relay at Drake Meet

Eighteen carnival records were broken in the Drake relays held at Des Moines Friday and Saturday.

The Aggie four-mile relay team placed third in its event, losing to Texas and Oregon. The Aggies' time was 18:12, which is five seconds less than the time made by the same team at the Kansas relays last week. Balzer ran the fastest mile for the Aggies, running the distance in 4:22.5. Kimport, the Aggies' outstanding miler, ran the finishing race in 4:29.

John Gartner, the only other entry from the Aggies, pulled a muscle in a trial throw of the discus and was unable to place in the event.

Sporting Comment

We are not optimistic in believing that the Aggies have the best baseball team that has represented Kansas State for many years. There are more old time players on the squad this year than ever before and all are exceptional hitters. The Aggies also have two pitchers on the staff that are recognized as among the best in the valley. For these reasons it is very possible that first or second in the valley should come to Corsaut's nine this year.

For the first time in the history of the school baseball is paying for itself. Much credit can be given to Coach Corsaut for developing a winning team which can draw enough of a crowd to pay for itself. The athletic department also gave baseball a boost when they built the new varsity diamond. All the students are asking for now is a victorious baseball team. We believe we will have one, but it must be remembered that in order to have a winning team students must come out and back the team.

"This tooth paste don't taste good," said Bachman when washing his teeth at the hotel in Des Moines last Saturday.

"No wonder," said John Gartner, "you're using my Mennen's Skin-balm."

Bernard Conroy believes in shutting out the best teams in the valley when he pitches. Oklahoma had won five straight games until the Aggie ace took the mound last Saturday and averaged the defeat of Friday with a 3 to 0 win.

Captain Karns still leads the batting average for the Aggies. "Shorty" landed four safe blows against the Sooners and counted materially in winning the second game with a triple.

Curve balls seemed to be the downfall of the Sooners for in the second game Conroy tried a few straight balls but found that they were easy meat for them and changed his style of throwing. We say, curve balls surely must have been a jinx if such a slugging team as the Sooners can be shut out entirely.

According to the dope the Aggies and Nebraska now loom as the possible candidates for the Valley championship. If the Aggies can split the four games played with the Cornhuskers the dope points toward a tie.

At present Oklahoma has the highest standing but they have defeated only Missouri and Kansas, two of the weakest teams in the valley, and still have Nebraska to play. Unless the dope sheet is totally unauthentic Nebraska should win the majority, if not all the games with the Sooners and force them out of the race. This will then leave the race between the Aggies and Nebraska.

Entries for the Missouri Valley interscholastic track meet May 16 have already started to come in. The first was from Woodbine, Iowa, and Rose-dale, Kan. Entries at such an early date show that there is considerable interest in the meet and with such an interest the competition should be sufficient to tumble some of the former records.

Meats Class to K. C.

The classes in meats and purebred livestock production will visit the markets, packing houses, and leading purebred livestock breeders in the vicinity of Kansas City next Monday and Tuesday. The trip will be in charge of D. L. Mackintosh, assistant professor in animal husbandry, and H. E. Reed, associate professor in animal husbandry.

You will be surprised at the excellent quality of our lunch service. A trial will convince. Cozy Inn, 1403 Anderson, Phone 1328X.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, MAY 1, 1925

NO. 60

CONFERENCE IS BEST EVER HELD

TWENTY-SIX SCHOOLS SEND DELEGATES THIS YEAR

Publications First Subject for Discussion—Colorado U. Granted Membership

Student publications, their censorship, distribution, and finance, were discussed by the delegates of the Mid-West Student conference at their meeting Thursday afternoon on the second floor of Thompson hall. There are 26 schools whose delegates are at the conference this year. This makes the conference the largest held by the organization in its five years of existence, last year's conference being second with 25 schools represented.

The 1925-conference was called to order Thursday morning at 10 o'clock and President F. D. Farrell gave the address of welcome. He spoke of student self-government and cited the smoke rule enforced by the S. S. G. A. on the campus here. Among the evils which could best be eliminated by student sentiment are cheating, drinking, and bootlegging, according to President Farrell. He stressed the importance of such a conference as is being held, and pointed out that 100,000 students were represented.

Colorado Admitted as Member
A roll call of those present and the report of the credentials committee occupied the first part of a business meeting. Colorado university presented a petition for admittance to membership in the conference. The petition was accepted, and the Colorado delegate was seated.

Following short reports made by the officers of the conference, committees for the conference were appointed. The following is a list of the committees and their members: Audits and finance, Herbert Moore, W. W. Kerr, V. S. Mollenauer; resolutions, Elwood Mason, Jim Burt, and V. L. Pulley; 1926 conference, C. N. Pearson, R. R. Dodson, U. G. Wileand, and L. B. Thompson. The conference then adjourned until the afternoon meeting which began at 1 o'clock.

Jokes Good for Laughs
The discussions on publications were led by R. R. Dodson of Tennessee. Varying and unusual methods of gaining yearbook subscriptions were given by men from different schools. Discussion as to the value of carrier and mailing methods of distributing school papers was carried on.

The conference got several real laughs when the censorship of jokes became the topic. The question was apparently a live one in many schools and the delegates often had personal opinions on the question. College comics regulation and cooperation also proved interesting to the delegates.

The control of annuals, selection of editors for college publications, financial and advertising control, and the issuance of student handbooks all were discussed and votes were taken to see how the various schools stood on the question.

At 3:30 the conference adjourned for a short time, in order to assemble on the east steps of Thompson hall and have a picture taken.

Dance Last Night
A dance in honor of the delegates was given last night at Elks' hall. This morning the visitors are taking a motor trip to Fort Riley where they will inspect the camp, see a riding show, and a display of artillery weapons.

A discussion on student government will be the business of the conference this afternoon starting at 1 o'clock. The annual conference banquet will be held this evening at the Gillett hotel. It will be followed by a dance at Harrison's hall.

Tomorrow morning student government and athletics are to be discussed. The afternoon session will include reports of officers and committees, selection of the location of the 1926 conference, election of officers, and the final adjournment.

K. S. A. C. students and faculty are welcome at any of the sessions.

QUILL CLUB WILL ELECT SIX

Frances Clammer Wins Short Story Contest This Year

Ur Rune of the American College Quill club has announced the results of the spring membership contest. Those who were voted to membership at the last meeting are Anna Jacobs, Grace Powell, R. I. Thackrey, Leland Gibson, W. A. Dalton, and S. I. Thackrey. Initiation will be held May 5.

The short story contest was won by Miss Frances Clammer with the

story "Marty." "Slats," by Sam Thackrey, took second place; "The Man Who Smelled Dirt," by Leland Gibson took third, "Froth" by Alice Paddockford placed fourth, and "The Visit," by Z. K. Zurmelian was given fifth place. The prize for this contest, given by Miss Ada Rice of the English department, will be awarded at the annual Quill open house to be held May 19.

Captain Bowen to K. S. A. C.

Captain Arthur F. Bowen of Fairmont college, Wichita, has been detailed to Manhattan for next year as a member of the R. O. T. C. staff. He will fill one of the places left vacant by the reassignment of Captain R. C. Stickney and of Lt. James V. Cole to foreign service.

NEBRASKA GAME IS TEST FOR M. V. CHAMPIONSHIP

Corsaut Believes Series Will Decide Valley Title—Greer and Conroy Probable Starters

The Aggies will play two of the most crucial games of the Valley series here today and tomorrow, Coach C. W. Corsaut said last night. The series with Nebraska probably will decide the running for the Valley title, Corsaut said.

If the Aggies and the Cornhuskers split the series, the fight will lie between those two teams. If either team wins all four games, two here and two at Lincoln, the race virtually will be over, the coach declared.

Nebraska has one of the strongest teams in the Valley, and the Aggies have dropped only one game, losing to Oklahoma, who had an unbroken record. Nebraska's record was not quite so clear, but those who have seen the team play prophesy a hard battle.

Joe Greer probably will open the game today, if the weather is warm. A cold day will send either Caraway or Marsh to the mound. Both men have been showing good form in practice and Caraway played a good game against Missouri recently, going in in the eighth in holding the Tigers runless. Marsh was wild at the opening of the season, but seems to be throwing to Miller consistently now.

Conroy probably will open the second game. The big Manhattan boy has a clear record so far this season, and shut the Sooners out at Norman last Saturday. Miller will catch both games.

Barring wet weather, the games will be played on the new field west of the Engineering building. The new diamond has been worked over since the Missouri game, and is in even better condition than it was then.

Special Reserve Camp at Topeka

A local unit reserve training camp will be established at Gage park in Topeka, May 3 to 17, according to information from 89th Division headquarters. The camp will be open to reserve officers from Nebraska, Kansas and South Dakota. Students of Washburn college will serve as enlisted men for the period of the camp. The camp will be organized and conducted entirely by reserve officers, as though an emergency existed. Capt. W. H. Beers, U. S. A., will be executive officer.

The Buckin'est Cayuses in Idaho Are Promised for the Ag Rodeo

The wild, rough rodeo which includes the riding of bucking bronchos and world-busting mules will be featured in the annual Ag fair May 9.

The meanest and most vicious animals have been secured for this show by George Ellis, manager of the rodeo. Mr. Ellis said so. There is now en route from the wilds of the Idaho mountains a carload of such horses and mules. Included are some of the most noted outlaws such as Bitter Creek, Mankiller, and Black Lightning. The best known riders of the country, such as Alkali Ike, Big Joe, and Anti-Pull Leather, will compete for the big money.

The cowboy clown, T. F. (Ted) Guthrie, entertainer, joker, and trick rider, will be an amusement furnisher and is said to be worth the price of admission as a solo feature. The fair also is fortunate in obtain-

ing the services of a real, full-blooded Indian, fresh from the wild west. Louis Whirlwind Horse of South Dakota who says he can ride anything with hair on it is the man who will ride the long horned, bucking steers. The stock judging professors are having great difficulty in keeping this man-of-war from riding the horses used in the judging work. Whirlwind Horse has that super-human ability to stay with 'em till they quit. If you don't believe it, ask him. You cannot miss this opportunity to see and hear an artist and witness his victories.

Action is promised in the quick change relay. The riders will mount their cayuses and ride a specified distance, dismount, unsaddle, ride back to starting place and leave their chaps, then get saddles, return to starting point, and put on their chaps. Come and watch them work.

GRADE RANKINGS ARE ANNOUNCED

OMICRON NU LEADS SCHOOL WITH 92.49 AVERAGE

Alpha Xi Delta and Phi Kappa Theta Ahead Among Societies of HHI

Grade standings of all organizations on the campus for last semester have been announced by the registrar's office. Omicron Nu, honorary home economics fraternity, is first with an average of 92.49. Second place is held by Phi Alpha Mu, honorary general science, with 92.06. The Browning Literary society holds first place among the eight literary societies with an average of 84.10. Among sororities, Alpha Xi Delta is at the top, averaging 85.34. Phi Kappa Theta leads the social fraternities with a standing of 84.61.

The ranking of the organizations follows:

Omicron Nu, 92.49; Phi Alpha Mu, 92.06; Mu Phi Epsilon, 88.29; Theta Sigma Phi, 87.58; Alpha Zeta, 86.33; Zeta Kappa Psi, 85.84; Alpha Xi Delta, 85.34; Pi Kappa Delta, 85.02; Sigma Tau, 84.93; Phi Kappa Theta, 84.61; Quill club, 84.35; Brownings, 84.10; Ionia, 84.01; Alpha Theta Chi, 83.13; Purple Masque, 82.97; Farm House, 82.85; Delta Phi Upsilon, 82.73; Lotus club, 82.55; Phi Mu Alpha, 82.33; Athenian, 82.381; Eurodelphian, 82.01; Pi Beta Phi, 81.92; Phi Omega Pi, 81.71; Franklin, 81.47; Phi Beta Sigma, 81.43; Delta Delta Delta, 81.38; Klondike and Kernel, 81.07; Scabbard and Blade, 80.77; Kappa Delta, 80.64; Gamma Phi Delta, 80.04; Delta Zeta, 79.87; Block and Bridge, 79.53; Sigma Delta Chi, 79.299; Hamilton, 79.294; Alpha Delta Pi, 79.08; Webster, 78.97; Alpha Beta, 78.87; Chi Omega, 78.56; American Society Agricultural Engineering, 78.43; Alpha Sigma Psi, 77.96; Beta Pi Epsilon, 77.80; K fraternity, 77.59; Beta Theta Pi, 77.56; Delta Tau Delta, 77.37; Acacia, 77.20; Phi Kappa, 76.81; Alpha Tau Omega, 76.61; Sigma Phi Sigma, 76.26; American Society of Mechanical Engineers, 76.21; Kappa club, 76.07; Sigma Nu, 75.95; American Institute of Electrical Engineers, 75.82; American Society of Civil Engineers, 75.78; Sigma Phi Epsilon, 75.72; Alpha Rho Chi, 75.41; Kappa Kappa Gamma, 74.96; Kappa Phi Alpha, 74.84; Phi Lambda Theta, 74.74; Belmont club, 74.65; Phi Sigma Kappa, 74.47; Phi Delta Theta, 74.77; Belmont club, 74.56; Kappa Sigma, 73.71; Lambda Chi Alpha, 73.65; Triangulars, 73.22; Delta Sigma Phi, 73.02; Sigma Alpha Epsilon, 72.79; Omega Tau Epsilon, 72.50.

Literary Societies

Women—Browning, 84.10; Ionia, 84.01; Eurodelphian, 82.01. Mixed—Franklin, 81.47; Alpha Beta, 78.87.

Men—Athenian, 82.381; Hamilton, 79.294; Webster, 78.97.

Cooperative Clubs

Women—Lotus club, 82.55. Men—Kappa club, 76.07; Belmont club, 74.65.

Social Organizations

Sororities—Alpha Xi Delta, 85.34; Alpha Theta Chi, 83.13; Pi Beta Phi, 81.92; Phi Omega Pi, 81.71; Delta Delta Delta, 81.38; Kappa Delta, 80.64; Gamma Phi Delta, 80.04; Delta Zeta, 79.87; Alpha Delta Pi, 79.08; Chi Omega, 78.56; Kappa Kappa Gamma, 74.96.

76.81; Alpha Tau Omega, 76.61; Sigma Phi Sigma, 76.26; Sigma Nu, 75.95; Sigma Phi Epsilon, 75.72; Alpha Rho Chi, 75.41; Kappa Phi Alpha, 74.84; Phi Lambda Theta, 74.74; Phi Sigma Kappa, 74.47; Phi Delta Theta, 74.39; Pi Kappa Alpha, 74.22; Kappa Sigma, 73.71; Lambda Chi Alpha, 73.65; Triangulars, 73.22; Delta Sigma Phi, 73.02; Sigma Alpha Epsilon, 72.79; Omega Tau Epsilon, 72.50.

Honorary Societies

Women—Omicron Nu, 92.49; Phi Alpha Mu, 92.06; Zeta Kappa Psi, 85.84.

Mixed—Quill club, 84.35; Purple Masque, 82.97.

Men—Alpha Zeta, 86.33; Pi Kappa Delta, 85.02; Sigma Tau, 84.93; Delta Phi Upsilon, 82.73.

Professional Societies

Women—Mu Phi Epsilon, 88.29; Theta Sigma Phi, 87.58.

Men—Phi Mu Alpha, 82.383; Klondike and Kernel, 81.07; Scabbard and Blade, 80.77; Block and Bridge, 79.53; Sigma Delta Chi, 79.299; American Society of Agricultural Engineers, 78.43; K fraternity, 77.59; American Society of Mechanical Engineers, 76.21; American Institute of Electrical Engineers, 75.82; American Society of Civil Engineers, 75.78.

WINNING PAPERS NAMED IN HIGH SCHOOL CONTEST

Pantograph, K. C., K., Wins Two Firsts for Third Consecutive Year—71 Schools Entered

Results of the annual state high school newspaper contest conducted by the department of industrial journalism and printing of the college, were announced today by Assistant Professor Izil Polson, who had charge of the judging this year. A total of 71 papers was entered in the seven classes of competition, making the contest the largest ever held by the college.

The Pantograph, published by Central high school of Kansas City, Kan., won out in the first class for newspapers printed in high schools of more than 500 enrolment, and also in class seven, for newspapers printed in high school printing classes. The victory was the third consecutive one in both classes for the paper.

Ten papers were entered in the "large high school" class. Fourteen papers were entered in class two, and 24 in class three. Eleven papers competed in the class for high schools of less than 100 enrolment, and five entered the junior high school class. Only one magazine, the Crucible, of Central Intermediate, Wichita, was entered in class six, for high school magazines.

In the first five classes the awards were based on quantity, quality, variety, and effective writing of news; copy-reading, head writing, and general make-up; feature writing, and the editorial page. Class seven was judged on the basis of good printing alone. Consideration was given in

Rugh S. S. G. A. President

Christian Rugh, junior, Topeka, was elected president of the Student Self Governing association Wednesday by a margin of three votes over Archie Butcher, Solomon. Rugh received 203 votes and Butcher 200. Less than 15 per cent of the students voted in the election. Fred Shideler was elected vice-president without opposition. Rugh is a member of Beta Theta Pi and is enrolled in electrical engineering. Shideler is a sophomore in industrial journalism and a member of Sigma Alpha Epsilon.

all cases to the proportion of work actually done by the students.

The tabulated results:

Class I—(Newspapers in high schools of more than 500 enrolment) first, The Pantograph, Kansas City, Kan.; second, The Scribbler, Fort Scott; third, The Herald, Ottawa.

Class II—(Newspapers in high schools of 301 to 500 enrolment) first, The Oracle, Kingman; second, The Mirror, Pratt; third, The Augustan, Augusta.

Class III—(Newspapers in high schools of 101 to 300 enrolment) first, The E. H. S. Bearcat, Ellsworth; second, The Holtonian, Holton; third, The Decatur Dictator, Oberlin.

Class IV—(Newspapers in high schools of less than 100 enrolment) first, The News, Elmdale; second, The Live Wire, Leonardville; third, The Exponent, Stillwell.

Class V—(Junior high schools) first, The Nor'wester, Kansas City; second, The Roosevelt Record, Wichita; third, The Herald, Hamilton.

Class VI—(Magazines) first, The Crucible, Central Intermediate, Wichita.

Class VII—(Newspapers printed in high school print shops) first, The Pantograph, Kansas City; second, The World, Topeka; third, The Roosevelt Record, Wichita.

"CAPTAIN APPLEJACK" PLAY MAKES DECIDED SUCCESS

Third Event in Festival Program—Best of Purple Masque Plays—Mojica Tonight

"Captain Applejack," the Music Festival spring play presented by the Purple Masque players last evening, was a decided success.

The play was the most finished production that the masque has given this year. With artistic and appropriate setting and an experienced cast the play did not lag in interest during any of the three acts.

Ralph Mohr, as Ambrose Applejohn, a staid English bachelor who dreams he is a pirate, was exceptionally good in his part. He was equally convincing both as a pirate and as a young Englishman. Agatha Tyler, as Poppy Faire, Ambrose Applejohn's ward, was a charming and colorful figure. Her dual role in the second act, when she was a cabin boy, was done very well.

Helen Bennett, as Anna Valeska, the Russian vampire, carried her difficult part most successfully.

Charlotte Swanson, as Mrs. Whitcombe, the aunt of Ambrose Applejohn, portrayed an elderly Englishwoman in an agreeable manner.

Paul Pfeetze, as Ivan Borolsky, a Russian spy, in real life Jim Fleming, safe cracker, gave a convincing interpretation throughout the entire play. Eleanor Mims and Jack Kennedy, as Mr. and Mrs. Pengard, a pair of crooks seeking the Applejohn treasure, were pleasing. Kennedy's role of the Chinaman in the second act was also carefully done.

The supporting cast is as follows: Lush, the Applejohn butler, Paul Chappell; Palmer, the Applejohn maid, Ruth Stewart; Dennet, a cohort of the Pengards, Melville Thompson; Johnny Jason, real estate salesman; Lynn Fayman; pirates, Gene Conklin, Earl Hinden, Lionel Holm, Hale Brown, Harold Cary, Earl G. McDonald, of the public speaking department, directed and staged the play.

Presenting a concert which ranged from Beethoven to Rimsky-Korsakoff, the college orchestra under Prof. Harold P. Wheeler, scored a new success in its Festival week program Wednesday night. In type and in rendition the orchestra approached more nearly than ever before the ideal of the symphony orchestra.

Particular mention also is due Harry King Lamont of the music department faculty for his playing of the Bruch concerto for the violin.

The first number of the week, a concert by the combined college glee clubs, assisted by the faculty trio, also proved popular with the Festival week audiences. Audiences have been small throughout the week, but have more than made up in enthusiasm.

Jose Mojica, Spanish tenor, will be the attraction for tonight. Mojica will sing a classical program, and also a group of Spanish numbers in costume.

HAYS ROUND-UP BEST YET

More Than Two Thousand See Annual Demonstration

More than 2,000 persons attended the Hays round-up which took place last week in connection with the K. S. A. C. extension branch there. This was the most successful round-up ever held there.

Those from the college who went were: President Farrell, Dean Call, Prof. J. B. Fitch, and Dr. C. W. McCampbell. The extension division was represented by M. H. Coe, E. A. Stokdyk, and G. W. Salisbury.

ARMY OFFICERS INSPECT R.O.T.C.

ANNUAL INSPECTION FOR RATING BY GOVERNMENT

School Has Good Chance to Recapture "Distinguished" Rank, Lost for Several Years

The biggest military event of the year for the K. S. A. C. opened this morning with the review and inspection of the R. O. T. C. troops by officers from the inspector-general department of the United States army. Lt. Col. Douglass Potts and Major John H. C. Lee are the inspecting officers. They will be in Manhattan today and tomorrow.

All members of the R. O. T. C. unit have been excused from classes for the remainder of the week in order that they may carry out the problems which will be assigned by the inspecting officers. The formal review of the troops this morning was preliminary to the real work of the inspection.

Combat This Afternoon

This afternoon the infantry and field artillery troops will give demonstrations of drill and combat formations. Problems will be assigned, for the combat work, and student officers will be required to work out, with their troops, the solution of the problem as given in the general situation.

Saturday morning general inspection of all troops will be held. Members of the unit will turn out under full equipment, and the inspecting officers will go over the entire command in order to arrive at the actual condition of equipment and the completeness of training the men have received.

It is during this ceremony that the embryo soldiers most often come to grief. The stock questions which are asked by the inspecting officers, and which have no apparent connection with the army or anything else, reduced the rating of several schools. The questions are asked, not for the answers which are received, but to determine whether or not the soldier has been well drilled. If his rear-rank man smiles at the answer, or if the man next him in ranks turns his eyes to catch the question, a black mark goes down because a well-trained soldier keeps his head and eyes to the front.

Wichita Is Next

After the inspection of the troops the inspecting officers will go over the records and equipment in the headquarters, and then will go to Wichita, where they will inspect the unit at Fairmount college.

Colonel Potts and Major Lee have been assigned to the inspection of all R. O. T. C. units in the Third Army area. This includes the states west of the Mississippi river. Their reports are made to Washington and the ratings of the various schools then compiled. The school rankings will be announced next fall.

This inspection is the first since the advent of Lt. Col. Fred M. Bugbee as commanding officer of the unit. The school was rated as a distinguished school several times before the war, but improvement in other units and a slight set-back in the efficiency of the unit here caused a reduction in the comparative rating for the last few years.

Persons from outside the school, however, who have watched the work of the unit this year, and who know military tactics and drill, believe the school has a good chance to bring back the highest rating again this year.

"SHORTY" COLLINS TO SPEAK

Estes Conference Will Include Both Men and Women

George "Shorty" Collins, a nationally known Y. M. C. A. secretary and religious leader, will be in Manhattan Monday, May 4, to speak at an Estes Park rally.

The rally, which is open to all people interested in the Estes park conference in any way, will be in the form of a luncheon at the college cafeteria Monday evening at 5:30. Talks by several students who have attended the conference in previous years are included in the program.

The Y. W. C. A. and Y. M. C. A. will hold at Estes park this year a joint meeting, the first of its kind ever to be held in the United States. Each college is allowed a certain quota of delegates to the conference which will be held August 22 to September 1. K. S. A. C. is entitled to send 15 men and 14 women delegates this year.

Open forums will be conducted during the conference with such noted speakers as W. J. Hutchins, president of Berea college, Kirby Page, and Dr. A. Bruce Curry in charge.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college.

FRIDAY, MAY 1, 1925

ARE YOU WAITING?

Within a very short time 343 seniors are scheduled to be graduated from K. S. A. C. Some few of this number have already procured positions to be filled after graduation. But for the majority the paramount question at the present time is: "What am I going to do?"

It is at this point in the evolving life of seniors that too much faith is placed in the old maxim: "All things come to him who waits." After four years of passive college life in which he has his work dictated the graduate has lapsed into a stage of partial lethargy. Everything in his daily schedule of work has been laid out by someone else and all he has had to do was to accomplish the assigned work. But in the modern world of business and life there is no prepared schedule of work to be done, the individual must lay out his own courses.

The ability to make decisions and the spirit of "Go and Get It" which prevails in the world, must be attained if the question "What am I going to do?" is to be satisfactorily answered.

They say that writing this sort of stuff is easy.
It is. All you have to do is to break up your sentences whenever
You feel like
It. So if you ever have a lot of space to fill up and practically
Nothing to say in it just
Try something like this. The
Idea might be good
To try
On the prof—if you

Have not already tried it. They use it a lot on us anyway.
So this week we will not call the silly girls dumb and useless
But we will lie like liars
And say that they are nice and valuable; that
They have a lot of sense and all that sort of rot.
Then we will let Harry ride for awhile and
Not tell any more of his family secrets and diseases.
And the vain and proud sororities will not be bothered
Right at present. Neither
Will Touchdown's new cage.
We could go
On and eliminate a lot more subjects this week, but why waste energy?
All
We have to say is that we hope the finals
Will not be very
Difficult, tho it is
A certainty that they
Will.
But it doesn't hurt to
Hope.
Well, we have filled up a bit of space
And said
Nothing—or even less.
Just exactly what one is
Supposed to do in this
Sort of
Thing.

OLD GRADS VISIT ALPHA BETA

Literary Society Officers of 1875
Are Here for Jubilee

After a lapse of 50 years, four of the five officers of the Alpha Beta Literary society in 1875, returned at the time of the golden jubilee. Many of the hundreds of members of this society returned to visit on Saturday, April 18. Among them were these:

Charles Streeter, '71, Manhattan; Ella Child Carroll, '74, Manhattan; Ella Gale Kedzie, '74, East Lansing, Mich.; Hattie Gale Saunders, '81, Manhattan; George H. Fallyer, '87, Manhattan; Winifred Brown Burtis, '84, Manhattan; Ivy Harner Selvidge, '87, Columbia, Mo.; Mary Senn Heath, '90, Enterprise; and Delpha Hoop Montgomery, '91.

The three women honored with degrees from the college were at one time Alpha Betas—Mrs. Nellie Kedzie Jones, '76; Miss Abby Marlatt, '88; and Mrs. Henrietta Calvin, '86. All have served as president of the society.

The Alpha Beta Literary society is the oldest at K. S. A. C., having been organized in 1868. During its history the society has met at various places, the old college hall, the old chapel in the armory, the north corridor of Anderson hall, the society hall in the basement of Fairchild hall, and it now has a room on the third floor of Nichols gymnasium.

Good sources of calcium—lime—in foods are milk, whole grains, fresh fruits and vegetables, particularly the green ones, and the dried legumes.

DYKSTRA ON SPEAKING TOUR

Dean on July Trip; Will Head Clinic

Dean R. R. Dykstra of the division of veterinary medicine plans an extended lecture tour in July. He will speak in Omaha before the Missouri Valley Veterinary association on "Publicity for the Veterinary Profession" July 13.

On the evening of July 14, Dean Dykstra will speak in Omaha at a banquet which will be a joint meeting of livestock and veterinary men on "Veterinary Education and the Livestock Industry." He is scheduled to take charge of the veterinary clinic of the Minnesota Veterinary association which meets in St. Paul July 16. Dean Dykstra will appear before the North Dakota Veterinary Medical association in Fargo on July 17, deliver a paper on cattle diseases and take charge of the surgical clinic.

During the period from July 21 to 24 Dean Dykstra will be in Portland, Ore., to deliver an address and participate in the veterinary clinic of the American Medical association whose membership of 5,000 makes it the largest such organization in the world.

K. S. A. C. graduates from Dean Dykstra's division will give get-together banquets for him at the various places where he will visit.

THIRTY DELEGATES ATTEND ELECTRIC RANGE SCHOOL

Arrangements Made to Convert School into Annual Short Course

The first electric range school for employees of public utilities corporations was held Monday and Tuesday of last week under the auspices of the electrical engineering department of K. S. A. C.

About 30 employees, representing eight public utilities corporations, were present. Those represented were United Light and Power company with representatives from Manhattan, Peabody, Junction City, Salina, Abilene, and Superior, Nebr.; the Northern Missouri Power company, with a representative from Marysville, Kan.; Kansas Gas and Electric company, Wichita; Kansas Power company, Concordia; Missouri Gas and Electric Service company, Lexington, Mo.; Edison Electric plants, Topeka; Kansas City Power and Light company, Kansas City, Mo.; and Landers, Frary

Private Dancing Lessons

220 N. 7th Street
Telephone 1117

and Clark Manufacturing company, New Britain, Conn.

The first meeting was held in the form of a convention but at the close of the session a committee was appointed and arrangements made to convert it into a permanent annual short course.

PLAN FOR SUMMER SCHOOL

Stringent Teaching Requirements Indicate Large Enrollment

Because the adoption of more stringent requirements in the training of public school teachers has increased the demand for summer school training the enrollment for the 1925 K. S. A. C. summer school will be decidedly increased, according to E. L. Holton, dean of the summer school. An enrollment of 1,200 is expected, 60 per cent of whom will be teachers.

A total of 274 courses, 23 in the division of agriculture, 20 in the division of home economics, 47 in the division of engineering, and 184 in the division of general science, will be offered. The summer school faculty will number 121. An intensive short course during the first three weeks in coaching for high school athletic directors will be offered.

During the month of August a special summer school for vocational agriculture and home making teachers who are working under the Smith-Hughes vocational education act will be held.

Noted educators and scientists will speak at the weekly assemblies, and a series of talks by superintendents of schools in Kansas cities of the first and second class will be given.

UNRESTRICTED NERVE ENERGY RESTORES HEALTH

The skillful drugless practitioner knows how to release the nerve-energy which vitalizes the afflicted tissues and actuates the curative processes, which, in turn, neutralize and cast out the infecting poisons. Thus and thus only is health most quickly and most thoroughly restored.

3 CONCERTS FOR \$2.00

In order to give everybody in Manhattan a chance to hear the Minneapolis Symphony Orchestra, Don Jose Mojica, Julia Claussen, Marie Tiffany, and Judson House, a cut price of \$2.00 has been made for the Mojica recital this evening and the concerts by the Minneapolis Orchestra and visiting musicians Saturday afternoon and evening.

\$2.00 Buys Any Unsold Seat in the House!

Phone your orders to Prof. Ira Pratt, phone 614, or buy your ticket tonight at the box office in the college auditorium

And he has lived to see it

Back in 1885, Thomas A. Edison succeeded in transmitting electricity at 220 volts for one mile—an achievement and a promise.

The promise was fulfilled a few months ago when electricity at 220,000 volts was transmitted two hundred and forty miles to supply Los Angeles with light and power.

Now five billion dollars are invested in electric power plants. A stupendous figure that testifies to the alertness of thousands of college-trained men who have been leaders in the production and use of electric power.

The electrical era has only dawned. Each year some new machine or discovery makes it possible to apply electricity in unexpected ways. The graduate of today will find electricity directly or indirectly a means for even greater accomplishments, no matter what his calling in life may be.

In 1881 Edison shipped to the Paris Exposition his "Jumbo" dynamo—eighth wonder of the world. It could light 1000 lamps. Now there are G-E generators large enough to supply current for over a million lamps, each with four times the candle-power of the lamp of 1881. The General Electric Company produces other electrical apparatus which makes it possible to transmit power over great distances. It has put electricity in seven-league boots. In its laboratories, scientists are now experimenting with voltages ten times as great as the highest now in use.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

RIVALS THE BEAUTY OF THE SCARLET Tanager

This June-time Gift

Will Inspire Your Friends to Write You

It's as if made to order for

Graduation, Weddings, Leave-takings, Parties, Birthdays

Duofold Pen and Duofold Pencil—The New Duette: Satin-lined Gift Case de luxe included

As a Gift of Greeting or of Going-Away, what present affords your friends as much everyday utility, or serves as such a subtle invitation to write, while furnishing them the urge to dash off those gossip letters that you like the postman to bring.

For this Parker Duofold Duette has won the heart of the world—balanced, symmetrical, in handsome lacquer-red, or in flashing plain black, both gold trimmed.

Our Lady Duofold Pen and Pencil are still of small girth to fit slim fingers. But the Duofold Jr. and "Big Brother" Duofold Pencils are both built Over-size.

For men learned from the Duofold Pen how an Over-size Barrel affords a man-size grip that abolishes finger cramp, and relaxes hand and brain.

Every Parker Duofold Pen has the super-smooth Duofold Point that's guaranteed, if not misused, for 25 years' wear.

An Ink-Tight Pen on account of the Inner-Sleeve of the Duo-Sleeve Cap. And no exposed filler—just a Button to Press, and it's capped inside the barrel—out of sight—out of harm's way.

Now is the time to pick out these new Duofold Gifts. Stop at the first pen counter.

SOCIAL CALENDAR

Saturday, May 2, 1925

DeMolay dance, Community house.
Kappa Sigma dance, Elks.

The first annual Slide Rule Slide, exclusive engineer party, was held in Recreation Center last Saturday night. The dance was given under the auspices of Sigma Tau, honorary engineering fraternity. The hall was decorated with blue and white paper streamers and with colored lights. A special feature of the evening was a solo dance by Miss Mildred Good. Mr. and Mrs. R. A. Seaton and Mr. and Mrs. J. P. Calderwood chaperoned the party. Proctor's five piece orchestra furnished the music.

Mr. and Mrs. H. W. Davis entertained with a formal dinner dance Saturday evening in honor of Mr. and Mrs. N. A. Crawford who left Monday for Washington, D. C. Dinner was served at quartet tables. The rooms were decorated with white flowers and candles.

The guests included: Mr. and Mrs. N. A. Crawford, Mr. and Mrs. C. E. Rogers, Mr. and Mrs. Julian Peterson, Mr. and Mrs. Forrest Forrester, Mrs. Lena Bass of Grayville, Ind., Miss Katherine Hudson, Miss Mary Polson, Miss Mina Bates, Miss Martha Kramer, Miss Izell Polson, Miss Ruth Wilson, C. W. Matthews, W. B. Balch, R. W. Conover, Ashley Monahan, Otis Gruber, Alan Dalley, and Harry Lamont.

Miss Edna Willman and Miss Mary Brownell entertained with a rose bridge tea, Saturday afternoon, at 900 Leavenworth. Bridge was played at nine tables. Prizes were won by Mrs. L. H. Limper, and Miss Grace Hess.

A luncheon for men who are taking the advanced course in military was held at the college cafeteria, Monday noon. About one hundred men were present. Speeches were given by Colonel Bugbee, Captain Jones, and J. K. Watt. The affair was sponsored by Scabbard and Blade.

The Tri Pi Beta Phi Founders' day luncheon was held at the country club in Topeka Saturday. The

tables were decorated in wine and blue. About 135 active and alumnae members from Manhattan, Lawrence, and Topeka chapters were present.

Mrs. Arthur Mills, president of the Topeka alumnae chapter, was toastmistress. Toasts were given by: Mrs. H. E. Tanner, Lawrence; Mrs. Edith Brewer, Manhattan; Mrs. Charles McArthur, Kansas City; and Mrs. Genevieve Herrick Smith, province vice-president. Following this was a musical program which included: Duet, Miss Betty Sifers and Miss Evelyn Lowman, Lawrence; Song, Miss Janet Hellworth, Manhattan; Violin Solo, Miss Jean Rankin, Manhattan; Song, Miss Helen King; and Spanish dance, Miss Poe Dana, Lawrence.

Invitations for a luncheon in honor of Mrs. William Jardine, to be given May 8, have been issued by Mrs. J. T. Willard. Guests will include wives of the deans and a few others.

Delta Delta Delta entertained Saturday with a formal spring dance at Elks' hall. The hall was decorated to represent a flower garden. Music was furnished by Isenhardt-Jenks orchestra from Lawrence. Crested leather bill folds were given to the men for favors. Mrs. Dodd, the housemother, and Mr. and Mrs. J. O. Faulkner chaperoned the dancers.

Delta Tau Delta entertained Sunday with a Sister's day dinner. The guests were: Misses Ruth Stewart, Helen Haines, Bernice Elliot, Mary Adda Boone, Josephine Woodman, Dale Backman, Ruth Clency, and Julianna Amos.

The Acacia fraternity entertained the Acacia sisters with a dinner Sunday. The guests were: Mrs. M. A. Durland, Mrs. Scholer, Mrs. Ward Griffing, and Misses Doris Logan, Louise Wann, Mary Stutz, Florine Stutz, Fern Evans, Mary Bold, Pearl Bold, Louise Stockwell, Elizabeth Gates, and Evelyn Boyce.

Kappa Kappa Gamma will have a week end guests: Mrs. Wilson, Kinsley; Mrs. A. A. Austin, Salina; Mrs. C. H. Manley, Jr., Junction City; and Mrs. McKee, Hiawatha.

BIG SISTERS MEET

Plans for Breakfast May 10—All Girls Invited

The Big Sister captains of the Y. W. C. A. held a meeting Sunday morning at 9 o'clock in the home economics rest room. Dean Van Zile talked on "Your Privilege as a Captain." Charlotte Swanson explained the plans of the Big Sister organization for the year. The following girls are in the Big Sister group: Gladys Stover, Fern Harris, Merle Nelson, Marie Farmer, June West, Irene Barner, Josephine Brooks, Ruth Long, Betty Elkins, Acas Hart, Dorothy Stiles, Juanita Williams, Winnivere Button, Lillian Kammer, Helen Jerard, Sue Burris, and Margaret Schipper.

Committees were appointed to carry out the work in detail. A Big Sister breakfast will be held May 10 in Recreation center to which every girl in school is cordially invited. Mary Lowe has charge of the breakfast.

Summer Plans at Vespers

Y. W. C. A. vespers will be held Tuesday in Recreation center at 4 o'clock. The program will be a skit, "Where Does Your Summer Go?" This will be a dramatization of all the possible ways a college girl might spend her summer. Esther Otto, Ruth Bachelder, and Emma Schoonover have charge of the program.

AGGIES IN DUAL MEET WITH K.U.

WHOLE TRACK TEAM WILL GO TO LAWRENCE

Aggies Strong on Distance Races—K. U. Sprinters Shatter Relay Records

The Kansas State track team will meet its oldest rival at Lawrence tomorrow afternoon in the first dual meet of the season for the Aggies.

And tomorrow, for the first time this spring, the Aggie squad, as a complete track team, rather than as a few individual stars, will be given a chance to show what it can do against outside competition. Until now, only distance stars, members of relay teams, and one or two men who were showing up well in individual events, have entered the contests.

Aggie Specialty Is Distance

A sharp contrast in the line-up for the two schools is shown by a survey of the events in which the respective teams have specialized this year. The Aggie team has been working on the distance races almost entirely. The wisdom of such a course has been upheld by the showing made by the four-mile relay team throughout the season, and the record breaking races run by Kimport and Balzer at the indoor meet at Kansas City. On the other hand, K. U.'s greatest strength is to be found in her sprinters, and her sprint relay teams have shattered several records this spring.

Meet Hard to Dope

Comparative records in recent meets entered by the two schools, give the university team an edge for this event but it is often impossible to judge the outcome of a dual meet by the records made in such large meets, because the winning school must carry off so many points to win a dual meet. Meet laurels probably will go to the team which can win the greatest number of events in which neither school claims to be strong.

The Aggie Entries

100 yard dash—C. P. Foote, Wichita, F. W. Shaw, McPherson; 220 yard dash—Foote and Shaw; 440 yard dash—Capt. K. G. Knuse, Valley Falls, H. A. Brockway, Olathe; 880 yard run—Ralph Kimport, Norton, E. E. Coleman, Alma; Mile run—Kimport and P. A. Axtell, Argonia; Two-mile run—A. I. Balzer, Inman, M. L. Sallee, Long Island; High hurdles—Norman Roberts, Manhattan; Low hurdles—

F. W. Shaw, McPherson and Don Meek, Idana; Shot put—F. A. Brunkau, Ellinwood, F. Keller, Humboldt; Discus—Brunkau, Keller and John Gartner, Manhattan; Javelin—Brunkau and Keller; High jump—A. W. Burtman, Manhattan; Broad jump—Meek and H. D. Sappenfield; Mile relay—Knouse, Brockway, H. A. Russell, Topeka, and L. L. Davis, Effingham.

FIFTY-NINE TEAMS ENTERED

High Schools Compete in Agricultural Judging Contest

Fifty-nine teams have entered the annual state high school agricultural judging contest that is being held at the college today and tomorrow. The contest is sub-divided into several divisions, and scores made in each division are added to determine the winners of the contest. The teams entered are:

Abilene; Admire; Alma, Americus; Argonia rural high school; Auburn rural high school, Burlington; Byers; Chase county community high school, Cottonwood Falls; Cherokee county community high school, Columbus; Clay county high school, Clay Center; Clifton; Clyde; Crawford community high school, Cherokee; Corning rural high school; Dickinson county community high school, Chapman; Fort Scott; Frankfort; Garden City; Goff rural high school; Greensburg; Harper; Hays; Holcomb; Hoyt; Jewell rural high school; Kingman, Lawrence; Lincoln; Linwood rural high school; Longford rural high school; Manhattan; Marysville; Medicine Lodge; Melvern rural high school; Memorial high school, Hill City; Montvale rural high school; Mound City; Mullinville; Neosho Rapids rural high school; Norton community high school; Oskaloosa rural high school; Pleasanton; Reno community high school, Nickerson; Seaman rural high school, North Topeka; South Haven; Spearville; St. George; Tonganoxie; Vinland rural high school; Wakefield rural high school; Washburn rural high school, Topeka; Washington; Waterville; Wellsville;

Westmoreland; Wichita; Winfield; and Piedmont.

The teams having the highest grand totals last year were: Burlington, first; Wakefield, second; Wichita, third; Mound City, fourth; and Marysville, fifth. Wakefield had the highest score in animal husbandry, Wichita was highest in agronomy and in dairy judging, and Garden City highest in poultry judging.

RILEY GOES TO EUROPE

Former Aggie Track Man to Tour with I. A. C.

Ivan Riley, former K. S. A. C. student, and present business manager for the Illinois Athletic club track team will leave New York Saturday on the "Majestic" for Europe, where he will complete plans being made by the club in regard to the trip to be made by the team this summer.

MASTER'S DEGREES TO BE GRANTED TO FIVE WOMEN

Four Home Economics Students Complete Work Next Semester

Examinations for master of science degrees in the department of household economics have been given this week to Mrs. Lucile Rust, fellow in that department; and Miss Jean S. Dobbs, instructor in household economics. Miss Elma Stewart, instructor in the department, expects to complete her work and take her examination in May.

Two others, Mrs. Nellie Evans and Miss Bernice Flemming, expect to complete their work at the end of

There are four other graduate students who will probably be able to complete their work for master's degrees in the department by the end of the first semester next year.

SEVENTY FROM CLASS OF '25 TAKE OUT LIFE MEMBERSHIP

The 343 Members of This Year's Class Are Eligible

Seventy of the 343 members of the graduating class had subscribed by Wednesday evening for life membership in the K. S. A. C. Alumni association, according to R. L. Foster, secretary of the association. They are:

Home economics — Phyllis W. Burtis, Hallie A. Laughlin, Jennie Horner, Mabel McComb, Nora E.

Bare, Leah E. Arnold, Helen T. Clark, Susie K. Huston, Evelyn M. Colwell, Capitola B. Bassett.

Industrial journalism — Byron E. Short, Floyd O. Northrop.

General science—Mary E. Cormany, Lottie M. Butts, Marian Hardman, Eleanor E. Dempsey, Mary A. Higinbotham, Alberta Edelblute, Francis O. Gaddie, William A. Dalton, Elnora Wanamaker Seaton.

Agronomy—Fred J. Sykes, Fred D. Allison, Eugene A. Cleavenger, Jay R. Wood, Glenn M. Reed, John H. Coolidge.

Civil engineering—Charles F. Irwin, Alfred G. Aldridge, Francis J. Nettleton, Irvin B. Kirkwood, Irvin L. Peffley, Frank V. Houska, Delos C. Taylor, Hervey O. Reed, Dean O. Smith, Clifford W. Eshbaugh.

Architectural engineering—Wilmer Lee Qakes.

Mechanical engineering—Claude L. Wilson.

Electrical engineering—N. R. Thomasson, Sherman H. Carter.

Esteban A. Cabacungan, Theodore M. Berry.

Veterinary medicine—Arthur H. Riley, Floyd E. Hull, Lamar P. Caraway, Norris D. Cash, Joseph E. Greer, James F. Savage.

Agricultural economics — George Montgomery, Jr., Carl G. Iles, Lester J. Schmutz.

Horticulture—John I. Rogers.

ATHLETICS DRAW AT SUMMER CAMP

ALL FORMS OF SPORT AT SNELLING IN 1924

Every Student Must Take Active Part in Camp Games in R. O. T. C. This Summer

(By Ralph Kimport, Sophomore in Agriculture.)

Every student at the R. O. T. C. summer camp at Fort Snelling in 1924 engaged in some form of athletics—baseball, track, swimming, tennis, wrestling, boxing, and contests were supervised by the athletic department under the direction of Major E. W. Turner.

Baseball took the center of the stage in camp athletic activities, drawing more spectators than any other sport. Practically all colleges were represented on the diamond. The tournament was won by Arkansas.

Forty-five Boxers

At the call of the athletic director of the camp, more than forty-five men expressed their desire to wrestle.

All wrestlers were assigned to their individual classes by the athletic office, no limit being placed on the number of men that could be entered by any one institution.

Boxing proved to be the medium through which the most intense school spirit was brought out. Every Tuesday and Thursday evening the bleachers in front of the Service Club were filled to capacity with enthusiastic rooters for the pugs from the various colleges and military academies.

Swimming Meet

The "ole swimmin' hole" will always have a warm spot in the hearts of the men who attend camp. Each afternoon at four o'clock approximately 200 men climbed aboard big army trucks and were transported to Lake Nokomis beach. To further stimulate interest in aquatics, July 9 was set aside for the camp swimming meet.

Prizes were awarded to the winners of the first, second and third places and to the high point winners in the meet. A special prize was given to each of the three high point men in fancy diving.

Washington U won the championship with 15 points, the Kansas Aggies were second with 13 points. Phil Carter of the Aggie varsity team was the only point winner for Kansas State. He won the fancy diving contest with ease though unaccustomed to the high diving towers used in outdoor competition. Carter also took first in the 100-yard dash and second in the 50-yard dash.

Aggies Third in Track

The track meet which was held the last day of the camp brought out a large number of athletes. Each institution was limited to two men in each event. A cup was given to the school winning the meet, and a gold watch to the high scoring individual.

The track championship was won by the University of Arkansas with 34 points; Nebraska was second with 28; Kansas State third with 15 points. The Kansas point winners were: Kimport, first in the mile run and a tie for first in the two mile; Carter, first in the pole vault; and Johnson, third in the two mile.

Tennis proved to be one of the most popular of the minor sports at camp. A total of seventy-four men entered the tournament, most of them experienced college players. Some very close and exciting games were played.

HUDSON IS P. K. P. SPEAKER

M. U. Professor Will Give Honorary Fraternity Address

The speaker who has been chosen to deliver the annual Phi Kappa Phi address at Student Assembly Friday, May 8, at 10 o'clock is Dr. Jay William Hudson, professor of philosophy at Missouri university.

He has won a national reputation through his vigorous lectures on public issues and movements. During the last few years he has lectured in nearly every state of the union before universities and colleges, state teachers' associations, summer schools, chambers of commerce, bankers' associations, peace congresses, and popular audiences.

Doctor Hudson received his bachelor's and master's degrees from the University of California. At Harvard he did research work in philosophy and received the degree of Ph. D. From Harvard Doctor Hudson was called to the University of Missouri in 1908, where he now is professor of philosophy. For the college year 1914-15 he was granted a leave of

absence in order to devote his entire time to lectures on International relations.

During the season of 1914-15 Doctor Hudson delivered addresses before an aggregate of over 60,000 people, including mass meetings in Faneuil hall and Tremont temple, Boston, and in Washington, D. C.

As an author he is distinguished for the following books: "The Truths We Live By," "The College and New America," "The Abbe Pierre," and "Nowhere Else in the World." The last two are novels. Doctor Hudson's subject for Friday will be "The College and American Life."

Furr to Purdue for Degree

Prof. M. W. Furr, associate professor of civil engineering, will leave May 7 for Lafayette, Ind., to take an oral examination in order to receive his professional degree from Purdue university. Professor Furr has recently completed a thesis on "Highway Design."

WILDCAT IS WORSTED IN A DUAL MEET AT K. U.

Jayhawk Takes 72 Points to the Wildcat's 39—Kimport is Outstanding Aggie Star

The Aggie Wildcat traded fur for tailfeathers with the K. U. Jayhawk Saturday and was worsted in the dual. The Aggie points in the dual meet at Lawrence totaled 39 and the K. U. points totaled 72.

Five firsts fell to the Aggies and K. U. took seven. Davis of the Aggies and Graham of K. U. tied for first in the low hurdles, and Carter of the Aggies and Mitchell of K. U. tied for first in the pole vault.

The tie in the low hurdles was the greatest surprise of the meet for the Aggies. L. L. Davis never before had run the hurdles in a meet, and until the last week had not been training for them. Kimport was the outstanding Aggie star. He won first in the mile and half-mile easily and tied with Graham of Kansas for the honor of being high point man.

"Puff" Balzer had little difficulty in winning the two-mile race. Gartner, throwing the discus, and Brunkau, putting the shot, won their events easily, but Brunkau was unable to do better than a second in the javelin.

Randall Shaw was leading K. U.'s famous sprint pair, Fisher and Wongwai at the 60 yard mark when he strained a tendon and had to drop out of the race.

The summary:

100 yard dash, Fisher, K. U., first; Wongwai, K. U., second. Time, 10 seconds. 220 yard dash—Fisher, first; Wongwai second. Time, 21:3. 440 yards—Rooney, K. U., first; Brockway, Aggies, second. Time, 50:7. 880 yards—Kimport, first; Watson, K. U., second. Time, 2:03. Mile—Kimport, first; Pratt, K. U., second. Time 4:33. Two mile—Balzer, first; Brady, K. U., second. Time, 9:45. High hurdles—Graham, first; Ingle, second, (both of K. U.) Time, 16:5. Low hurdles—Davis, Aggies, and Graham of K. U., tied for first. Time, 25:1. Brunkau won the first shot put: distance, 40 feet, 10 inches. Gartner won the discus throw, 172 feet. Brunkau won second in javelin, K. U., first; distance, 156 feet. High jump—Poop and Graham, of K. U., tied for first. Height, 6 feet. Graham and Gridell of K. U. tied in broad jump, 22:3. Pole vault—Mitchell of K. U. and Carter of Aggies tied at 11 feet 6 inches. Kansas won the relay in 3:33.

We Now Have with Us—Prexy Farrell, So Order the Regents

The appointment of Acting President Farrell as president of the college to succeed Dr. William M. Jardine was announced Saturday by C.

"PREXY" FARRELL

S. Huffman, chairman of the state board of administration. The appointment will take effect July 1, on the expiration of the leave of absence granted to Doctor Jardine after he had accepted the appointment as secretary of agriculture.

The announcement, which came while Doctor Farrell was in Topeka,

was a complete surprise to the college community. Though it had been considered probable from the first that Doctor Farrell would receive the appointment, it was not expected that action would be taken by the board much before July 1.

Doctor Farrell was appointed as acting president of the college immediately after President Jardine accepted the cabinet position.

President Farrell will be in Topeka for several days and probably will make further arrangements for taking over actual control of the college before his return. No changes in the present administration of the school are expected, however, by friends of the new president.

The appointment of Prof. L. E. Call, now acting dean of the division of agriculture, as permanent dean, and of Prof. R. I. Throckmorton, acting head of the department of agronomy, as permanent head, are expected to be announced soon after President Farrell's return.

The appointment of President Farrell has met with the approval of virtually everyone connected with the institution. He is well-known both in the state and over the entire country, for his work in agriculture, both in connection with the college, and with the United States department of agriculture, in which he served for several years. The appointment of President Farrell was smoother, and created less friction, than any appointment which has been made at the college for many years, according to persons who have been connected with the college for a long time.

R. O. T. C. HAS MANY BENEFITS

PROVIDES SYSTEMATIC TRAINING FOR STUDENTS

Advanced Course Students Receive Pay, Tailored Uniforms—Second Lieutenant Commission at End of Course

(By Dale Nichols, Junior in E. E.; A. B. Nuss, Junior in C. E.)

The primary object of the R. O. T. C. is to provide systematic military training at civil educational institutions for the purpose of qualifying students of such institutions for appointment as reserve officers of the United States army.

Although this is the primary object of the R. O. T. C. it is recognized that the basic military training received by students is of military value to the government.

The R. O. T. C. is organized in two divisions: a senior and junior division. The senior division consists of such units as are organized at approved civil educational institutions granting degrees. This includes state universities and those state institutions that are required to provide instruction in military tactics under the Morrill act.

The junior division consists of such units as are established at public or private schools, such as military academies and high schools.

Eligibility to membership in the R. O. T. C. is limited to the students of institutions in which units of such corps are established, who are citizens of the United States, physically fit, and not less than 14 years of age.

Two Divisions of Course

The four year course of the senior division is divided into the basic course and the advanced course. The first two years of military training are taken up by the basic course which is compulsory to all eligible students. The last two years are taken up by the advanced course which is optional to those students having satisfactorily completed the basic course.

Two summer camps normally are held, a basic camp and an advanced camp. The basic camp is optional. At least one advanced camp is required if the advanced work is taken. Due to the lack of funds there will be no basic camp held this summer but those so desiring may attend the Citizens' Training camp which will be held at Fort Leavenworth.

Transportation, uniforms, equipment, food and medical attendance are furnished members of the R. O. T. C. attending summer camps, while those authorized to attend advanced camps are paid 70 cents a day. Transportation allowance is five cents per mile to and from camps. The allowance from this part of Kansas amounts to about \$60 to Fort Snelling, Minn., and about \$140 to Fortress Monroe, Va. Those enrolled in

the annual spring meeting. This spring the initiation and banquet will be held in the banquet room of the cafeteria at 6 o'clock Tuesday, May 5. At 7:30, following the banquet, there will be an address delivered in Recreation center by Dr. M. F. Guyer of the University of Wisconsin.

The subject of the address will be, "Some Biological Aspects of Democracy." Dr. Guyer is a zoologist and geneticist and has recently attained considerable renown for his experiments in the inheritance of acquired characters. The meeting in Recreation center is open to the public. Doctor Guyer also will speak before the science club the following evening.

Subscription to \$20,000

Subscriptions in the Memorial Stadium drive have reached \$20,250, according to V. E. Whan, manager of the drive. Of the 32 student organizations at K. S. A. C., 25 have 100 per cent subscription to the Stadium fund. Seven have yet to reach the 100 per cent mark.

LOCAL HIGH WINS JUDGING AND SCHOLARSHIP CONTESTS

Holton High School Second in Scholarship—Wakefield Is Second in Grain and Stock Judging

Manhattan high school won first place in both the scholarship and stock and grain judging contests held at the college last week. The members of the scholarship team were, Carol Stratton, Helen Cortelou, and Ben Remick. Tom Bentley, Lowell Williams, and Ralph Travis composed the stock and grain judging team.

Individual first place honors in both contests also went to Manhattan. Carol Stratton placed first in the individual contest covering the eight subjects taken in high school work. Tom Bentley was high individual in the stock and grain judging contest.

Second place team honors in the scholarship contests were won by Holton high school. The Concordia team placed third.

Representatives from the Frontenac high school were winners in the debate contest. The oratorical contest was won by Robert Fox of the Topeka Catholic high school. Thomas Kelly of Frontenac high school placed second and Florabel West, Newton high school, won third place. The extempore speaking contest was won by Margaret Plummer of Newton. Edna Walker of Macksville high school took second place and third place went to Glenn Warders of Marysville.

Wakefield trailed Manhattan by a margin of 199 points in the stock and grain judging. The Clay Center team won third place.

High individuals in the four divisions of the contest were: Animal Husbandry—Roy Gustafson, Hill City; Grain—Allan Bentley, Washburn; Dairy—Lester Henn, St. George; Poultry—Walter Buell, Miltonvale.

Lawrence high school team took first place in the poultry division; Washburn rural high school in grain judging and Norton high in dairy judging.

For their victory in the stock and grain judging the Manhattan team received a parchment certificate from President Farrell, also the cup offered by the Ag Fair association.

In the scholarship contest prizes of \$100 and \$75 were won by the first and second teams respectively. In addition cups and medals were presented to the first three winning teams. Individual scholarships were awarded by the college to the six high individuals.

AGS CONSULT OTHER FAIRS

Ideas for Ag Fair Gleaned from Nebraska and Missouri

Delegations of ag students from K. S. A. C. visited the Farmer's fairs held at Nebraska and Missouri universities last week-end in order to gain ideas for the annual Ag fair which will be held here Saturday. "The Ag Fair Guide," a booklet published by the fair association for the benefit of its patrons, will be on sale Saturday morning. It will include a program, description of each event, and some feature stories about senior ag students.

A bucking Ford, a dozen or more floats to represent the departments of agriculture, clowns and other parade units will form the procession which starts the fair Saturday noon.

Miss Burr to Boston

Miss Oseola Hall Burr left Friday for Boston, where she will teach public speaking and pageantry in the Boston School of Expression and Dramatic Art. Miss Burr has been connected with the public speaking department of K. S. A. C.

PEARSONS HEADS STUDENT BODY

HERVEY OF OKLAHOMA IS VICE-PRESIDENT

Shideler Named Secretary-Treasurer for Coming Year—Next Conference to New Orleans

Clarence Pearsons of the University of Minnesota was elected president and John Hervey of the University of Oklahoma was elected vice-president of the Mid-West Student conference at its closing session Saturday morning. Fred Shideler of K. S. A. C. was elected secretary and treasurer, receiving the largest majority of any of the winning candidates. Tulane university of New Orleans was chosen for the next meeting of the conference.

After a motor trip Friday morning to Fort Riley, where they inspected the camp and saw a riding show, the delegates met at Thompson hall at 1 o'clock for a discussion on student government, led by S. Eldon Dyer of the University of Texas. He divided the topic into six sub-divisions, discussion of which was led by various members of the conference.

Finance a Question

Albert Holleman of Tulane led the talk on finance. Representatives of the various schools explained the methods of collecting money for the student council on the campus, and the uses to which the money is put. The blanket tax method used here seemed the most popular.

John R. Moran of Notre Dame was leader in the discussion of student elections. Henry Depping of Missouri, who is the newly elected president of the student body on that campus, gave a description of the publicity, speeches, fireworks, and serenades which make elections exciting on that campus.

Yell Leaders Up for Discussion

The selecting and training of yell leaders, the next division discussed, was led by Herbert Bicknell of Illinois Wesleyan. The conference was then adjourned for the afternoon in order that the delegates might attend the ball game.

The annual conference banquet was given Friday evening at the Gillett hotel. True D. Morse of Missouri, president of the conference this year, was in charge, and there were speeches from the representatives of the various schools. After the banquet the delegates attended the varsity dance at Harrison's hall.

To make up the time lost Friday afternoon, the conference met at 8 o'clock Saturday morning and continued the discussion of student government. H. K. Snell of Wisconsin was chairman of a discussion of campus activities, and the talk on the coordinating of student activities was led by Lee Thompson of Oklahoma.

Student government discussion was concluded with the topic on functions of authorities led by W. L. Shumate of Missouri. The control of freshmen, control of social events, the function of the dean of men, check on activities, and discipline were discussed under this head. Most of the delegates said that their student councils did not desire the power to discipline for drunkenness as it gave the council too much to handle.

Varsity and intramural athletics were discussed by Wallace James of the University of Kansas, as leader; Raymond Stuck, Depauw; and Robert Hynes of Cincinnati. Then there were various general questions about the value of the Y. M. C. A. and the campus chest fund idea which has been adopted on this campus and is being considered at M. U.

Business Session Saturday

The business session which was to have closed the conference Saturday afternoon was held in the morning at 11 o'clock in order that some of the delegates might leave on the noon trains. According to the report of the secretary, the conference is in good financial condition. This conference which is considered the most successful held seems to show that the organization will be a lasting one. On recommendation of the secretary Creighton college was dropped from membership as it has not participated in the last three conferences. Colorado university joined the conference this year.

Formal resolutions on two problems of the campus were approved by the delegates. The conference went on record as being opposed to honorary organizations with low scholastic standings or little purpose and to the awarding of sweaters and varsity letter to debaters. There also were passed a resolution of formal thanks for the hospitality and entertainment received by the convention.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college.
Published every Tuesday and Friday of the college year.
Entered as second class matter at the postoffice, Manhattan, Kan.

R. O. T. C.

A considerable amount of space in this issue of the Collegian is devoted to the R. O. T. C. in recognition of the efforts of those in charge to make the local organization one of the best in the entire country.

Seeing's as how the faculty are trying to give us enough work to keep us up every night till school is out it would be nice indeed if we could acquire the fortunate habit of sleeping with one eye closed.

Think of the hours of sleep we could get in. Lectures, (those that we don't sleep in now) recitations, (ditto) and chapels could all be turned into profitable sleeping hours.

In the picture shows it so happens that all the girls who attend a dance or any social function are good looking but in actual life we have never found it that way.

There has only been one man with the name of Brown who has become widely known in the world. His

name was John and he had to be hanged to get that way.

Vacations, mosquitoes, babbling brooks, trout, starlight nights, camp fires, great open spaces, etc. Those are awfully hard words to take this kind of weather.

It will be just twenty-two days until we can sing the Rosary to our chemistry book, give it the horse laugh and then toss it into the swirling waters of some river.

K. U. beat us in a track meet the other day, but we can still look back to last fall and laugh contentedly.

If there happens to be a good looking girl in school who is wealthy, has a car, believes in having a good time on her own money and wishes to hire a chauffeur for the summer please notify us. Harry will have to have a job this summer.

If there was a newspaper that put out nothing but a twelve-page issue of comics daily it would be a safe bet that it would have as large a circulation as any other paper in the country.

Man is naturally cautious. He always looks behind himself when he sits down. Even if he happens to be in chapel and knows no one can jerk his seat away from him.

The R. O. T. C. inspection is a living example that nothing is as bad as it is pictured.

And finals begin the twentieth.

Weigel Back from New York

Prof. Paul Weigel, head of the department of architecture, returned Monday from New York, where he attended the convention of the American Institute of Architects. Professor Weigel attended the convention as a delegate from the Kansas branch of the American Institute of Architects.

STUDENT NEEDS, CRAWFORD'S SUBJECT IN FAREWELL TALK

Intellectual Leadership Fundamental Necessity—Students Should Lead and Mold Thought

Intellectual leadership is the fundamental need of the American student body today, Prof. N. A. Crawford, head of the department of industrial journalism at the Kansas State Agricultural college, told students in the department at the weekly lecture last Thursday. Professor Crawford's talk marked his last appearance before the students of the department before going to Washington to take up his duties as director of information for the department of agriculture.

"Student bodies throughout America have lost the leadership they once held," Professor Crawford said. "In the middle ages, and even in more recent times, a student in any of the great institutions of learning was looked up to as a moldier and leader of thought. Today, except for an occasional man or woman, usually of foreign birth, the student bodies of American colleges are followers, not leaders. They listen, they do not argue. They read and accept, they do not doubt or question. And what do they follow, aside from their textbooks and the lectures of other professors? Darwin, Freud, Cezanne, Michelson? Hardly. You know the intellectual level of the average student's conversation will enough to smile at such a suggestion.

"I refuse to believe, however, that the student bodies of America contain no men or women capable of intellectual leadership. What is needed is an awakening of it. There is going to be widespread dissatisfaction with American education until students in colleges and universities again assume a real part in the intellectual life of the nation.

"Too many students have an inferiority complex about their college or

about themselves. I hear students suggest that an arts degree is superior to a science degree—which is utter bunk, both being of the same standing, or that the course they are taking is inferior to other courses in the same college. These are simply manifestations of the complex which causes one to place oneself on a lower level than every one else.

"In particular, this is disastrous in the case of the individual and his own personal views. Student after student in a class will answer questions tentatively, with no self-confidence, as if there were but one answer to a question. In most cases there are as many answers as there are persons who have thought about it. No two persons ever reach precisely the same conclusions. Study the facts, and fear no conclusion to which the facts may lead you, regardless of what effect it may have on your preconceived opinions and prejudices. Once you have reached your conclusion, have the honesty and self-confidence to offer it for what it is, an expression of the most valuable asset you possess—your personality."

Send the Collegian home.

Major General Harbord, Major General Helmrick, and Brigadier General Coe were all students at K. S. A. C.

I. N. Chapman, farm management demonstrator, is spending this week in Rawlins county attending meetings of the various farm account clubs.

Mrs. George Huckstead of Junction City spent the week-end at the Alpha Theta Chi house.

Delta Zeta fraternity entertained with Mother's day Sunday. The guests were Mrs. G. L. LeVitt, Mrs. S. M. Hassler, Mrs. C. P. Pooler, Mrs. O. M. Davison, Mrs. Ben Garlock, Mrs. H. H. Norris, Mrs. E. Elkins, Mrs. W. H. Frohn, Mrs. C. O. Swanson, Mrs. C. C. Jackson, Mrs. R. J. Colwell, Mrs. E. R. Cutshaw, Mrs. M. L. Scott, Miss Clara Frohn, and Mr. and Mrs. Fred Beeler, Jr.

Ur Rune of the American College Quill club held initiation services Monday night for the following persons: Grace Powell, Anna Jacobs, S. I. Thackrey, R. I. Thackrey, W. A. Dalton, and Leland Gibson.

Phi Kappa Theta guests Thursday evening were Captain and Mrs. Grow, Fort Riley, R. H. Tanhill, Strong City, Mrs. Mary McCallum, and Mr. and Mrs. J. Hinden.

Miss Marie Gibson of Independence, Mo., and Mr. C. L. Browning of Kingsville, Mo., were married Thursday afternoon by Reverend J. D. Arnold. Mr. Browning is a senior in agriculture at K. S. A. C.

Phi Mu Alpha, professional musical fraternity, announces the pledging of R. D. Bradley, Dover; Russell Reitz, Belle Plaine; Roy Bainer, Manhattan; and Lewis Barber, Augusta. The new officers of the fraternity are L. E. Woodman, president; Iru Price, secretary; H. E. Erickson, treasurer; E. V. Floyd, historian; and A. C. Hoffman, warden.

Kappa Sigma fraternity entertained with a formal spring party at Elks' hall Saturday evening. The hall was attractively decorated with colored flowers and streamers. Music was furnished by Isenhardt-Jenks orchestra from Lawrence. The chaperones included: Mrs. J. L. Bressler, Miss Mary Brownell, Mr. and

MISS SYLVIA MATHER

Miss Sylvia Mather has two prominent solo parts in the Topeka Vaudeville Revue to be given at the College auditorium, on Friday night, May 8, by the Topeka Business and Professional Women's club.

Miss Mather is the principal of the educational department of the Boys' Industrial School. She studied at one time in the music department of the Kansas State Agricultural college.

Mrs. C. R. Weeks, Mr. and Mrs. R. P. Evans, and Mr. J. P. Helm.

Dinner guests at the Kappa Phi Alpha house Sunday were: Prof. and Mrs. L. D. Bushnell, Mr. A. F. Peine, Mr. C. W. Matthews, Miss Izil Polson, Miss Josephine Heath, Miss Kathleen Schoffner, Miss Madge Rickey, Miss Helen Morrow of Kansas City, and Mrs. C. L. Youngman of Harveyville.

Week-end guests at the Lambda Chi Alpha house were Howard Ames, Edwin Winkler, Paul Elliott, and J. A. Harris of Lafayette, Ind., and E.

G. Mason, and H. K. Foster of East Lansing, Mich.

Misses Mary Adda Boone, Mary Highbotham, Helen Eakin, Eleanor Dempsey, Marion Kendall, and Ruth Holton entertained with a dancing party at the Country club Friday evening. The guests included members of the Pi Beta Phi sorority. Proctor's orchestra furnished the music for dancing.

FROSH WIN SWIMMING MEET

Junior-Senior Girls Second and Soph Third in Interclass Event

The freshman girls' swimming team won first place in the interclass swimming meet, which has been in progress during the past month, by defeating the junior-senior team May 1 by a score of 35 to 29. The junior-senior team won second place in the meet and the sophomores placed third.

Betty McCain, senior, Wichita, won individual honors by making 24 points. Ruth Davies, freshman, Manhattan, placed second with 21 points, and Lillian Kammeyer, sophomore, Manhattan, third with 20 points.

Honor to Miss McKittrick

Miss Elizabeth McKittrick, who received her master's degree here in 1922, has been given honorary membership in Phi Upsilon Omicron, hon-

orary home economics society, according to the official publication of that society. Miss McKittrick was a mathematics instructor at the college for several years. She is at present the head of the home economics department at the University of Wyoming.

AGGIEVILLE

HUSKERS OBTAIN A DOUBLE WIN

OUTSCORE AGGIES IN BOTH
GAMES HERE LAST WEEK

Rhodes, Nebraska Twirler, Is Out-
standing Star of Friday's Game
—Second Game Is Pitch-
ing Duel

By obtaining the best of a slugfest on Friday and the best of a pitching duel on Saturday the Nebraska nine took a double win from the Aggies and thereby upset the hopes for a championship team at Kansas State. The score of the first game was 10-7, and the second 4 to 3. The second game took an extra inning to decide the winner.

First Game

The first game was a see-saw affair with neither team able to obtain a safe lead until in the eighth with the score tied, 7-all, the Cornhuskers bunched three hits with an error for three runs. The Aggies came back strong in their half of the eighth, but Rhodes settled down and fanned Munn, Havley, and Smith.

Rhodes was the outstanding player of the day. He not only held the Aggies to seven hits, but counted a home run, a triple, and two singles out of five times at bat.

Aggies Use Four Pitchers

The Aggies used four pitchers in an effort to quench the rain of Cornhusker blows but the Nebraskans kept hitting until at the end they had massed a total of fifteen hits off the Aggie twirlers. Greer started the fray but was taken out at the end of the third inning in order to face E. Lang in the second game. Conroy then took the mound but during the next five innings he was clouted all over the field, the Cornhuskers scoring seven runs of his deliveries. He was replaced by Byers after the three winning runs had been scored off him in the eighth. Byers pitched the remaining two outs but was replaced by Caraway in the ninth after Smith had batted in his place.

"Jud" Brion was the batting star for the Aggies, getting two walks, a single and a double out of four times at bat. Karns and Munn also aided in the scoring. Karns landed two safe hits besides sacrificing Miller from third to home twice. Munn scored two doubles, one of them scoring two comrades.

Second Game

The second game was a pitchers' duel from start to finish with the Aggies holding a three run lead from the first inning until the eighth, when the Cornhuskers staged a fierce attack on Greer, making three runs to tie the score. Neither team was able to score in the ninth but in the first of the tenth, Andresen, Nebraska shortstop, smacked the first ball pitched, over the center fielder's head for a triple. Greer fanned Ekstrom but Tomsen scored a single on a slug-bunt down the third base line, scoring Andresen.

The Aggies took the lead in the first inning when Miller and Cunningham gained bases on errors, and Karns scored a triple to right. Patton, Nebraska, right fielder, touched the ball but made a long reach to do so. Huey then laid down a perfect sacrifice which brought Karns in for the third tally.

Greer Pitches Good Game

Greer pitched great ball during the entire game with the exception of the eighth and tenth innings when Andresen landed a double and a triple to spoil his record. Greer fanned 13 men but was nicked for nine safe blows. E. Lang held the Aggies to two hits, both of which were scratch blows.

The Aggies journey to Lawrence

for a two game series with the Jay-hawkers Friday and Saturday. K. U. has not won a valley game so far this season.

THREE STATES ENTERED FOR HIGH SCHOOL RELAYS

Entries from Iowa, Oklahoma and Kansas in First Seven Filings.
Open May 16

High schools from three states are represented in the first seven entry blanks to be returned for the Fourth Annual Missouri Valley Interscholastic relays, to be held on Stadium field, May 16. The third Annual Valley Interscholastic Tennis and Golf tournament also is getting its share of attention, two of the first seven schools to enter the track meet having sent back tennis and golf entries also.

Woodbine, Ia., high school and Rosedale of Kansas City, Kan., were the first schools to enter, followed by four Kansas high schools, Sabetha, Burlington, Glasco Rural high school, and Cherryvale.

Woodward, Okla., which made a good showing in the meet last year by winning two relays, has started a team in three relay events this year, the mile, two-mile, and medley. The Oklahoma school now holds the mile and medley challenge cups. Woodbine, Iowa, is sending a half mile and mile relay team, with individual entries in the 12-pound shot, 100-yard dash, and discus throw.

Stadium field track here is in much better shape than at the meet a year ago, when it had just been newly constructed. A year of settling has made it much faster, and special attention will be paid it with a steam roller during the week before the meet.

The Valley golf tournament will be

played off on the eighteen hole course of the Manhattan Country club, newly finished this spring.

Nine new courts have been added to the college facilities in tennis, making a total of sixteen available for tournament play. The tennis tournament will start the afternoon of May 15 and close the afternoon of May 16.

Medals for rifle marksmanship during the past year were presented by the military department to Captain C. C. Hill, Captain D. C. Taylor, and Corporal C. A. Walt of the R. O. T. C. unit.

R. O. T. C. BATTALIONS TO COMPETE IN 8 FIELD MEETS

Winner in Saturday's and Monday's
Contests Will Receive Cup

The three R. O. T. C. battalions will compete in field meets Saturday morning, May 9, and Monday morning and afternoon, May 11. The meets will be held in the stadium, and a cup will be presented to the company winning the most points. The events will be 100-yard dash, preliminary and finals; 440-yard run, preliminary; 16-pound shot put, running high jump, and running broad

jump; 440-yard run final; tug of war semifinal; one-mile relay; tug of war final; equipment race; shuttle race; shuttle relay; caterpillar race; Go-to-it, preliminary and final; and shoe race.

Arrangements have been made to have the annual field meet in which troops from Fort Riley participated, in the fall and the R. O. T. C. field event will take its place in the spring calendar.

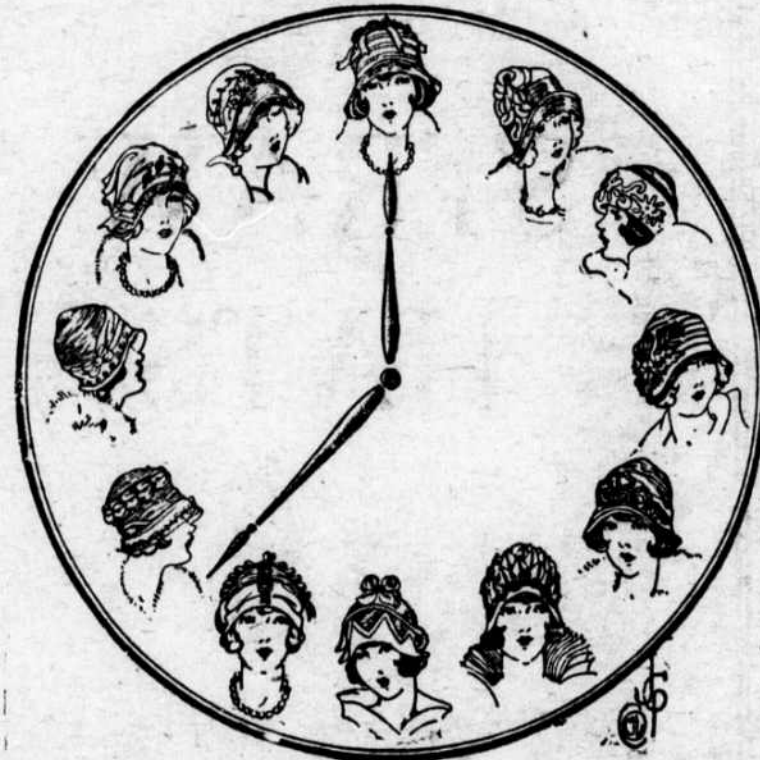

Week-end guests at the Kappa Delta house were Miss Dora Jane McColough, Solomon; and Miss Dora Dean Dakin, Wamego.

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, FRIDAY, MAY 8, 1925

NO. 62

AG FAIR TO BE MOST ELABORATE

FOLLIES WILL BE "BARBER SHOP REVUE"

Only One Rodeo Performance, at 3 O'clock, Pike Ticket Will Give Admittance

The final plans for the most elaborate Ag fair yet presented have been completed, and are to be placed in operation tomorrow. The entire agricultural division has cooperated with the management of the fair in the evolving of these plans.

A feature that is being particularly stressed is the Rodeo. This event will be held in the pasture north of Waters hall. Only one performance will be given, beginning at three o'clock in the afternoon. Pike admittance, which is fifteen cents, will include admission to the Rodeo. This plan was inaugurated to give everyone who enters the pike the benefit of seeing the riding and contests of the best Rodeo the agricultural division has yet attained.

The management of the Follies will present, tomorrow, the "Barber Shop Revue" under the auspices and direction of Earl McDonald, Dr. H. T. Hill, and Ferdinand Vollard. Critics have declared that this year's show will equal and excel the performance given last year, "St. Vitus Dance."

Farmer's Vaudeville New

The Farmer's Vaudeville is a new feature of this year's fair. Lyle Ernst has assembled a company of players who will present an unparalleled performance. The Minstrels will play in a tent in the center of the pike, and have developed some black-face end-men that have unusual ability. In addition to these three big shows there will be side shows, a merry-go-round, ferris wheel, African dip, shooting gallery, concessions and numerous other pike features.

The Yellow Dog Saloon will quench all thirsts satisfactorily. Four new formulas have been added to the standard lists. Eat stands, ice cream stands, and barbecued meat add to the menu.

The dance will be held in Farm Machinery hall, from nine to twelve, and a good orchestra has been obtained. In addition to all these entertainments the fair will present extensive educational exhibits. These exhibits are made by the various departments of the division of agriculture. An exhibit also is being made by the foreign students of K. S. A. C. in connection with this.

Detailed instructions for seeing the fair will be out tomorrow morning in the "Ag Fair Guide Book." A description of each entertainment, information about the fair, take-offs on the senior Ags, and jokes will be contained in this book which will be sold for a nickel.

Merchants Cooperating

The merchants of Manhattan are cooperating with the Agricultural division in staging the fair by offering a number of prizes. Those contributing are as follows: Stevenson Clothing Co., Robert C. Smith, Geo. R. Knostman, King's Candy Kitchen, Brown's Music Store, Wareham Theatre, Cook-Dillingham, Spot Cash, Cole's, Rogers and Bell, Palace Drug Co., College Canteen, Palace Barber Shop, Bungalow Store, Pines Cafeteria, Givlin Clothing Co., Co-Op Book Store, Hull's Hardware, Lisk Twins, Geo. Scheu, and Cooper's Barber Shop.

SYDNEY ANDERSON SPEAKS AT MILLER'S CONVENTION

Former Minnesota Congressman Will Appear on Program May 9—150 Expected

Sydney Anderson, president of the Miller's national federation, and for 18 years congressman from Minnesota, will be one of the principal speakers at the joint meeting of the two district organizations of the Association of Operative Millers, which will be held at the college Saturday, May 9.

Mr. Anderson with his "Message to the Millers of the Southwest" will fill the place on the program that was at first reserved for Secretary Jardine, who will not be present. While Mr. Anderson was a member of congress he served as chairman of the joint commission of agricultural inquiry, and national agricultural conference at Washington, and the national wheat conference and national wheat council at Chicago. He retired from congress on his appointment to the presidency of the Miller's National Federation last year.

Other important speakers at the miller's association will be, President Farrell; James Miller, superintendent

ent of elevators for the Red Star Milling company, Wichita; L. E. Call, acting dean of the division of agriculture of the college; J. Carter, superintendent for the Aunt Jemima Mills company at St. Joseph; and C. O. Swanson, head of the department of milling industry of the college.

The program for the day will include a tour of the college campus and farm, visiting the experimental fields where 500 different plots are being used for experiments on wheat; inspecting the cropping systems and pure bred livestock; golf at the country club, luncheon at Thompson hall, and attending the Ag fair put on by the students of the division of agriculture.

DOCTOR HILL SAILS JUNE 30

Is Member of American Seminar—Only Kansan in Delegation

Doctor Howard T. Hill, professor of public speaking and the only Kansan chosen to be a member of the American Seminar, will leave with the rest of the delegation June 30 for England and central Europe for the purpose of making investigations and studies of the industrial, social, political, and religious conditions in European countries.

In its fourth annual tour the American seminar has planned to spend July in England, with Toynbee hall, London, as its headquarters. Two three-hour periods will be held for five days a week, when such political and industrial leaders as Lloyd George and Ramsay MacDonald will lecture to the delegation. Saturdays and Sundays will be given to sight seeing and recreation.

After leaving England the group will go to Berlin, later visiting Munich and Dresden, as well as making short tours into Holland and Belgium. They intend to be in Geneva, Switzerland, at the time of the League of Nations conference.

The tour will end with a final week of lectures at Prague, the capital of Czechoslovakia, from which the Seminar will return directly to New York, landing here on September 1.

LIKE EDUCATIONAL PROGRAMS

Questionnaires Sent by Radio Department Reveal Preferences

Dean Umberger of the extension division of K. S. A. C. made a speech in Des Moines, Iowa, recently where he presented facts that the division had obtained from questionnaires sent out by the department. In this speech Dean Umberger summarizes the returns of questions about the radio.

According to these statistics it was found that out of the 123 people questioned 118 preferred educational programs while five preferred entertainment; 94 would rather listen to two five-minute talks while 24 liked four seven-minute talks better. This was a surprise to most of the department, Dean Umberger said. The people were evenly divided about their choice of trained readers or authors, each receiving 59 votes. Thirty-eight preferred noonday programs and 68 evening programs.

These questionnaires provided information which the extension division will use in preparing future radio programs.

TWENTY ENTER HIGH RELAYS

With Two Weeks to Go, List Is Very Heavy

Twenty teams from four states have entered the Fourth Annual Missouri Valley Interscholastic relays carnival, which is still nearly two weeks off, and entries are coming in to Coach C. W. Bachman so rapidly as to make the breaking of last year's high mark of seventy teams from five states sure.

Interest in the relays is more widespread this year than ever before, and inquiries are being received every day from high schools all over the Missouri valley concerning the meet. Omaha Central high school, Omaha, Neb., has indicated that it may make the trip, along with several other Nebraska schools, two of which have sent in entry blanks. The time limit for returning of the blanks is midnight of Monday, May 11, which will give contestants in the Kansas State high school track meet time to enter.

Entries so far are as follows: Track—Kansas—Coffeyville, Saffordville, Council Grove, Chase County Community, Rosedale, Protection, Sabetha, Burlington, Abilene, Glasco Rural, Medicine Lodge, Oswatimie, Wellington, Ellsworth, Manhattan, and Wamego.

Iowa—Guthrie Center, Woodbine, Nebraska—Neigh, Beatrice, Oklahoma—Woodward, Missouri—Carrollton, Golf—Salina, Rosedale, and Manhattan, Kan.

Tennis—Salina, Cherryvale, Abilene, El Dorado, Wellington, Manhattan, and Ellsworth.

PLAY JAYHAWKS THIS WEEK-END

TWO GAMES WITH KANSAS TODAY AND TOMORROW

Dope Shows Aggies in Double Win—Conroy Scheduled for First Game, Greer for Second

The Aggies open a two game series with the Jayhawks this afternoon at Lawrence, playing one game today and a second tomorrow. The games previously were scheduled for Thursday and Friday but wet grounds forced a postponement.

Conroy is due to pitch today's game unless weather conditions force Corsaut to start Caraway. Conroy was hit hard in his last start but as he has the best record of any member of the flinging staff he should be a favorite to win.

Greer Goes Tomorrow

Joe Greer is hoped to twirl the second game. Greer has one win and two defeats out of three starts this year but as one of these games was lost due to an excess of errors, and the other was an extra inning affair there is a good possibility of the Aggies winning both games.

Kansas has not won a conference game so far this season and as the Aggies downed the Jayhawks in three games last year the dope gives Corsaut's nine a double victory.

Twelve Men on Trip

Twelve men made the trip to Lawrence for the series. The men who went were: Karns, Greer, Conroy, Miller, Brion, Meek, Huey, Cunningham, Harter, Lutz, Munn, and Caraway.

Lutz has been shifted to right field since the series with Nebraska and Meek has been holding down second base. Harter is scheduled to replace Cunningham in center field due to his improvement in hitting.

The Aggies play a return game with St. Marys Monday on the varsity diamond. The game was scheduled for some time ago but was postponed until Monday. Byers or Caraway are the most likely starters in this game. St. Marys has a 5 to 1 victory over the Aggies this season and is no doubt one of the best hitting teams in the state. They recently defeated Southwest 22 to 2.

ALUMNI BANQUET AGAIN COMMENCEMENT FEATURE

Dean Seaton in Charge—President Farrell will be Presented to Graduates and Students

Participation of the K. S. A. C. alumni association in the commencement exercises will be featured again this year by the senior-alumni banquet to be held in Nichols gymnasium on Wednesday evening, May 27, at 6 o'clock. This will be the second time that the alumni entertainment of the graduating class has been in the form of a banquet. Last year the banquet was given in the gymnasium and was attended by 550 graduates and alumni.

Previous to last year the alumni association has held a luncheon for the graduates immediately following the granting of the degrees. The evening affair proved to be so much more appreciated last year that it was decided to make the dinner an annual feature of commencement.

Dean R. A. Seaton, '04, of the division of engineering, is chairman of the general committee in charge of the banquet.

W. E. Grimes, '13, head of the department of agricultural economics and president of the alumni association, will be toastmaster. The program has not yet been fully arranged but several numbers have been definitely assured. Representatives from both the '00 and '15 classes will appear on the program. One of the members of the recently appointed board of regents, which takes charge of the state educational institutions next July 1, will deliver an address.

Acting President F. D. Farrell will be presented to the alumni of the college in his new position.

Another feature of the banquet program will be the introduction of those families that have had representatives in K. S. A. C. for more than one generation. Both the graduates and their parents, where either of the parents is an alumnus or former student of the college, will be introduced. The Thackrey family, which has the proud record of more than 40 years with an unbroken attendance at K. S. A. C., has been asked to hold a family reunion if possible and to attend the banquet in a group. The committee has notified them that

special tables will be set aside along with those of the reunion classes if they find it possible to attend in a group.

At the close of the banquet a mixer will be held in the gymnasium for the graduates, the alumni, and faculty, to be followed later by dancing.

A public address system or loud speaker is being purchased by the college and will be installed in the gymnasium so that all persons attending the banquet may hear the program distinctly. This plan was used very successfully at the banquet in honor of W. M. Jardine after his appointment as secretary of agriculture when the same sort of loud speaker was borrowed by the college.

Alumni who are not fortunate enough to be able to attend the banquet but have a radio may hear the program from Station KSAC, according to the present plans. The extension division will cooperate with the alumni association in broadcasting the program, providing conditions for radio reception are good, and there is likelihood that a large number of alumni will be able to listen in.

BIG SISTER PLANS UNDER WAY

Breakfast and Pledge Service Will Be Held Sunday Morning

Plans for the Y. W. C. A. Big Sister work for next fall are being completed by the Big Sister Captains under the direction of Charlotte Swanson, chairman; and Miss Lois Wildy, chairman of the Y. W. C. A. A Big Sister breakfast and pledge service will be held Sunday morning, May 10, at eight o'clock in recreation center.

At this meeting about 250 girls will pledge their services to the Big Sister work for next fall. According to Miss Wildy not enough girls have signified their willingness to serve as Big Sisters and those who wish to serve are requested to send their names in at once.

Tickets for the breakfast may be purchased for thirty cents from the Big Sister captains or at the Y. W. C. A. office. All girls are invited to attend.

The Big Sister movement was instituted at K. S. A. C. about nine years ago and has been steadily progressing. The service is to give every freshman girl who comes to K. S. A. C. a Big Sister to help her get started in college.

The committees in charge of the work for next fall are: train, Ruth Long, Lillian Kammerer, June West; room, Gladys Stover, Helen Jerard, Irene Barner; registration, Betty Elkins, Josephine Brooks, Marie Farmer, Merle Nelson; entertainment, Sue Burris, Aca Hart; publicity, Margaret Schipert, Winnie Button; and hospitality, Fern Harris and Juanita Williams.

In addition to the Big Sister breakfast May 10 the Y. W. C. A. program for the remainder of this semester is: May 5—a skit, "Where Does Your Summer Go?" May 12—"The Greatest Challenge," Dean Margaret Justin. Yesper tea in honor of mothers and friends. May 19—Senior meeting in honor of high school seniors.

HILL LEADS RIFLE SQUAD

Senior Vet High Point Man—Taylor and Walt Next

(By P. A. Shepard, Junior in E. E., R. O. T. C. Rifle Team)

V. C. Hill, senior in Veterinary Medicine, was high point man on the Aggie rifle team during the season just finished. The ranking was on the basis of the total score for all the season's matches. D. C. Taylor and Cecil Walt ranked second and third.

The team did exceptionally well, officers here declared, considering that Captain W. P. Walt, coach, had a squad of only twelve men from which to choose a team of ten.

Several new men showed up well and enabled the team to win two-thirds of the matches fired, to place fourth in the Seventh Corps Area shoot, and to compete in the National Intercollegiate Match.

These men were on the squad: V. C. Hill, Ernest Miller, D. C. Taylor, J. H. Roberts, Cecil Walt, M. H. Johnson, E. E. Howard, O. K. Correll, E. Martin, N. Meek, T. H. Long, H. A. Senior.

NEW COLLEGIAN STAFF NAMED

Thackrey, Shideler, and Ferris Direct Paper Next Fall

The election of Collegian staff members for next semester was held Wednesday noon at the regular meeting of the Collegian board. The following men were named: Editor-in-chief, Russell Thackrey; Managing Editor, Fred Shideler; Business Manager, Gerald Ferris.

All three men are sophomores in Industrial Journalism, and have been prominent in school activities for the

S. S. G. A. COUNCIL REFUSES PETITION FOR NEW ELECTION

K FRATERNITY PROTESTS TO TAKE MATTER TO FACULTY COUNCIL

past two years. Thackrey has been on the Collegian staff since he entered college, and has held the positions of sport editor and associate managing editor, in addition to having been assistant city editor of the Manhattan Chronicle. He was reporter for some time on the Kansas City Kansan and also has had considerable experience as correspondent for a number of large city newspapers. His home is in Manhattan.

Fred Shideler is from Girard, and he has done newspaper work in that town for several years. Since he has been at K. S. A. C. he has held positions of associate editor, managing editor, and assistant editor of the Collegian. Shideler is prominent in college activities and was recently elected secretary-treasurer of the Mid-West Student conference.

Ferris has also had experience in newspaper work, both on the Collegian and other papers. For some time he was on the advertising staff of the Capper Farm Press at Topeka, and during the past semester he has been assistant business manager of the Collegian. His home is in Chapman. Further appointments of staff members probably will not be made until next fall.

JUNIORS AND SOPHOMORES UP

Both Teams Have Won in Women's Baseball Series

The junior women's baseball team defeated the senior team May 6 by a score of 27 to 24. This was the second of a series of games to be played this month by the class teams. The first game, between the sophomore and freshman teams, was won by the sophomores, 31 to 8, May 5.

The schedule for the remainder of the season is as follows: May 8—Freshman vs. junior, May 11—Sophomore vs. senior, May 12—Freshman vs. junior, May 16—Sophomore vs. senior. All games will be played at 5 o'clock except the one on May 16.

Those on the teams are: Freshman—Hazel Dweley, Captain; Carrie Brandesjesky, Dorothy Joines, Reva Lyne, Jean Rundle, Marjorie Streeter, Martha Smith, Maurine Burson, Lorna Tyner, Mildred Huddleston, Alice Bell, Dorothy Brooks, Clara Dean, and Eldelle Johnson.

Sophomore—Dorothy Zeller, Captain; Helen Batchelor, Lena Crider, Mildred Edwards, Gladys Hawkins, Merle Nelson, Alice Nichols, Clara Odell, Lorraine Smith, Elsie Bergstrom, Ruth Hubbard, Inez Jones, and Marie Farmer.

Junior—A. Wickham, Captain; Vera Alderman, Thelma Coffin, Ida Conrow, Alice Englund, Rachel Herley, Ann Jacobs, L. Magaw, Dorothy Stahl, Josephine Trindle, Kathryn Whitten, Helen Hale, and Esther Jones.

Senior—Ethyl Danielson, Captain; Opal Gaddie, Nille Kneeland, Blanche Brooks, Lona Hoag, Laureda Thompson, Grace Davison, Florence Haines, Catherine Bernhisel, Hilmarie Freeman, and Inga Ross.

K. S. A. C. PLACES AT EMPORIA

Takes First Place in Both Extremepore Contests at Convention

K. S. A. C. placed in every contest at the regional Pi Kappa Delta convention in Emporia the first of this week. Seven schools were enrolled in the convention which began Monday morning and ended Tuesday evening.

The Aggie representatives entered the public speaking contests, no debate team being sent. In the men's extempore contest Robert Hedberg placed first and Frank Glick sixth. Frank Morrison placed third in the men's oratorical. Helen Correll placed second in the women's oratorical. In the women's extempore contest Helen Correll placed first and Mary Marcene Kimball fourth.

The following people from K. S. A. C. attended the convention: Prof. and Mrs. H. B. Summers, Robert Hedberg, Frank Glick, Helen Correll, Mary Marcene Kimball, Frank Morrison, and Emil Sunley.

Florence Mirick, '20, now teaching home economics in the high school at Chapman, and directing the work in the school cafeteria, was a recent visitor at K. S. A. C. Florence True, '24, is also a member of the Chapman school staff.

VOTE OF GOVERNING BODY IS 7 TO 4 AGAINST MOTION FOR NEW VOTE

ACTUAL CHARGES ARE TECHNICAL

Letter Men Are Objecting to Results in Order to Promote More School Spirit and to Make S. S. G. A. More Powerful

The S. S. G. A. council last night voted down a petition for a new election presented by the K fraternity. The vote was 7 to 4. The request for a new election will now be taken before the faculty council and to President F. D. Farrell, according to K. E. Yandell, representing the K men.

Technical Grounds

The grounds for the election contest are purely technical and relatively unimportant, according to Mr. Yandell. The grounds are: 1. That the place and materials for the election were arranged by the president instead of by the secretary as provided in Article 4, Section 4, of the constitution. 2. That the judges were appointed by the president instead of by the secretary as provided in Article 4, Section 4, of the constitution. The principal reason of the K men in objecting to the results of the previous election is for the sake of school spirit. The following statement by Mr. Yandell explains the matter:

Yandell's Statement

"The spirit of this election contest is not based on mere technicalities but on the interest which it will create in the student body as a whole. The technicalities used are relatively unimportant but have been presented as the necessary legal means of accomplishing the purpose. The close margin of 3 votes together with the fact that only 14 per cent of the entire student body voted are sufficient to warrant reconsideration of the question. By means of this contest the K fraternity hopes to stimulate more school spirit by causing the backers of each candidate to give the qualifications of the men they support to the students in general. As it is at present only a small number of voters know who the candidates were. This election contest also is an attempt to make the office of S. S. G. A. president more than merely a figurehead. If a sufficient amount of interest is shown in the election and the candidate elected who is the choice of the majority of the students the S. S. G. A. is bound to become stronger.

Only 14 Per Cent Vote

"At the recent midwest student conference held here it was discovered that in all of the 30 schools represented K. S. A. C. students cast the smallest percentage vote in student elections. At least 40 per cent of students in all the schools represented with one exception voted in elections. One school reported 25 per cent of the student body voting. At K. S. A. C. only 14 per cent voted at the recent election.

If a new election is obtained by the K men it must be held soon as the next year's officers must be installed on or before May 15.

SCHOLARLY ATHLETES

Kansas State athletes receive better grades in scholastic work than do the majority of the men who are members of social fraternities.

This fact is strikingly illustrated by the statistics shown in the grade rankings of all organizations on the campus as recently printed in the Collegian. The average grade of the members of the K fraternity, which is made up of men who have given the time and ability that is required for a letter award in a major sport, was 77.59 per cent. Five of the social fraternities were listed with average grades higher than this and 20 were ranked below. Therefore all of the K men received better average grades than four-fifths of the social fraternity members.

The conclusions to be drawn from such statistics are obvious. The popular conception that most athletes are "dumbbells" is thoroughly exploded. Good scholarship is shown to be in tune with athletic enterprise. The objection to athletics, based on the supposition that practice takes too much time from study, is removed.

These statistics are sufficient to give athletics a tremendous boost. The value of physical education, as received in intercollegiate competition, is almost universally recognized as worth while. With the main obstacle in the path of further advance removed through the proven compatibility of athletics and scholarship, physical education should receive an increasing amount of moral support from its former enemies.

"SHOULD BE ONE STANDARD OF JUSTICE," SAYS COLLINS

Forum Speaker Discusses Race Problems at Monday Meeting.

"How much reality is there in the white brand of Christianity?" This was the question asked by George "Shorty" Collins in his talk at the forum Monday afternoon. "There should be but one standard of justice, for all people, and in order to have this standard, it will be necessary to accept the whole human race as one brotherhood, and in this way follow the teachings of Christ."

Mr. Collins blames the American press for a great deal of the injustice between races. He says that it paints the character of a race in such a light as to bring out the inferiority of the negro group. There is a great deal of conflict in the world today in regard to racial problems, and it is up to America to be an example of human understanding in this question.

Following the discussion by Mr. Collins, there was an open forum in which some problems relating to college life, were taken up by the group.

We've waited a long time to spring a simile in this column, but the moment is now at hand. The figure may not be very good, but just the same it is a figure.

Shyly and uncertainly, like the hands which pop up in a college recitation class, pins are blossoming forth on the blouses of the sweet young things around the campus.

The appalling increase in the number of pin wearers shows one thing for sure. Some of the dear brother males have been unfortunate enough to get their stuff across in first class shape.

May heaven help their ignorant optimistic souls through all their coming trials and tribulations! They just don't know what they're doing.

We are speaking of the men, not the women. The other sex don't deserve pity. They don't deserve anything, but they always get it.

Whenever some fair enchantress is

exposed to the public eyes and adorned with a pin her sisters in crime immediately gather about and exclaim for half an hour over the beauty of the pin before one of them happens to inquire the name of the victim.

Do they deserve pity?

Well, the term approaches an end and we must be lenient with the girls. Really, it would be rather gentlemanly to apologize to them for some of the cracks taken at them. But then, we are not gentlemanly.

We are glad to note that Prexy is no longer the acting president but the real Prexy. Perhaps some more of the proffs will follow his example and quit acting.

Harry got up the other morning, remarked that winter was setting in a bit early this year, and then went back to bed. He told the dean he had a sudden attack of chilblains and got an excuse out of it.

Signs of summer:
The final examinations schedule.
Graduation announcements.
Engagements.
And bill collectors.

RADIO STORIES EASILY SOLD

Sam Pickard Tells Journalists of Obtainable Stories

Two hundred and fifty salable radio stories can be obtained from the extension division, according to Sam Pickard, publicity director of the radio department, in his talk before the journalism department Thursday afternoon.

Because of its novel uses, such as the school of air, the boys' club, opening exercises for rural schools, and housewives' courses, the KSAC station can be made the source of several exceptionally interesting articles.

"Stories that link some actual in-

cident with the station will find the best sale," said Mr. Pickard. As an example, one farmer wrote into the station last winter saying that, because he had heard one of Doctor Dykstra's radio lectures, he had been able to save five sick cows. Such incidents as these, linked with stories of Station KSAC, are fairly sure of finding a market.

TO EDITORIAL CONVENTION

Miss Polson will Speak at Topeka Saturday Before State Editors

Miss Izil Polson of the Journalism department will discuss "Women in Journalism," Saturday morning at the Kansas State Editorial Association convention which is to take place May 8-9 at Topeka.

Although Professor Rogers and Professor Salisbury will attend the convention also, Miss Polson will be the only speaker from K. S. A. C. She will give special attention to conditions in Kansas journalism.

Some of the other speakers on the program are: William Allen White, Ben S. Paulen, E. W. Howe, and Tom McNeal.

Showing of English Posters

Examples of English railway posters which have created something of a stir recently in the fields of art and of advertising are on display this week in the galleries of the department of architecture at K. S. A.

C. These posters, many of them by members of the Royal Academy, are products of the British movement to make commercial art conform to the best standards of craftsmanship and design. They are a revelation to Americans who have come to regard the photographic atrocities on bill boards and in street car panels as typical of pictorial advertising.

Kappa Phi Program Tuesday

"Missions" was the topic of the Kappa Phi program Tuesday evening. The speakers were Z. K. Surmelian, Armenia, whose subject was "Armenia," and G. A. Ajwani, India, who spoke on "Progress." Mary Henry had charge of the program. Frances Knerr led devotionals and Alfred Zeldler gave the music numbers. Agnes Horton, president, was elected official delegate to the national council of the club to be held in June at Hollister, Mo.

Saturday, May 9, 1925

Gamma Phi Delta spring party, Elks.
Ag Fair dance, Farm Machinery hall.

Sigma Phi Epsilon entertained Sunday with a mother's day dinner. The guests included: Mrs. Vandell, Mrs. Le Vitt, Mrs. Clark, Mrs. Harter, Mrs. Young, Mrs. Murray, Mrs. Fairman, Mrs. Bloomberg, Mrs. Stalker, Mrs. Wilson, Mrs. Eldred, Mrs. Stout, Mrs. Deal, Mr. and Mrs. R. J. Adams, Mr. and Mrs. A. R. Dean, Mr. and Mrs. W. H. Butcher, Mr. and Mrs. C. Byers, Miss Zelma Butcher, Miss Gerline Young, and Miss Margaret Bloomberg.

Dinner guests at the Gamma Phi Delta house, Sunday, were Mr. and Mrs. C. W. Colver, Mrs. Fred Chaslain and daughter, Lucille, and Miss Esther Becker of Topeka.

Mrs. J. T. Willard entertained, Wednesday, with a luncheon in honor of Mrs. W. M. Jardine, who leaves soon for Washington. A feature of the entertainment was a mock luncheon which preceded the actual luncheon. The tables were attractively decorated with iris and lilies-of-the-valley and the color scheme of purple and white was carried out in the menu. The guests included the wives of the deans of the departments of K. S. A. C. and a few additional guests.

Mr. and Mrs. Eric Englund entertained Tuesday evening with a dinner bridge at the Country club. The guests were the members of the agricultural economics department.

Purple Masque held pledge services Thursday for Helen Bennett, Norton; Gene Conklin, Hutchinson; Ralph Mohr, Kansas City, Mo.; and Lionel Holm, Denmark.

Farm House fraternity entertained at dinner Sunday for the following guests: Miss Ivy Nudson, Louise Hattery, Velma Morris, Lola Brinker, Frances McColin, Margaret McClintock, Vera Warnock, and Bertha Fritze.

Farm House fraternity announces the pledging of Earl F. Carr, Byers; and F. F. Higbee, Lamar, Col.

Week-end guests at the Kappa Kappa Gamma house will be Mrs. Wilson, Kinsley; Mrs. Austin; Salina; and Mrs. Holsinger, Kansas City.

The young people of the Congregational church entertained last

Wednesday evening in the church parlors in honor of the seniors of their organization who are graduating this year. Toasts were given by Philip Edwards, Dorothy Davies, and Dr. C. O. Swanson. A take off on the seniors in the form of a stunt was given by several of the underclassmen. James McDonald was toastmaster.

Members of the Ionian Literary society will enjoy their annual 10 camp at "Doc" Wagner's farm near Stockdale Saturday, May 16.

Vespers Skit Last Tuesday

A skit, "Where does your summer go?" was given in Vespers Tuesday. Various methods of spending one's vacation were dramatized. The forming of Bible study groups, taking active part in social activities, supervision of playgrounds, reading of good literature, and attending the Estes Park conferences held August 22 to September 1, all were presented as excellent ways to spend the summer. Mildred Huddleston, Dorothy Johnston, Mary Louise Clark, Lois Grasty, and Glyde Anderson presented the skit.

"Get a Pin Week"

Has a Good Start Again This Year

This week has been set aside as the first annual Aggie "Get a Pin Week." Hereafter the week nearest the first of May during which the moon will be full will be set aside as such a week, said a prominent member of one of the leading sororities.

The slogans are "Go Over the Top" and "Make It Unanimous." Already results are being shown in the fact that pins are going out at the rate of one a day. There are just a few days left. Let's go, Aggies!

The town has been divided into wards with a captain over each ward. Each captain will use any number of volunteers to canvass the streets. The purpose of the canvass is rather hazy, but then, it is customary to conduct "weeks" in this manner, we understand.

We are trying to get the authorities on "wrestling" to supply data

for a pamphlet concerning the best holds to use in securing the pins and these probably will be off the press sometime soon.

Some are asking if "buttons" will do. Contrary to all earlier training as to the respectfulness of the substituting of pins for buttons, in this case it is the pins we're after. Fraternities will undoubtedly do all the initiating possible during this week.

K. S. A. C. has the name of being the greatest matrimonial agency in the world. Let's verify the rumor.

SIGMA XI MET FRIDAY

Annual Banquet Held Last Week—Many Visitors Here

The third annual banquet of the Sigma Xi club of the Kansas State Agricultural college, with several visiting members of the Sigma Xi chapter at Kansas university in attendance, was held last Friday evening. Sixty-two, including 15 from Kansas university, attended. Dr. R. K. Na-

bours, president of the local club, acted as toastmaster.

Dr. Raymond C. Moore, head of the Kansas university department of geology, and state geologist, spoke on "Contributions of Geology to the Progress of Science." Dr. Noble P. Sherwood, head of the department of bacteriology at Kansas university, spoke on "The Service of Medicine in the Progress of Man." Prof. J. W. McCulloch of the department of entomology at K. S. A. C. discussed "The Advancement of Science with the Study of Insects," and E. C. Miller of the department of botany at K. S. A. C. spoke on "The Study of Plants as an Aid in Scientific Progress."

THREE RADIO SETS TO BE GIVEN STATE ORGANIZATIONS

Piano Contest Is to Radioize Rural Schools

A first class radio receiving set will be given to each of three organizations in the state of Kansas, hav-

ing the largest number of radio sets in their county schools by October 1. The extension division is in charge of a statewide effort to radioize the rural schools.

The contest will be sponsored by K. S. A. C. and the Kansas City Chamber of Commerce. Kansas City distributors of radio parts are to give the prizes. State organizations will sponsor the installing and buying of radios in their counties.

Tree Planting Campaign at Pratt

The Lions club has started a tree planting campaign at Pratt with the idea of improving the country. Questionnaires were sent out to school teachers over the different districts and favorable replies were received. Twenty-four districts have promised to take care of the shrubs and trees after they have been planted. One or two members of the club will be responsible for each district, which will receive four elms, two red cedars, and enough spirea to plant around the schoolhouse. The cam-

paign was planned by Charles H. Stenison, county agent at Pratt. The demonstration was given before the Lions club by Ray Wick, extension landscape gardener, who gave suggestions and methods for planting and placing the trees and shrubs.

MEET TIGERS ON TRACK SATURDAY

SECOND DUAL MEET OF SEASON AT COLUMBIA

Same Team Entered as for K. U. Meet. Close Battle Expected on Track and Field

The second dual track meet of the season for the Aggies will be with Missouri University tomorrow afternoon at Columbia.

Practically the same team which competed at Lawrence last Saturday will be entered at Columbia tomorrow, according to Coach Bachman. Two men, P. A. Axtell, Argonia, and C. P. Foote, Wichita, who did not make the trip last week, will do so tomorrow.

Results from other meets in which the two teams have been entered would give Missouri a slight edge on the final count, but there were so many events in all of these meets in which neither school was represented that neither school can figure out with any degree of confidence where it will stand, when the meet is over.

Middle Distances Safe

The events which the Aggies feel most certain of winning are those middle distance races in which Balzer and Kimpert are entered. The half-mile, mile and two-mile races were won easily from K. U. and heretofore the Aggies have had little trouble in out-distancing Poage, Missouri's distance man. Another silver lining for Aggie hopes is made brighter because of the fact that the Kansas State relay team ran away from the Missouri relay team at the Missouri valley indoor meet.

In the sprints, Randall Shaw, who was leading the K. U. stars in the hundred yard dash, until he pulled a tendon, will be greatly missed. However, L. L. Davis, who proved to be the surprise of the meet when he tied Graham in the low hurdles, is likely to show the Tiger sprinters a race. Davis has been going through some stiff workouts this week and has had no trouble in bettering the time he made at Lawrence. His competition will be provided by Cunningham and Simpson or Keebles, all of whom are regarded as dangerous men by valley hurdlers.

P. R. Carter, Aggie vaulting star, again will meet Lancaster, Missouri

star who won the indoor pole vault at Kansas City. F. A. Brunkau, weight man, will meet Richardson, who took the shot put at the same meet with a toss of almost 47 feet.

John Gartner also will meet a man who placed third in the discus throw at the Drake relays.

H. A. Brockway and Captain K. G. Knouse are slated to win the 440-yard dash, but Ponder of Missouri is picked to take the half-mile, although Axtell or Coleman may lead him in. Both the high jump and broad jump should fall to Missouri with little effort on their part.

FORMER "PREXY" RIDES AGAIN

Dr. Jardine Will "Top 'Em Off" at the Mandan Roundup

Former President Jardine still is a "mean hombre" with an "out-law," he said.

Last week he accepted a challenge to ride in a broncho riding event at the Third Annual Mandan Roundup to be held at Mandan, N. D., July 2, 3, and 4.

An old friend who was with Mr. Jardine during the "cow-punching" days recently bet the secretary of agriculture that he couldn't stick on a broncho. Mr. Jardine immediately called the bet and is scheduled to appear on as many bronchos as can be led before him during the riding contest.

Knott Is Boxing Inspector

E. A. Knott, director of physical education at the college, and N. L. DeArmond of Manhattan have been appointed state boxing inspectors at large by the state boxing commission. These men are to inspect boxing matches in various cities in the state. The commission has ruled that matches of this kind are not to be called prize fights, and that in instances where an admission is charged, bouts must be under supervision of a local inspector. Local inspectors are to be appointed in all towns where boxing matches are held as a regular event.

Salome, from Egypt, Will Dance Monday for Royal Purple

Salome, beautiful Egyptian maiden, arrayed in a costume which is an exact replica of that worn by her immortal ancestor when she danced before King Herod, will appear on the Aggie campus next week.

Her services have been secured by Editor B. C. Harter and Business Manager G. A. Read of the Royal Purple, who have recently returned from Jefferson City, Mo., where they have been reading proofs on the big yearbook.

Salome's duties will consist of

further disseminating knowledge of the book; she will explain the Egyptian motifs which are to be used in it, and subsequently will assist in the sale of the few extra books which have been ordered. The book this year is to have an eight page, four color, view section, a new feature for the Royal Purple. The proofs of the 434 pages are showing up very well, and the first copies will arrive about May 20.

Subsisting on the fruit of the lotus,

Salome is so fascinatingly different that she will make you forget everything else when, next week, she graces the Aggie campus with her presence, Read declared.

Potato Outlook Good

E. A. Stokdyk, extension specialist in marketing, and Prof. L. E. Melchers of the botany department, made a tour of the Kaw valley potato fields last week. Mr. Stokdyk reports that the present crop is ahead of what

it was last year, although the stands are not as even. There has been no frost injury in the Kaw valley, and there are prospects for a good crop. The reduction of approximately 8 per cent in the Kansas potato acreage is more than offset by a reduction of 12,000 acres in Virginia and a general reduction all over the south, so that Kansas potato growers may expect a fairly active market.

FRESHMAN BASEBALL SQUAD SHOWING UP LIKE REGULARS

"Ding" Burton's Crew Making Varsity Dig to Win—Infield Hits and Fields Well

One of the best freshman baseball squads in several years is reporting regularly for practice on the field west of Calvin hall. Thirteen men have survived the cutting of the squad by Coach "Ding" Burton and all these have been outfitted with new suits.

The infield is considered to be nearly equal to that of the varsity, every member being an exceptional hitter as well as a good fielder. Skirmishes with the varsity are held regularly, with the freshmen often coming out on the long end.

Valley rules prohibit the freshmen from taking on outside games, so it is impossible to tell how the youngsters will shape up against unknown competition. With the advantage of knowing the varsity style of play, however, they are making a good record for themselves.

Coach Corsaut is not worrying about his replacement material for next spring. He has intimated that some of the regulars might find stiff competition for their places next year if the freshmen shape out as they have started.

The 13 men who are on the squad and their positions follow: Paul Pfuetze, catcher; F. L. Hawkins, pitcher; Eugene Erwin, first base; Edward Denny, second base; Frederick Ford, third base; Howard Smith, short stop; Albert Edwards, center field; Conrad Platner, outfield; S. A. Michelstetter, outfield; Roger Daye, infield; and L. S. Pucell, outfield; Guy Patterson, outfield.

SHORT COURSE IN COACHING

Bachman, Corsaut, and Hanley of Haskell Will Have School

An abbreviated three weeks' coaching course will be offered at K. S. A. C. immediately following the close of the second semester, according to announcement by Head Coach C. W. Bachman. Instruction in two styles of football and in the short pass system of basketball will be given by Coach Bachman, Coach Dick Hanley of Haskell Institute for Indians, Lawrence, and C. W. Corsaut, basketball coach of the Aggies.

Coach Hanley will instruct in the Warner system of football, which has made the Indians one of the most widely known football teams in the United States. Bachman plans to teach the Notre Dame style of football play evolved by Knute Rockne in building up the national champions.

Corsaut is to give instruction in the short pass system of basketball, in use for the past two seasons by the Aggies, and now the most popular method of play. With this style Corsaut coached Kansas City, Kan., high school to a national championship two years ago, and has kept the Aggies in the championship contender class in the valley.

The course has been planned as the result of repeated requests on the part of high school and college coaches for some method of improving their athletic knowledge during the summer without spending the entire warm season at it. College credit will be given in the courses, and the men are expected to spend an entire day on the work every day of the three weeks.

The regular summer coaching course at the college will be carried on as usual, with instruction in football, basketball, and track coaching.

NO. 63

AGGIES WALLOP ST. MARYS 10-1

CARAWAY WINS FIRST START
AND GAINS REVENGE

St. Marys Plays in Hard Luck and
Aggies Show Best Form of
Season

A wicked curve ball delivered with excellent control by Caraway and eight men out of nine hitting a total of 14 safe blows, accounts in brief for the Aggies' overwhelming win over St. Marys yesterday by a score of 10 to 1. It was the Aggies' game from the second inning, when runs by Harter and Huey sent the home team in the lead. Two more runs were counted in the third on a double by Miller, a triple by Karns and a single by Brion.

Five runs were tallied in the fifth on a double by Lutz, two errors, and singles by Brion, Munn, and Meek.

St. Marys Scored One

St. Marys' lone tally came in the seventh after Byers had replaced Caraway. Two errors and a single score the run.

Caraway, starting his first game for the Aggies, held the Saints to two hits in six innings besides retiring six men via the strike-out route. He was replaced by Byers in the seventh in order to save him for one of the games with Kansas today. Byers whiffed two and allowed one hit in the last three innings.

The victory was a pleasant revenge for the defeat the Saints handed the Aggies earlier in the season and also gave the Aggies the credit of having defeated one of the strongest teams in the state. The Saints hold a double win over the Topeka team playing in the Western league.

The Aggies played the best ball of the season, according to Coach C. W. Corsaut. A change in line-up put the players on their toes, and this, combined with a bad day for McAvoy, St. Marys' pitcher, set them all on high.

Umpire, Hurley, Clay Center.

Four games in the next three days is the schedule of the Kansas State baseball nine. A double header with Kansas at Lawrence is slated for this afternoon and a two game series with Oklahoma on the varsity diamond is to be played tomorrow and Wednesday.

The series with Kansas was listed for last week but was postponed on account of rain. The whole squad left this morning for Lawrence to battle with the Jayhawkers.

Greer is the most likely candidate to pitch the opening game, as he will have to be used in one of the games against Oklahoma. Greer has had more than a week's rest and should be in excellent condition.

Caraway is to be given his first chance to start a Valley game when he takes the mound in the second game. He is considered the best curve ball pitcher on the squad and as he held Missouri runless in three innings he should be effective against the Jayhawkers.

The Jayhawkers have not won a valley game so far and unless the dope is unauthentic the Aggies should win both games.

Conroy is to be given another chance to shut out the Sooners when he takes the mound in the game tomorrow. In his last start against the Sooners he allowed seven hits and held them scoreless. With the confidence of having won one game from the Sooners, besides the fact that he is playing before a home crowd, he should again prove his superiority and win the first game.

Greer is slated to twirl the second game, even though he will only have one day of rest after his start against Kansas. Greer lost his first game to the Sooners recently, but as the game

was played on muddy grounds and the team made an excess of errors it was partly due to hard luck.

Several shifts have been made in the lineup in an effort to strengthen the fielding and hitting. The most important change is the playing of Don Meek on second and shifting Lutz to right field. Harter is to be played in center field in place of Cunningham.

Stadium Fund \$20,600
Subscriptions to the Memorial Stadium drive have reached \$20,600, according to V. E. Whan, chairman. Of the 32 student organizations at K. S. A. C. 26 have 100 per cent subscriptions to the stadium fund.

AG FAIR DRAWS HEAVILY— 3,500 PAID ADMITTANCES

Injury to Campbell Only Flaw—
Real Benefit Spirit of Coopera-
tion, McCampbell Says

The Ag Fair this year attracted a total of more than 3,500 persons. Manager Walter J. Daly, senior in agronomy, announced today. Gate receipts amounted to more than \$1,800, Daly said.

In spite of threatening weather, it was decided to go ahead with the plans for the fair, and warm sunshine in the afternoon justified the decision. The rodeo, which was announced for the afternoon only, was repeated at night after it was found that some of the horses used almost justified their classing as outlaws, and defied the attempts of the amateur "peelers" to ride them.

Only one accident threatened to put a damper on the gaiety of the fair, but this, fortunately, was not serious. R. O. Campbell, in charge of a horse-show stand on the midway, was struck in the cheek by a bullet from a target rifle in a stand next to his. Two small boys became interested in an argument over the rifle, and pulled the trigger in the scuffle.

Campbell lost two teeth and suffered a badly lacerated cheek as a result of the affair. He was taken to the college hospital where first aid was administered, and it was found the wound was not dangerous.

"The major purpose of the Ag fair is to teach organization and the value of teamwork, both of which are important factors in life," said Dr. C. W. McCampbell yesterday, in commenting on the fair. He pointed out that the opportunity to show the college products, and the riding and roping abilities of the students in the division, are only minor reasons.

The fair was organized and held by the Agricultural association, which is composed of all of the students in agriculture at the college. Every member has a definite job and responsibility assigned to him, and the success of the fair depends upon the efficiency of this organization.

The efficiency of this year's organization is shown by the following: At 9 o'clock Saturday morning hardly a sign of the fair could be seen on the grounds; at 12:30 in the afternoon everything was ready to start; and at 8 o'clock Sunday morning the only thing that a visitor to the fair grounds could see was three small piles of ashes.

"A great lesson in organization is learned by an agricultural student by the time he has helped in putting over the four fairs of his college course," said Doctor McCampbell.

AGRONOMY FIELD DAY, JUNE 13

Riley County Farmers Will Be Guests
of College

Farmers of the community will be the guests of the K. S. A. C. department of agronomy on agronomy field day which is planned for Saturday, June 13.

Residents of Riley county have in the past been less familiar with the agronomy farm and the work carried on there than visitors from other parts of the state or other states. The agronomy farm which was purchased by the state in 1909 occupies a half section of land and is considered to be one of the best managed and most useful farms in the United States.

The field day will give local farmers an opportunity to get acquainted with the farm and the agronomy workers. The college will furnish ice cream and coffee to the visitors.

Miss Hagenbuch to Hawaii
Miss Mary Elizabeth Hagenbuch, '20, of Troy, Kan., has accepted a position as head dietitian in Queens hospital, Honolulu. Miss Hagenbuch has been at the head of the training department of dietitians in Barnes hospital at St. Louis for the past two years. Before that time she served as head dietitian in a hospital in Springfield, Ill. Miss Hagenbuch will sail for Honolulu on June 1.

The Wrestling Number Is Here Hot Discussion in Staff Meeting

"Ya ain't goin' to call it that, are ya?"

"Sure, why not?"
"Well, what with all the muss The Collegian's been raising about wrestling, I should think you'd want to call it something else."

"Well, we wanted something attractive—Er, something that every one was interested in, so—"

"Well, go ahead and call it The Wrestling Number of The Brown Bull if ya want to, but don't be askin' me to go on a hike next week."

And thus was the great decision made. The spring number of the Brown Bull is to be the Wrestling Number.

The cover—is by an outside artist who once "made" the Saturday Evening Post.

The prominent business men and faculty members are leaving town because one of the page headings is "Secrets of the Branding Iron Banquet Revealed."

Mercy Parks, author of "The Elastic Page," is one of the contributors, having given The Bull the results of a questionnaire conducted among college students on "The Wrestling Question—Famous Champions—I Have Known."

"An Ode to the Wampus Cat," coupled with "A History of the Necking Question," are other features.

What else it contains—nobody knows, excepting the editorial staff, and they won't tell.

On sale at every news stand, and everywhere else—two bits—soon.

"LAND OF NOD," MAY FETE THEME

MOTHER GOOSE AND HER CHILD-
REN APPEAR FRIDAY

Brownies, Fairies, and Goblins Will
Meet in Dramatization of
Stevenson's Poem

"The Land of Nod" will be portrayed at the annual K. S. A. C. May fete, which is to be held next Friday afternoon at 5:30 o'clock in the stadium field.

Robert Louis Stevenson's poem, "The Land of Nod," furnished the inspiration for the fete. Miss Ruth Morris, Miss Geneva Watson, and Miss Myra Wade of the athletic department arranged the dances and have charge of the production. The dancing classes, girls especially selected from other athletic classes, and children from the grade schools of Manhattan make up the cast.

Mother Goose There
Mother Goose with all her celebrated characters, Humpty Dumpty, Old King Cole, Red Riding Hood, and other noted personages, will walk out in reality on the Stadium Field. With them, in great dignity, will come the toys, the dolls, tops, drums, balls, stick candy, gingerbread boys, all guarded by 32 tin soldiers.

The costumes for the occasion are under the general supervision of Miss Florence Clarke. Bright hues, quaint designs, and brilliant color combinations will be in evidence. The musical score will be played by the college band.

Second Year for Fete
This is the second year that the May fete has been placed in charge of the women's athletic department. In former years, the fete was presented by the athletic department in conjunction with the Y. M. C. A. and the Y. W. C. A.

The Woman's Field day, held the day of the May fete, also will be repeated this year. Last year the theme of the May celebration was taken from the story of King Midas and his gold.

The program as it will be presented Friday afternoon follows:

Prologue: Children, Sandman and his company.

Processional—Makers of dreams, Bogey-bogey-man with brownies and bats, Yama-yama girls with jack o' lanterns, South wind with bees and butterflies, Mother Goose company, march of toys, dance of the dolls, tin soldiers' drill, Things to Eat: gingerbread men, sugar plum fairies, stick candy; spring fairies, Maypole dance by 64 Manhattan grade school children.

Recessional.
Admittance to the west wing of the stadium where the spectators will sit will be 35 and 15 cents. It is expected that a large crowd will attend.

STICKNEY AND COLE TO LEAVE

Both to Foreign Service in July—
Well Liked Here

On July 29, 1925, Captain Robert C. Stickney and Lieutenant James V. Cole, instructors in military science here for the past three years, will sail from San Francisco on their way to Hawaii to spend three years in foreign service.

Captain Stickney began his military career March 1, 1911, when he received an appointment to the U. S. military academy from Massachusetts. He graduated in 1915, receiving a second lieutenant's commission on June 12. At the beginning of the war he was a captain, but was promoted to major, July 30, 1918, and spent eleven months in France with the 34th infantry, 7th division. On June 30, 1920, he was honorably

discharged and returned to his military studies, graduating from the Field Officer's course of the infantry school in 1921. By acts of congress June 30 and September 14, 1922, he was discharged as a major and reappointed as a captain.

Lieutenant Cole received his appointment to the U. S. Military academy from North Dakota, June 14, 1917. He graduated from the Infantry School Basic Course and was appointed second lieutenant November 1, 1918, too late to get into the tangle in Europe. On June 15, 1920, he was appointed first lieutenant but was discharged as a first lieutenant and reappointed second lieutenant in September, 1922.

All this is military data. Students of K. S. A. C., especially R. O. T. C. cadets, have known these men in a different way. They will remember Captain Stickney and Lieutenant Cole as officers that were always ready to give a helping hand and never "crabbed" on a drill field. "They treat us square" is the verdict of the cadets, and that explains their success at K. S. A. C.

Senior Invitations Here

Senior invitations are here, according to G. A. Reed, business manager of the Royal Purple. They are being distributed through the college post office excepting in certain cases where there is some question about the order. A few extras were ordered so that students who find they have an insufficient number or none at all can be accommodated. Eight hundred and twenty leathers, 1,000 cardboard, and 625 folders were ordered.

E COMPANY WINS ARMY MEET

Loving Cup to Winners—Battery G
Best Drilled

The first annual R. O. T. C. field meet was won by Company E, Second battalion. Company A was second and Company H third. The winning company will receive a silver loving cup presented by Colonel Bugbee. Individual prizes were presented by the Palace Drug company, Stevenson Clothing company, and by members of the military department.

The meet consisted of the usual track events and of an equipment race, tug-of-war and several other special events. A great deal of interest and rivalry was shown among the different units and it is planned to make the meet an annual affair.

The loving cup presented to the most proficient company in drill work was won by Battery G, with Company A second, and Battery F third. The cup will remain the property of the winning unit for one year.

WALKER RECLAMATION HEAD

Ag Engineering Professor Chairman
Engineering Council Committee

H. B. Walker, head of the department of agricultural engineering of the Kansas State Agricultural college, has been made chairman of the reclamation committee of the American Engineering council. It is the function of this committee to make a careful and impartial study of the whole field of reclamation in the United States to include not only irrigation, but also drainage and land clearing.

The American Engineering council expects to correlate all reclamation agencies of a federal nature, and lend its assistance in bringing about such national legislation as is necessary for a comprehensive federal policy.

Other members of the committee include Davis Weeks, department of rural institutions, University of California; John B. Flisken, consulting engineer, Washington Water Power company, Spokane; Clark E. Jacoby, consulting engineer, Kansas City, Mo.; Ira W. McConnell, Dwight P. Robinson & Company, Inc., New York; R. S. Maddox, forester, state

geological survey, Nashville, Tenn.; William Mitchell, United States assistant engineer, St. Louis; Dr. F. H. Newell, president, Research Service, Washington, D. C.; and Carl C. Thomas, vice-president, Dwight P. Robinson and Company, Los Angeles.

Chairman Walker has had wide experience in the reclamation field. He was drainage and irrigation engineer for the Kansas State Agricultural college for seven years and formerly state irrigation engineer. In 1912 he acted as a special consulting engineer for the United States reclamation service and is now engineer for and member of the Kansas water commission.

CIVILIZATION INDICATED BEST BY THE UNIVERSITY

Schools Show Development of Ideas
and Mold Thought, Doctor
Hudson Says

The annual Phi Kappa Phi program was held at chapel last Friday. Dr. Jay William Hudson, professor of philosophy at the University of Missouri, spoke on "The College and American Life."

"In any civilization the educational system of a country has been the best index and indicator of that civilization," said Dr. Hudson. "If you want to know the greatest thing Germany has produced, it is the university. The best index to what England is can be found, not in Parliament, but in her Oxford university, and if the chronicler of the 20th century wants to know what is best in American civilization he will go to the colleges and universities. They not only express ideas but mold them."

Phi Kappa Phi stands for democracy. Dr. Hudson asks, "What is democracy? It is something American. Democracy is a new and momentous theory of what human beings are and what they may become." In closing Dr. Hudson said, "All men are yourself, just the same as all men include you. We should adjust our environment to what we ought to be and to what the environment ought to be."

Harry Bruce Walker, professor of agricultural engineering and president of Phi Kappa Phi, presented certificates to the following new members:

Division of agriculture—Glenn M. Reed, George Montgomery.

Division of engineering—John F. Sheel, Clifford V. Eshbaugh, Delos C. Taylor.

Division of home economics—Ruth M. Keil, Mary S. Dey, Mabel E. Lamoreaux.

Division of general science—Margaret A. Newcomb, Lona G. Hoag, Grace E. Bressler, Daisy B. Floyd.

Graduate students—Harold W. Brown, Lucile O. Rust, Cyrus V. Williams, Jean S. Dobbs, George A. Filinger, Henry I. Richards, Jason R. Swallen, Elma R. Stewart, Paul B. Swain, Allan P. Davidson, Louis C. Williams, Oseola H. Bury.

Faculty—Prof. Howard T. Hill, Prof. Amy Jane Leazenby-Englund, Prof. H. F. Lienhardt, Prof. C. H. Scholer, Prof. Paul Weigel, Prof. Lillian Baker.

Honorary—Prof. Jay William Hudson.

NEWTON HIGH WINS CONTEST

Sweepstakes Cup in Forensic Meet
Won for Second Time

Newton high school repeated its last year's record and again won the sweepstakes cup offered in the K. S. A. C. high school forensic meet. Newton received two first places, a second and a third.

Florabel West of Newton placed first in the reading contest and third in the oratorical. Margaret Plummer placed first in the extemporaneous speaking contest, and the Newton team placed second in debate.

Frontenac high school won the debating cup, and Thomas Kelly of Frontenac placed second in the oratorical contest. Robert Fox, Topeka Catholic high school, was given first place in the oratorical.

Betty O'Donnell, Junction City, and Gladys Tracy, Manhattan, received second and third places in the reading contest. Edna Walker, Macksville, and Gladys Warden, Marysville, were given second and third places in the extemporaneous speech contest.

Loving cups and medals were awarded those who placed in these contests.

Orrs Move to Las Cruces, N. M.

William M. Orr, '10, and Eula (McDonald) Orr, '12, have moved from El Paso, Texas, to Las Cruces, N. M., where Mr. Orr has become pastor of the First Presbyterian church. In El Paso, Mr. Orr was in charge of mission work among the Mexicans for the Presbyterian church.

ELECTION ROW TO JOINT BOARD

FACULTY COMMITTEE REVERSES
ACTION OF S. S. G. A. COUNCIL

Now Comes Joint Meeting to Try
Compromise—Failure Takes
Contest to Farrell

The faculty committee on student affairs voted yesterday not to sustain the action of the S. S. G. A. executive council in refusing to allow the K fraternity's contest of the recent S. S. G. A. election.

A combined meeting of the faculty committee and S. S. G. A. council will be held, probably this afternoon, to try to compromise on the question. If the two groups can come to no agreement final decision will rest with President Farrell. The K men contested the S. S. G. A. election held recently on technical grounds. Christian Rugh won over Archie Butcher by a very small margin, 203 to 200.

Hold New Election?

The action of the faculty committee in virtually upholding the K men seems to indicate that a new election will be held soon. However, if a compromise is effected that disapproves of the election contest the results will stand as they are at present.

A considerable amount of interest has been aroused in the student body concerning the contested election. According to reports, backers of each candidate regard a new election as very probable and are preparing real election campaigns.

Comment on the relative chances of the two candidates if a new election is ordered has been much in evidence in Recreation center and canteen gossip. Rugh is the candidate of the fraternity and sorority political organizations while Butcher is the choice of the athletes and reported to be favored by a large portion of the non-fraternity element. Rugh is a member of Beta Theta Pi and Butcher of Sigma Phi Epsilon.

POTATO MARKET FAVORABLE

Stokdyk Believes Prospects Are Good
for an Active Market

"Kansas potato growers have prospects for at least an active, if not a strong market this season," E. A. Stokdyk, extension specialist in marketing, said Thursday in discussing potato growers' problems.

Crop prospects and market prospects are two factors upon which market predictions are based and are two factors important to Kansas potato growers. In regard to crop prospects, Mr. Stokdyk says, "Our crop prospects are very important and the time spent in giving the best attention to the growing crop is time well spent. However, as digging time approaches, the grower must consider the market prospect for his crop."

The Kansas market is dependent to a large extent on the movement of early potatoes from other sections. If the sections to the south and east have large crops and are late in moving, the Kansas growers find a weak market. If these sections have small crops and have shipped early, Kansas growers have a strong market.

Data obtained from various parts of the county show that early potato sections have decreased their acreage by eight per cent this year and heavy rains and blight have reduced their yields somewhat. Up to the middle of March, however, shipments of Florida potatoes were four times as heavy as they were a year ago, indicating a tendency for earlier movements in the south this year. In view of the increase in early shipments and the decrease in acreage and in yield, Mr. Stokdyk declared, Kansas potato growers have prospects for at least an active market this season.

CALDERWOOD TO CHICAGO

Will Be Guest of Telephone Company
at Convention

Prof. J. P. Calderwood, head of the mechanical engineering department, has been invited to attend a conference of the Bell Telephone System in Chicago the week of June 22. Prominent mechanical engineering educators from representative schools will be in attendance.

The main object of this conference is to promote a more thorough understanding of the mechanical phases of the telephone industry and to better, if possible, the educational training given graduates in mechanical engineering who enter this field of work. Contrary to common belief, the telephone industry is largely a mechanical engineering enterprise.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, MAY 12, 1925

SPIRIT AND AN ELECTION

The decision of the faculty committee on student affairs to disapprove the ruling of the executive council of the S. S. G. A., which turned down a request of the K fraternity for a new S. S. G. A. election, seems to indicate that a new election will be held.

In the interests of school spirit and a powerful effective student government organization a new election is undoubtedly desirable. The fact that there is too little interest taken at present in the S. S. G. A. leadership was conclusively shown when only 14 per cent of the entire student body voted at the polls. A total of only 403 votes were cast; more than 2,200 students failed to show enough interest to write their choice on a ballot and drop it in the box. There were no dues to be paid as every purchaser of an activity ticket automatically becomes a member of the S. S. G. A. and is empowered to vote in its elections. The election contest and the spirit of rivalry which it has aroused are creating a revival of school spirit, which in itself is a desirable result sufficient to overcome any arguments against the taking of a new ballot.

But in addition to the school spirit that has become evident a new election will insure a stronger student government organization. In the election campaign the merits of each candidate must be brought before the student body; this group would in turn become acquainted with the two men, one of whom is to direct its government for the next year. The natural result of such a condition will be a more powerful S. S. G. A., an organization which has as its head a student who is the choice of the majority of the student body and which will be more closely associated with its members at large.

There is no logical reason why a new election should not be held. The technical charges preferred by the K men are enough to make a new election legal. The political organizations of the fraternities and sororities will have something to work for, there will be rivalry and competition for offices, student interest will be quickened, and the entire school will be much more alive after it is all over.

And now they tell us that the final struggle begins in just a week. Well, what we crave is mercy, not justice.

One can't help but feel that the instructors on the business end of the questions, even justice won't be meted out. Professors have a habit of asking such impossible questions.

It's a safe bet that some of them stay up half of the night hunting up some bit of forgotten lore so that not one of his students will be able to hit the exam perfect. Not even with notes in hand!

We love these profs!

Then there is the type that forgets

to make out any questions the night before. He comes in and begins to write down just whatever comes to his mind first. (Giving him the benefit of the doubt, of course. Perhaps they really have minds.) In some instances they ask one class questions that belong to an entirely different bunch.

Generally speaking, though, this doesn't make so much difference. We can guess just about half of it.

Perhaps all professors aren't as bad as some of them are. Perhaps.

Then there is the other side of the questions. If one has studied as one should have studied one need not worry. All one needs is to pray.

If the person in question has not studied properly neither prayer nor worry will help a whole lot.

There is always the chance of saddling up a little horse and galloping through an exam, but it has been rumored that the faculty somewhat objects to this method of passing.

But don't let that bother you. The faculty is inclined to be a bit narrow-minded in some things. This is no doubt one of them.

'Twould be only fair to offer the students the chance of riding through one exam per semester. Make it optional of course. Or better still, allow one hour of cribbing for every 10 hours carried.

The student could keep a close account of his time and check in after exams.

But no, it won't be done this semester. And now is the time we need it.

So there's only one thing left to say. You either pass or you flunk. How philosophical!

AG PAPER COMPLETES YEAR

"Kansas Agricultural Situation" Grows from Mimeographed Notes

With the May issue, which will appear sometime next week, the "Kansas Agricultural Situation" completes its first year of publication. During this time, it has grown from a mimeographed set of notes to a formal publication, printed each month.

This publication, which is issued jointly by the department of agricultural economics and the extension service, sets forth the principal factors affecting marketing conditions for farm products and the probable future production of those products important to Kansas farmers. It also indicates the probable trend of market prices during the 30 days following publication, or for a longer period if possible. Farmers and business men of Kansas are finding the publication very helpful and it also is receiving favorable comment in other states.

Emporia cake eaters are among the strongest protestors to the new narrow parking places in the business district, says the Gazette. One of them completely ruined his balloon pants getting between his car and the next.—Dodge City Daily Globe.

POULTRY PROFS WILL MEET
AT COLLEGE AUGUST 12-15

American Association of Instructors and Investigators in Poultry Husbandry Meet

The American Association of Instructors and Investigators in Poultry Husbandry will hold its seventeenth annual convention at the Kansas State Agricultural college, August 12 to 15. L. F. Payne, head of the department of poultry husbandry at the college, and secretary-treasurer of the association, has charge of preliminary arrangements.

Acting President F. D. Farrell has appointed 12 committees representative of all departments of the college engaged in research work with poultry to take care of the local arrangements. General E. L. King, commandant at Fort Riley, is assisting in the preparation of the entertainment features, which will include a trip to Fort Riley, tours of the college, and trips to points of interest in and about Manhattan. Students in design are preparing a windshield sticker to be used in advertising the convention.

The membership of the association is 450. It includes men engaged in instructional and research work in the colleges and government departments of North America.

The program this year will differ somewhat from those of previous years, in that exhibits of investigational and research work will be featured. Among the exhibits will be displays depicting the experiments conducted with the ultra-violet ray at K. S. A. C. Manufacturers' exhibits of scientific and educational equipment will also be on display.

Preceding the convention will be a two-day conference of delegates from all states and from the United States department of agriculture to discuss standardization, accrediting, certification, and registration of poultry. Dr. M. A. Jull, chief poultryman of the department of agriculture, will preside at this conference.

Last year's convention was held at Raleigh, N. C. Twice previously have conventions been held west of the Mississippi river—in 1910 at Ames, Iowa, and in 1922 at Corvallis, Ore. The officers of the association are: President, B. F. Kaupp, Raleigh, N. C.; first vice-president, Roy E. Jones, Storrs, Conn.; second vice-president, L. E. Card, Urbana, Ill.; and secretary-treasurer, L. F. Payne, Manhattan.

Programs for the Fourth Interscholastic Relays

Don't delay—bid two bits for your "Bull"

sends her check with the remark that it is to help some one to remain in school.

Dean J. T. Willard, who is treasurer of the Alumni Student Loan fund, says that the contribution came at a very opportune time. All the money in the fund is lent to students and many others had made application, many seniors especially, for a small loan to tide them over commencement until they are in a position earning money.

BIG SISTER BREAKFAST

Nearly 200 Attend Sunday Meeting—Dean Van Zile Speaks

A Big and Little Sister breakfast was held in Recreation center Sunday morning at 8 o'clock. There were 192 women and girls present. An interesting program was given as follows: violin solo, Lucille Stalker; introductory talk, "The Beginning of the Big Sister work," Phyllis Burtis; "Duties and Privileges of the Big Sisters," Dean Mary P. Van Zile; pledge service of big sisters; vocal solo, "My Creed," Madge Rickey; recessional, "Follow the Gleam." After the breakfast and program, the big and little sisters attended the Presbyterian church.

But the whole team
doesn't play first base

To suppose that a baseball nine will all cover just one position is as far from the truth as to think that everyone in the electrical industry is an engineer.

This field will always need trained engineers. But with its great manufacturing, construction and commercial activities, the industry must have non-technical men too.

Since the industry is manned by many types, the result of your work will depend a good deal on the success with which you team up. The qualities that win are not only efficiency attained by the light of a study lamp, but that all-pull-together spirit of the athletic field.

This point of view may be useful to the man who has wondered whether campus activities, with all their striving and stern testing, their setbacks and their triumphs, have any counterpart in after life.

Society Happenings

Mrs. F. E. Colburn and Mrs. J. H. Parker entertained last Wednesday with a dinner party in honor of the senior girls of Alpha Xi Delta and the new patroness, Mrs. C. W. Cor-saut. After the three course dinner at the home of Mrs. Colburn, the party went to the home of Mrs. Parker where the evening was spent with a program and impromptu entertainment. Special guests were: Miss Grace Derby, Mrs. E. Derby, Mrs. I. D. Colburn, Mrs. F. H. Howard, Mrs. C. A. Kimball, Mrs. H. B. Walker, and Miss Mary Margaret Walker.

Delta Delta Delta entertained with a Mother's Day dinner Sunday noon in honor of the following mothers: Mrs. Hale Powers, Junction City; Mrs. Van Osdol, Junction City; Mrs. Osborne, Clifton; Mrs. B. L. Remick, Mrs. William Faulconer, Mrs. D. R. Fisher, and Mrs. E. B. Read, Man-hattan.

Sigma Nu entertained with a formal spring party at Elk's hall, Fri-day evening. The hall was attract-ively decorated to represent an Egyptian garden. "Chuck" Shof-stal's orchestra from Lawrence furn-ished the music.

Dinner guests at the Alpha Sigma Psi house, Sunday, were Catherine Bernhisel, Ruth Davidson, Ruth Johnson, and Ruth Hubbard.

Kappa Delta entertained with a Mother's Day dinner Sunday noon. The mothers included: Mrs. C. L. Gregg, Topeka; Mrs. F. R. Smith, Byars, Okla.; Mrs. L. M. Rose, Agra; Mrs. E. M. Paddelford, Randolph; Mrs. D. W. Johnson, Olsburg; and Mrs. J. H. Wilhoit, Mrs. C. L. Peter-son, Mrs. W. R. Walker, Mrs. Hal Jerard, Mrs. F. M. Leaman, and Mrs. J. E. Fields, Manhattan.

Delta Sigma Phi entertained with a house dance, Friday evening. The fraternity colors, green and white, were carried out in the decorations. Out-of-town guests were Miss Dor-othy Schrupf, Cottonwood Falls; Miss Vera Graves, Brookville; Roy Mears, Parsons; and Robert Schu-mate, Larned. The dance was cha-peroned by Mr. and Mrs. C. E. Pearce and the housemother, Mrs. Sargent.

Miss Nelle Huskstead of Junction City was a week-end guest at the Alpha Theta Chi house.

The Webster-Euro spring hike which was scheduled for Friday eve-ning was held in the Community House, due to rainy weather. Fol-lowing the refreshments, a program was given by members of the two societies. Miss Mina Bates, Mr. C. W. Matthews, and Mr. and Mrs. C. M. Correll were the chaperones.

W. A. A. entertained with its an-nual banquet, Thursday evening, in the banquet room of the college caf-eteria. The decorations were sugges-tive of the track season which has recently opened, and a color scheme of purple and white was carried out in both the decorations and favors. A three course dinner was served. Between courses, a trio, consisting of Josephine Trindle, Rachel Hurley, and Thelma Coffin sang a group of songs with ukelele accompaniment. The remainder of the program was also suggestive of the track season. "On Your Mark" was the title of a toast given by Julia Blitz, represent-ing the freshman class. This was followed by "Get Set" by Merle Nel-son, sophomore; "Go" by Bertha Worster, junior; and "Over the Line" by Grace Davidson, senior. Laureda Thompson, out-going president of W. A. A., acted as toastmistress and Mis-ses Morris, Watson, and Wade of the women's athletic department were guests of the organization.

Mr. and Mrs. Eric Englund spent the week-end in Ridgeway, Mo., visit-ing at the home of Mrs. Englund's parents.

The Bethany Circle of the Christ-ian church held special initiation ser-vices at the church Monday evening

for Mildred Doyle, Clay Center; Mamie Hall, Augusta; Mildred Hud-dleston, Fulton, Ky.; Gladys Hawkins, Tampa; Paula Leach, Caney; Agnes Lyon, Manhattan; Phyllis Miller, Mead; Alice Nichols, Libera; Rob-erta Owens, Russellville, Ark.; Marie Sperling, Woodward, Okla.; and Frances Wilhoite, Manhattan. Re-ports of the national convention at Columbia University were given by Mary Lowe and Elizabeth Sorenson. Comprehensive reports closed the evening's meeting.

Mother's Day guests at the Phi Kappa Theta house were: Mrs. G. T. Bord, Topeka; Mrs. George Mont-gomery, Sabetha; Mr. and Mrs. G. J. Hoffman, Marysville; Mrs. C. R. Howard, Mount Hope; Mr. and Mrs. C. O. Smith, Beloit; Mr. and Mrs. A. B. Campbell, Marysville; Mrs. W. A. Lathrop, Chicago; Miss Bernice Smith, Beloit; Miss Naomi Campbell, Marysville, and Miss Jean Robinett, Marysville.

Guests at the Mother's Day dinner at the Kappa Phi Alpha house were: Mrs. S. I. Thackrey, Mrs. S. M. Har-ris, Mrs. Vida Morrison, Mrs. Fred Chastain, and Mrs. L. L. Davis of Manhattan; Mrs. H. Alberti, Kansas City; Mrs. O. N. Marshall, Clifton; Mrs. T. F. Guthrie, Sr., Saffordville; Mrs. V. I. Owens, Chapman; Mr. and Mrs. T. H. Heath, Enterprise; Mr. H. E. Alberti, Kansas City; Mr. Lester Jennings, Abilene; Mr. Lester Davis, Wichita; and Mr. J. E. Thackrey, Kansas City.

Deities of Phi Beta Sigma fratern-ity and Zeta Phi Beta sorority held their annual spring party in Recre-ation Friday evening. The hall was decorated with the fraternity colors, blue and white. Overstreet's seven-piece orchestra from Topeka furn-ished the music. About 75 couples were present.

Fifteens Have Bobs, Ride Lizzies, and Use Modern Slang

While the present day college stu-dent comes in for considerable criti-cism for his supersophistication, the old-timers knew a thing or two, also, if information being dug up in a questionnaire to the '15s means any-thing. Thus far, the replies reveal the startling fact that these Aggies of other days lived in a mad whirl of postoffice and pitch games. At least the answers to the question, "What game do you prefer?" underscore love, pitch, and postoffice in the majority of cases.

The occasion for all this sensa-tional information is an inquiry which the reunion committee of the '15 class is sending out to its mem-bership. The committee wants to know what games the folks prefer, evidently so they will be able to plan the entertainment of the reunion ac-cordingly.

The committee promises that it will divulge other gossip, and scandal that comes to light from time to time be-

tween now and commencement. There are a few facts, however, that will be kept a dark secret until the re-union party and then they will go no farther than the membership of the class if it is humanly possible to pre-vent them doing so.

One of the rumors floating around the reunion headquarters in the of-fices of "Jimmie" Linn and H. H. Haymaker, is that there is a sermon to be delivered some time during the reunion. This sermon, which was to have been the funeral oration of a body alleged to have died because of an unforeseen circumstance, was never delivered over the dead body. Con-sequently, the words have been locked in the mind of the orator for 10 long years. If rumor turns out to be fact, the sermon will finally be preached some time between now and midnight of May 27, 1925.

Another point in which the women of the class show themselves to be strictly modern still is that almost all have bobbed their hair. Only a few admit themselves to be among the "unfashionable unbobbed" and even they seem yet to have hopes and inclination because their answers are "No-Yes," "Not Yet," or various oth-er indefinite phrases.

Statistics being collected by the reunion committee disclose another astounding bit of information—al-most 75 per cent of the members are driving Ford cars.

Letters from the committee ask-ing for suggestions on the reunion program have been sent to several members of the class who are sup-posed to know things that may be safely brought to light after these 10 years.

A definite "No" to the question, "Will you be here?" is coming from very few except those who are far away from the campus. There are several "If Possibles" and some "Maybes."

Too much of a fine thing cheapens it.

MUSIC COURSE GRADUATES APPLY FOR CERTIFICATES

Eighteen Students Will Complete Two Year Course

Eighteen girls, enrolled in the two year course in Public School Music, will complete their course at the end of this semester and have applied for Kansas State teachers certificates, which will entitle them to teach in any grade school or high school in the state.

Following are the names of the girls who have applied at the office of the registrar for certificates: Alice Abbott, Gretna; Elsie Kathryn Berg-strom, Green; Lillian Iva Carver, Manhattan; Bonnie Lou Dittmar, Manhattan; Dorothy Hall, Sullivan; Ill.; Florence Jane Hanna, Clay Center; Mary Henry, St. Francis; Velma Tiera Krause, Logan; Lola Lorraine Matter, Manhattan; Mar-jorie Lucile Moody, Riley; Velma Neva Norris, Manhattan; Mary Fran-ces Platt, Hamilton; Jean Florence Rankin, Wakefield; Edna May Un-ruh, Haddam; Elizabeth Alice Van Ness, Topeka; and Elsie Gertrude Wall, Cawker City; Marjorie Flem-ing and Mary Helen Jerard, Manhat-tan.

Fraternity Groups Here

All fraternity and sorority group pictures are being returned from the engraver, according to G. A. Reed.

business manager of the Royal Pur-ple. The pictures have been ovaled and mounted on big cardboards. Each year the organizations desire a picture of the current year's group. In other years the picture which was used in the annual was obtained but now the mounted picture can be used and a picture taken of it. This will be just as satisfactory as the former arrangement Mr. Reed said and will save the trouble of the entire group posing for a picture.

Five Aggies at V. N. I. I.

Five K. S. A. C. alumni are teach-ing in the Virginia Normal and In-dustrial Institute, Petersburg, Va. They are Christine Jackson, '23, in charge of the college cafeteria; Ade-line O'Neil, '21, teaching home eco-nomics; Leila Hughes, '24, teaching social sciences; Wirt D. Walton, '24,

in charge of the division of animal husbandry; and G. W. Owens, '22, director of the agricultural depart-ment and state teacher trainer for negro vocational schools.

BALZER SETS NEW VALLEY RECORD

BREAKS WATSON'S TWO-MILE MARK AT MISSOURI

Record Not Official But "Puff" Has Another Chance at Norman This Month

"Puff" Balzer, Aggie track hero, set another new mark for the boys to shoot at when he broke the Valley record in the outdoor two-mile last Saturday at Missouri. In spite of the fact that he had run the mile and won it a short time before, the inman boy came back to the track and stepped the two-mile in 9:42.1, beating Ray Watson's time by 3/5 of a second.

The record will not stand, because it was made in a dual meet, but Balzer will have a chance to make it good in the Valley outdoor meet at Oklahoma this spring. Balzer already holds the indoor Valley record, having made the two-mile distance in 9:37 at Lawrence this year.

Tigers Win Meet

The Tigers took first in the meet, 81 to 36. Kimport won the half, and was the only Aggie to place first except Balzer. Keeble of Missouri was high point man with a first in the high hurdles, second in the low hurdles and in the broad jump, for a total of 11 points.

Balzer and Richerson and Lancaster of Missouri tied for second place with 10 points each. Carter in the pole vault, Russell in the 440, Gartner in the discus, Brunkau in the javelin, Kimport in the mile, Brunkau in the shot and Knouse in the 220 took seconds for the Aggies.

Next Meet Triangular

The next meet for the Aggies will be a triangular meet between the Aggies, Nebraska, and Kansas at Lincoln Saturday. With the pronounced Aggie edge in the distance events, and probably seconds in weights and at least one of the speed races, the hope is good for an even split in the meet, with chance throwing the victory toward any one of the three teams.

Summary of the meet:

2-mile run—Won by Balzer, Kansas Aggies; Poage, Missouri, second. Time, 9 minutes 42 1-5 seconds. New conference record.

220-yard low hurdles—Won by Cunningham, Missouri; Keeble, Missouri, second. Time, 25 1-5 seconds.

Pole vault—Won by Lancaster, Missouri, 12 feet; Carter, Kansas Aggies, second. Height, 11 feet 6 inches.

880-yard run—Won by Kimport.

Kansas Aggies; Pedue, Missouri, second. Time, 1 minute 59 1-5 seconds.

High jump—Bransford, Missouri, and Buehner, Missouri, tied for first. Height 5 feet, 9 inches.

120-yard high hurdles—Won by Keeble, Missouri; Cunningham, Missouri, second. Time, 15 2-5 seconds.

440-yard dash—Won by Walton, Missouri; Russell, Aggies, second. Time, 51 seconds.

Discus throw—Won by Richerson, Missouri, 140 feet 6 inches; Gartner, Aggies, second. Distance, 130 feet 8 1-4 inches.

Javelin throw—Won by Kiefner, Missouri, 169 feet 8 inches; Brunkau, Aggies, second, 156 feet 4 inches.

Broad jump—Won by Lancaster, Missouri, 22 feet 2 1-4 inches; Keeble, Missouri, second. Distance, 21 feet 8 1-4 inches.

Relay—Won by Missouri (Bond, Johnson, Walsh, Walton). Time, 3 minutes 31 seconds.

100-yard dash—Won by Bond, Missouri; Farley, Missouri, second. Time, 10 1-5 seconds.

Mile run—Won by Balzer, Kansas Aggies; Kimport, Kansas Aggies, second. Time, 4 minutes 31 4-5 seconds.

Shot-put—Won by Richerson, Missouri, 46 feet 1 1-4 inches; Brunkau, Kansas Aggies, second, 40 feet 9 3-4 inches.

220-yard dash—Won by Bond, Missouri, Knouse, Kansas Aggies, second. Time, 22 1-5 seconds.

TWO SCIENTISTS ATTACHED TO COLLEGE TEMPORARILY

Botany Department Will Be Assisted in Investigations

Dr. H. Fellows of the United States department of agriculture is stationed at Manhattan, Kan., in the department of botany and plant pathology for a period of about three months. He is looking after some of the cooperative wheat root-rot disease investigations which are being done at this institution.

Dr. G. H. Godfrey of the Bayer Chemical Company, who is in charge of pathological investigations, is also located in the department of botany for a period of a few weeks. He has just completed some investigational work at the Boyce-Thompson Institute for Plant Research at Yonkers, N. Y., and is coming directly from there to Manhattan. He will conduct some seed treatment work in connection with sorghums. Both of these men are cooperating with Prof. L. E. Melchers in studies on cereal and forage crop diseases. They are given temporary office and laboratory facilities in the department for their studies.

Dickinson Leaders Named

At a meeting of the Dickinson county alumni association in Abilene, April 11, Mrs. Mabel (Broberg) Townley, '12, of Abilene, was elected president, Dr. S. N. Chaffee, '91, of

Talmadge, vice-president, and Miss Dorothy Neely, f.s., secretary. Mrs. Daisy (Hoffman) Johnitz, '00, is retiring president and Mrs. Elizabeth (Circle) Garver, '20, is retiring secretary. The election of officers was held in connection with a joint meeting of the alumni and the present day students.

FAULKNER STUDIES ENGLISH AS APPLIED TO AMERICANS

Eighteen Manhattan Persons on Special Committee to Assist

Prof. J. O. Faulker, of the department of English, was recently appointed local chairman of a committee to study the place of English in American life. Professor Faulker received his appointment through the National Council of English Teachers.

Professor Faulker has appointed a committee of eighteen persons in Manhattan, who are broadly representative of the social, professional, and business groups to assist him in his work. Each member of the committee will distribute and collect ten questionnaires that ask for the innumerable uses of English in everyday life.

The investigation that is being made in Manhattan is similar to investigations that are being made by the national committee throughout the United States. The purpose of the investigation is to study the language needs of the American people and thus recommend adjustments in the course content both in elementary and high schools throughout the country.

A Cleveland, Ohio, woman shoots her husband at the breakfast table, writes a poem explaining that she is dumb, and then shoots herself. Truth, like murder, will out.—Wilson County Citizen.

UNRESTRICTED NERVE ENERGY RESTORES HEALTH

STUDENT SEES BALL GAME BUT PAYS FINE AND COSTS

Junior Breaks Quarantine to See Aggies Play

John R. Stebbins, Ellis, junior in mechanical engineering, was fined \$25 and costs at a session of the justice of the peace court held Friday in front of the college hospital. Judge A. S. Porter presided over the court. Stebbins was convicted of breaking quarantine for scarlet fever.

The defendant, who has scarlet fever, left the college hospital Saturday, May 3, and attended the baseball game, it was alleged. He was observed by officers of the law and reported; his arrest and conviction followed.

Much Frost Damage

I. N. Chapman, farm management demonstrator, who spent last week in Lincoln county, reports that a great many acres of wheat are being aban-

doned in that county because of winter killing. A small section in the southern part of the county will have very good wheat, but the wheat in the remainder of the county was so badly injured by frosts that corn, oats and kafir are now being planted in place of the wheat.

Well bred hens are efficient food producers. It requires with a good hen less than four pounds of feed to produce one pound of eggs.

INTER-STATE ASPECT IN VALLEY INTERSCHOLASTIC

One-fourth of Entries from Outside the State—New Records Expected

A real inter-state complexion is being taken on by the Fourth Annual Missouri Valley Interscholastic relay carnival as the date for closing the entries nears. Nearly a fourth of the 40 teams entered up to last Saturday were from outside the state. Eleven teams had entered the tennis tournament, and six the golf affair.

Spectators at the meet may find a real thrill in seeing the leading athletes from five states competing on Stadium field track for the valley crown. Last year two world's interscholastic records and eight carnival records were shattered. Northeast, state champions of Missouri, are entered, along with Woodward and Pernell, Oklahoma, Neligh, Nebraska, and Woodbine, Guthrie Center, and Eldon, Iowa.

Practically every leading high school team in the state has entered the best of its team. Only eight men from each school will be cared for by fraternal organizations of the college, the rule having been made because of over-crowding which resulted from the meet last year. Wilcox, of Liberty, Mo., twice winner of the hundred-yard dash, is entered in the meet for the third time. Thornhill of Protection, runner-up as high point man last year, will compete in several individual events, while the nationally known Northeast high school team will perform against the best of the rest of the valley. Last year the teams from Woodward, Ok., did a good job of holding their own against Northeast, while Wichita, Argentine, Wellington, Florence, and several other Kansas schools are equally capable of holding their own against competition of the purple and white.

The valley tennis tournament will start on May 15, the singles being played off in the afternoon, and the doubles to start on the morning of May 16.

Entries in the meet up to last Saturday, classified by states, schools, and divisions of the carnival:

Track

Iowa—Eldon, Woodbine, and Guthrie Center.
Missouri—Liberty, Mendon, Northeast of Kansas City, and Carrollton.

Nebraska—Neligh.
Oklahoma—Woodward, and Pernell.

Kansas—Saffordville, Council Grove, Wichita, Argentine of Kansas City, Rosedale of Kansas City, Chase County Community high, Cherryville, Sabetha, Burlington, Abilene, Glasco, Eldorado, Medicine Lodge, Osawatimie, Wellington, Ellsworth, Stafford, Oskaloosa, Wichita, Kensington, Minneapolis, Coffeyville, Eskridge.

Golf

Kansas—Minneapolis, Wichita, Peabody, Rosedale, Salina, and Manhattan.

Tennis

Kansas—Wichita, Kansas City Central, Stafford, Wellington, Cherryvale, Lindaborg, Ellsworth, Eldorado, Abilene, Salina, and Manhattan.

Riley, '24, Manages I. A. C. Team

SOONERS DOUBLE AGAINST AGGIES

EIGHTEEN INNINGS AND A COMPLETE SHUT-OUT

Aggies Split Double-Header with Kansas Monday But Can't Dent Sooner Defense

Holding a team as strong as the Kansas Aggies to no runs in 18 innings is quite a feat, but the Oklahoma nine takes the credit. The Sooners took the opening game 1 to 0 and captured yesterday's game 5 to 0.

Conroy twirled the opening game and was nicked for nine safe blows during the eight innings he pitched. He was replaced by Caraway in the ninth after Greer hit for him in the eighth.

Only Score in Seventh

The Sooners scored their lone tally in the seventh after Archer got on base on a fielder's choice, and was advanced to third on a single by Honea. Mayes then rolled to Conroy who threw out Lindsey at home on a forced play. Miller then attempted to catch Mayes at first but threw the ball wild, allowing Archer to come home for the winning score.

Snodgrass, Sooner hurler, allowed only six hits and no two came in the same inning. Lindsey was the batting star of the day, getting four singles out of four times at bat.

In the second game the Sooners went into the lead in the second inning and were never in danger of losing throughout the rest of the game. Three tallies were scored in the second off Caraway on three straight singles, and a triple by Cook. Caraway started the third inning but the first two men up got a single and a double respectively. He was then replaced by Byers who pitched himself out of the hole, allowing only one run.

Byers Pitched from Hole

Oklahoma scored again in the fourth on a walk and two errors. During the next five innings Byers held them to three hits and was never in danger of being scored upon.

Brion and Karns shared batting honors for the day, each one getting two bingles out of four times at bat.

The double victory gives Oklahoma a total of nine games won and one lost, the loss being administered by Conroy in the first series at Norman.

The Aggies split a double header with Kansas U. Tuesday, the Wildcats capturing the first game 1 to 0 and dropping the second 3 to 2.

Joe Greer went the entire after-

noon on the mound, allowing only two hits in the first game and six in the second. Swenson, K. U. hurler, also pulled the iron-man stunt by opposing Greer through both games. He was nicked for five hits in the first game and eight in the second. Both pitchers showed rare form, Greer using his fast ball to a good advantage while Swenson relied on his slow curve ball.

The Aggies scored their lone run in the first game, in the third inning, on Munn's single, a double by Meek putting him on third and fumble by Armstrong in handling Harter's hot grounder sending him home.

The Jayhawkers staged a comeback in the last of the seventh when, with two out, Kennedy tripled to right field. Childs ended the game when he knocked a slow grounder to Greer and was thrown out at first.

The Aggies got off to an early lead in the second game when Rex Huey, second man up in the second, hit a line drive to left field. The ball picked a hole under the canvas and went out of the park for a home run. The Aggies' second counter came in the sixth on a fielder's choice to Huey and singles by Munn and Havley.

Kansas scored two counters in the third on a single, a triple and a double. The winning score was made in the fourth on a double by Kennedy and a single by Swenson.

Both of the games were seven innings affairs in order to finish before dark.

ARRANGE THIRD TENNIS MATCH

Washington University Next Opponent in Missouri Valley Contests

Kansas Aggies' third Missouri Valley tennis match will be played here Saturday, May 16, with Washington University. According to Mike Ahearn, the Washington team ranks high in valley tennis.

Although the Aggies lost their matches with Missouri and Kansas University it was partially due to the fact that Missouri and K. U. are considered the best teams in the valley.

The new courts at K. S. A. C. also are a handicap to the players because they have not become hard and firm as they should be. Other schools in the valley have old courts which are in the best of condition for tennis.

The matches are scheduled to start at 2 o'clock. Two single matches and one doubles match will be played. The men who will make up the team are Harold Sappenfeld and Tim Kleinenberg.

Summer Collegian Weekly

The Collegian board has approved publishing a weekly paper during the term this summer. In the past a paper was issued only twice a month. Morse Salisbury will be in charge of the summer paper. Gerald Ferris will be business manager.

PREXY REFEREE OF M. V. RELAYS

DICK HANLEY WILL BE REFEREE AND STARTER

Sixty-six Schools, 500 Athletes, Here for Missouri Valley Inter-scholastic Games

President Farrell will be honorary referee at the Fourth Annual M. V. Inter-scholastic Relays carnival to be held in the stadium tomorrow. Coach Richard M. Hanley of Haskell Institute is to be referee and starter.

Sixty-six schools, more than one-fourth of them from outside the state, have entered for the relays. Although the entry list is about the same size as that of last year, according to Coach C. W. Bachman, the schools represented are much stronger, in the aggregate, than were those of last year.

500 Students Here

This entry means that approximately 500 high school students will come to the college for the games, exclusive of those who come as spectators. Arrangements have been made to care for the athletes at fraternity houses and rooming houses, and the entire school will be "turned over" to them for the day.

The other officials for the relays will include E. A. Knott, who will be clerk of the course, with Fritz Koch as his assistant. Announcers will be Dr. H. T. Hill, chief, and Owen Cochrane and H. V. Hutton, assistants. Coach Coarsaut will be official score-keeper and Frank Root will be in charge of the drawings.

Jerry Wilson on Prizes

Jerry Wilson will be custodian of prizes:

Other officials include: Judges of finish, Prof. J. V. Cortelyou, head; Prof. H. W. Davis, Col. F. W. Bugbee, Capt. R. C. Stickney, Dr. A. A. Holtz, Prof. Walter Lathshaw, Prof. C. M. Colver, Capt. W. P. Waltz, Dr. E. J. Frick, and Capt. L. Spencer.

Timers—Prof. J. O. Hamilton, head, Dean E. L. Holton, Prof. H. H. Haymaker, Prof. R. I. Throckmorton, Prof. J. W. Roberts, Lieutenant R. V. McGarragh, Prof. Walter Lathshaw, and Prof. R. Conover.

Field judges—Capt. C. W. Jones, head; Joe Anderson, shot; Lyle Read, discus throw; R. Haskard, javelin; Clyde Randall, assistant, J. E. Smith, assistant; Henry Marston, pole vault and broad jump; A. L. Meseke, C. A. Logan, A. N. Ward, K. Boyd, assistants. High jump, Lieutenant J. C. Cole, head; A. W. Burton, A. Ehrlich, assistants.

Inspectors—Joe Holsinger, Carl Enns, D. A. Springer, and James Price.

In charge of placing relay men on marks—Charles Enlow, head; T. A. Fleck, C. H. Towle, Kenneth Vandell, Archie Butcher and L. W. Dunlap.

In charge of batons—J. C. Schrade.

In charge of setting hurdles—V. Fairchild, head; G. W. Lyons, P. Gartner, and C. Alexander.

In charge of rubbing: Jim Douglas, head; L. E. Moody, A. E. McGrath.

NAME FACULTY MEMBERS WHO HAVE GREATEST INFLUENCE

Announcement to Be Made at the Senior-Alumni Banquet

The seniors are to have a chance to name the faculty members, exclusive of deans and department heads, whom they feel have been of the greatest influence on the life of the student body, through the medium of cards enclosed with the invitation.

tations to the annual senior-alumni banquet sent out by the alumni association to all seniors, graduate students, and students who are to graduate at the end of summer school.

A feature of the banquet will be the reading of the names of these people named and a brief acknowledgment of the respect which the students have for those faculty members who are not so much in the public eye, but who, nevertheless, have great influence on the life of the student body.

COMPANY E TAKES FIRST PLACE IN R. O. T. C. MEET

Running High Jump Won by R. E. Haskard at 5 feet 6 inches

R. E. Haskard of Company I set the running high jump record at 5 feet 6 inches, an inch above Steward and Burton, who tied for second place in the third battalion, at 5 feet 5 inches, in the first annual field meet given by the R. O. T. C., May 9, and 11.

A silver loving cup was presented to Company E, which won the meet with a score of 1.56 per cent. Company A won second place with a score of 1.5 per cent; Company H, third place, scored 1.38 per cent; and Company D took fourth place with a score of 1.16 per cent.

Those who won first place in the events were:

100 yard dash—First battalion, P. Gartner, Company A; time 10 1-2 seconds; second battalion, C. P. Foote, Company E, and third battalion, Z. Pearson, Company I, both 10 4-5 seconds.

440 yard run—First battalion, P. Gartner, Company A; time 54 1-2 seconds; second battalion, Schrafer, Company D, time 52 seconds; third battalion, Moody, Company H, time 53 1-4 seconds.

16 pound shot put—First battalion, Dayhoff, Company A, distance, 36 feet 4 inches; second battalion, F. D. Strong, Battery E, distance, 32 feet 4 inches; third battalion, Z. Pearson, Company I, distance, 38 feet 3 1-2 inches.

Running high jump—First battalion, C. A. Byers, Company B, 5 feet 3 inches; second battalion, P. R. Carter, Company D, 5 feet 4 inches; third battalion, R. E. Haskard, Company I, 5 feet 6 inches.

Running broad jump—First battalion, Dayhoff, Company A, distance 20 feet 1 inch; second battalion, P. R. Carter, Company D, distance 20 feet 3-8 inches; third battalion, Meek, Company H, distance 20 feet 1-8 inches.

Tug-of-war—First battalion, Battery C; second battalion, Battery G; third battalion, Company H.

1-Mile relay—First battalion, Company A; second battalion, Company E; third battalion, Company H.

Shuttle race—First battalion, Company A; second battalion, Company E; third battalion, Company H.

Caterpillar race—First battalion, Battery C; second battalion, Company D; third battalion, Battery K.

Go-to-it—First battalion, Battery B; second battalion, Battery G; third battalion, Battery K.

Shoe race—First battalion, E. K. Davis, Company A; second battalion, S. Stout, Battery G; third battalion, D. A. Cheel, Company H.

Equipment race—First battalion, Battery B; second battalion, Company E; third battalion, Battery K.

Captain Prose is commanding officer of Company E. The other officers are: first lieutenants, Coffman, and Abbott, second lieutenants, Kimport, Burt, and Keck and Captain Shields, and Lieutenant Fort.

MISS POLSON MAKES ADDRESS

"Women in Journalism" Subject of Talk at Editorial Convention

"The mere reading of a newspaper is neither a guaranty of intelligence nor a proof of imagination," said Miss Izil Polson in her address on "Women in Journalism" at the Kansas State Editorial Association convention last week.

"The woman in journalism is better balanced than are women in the mass. She knows that she must work shoulder to shoulder with men, that her work will be judged according to the same standards as his and that she will win by merit alone."

Miss Polson expressed the belief that if woman will only strive to develop in herself the quality of objectivity; if she will seek to become not merely a holder of opinion but a persistent seeker after facts; if she will strike from her editorial expression the light things and look things in the face, accepting no one else's opinion on them but thinking them out for herself, she will become more and more a real influence in the field of journalism.

In free lance work, Kansas women hold high rank. Reviews, poetry, short stories, feature articles—such

names as May Belleville Brown, May Williams Ward, Core G. Lewis, Patricia Lowdermilk, Ida Migliario, Anna Carlson, and Jennie Owens appear. There are 41 Kansas newspaper women.

Orchestra Goes on Chautauqua

Proctor's orchestra, which has furnished music for several college parties this year, has signed contracts to play this summer on the Redpath-Horner circuit. The members of the orchestra are Virgil Proctor, Vernon Knapp, Frank Roark, Frank McCoy, and Roy Divin. The orchestra this year will go on the Pioneer division. This takes in Colorado, Nebraska, South Dakota, and Kansas, and opens on June 10. All of the men, with the exception of Divin, are college students and will return to school next fall.

Goes on Library Inspection Trip

Miss Grace Derby, assistant librarian, has gone on an inspection trip of library buildings and library organization. She will visit Iowa State College, University of Minnesota, University of Michigan, University of Illinois, and possibly Purdue University at Lafayette, Ind.

Miss Derby also will go to Western College at Oxford, Ohio, of which she is a graduate. She will be gone until May 23.

XIX MEMBERS ANNOUNCED

Nine Girls Initiated Into Senior Honorary Fraternity

The XIX members for the coming year were announced this week, the initiation having taken place May 11. Nine girls constitute the new membership of the honorary fraternity.

Xix was organized in 1915. The members are chosen at the end of their junior year by the active members of the chapter. The organization emphasizes scholarship, leadership, and constructive cooperation, and women are chosen who best express these three aims.

The new members as announced are: Vera Alderman, Mary Lowe, Mary J. Herthel, Rachel Herley, Genevieve Tracy, Charlotte Swanson, Katherine Welker, Gladys Stover, and Dorothy Stiles.

The old members are as follows: Laura Russell, Laureda Thompson, Evelyn Colburn, Catherine Bernheisel, Mildred Moore, Maxine Ransom, Lois Richardson, Lucille Herr, Elizabeth Bressler, Gladys Sanford, Phyllis Burtis, Hilmarie Freeman, and Florence Haines.

FORMER AGGIE GRADUATE NEW PRINCIPAL OF MANHATTAN HIGH

H. Leigh Baker, '22, Comes Here from Wellington High

H. Leigh Baker, '22, has been employed as principal of Manhattan high school for the coming year.

Mr. Baker has been principal of Wellington high school the past two years but upon being offered the principalship here, he requested that he might be released from the Wellington school.

Although the board interviewed many outstanding principals, they found that Mr. Baker was the most suitable person for the position. Mr. Baker is a graduate in agricultural economics, and also has taken graduate work at Chicago University.

Literary Digest Quotes Dr. Swanson

Dr. C. O. Swanson, head of the department of milling industry, was quoted as an authority on growing wheat for protein, by the Literary Digest for May 9, in an article on Protein in Wheat, in the department of Science and Invention. The article, in discussing the relation of climate, soil and variety to the amount of protein in wheat, quoted an article by Dr. Swanson that was published in the November issue of Cereal Chemistry.

Wrestlers—Beware

Wrestlers—take warning. All your secrets will be exposed. If you value your names and reputations, take to the tall timber before tomorrow. This warning has been issued from the secret lair of the Brown Bull, who knows everything. Tomorrow is positively his last appearance, for this year, and he has resolved to tell all.

No one is exempt from the glare of his searchlight. No matter what lonely road saw your parked car, The Bull was there and heard your line. If you were on the parlor sofa at home, it makes no difference, The Bull was lurking in the corner and he knows—also, he'll tell. He won't mention any names—not very many, anyway, but if you're guilty, don't show your face, because it will be a dead give-away. Beware.

FRIDAY, MAY 15, 1925

FOR THE H. S. ATHLETES

Hundreds of high school students, representing the best track talent in the preparatory school ranks of the Missouri valley, will be in Manhattan tomorrow to compete in the annual interscholastic relays.

The presence of these potential athletes on the K. S. A. C. campus offers every student and citizen of Manhattan an opportunity to help the college. If these men are shown the proper welcome and entertainment while in Manhattan they will carry away a desire to return here for their college education.

It will require very little effort on the part of the student body as a whole to influence a large portion of the visitors favorably. Cheerful words, tactful conversation, and a general spirit of friendliness will exert a powerful influence on the average high school boy. If he is made to feel at home, given the impression that his presence is wanted here, that he is considered desirable as a future member of the student body, the resultant effect cannot be unfavorable.

The K. S. A. C. is planning to entertain the visitors by means of car rides, etc. If the entire student body cooperates in this welcome the freshman class next year will contain more than the usual per cent of athletic possibilities.

It has been a long time since the word "chapel" was mentioned in the colm. It is only fair to give it a word or two.

K. S. A. C. you know, has one of the largest non-compulsory chapel attendances in the country. And probably if the faculty would entirely prohibit the students from coming to the place it would be packed, even on sunshiny days.

Last week the speaker took it upon himself to call down the student body for making so much noise. It is deplorable of course, but some of the sheiks and sheikesses can't find another minute of spare time in which to hold their little tete-a-tetes.

They study so hard all the rest of the time. Poor things!

So we mustn't be too hard on them if they want to go to chapel. They help fill up the vacant places, physically at least. And that makes a good showing if not a good sounding.

It might be a good plan to require all girls to go to chapel. The independent males would naturally be there too.

Organizations seem to have ceased to go to chapel as such.

The old Pi Phi section is almost vacant these days. Only a few of them can get up in time to make chapel any more.

The Kappas always take their dates over to the canteen. Their

HAVE YOUR EYES EXAMINED TODAY

Safety First

Some changes take place suddenly within the eyes. These cause accidents and are promptly attended to.

Other changes come so stealthfully and slowly that they are not noticed, or at least not heeded, till too late to repair the damage done.

Yearly examinations would pay you well, save regrets, and best of all

SAVE YOUR EYES

J. A. HOLLIS
Marshall Bldg.

section is gradually thinning out too.

The Chi Omega freshmen always turn up—that is sometimes they do. But it is understood that they are required to do this. That fact removes a lot of the glory of their high attendance. And once in a while one of the upper classmen turns up.

Kappa Deltas manage to hang on to a few seats each period, but the other organizations seem to be hopelessly lost.

The problem of filling the center section downstairs is difficult indeed. The seniors are either bashful or not there. And so the hole remains.

It would seem feasible to have the entire college faculty occupy that particular part of the auditorium. That might fill it up.

But as usual the suggestions all come too late. Only one chapel day remains. Well, we will just pigeon-hole the thoughts till next year. Perhaps we can get some action on the matter then.

On Other Hills

The ground breaking for the new Union building at Kansas University, social center for the student body, and built by subscriptions of students, alumni and friends of the university will be one of the first events of commencement week.

Dean Carl C. Engberg and Chancellor S. Avery have resigned from the executive positions they have held at Nebraska university for many years. The reasons given by both executives for their resignation was a desire to be free from the responsibility that is becoming too great a strain for their health.

The legislature has apportioned \$3,365,845 to the University of Texas. The salary of the president has been increased to \$10,000 a year.

Two and one-half tons of mail are received by students of Ohio

State university each week, according to reports from the office in Columbus.

Polo has been officially recognized by the Virginia Military Institute athletic council as a minor sport and monograms will be awarded to members of this year's team. Although recognized as an athletic activity for two years the present season is the first that has really gained any attention.

Esperanto, the new international language, was used exclusively at a recent meeting of the Cosmopolitan Club of the University of Minnesota. Songs were sung in Esperanto, a play was read and plans were made for its presentation partly in English and partly in Esperanto, in connection with a series of tableaux to be given by the Cosmopolitan Club.

The Minnesota Union has begun a college song campaign at the University of Minnesota by offering a prize of \$50 for the best text and another prize of \$50 for the best music. The members believe it is impossible to stimulate real singing and enthusiasm with the two songs which they now have—"The Houser" and the Minnesota "Hall to Thee." The committee is trying to get an attractive collection of songs which students will want to sing and hum continually.

Indiana University celebrated its one hundred fifth birthday May 6.

Send the Collegian home.

FOUR POULTRY DEPARTMENT MEMBERS RECEIVE DEGREES

Master's Degrees Will Go to Members of the Staff

Four members of the staff in the department of poultry husbandry will receive Master of Science degrees this summer. Two of the degrees will be taken in the division of general science and two in the division of agriculture.

Prof. L. F. Payne, head of the department, took his major work in embryology. The subject of his thesis is "A Study of Factors Influencing the Mortality of Chicks During Incubation." Mr. H. H. Steup, assistant professor, has taken his major work in genetics. The subject of his thesis is "Intercorrelation of Date of Hatch, Day of First Egg, Age of First Egg, and Yearly Production."

L. W. Taylor, former graduate assistant, has majored in genetics. His thesis is "Size and Its Relation to the Production of the Hen." J. W. Moore, graduate assistant, has taken for his major study, poultry nutrition in the department of chemistry. His thesis is "The Effect of Ultraviolet Light and Cod Liver Oil on the Hatchability of Eggs."

Professor Payne, Mr. Steup, and Mr. Taylor will be given their degrees at commencement, the last of May, and Mr. Moore will receive his degree at the end of the summer school.

Large Crowd Sees Minstrels

A large crowd attended the vaudeville performance given by the To-

peka Business and Professional Women's club in the college auditorium last Friday evening. Minstrels, colonial dames, and special novelties furnished the evening's entertainment. Talent was shown by the club in the presentation, and the show was well received by the audience.

WAR POSTERS TO COLLEGE

Mrs. W. Y. Morgan Gives Her Collection to K. S. A. C.

Mrs. W. Y. Morgan of Hutchinson has presented to the college her private collection of war posters. The collection consists of both American and foreign work. The foreign posters were sent to Mrs. Morgan by Mr. Morgan when he was in France during the war. The collection will be used in connection with the work in applied art at the college.

Pi Kappa Delta Initiates

Pi Kappa Delta held initiation services in the Forum hall in the library Monday night for the following

men: Emil Sunley, Paola; Frank Glick, Junction City; Frank Morrison, Manhattan; Paul Pfuetze, Manhattan. Preceding the initiation a banquet was held in the Canteen. Alumni members who attended the meeting included Prof. W. E. Grimes, Randall Hill, Lieutenant R. E. McGarraugh, and Prof. H. B. Summers. After the initiation election and installation of officers for the coming year was held. Elections were: President, Robert Hedberg; vice-president, Cecil Walt; secretary, Emil Sunley; and treasurer, Frank Glick.

Patton Goes to Scotland

John W. Patton, '24, Professor in Poultry Husbandry at the Massachusetts Agricultural college, plans to attend the University of Edinburgh, Scotland, next year.

Prof. C. W. Matthews delivered a commencement address at Maple Hill Wednesday evening, and one at Linn, Thursday.

Phi Sigma Kappa spring party, Elks.
Faculty women's hike.
Alpha Beta hike.

Acacia fraternity held its annual Founder's Day banquet at the Pines cafeteria, Tuesday evening. Twenty active members and eighteen alumni were present. Talks were given by Dr. Howard T. Hill, Grand Counselor of the fraternity, and several of the alumni and active members.

Gamma Phi Delta entertained with a spring party at Elk's hall, Saturday evening. The hall was decorated to represent an Egyptian desert scene. An Egyptian solo dance was given by Miss Jessie Hulse of Manhattan. Mrs. Jennie Coles and Mr. J. O. Faulkner were the chaperones. Special guests were Dean Mary P. Van Zile, Mr. and Mrs. C. W. Colver, and Mr. and Mrs. A. W. Long. Out-of-town guests included: Pauline Kelner, Margaret Merriman, and Elizabeth Fairbanks, Topeka; Ruth Garvin, Lawrence; and Ruth Bilson, Emporia.

Farm House fraternity entertained with their annual Mother's Day dinner, Sunday. The following mothers were present: Mr. Lura Harden, Centuria; Mrs. E. L. Hoffman, Abilene; Mrs. Ora Nuttle, Eldorado; Mrs. Mary A. Irwin, Mrs. O. M. Chilcott, and Mrs. L. M. Russell, Manhattan.

Mr. J. O. Faulkner entertained with a three-course dinner Sunday evening in honor of Dr. William Sedinger Dye, of the English department of the Pennsylvania state college. The guests were Dr. Dye, H. W. Davis, H. A. Shinn, J. P. Calderwood, R. W. Conover, C. E. Rogers, and C. W. Matthews.

Mrs. R. K. Nabours, who is on the advisory board of the Y. W. C. A., entertained the following members at a breakfast at her home, Tuesday morning: Misses Stella Harriss, Lois Wildy, Trena Olson, Miriam Dexter, Ruth Faulkner, Charlotte Swanson, Mary Frances White, Mary Brandley, Mildred Leech, Helen Graham, Achsa Johnson, Margaret Burtis, Ruth Bell,

Helen Eakin, Geneva Faley, Marie Insley, Dorothy Rosebrough, and Josephine Copeland.

Mrs. H. L. Baas returned Monday to her home in Grayville, Ill. She has been the house guest of Professor and Mrs. Davis for the past few weeks.

Members of the college faculty will entertain with a farewell dance in Recreation center, Wednesday evening.

Mr. and Mrs. C. E. Rogers will entertain with a bridge party, Saturday, in honor of Capt. and Mrs. F. C. Stickney who are leaving soon for Hawaii, where Captain Stickney will be stationed.

Mrs. W. M. Jardine, who has been an active patroness of the Omicron chapter of Phi Omega Pi, was initiated into its membership Monday evening. Miss Margaret DeVinny and Miss Fern Harsh also were initiated at this time. A formal dinner at the chapter house followed the initiation services which were held at the Masonic temple.

Acacia fraternity entertained with a Mother's Day dinner Sunday noon. The mothers present were: Mrs. J. J. Skinner, Mrs. Jennie Still, Mrs. W. C. Meseke, Mrs. N. L. Roberts, Mrs. H. W. Skinner, Mrs. Ella Hofflines, Mrs. John Linn, Sr., and Mrs. F. W. Finney.

Mother's Day guests at the Gamma Phi Delta house were: Mrs. A. W. Long, Mrs. R. W. Lowe, Mrs. J. R. Russell, Mrs. Elizabeth Brooks, and Mrs. Eugene Graham all of Manhattan.

RUSSIAN ART SHOW

Slides of Paintings and Carvings Exhibited by Doctor Kaun

Dr. Alexander S. Kaun of the University of California gave a lecture and lantern slide last Tuesday at 4 o'clock in A63 on "One Thousand Years of Russian Art."

The slides consisted of paintings, sculpture, wood carving, and portraits. Doctor Kaun explained through these slides the history of Russian art as it progressed from classic to realistic, and from realistic to the modern school of art.

"Many people do not realize," said Doctor Kaun, "that as early as the fifteenth century Russia had great artists. These artists had a definite task. It was to infect us with their vision of a new world." The early

Russian art, according to Doctor Kaun, was symbolic, expressing folklore and idealizing subjects. About the sixteenth century Russian art began to be realistic and remained so until the first part of the eighteenth century. The modern movement in art has been rapidly increasing. In this the modern artist forces the spectator to work with him.

TWO MORE LIFE MEMBERSHIPS
RECEIVED BY ALUMNI BODY

Loren Clemons Records and R. S. Kellogg Join Paid-ups

Two more \$100 contributions to the student loan fund of the K. S. A. C. Alumni association came in last week. One was from Mrs. Lorena Clemons Records, '94, 1223 Tenth street, Santa Monica, Cal., and the other came from R. S. Kellogg, '96, 342 Madison avenue, New York city. Both these alumni are now life members of the alumni association and in case the life membership dues are lowered, they will automatically become sustaining members of the association. Sustaining members are those who contribute more than the regular life membership dues.

Mr. Kellogg recently sent a letter to several members of his class and others whom he knew while at K. S. A. C., asking them to join with him in becoming life members of the association and contributing to the alumni student loan fund. Others besides Mrs. Records and Mr. Kellogg who have responded with life membership pledges recently are Mrs. Elizabeth (McNew) Fly, '21, Amarillo, Texas; Edgar A. Allen, '87, Keshena, Wis.; D. H. Otis, '92, Madison, Wis.; and Prof. F. C. Sears, '92, Massachusetts Agricultural college, Amherst, Mass.

Life membership dues go into the alumni student loan fund, which at the present time is lent to worthy students at five per cent interest. The fund at the present time

amounts to approximately \$3,000. The interest from the fund goes to help pay the expenses of the alumni association.

A. S. C. E. Elects Officers

The student chapter of the American Society of Civil Engineers have elected the following officers for next year. President, A. B. Nuss, Abilene; vice-president, J. J. McDonald, Manhattan; secretary, R. R. Irwin, LeRoy; treasurer, H. L. Gillman, Salina; sergeant-at-arms, Manuel Valdes, Chile, South America.

OFFER SCHOLARSHIP TO MEN
FOR STUDY OF MEAT PACKING

Senior and Graduate K. S. A. C. Students Interviewed by Chicago

Prof. E. L. Rhoades, representing the School of Commerce and Administration of the University of Chicago, and Dr. R. H. Hess of the Institute of Meat Packers at Chicago, spent Wednesday in Manhattan, interviewing seniors and graduate students who are interested in the meat packing industry. K. S. A. C. is one of the middle western colleges which are being visited by these men for the purpose of selecting 20 seniors and graduate students for special training courses to be offered next fall.

The University of Chicago and the Institute of Meat Packers are cooper-

ating in offering this set of courses which will combine practical work in the packing plants of Chicago, and collegiate work in meat packing and related subjects. The courses will last nine months and will be open to 20 men selected by Professor Rhoades and Doctor Hess. Selection will be based upon scholarship and personality and several scholarships, amounting to about \$500 each, will be offered to the men chosen.

At the end of the training period, these men will be placed in positions in various parts of the country where they can follow the line of work for which these courses have prepared them. It is probable that several K. S. A. C. students will have opportunities to take up this work next year.

Send the Collegian home.

Teddies

Immensely interesting suggestions for those who are undecided.

Colt's
The Home of Standard Merchandise

And he has lived to see it

In 1881 Edison shipped to the Paris Exposition his "Jumbo" dynamo—eighth wonder of the world. It could light 1000 lamps. Now there are G-E generators large enough to supply current for over a million lamps, each with four times the candle-power of the lamp of 1881.

The General Electric Company produces other electrical apparatus which makes it possible to transmit power over great distances. It has put electricity in seven-league boots. In its laboratories, scientists are now experimenting with voltages ten times as great as the highest now in use.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

Back in 1885, Thomas A. Edison succeeded in transmitting electricity at 220 volts for one mile—an achievement and a promise.

The promise was fulfilled a few months ago, when electricity at 220,000 volts was transmitted two hundred and forty miles to supply Los Angeles with light and power.

Now five billion dollars are invested in electric power plants. A stupendous figure that testifies to the alertness of thousands of college-trained men who have been leaders in the production and use of electric power.

The electrical era has only dawned. Each year some new machine or discovery makes it possible to apply electricity in unexpected ways. The graduate of today will find electricity directly or indirectly a means for even greater accomplishments, no matter what his calling in life may be.

GENERAL ELECTRIC
GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

DOPE IS GOOD FOR TRIANGULAR

AGGIES HAVE SEVERAL SURE POINT WINNERS

Meet at Lincoln Tomorrow Will Be
Toss-Up Between Nebraska,
Kansas, and Aggies

Twelve members of the Wildcat track squad will meet the Jayhawkers and the Cornhuskers at Lincoln tomorrow in a triangular meet.

The Aggies probably will win about the same number of points that have been taken in dual meets, but these same points will go much farther with three entrants, and Bachman's boys are going to make some one step to beat them out for first place.

Balzer and Kimport Sure

Balzer and Kimport are two of the Aggies who are certain point winners. Balzer runs the mile and the two mile, in which he holds the indoor record and has beaten the outdoor record. Kimport holds the Valley indoor record in the mile and is in a fair way to set new records in the outdoor mile and half-mile races this spring. Neither man has encountered stiff competition from outside schools this year.

John Gartner is expected to win the discus throw, since he has beaten the Kansas entry and Nebraska is not considered to be especially strong in the weight events. Brunkau also should take some points in the shot put and javelin throw. He won the shot put at Lawrence and took second in the javelin throw.

Carter in the Vault

Phillip Carter is slated to take either a first or second in the pole vault, depending on whether or not he can out-vault the man with whom he tied for second at the Kansas relays.

Davis probably will meet strong competition in the hurdles, although he may net some points along this

line. The quarter miler, Knouse, Brockway or Russell, should be able to take a second for the Aggies.

If the Aggie mile relay team is to win it will have to better, by several seconds, the time it has been making in dual meets recently.

CITY POOL OPENED TODAY

Swimming Begins This Afternoon—
Gartner and Miller Life Guards

The municipal swimming pool in the city park will be formally opened today at 1 o'clock, according to an announcement from the office of the city clerk. Water was let into the pool two days before the opening in order to have the chill taken off before it was used by the public.

Opening day for the pool has been placed fifteen days in advance this year to enable college students to take advantage of it before the closing of the spring semester. Arrangements have been made to have the pool kept open fifteen days later next fall, to accommodate college students, it was said.

Paul Gartner and L. E. Miller, both members of the Red Cross Life Saving corps of the college, and who have passed all life saving tests, will be the life guards. The regular sche-

dule for the pool from today until June 1, will be: open at 1 o'clock every afternoon, and close at 9 o'clock in the evening.

Beginning June 1, the pool will be open at 8 o'clock in the morning and remain open until 9 o'clock at night. There will be certain hours each day when swimming will be taught by the life savers. All the facilities of the pool are free to the public.

The cooperation of the local chapter of the Red Cross with the city officials enables the putting on of extra life guards and the giving of free instruction. Mrs. Carrie L. Ryan has been appointed hostess at the pool.

ENTOMOLOGISTS ORGANIZE

New State Association Formed Recently at College

The newest scientific organization in Kansas, the Kansas Entomological society, was formed at a meeting of entomologists at the Kansas State Agricultural college recently. Dr. Paul B. Lawson, Lawrence, was elected president of the society and Prof. J. W. McColloch, Manhattan, was named secretary. The scientists present at the organization meeting were the guests of the Popenoe Entomological club of the college.

A committee of the association was appointed to compile a check list of insects of Kansas. Warren Knaus of McPherson, who brought up the proposition, R. W. Beamer, Lawrence, and H. R. Bryson, Manhattan, will begin the work on the list. From five to 10 years will be required to bring the project to completion. The list will form a catalog of all insects which occur in the state, giving distribution in Kansas, biological notes, habits, whether injurious or bene-

ficial and other facts of value to scientists.

The Kansas Entomological society will hold its meetings annually in connection with those of the Kansas Academy of Science.

The program of the all-day meeting here included, besides the organization and business meeting of the society, an inspection of the experimental work of the K. S. A. C. department of entomology and an informal program.

Davis Goes to Kanopolis
Professor H. W. Davis will be a commencement speaker at Kanopolis. He will discuss "Creative Thinking."

"Of course Mr. Rockefeller is an uplifter, look at the price of gasoline," snorts the Russell Record.

It will be much appreciated if the person who took the blue silk umbrella out of A66 will return it.

WOMEN'S FIELD DAY TOMORROW

Track, Tennis, Baseball and Archery
on Program

Women's Field day will be held Saturday, May 16, on the women's athletic field, east of the gymnasium. The events of the day will include track, tennis, baseball, and archery.

The track meet is scheduled at 10 o'clock Saturday morning. Tennis singles at 11. A baseball game at 2:30 in the afternoon. An archery tournament at 3, and at 4 tennis doubles.

Girls entered in the archery tournament are: Freshman—Hazel Mahon and Margaret Tamm. Sophomore—Ira Fulhage and Evelyn Peffley.

The track squads are as follows: Freshman—Dorothy Joiner, Mildred Huddleston, Maurine Burson, Alice Uglow, captain; Dorothy Brooks, Lois Burkhardt, Grace Taylor, and Clara Long.

Sophomore—Clarella Odell, Kathryn Kimble, Dorothy Zeller, Inez Jones, Marie Farmer, Ruth Hubbard, and Merle Nelson, captain.

Junior—Ida Conrow, Thelma Coffin, Rachel Herley, Josephine Trindle, captain; Louise Magaw, Genevieve Tracy, Avis Wickham, and Anna Jacobs.

Senior—Laurea Thompson, Nille Kneeland, and Dorothy Willits, captain.

**TREAT RACER AT HOSPITAL
FOR INJURIES FROM CONTEST**

Imported Greyhound Sent Here for
Veterinary Cure

A distinguished patient at the veterinary hospital this week is Mel-shum Burr, an imported English greyhound, said to be one of the fastest racing dogs in the country.

He was sent here for treatment from Ottawa, Kan., where he injured a foot in a recent coursing meet at that city. Two bones in his foot were removed by the veterinary doctors and he is rapidly improving now from the operation.

The dog is owned by W. Machin of Norton.

PLAINS CLUB HIKE SUNDAY

Object of Hike Is the Identification
of Different Birds

The Plains club will go on a hike at 5:30 Sunday morning. The hikers are to meet at the residence of Dr. Mary T. Harman, 1430 Poyntz.

Various parks will be visited in order to identify different birds. Any one interested in birds is invited to come, whether or not they are members of the club. Doctor Harman will be in charge of the hike.

Launches Educational Campaign

Alpha Phi Alpha, negro fraternity, has launched a Go-to-High-School, Go-to-College campaign from May 11 to 17 inclusive. There are fifty chapters of the Alpha Phi Alpha fraternity in the United States. Their purpose is to uplift and better the negro race and mankind through the education of its youth.

Sorority Joker Relay

The second annual Inter-Sorority Joker relay will be one of the features of the Missouri Valley interscholastic relays tomorrow at Stadium field. Each sorority is eligible to have its entry, and to use almost any tactics to make its entry win.

The Joker is in the fact that the men run for the women. Any man in school is eligible as an entrant, if he can find a sorority to ask him. Track men or men who never saw the track, it makes no difference.

Teams are limited to four men each, and each man is supposed to be able to run the distance. The sororities pick the men and the men run the race.

An inter-fraternity mile relay also will be a feature of the race. This is a serious event, however.

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, TUESDAY, MAY 19, 1925

NO. 6

SCHOLARS WIN PUBLIC PRAISE

RECOGNITION DAY SERVICES NAME NEARLY 200

Outstanding Students and Honorary Society Members Rewarded in Formal Ceremony

Evidence of the growing importance of scholastic standing at K. S. A. C. was shown when nearly 200 students were formally recognized at chapel last Friday morning for their scholastic attainments. This is the second annual Recognition service.

Dean L. E. Call of the Agricultural division recognized the following members of teams that have served this year in that department. Stock judging team—G. F. Ellis, E. C. Smith, H. H. Carnahan, C. C. Huntington, R. W. Russell, R. E. Sears.

Dairy judging—Walter J. Daly, O. L. Norton, Frank Hagan, A. R. Sargent.

Crop judging—G. M. Read, J. E. Norton, O. L. Norton, C. W. Bower.

Poultry judging—H. A. Stewart, Stanley Caton, W. J. Kraus, R. W. Fort.

Junior Livestock judging team—Mary Halse, Lionel Holm, A. C. Hoffman, T. M. Kleinenberg, W. H. Atzenweller, W. W. Taylor.

Local contests were won in Dairy judging by C. W. Thole, senior division; H. A. Stewart, junior division; grain judging by A. G. Jensen, senior division, and A. Watson, junior division; livestock judging by Lionel Holm, senior division, and A. D. Lovett, junior division.

Gamma Sigma Delta

Gamma Sigma Delta, honorary senior fraternity for agriculture and closely related subjects, has elected the following this year: M. E. Crouse, H. A. Noyce, W. J. Daly, G. M. Reed, G. A. Read, G. W. Montgomery, Glenn Wood, G. F. Ellis, Hugh Willis, F. E. Hull, Armer Porter, L. W. Taylor, H. I. Richards, J. R. Swallen, P. B. Sawin, P. A. Miller, L. C. Williams, F. D. Ruppert, H. B. Steup.

Alpha Zeta, honorary undergraduate fraternity of agriculture students, has elected the following members this year: O. L. Norton, D. E. Lathrop, R. W. Fort, R. M. Karns, H. A. Brockway, A. C. Hoffman, C. W. Thole, H. H. Brown, L. B. Harden, R. H. Davis, Russell Reitz, Stephen Raleigh, A. I. Balzer, Fred P. Eshbaugh, T. M. Kleinenberg.

Individual honors were given to Hale H. Brown, winner of the Alpha Zeta freshman scholarship medal.

Engineering Division

In the department of engineering the following prizes were awarded: Lorenze Schmidt, lettering prize; Harold M. Souders, first prize, \$15; Ben Friedel, second prize \$10; Norman E. Palmquist, third prize, \$5. Freshman prize for landscape architecture—Lynn G. Fayman. Freshman prize for excellence in architecture, presented by Alpha Rho Chi—Stanley B. Morse. Prize for cover design of Extension Bulletin, Frank P. Gross, first, Wilber Oakes, second. Prizes of the Kansas Society of Architects to the junior in architecture of the highest standing for this year, Ben Friedel, \$20. Medal of the American Institute of Architects for general excellence in architecture—Norman L. Roberts.

Honorable mention by Sigma Tau for scholarship was made of Rushton Cortelyou, Owen G. Rogers, Stanley M. Fraser, Harold M. McNiff, John Yost, Paul E. McReynolds, Harold M. Souders, John O. Johnson.

Sigma Tau members elected this year include: Roy Bainer, Ralph L. Beach, Howard O. Bennett, Kenneth K. Bowman, George J. Fiedler, Leo E. Garrison, William T. Howard, Harry Isham, George A. Johnson, Archie R. Lloyd, H. Dale Nichols, Philip M. Noble, Keith P. Nowell, Alton B. Nuss, Harold M. Porter, La Verne H. Raynesford, Benjamin A. Rose, Christian Rugh, Lawrence O. Russell, Lester W. Servis, John R. Stebbins, Carmen C. Tate, Delos C. Taylor, Charles Turnpseed, Leo K. Willis, Hervey A. Wright.

Division of General Science

Report of honor societies connected with the division of general science was given by Dean Willard and the following students elected this year were included:

Mu Phi Epsilon, honor music society for women, Esther Ankeny, Jessie Bogue, Lucille Evans.

Phi Mu Alpha, professional music fraternity for men, Professor E. V. Floyd, Dr. R. C. Smith, C. B. Wise, Harry Erickson, Iru Price, Floyd Strong, A. C. Hoffman, Ashley Monahan, Louis Barber, Roy Bainer, Russell Reitz, R. D. Bradley.

Phi Alpha Mu, junior and senior women outstanding in college life and scholarship: Myrna Smale, Anna

Nohlen, Leona Krehbiel, Elma Hendrickson, Geneva Faley, Louise Magaw, Mrs. Daisy Floyd, Ruth Hochuli, Nora Yoder, Bernice Issitt, Charlotte Swanson.

Purple Masque, dramatic fraternity: Milton Kerr, Muriel Shaver, Jack Kennedy, Charlotte Swanson, Rebecca Thacher, Agatha Tyler, Helen Vanquist, Lynn Fayman, Arthur Maxwell, James Price, Floyd Strong, Lois Grasty, Betty McCain, Helen Bennett, Gene Conklin, Lionel Holm, Ralph Mohrli.

Quill Club: Mary Louise Clarke, J. E. Conklin, Robert W. Conover, William Dalton, Leland Gibson, Anna Jacobs, Mary Marcene Kimball, Charles W. Matthews, Grace Powell, Muriel Shaver, Zaven K. Surmellan, Russell Thackrey, Sam Thackrey, Birdie von Trebra.

Scabbard and Blade

Scabbard and Blade, honorary military organization: Eric T. Tebow, H. Wayne Rogler, Lyle C. Read, E. L. Canary, R. W. Fort, W. H. Schindler, E. B. Coffman, Alton B. Nuss, R. E. Kimpert, C. E. Rugh, Dale Nichols.

Sigma Delta Chi, men's honorary professional journalistic fraternity: M. M. Beeler, Louis Childers, Byron Short, Kenneth Chappell, Fred Shideier, R. I. Thackrey, Newton Cross, Gene Conklin, Gerald Ferris, S. I. Thackrey.

Theta Sigma Phi, honorary fraternity for women in journalism: Miriam Dexter, Lucille Potter, Alice Nichols, Mary Marcene Kimball, Erma Jean Huestead, Ruth Bachelder, Lillian Kammeyer.

Pi Kappa Delta, honorary forensic society: James Price, Paul Pfuetzner, Frank Morrison, Frank Glick, Emil Sunley.

Phi Kappa Delta, men's professional fraternity in education: Bernard Harter, Herbert H. Carnahan, E. Willard Larson, Adolph Jensen, Ralph Eaton, Max Manley Hoover, Delbert F. Emery, Lloyd A. Spindler, George Montgomery, Cecil R. Ryan.

Teams for intercollegiate debates have been composed of these students: Phyllis Belknap, Roxie Bolinger, Helen Correll, Raymond H. Davis, Alice Englund, Kingsley Given, Frank Z. Glick, Mary Halse, Robert E. Hedberg, Inez Howard, Mary Marcene Kimball, Ralph Lashbrook, Mildred Leech, Frank B. Morrison, Paul Pfuetzner, James Price, Emil Sunley, Charlotte Swanson, Cecil Walt, Forrest Whan.

Home Economics

Dean Justin of the division of Home Economics read the names of the recently elected members of Omicron Nu, honorary home economics fraternity. They included: Mrs. Lucille Rust, Mary Dey, Mabel Lamoreaux, Mabel McComb, Myrtle Levan, Grace Steininger, Constance Holfee, Josephine Brooks.

Helen Dean was awarded a prize of \$10 by Omicron Nu. She is the freshman girl having the highest scholastic standing for the year.

In the division of veterinary medicine the following prizes were given: a faculty prize of \$30 donated annually by the veterinary faculty to the student making the highest average grade in the veterinary curriculum during the four years of attendance. The prize was awarded to Floyd Edgar Hull. A prize of \$15 offered to the student making the highest average in pathology was won by M. Armer Porter. A prize of \$15 offered to the student making the highest average in veterinary clinics was won by Mr. Elmer William Young. The \$15 prize offered in surgery was won by Mr. Harold Lincoln Church.

KAPPA PHI ALPHA WINS

Defeats Alpha Sigma Psi in Local Fraternity Play-Off

The Kappa Phi Alpha fraternity won the local division in baseball yesterday when they defeated the Alpha Sigma Psi nine, 2 to 0. The game was a play-off of a tie between the two teams.

Marsh, pitching for the winners, allowed one hit, fanned 10 men, and only allowed one man to reach first in the five inning game.

Two Reasons for Absence

"I have always hoped to be able to attend my class reunion," writes Elsie (Baird) Brady, '15, in sending her regrets to the '15 reunion committee. "I feel I have an apology to make to the class for spilling class day by sliding off that merry-go-round. Too, I wanted to thank them personally for their many kindnesses to me during my stay-in after the accident."

"I am inclosing pictures of two principal reasons for my being absent from the reunion. We are very busy. We have a machine shop equipped with a cylinder grinding machine, an electric welder, an acetylene welder, two lathes, and numerous other accessories. Business will not allow us to run away and leave it."

WICHITA MAKES A WORLD RECORD

SIX OTHER MARKS BROKEN IN RELAY CARNIVAL

High School Athletes Show Speed and Nerve, Running in Cold on Wet Track

While more than a thousand persons, unimpaired of cold weather and cloudy skies, watched from the grandstands, the high school athletes here for the Fourth Missouri Valley Interscholastic Relay Carnival stepped around the track to a tune which smashed seven carnival records and one world record Saturday.

Wichita high school, after running second to Northeast of Kansas City in the 880-yard relay, upset the dope by beating Northeast in the 440-relay, in which the Kansas City team held the world record, and setting a new mark for all the high school teams to shoot at. Messers. Brickell, Center, Baird, and Updegraff, stepped that 440 in 44.9 seconds, whereas Northeast had run it here last year in 45.1, thereby establishing a world record.

Thornhill High Man

Thornhill of Protection, runner-up last year for high point honors, cleaned up this year with two firsts, in the shot and discus, and a second in the broad jump. Ed Ash of Argentine, Kansas City Kan., his runner-up, however, won plenty of applause by winning the only two races in which he was entered and setting new carnival records in both. Ash ran the 440-yard dash in 51.4 seconds and the 880-yard run in 2 minutes, 4.5 seconds.

Seven Records Down

The other carnival records broken:

220-yard low hurdles, won by Sells of Chase county, 25.5 seconds; 2-mile relay, won by Woodward, Okla., 8 minutes, 35.3 seconds; mile relay, won by Northeast, 3 minutes, 39.9 seconds; pole vault, won by Craig, Osawatomie, 11 feet, 8 1-8 inches. Woodward, Okla., holder of the carnival record in the mile relay, lost that event to Northeast this year, and in turn won a new record in the two-mile, which was held last year by Northeast.

In the joker relay, held as a feature race, the representatives of Delta Zeta won first place. Phi Kappa won the interfraternity relay.

The summary: 220-yard low hurdles—Won by Sells, Chase county; Thomas, Carrollton, Mo., second; Updegraff, Wichita, third. Time, 25.5 seconds. (Carnival record, 26.3.)

2-mile relay—Won by Woodward, Ok.; Florence, Kan., second; Beatrice, Neb., third. Time, 8:35.3. (Carnival record, 8:47.5.)

100-yard dash—Won by Lasher, Abilene; Puckett, Hutchinson, second; Darrow, Junction City, third. Time, 10.2 seconds.

440-yard dash—Won by Ash, Argentine; Arnold, Wamego, second; Brown, Chase county, third. Time 51.4 seconds. (Carnival record, 51.4-5.)

Discus—Won by Thornhill, Protection; Forns, Osage City, second; F. Braun, Council Grove, third. Distance, 123 feet 1 1-4 inches.

Medley relay—Won by Florence, Kan.; Junction City, second; Hutchinson, third. Time 8:11.8.

High jump—Won by Woodson, Hutchinson; Welchon, Hutchinson, second; Offutt, Northeast, third. Height, 5 feet 8 3-4 inches.

Javelin—Won by Travis, Independence; Kennedy, Mendon, Mo., second; Caughran, Manhattan, third. Distance, 153 feet 9 inches.

880-yard relay—Won by Northeast, Kansas City; Wichita, second; Hutchinson, third. Time, 1:35.

Pole vault—Won by Craig, Osawatomie; McFarland, Central, Kansas City, second; Joy, Ravenswood, Mo., third.

Mile relay—Won by Northeast, Kansas City; Central high, Kansas City, second; Junction City, third. Time, 8:39.9. (Carnival record, 8:40.5.)

SECOND ALUMNI-SENIOR

BANQUET PLANS ANNOUNCED

Senior Attendance Will Be 100 Per Cent—Grimes Named as Toastmaster

Members of the graduating class will be guests of honor of the K. S. A. C. Alumni association at the annual senior-alumni banquet to be held in Nichols gymnasium at 6 o'clock Wednesday evening, May 27, according to an announcement from R. L. Foster, secretary of the association. Invitations have been issued to all alumni and to all seniors and graduate students receiving degrees, either at Commencement time or at the end of summer school.

Last commencement was the first time the alumni entertainment of the graduating class has been in the form of a dinner. Formerly a luncheon immediately following the commencement exercises has been given the class. The new plan, however, met with such popularity that it has been adopted as a definite feature of the commencement program.

Attendance at the banquet last year reached 550, and included the majority of the senior class. Response from the seniors this year indicates that the class will attend almost 100 per cent. Secretary Foster stated, Wednesday evening before commencement will be a closed night so that the date will be entirely free for the alumni entertainment.

The banquet is open to all members of the graduating class and their guests, to the faculty, alumni, former students and friends of the college. Special tables will be reserved for reunion classes and for the graduating class. Reunions will be held this year by the '95, '00, and '15 classes.

"We want the members of the graduating class to know that the banquet is especially for them," Secretary Foster said. "They are to be entertained by the alumni association. Guests visiting the students also will be welcome. Members of the '25 class and their guests will be seated at special tables. The committee in charge of the banquet requests that they enter the gymnasium from the east doors. Alumni and faculty will enter from the west doors.

"The banquet program will be entertaining. Speeches will be short and few in number. W. E. Grimes, president of the alumni association, will be toastmaster. F. D. Farrell will be presented to the visiting alumni for the first time as college president. A member of each of the reunion classes and the graduating class will appear on the program."

Stunts and surprise numbers are being arranged by a committee including members from the graduating class. Following the banquet a short mixer will be held in the gymnasium. Dancing will begin at 9:30 o'clock.

Seniors and graduates are urged to order their tickets as soon as possible, either through the college mail or in person at the alumni office in Anderson hall. A committee will conduct a ticket sale among the faculty and Manhattan folks during the present week.

Washington Wins Tennis

Washington university tennis team won its match with the Kansas Aggies here Saturday afternoon by winning both the singles matches and the doubles.

Captain Fared of Missouri defeated Captain Sappenfield of the Aggies in straight sets, 6-2, 6-4. Bierman, of the visitors, defeated Dayhoff, 6-8, 6-2, 6-1; and Bierman and Fared won from Dayhoff and Sappenfield, 7-5, 6-0.

COMMENCEMENT ADDRESSES

HIT ECONOMICS DEPARTMENT

High School Exercises Keep Many Professors Busy

Members of the department of economics and sociology at the college are making several commencement

addresses this month for high school graduation exercises in different parts of the state.

Prof. Walter Burr gave the commencement address at Hill City, May 13; at Kingsdown, May 14; and at Jamestown, May 15. He also made a talk before a meeting of the Chamber of Commerce at Ellis, May 14.

Prof. T. J. Anderson, also of the department of economics and sociology, spoke at the commencement exercises of the Clayton high school May 14, and of the Norcatur high school May 15.

Dr. J. E. Kammeyer will address the exercises at Colby, May 21, and at Winona, May 22. The subject of his addresses will be "Five Programs of Living."

With Wholesale Grocery Firm

Aaron E. Pearson, '14, writes to the college, telling something of his work, and says that he takes pleasure in attaching his check to cover current alumni dues. Pearson is buyer and assistant in sales for the Griffin Grocery company of Muskogee, Okla. He writes, "I have been connected with the wholesale grocery business since 1919 and have been with this firm for the last four years. We recently moved our general offices from McAlester to this city. This firm is probably the largest in Oklahoma, or in this section of the country."

WAZALWAR WINS INTRAMURAL

TENNIS SINGLES FROM WERTS

Price and Springer, Phi Deltas, Take the Doubles

G. V. Wazalwar, unattached, won the intramural tennis singles Thursday, May 14, by defeating George Werts, Lambda Chi Alpha, in the finals match. The score was 6-2, 6-4, 5-7, 6-1.

M. Donaho, Delta Tau Delta, lost to Wazalwar in the first bracket of the semi-finals. Evans, Beta Theta Pi, was defeated by Werts in the second bracket of the semi-finals.

J. F. Price and J. A. Springer, Phi Delta Theta, won the doubles. In the first bracket of the semi-finals Price and Springer won from C. M. Horn and Sherman, Alpha Sigma Psi. In the second bracket George Werts and R. Grubb, Lambda Chi Alpha, defeated Kirk and Evans, Beta Theta Pi.

The matches have been going on for the past three months. Entries this year in both the singles and doubles far exceeded those of previous years.

ENGLUNDS SAIL FOR EUROPE

Appointments by U. S. D. A. Take Instructors on Extended Tour

Prof. Eric Englund and Mrs. Englund will sail on the Leviathan next Saturday for Europe where they will spend the summer in travel and study. Both Mr. and Mrs. Englund have been appointed collaborators in the United States Department of Agriculture and have credentials from the secretary of agriculture to facilitate their studies abroad.

They expect to spend at least three weeks in England where Mrs. Englund, who is head of the department of household economics at the college, will make a study of the nursery schools in London in the interest of child welfare work, her particular field.

Mr. Englund is particularly interested in taxation in the Scandinavian countries, especially as related to the taxation of land. While abroad, he expects to make contacts that will be helpful to him in this study. He is especially interested in the way in which those countries meet a portion of the public expense through indirect taxation. In his preliminary studies he has found that some of the Scandinavian countries have adopted taxation policies whereby an important part of the revenue is obtained from taxes on non-essentials, thus reducing the burden on land and on necessities of life. His reading knowledge of the Scandinavian languages will enable him to use the official reports which have not been translated into English.

Mr. and Mrs. Englund will travel through Sweden by way of the Göta canal, one of the most scenic inland water routes in Europe. They will spend some time in northern Sweden, where Mr. Englund was born, and will visit Lapland and the North Cape. The return trip will be made through the fjords of Norway to Bergen.

RIFLE TEAM TWELFTH

Aggie Team Rates High Among 77 Entries

The K. S. A. C. rifle team placed twelfth in the Hearst trophy match, according to word just received by Captain Waltz. The men who fired in this match were: E. E. Howard, E. Miller, D. C. Taylor, V. C. Hill, Cecil Walt, T. H. Long, and R. L. Roberts.

Seventy-seven college teams were entered in the shoot.

TALES OF ELVES ARE TRUE AGAIN

"LAND OF NOD" BRINGS DREAM FAIRIES TO LIFE

Mother Goose and Her People Play on Stadium Field in Annual May Fete

Fairy tales came true Friday afternoon on Stadium Field. The people who live in stories for little people came out and danced on the green. All the "little folk" who have been the dream and the idol of children since the beginning of time came forth in spirit and in flesh to prove to a world surfeited with work and worry that imagination is a vital part of living.

The theme was taken from R. L. Stevenson's "Land of Nod" poem. An elevated archway twined with roses, with nature's out-of-doors, was the stage setting. A parade including all the characters in the Land of Nod was led by the little tin soldiers. The procession included children, the Sandman and his company, Makers-of-Dreams, Bogy-Bogy man with brownies and bats, Yama-Yama girls with jack-o'-lanterns, South wind with bees and butterflies, Mother Goose's company, toys, dolls, sugar plums, gingerbread men, and stick candy. All these characters were followed by 64 Manhattan grade school children who later wound the Maypoles.

Sandman Brings Fairland

The two children first danced on the field, while grouped about them were the Sandman and his company, attempting to make them sleepy. Finally, they succeeded and the children fell asleep on either side of the arch. While they slept, they dreamed and their dreams were of Fairland. The Makers-of-Dreams first entered and danced. Then the Bogy-Bogy man with the brownies and bats appeared and performed.

Dances by the Yama-Yama girls with the jack-o'-lanterns, and the South wind, with bees and butterflies, followed. Mother Goose and her friends, Jack and Jill, Humpty Dumpty, Old King Cole and his wife, Red Riding Hood, Puss in Boots, and Little Miss Muffet next entertained the children in their dreams. A march of the toys included drums, tops, balls and blocks. When the blocks finished their performance, they stood by the arch, spelling W. A. A. and K. S. A. C.

Dance of the Dolls

Rag dolls and jointed dolls danced, the rag dolls with considerable loose jointedness. A company of tin soldiers then drilled. In the children's dreams also appeared things to eat, which came to life and danced. These included the gingerbread men, sugar plums, add stick candy. Then the spring fairies came after everyone else had gone and took Fairland away.

Four May poles, with green and white streamers, were wound by the 64 grade school children, dressed in white.

Miss Ruth Morris, Miss Geneva Watson, and Miss Myra Wade of the athletic department arranged the dances and had charge of the fete. Costumes for the fete were planned by Miss Florence Clark, of the art department, and added reality to the presentation. The college band played during the portrayal of the Land of Nod.

ROBERTS WINS MEDAL

Award by American Institute of Architecture Goes to Senior

Norman L. Roberts of Manhattan, graduating student of the department of architecture at K. S. A. C., has been awarded the student medal of the American Institute of Architecture. It has been announced by Prof. Paul Weigel, head of the department. This medal was awarded by the institute to Mr. Roberts for general excellence in architecture.

Roberts has been active in student affairs during his college career. He is a member of the varsity track team, having won his letter in the high hurdles. He also is art editor of the Royal Purple.

Women's Varsity Chosen

The women's varsity baseball squad has been chosen from the class teams which were selected several weeks ago.

The team is composed of the following girls: Vera Alderman, Arrington; Helen Batchelor, Manhattan; Ethyl Danielson, Concordia; Ruth Hubbard, Barnes; Anna Jacobs, McCune; Eldelle Johnson, Olsburg; Merle Nelson, Jamestown; Clarella Odell, Manhattan; Marjorie Streeter, Hiawatha; and Dorothy Zeller, Manhattan.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college.
Published every Tuesday and Friday of the college year.
Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

TUESDAY, MAY 19, 1925

COMMENCEMENT WEEK

President F. D. Farrell has made an appeal to all seniors to take part in the exercises of commencement week. The Collegian is taking this opportunity of publishing parts of the president's letter in the belief that the suggestions made may be of value to future probable graduates as well as present seniors.

"The exercises of Commencement week are provided as a fitting close to the period which you have spent at K. S. A. C. They are provided for your benefit and in your honor.

"Most of you are eager to get away from college so as to enter upon your life work. Sometimes this eagerness causes seniors to wish to slight the affairs of commencement week. For most of you commencement will come but once. For this reason you should make the most of it. It is to your interest that the events of Commencement week be inspiring, pleasurable, and well attended. You will realize the value of these events more keenly in 10 or 20 years from now than you do at present.

"Preparations are being made for the best Commencement week ever held at K. S. A. C. You owe it to yourself, to your class, and to your Alma Mater to attend these affairs. Your presence will make each event a success. By attending you will exhibit the spirit of courtesy and the attitude of appreciation which characterize high class college men and college women, and you will contribute to the perpetuation of the best ideals of your class and your college."

On Other Hills

Afternoon classes are being held at Princeton for the first time in 20 years.

Seven dollars per month will send a man through school in China, board and room included.

A law student at Stanford university picked up a hearse at a bargain and took seven of his friends to their homes in Los Angeles to spend spring vacation.

Statistics in the Delaware Review show that college enrolments annual-

ly increase 6 1-2 per cent more than the increase in population.

The University of Alabama students competed in a five-mile walking contest on April 22. The winner's prize was a pair of shoes.

Sixty-one per cent of the automobiles at Colorado university are Fords, and 302 or more than 630 at Minnesota are of the same family.

Basketball receipts at Washington university were greater than football receipts. 54,134 spectators attended the games played by Washington this year.

Students at Purdue university have petitioned for more comfortable chairs in the class rooms.

The University of Iowa next fall will build a new Feld house which will include nine tennis courts, a private basketball floor, an indoor golf room, 5,000 lockers, 50 showers, an equipment room, regulation size gridiron, a baseball diamond, and other conveniences.

Investigation at Michigan Ag. college showed that coeds take 4,000 more steps a day than men do.

A 290-pound man is on the track team at the University of Wisconsin this spring.

John H. Wigmore, dean of the school of law of Northwestern university, lectured at K. U. recently on "The World's Legal Systems." Dean Wigmore is probably best known for his five volume work on the law of evidence, a work which has had a very definite influence on the Kansas law of evidence.

LIVESTOCK FEEDERS MEET IN ANNUAL CONVENTION

Meeting Will Be Held May 23—Lasater Will Speak

The livestock feeders' convention held annually at the Kansas State Agricultural college, one of the important livestock events of the year in this section of the country, will take place May 23.

A limited number of speeches upon factors affecting vitally the whole livestock industry by nationally recognized authorities in their particular line of work, and reports on feeding tests conducted by the department of animal husbandry during the current year are outstanding features of the program.

"A discussion at this year's convention of what the federal intermediate credit banks can and can not do for the livestock industry by Milas Lasater, president of the federal intermediate credit bank, Wichita, should be of particular interest at this time not only because of the prominence given this particular institution in the report of President Coolidge's agricultural commission but also because of the present livestock situation, particularly in the western range states," commented Dr. C. W. McCampbell, head of the animal husbandry department.

"There is undoubtedly an opportunity to increase domestic consumption of meat, and the national livestock and meat board is attempting to make the best of this opportunity for livestock producers. R. C. Pollock, secretary and manager of the

organization, will discuss what has been done during the past few years and what can yet be done to stimulate meat consumption in the United States."

CONFERENCE FIRST OF SERIES

Experiment Workers Inaugurate Annual Meetings

The conference of branch experiment station workers held at K. S. A. C. recently was the first of a series of annual conferences. L. E. Cail, director of the Kansas agricultural experiment station, announced at the conclusion of the meeting. The date for next year's conference will be set later.

Meetings of the conference were largely of a round table, discussion order, but part of the time was spent in observation of the experiments under way at the main station here. Discussions of experiments and data taken, and of problems encountered at each station were presented by superintendents and workers.

FAMILY WILL HAVE REUNION AT ALUMNI-SENIOR BANQUET

Forty Years of Unbroken Attendance Will Be Celebrated

John E. Thackrey, '93, pastor of the First Methodist Episcopal church of Lyons, and the first man to make a presentation speech of a class memorial to K. S. A. C., was at the college recently visiting old friends and making preliminary arrangements for a reunion of the Thackrey family at commencement time. The memorial which the '93 class left is a stone in Fairchild hall.

The Thackrey family has the unique record of 40 years of unbroken attendance at K. S. A. C. The family was first represented here in '78 when a sister of the Rev. Thackrey attended. Since '85 the attendance of the family remains unbroken. According to plans for the alumni-senior banquet, the Thackrey family will have a special reunion table at the banquet and will have a representative on the evening's program.

Gladys Taylor, '23, and Eugene A. Hardin were married at the home of the bride's parents in Chapman, April 11. Mrs. Hardin has been for two years a Red Cross nutrition worker in Missouri. Mr. Hardin has degrees from Baker university and Massachusetts Institute of Technology and is now employed as consulting sanitary engineer for the city of Detroit, Mich. Mr. and Mrs. Hardin will be at home in Detroit.

"How many of these young bucks who are wearing lumbermen's shirts would know an oak tree if it fell on them?" wonders the Bunker Hill Advertiser.

Lurid Language of Print Shop Made Fit for Puzzlists

Will DeVinny, a member of the printing department force at the college, who has a penchant for working cross-word puzzles, sold a puzzle last month to the Catalog Digest, a service department house organ of the Porte Publishing Co.

Under the heading, "Kansas to the Front," the April number of the Digest has the following to say about Mr. DeVinny's puzzle:

"A knowledge of printing terms, and the names of printing machinery and material used in the production of printing, is necessary in order to solve this cross-eyed, lopsided puzzle submitted by Will DeVinny of Manhattan, Kan. Will is not to be censured for making it lopsided and cross-eyed. He intimated that this was done on account of the restrictions imposed as to the class of words that would be eligible, and that he didn't like to draw upon the ordinary lurid print shop vocabulary so much in evidence when things go wrong. Will doesn't even use 'Hell Maria.'"

"If you want to know the words he really supplied for the numbered spaces, just take a slant at this array of 'horizontals' and then run your eye down the 'verticals' in numerical order. Then, if you find yourself in a quandary, call in a chiropractor to adjust your troubles."

HORN SWOGLER IS OUT

New Publication by Typography Classes Appears This Week

The "Horn Swogler," another humorous booklet, put out by the Typography department, will appear this week.

Because of the popularity of the first humorous magazine, the students wished to put out a second

LET THE A. V. LAUNDRY and DRY CLEANERS DO IT

1219 Moro Phone 701

number of the Brown Bullet but the faculty members objected. The typists held a mass meeting and then sent notice to the governing board that there would not be another issue of the Brown Bullet, by general consent of the students, but that there should be another magazine printed in its place.

An All-Addie Faculty

All the teachers in the Webster high school during the present year are K. S. A. C. graduates and all have been retained for next year, according to a letter from C. A. Brewer, '17, superintendent of the Webster consolidated schools. Besides Mr. Brewer, K. S. A. C. alumni on the faculty are Mrs. Florence M. Brewer, '18, Miss Susanna Whitten, '24, and Miss Elizabeth Curry, '24. Mr. and Mrs. Brewer have been in the Webster schools five successive years.

Stone, '92, Commended

Harry W. Stone, '92, general secretary of the Portland, Ore., Y. M. C. A., and chairman of the International educational board, is the subject of a character sketch in the April issue of The Baptist, reprinted from Association Men.

Mr. Stone has been general secretary of the Y. M. C. A. for 38 years, according to the article. He has made a remarkable record and is one

of the most successful organizers in the United States. He began his Y. M. C. A. work in Texas. He went to Portland in 1896. His association there has had to build three times in order to accommodate its growth and is now in a campaign to raise funds to erect an addition to its overcrowded building. Of Mr. Stone the article says:

"He is an evangelist turned executive. He is a small, round, bald man who fights for his cause with the pertinacity of a terrier and the courage of a lion. He is a hotel keeper, a school teacher, a religious leader, a factory superintendent, an architect of men, and a builder of men."

It pays to read the Collegian advertisement.

\$300.00 to \$1,000.00 profit can be easily made during vacation selling and delivering Humane Extension Feeders. They sell themselves, are sure repeaters and quick deliveries.

We want hustling agents with car. Write immediately for special offer to students, and send us your qualifications and references.

To the Marco Polos of 1925

DID the world hold more to be conquered in the days of courtly adventurers than it does for daring knights of '25? Does no far-off Cathay, no passage to India, beckon today?

Perhaps not; but that's no reason for disappointment. Graduates of 1925 can look about them without sighing for worlds to conquer.

There's high adventure in the lanes of business. Hidden riches underfoot. The very hugeness of modern business demands bigger vision than ever before. Thinking must be on a scale so large and unfettered by precedent as to try any man's mental equipment.

Here's where college graduates have proven their mettle. Here's where they have justified their training. And here they may indulge their fancy for exploring new fields.

SOCIAL CALENDAR

Farm House held formal initiation Sunday for the following men: Van V. Venables, Bellaire; Russell Reitz, Belle Plaine; Earl F. Carr, Byers; Glenn Wiswell, Ocheltree; F. F. Higbee, Lamar, Col.; W. N. Page, Detroit; and James R. Nuttle, El Dorado.

Chi Omega sorority entertained Saturday evening from 4 to 8 with an informal supper-dance. Baskets of spring flowers and festoons of crepe paper decorated the rooms. At 6 o'clock a buffet supper was served.

Announcement has been made of the marriage of Miss Pearl Wightman of Hutchinson and Mr. Raymond Crider of Wichita which took place Saturday noon. Mrs. Crider was a former student of K. S. A. C. Mr. and Mrs. Crider will make their home in Wichita where Mr. Crider is a salesman for a Wichita manufacturing firm.

Phi Delta Kappa, men's national professional fraternity in education, held initiation services Tuesday evening for: Max Manley Hoover, Delbert F. Emery, Lloyd A. Spindler, George Montgomery, Jr., and Cecil Reed Ryan.

Week-end guests at the Kappa Delta House were: Olive Neilson, Topeka; Crystal Shinn, Concordia; and Mildred Welton, Topeka.

Phi Sigma Kappa entertained Saturday evening with a dance at Elk's hall. The hall was decorated with flowers and futuristic paintings. Pines Serenaders furnished the music for dancing. Hand painted fans and roses were given the girls for favors. The chaperones included Mrs. Hattiwanger, Mr. R. K. Nabours, and Mr. and Mrs. E. J. Wilson.

Kappa Phi Alpha announces the pledging of J. A. McCutcheon of El Dorado.

Alpha Theta Chi entertained with a house dance in honor of its senior members on Friday night. Music was furnished by Wade's orchestra. The housemother, Mrs. K. M. Pennington, chaperoned the dancers.

Alpha Rho Chi entertained Friday evening with its annual spring

party at Elk's hall. Potted greens were used about the hall and a dropped ceiling was formed of cedar boughs. An archway wound in blue and white enclosed the orchestra pit, where Gordon's six piece orchestra from Kansas City played. Favors were crested leather cards containing programs. Special guests were Dean Mary P. Van Zile, Mr. and Mrs. R. A. Seaton, Mr. Paul Weigel, Mr. F. A. Kleinschmidt, Mr. and Mrs. F. J. Cheek, Jr., Mr. and Mrs. Henry Wickers. Out of town guests were Miss Claire Hoelzel, Lawrence; Miss Orpha Hinkley, Kansas City, Mo.; Miss Gertrude Wickers, Downs; Everett Wickers, Downs; Mr. Allen Ingie, Kansas City, Mo.; Mr. and Mrs. Merle Padgett, Hutchinson; Myron Soupe, Hutchinson; Albert Ruggles, Salina; and Leland Roberts, Ogdon. Mrs. Libbe Halse, housemother, chaperoned the party.

Dinner guests at the Alpha Tau Omega house, Sunday, were: Mr. and Mrs. Ira Pratt and daughter, Mary Katherine, Mr. Harry Lamont, Mr. J. H. Henry, St. Francis, and Misses Winifred Clark, Alice Laine, Orille Eubanks, Diantha Walker, Mildred Troutfetter, Mary Henry, Adella Walker, and Olive Neilson of Topeka.

Miss Betty Cartmell and Miss Thelma Mebus of Kansas City were week-end guests at the Delta Delta Delta house.

Pi Beta Phi will entertain this evening with a dinner in honor of their housemother, Mrs. Elizabeth Warner. The guests will include Dean Mary P. Van Zile, Mrs. W. M. Jardine, and the housemothers of the fraternities and sororities.

Miss Anna Sturmer entertained the Phi Omega Pi sorority with an informal party at the Country club Saturday evening. Special guests were Mrs. W. M. Jardine, Mrs. J. T. Willard, Miss Florence Heizer of Topeka, and Colonel and Mrs. F. W. Bugbee.

Prof. J. O. Faulkner of the English department delivered the baccalaureate address Sunday evening before the graduating class of Wheaton. On Thursday Professor Faulkner will make the high school commencement address at Louisville and on Friday at Belvue.

Miss Clarice Painter, Miss Grace Hesse, Miss Emily Bennett, Miss Ruth Hartman, Miss Mary Polson, and Miss Izil Polson entertained 135

guests at a reception and tea on the lawn of their home, 830 Bertrand, Tuesday afternoon. Delta Zeta and Kappa Delta girls were served throughout the afternoon.

The Kappa Delta alumnae entertained Sunday evening from 5 to 6 at the home of Mrs. C. W. McCampbell, 343 N. Fourteenth, in honor of the active members of that chapter. Hostesses were Mrs. A. A. Holtz, Mrs. C. W. McCampbell, Mrs. J. B. Fitch, and Miss Grace Hesse.

Miss Edythe Saylor, head of the physical education department at Washburn, spent the week end with Miss Beatrice Gates.

PFUTZE CHOSEN EXECUTIVE FOR ESTES PARK CONFERENCE

Twenty-nine Aggies Will Attend—15 Men and 14 Women

Paul Pfuetze has been elected as one of the two student executives to preside at the meetings and serve on the committees which plan and promote the first joint Y. M. C. A. and Y. W. C. A. conference which will be held at Estes Park August 22 to September 1. Five hundred delegates from various colleges are expected at the conference. K. S. A. C. will have one of the largest delegations present if the entire quota of 15 men and 14 women is filled.

Students who are interested in the Estes Park conference are meeting every Monday evening from 7 to 8 o'clock for discussion in the Home Economics rest room. At the last meeting a discussion of students and the educational system was held. Nineteen men and 29 women are showing decided interest in attending the conference at present. Each delegate is required to do a certain amount of reading of books and periodicals so they may contribute to the discussions at Estes Park.

Kent, '13, Visits

Harry L. Kent, '13, formerly principal of the school of agriculture at K. S. A. C. and superintendent of the Hays experiment station, now president of the New Mexico Agricultural and Mechanical college, visited old friends in Manhattan and on the hill last week. He came to Manhattan with L. E. Call, dean of the division of agriculture, from St. Louis where both had been attending a meeting of the directors of experiment stations. He attended the annual roundup at Hays on his route home.

The Double-Oughts Plan to Set Record At Alumni Dinner

Answers to the inquiry sent to members of the '00 class indicate that the quarter-century reunion this year may establish a record of attendance. Fifty-one members of the class are living and of this number indications are that at least 50 per cent will attend the reunion.

C. M. Correll, of the history department at K. S. A. C., is chairman of the reunion committee. He reports that the program is already planned and that committees are being appointed to take care of details of the reunion. The first number of the program is a picnic supper on the campus Tuesday evening, May 26. This picnic will be held near the class memorial, which is a cornerstone of education building, formerly occupied by the school of agriculture.

The reunion luncheon will be held in the college cafeteria banquet room, Wednesday noon, May 27. Following this feature the class will attend the annual business meeting of the alumni association. The class will have a special table at the senior-alumni banquet in the evening. A representative of the class will appear on the banquet program. A party after the banquet may or may not be held, according to the number attending and their wishes.

Answers saying they will be certain to attend the reunion have come from Elizabeth Agnew, Hays; B. R. Thompson, Randolph; George O. Green, Paradise; F. W. Christensen

and family, Fargo, N. D.; Mrs. Daisy (Hoffman) Johnitz, Abilene; Mrs. Elizabeth (Asbury) Derr, Los Angeles, Cal., (her husband, Homer Derr, '00, cannot attend); L. E. Potter, Milton, Utah; and F. B. Morlan, Courtland.

Others planning to attend but not positive that they can come are C. A. Chandler, Kansas City, Mo.; Lloyd Pancake, Gem; E. M. Cook, Monument; H. L. Dern, Montezuma; Ollie (McCurry) Walker, Plymouth; and Mary (Dillie) Hulett, Kansas City, Mo. Names in both of the above classifications are those of the class living outside of Manhattan.

EGG INSTITUTES OPEN SOON

Demonstrations and Lectures on Program for Seven Towns

Prof. L. F. Payne, head of the department of poultry husbandry, met with Mr. George Thompson of Dodge City and Mr. E. H. Pringle of Latham and Sons, Ottawa, in Kansas City, Mo., on Tuesday, May 12, to make final arrangements for seven Market Egg Institutes to be held in Kansas the last of May and the first of June.

The institutes will be held at the following places: Garden City, May 28; Dodge City, May 29; Hutchinson, June 1; Manhattan, June 2; Concordia, June 3; Topeka, June 4 and 5; Chanute, June 8.

These institutes are to be held in cooperation with the bureau of agricultural economics, Washington, D. C., the department of poultry husbandry of the Kansas State Agricultural college, and the egg buyers in the trade territories surrounding the

cities in which the institutes are to be held.

The morning program for the Institute to be held in Manhattan will consist of Egg Canning demonstrations. The afternoon program will consist of lectures on: "The Egg Buyers' Problems," "The Egg from the Hen to Market," "The Egg in Transit," and a round table discussion.

Dairy Contest Announced

A students' National Judging contest will be held, in connection with the National Dairy exposition, which is to be held in Indianapolis, October 10-17, 1925. The contest is open to students in agricultural colleges, and awards will be made on a basis of the student's ability in judging dairy products.

UNRESTRICTED NERVE ENERGY RESTORES HEALTH

The skillful drugless practitioner knows how to release the nerve energy which vitalizes the afflicted tissues and actuates the curative processes, which, in turn, neutralize and cast out the infecting poisons. Thus and thus only is health most quickly and most thoroughly restored.

AGGIES THIRD IN TRIANGULAR

NEBRASKA AND KANSAS BOTH
LEAD WILDCATS

Balzer Pulled Tendon Which May
Throw Him Out of Valley Meet
—Cold, Wet Track

On a cold day with a rain-soaked track, the Kansas Aggies went to defeat Saturday in the triangular meet with Kansas and Nebraska at Lincoln, taking the third place. Nebraska was first with a total score of 63 2-3 points; Kansas was second with 46, and the Aggies garnered 21 1-3 points.

In addition to losing the meet, the Aggies lost one of their best men when Balzer, crack distance man, pulled a tendon in his leg in the 2-mile race and limped home for a third, after he had the race won. Balzer may be out of the game for the rest of the season, Coach C. W. Bachman said today. This will set the Aggie hopes in the Valley meet at Norman back several notches.

Balzer, Gartner, and Brunkau Win

Balzer won the mile and took third in the two-mile. Gartner took the discus with a toss of 134 feet, 10 inches. Brunkau won the javelin at 143 feet, 6 inches, winning by an inch and a half. Roberts was second in the high hurdles; Carter took a tie for fourth in the pole vault.

Kimport was unable to get started on the heavy track, and took only a third in the mile. In the 880-yard run he was nosed out for third by Ross of Nebraska. Brunkau also took a third in the shot put.

Relay Finish Close

The Nebraska team won the mile relay in a whirlwind finish, leading Kansas by 10 yards and Kansas finishing only about a yard in front of the Aggies. Nebraska will meet the Aggies here in a dual meet Saturday. The summary:

100 yard dash—Won by Locke, Nebraska; Hein, Nebraska, second; Fisher, Kansas, third. Time, 10 2-10 seconds.

Mile run—Won by Balzer, Kansas Aggies; Grady, Kansas, second; Kimport, Kansas Aggies, third. Time, 4:31.

High jump—Poor, Graham, and Ferguson, of Kansas, tied for first. Height 5 feet, 8 inches.

120-yard high hurdles—Won by Weir, Nebraska; Roberts, Kansas Aggies, second; Graham, Kansas, third. Time, 17 1-10 seconds.

Javelin throw—Won by Brunkau, Kansas Aggies, 143 feet, 6 inches; Roberts, second, 143 feet 4 1-2 inches;

Almy, Nebraska, third, 142 feet, 2 inches.

220-yard low hurdles—Won by Weir, Nebraska; Dailey, Nebraska, second; Graham, Kansas, third. Time 25 3-10 seconds.

Pole vault—Won by Wirsig, Nebraska; Phillips, Kansas, second; Rhodes, Nebraska, third; Carter, Kansas Aggies, 16-pound shot put—Won by Molzen, Nebraska, 41 feet, 8 5-8 inches; Brunkau, Kansas Aggies, third. Distance, 41 feet, 4 1-8 inches.

440-yard dash—Won by Crites, Nebraska; Scherrich, Nebraska, second; Beckord, Nebraska, third. Time, 51 4-10 seconds.

Two-mile run—Won by Pratt, Kansas; Grady, Kansas, second; Balzer, Kansas Aggies, third. Time, 19:03 2-10, and Gleason, Nebraska, tied for fourth. Height 12 feet.

880-yard run—Won by Lewis, Kansas; Houdersheldt, Nebraska, second; Ross, Nebraska, third. Time, 1:59 9-10. Discus throw—Won by Gartner, Kansas Aggies; Conley, Kansas U., second; Hanna, Nebraska, third. Distance, 134 feet, 10 inches.

Broad jump—Won by Goodell, Kansas U.; Graham, Kansas U., second; Rhodes, Nebraska, third. Distance, 22 feet, 3-4 inch.

Mile relay—Won by Nebraska (Dailey, Beckord, Scherrich, Crites). Time, 3 minutes and 28 seconds.

220-yard dash—Won by Locke, Nebraska; Hein, Nebraska, second; Fisher, Kansas, third. Time, 10:21 seconds. Final score—Nebraska, 63 2-3; University of Kansas, 46; Kansas Aggies, 21 1-3.

PLAY NEBRASKA TWO GAMES

Huskers Doped for Win in Series at Lincoln

Twelve men journeyed to Lincoln yesterday to play a two-game series with the Cornhuskers today and tomorrow.

Possibilities for winning the games are not so bright due to the recent batting slump into which the Aggies have fallen. In the last four games the Aggies have played they have only scored three runs and all of these were made in the two games against Kansas. On the other hand the Wildcat twirlers have been showing excellent form in recent

games and should need but a few runs backing to win their games.

The dope gives the Cornhuskers a double win in that they took both games from the Aggies in the first series, but as the first game was a slugfest and could have gone either way, and the second game was an extra inning affair, there is a good chance of the Aggies winning both games if they get the breaks.

Conroy is the probable starter in today's game, with Greer taking the mound tomorrow.

PAYNE ON POULTRY TRIP

Johnson County Farm Bureau Visits Farms—74 Persons Make Tour

Prof. L. F. Payne, head of the department of poultry husbandry, accompanied a poultry tour conducted by the Shawnee Mission Poultry association and the Johnson county farm bureau, on May 13.

Seven poultry farms were visited including two which are operating trap nesting and rapidly improving their flocks from the standpoint of egg production.

Eighteen cars and 74 people accompanied the tour. A basket lunch was served at the Ray Goodloe farm, near Lenexa.

Charles, '20, on Journal-Post

W. K. Charles, '20, is reading copy on the Kansas City Journal-Post. Until recently he was doing publicity for the Michigan Tuberculosis association. Mr. Charles took his master's degree from the Joseph Medill school of journalism last June.

Olson Resigns as Dairy Head

Prof. N. I. Olson of the dairy department, has resigned his position as head of that department and has accepted a position with the Wichita Creamery company for next year. There has been no appointment made yet to fill Prof. Olson's place.

Hort Conference at Ithaca

The third International Conference to be held by the New York Horticultural Society will be held at Ithaca, N. Y., August 9-16, 1926. The

first conference was in 1902, on the subject of Plant Breeding and Hybridization, and the second, on Plant Hardiness and Acclimatization, was held in 1907. The papers presented at these two conferences were published by the society as volumes I and II of their memoirs.

The subject for the 1926 conference is Flower and Fruit Sterility.

Heads College Department

Olive Legerstrom, '19, has been promoted to the headship of the home economics department of Dakota Wesleyan college, Mitchell, S. D., where she has been teaching for the past few years. She expects to be at home in Manhattan during the summer, and to take advanced work at K. S. A. C.

"It doesn't make any difference what it is, if it's printed in red and green ink and labeled 'Humor' it makes you laugh," grins the Oberlin Times.

The following short story is found in the Russell Record: "He thought that she would give him half the road. Only 17 stitches were necessary."

A Challenge to '10s

Arthur (Swede) Ostlund, '10, of Washington, Kan., writes that he has been looking for a get-together call, as 15 years have elapsed since the '10s were liberated in this universe. "Nothing of that kind has been heard up my way, so I am intending to stage a 'comeback' of my own some time during commencement week," he says. "There will be five

in my crowd this time. I hope to see a few of the '10s scattered over the hill."

Editor's note—All '10s who read the above are requested to accept the challenge of Swede Ostlund and load up their flivvers. A trip back to the hill is worth any Aggie's time. The alumni association hereby serves notice that any alumnus caught on the campus at commencement time will be forced to enjoy himself.

"Some boys have to go to work and others take a position with the old man," snickers the Sylvia Sun.

There is yet hope for the pedestrian, according to the Burns Citizen. "Now that an English judge has de-

NEEDS OF LIFE TOLD BY HOLT

**SPEAKER TAKES SUBJECT FROM
LIFE OF DAVID**

**Six Tests of Manhood, Passed by
Biblical King, Must Be in Life
If Successful**

Dr. Arthur E. Holt, Ph. D., of the Chicago Theological seminary, who delivered the baccalaureate sermon to the graduates of the Kansas State Agricultural college in the college auditorium Sunday evening, took as his subject, "Milestones on the Road to Public Mindedness."

Doctor Holt used the text, "There remaineth yet the youngest, and be-

REV. A. E. HOLT

hold, he is keeping the sheep!" I Samuel: 16, 11. This was the speech of Samuel when he was in search of a king and had come to the house of Jesse, the farmer of Bethlehem. He called before him for inspection the seven sons, marked by physical fitness and impressive bearing, but each one was rejected. Samuel then turned to Jesse and said:

A Potential King

"Are here all thy children?" Jesse replied: "There remaineth yet the youngest, and behold, he is keeping the sheep!"

And when in accordance with Samuel's command the young lad David is brought, there is something in the look of his eyes and the color of his cheek which tells Samuel that there is potential kingship material before him, and he anoints the lad to be king over Israel.

Doctor Holt then pointed out that David is not yet king; he is a king in the making, and the Bible lets us see the young man in the process. We see him growing in public-mindedness. Step by step he advances until he is a great citizen, and it is these steps that are the "Milestones on the Road to Public Mindedness."

Responsibility in Home

"The first milestone which the young man passes has been indicated for us in the text. The first circle in which social responsibility comes to any of us is the circle of home life," said Doctor Holt.

"It is no accident that the young David is found here accepting his share of the home tasks. A great educator classes home chores among the required courses in the curriculum of citizenship. Many a boy has learned his first lessons in citizenship on a farm, and many a girl has learned her first lessons in public mindedness in the tasks of household duties. If I were, like Samuel, on a hunt for citizenship material today, I would look for it among the boys and girls who are meeting the first responsibilities in the first circle of duties which meet them in their own home.

Courage, Bodily Discipline

"The next milestone in the development of this young man which is revealed to us, is reflected in the story of David and Goliath. He has courage and he knows how to make his body do what he wants it to. This is no accident. He who would rule must first learn to be master of his own members.

"The third milestone which this young man passes on his road to kingship is the taking of his place in one of the world's classic friendships.

"Here, again, it is no accident that one who is to be a great citizen has the capacity to be a great friend. The milestone of friendship lies just beyond the milestone of family loyalty.

Patience

"The next milestone which the young man passes is the opportunity to attain a quick but false success. David refuses this opportunity, and manifests a commendable patience in waiting for developments in himself and his kingdom.

"One of the major temptations of

young people is impatience. We want to grab success. We would hasten the processes of God. Some one has said, 'It is better to be discovered than found out,' and those of us who bring on premature success are always running the risk of being found out rather than discovered.

A Great Regret

"The fifth milestone which this young man passes is the milestone of great regret. Great passions ran through his life, and he sought satisfactions which were not legitimate. The David who sinned was the David who repented, and if tradition is correct he voiced his confession in the 51st Psalm, which has been a classic confessional for the regretful soul ever since.

"The final milestone which we are to consider is that completing act in the establishing of his kingdom when he brings the ark of God and establishes it in his capital city.

His Kingdom for God

"It was a symbolic act, whereby he invoked the blessing of Jehovah on his kingdom. We often trace the idea of the kingdom of God back to Jesus, but it goes back of Jesus to this king who first said that his kingdom should exist for God.

"Men are saying today that the war to end war was a failure, and that new wars are ahead unless there can be a new spirit. Can the new Master come who can temper the patriotism of the nations in the name of a common welfare big enough to include all of us? It must come, or the self-generated hatreds of our pettier loyalties will break down human society. Either our kingdoms must exist for God, or they will be destroyed. It is Christ or chaos!

"I have chosen this topic for today because I think the final test of education is whether it can develop a Christian public mindedness and I believe the test for an educated man is whether or not that person can think in terms of more than one figure. We can have a free civilization only as we have a moral one. Machinery can not save us. Public minded citizens can."

CALL AND THROCK PERMANENT

**Appointments Announced as Final
by Board of Administration**

Prof. L. E. Call, acting dean of the division of agriculture, was made permanent dean of that division, and head of the agricultural experiment station, by action of the state board of administration last week.

This action was accompanied by the appointment of Prof. R. I. Throckmorton as head of the department of agronomy. Professor Throckmorton, who has been professor of soils in the agronomy de-

DEAN L. E. CALL

partment since 1911, was made acting head of the agronomy department to fill the position left vacant when Professor Call became dean of agriculture.

The promotion of Dean Call came at the close of 19 years of service as head of the agronomy department. He is a graduate, and holds a master's degree from the Ohio State University. Professor Throckmorton is a graduate of the Pennsylvania State College.

DOUBLE SUMMER SESSIONS WILL INCREASE ENROLMENT

**New Plan Expected to Bring More
Than 2,000 Students to College
During Vacation**

Two sessions of summer school have been planned for this year. One will commence June 1 and close August 1. The other will continue from August 1 to September 1. The last course will be for graduate students and vocational teachers only.

Last year the summer school enrollment was about 1,200 persons, according to Dean E. L. Holton, who is in charge. This year the college expects, with the double session, to

have an enrolment of more than 2,000.

Courses offered will include: Division of Agriculture: Agricultural Economics, Agronomy, Animal Husbandry, Horticulture, Poultry Husbandry.

Division of Engineering: Agricultural Engineering, Applied Mechanics, Civil Engineering, Electrical Engineering, Machine Design, Manual Training and Shop Practice.

Division of Home Economics: Applied Art, Clothing and Textiles, Food Economics and Nutrition, Household Economics.

Division of General Science: Bacteriology, Botany and Plant Pathology, Chemistry, Economics and Sociology, Education, English, Entomology, History and Civics, Industrial Journalism and Printing, Mathematics, and Modern Languages.

Music, Physical Education and Athletics, Physics, Public Speaking, and Zoology.

One hundred and twenty-five teachers will have charge of the different branches this summer.

STOCKMEN HEAR RESULTS OF EXPERIMENTAL WORK

**Feeders' Day Draws Large Crowd—
Inspect College Work and Hear
Outside Speakers**

More than 1,500 stock farmers and stockmen from Kansas City, Wichita, Chicago, St. Joseph, and other centers, as well as Kansas stockmen attended the thirteenth annual feeders' day held by the department of animal husbandry at the college Saturday. This was one of the largest and most enthusiastic crowds in the history of the event.

Among the distinguished guests was Governor Ben S. Paulen. Although he was not well, Governor Paulen left his car long enough to respond to an introduction with a brief address. Fred S. Brooks, general livestock agent for the Rock Island lines, was present, coming from Chicago in his private car. Thirty-five men, including the officers of the Kansas Livestock exchange, represented Kansas City. Sixty-two delegates were from St. Louis and St. Joseph.

The assembly program, held in the pavilion at 10 o'clock, was presided over by F. M. Arnold of Emporia, president of the Kansas Livestock association. The assembly followed an inspection of the experiment lots under the direction of Dr. C. W. McCampbell, head of the animal husbandry department.

President Farrell, the first speaker, delivered an address welcoming the visitors and stressing the importance of the experiment station in the work of the producer. He was followed by L. B. Myers, vice-president of the Federal Intermediate Credit bank of Wichita, who substituted for Milas Lasiter, president of the bank. Other speakers on the program were: Dean L. E. Call, R. C. Pollock, Chicago, secretary-manager of the National Livestock and Meat Board, and Governor Paulen.

Members of the Block and Bridle club served lunch at noon. Most of the afternoon session was devoted to reports on feeding experiments by instructors in the department, who are in charge of the work.

In the evening Doctor McCampbell entertained 82 of the guests at a dinner in the college cafeteria.

Notice

Freshmen who have not received their intelligence test scores may have them if they will call at the psychology office, G33, any time this week.

An exhibit of the work done in the classes of Design I, Design II, Interior Decoration and Handcraft will be held in the applied art department in Anderson hall Tuesday, Wednesday, and Thursday of this week. The exhibit will include all of the work done in the department during the last year.

TWO DAYS LEFT TO CLASS OF '25

**325 IN CLASS WILL RECEIVE
DIPLOMAS THURSDAY**

**Senior Assembly, Alumni-Senior Banquet and Commencement
Remain on Program
for Week**

With only two days remaining, the 1925 crop of seniors is making its last trips over the campus and clearing up the odds and ends of things which remain to be done before it can consider itself "educated."

More than 325 members of the class have completed the four year course prescribed for the degree of bachelor of science, and are ready to receive their diplomas, then to go out and convince the world they have earned them.

The big week for the seniors opened Sunday with the baccalaureate sermon, and will close about noon Thursday when President Farrell hands out the last certificate of graduation. All the examinations are over and the flunk slips, if any, have been given out. Nothing remains but the formality of the commencement exercises, and the burlesque of the senior assembly, which will be the final assembly for the collegiate year.

Registration Next Week

The following Monday registration will open for summer school students and the rush will begin again. Two sessions of summer school are planned this year, the first for undergraduate students, and the last for graduate students and for teachers who can spare the time for the full summer school course.

The baccalaureate service last Sunday in the auditorium was the opening event in the last week of the school year for the 1925 graduates. Rev. Arthur E. Holt, professor of social ethics at the Chicago Theological Seminary, delivered the baccalaureate sermon. The invocation was given by Rev. William Slade, pastor of the Congregational church, Manhattan.

Senior Assembly Wednesday

On Wednesday, May 27, the graduating class will have charge of a special student assembly which will be held in the auditorium, at 11 o'clock instead of at the regular assembly hour. The program, to be given by the senior class, will consist of a reproduction of the first senior assembly given at K. S. A. C. This event took place in 1886. The speeches will be the same as those given on the first class day, but the

DR. EUGENE DAVENPORT

statistics, poem, prophecy, and song will concern the class of 1925. Devotionals will be led by Rev. W. U. Guerrant, student pastor of the Presbyterian church.

Alumni-Senior Banquet

Wednesday afternoon the alumni business meeting will be held in Recreation Center at 2:00 o'clock. At 6 o'clock the annual alumni-senior banquet and dance will be given in Nichols gymnasium.

The final event of the week will be the commencement exercises which will be held in the auditorium Thursday morning, May 28, at 10 o'clock. Approximately 325 students will receive their "sheepskins" at these exercises. Dr. Eugene Davenport, dean emeritus of agriculture at the University of Illinois, will give the address.

Degree to Dean Potter

A feature of the commencement program this year will be the presentation of the degree of doctor of engineering to A. A. Potter, former dean of the division of engineering at this college and now head of that department at Purdue University.

Other numbers on the commencement program will be a march,

"Hail America," by the college orchestra under Prof. H. P. Wheeler; the invocation by the Rev. John David Arnold, pastor of the Christian church; the adagio from "L'Arlesienne Suite," played by the orchestra; a solo, "Even Bravest Hearts," by Prof. Ira Pratt; the conferring of the degrees, and the march from "Tannhauser" by the orchestra as a recessional. After the program there will be a short period as a reception period for the seniors and their friends. This will complete the exercises.

McGEE "K" PRESIDENT

**Football Captain Elected Head of
Athletic Fraternity**

Harry L. McGee of Ramona, junior in electrical engineering, was elected president of the "K" fraternity, the organization of those men who have won their letters in valley athletics, last night.

McGee was a star guard on the football team this year, and has been elected captain of next year's team. He is a member of Triangular fraternity.

28 RECEIVE COMMISSIONS IN RESERVE FROM SCHOOL

**Seventy Members of R. O. T. C. Will
Go to Summer Camps**

Twenty-eight men from K. S. A. C. will receive second lieutenant's commissions in the organized reserve this spring. Twelve more will receive their commissions at the end of summer camp. This is one of the largest classes graduated from the R. O. T. C. at this school.

Those men receiving commissions this week are: W. E. Atkins, Frank Brandeisky; C. W. Claybaugh, E. S. Graham, M. H. Johnson, R. C. Langford; George Montgomery, R. L. Pycha, H. C. Quantie, G. A. Read, R. W. Russell, D. A. Shields, J. K. Watt, from the infantry; and E. R. Bunker, C. W. Eshbaugh, B. W. Friedel, H. L. Gillman, F. V. Hanson, E. D. Howard, H. E. Jung, W. E. McKibben, E. E. Miles, E. F. Miller, A. H. Pfeiffer, Bruce Pratt, L. H. Schutte, D. C. Taylor, A. J. Webber of the artillery; and V. C. Hill, veterinary.

The following men will receive their commissions at the end of summer camp: J. C. Abbott, C. S. Clapper, Jack Eakin, C. Prose, H. H. Scheardt, Byron Short, G. E. Truby, of the infantry; and A. B. Cash, G. C. Horning, M. Shields, N. R. Thomason, of the artillery; and W. W. Young of the veterinary.

Seventy men from school will attend the summer camps at Fort Snelling, Minnesota, and Fort Snelling, Minnesota. This is the largest number ever sent from here and shows that the advanced course is becoming more popular. Colonel Bugbee said. An other indication that the course is popular is the fact that more men have signed up for the advanced course for next year than ever before and the number in the corps will be the largest in the history of the school.

The men who will attend summer camp at Fort Snelling are as follows:

At Fort Snelling: Joseph O. Abbott, Dustin Avery, John H. Ayars, Robert Baehler, Christian N. Bressler, Charles E. Burt, Elmer L. Canary, C. S. Clapper, Earl L. Combest, Orin K. Correll, B. E. Dalrymple, Arthur H. Doolen, Jack R. Eakin, R. W. Port, R. Geddes, E. Haukenberry, Lionel Holm, J. D. Kimport, R. E. Kimport, Don J. Motter, Robert B. O'Bryan, Zurlinden L. Pearson, Cecil R. Prose, F. Hoyt Purcell, L. J. Richards, H. W. Rogier, W. H. Schindler, D. H. Schultz, F. M. Shideler, Bryon Short, R. B. Sundgren, Eric Tebow, G. E. Truby, D. M. Weisner, Marion B. Davis, V. S. Hurlig, J. A. Jones, E. R. Moberg, F. W. O'Daniel, W. L. Parrott, R. H. Pyle, E. W. Walgren, E. W. Young, and H. H. Schwardt.

At Fort Snelling: R. P. Aikman, Rhein Benninghoven, C. E. Bohnenblust, Hale E. Brown, A. B. Cash, Thayer Cleaver, G. R. Collier, Lyle Cushing, M. G. Dickson, Orin E. Ellis, H. B. Evans, R. L. Foster, H. D. Grothusen, Glen Hatfield, J. T. Hayslip, F. A. Hinshaw, G. C. Horning, A. Hotchkiss, V. E. Houghland, W. T. Howard, H. S. Johnson, H. W. Johnson, R. J. Johnson, F. N. Luthy, V. H. Meseke, W. C. Meseke, John Miller, W. A. Nelson, Dale Nichols, V. M. Norris, A. B. Nuss, L. Read, L. T. Richards, R. L. Roberts, B. A. Rose, C. E. Rugl, L. Servis, H. Shepherd, Myron Shields, P. L. Stuenkel, Jared Taylor, Leland Van Scoyoc, Rollo E. Venn, D. E. Vollner, F. N. Wray, and N. R. Thomasson.

Dr. J. H. Merrill, associate professor in the department of entomology, has resigned his position at K. S. A. C. and will go from here to Rayhan, Mass. Mr. Merrill will go into the fruit business and commercial bee keeping. He expects to leave Saturday.

DOCTOR'S DEGREE TO A. A. POTTER

**FORMER HEAD OF ENGINEERING
HONORED**

**At K. S. A. C. for 15 Years, Potter
Now Is Dean of Engineering at
Purdue University**

An honorary degree of Doctor of Engineering will be conferred upon A. A. Potter, dean of the school of engineering at Purdue University, during commencement services Thursday, according to a recent announcement from the president's office.

Dean Potter for 15 years was a member of the engineering faculty

DR. A. A. POTTER

here, coming to K. S. A. C. in 1905 as assistant professor of mechanical engineering. In 1910 he was made head of the department of steam and gas engineering, and in 1913 dean of the division of engineering and director of the engineering experiment station, which position he held till 1920.

Here as an Immigrant

Mr. Potter came to this country as a Russian immigrant. Having completed his high school work in Russia, he entered and later graduated from the Massachusetts Institute of Technology, and was employed for several years by the General Electric Company at Schenectady, N. Y. He came to K. S. A. C. from there, later renewing his connection with that firm in the capacity of steam turbine designer.

Dean Potter is one of the outstanding figures in engineering educational work in the United States. He is at the head of the second largest engineering school in the United States; author of several widely used texts on engineering; contributes many articles to the technical press, and for presentation to technical societies, and holds many important offices and committee assignments in state and national engineering and educational societies.

Prominent in Engineering

He is president of the national society for promotion of engineering education, and of the Indiana engineering society. He was secretary of the land grant college engineering association, 1914-1919, president of the Kansas engineering society, 1919-1920, and during the war, district educational director of the war department committee on educational and special training, for the states of Missouri, Kansas, Colorado, Nebraska, Wyoming, North Dakota, South Dakota, Iowa, and Minnesota, and associate member of the U. S. naval consulting board, during 1917-19.

In 1906 Dean Potter was married to Miss Eva Burtner of Manhattan, a K. S. A. C. graduate of the class of 1905.

Mr. Potter will speak Wednesday evening at the alumni-senior banquet.

NURSES WILL BE GRADUATED

**First Commencement for Hospital
Course Is Friday Night**

The Charlotte Swift Memorial hospital will hold its first graduation exercises since its affiliation with the Kansas State Agricultural college, May 29, in the home economics rest room at 8 o'clock. Mrs. Charles Bailey, president of the Kansas State Nurses' association, will address the graduates.

Diplomas will be presented to Mae Rood, Chetopa, Kan., and to Jean Wallace, Whitewater, Col., from the school of nursing. Helen Cass, Collyer, Kan., and Esther Thomas, Keats, Kan., who are the first students to graduate from the five year home economics and nursing course, will receive their B. S. degrees and certificates in nursing.

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college. Published every Tuesday and Friday of the college year. Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; the managing editor for news gathering and editing; and the business manager for advertising and circulation. Address communications accordingly. Complaints or suggestions should be referred to the editor-in-chief.

SUSPENSION

The suspension of students for gambling, drinking, and other violations of the laws of the state and the nation rather than giving the information to the officials of the city and county is justified by those in charge of college discipline.

The discipline committee is right in believing that indulgence in these practices is proof of immaturity and in reasoning that a year at home with mother and father should give the foolish student time to line up on the right side of these questions.

If the state is investing its money in preparing young men and young women for larger usefulness, it rightly claims the power to deal with these students as it sees fit. Gambling and drinking are opposed to the best interests of the state and any student who violates the laws deserves just punishment. Adequate punishment for such offenses is a refusal of the privilege of higher education.

STUDENT BEHAVIOR

The question of discipline in the present day college or university is not so very different than it was in the days when institutions of higher education were young. The 1846 president of Harvard college, Edward Everett, gives in his Journal an interesting account of student behavior.

"The business of the office goes on as usual—while meditating high-sounding phrases about liberal education and the ingenuousness of youth, I am obliged to reprove a member of the senior class for casting reflections with a looking-glass on the face of a lady and gentleman passing through the yard.

"Hateful duties in the morning to question three students about beckoning to loose women in the college yard on Sunday afternoon; to two others about whistling in the passage; to another about smoking in the college yard—At prayers in the evening, owing to the jostling and crowding of the sophomore class in going out the stove was thrown over with a crash—in the evening, at about twenty before nine, I was told by my servant that University hall was on fire. Found the south door burned through at the bottom and cotton and spirits of turpentine. One of the Faculty was present, and no students; but a few of the townspeople, one of whom kindly went to call Mr. Francis—My time a good deal occupied in enquiries relative to the fire of last evening. I addressed the students on the subject in the chapel this morning and told them that I should take the advice of the Corporation as to laying the matter before the Grand Jury.—My time taken up all day with the most disgusting details of discipline, such as make the heart perfectly sick—fraud, deception, falsehood, unhandsome conduct, parents and friends harassing me all the time and foolishly believe the lies their children tell them—I hear that incendiary outrages were much more frequent in Mr. Quincy's time than now. Every outhouse, shed, workshop, and wooden fence near the Yard was marked for destruction. When Professor Peirce's house was building, he was

obliged to keep the roof wet at night to prevent its destruction. Stones were occasionally thrown into the President's office through the windows when the faculty were in session.—The students who were concerned in the fire of the 31st of March, to the number of six, came to my office and confessed their participation in the offense, a painful and harassing affair.—It is quite time that the students of our colleges were taught that they are not to commit felonies and call it sport."

On Other Hills

A men's and women's debating club at the University of California will debate the question, "Resolved, That a woman should pay half of the expenses of the cost of a date with a man."

About fifty members of the Travel club at Dartmouth college will go to Europe this summer, working their way.

A California professor has sworn off absent-mindedness. His bill for \$300 in some consulting engineering work, which was presented recently, was found to be four years late, and payment was refused.

According to the Aing-tum-phi, student publication of Washington and Lee University, one-third of the members of Phi Beta Kappa are women. Since its organization in 1776, the society has grown until it includes ninety-nine chapters. Of the 57,000 persons who have been selected for membership, 42,000 are living today.

Investigations at the University of Ohio show that 81 freshmen have been tossed into Mirror Lake because of violations of prep laws.

BANQUET TICKETS GOING FAST

A. A. Potter and W. Y. Morgan on Program

More than half of the graduating class already has obtained tickets for the senior-alumni banquet to be given by the K. S. A. C. Alumni association in Nichols gymnasium Wednesday night, according to R. L. Foster, alumni secretary. Reservations coming in from alumni outside of Manhattan indicate that the attendance at the dinner will exceed that of last year, Mr. Foster said.

Seniors are urged to get their tickets to the banquet as soon as they find they will be able to attend. Where attendance is large it is necessary that the committee in charge of the banquet know at the earliest possible date how many will be present.

The dinner will be served on the main floor of the gymnasium and the same system as was used in serving the banquet in honor of Doctor Jardine last February will be followed.

One of the speakers on the banquet program will be A. A. Potter, dean of engineering at Purdue university, who will be granted an honorary doctor's degree by K. S. A. C. at Commencement. W. Y. Morgan of Hutchinson, chairman of the board of regents, will attend the senior-alumni banquet and the Commencement exercises of Thursday. His subject at the banquet will be "The Regents and the College."

Immediately after the banquet dancing will begin on the main floor of the gymnasium. One end of the gymnasium will be reserved for a mixer for out-of-town visitors.

Tickets for the banquet are free to members of the graduating class. Guest tickets may be ordered through the mail or purchased in person at the alumni office in Anderson hall.

POTATO TOUR STARTS JUNE 1

Eastern Counties Will Be Covered in Demonstration Trip

The fourth annual Kaw Valley Potato tour will be held from June 1 to 5 inclusive, starting Monday, June 1, at Topeka and terminating Friday, June 5, at Kansas City.

The object of this tour is to bring to the attention of the Kaw Valley growers something of the appearance and nature of potato diseases, to demonstrate the most practical and efficient means of combating potato diseases, to demonstrate the advisability of using certified seed, the relation of proper soil management to profitable potato production, the most efficient means of combating insects, and the importance of good seed.

Demonstration plots will be visited in Shawnee, Jefferson, Douglas, Johnson, Leavenworth, and Wyandotte counties, a day being spent in Shawnee, Jefferson, Douglas, and Wyandotte, and a half a day each in Johnson and Leavenworth counties. There will be many demonstrations and experiments to observe, dealing with certified seed, soil management, insect control, various seed treatments, rhizoctonia control, and scab control.

Several specialists from the college will be with the entire tour and it is certain that several visitors will come in from neighboring states. Mr. A. G. Tolosa, in charge of seed certification for Minnesota, is planning to attend.

Prof. G. A. Dean left Monday to do some orchard insect work in the Arkansas River Valley. He will visit Cowley, Sumner, and Sedgwick counties. He expects to return Thursday.

Newspaper Daddies
Don't Help Cubs
Sell Their Stories

The old tradition that a newspaper uncle or an editor daddy will help the young cub on to fame is all a myth, according to a census taken of 100 industrial journalism students last Thursday.

Out of the twenty-eight who have sold material to magazines and newspapers, only five have relatives connected with newspapers, and only one of those five has been able to sell anything to the relative's publications.

The census shows that 97 stories have been sold but also that only 28 of the 100 students sold the stories. About 20 students who had newspaper people had never been able to sell anything.

Only three freshmen have sold material, while the largest amount of work sold by any student was by a senior who has had 13 stories accepted.

Seventy-five per cent of the students in the journalism department want work on small town newspapers for the summer. Only seven seniors in journalism have not found positions.

Some of the papers and magazines which have published the students' works are: Kansas City Star, American Magazine, Popular Science, Farm and Fireside, Judge, Household, Farmer's Wife, Opportunity, American Boy, Nature Magazine, Country Gentleman, Mail and Breeze, Successful Farming, American Farmer, Kansas City Journal-Post, Topeka Capital, and all Capper publications.

SEVENTEEN GIRLS QUALIFY
AS RED CROSS LIFE SAVERS

Perry Thomas and G. S. Wheeler Are the Examiners
Seventeen girls have passed the Red Cross life saving tests and have qualified for membership in the college Red Cross Life Saving corps. Perry Thomas and G. S. Wheeler were the examiners.

Those who were successful in their examinations are: Fern Bowman,

Lillian Kammerer, Ruth Correll, Virginia Clammer, Frances Leaman, Roland Lunbeck, Ruth Davies, Hypatia Wilcox, Lucile Whiting, Hazel Dwelley, Em Moore, Kathryn King, Nina Mae Howard, Kathryn Whitten, Janet Hellworth, Adelia Walker, and Florence Hanna.

SOUDEURS WINS SCHMIDT PRIZE
FOR SECOND STRAIGHT YEAR

Aggies Take All Places Except Three Honorable Mentions

Harold Soudeurs, sophomore architect, has won the Lorentz Schmidt lettering prize for the second consecutive year. The other Aggie architects who placed are: Ben Friedel, second prize; N. E. Palmquist, third prize. Burr Smith won honorable mention.

Mr. Schmidt offered a prize for lettering to all regularly enrolled students in the architectural department of the University of Kansas and the Kansas State Agricultural college.

The drawings submitted were an outline of a first floor plan for a small residence, and were judged on the following points: lettering, composition, and neatness.

Three prizes were awarded and four honorable mentions: first prize, \$15; second prize, \$10; third prize, \$5. K. U. placed three honorable mentions.

Olin, '89, Points with Pride

"My interest is with what K. S. A. C. plans and attempts to do," says W. H. Olin, '89, supervisor of agriculture for the Denver and Rio Grande Railroad company, in a letter to Dean J. T. Willard, '83. "I am proud to be a member of the ever-increasing number of those who come out of the graduating doors of our alma mater with the sheepskin of coveted worth. May the forthcoming commencement time mean much to you all. How I wish duties would permit my attendance!"

Pence, '24, Wins Prize

A gold watch and chain offered by the Millers' Review and Dixie Miller as a prize to the miller preparing the best original paper on a milling subject in a contest conducted under the

auspices of the Association of Operative Millers was won this year by Roy O. Pence, '24, of the Goodlander Mills, Fort Scott. Mr. Pence's paper will be read before the millers' convention in St. Louis, Mo., June 1 to 6, 1925.

Upon graduation last year, Mr. Pence began his work in the milling industry as a bolter in the Kansas City Flour Mills company. Last October he was transferred to Fort Scott as second miller, which position he holds at present.

Helen M. Stewart, '18, Spearville, is planning a trip through the northwest this summer and has written the alumni office for names of alumni in Portland and Seattle. She says, "I was in hopes of seeing some old friends in the northwest, but find very few of recent years on the list. However, an Aggie is an Aggie, and I shall be glad to meet some of the older ones if I get the opportunity."

Anna Steckelberg, '14, director of the department of home economics of the Western State college of Colorado at Gunnison, writes that she hopes to be in Manhattan for the last two weeks of summer school if it is possible for her to arrange for the work.

"Herrin failed to be wiped out by the tornado and some of the citizens are trying to make up for nature's oversight," notes the Burns Citizen.

UNRESTRICTED
NERVE ENERGY
RESTORES HEALTH

The skillful drugless practitioner knows how to release the nerve-energy which vitalizes the afflicted tissues and actuates the curative processes, which, in turn, neutralize and cast out the infecting poisons. Thus and thus only is health most quickly and most thoroughly restored.

Society Happenings

Wednesday, May 27, 1925

Senior banquet and dance, gymnasium.

Beta Theta Pi house dance.
Alpha Xi Delta house dance.
Lambda Chi Alpha house dance.

Thursday, May 28, 1925

Alpha Delta Pi spring party, Blue-mont.

Phi Omega Pi entertained their national inspector, Miss Stella Andrews of Broken Bow, Nebr., with a Pan-Hellenic tea, Saturday afternoon from four to five.

Delta Zeta gave a banquet Friday evening at the Open Door Tea room in celebration of the chapter's founding ten years ago at K. S. A. C. Many of the founders and alumnae members were present. Toasts were given to the Lamp by the following: Mary Polson, Mary Louise Clarke, Arlene Pooler, Charlotte Richards, Hilmarie Freeman, and Virginia Reeder.

Theta Tau, Presbyterian girls' sorority, held a banquet at the cafeteria Tuesday evening. Decorations were in pink and lavender. Miss Helen Batchelor was toastmistress, and toasts were given by the following girls: Ruth Long, Sue Burris, Helen Graham, Bella Robertson, and Dorothy Johnson. About 39 members were present.

Phi Mu Alpha, professional music fraternity, announces the initiation May 11 of R. D. Bradley, Russell Reitz, Roy Bainer, and Lewis Barber.

Dr. Helen Ford, former instructor in extension work here, was the guest of Dr. Margaret Russel and Dean Margaret Justin last week.

Prof. R. W. Conover entertained 20 guests at dinner at the Open Door tea room, Wednesday evening, preceding the faculty dance. The guests were: Misses Mary Polson, Grace Hesse, Anne Lissom, Martha Kramer, Mina Bates, Izil Polson, Mr. and Mrs. H. W. Davis, Mr. and Mrs. C. E. Rogers, Mr. and Mrs. F. Forrester, P. A. Willis, P. W. Weigel, Morse Salisbury, J. M. Moore, C. W. Matthews, Mrs. Julian Peterson, and Mrs. M. Malsen.

Dean Mary Pierce Van Zile, Miss Lois Wildy, and Miss Beatrice Galvin were hostesses at a tea in Calvin hall Monday. The senior girls will be the guests.

Alpha Tau Omega entertained Tuesday evening with a banquet at the chapter house. At this banquet the McCullum cup, which is awarded each year to the most outstanding man in the fraternity, was awarded to Cecil R. Prose of MacKsville. Special guests were: Mr. and Mrs. Charles Nitcher, Mr. P. J. Newman, and Mr. Gabe Sellers.

The Browning Literary society held its last regular meeting of the year Saturday afternoon. Nominations were made for the officers for the fall semester. Hypatia Wilcox was elected junior representative to inter-society council for next year. Pledge services were held for Ruby Walt and initiation services for Irma Boettcher. The program given was: Devotions, Merle Nelson; Music, introduced by Nora Esbaugh, and parliamentary drill in charge of Christie Hepler.

Announcement has been made of the engagement of Miss Bernice Elliott of Manhattan to Mr. Ferdinand Volland, Jr., of Topeka. Miss Elliott and Mr. Volland are both students at K. S. A. C. Mr. Volland is a member of the Delta Tau Delta fraternity. The wedding will take place some time in June.

Miss Rachel Wright and Dr. E. B. Working were married Wednesday noon by the Rev. B. A. Rogers. Mrs. Working is from Welsh, La., and is a freshman in home economics. Mr.

Cankar City, Kansas

Working is engaged in the milling industry at K. S. A. C.

Miss Clarice Painter entertained with a line party at the Wareham theater Thursday evening. Her guests were: Miss Elsie Smith, Miss Grace Hesse, Miss Izil Polson, Miss Mary Polson, Miss Emily Bennett, and Miss Ruth Hartman. Miss Painter left Friday for her home in Mexico, Mo.

The Lotus Club held initiation services last Sunday morning for Miss Mary L. Williamson of Independence, Mo.

Tobasco, men's dancing fraternity, entertained with a farewell dance at Harrison's hall Friday evening. Pines Serenaders furnished the music.

Sunday dinner guests at the Kappa Delta house were Harold Sappenfeld, William Mathias, Harold Grothusen, Paul Strand, and Melville Thompson.

Kappa Sigma entertained with a farewell dance at the Country club, Saturday evening. A special feature of the evening was a violin solo by Sammie Smith of Salina. An orchestra from Salina furnished the music for the dance. Mr. and Mrs. C. R. Weeks chaperoned the party.

Miss Margaret Ploughe of Hutchinson and Mrs. Floyd Butel of Overbrook were week end guests at the Kappa Delta house.

The Alpha Epsilon chapter of Phi Kappa Tau held its installation dance at Elk's hall Friday evening. Seventy couples attended. Miss Helen Spence of Salina gave several special dance numbers. Music was furnished by Roark's orchestra.

THIRTY HOME EC GRADUATES DEFINITELY PLACED ALREADY

Three Go as Student Dietitians—Others Will Teach

Thirty girls who expect to receive their degrees in the division of home economics this year have definite work for next winter and several others have tentative positions. The majority have accepted teaching positions but others have decided to take up other work or take further studies.

Those who will teach and the towns in which they will teach are: hospital July 1.

Nora Bare, Paxico; Catherine Bernheisel, Beverly; Evelyn Colburn,

Clyde; Gertrude Fulton, Linwood; Della Justice, Olathe; Ruth King, Windom; Olympia Kubik, Harveyville; Hazel McConnell, Russell; Iva Mullen, Ionia; Stella Munger, Holdrege, Nebr.; Helen Northup, Pratt; Virginia Reeder, Marion; Lois Richardson, Elsworth; Ethel Scott, Cleburn; Ruby Seward, Reese; Jennetta Shields, Delavan; Eva Timmons, St. George; Anne Unruh, Protection; Elma Jones, Dodge City; and Capitola Bassett, Okemah, Okla.

Emogene Bowen is to be in the Cottage hospital at Santa Barbara, Cal., as a student dietitian and Myrtle Lenau will enter the same kind of work at that hospital July 1. Ruth Kell will go to the Merrill Palmer school in Detroit to study and Mary Dey will return to K. S. A. C. to work toward her master's degree. Ida Koehn will go as student dietitian to one of the hospitals of the New York board of public welfare. Laureda Thompson will teach physical education in William Woods college at Lexington, Mo. Jessie Campbell sailed this month for the Philippines where she plans to teach school, and Grace Steininger has gone to Johns Hopkins university at Baltimore to take up work as a student dietitian.

Governor Ben Paulen will preside as honorary chairman and will deliver an address at the fifty-third annual commencement exercises of the University of Kansas.

KAPPA PHI ALPHA VICTORY PROTESTED—REPEAT GAME

Marsh Ruled Ineligible for Intramural Games by Mike Ahearn

The Kappa Phi Alpha fraternity won its intramural baseball game from the Aggieville Athletic Club 3 to 2, last week but on account of protest from the athletic club the game was annulled and probably will be played over Friday afternoon.

Coach Corsaut made the statement that Marsh, Kappa Phi Alpha pitcher, was not on the varsity squad, and upon the strength of this statement, Coach Knott gave the fraternity permission to use him in the game. However, owing to the fact that Marsh went with the squad to K. U. and has been out warming up with the team several times since the final cut, he is not eligible to play in the intramurals according to the ruling by M. F. Ahearn.

"Rickenbacker cleaning up as a motor manufacturer," says a trade note. "A case of the ace taking the jack," puns the Summerfield Sun.

MILITARY INSTRUCTORS LEAVE

All But Two Return to College Next Fall

All members of the R. O. T. C. instructional force will be away from the college the greater part of the summer. Captain R. C. Stickney and Lieutenant J. V. Cole will leave for the Hawaiian Islands after a short leave of absence.

Colonel Fred W. Bugbee, in command of the college unit, Sergeant M. J. Connolly, Sergeant M. M. Coffee, and Captain L. E. Spencer will report June 1 at Fort Snelling, Minn., to assist in instructing R. O. T. C. students at summer camp. Captain G. W. Fitzgerald will go to Fort Snelling for about a month and from there to Fort Des Moines, Iowa.

Captain Wertz will go to Fort Sill, Okla. Lieutenant R. E. McGarraugh will also report at Fort Sill and later go to Fort Leavenworth. Both Captain C. W. Jones and Captain W. P. Waltz will go to Fort Leavenworth July 29 to assist in instructing at the C. M. T. C. Major C. D. Pierce will be stationed at Fortress Monroe, Va., after June 10.

GIRLS' SUMMER QUOTA FULL FOR ESTES PARK CONVENTION

Eight Vacancies Still Remain for Boys' Group Meeting

Seven boys and 18 girls have filled out applications to attend the joint summer conference of the Y. M. and Y. W. C. A. at Estes Park, August 22 to September 1. They are as follows: Paul Pfuetze, Paul Axtell, Clyde Randall, Milton Kerr, Theodore Keller, Ralph Clarke, Leonard

INTERESTING FACTS OF HISTORY

George Washington and His Commission

On July 3, 1775, Gen. George Washington took command of the colonial forces at Cambridge, Mass., within the shadow of Harvard College. This event will be appropriately celebrated on July 3, 1925.

The commission, which made George Washington "General and Commander-in-Chief of the Army of the United Colonies" by vote of the Continental Congress at Philadelphia, is dated June 19, 1775, and is signed by John Hancock, who was then President of Congress.

This commission was the first historic document signed by John Hancock and next to the Declaration of Independence, signed by him the next year, is the most important.

The original engrossed copy of the Washington commission can be seen in the Library of Congress. A photographic copy of this commission, as well as a facsimile of the Declaration of Independence, has been reproduced by the John Hancock Mutual Life Insurance Company of Boston.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

How Jantzen changed a national habit!

Millions of folks will find coolness at the swimming pool. Now . . . the water invites them not only to bathe—but actually to swim!

Jantzens are the style at Atlantic City, Miami, Los Angeles—and scores of other beaches.

The Jantzen patented bow-trunk pattern gives perfect fit over the hips—freedom from wrinkles—surprising ease of motion. The non-rip crotch enhances comfort. It, too, is patented. The original unbreakable rubber button, the improved shoulder strap—all make for greater fun and longer wear. The suit is modest, wet or dry. The elasticity is permanent.

We feature 1925 Jantzen styles for men and women.

COSTLY ERRORS LOSE FOR K. U.

AGGIES TAKE BURLESQUE BALL GAME 9 TO 6

Split Series with Huskers Last
Week—Final Game of Season
Here Today

The Aggies took the first of a two-game series from the Jayhawkers yesterday afternoon 9 to 6, in a game full of errors, boneheads, and hits. The Jayhawkers out-hit the Aggies but six costly errors and several failures to make plays made runs for the Aggies.

The Aggies scored seven runs in the fifth on three hits and four errors. In this inning the entire team batted around and Meek and Miller went to the bat a second time. Munn and Greer offered doubles and Huey landed a single for the only hits in making the seven runs.

Kansas got off to a one-run lead in the third inning when Greer walked Hewitt, Kennedy singled and Halpin sacrificed Hewitt in for the run. They scored three more in the seventh when Caraway had replaced Greer on the mound, Greer going to center field for Harter. Caraway walked the first man, the next two hit for a single and double, and Caraway hit the fourth man to bat. He was retired at this point, Greer again taking charge of the mound. Greer pitched himself out of the hole, allowing only two runs.

Greer Was Wild

Greer was exceptionally wild at the first of the game, walking three men and hitting three. He soon settled down and fanned 12 before the game was over.

The Jayhawkers landed 12 safe blows of the Aggie pitchers, but only one of the 12 went for extra bases. Kennedy was the batting star of the day, the tall center fielder getting three singles out of five times at bat. Halpin of Kansas and Munn of the Aggies were next in order, each getting two hits out of four times at the plate.

Final Game Today

The final game of the season is to be played this afternoon at 4 o'clock. Conroy is the most likely candidate to do the twirling for the Aggies, while Wright is the best bet to pitch for Kansas.

The Aggies now have a percentage of one less game won than lost. A win for Corsaut's nine today will bring the final standing to 500 per cent for the season.

The Aggies split the series last

week with Nebraska, taking the first game, Tuesday, 6 to 2, and dropping the second, 6 to 1. Joe Greer, Aggie pitcher, receives the credit, not only for winning the first game, but for beating Lang, Nebraska pitcher, the first time he has lost in two years in the Valley. In the first game the Aggies hit Lang harder, and made more runs from his pitching, than any other team has made from him in the conference. In the second game "Choppy" Rhoades was hit hard, but Conroy had a bad streak in the second and third and allowed the Nebraska men to get off. Byers went in in the third inning, and pitched a fair game, according to Coach Corsaut, but was unable to defeat the Cornhuskers.

Greer Pitched Best

In the first game Greer allowed only four hits and struck out 11 men. In one inning he retired the Nebraskaans with three pitched balls, each man up going out on short infield rollers.

In the third inning the Aggie winning streak came up. Munn hit, Meek walked and Miller got on base on an overthrow at first, Meek and Munn scoring. Lutz then walked and Karns hit a double which bounced wild and was stretched into a home run.

Nebraska on an Error

The Nebraska counters came when Collins got on a single which bounced wild and was expanded to a triple. Smaha struck out and Anderson popped out, giving an opportunity to catch Collins off third. Greer made a bad peg to third, however, and Collins scored. The other run came when Anderson knocked a homer in the ninth.

In the second inning of the second game, Anderson singled; with two strikes on him Rhoades picked out a curve ball for a home run. Three more hits off Conroy in that inning and three hits and a walk in the third caused Corsaut to remove him and substitute Byers.

Final Games with K. U.

The final games of the season for the Aggies will be Monday and Tuesday with Kansas. The Aggies now have won 5 and lost 7. A clean-up in the Kansas series will put the team in at .500, with a record like that of the basketball team last winter, the only win from the conference champs, and a severe drubbing to the best pitcher in the valley.

Members of the Phi Beta Kappa honorary fraternity at Williams college have been excused from all restrictions regarding cuts. They need not keep up their attendance at classes as long as they keep up the standard of their work.

NEBRASKA WINS IN DUAL MEET WITH AGGIES HERE

Four Sure Winners Left in Lincoln But Huskers Take All But Four Firsts

Nebraska took the long end of a 91 to 40 score in a dual track meet here with the Aggies, Saturday. With four sure point winners, Locke, Weir, Scherrick, and Rhoades, in Lincoln studying for finals, Coach Schulte still had a long enough string to take the events in which these men would have entered.

The Huskers made a clean sweep on points in the hundred yard in the broad jump. The Aggies took three firsts and tied for another—winning the 2-mile, discus, and high jump and tying for first in the pole vault.

Sallee took the 2-mile handily, leading the field by more than a hundred yards. Gartner took the discus and Burton walked off with the high jump. Carter tied with Wirsig of Nebraska at 12 feet for the pole vault.

Ross of Nebraska sprang a surprise when he beat Kimport out in the mile. Kimport ran the race in the best time he has made, but the little Husker nosed him out at the finish in a magnificent sprint. Ross set a new Nebraska record in the event, the former record having stood for 14 years.

Summary

100-yard dash—Won by Hein, Nebr.; Mandery, Nebr., second; Beerkle, Nebr., third. Time, 10 seconds.

Mile run—Won by Ross, Nebr.; Kimport, Aggies, second; Axtell, Aggies, third. Time, 4:24.1.

220-yard dash—Won by Hein, Nebr.; Knouse, Aggies, second; Dailey, Nebr., third. Time, 21.8.

120-yard high hurdles—Won by Beerkle, Nebr.; Roberts, Aggies, second, Reese, Nebr., third. Time, 16.4.

440-yard dash—Won by Crites, Nebr.; Russell, Aggies, and Bechord, Nebr., tied for second. Time, 50 seconds.

Two-mile run—Won by Sallee, Aggies; Hays, Nebr., second; Zimmerman, Nebr., third. Time, 10:06.4.

220-yard low hurdles—Won by Dailey, Nebr.; Davis, Aggies, second; Reese, Nebr., third. Time, 24.9.

880-yard dash—Won by Lewis, Nebr.; Houdersheldt, Nebr., second; Kimport, Aggies, third. Time, 3:01.9.

Discus—Won by Gartner, Aggies; Pospisil, Nebr., second; Kamsa, Nebr., third. Distance, 129 feet, 5 7-8 inches.

Shot—Won by Kriememehmeyer, Nebr.; Molzen, Nebr., second; Brunkau, Aggies, third. Distance, 41 feet, 4 1-8 inches.

Javelin—Won by Almy, Nebr.; Brunkau, Aggies, second; Keller,

Aggies, third. Distance, 153.93 feet.

Pole vault—Carter, Aggies, and Wirsig, Nebr., tied for first; Davis, Nebr., second. Height, 12 feet.

High jump—Won by Burton, Aggies; Gish and Page, Nebr., tied for second. Height, 5 feet 8 inches.

Broad jump—Won by Mandery, Nebr.; Gish, Nebr.; second: Wirsig, Nebr., third. Distance, 21 feet, 4 inches.

Mile relay—Won by Nebraska

(Beerkle, Bechord, Dailey, and Crites). Time, 3:28.2.

A pharmaceutical garden on the University of Nebraska campus supplies all the crude drugs for the school College of Pharmacy. At one time there were 110 different varieties of drug producing plants grown in the garden.

The Kansas Aggie Tennis team lost its match with Nebraska University, Friday, May 22. Captain Sappenfield of the Aggies won his match 6-4, 6-3.

Three singles matches and one doubles match was played. Dannevik of the Aggies lost to his opponent 6-4, 6-3. Dayhoff lost to his Nebraska opponent 6-2, 6-3, and Sappenfield and Dayhoff lost the doubles match.

One thing you can say for the flivver—it rattles before it strikes.—Overbrook Citizen.

AGGIE DOPE LOOKS SLIM FOR MISSOURI VALLEY MEET

Balzer Will Run, but Probably Will
Be Slow—Several Places
Cinched

Dope for the Kansas Aggies on the Missouri Valley track meet, which will be held Friday at Norman, Okla., looks slim this year, with Balzer just recovering from a pulled tendon, according to Coach C. W. Bachman. The Aggies will send a full team, however, except in the sprints and the broad and high jumps.

Balzer should be in condition to go Friday, Bachman said. The Aggie coach was expecting the distance man to set a new Valley record, however, and this probably will be out, in view of "Puff's" recent injury. He still is good for a first place, however, Bachman said. Sallee, who won the two-mile in the meet here Saturday with Nebraska, will be the other Aggie in the two-mile event.

Kimport will go in the mile, and barring accident is a sure point winner for the Aggies. Kimport ran his best race here last Saturday but was nosed out by Ross of Nebraska. In the half the Aggie entries will be Kimport, and probably Axtell. Knouse, Russell, and Brockway will be the mainstays for the quarter event, and these three with Davis and Coleman will be slated for the mile relay.

Roberts was barely beaten in the high hurdles and is a consistent point winner for the Aggies, and Davis has a good chance to place in the low sticks.

In the pole vault, with Carter going at 12 feet, he should cop a second or third without difficulty. Gartner is sure of a place in the discus, with Brunkau going in the shot and javelin.

The track meet probably will go to Nebraska this year, by sheer weight of numbers if nothing else. Coach Schulte has the largest team in the valley out for practice, and they stay out through the entire season. With Locke in the dashes, Weir in the hurdles, and Rhoades in the broad jump, the Huskers are virtually sure of these events, and Ross, Crites, Beerkle and several others are slated to be responsible for good positions in their events. With Kimport and Balzer, Sallee, Gartner, and Brunkau in good shape, however, the Aggies entrants will contest their share of the meet pretty closely, and the final score should give the Wildcats a fair slice of the pie.

Paul Pfuetze, president of the college Y. M. C. A., has recently been elected president of the state student council of that organization. This council is made up of a student from each college in Kansas. Mr. Pfuetze thus automatically becomes a member of the regional student council, composed of students from colleges of nine mid-western states.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, THURSDAY, JUNE 11, 1925

67

TEACHERS HOLD ANNUAL MEETING

VOCATIONAL CONFERENCE PAST WEEK A SUCCESS

Agriculture Teachers Decide to Make New Men Furnish Fun Each Year at Banquet

That the vocational education conference at the college June 4, 5, and 6 was the most successful yet held was the declaration of those in attendance.

Sessions of the agricultural section of the conference opened Thursday morning in the east wing of Waters hall with an address by President F. D. Farrell. He spoke of "Personal and Technical Requirements for Agricultural Success," stressing the need for vocational agricultural teaching in high schools as essential to progress in farming generally. Following the president's address the program of talks by high school teachers and members of the department of education began and continued through morning and afternoon sessions. Round table discussions were held on a number of subjects.

Make Banquet Annual Affair

The banquet for vocational agriculture teachers held Thursday evening in the community house was so successful that those in attendance voted to make it a feature of each annual conference.

Prof. C. V. Williams acted as toastmaster. Musical numbers were presented by the Harmony male quartet of Manhattan. The "Neophytes," graduates from the college this year who will go out to teach vocational agriculture next fall, were introduced to the older men by Prof. A. P. Davidson. Each of approximately 90 vocational teachers who have been in the field for one or more years was introduced to the group. Singing of popular songs led by Fred Lampton, '23, instructor in vocational agriculture at Medicine Lodge, occupied the time until the "Neophytes" were ready to present their stunt, which had for its basis wild west scenes.

Short talks were given by C. M. Miller, state supervisor of vocational education; Lawrence Parker, teacher training agent for trades and industries at Pittsburg; and L. B. Pollom, state supervisor of vocational agricultural education.

Joint Meeting Friday

A joint session of the home economics and the agricultural sections were held in Recreation center Friday morning. Addresses were delivered by Dr. C. A. Prosser, director of William Hood Dunwoody institute, Minneapolis, Minn.; by Jessie Harris, state director of home economics education in Texas; and by Dean E. L. Holton.

A luncheon was held Friday noon at the college cafeteria. Short talks were made by Dr. Margaret M. Justin, dean of the division of home economics; L. E. Call, dean of the division of agriculture; and R. A. Seaton, dean of the division of engineering. In the afternoon the two sections again held separate sessions. In the evening the conference and summer school banquet was held in the college cafeteria.

On Saturday morning the home economics section assembled in the rest room of Calvin hall for a series of addresses and discussions. The speakers were Doctor Prosser, M. C. Del Manzo, superintendent of schools at Lawrence; W. E. Sheffer, superintendent of schools at Concordia; Frances Wright, Miss Harris, and Elizabeth Sprague, head of the home economics department, Kansas university.

A home economics experience luncheon for conference guests and

graduates of the college was held Saturday noon, Dean Justin presiding. Miss Harris, Agnes Sanders, and Prof. Maude Williamson spoke at the Saturday afternoon meetings of the home economics section. Dr. H. J. Waters, editor of the Weekly Kansas City Star; L. N. Jewett, Altamont; and Mr. Pollom were on the Saturday afternoon program of the agricultural section.

Vocational agriculture teachers stayed through this week for the annual six-day program of short courses in agricultural and engineering subjects.

HELEN HOBBS, READER, HERE FRIDAY, JUNE 12

Will Give Entertainment Under Auspices of Y. W. C. A.—To Read Zangwill's Famous Play

Miss Helen Hobbs, reader and impersonator, will give a dramatic reading, "The Melting Pot," Israel Zangwill's well known play, in the college auditorium Friday evening, June 12, under the auspices of the college Y. W. C. A.

Miss Hobbs comes to Manhattan heralded by favorable notices from newspapers and from citizens in a long list of college towns where she has appeared. Her entertainment is said to be of unusual excellence.

Sales of tickets on the campus are in charge of Marie Insley, who heads a committee of 40 college women. Josephine Copeland is in charge of ticket sales downtown. She will be assisted by Camp Fire girls and Boy Scouts. Tickets are on sale downtown and in Aggieville at the Palace Drug store, the chamber of commerce office, Spangler's canteen, and the Co-operative Book store.

Proceeds of the entertainment will be employed in balancing the Y. W. C. A. budget. The admission price is 50 cents.

PROSSER SEES NEED FOR CODE OF ETHICS

Speaker at Summer School Banquet Urges More Definite Standards for Teaching Profession

"Summer conferences are touchstones for renewed concentration and friendships," said Dr. C. A. Prosser at the annual summer school and vocational education banquet last Friday evening in the college cafeteria.

Doctor Prosser addressed his talk mainly to the teachers in attendance, discussing the need for a more definite code of ethics in the teaching profession. "Teaching is a profession," he asserted, "and the difference between a profession and a trade is this one main factor—he who has a profession is interested in the performance of the task and not merely in the reward."

More than 200 attended the banquet. Dean E. L. Holton acted as toastmaster. The program was opened with a brief talk by President F. D. Farrell, who emphasized the necessity of "never ending study."

"We live within a spiral," said Doctor Farrell, "and in this spiral we must advance with the rest of humanity. For if we step off this spiral we are said by the world to be queer. And so, in order to keep up with this trend toward the top we must continue to study."

Miss Jessie Harris, director of home economics education in Texas, was the second speaker. She paid tribute to Kansas as a great commonwealth, then launched into a panegyric on Texas, "the land of the great open spaces." Doctor Prosser also had kind words for the two states.

Miss Ruth Wildy, who has been teaching at Camden, S. C., stopped for a few days' visit with her sister, Miss Lois Wildy, before going to her home in Denver.

REPAIR PROGRAM LIGHT THIS YEAR

MAJOR WORK IS CHANGES IN CHEMISTRY LABORATORIES

New Equipment for Cafeteria and New Milling Laboratory Planned—One Road to Be Changed

Repairs and alterations to the buildings on the campus this year will be only those that are absolutely necessary, according to G. R. Pauling, superintendent of building and repair. No great changes or alterations will be made this year, except in the chemistry building, Mr. Pauling said. A new chemistry laboratory will be made in Annex II by remodeling and making some changes. New laboratories will be equipped in Denison hall. Adequate ventilation will be provided in Annex I, and the building will be rewired.

New Roof for Waters Hall

Other repairs and changes include the reroofing of the east wing of Waters hall, painting the exterior of four of the buildings including Calvin hall, and the repairing of the roofs and gutters of other buildings. Additional equipment will be installed on the second floor of the cafeteria to facilitate the serving of banquets. The completion of the replastering of the main upper hall in Anderson will be done this summer. The heating systems in the veterinary building and Kedzie hall will be reconstructed.

Equip Milling Laboratory

A milling laboratory will be equipped in Waters hall; the power in the shops will be changed from direct current to alternating current; two private offices will be made in the athletic department offices by placing partitions, and the building of a new road from Anderson avenue past the tennis courts, Calvin hall and Kedzie hall, conclude the program for this year. The grade on this new road is but 5 per cent to Calvin hall and 2 per cent the remainder of the way. The dangerous approach to Anderson avenue will be eliminated. Mr. Pauling stated that the road would not be hard surfaced until some later time, when more funds would be available.

CLERGYMEN TO ATTEND RURAL LEADERS' COURSE

Group of 25 Protestant Episcopal Ministers Will Be Here—Teachers Urged to Attend

A record-breaking attendance at the third annual session of the school for community leaders held each year under the direction of Prof. Walter Burr of the department of economics and sociology was assured when Professor Burr received word last week that 25 Protestant Episcopal clergymen will attend. The dates for the school are July 7 to 14.

The attending clergymen will be from rural parishes in Kansas and Missouri. They are being urged to attend the community leadership course by officials of the church in order to obtain information concerning recent trends in rural life. The national organization of the church is sponsoring a movement to make use of the facilities of agricultural colleges in meeting the problems of rural parishes.

In addition to the group of Episcopal clergymen, 25 Congregational ministers who will be in conference at Eureka Lake park also will attend all classes of the rural leadership school.

Dean E. L. Holton, summer school director, urges students who will teach next year to attend such class-

es of the leadership school as they can.

During the week lectures on various phases of science and sociology will be given by Dr. R. K. Nabours, Prof. Walter Burr, Prof. C. M. Correll, Prof. E. R. Lyon, Prof. H. W. Davis, Prof. C. E. Rogers, President F. D. Farrell, Prof. J. E. Kammeyer, Prof. W. E. Grimes, Dean E. L. Holton, and Prof. Walter G. Ward.

COURSE OF POPULAR LECTURES ANNOUNCED

Will Be Given Each Monday, Wednesday, and Friday Afternoon During Summer Session

Summer school students will be privileged to attend a lecture course, starting June 15, which will give them, in the form of popular lectures, information on a large number of scientific and sociological subjects, Dean E. L. Holton announced today.

The lectures will be given at 4 o'clock on Monday, Wednesday, and Friday afternoons in room 26 of the chemistry building. They will be presented by members of the faculty. The schedule is as follows:

June—15, "Standardization in Industry," Dr. J. E. Kammeyer; 17, "Problems of Healthful Living," Dean Margaret M. Justin; 19, "Sound Resonance and Resonators," Prof. E. V. Floyd; 22, "A-B-C's of Nutrition," Prof. Martha Pittman; 24, "Thrill and National Development," Prof. T. J. Anderson; 26, "Alternating Current Rectifiers," Prof. W. R. Brackett; 29, "Some Observations from Six Years' Use of Intelligence Tests for Freshmen," Dr. J. C. Peterson.

July—1, "Principles of Clothing Selection," Prof. Lillian Baker; 3, "Fluorescence and Phosphorescence," Prof. J. O. Hamilton; 6, "A-B-C's of Art Principles," Prof. Louise Everhardy; 8, "Sunshine and Health," Prof. J. S. Hughes; 10, "Atomic Architecture," Prof. H. H. King; 13, "The Living Cell from the Chemical Point of View," Prof. J. S. Hughes; 15, "Liquid Air and Low Temperature Phenomena," Prof. J. M. Barstow; 20, "Some Factors in Kansas Weather," Prof. E. C. Converse; 22, "The A-B-C's of Statistics," Prof. W. H. Andrews; 24, "Levels of Intelligence of High School and College Students."

NO STADIUM ADDITION IN 1925

Corporation Reelects Officers—Hope to Pay Debts by January 1, 1926

All officers of the K. S. A. C. Memorial Stadium corporation were reelected at the annual meeting of the executive board last Friday afternoon. The officers are as follows:

H. H. King, president; H. W. Brewer, vice-president; J. V. Cortelyou, secretary; C. E. Floersch, treasurer.

One change was made in the personnel of the board, C. M. Breese replacing S. A. Bardwell as representative of the city of Manhattan. The board is now constituted as follows:

H. H. King, M. F. Ahearn, J. V. Cortelyou, representatives of the college faculty; J. T. Willard, R. A. Seaton, J. W. Berry, representatives of the alumni association; C. M. Breese, representative of the city of Manhattan; H. W. Brewer, representative of the chamber of commerce; C. E. Floersch, representative of the clearing house association.

Doctor Cortelyou will be gone during part of the summer on vacation and Dean Seaton will act during his absence as secretary of the corporation. Doctor Cortelyou announced last week that the corporation hopes to complete the seating decks of the Memorial Stadium by the fall of 1926. No new construction work will be entered upon during 1925. The indebtedness of the corporation at present is \$51,558.67. The board expects that this will be discharged by January 1, 1926 as pledges amounting to more than the indebtedness fall due within the period before that date. Pledges totaling \$21,535.87 have been made since March 1 this year.

NEW FUNDS FOR RESEARCH WORK

PURNELL ACT MAKES \$20,000 AVAILABLE JULY 1

Eventually \$90,000 Annually Will Be Given Each State Station—Plan Use of New Aid

The Kansas state experiment station will have \$20,000 additional funds available for use in July, under the provisions of the Purnell act, recently passed by congress.

\$90,000 in 1930

The maximum grant will be reached in 1920 when \$60,000 a year will be available. The station now receives \$30,000 a year aid under the provisions of the Hatch and Adams acts so that in 1930 and thereafter federal funds for the station will total \$90,000 per year.

The administration and the functioning of the Purnell act was discussed in St. Louis, April 22, when representatives from the land-grant colleges and experiment stations met with the officials of the department of agriculture.

Serve on Committees

Several committees created at that meeting have members of the college faculty as members. Dr. Margaret Justin, dean of the division of home economics, is a member of the committee on rural home management studies; Dr. W. E. Grimes, professor of agricultural economics, is on the committee on distribution and marketing; and Walter H. Burr, professor of economics, is on the committee on rural social organization studies. The functions of these committees are to draw up cooperative projects and organize work along these lines for the experiment stations of the United States.

KIMPORT IN A. A. U. MEET

Aggie Miller to Compete at Chicago Track Event Saturday

Ralph Kimport, Aggie Miller who broke the Missouri Valley indoor mile record at the Kansas City Athletic club meet, March 14, will run the mile at the Amateur Athletic union meet too be held on Stag field at Chicago, Friday and Saturday. Kimport's time at the K. C. A. C. meet was 4:25.8. Outstanding track men from the Big Ten, Missouri Valley, and other college conferences will be at the meet. Kimport will be the only Aggie athlete at the meet.

SUMMER ENROLMENT TO 900

Decrease Over Last Year's Figures Attributed to New Statute

Enrolment for the summer session has reached a total of 890, more than 100 less than that of the summer session in 1924.

The decline over last year's enrolment figures is attributed by summer school authorities to teacher certificate legislation enacted at the meeting of the legislature this year which abolished the one-year certificates granted here and at other schools at the completion of one term of summer school. The number of students in advanced courses has increased.

Train Camp Fire Guardians

A training school for Camp Fire guardians will be conducted in Manhattan July 7 to 14, it was announced by Miss Frances Knerr, local executive. The training school will be open to anyone over sixteen years of age who is interested in the work. A definite course will not be announced by Miss Knerr until she is able to get a list of the requirements from national headquarters.

A CLINICAL NOTE

Here's a good test for determining whether one's basal metabolism is correct, how one's interstitial glands are functioning, and whether or not one's blood pressure is as the chart says it should be:

Insert the correct word—"fortunate" or "unfortunate"—in the blank below after reading Dr. V. L. Strickland's discovery that "Ninety per cent of college students come from the upper 11 per cent of the population."

America!

J. F. H.

I love a college serenade,
It fills me with delight
To know that though my days are dull,
There's music in the night.

"Jessie," I said to my room mate this morning, while she straightened up her half of the room, "did you hear the beautiful serenade last night?"

"The what?"

"The beautiful serenade the Lappa Mups gave. I think summer school will be just lovely if we can listen to the lilting melody of a college serenade once in a while. 'I love the flowers, the birds, the bees, because they all love you!'"

"Huh?"

"That tune haunts me. Didn't you just want to rush out and get close to the music?"

"I could hardly restrain myself.

Does this sock with the hole in belong to you?"

"I suppose so. That sad, mournful tune, the 'Copenhagen Blues,' made me think of old Venice, and a black gondola, and a dark, dreamy-eyed, soft-voiced gondolier, all lit up—"

"Not the dreamy-eyed gondolier!"

"With moonbeams, reflected from a Venetian canal. Can't you just feel the sweet romance of it?"

"Fairly drips with sweet romance. Like being awakened at 3 o'clock in the morning by some young fellow with adenoids who wants to tell the world that 'all the little birdies go tweet, tweet, when his sugar walks down the street.' Romance!"

"You're not appreciative. Music hath charms—"

"Who said anything about music? I'm talking about the romance of having a gang of students camp around your so-called sleeping porch in the dead of night, and publicly announce that they've got the Down Town Blues their naughty sweetie gave 'em and they're all alone by the telephone waiting patiently for her each day because she's just a flower from an old bouquet. Romance!—It's a crime!"

Seldom is Jessie so moved, and I knew, by the wild way she made the bed, dashing the pillows across the room and barely missing me both times, that she was greatly perturbed.

"And then, when they are sure your night's sleep is ruined, they have the nerve to leave you with the soothing sentiment that they will see you in their dreams! I—"

"Jessie, you are unduly agitated. Put on your other shoe, and let's go."

"I'll put on my other shoe when we get down stairs. It's on the lawn."

"Why, how—"

"Fell out of the window last night when I got up to listen to the serenaders. Come on."

FIELD DAY OPEN TO STUDENTS

Attendance of 800 Farmers Expected by Agronomy Department

Summer school students are extended a cordial invitation to attend the annual Agronomy field day, Saturday, June 13, at the Agronomy

farm, by R. I. Throckmorton, head of the agronomy department. One of the features of the day will be an auto tour of the college campus and farm and the town, arranged in cooperation with the Manhattan chamber of commerce.

A picnic lunch will commence the day's program. After the luncheon short talks will be given by President F. D. Farrell, J. C. Mohler, secretary of the state department of agriculture, and Professor Throckmorton. A field trip over the farm to inspect the crops and the experiments, which will be explained by members of the agronomy department, will occupy the major part of the afternoon. Women visitors will meet with the specialists of the home economics extension division under the direction of Miss Amy Kelly for an interesting afternoon program.

"Present indications point to an attendance of about 800, mostly from the eastern counties of the state. This promises to be the largest field day held by the department," stated Professor Throckmorton.

PLAN TWO NEW BUILDINGS

No Date Set for Contract Letting on Dormitory or Library

Plans are in preparation by the department of architecture here and by the state architect's office at Topeka for the new library building and the girls' dormitory building which were authorized by the last legislature.

Eve., 10-50

No date has been set, however, for letting of the contract for either building, and it is doubtful if ground will be broken for either before fall.

The amount appropriated for building part of the proposed library structure was \$250,000. The funds available for the girls' dormitory are \$200,000. Tentative locations for the two buildings have been made. The girls' dormitory will be in the northeast corner section of the campus, and the library will be in the space to the north of Denison hall and to the south of Waters hall.

Suggestions concerning equipment and construction of the library build-

ing were obtained by Grace E. Derby, assistant librarian, during a recent tour of inspection of college and university libraries in middle western states. Miss Derby visited the libraries at Iowa State college, the University of Minnesota, the University of Michigan, and the University of Illinois.

"Deep down in her heart every woman knows that there are points of resemblance between her husband and Andy Gump," chortles the Rooks County Record. Hm. Well, there's Minerva Gump, too. But let's not start anything.

ANNUAL CLUB ROUND-UP ATTENDANCE OVER 700

Labette County Boys and Girls Take
Trophy for Largest Attendance—
Health Winner Named

Labette county, represented by 82 boys and girls, won the attendance contest of the 1925 4-H club round-up held at the college last week. The winning county was represented by only seven 4-H club members last year. The club candle lighting ceremony conducted at Wild Cat creek Friday evening concluded the week's meeting.

R. W. Morrish, state club leader, announced the winners of the various contests at the annual banquet, held Thursday evening. An extensive program, presented principally by the boys and girls, followed the announcement.

Lincoln county placed first in the model 4-H club meeting contest. The stunt presented by Kingman county was given first place by R. A. Turner, who acted as judge. Montgomery county's poultry clinic team placed first in the agricultural demonstration contests. The Mitchell county clothing team was first in the home economics demonstration.

Miss Rebecca Mason of Wakefield will have a free trip to the national 4-H club meeting in Chicago in December by virtue of being the state 4-H club health champion with a score of 99.7 per cent.

The week was given over to instructional classes in animal husbandry, poultry husbandry, dairying, crops, farm management, foods, clothing, household management, and health. Demonstrations, team contests, club leaders' meetings, athletic contests, games, and a picnic occupied most of the time.

R. A. Turner of the United States department of agriculture; G. A. Rogers, president of the Kansas State Bankers' association; and President F. D. Farrell of the college were the principal speakers of the week.

The roundup enrolment for the week went over the 700 mark as against the 396 of the previous year. The first week in June will be the annual meeting date, the club leaders decided at their annual meeting Friday evening.

BANKERS, COLLEGE COOPERATE

Projects to Be Sponsored in Each
Farm Community of State

During a series of district conferences, held recently, a statewide agricultural program was outlined by the Kansas State Bankers' association. The program will be carried out in cooperation with the extension division of K. S. A. C. and every banker in the state will have an active part.

In each county bankers will meet

with county agents, farm bureau presidents, and bankers of the county who attended the district meetings last week to get information about the program. Each local banker may select not more than two of the following seven projects to sponsor in his community:

Encouraging the development of cow testing association work.

Prevention of worms in hogs.

Promote boys' and girls' club work.

Encourage the production of alfalfa, sweet clover, and soybeans.

Encourage sound methods of dairy production.

Help to present the distribution of inferior livestock and livestock remedies.

Encourage the wide use of the radio for securing reliable agricultural information.

H. Umberger, state director of extension service, believes this movement of the Kansas Bankers' association will be one of the greatest contributions to the progress of Kansas agriculture.

The value of modern farming methods is to be demonstrated by local farmers. When the project work is completed, meetings at which results will be demonstrated will be held in each community.

And Here We Thought Students the Lowest Form of Animal Life!

The results of a two hour intelligence test form a better test of ability to do college work than a four year high school record as reported by high schools.

That is one of the conclusions reached by Prof. V. L. Strickland of the K. S. A. C. department of education and incorporated in a thesis, "Relative Levels of Intelligence in High School and College." Professor Strickland prepared the thesis in working for a doctor of philosophy degree which he received last Saturday from the University of Nebraska.

Other interesting points brought out in Doctor Strickland's paper:

Ninety-nine per cent of high school seniors come from the upper 50 per cent of the population in intelligence.

Ninety per cent of college students come from the upper 11 per cent of the population.

Nearly two-thirds of those entering college are eliminated by the beginning of the fourth year.

About half of the students entering colleges do not do satisfactory work in the regular college courses.

Dainty As a June Garden

That fine-spun web of pure silk in Humming Bird Hose which looks delicate and fragile as a flower petal, has a power of endurance you'd little suspect.

Humming Bird silk is of the highest obtainable quality, imported "raw" from Japan and spun into thread in our own mills. No metallic "loading" is added. The silk is pure dyed. Reinforced to stand the stresses of your many outdoor activities.

Humming Birds may be had in all the dreamy tints that blend with the filmy frocks of summer. A fresh shipment of the newest shades just received. Come in and treat yourself to several pairs.

COLLECTION OF INSECTS GROWS

DEPARTMENT OF ENTOMOLOGY ADDS STEADILY TO SPECIMENS

Will Eventually Be Complete Collection of Kansas Insect Species—Alumnus to Aid

Dating from 1879, and containing contributions from many faculty members, students, and alumni of the department, the insect collection of the college entomology department is becoming what it eventually is to be—a collection of all known species of Kansas insects.

At present the collection, which is not in the Fairchild hall museum, but in room 64 of the building, fills 600 Schmitt boxes, the standard insect collection boxes. Duplicate insects and undetermined material occupy the equivalent of at least 50 more Schmitt boxes.

Popenoe Started Collection

The first contributions to the collection were made by Prof. A. E. Popenoe, head of the department of entomology from 1879 to 1908. In 1902 Prof. G. A. Dean, now head of the department, began adding to the collection. Probably more specimens in the collection were given by him than by any other contributor.

Many former students and alumni of the department have added specimens to the collection since it was first begun. During the past 10 years the chief contributions have been made by faculty members of the department. Chief among these have been Prof. J. W. McColloch, Dr. W. P. Hayes, and Dr. R. C. Smith. Student collections are watched closely and when any rare or unrepresented specimens are seen they are requested for the permanent collection.

Specialists Cooperate

The specimens in the various families are brought together as time permits, then sent to a specialist in that family for determination. About 30 specialists have cooperated in determining specimens. About half the collection remains yet to be thus determined.

"It is not the aim of the department now, at least," said Prof. R. C. Smith who for the past five years has been in charge of the collection, "to build up a world collection, or even one nationwide in its scope, but rather a state collection. This will be of greatest service in the preparation of the state lists of insects now in the course of preparation and most useful to the students and faculty in the department in research and teaching work. A special collection of about 100 life history mounts has been prepared for use in the course in entomology. These are also used on demonstration trips and for the exhibits during Farm and Home week and at the state fairs."

Knaus to Give Collection

Warren Knaus of McPherson, a graduate of the college with the class of 1882, has brought together perhaps the finest collection of coleoptera in the world. He now is arranging the specimens in boxes. It is his intention to present the collection to the college. The collection will fill more than 500 Schmitt boxes when it finally is arranged. Mr. Knaus has spent 40 years in making it.

CHURCHES PLAN SPECIAL PROGRAMS FOR STUDENTS

All Will Carry on Activities as During Winter Semester Periods

Heads of the young peoples' organizations of the Manhattan churches expect to carry on their programs during the summer session in much the same manner as during the winter and spring semesters of the college year, according to announcements made at the start of summer school.

Forum meetings of the Baptist Young Peoples' union will be held each Sunday evening at 7:30 o'clock. "Modern Incentives to Christian Living," and "Neglected Education" are two of the topics scheduled for discussion. A Sunday school class for

college students will meet at 10 o'clock each Sunday morning under the leadership of the Rev. W. P. Halbert, pastor of the Baptist church. Faculty men and women of the church will give a series of lectures on the church from the standpoint of its history, origin, function, and its social and industrial problems.

Charlotte Sparrowhawk, leader of young peoples' work for the Congregational church, has announced a series of discussion meetings of the Christian Endeavor society, meeting at 7 o'clock each Sunday evening. A social hour is held before each meeting of the society. A special class under the leadership of Dr. W. F. Slade, pastor of the church, will meet each Sunday morning at 11:30 o'clock.

The Rev. B. A. Rogers, student pastor of the Methodist church, and Mrs. Rogers will hold open house for

college students at their home again Sunday. Several hikes for students attending the Methodist church are planned. The Epworth league and Sunday school program for students will be carried on as during the winter semesters.

The Christian, Presbyterian, and other churches also are maintaining special student work in the young peoples' societies, the church schools, and the regular congregational meetings during the summer school.

A good sales point in selling airplanes to the rural population has evidently been overlooked. Our evidence is taken from the Howard Courant which believes that "when the farmer boys all get to buying Henryford airplanes, watermelon stealing is going to become quite dangerous."

Important sources of iron in foods are the green vegetables, the fruits, the whole seeds, and the yolk of egg.

The number of milk borne epidemics has decreased every year during the past decade.

THE KANSAS STATE COLLEGIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, THURSDAY, JUNE 18, 1925

68

"ONE IN 134" IS SIGNIFICANT

STUDENT TO POPULATION RATIO MEANS MUCH TO STATE

It Indicates Higher Standards of Social Conditions, Farrell Declares in Assembly Talk

"One in 134," the subject on which President F. D. Farrell spoke in assembly Wednesday morning, is significant because it expresses the one to 134 ratio between college students and other Kansans. This ranks Kansas with the first eight states of the union in the proportion of people receiving higher education and is a figure of which every Kansan should be proud. Tennessee, the state ranking lowest in this educational proportion, has a ratio of one to 604.

Ratio Is Narrowing

"Four years ago Kansas had one student in college for every 151 persons in the state and it is quite probable that the present ratio of one to 134 will be still further reduced as there is a general tendency for it to become narrower, at least in the western part of the United States. Last year there were over 100,000 students in the grade schools of the state and about 75,000 in the 600 high schools," said President Farrell.

"The number of students attending college in comparison with the population of a state is indicative of the kind of laws, the kind of institutions established, and in general the kind of lives its people live," he stated.

"There seems to be no end to the benefits conferred upon civilization by people whose minds and spirits have been stimulated by college training."

Heighten Social Standards

President Farrell pointed out that it is an established fact that social conditions are of a higher standard in communities where a large number of the residents have attended college.

"The majority of college students of this state attend one of the five state schools. There is a variety of special training emphasized in these schools although each somewhat overlaps the scope of the other. Each school, however, contributes materially to the wide-spread benefits suggested by the ratio one to 134," he explained.

"K. S. A. C. is concerned chiefly with the teaching of science as it may be applied to industry, agriculture, and to life, although instruction in many lines outside this phase is given. A concentrated effort is being made to give students the training which will make it possible really to establish themselves in life.

"K. U. gives specialized training in arts and pays more attention to the development of the urban rather than of the rural life. The other three schools give special training for those who expect to go out as teachers."

College Cost, \$2 per Capita

Kansas has appropriated \$3,800,000 for the maintenance of the five state schools for next year. This total seems like an immense amount of money President Farrell pointed out, but it is relatively small in comparison with value received. This appropriation means only \$2 per capita to support these great institutions of learning.

He also said, "The people of Kansas spend more than \$3,000,000 every 36 days for chewing gum, movie tickets, and tobacco, exclusive of cigarettes. This makes a total of \$40,000,000 spent annually for these luxuries, in comparison with \$4,000,000 for the colleges.

"If there is anything the people of Kansas and the world in general should realize it is the fact that interest in college training is increasing

and that beneficial changes are taking place. College education is here to stay because it is too good an investment for the individual and for the state to be discontinued."

Dean Justin at Conference

Dr. Margaret M. Justin, dean of the home economics division, left Manhattan last Friday for Denver, Col., to attend the national conference of social workers.

COUNT ILYA TOLSTOY TO LECTURE HERE JUNE 23

Son of Famous Russian Writer Will Talk in Assembly and at Afternoon Meeting Tuesday

Count Ilya Tolstoy, son of Leo Tolstoy, famous Russian writer and philosopher, will give two lectures here next Tuesday, June 23, it was announced at the office of Dean Holton early this week.

Count Tolstoy will appear at the regular student assembly Tuesday morning, giving his lecture, "The Tragedy of Russia," and also will speak at 4 o'clock in the afternoon in the auditorium on "Reminiscences of Russian Country Life 50 Years Ago."

The younger Tolstoy is famous in his own right, being widely known as a lecturer and writer. His interpretations of his native country and of the Christian philosophy of his father have produced profound interest wherever he has appeared.

FORTY TAKE SHORT COURSES

Vocational Agriculture Teachers Spend Week in Training Work

More than 40 of the vocational agriculture teachers who attended the annual vocational education conference during the first week of school stayed over for the short courses which were given last week.

Morning classes in poultry housing and care, butchering and curing meat, feeding and care of sheep, and orchard management were offered. In the afternoon shop courses in metal work, rope work, harness repair, and building were given.

The conference closed Saturday noon, the teachers attending the agronomy field day program Saturday afternoon.

TEACH CAMP FIRE LEADERS

Training School to Be Held Here July 7 to 14—Fee \$1

A national training course for Camp Fire guardians will be given here July 7 to 14 under the direction of Miss Ada Billings and Miss Frances Knerr, local executives. Two sessions are planned for each day, one to be given in the afternoon and a duplicate session in the evening. This is done for the convenience of college people and business girls who wish to enroll in the course. The course will include the scope and aim of the Camp Fire program, its adaptability, methods of work, its symbolism, its programs, and activities. A registration fee of \$1 will be asked to cover necessary expenses. Inquiries concerning registration in the course may be sent to Miss Knerr at the community house.

Camp for Rural Women

The first camp for rural women held in Kansas was supervised by Miss Edith Holmberg of the extension division of K. S. A. C. This camp was held at the Y. M. C. A. camp in Rice county last week. It was the first concerted effort to arrange a camp for the instruction and pleasure of the rural women of the state. The mornings were spent in studying birds and flowers and the afternoons in sewing and reading and other forms of entertainment. About 50 women spent last week at the camp.

WANDERLUST HITS K. S. A. C. PROFS

NINE MEMBERS OF FACULTY TRAVEL IN EUROPE NOW

Many Go Away to Study for Advanced Degrees—Several Are Teaching in Other Schools

Travel, study, and teaching are the summer occupations most favored by members of the faculty who are not teaching here during the summer session, a little bit of sleuthing on the part of a Collegian reporter has ascertained.

The reporter found that nine members of the faculty, Helen Rushfeldt and Helen Elcock of the department of English; M. F. Ahearn of the department of physical education and his family; Eric Englund of the department of agricultural economics, and Amy Jane Leazenby Englund of the department of food economics and nutrition; Araminta Holman of the department of applied art; H. T. Hill of the department of public speaking; Lois Wildy, Y. W. C. A. secretary; and F. A. Kleinschmidt of the department of architecture, are traveling for study in Europe.

Many Are Studying

A large number are studying for advanced degrees at universities and colleges in this country, while others are teaching at other universities and colleges than K. S. A. C.

An incomplete list of the summer addresses and occupations of faculty members is as follows:

Department of mathematics—W. H. Lyons, Chicago university; Thirza A. Mossman, home, Madison, Nebr.; C. Knepper, home, Marengo, Iowa; Ina Holroyd, home, Manhattan; W. T. Stratton, home, Manhattan.

Department of modern languages—J. V. Cortelyou, trip to California points; Mary Brownell, traveling in the east; Edna Willman, Long Beach, Cal.

Department of English—Helen Rushfeldt and Helen Elcock, traveling in Norway, France, and England; Clara Bogue, teaching, Hays normal; Nellie Aberle, home, Manhattan; Anna Sturmer, teaching, Nebraska university.

Botanists Do Research

Department of botany—W. E. Davis, research work, Thompson institute, Yonkers, N. Y.; F. C. Gates, research work, Michigan biological station; Dorothy Cashen, Colorado university; E. C. Miller, research on thesis, K. S. A. C.

Department of music—Ruth Scott, Cosmopolitan School of Music, Chicago; O. I. Gruber, San Francisco, studying music under W. B. Hubbard; Clarice Painter, Boston, studying music; William Illingworth, band leader, Fort Snelling, Minn.; Suzanne Pasmore, en tour with Pasmore Trio.

Department of chemistry—Stella Harriss, Chicago university; Esther Bruner, Chicago university; R. M. Wampler, Chicago university; M. E. Lash, home, Columbus, Ohio; J. E. Sellers, Colorado university; O. N. Masengale, home, Opelika, Ala.; L. F. Marcy, home, Evansville, Ind.; Glen Joseph, Illinois university; R. W. Van Winkle, home, Manhattan; G. D. Palmer, home, Little Rock, Ark.

Department of physics—Madalyn Avery, home, Wakefield; E. R. Lyon, home, Manhattan; L. W. Hartel, home, Minden, Mo.; E. J. Chapin, Michigan university; G. E. Raburn, Michigan university.

Department of zoology—Mary T. Harman, research and teaching at Puget Sound, Wash., biological station.

Ahearn Tours Europe

Department of physical education—M. F. Ahearn, traveling in Europe; Ruth Morris, Wisconsin university; Geneva Watson, Wisconsin university.

Department of agricultural economics—Eric Englund, traveling in Europe. Department of applied art—Araminta Holman, studying, Frank Alvah Parsons School of Fine and Applied Arts, Paris, France.

Department of clothing and textiles—Ina Cowles, home, Lawrence; Florence Clarke, home, Olympia, Wash.; Mary Polson, teaching, Colorado university; Emma Fecht, home, Kansas City, Kan.

Department of household economics

—Amy Jane Leazenby Englund, traveling in Europe.

Department of food economics and nutrition—Pearle Ruby, teaching, Colorado university; Martha Kramer, teaching, Nebraska university.

Department of veterinary medicine and surgery—John Bullard, home, Pottstown, Pa.

Department of mechanical engineering—P. A. Willis, home, Cincinnati, Ohio; B. B. Brainard, home, Chicago; J. P. Calderwood, educational conferences, Chicago.

Department of machine design—W. B. Harford, home, Columbus, Ohio; F. A. Smutz, home, Manhattan.

Department of architecture—F. A. Kleinschmidt, studying at Fontainebleau, France; J. T. Helm, commercial interior decoration work, Syracuse, N. Y.

Department of electrical engineering—L. H. Church, home, Winona, Minn.; R. M. Kerchner, Westinghouse Electric company, Pittsburgh, Pa.; R. G. Kloefler, home, Manhattan.

KNOW-COLLEGE TOURS ARE SCHEDULED FOR JULY 10-13

Prof. A. P. Davidson Again in Charge of Arrangements—About 250 Made Trips Last Year

The second annual "Know Your College" tour will be conducted on the afternoons of Friday, July 10, and Monday, July 13, A. P. Davidson, professor in the department of education, who will have charge of the trips, has announced.

The tours are planned primarily for the summer school students and people from out of town. The tour the first day will be devoted to the college campus, while on July 13 the various college farms will be visited.

Last year when the tour was made for the first time about 250 people attended.

EDUCATORS TO MEET HERE

County Superintendents to Hold Annual Session July 14, 15, 16

The annual meeting of the County Superintendents' association will be held here July 14, 15, and 16. About 100 superintendents are expected to attend.

The meetings, which will be in charge of State Superintendent Jess Miley, will be held in recreation center of Anderson hall at the college.

Tuesday evening, July 14, Superintendent Miley will give an address and President F. D. Farrell will give an address of welcome. The entire program will be broadcast from Station KSAC. A speech also will be broadcast from Station KFKU to be received here.

The remainder of the time will be devoted to a program of general discussions of problems to be met in the superintendent's work.

Aggies Plan Haskell Stadium

Prof. L. E. Conrad, head of the department of civil engineering; Prof. C. H. Scholer, head of the department of applied mechanics; and Prof. Paul Weigel, head of the department of architecture, are handling the plans for the new stadium at Haskell institute, Lawrence. Professor Conrad and Professor Scholer directed the designing of the K. S. A. C. Memorial stadium. The contracts for the Haskell stadium are to be let early in August.

County Agents Here in October

October 19 to 24 have been fixed as the dates for the annual conference of county agricultural agents and home demonstration agents held each year at the college. Sixty-three Kansas counties now have or will have by the time of the conference farm bureau organizations which employ farm advisors. All of these advisors will attend the conference here. Speakers at the conference will include several specialists from the United States department of agriculture.

SUMMER LECTURE COURSE STARTED

DOCTOR KAMMEYER AND DEAN JUSTIN FIRST SPEAKERS

Dean Justin Points Out What Constitutes Health and Gives Hints on How to Attain It

Campaigns of the United States department of commerce for simplification of production processes through standardized designs were described and reasons for these drives were pointed out by Dr. J. E. Kammeyer, head of the department of economics, last Monday afternoon in the first lecture of the series to be given on Mondays, Wednesdays, and Fridays.

"Why use labor, capital, and natural resources necessary to produce 2,752 varieties of hammers and axes," inquired Doctor Kammeyer, "when 761 standardized tools of this kind would even better satisfy the needs, if not the whims of the consumer?"

"Simplification of this kind," he declared, "would mean a surprisingly large gain in conservation of labor, capital, and resources. Prices to the distributor and consumer could be reduced and funds released for the purchase of other utilities that minister to man's comforts and needs."

What Constitutes Health

Eighty-five per cent of the school children of Manhattan need medical attention to correct defects if a survey recently made among 71 pupils in the city schools is a reliable indication, Dean Margaret M. Justin of the division of home economics stated in the second lecture of the series, "Problems of Healthful Living," which was given yesterday afternoon.

Dean Justin pointed out that people generally need a clearer conception of what really constitutes health. A well built body should show, she said, strong, even teeth closing well, with no cavities; eyes clear and bright, no puffiness under the eyes; clear skin; good color in cheeks, lips, eyelids, and ear lobes; even shoulders and flat shoulder blades; deep, broad chest; straight back; flat abdomen; firm muscles; and sufficient, firm, subcutaneous tissue; straight legs; normal size of knees and ankles; strong foot arches; good posture; anterior-posterior foot position.

Budget for Health

"The key to the problem of healthful living," asserted Dean Justin, "lies in budgeting ourselves within the limitations of our health by taking an inventory of our abilities and our defects and trying to increase the former and decrease the latter."

The speaker pointed out that the healthy person will have a sound, sane mental attitude, a rational food habit, and good health habits generally—the proper amount of sleep and good care of the teeth and person.

Tomorrow Prof. E. V. Floyd of the physics department will give the third lecture of the series, "Sound Resonance and Resonators." Next Monday's talk will be by Prof. Martha Pittman of the department of food economics and nutrition who will speak on "A-B-C's of Nutrition," and on Wednesday Prof. T. J. Anderson of the department of economics will discuss "Thrifty and National Development."

Kimport Places at Chicago

Ralph Kimport, Aggie miler, took fifth place in the N. I. A. A. meet mile run at Stagg field, Chicago, last Saturday, June 13. Reese, of Texas university, took first place in the mile run, his time being 4:18 4-5. Leland Stanford university won most points in the meet. Kimport was the only Aggie track man to enter the meet.

THURSDAY, JUNE 18, 1925

WISE TOURISTS

Agricultural history in the making may be read in the broad scroll of the agronomy farm fields, as those who participated in the Agronomy Field day tour last Saturday can testify. The visitor to the farm can obtain, if he be ordinarily observant, a hint of what crops varieties will be grown in Kansas fields as the best producers within the next decade or two. Unless the visitor is without vision and without understanding he cannot avoid getting an inkling of the life story of the many new varieties being grown there.

Summer school students who do not know the scientific background of modern agriculture nor its fascinating story will have the opportunity of becoming acquainted with them on the "Know Your College" tours which will be made next month under the direction of Prof. A. P. Davidson.

Nor is the chance to visit the agronomy farm and to become familiar with the significant work on agricultural development being done there the only reason for taking part in the "Know Your College" tours. As interesting and as useful as the experiment station section of the tour will be the visits to the subject matter departments on the campus proper.

It's a wise man that knows his own school.

POND GETS DOWN TO EARTH

Little Lake Replaces Cooling Tank at Engineering Building

The water cooling system for the steam power plant at the engineering building has come down to earth. Tuesday the new cooling pond which replaces the old cooling system on the roof of the engineering building was put into operation. The old system proved unsatisfactory because of evaporation losses and roof leaks.

The new pond is 60 by 70 feet. It is equipped with a new type of spray nozzle supplied with strainers to keep trash and foreign substances out of the condensers.

TELLS HOW TO BUILD ON FARM

New Bulletin Gives Information on Rural Architecture

"Farm Buildings for Kansas," a new extension bulletin of the college, was off the press last week and now is ready for distribution.

About five years ago the extension division specialists saw the need of plans to be used in new construction work on Kansas farms. Members of the department of agricultural engineering faculty and of the rural engineering department in the extension division studied the problem and evolved a set of standard plans and specifications for farm buildings.

The bulletin, which was compiled by Prof. Walter G. Ward, rural

architect, is the culmination of this work. The plans which have been worked out can be obtained from the rural engineering department at low cost. Sample plans also are on file in the offices of county agents and at many lumber yards.

That the plans are of use to the farmer is shown by the fact that, on the average, three plans a day are sent out and that they were used in the construction of some 1,000 buildings last year.

Principal Hansen's Pupils Are Dumbest on Hill, He Admits

The college continuation school, with W. N. Hansen as its principal, has been in operation since last fall. This school according to Mr. Hansen continues its course of instruction the year around, with a fluctuating enrolment, which includes undergraduates, instructors, professors, and, mayhap, a dean or two.

The charm of this school, Mr. Hansen claims, lies in elasticity and freedom of movement, and lack of elaborate and expensive equipment. All the equipment needed is a few printed blanks, a stubby pencil and string, the latter two being picked up at random on the campus. Mr. Hansen moves from one point of the campus to another as the need arises for instructional work. However most of the time is spent in front of Anderson and Kedzie halls and on the "plaza" in front of the engineering building.

When asked what the course was called, the principal believed that, "How and where to park motor cars on the campus," would be a proper title. Students in this course are unable to read, have no memories, and do not seem to make any effort to improve these two defects, Principal Hansen admits.

"Students and instructors leave their 'Lizzies' in front of the 'no parking' signs or in the middle of the road.

"They are no worse than some of the professors who leave their Rolls-Royces parked in front of Anderson hall although they have been assigned a parking stall," the chief of campus police complained to a Collegian reporter.

"No greater trials and tribulations has any man," concluded the educator of delinquent motor car parkers as he tied another tag on some student's "bearcat."

REMODEL GREENHOUSES

New Benches and Watering System Being Installed This Summer

New concrete benches, a new watering system using the sub-irrigation method, and equipment for soil sterilization are being installed in the college greenhouses this summer. General repairs also are being made in the greenhouses.

Construction has not yet been begun on the new greenhouses for which an appropriation of \$10,000 was made at the last meeting of the legislature.

Seven hundred pounds of tomatoes of the Louisiana Red variety will be produced at the greenhouses this summer to provide a supply of seed for next season. This variety has been found well adapted to Kansas, being particularly resistant to wilt.

RAZE HOUSE WHICH HAS SEEN COLLEGE'S GROWTH

Old Howard Home on Fairchild Avenue Demolished to Make Place for Fraternity House

Shadows of frontier days—ghosts of pioneers, ox-teams, Indians, slaves—lurk in the ancient walls of the old stone residence at Fifteenth street and Fairchild avenue, now being torn down to make way for a K. S. A. C. fraternity house.

Its history dates back almost to the days of John Brown, and the Kansas-Nebraska bill, and it has of course watched the college grow from infancy. Part of the addition to the original house is made of cut stone taken from the old Bluemont college building, and the lumber for the window frames, secured from the same building, had been hauled by ox-team overland from Westport, (now Kansas City) and fashioned by hand.

The Bluemont college structure was built by the Methodist Episcopal church on the College Hill location in 1859. The college remained in the old building for a number of years, then was moved to what is now farm machinery hall. For a time then the structure was used as a rooming house, but was finally abandoned and subsequently torn down. Its materials were used to construct the addition on the How-

ard home, as the house now being torn down was known.

A flat arch which has been preserved in the house and which ornamented the main entrance door of the old college hall, is to be put in the new Methodist church as a memorial. Some of the stone also will be used. No plans for disposition of the ancient window frames, however, have been made.

The fraternity house which supplants the old structure is to be

built for the Omega Tau Epsilon fraternity. J. F. Toburen is the contractor.

Phonographs for rent—Kipps.

Society Happenings

Mr. Ralph P. Van Zile of Chicago spent last week-end with his mother, Dean Mary Pierce Van Zile.

Miss Luella Corey of Leavenworth, a former member of the library staff, is here visiting Miss Grace Derby and Miss Beatrice Gates.

Miss Elizabeth Bressler sailed today for Europe. She expects to tour Europe, England, and Scotland this summer, returning to New York by September 5.

Misses Agnes Remick, Marjorie Fisher, and Grace Ratcliff expect to leave June 25 for Glacier National park in Montana where they will attend the fourteenth annual convention of the Delta Delta Delta sorority. At Denver, Col., they will join a group of Delta Delta Delta members, taking a special train for Montana. The party expects to return in three weeks by way of the Yellowstone park and Canada.

Dean Mary Pierce Van Zile is spending this week-end in Springdale, Ark., with her son, L. G. Van Zile.

Miss Dorothy Foster of Mount Vernon, Mo., and Mr. Glen Case of Alta Vista were married recently at Mount Vernon. Mr. Case graduated with the class of '23 and is a member of the Acacia fraternity.

Mrs. Lillian (O'Brien) Bucklee, f. s., Lawrence O'Brien, '14, and Mrs. O'Brien of Orange, N. J., are visiting here this week with Mr. and Mrs. William O'Brien.

The marriage of Miss Berenice Geraldine Elliott, f. s., and Mr. Ferdinand Volland, Jr., '25, of Topeka took place Wednesday, June 10, at the home of Mr. and Mrs. Elliot. Miss Alice Volland of Topeka, sister of the groom, was maid of honor and Mr. John Elliot, brother of the bride, was best man.

Miss Alice Nichols and Miss Jessie Atkins entertained Saturday afternoon with a matinee party for the members of Chi Omega and a few other guests.

A picnic supper was given at the agronomy farm Thursday evening when the losers of the bridge club entertained the winners. After the supper the evening was spent playing bridge. Hosts and hostesses were: Prof. and Mrs. H. H. Haymaker, Mr. and Mrs. Mont Green, Mrs. L. H. Limper, and Mrs. J. V. Cortel-you.

Mrs. Mary Pierce Van Zile entertained Monday evening at an informal bridge and shower honoring Miss Beatrice Gates who expects to leave soon for Pierre, S. D., where she will be married to Mr. Frank Shuttleworth in September.

Miss Sylvia Shields, Lost Springs, and Mr. Verne Clements, '24, Havensville, were married Tuesday night at the home of her parents, Mr. and Mrs. J. B. Shields.

Misses Ruth Rannels, Marie Coons, Marjorie Fisher, and Mrs. Maurice D. Lane entertained last Thursday with a picnic supper and miscellaneous shower in honor of Miss Geraldine Hull, '23, whose marriage took place Tuesday. The affair was given on the lawn of the Rannels home.

Mr. and Mrs. J. H. Engstrom announce the marriage of their daughter, Lois Evelyn, to Mr. William C.

Robinson, f. s., Saturday evening at the Engstrom home in Wichita.

Miss Alice Florence Stitzel of Raleigh, N. C., and Mr. David Deming Gray of Topeka were recently married at the home of the bride in Raleigh. Mr. Gray, a former instructor in the animal husbandry department, graduated from K. S. A. C. in 1915.

The marriage of Miss Laura Faye Russell, '25, and Mr. Alvin Ritts, '25, of Topeka took place Friday afternoon at the home of the bride's mother, Mrs. L. M. Russell.

The marriage of Miss Geraldine Hull, '23, to Mr. Wilbur Doane Cole, f. s., took place Tuesday at the home of the bride's parents, Mr. and Mrs. Bret Hull, Manhattan. Miss Esther Houston of Baldwin was maid of honor and Mr. Alfred Cole, best man.

Miss Grace Hesse entertained for a few friends Wednesday evening with a dancing party at the Country club.

P. D. K. GROUP PLANS SEMINAR

Education Fraternity to Hold Series of Meetings This Session

Phi Delta Kappa, men's professional fraternity in education, is planning to hold a meeting Thursday afternoon at 4 o'clock in education hall. This will be the first of a series of meetings which will be held this summer.

These meetings are planned to be of special help and interest to Phi Delta Kappa members who are high school teachers, principals, or superintendents.

Members from other chapters who are in summer school are urged to register with Professor Davidson so they may be notified of the various meetings.

Clothing Department Offers First Aid to One's Imagination

Let one imagine, if one is given to imagining, a Founding Father of the United States—the eminent James Madison, fourth president of his country—at an afternoon tea party in the Elysian Fields, or wherever the Founding Fathers are now holding their tea parties. And imagine that the eminent James is the only male person present. And that included with him in the list of guests are such personages as Elizabeth, the Virgin Queen of England, Marie Antoinette, the ill-fated spouse of the equally unlucky Louis XVI of France, Rebecca, the heroine of Sir Walter Scott's "Ivanhoe," and—tell it not in Gath—Madame du Pompadour. Oh, yes, and Dolly, James's good wife.

If one needs any assistance at visualizing the scene one may find aid in the department of clothing and textiles. The department has on display at its quarters on the second floor of the home economics building a collection of French dolls costumed with great fidelity to detail in the garbs of varying periods.

The costumes were made during the last semester by members of Miss Mary Polson's class in Clothing III as part of the research in history of dress. The historical personages for whom the dolls have been named in order to bring the period of costume represented more vividly to the attention of spectators, and the members of the class who acted as modistes for each are as follows:

James Madison, Genevieve Tracy; Dolly Madison, Grace Smith; Queen Elizabeth, Jessie Campbell; Marie of Burgundy, Inga Ross; Marie Antoinette, Mildred Nickles; Jeanne of Navarra, Mrs. Katherine

Hess; Marie de Medici, Margaret Avery; Rebecca, Leah Arnold; Mrs. Rutherford B. Hayes, Christie Hepler; Empress Eugenie, Lena Moore; Eleanor, wife of Henry III of England, Wilma Wentz; and Madame du Pompadour, Vida Holt.

The dolls will be taken to the state fairs as part of the K. S. A. C. exhibit next fall. During the summer session they will be on display in a show case placed in the hall on the second floor of the home economics building.

Maurice D. Laine, '22, and Elizabeth (Coons) Laine, '23, of Detroit,

Mich., are here visiting Mrs. Laine's parents, Mr. and Mrs. John Coons.

Dr. W. E. Grimes, head of the department of agricultural economics, will be the only outside speaker to appear on the program during the annual farmers' week at the Oklahoma Agricultural and Mechanical college, held during the week of August 4. He will deliver a series of lectures on agricultural economics subjects.

Another Aggie who will appear on the program is W. W. Fetrow, '20, associate professor of agricultural economics at the Oklahoma college.

MIXER AN ICE CREAM SOCIAL

DANCE DISPENSED WITH FOR FIRST ALL-SCHOOL PARTY

Student Pastors of Manhattan Churches Head Committees for June 26 Student Get-Together

"Backward, turn backward," has been adopted as the motto for the first "mixer" of the present summer school session. As a consequence, students and faculty members will take their places among the folks in history at an old-fashioned ice cream social next Friday evening, June 26.

Japanese Lanterns Too

The social will begin at 8 o'clock. It will be held on the campus, but the exact location has not yet been selected. The lawn will be hung with the approved Japanese lanterns without which no ice cream social can be legal. Entertainment will include a musical program, possibly—and here the traditions may be done some violence—folk dancing, and catch-as-catch-can conversation.

The Rev. W. U. Guerrant, student pastor of the Presbyterian church, is in charge of refreshments; Miss Charlotte Sparrowhawk, student secretary for the Congregational church, of entertainment; Mrs. Eusebia Thompson, student worker for the Christian church, of publicity; the Rev. B. A. Rogers, student pastor for the Methodist church, of decorations; and Miss Lois Wildy, Y. W. C. A. secretary, of invitations. Students will be appointed to serve under the direction of these members of the executive committee for the "mixer."

Departs from Custom

The ice cream social "mixer" is a departure from the custom of making the all-summer school parties dances. Further announcements, concerning the party will be made at assembly and in the Collegian next week.

MISS WILDY TO EUROPE

Y. W. C. A. Secretary Will Travel with "Friendship Pilgrimage" Party

Miss Lois Wildy, secretary of the Y. W. C. A. organization here, will be one of the two Kansas representatives with a party of 21 American student representatives which will sail June 27 on the liner Andania for

Europe on a "pilgrimage of friendship." The trip has been arranged and members of the party named by the Y. W. C. A. The other Kansas representative on tour is to be Nell Lorimer of Olathe, a graduate this year from the University of Kansas.

The pilgrimage is for the purpose of studying European youth movements and the student life in colleges and universities.

Members of the group wish to gain an insight in student thinking in Europe and to give the students there an idea of American student life.

The Y. W. C. A. has planned that the party visit at the universities of Oxford and Cambridge in England and meet with the leaders of the Dutch student movement while in Holland.

The tourists will also visit Berlin, Dresden, Munich, Prague, and Geneva. At Geneva they will attend the European student conference and some of the sessions of the council of the League of Nations while in Europe. The pilgrimage will be completed with a week's visit in France. The return voyage will start about September 1.

Their voyage will be made on the same ship with the members of the American seminar of which Dr. H. T. Hill of K. S. A. C. is a member. The "friendship pilgrims" will thus get the benefit of the series of lectures members of the seminar have planned to give during the voyage.

GO-TO-COLLEGE TEAMS REACH 15,531 YOUTHS

Five Teams Visit 60 High Schools During Past Spring

Five go-to-college teams of the college Y. M. C. A. visited 60 Kansas high schools, appearing before 15,531 high school pupils of whom 2,940 were seniors, according to the report of Dr. A. A. Holtz, Y. M. C. A. secretary, on the activities of the spring semester.

The territory covered this year was larger than that reached during 1924, and next year the Y. M. C. A. hopes to send teams to 80 or 90 high schools.

Two of the teams sent out this year presented one-act plays, under the direction of Lynn Fayman and Harold Sappenfield, respectively. Three were quartets presenting musical programs. Harry Wilson was in charge of the boys' quartet and Madge Rickey of the girls' quartet. Herbert Goering and Clarence Zeidler had charge of the gospel team quartet.

500 SEE CROPS "MELTING POT"

FIELD DAY CROWD BIG IN SPITE OF HEAVY ROADS

Visitors See "Immigrant" Crops in Process of "Naturalization"—Day Was a Success

About 500 people attended the first annual Agronomy Field day held last Saturday at the college farm. Before the program began ice cream and coffee was furnished by the college dairy and the cafeteria. A male quartette composed of business and professional men of Manhattan sang a few songs before President Farrell was introduced as the first speaker.

An Americanization project—that is the description of the experimental work at the Kansas experiment station and at other stations given by President Farrell of the college who addressed the visitors briefly. He pointed out that corn is the only purely native cereal grass plant grown in Kansas—that all the others have been brought in from other regions of the United States or from foreign countries, that they have been adapted and are being still further adapted to Kansas conditions by the work of the scientists connected with the experiment station.

See Varieties in Making

Prof. J. H. Parker, chief investigator in wheat varieties work, explained the tedious method by which wheat varieties are crossed, selections of the resulting hybrids made, and new varieties eventually developed. The visitors heard also his description of the potential value of various crosses—crosses made with the hope of developing a winter-hardy, disease-resistant, early maturing, wheat of high milling quality which will eventually be grown on Kansas farms and bring increased returns to Kansas farmers. They saw

tests of new alfalfa varieties in comparison with Kansas "common." They were conducted through the corn breeding plots and listened to Dr. A. N. Brunson tell how he has set out to create a yellow corn variety equal to the best white Kansas corns in hardiness, wide adaptation, and yield, and other corn varieties through the recombination of self pollinated lines of corn to produce hybrids and double hybrids which will be enough superior to ordinary varieties to justify the extra expense of producing the seed. They saw also dozens of plots where kafir varieties, oats varieties, and soy bean varieties are going into the experiment station "melting pot" to be recast into better and more useful members of the Kansas crops group.

Harvested by Hand

The visitors were then conducted through the crops improvement nursery.

The 1925 winter wheat nursery contains more than 6,000 separate rows, each of which was planted by hand and will be harvested and threshed and yields determined separately. The spring oats nursery contains about 3,500 rows which are handled in a similar manner.

Under the leadership of Prof. R. I.

Throckmorton the farmers were plotted through the soil fertility experiment plots which in the aggregate comprise one of the best and most extensive experiments of this type west of the Mississippi river. The project includes seven different cropping systems with a total of about 150 different treatments, comprising many combinations of the use of manure, green manure, lime, and commercial fertilizer.

The chinch bugs contributed to the success of the field day program by starting to "run" from oats plots to corn plots across the road about 3 o'clock in the afternoon and affording an opportunity to inspect the 100 per cent efficiency of the creosote-posthole barrier method of control.

For your summer school music, see Kipps.

Wanted—Student washing. 1001 Fremont.

Miss Penelope Burtis, who was graduated from K. S. A. C. in 1924, has returned from Columbia university where she is working for a master's degree for a month's visit with her parents before resuming her school work.

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, THURSDAY, JUNE 25, 1925

469

TWO TERMS OF SUMMER SCHOOL

SECOND SESSION WILL BE HELD IN AUGUST THIS YEAR

Four Courses Taught by Specialists, to Be Offered—Maximum Credit Allowed Will Be Four Hours

A second session of the summer school will be held this year for the first time in the history of the Kansas State Agricultural college. This special session will open on August 1 and close on August 30.

Four courses, taught by specialists in vocational education, will be offered in the August term, which is designed to meet the demand of school men and women for a full quarter's work during the summer.

Maximum Credit, Four Hours

Prof. C. V. Williams of the department of education here, and Prof. H. G. Parkinson, head of the department of rural education, Pennsylvania State college, will offer the courses. Each will give one course designed especially for teachers of vocational agriculture and one aimed to meet the needs of superintendents, high school principals, and high school teachers looking forward to graduate study in education. Professor Parkinson's courses are objectives in rural secondary education, and special teaching problems in vocational agriculture. Job analysis as applied in the field of curriculum construction, and rural community problems are the titles of the courses offered by Professor Williams.

Each of the four classes will meet two hours daily, and college credit of four hours will be given in each.

No student will be allowed to carry more than two courses with a maximum of four hours' credit for the term.

Matriculation Fee \$5

The matriculation fee will be \$5.

With the new arrangement a maximum of 13 hours of graduate credit can be acquired here during the three summer months. The announcement of the August session states that if the enrolment next month indicates a demand the second term of summer school in 1926 will offer a much more extended list of courses than the four to be given this year.

MODERN FEATURES FOR OLD-FASHIONED PARTY

Ice Cream Social Mixer Program Announced Yesterday, Includes Folk Dances So Old They're New

The "old-fashioned lawn party" for summer school students Friday evening of this week will have some modern features, it developed yesterday when the program was announced.

Paradoxical as it may seem, the modern features will be folk dances which are so old, in point of origin, that they are historical, not old-fashioned. The dances, part of the lawn party amusements, will be given by students in the women's division of the department of physical education.

The churches of Manhattan, through their college representatives, are assisting the Christian associations in making preparations for the party. The Rev. W. U. Guerrant, student pastor of the Presbyterian church, better known to most students as Bill, announced at assembly Tuesday that the "social" will be held on the campus, that ice cream will be served, that a good program will be given, and that illumination will be furnished by Japanese lanterns, not too thickly placed to prevent those who attend from having a good time.

Prof. Ira Pratt of the music de-

partment is to lead the crowd in community singing. Musical numbers will be selections by one of the Station KSAC quartets, and a vocal solo by Miss Creighton. Mrs. Gertrude Workman Quinn, a member of the Eurodelphian literary society, will give several readings.

Members of the student societies of the Presbyterian and Methodist churches are billed to present special stunts, the nature of which is not divulged.

"This will be the first affair held this semester for the summer school students," said Mrs. E. M. Thompson, publicity chairman for the executive committee. "It is hoped that each student will take advantage of this opportunity to become better acquainted with faculty members and with fellow students."

Mrs. H. O. Garvey Dead

Mrs. H. O. Garvey, prominent Kansas club woman and mother of Miss Annabel Garvey, instructor of English, died at her home in Topeka, Monday afternoon. During the World war, Mrs. Garvey was president of the Kansas State Federation of Women's clubs and at the time of her death was a member of the national organization of club war presidents.

REHEARSALS START FOR SUMMER SCHOOL PLAY

Cast Selected for "The Famous Mrs. Fair" After Tryouts Which Attracted Many Candidates

Rehearsals started this week for the summer school play, "The Famous Mrs. Fair," which will be presented in the college auditorium on Friday evening, July 17, by a student cast.

The play selected was an outstanding success of recent seasons in New York and on tour. It was written by James Forbes, author of "The Show Shop" and other successes of recent American stage history. Blanche Bates and Henry Miller played the leads in the first production of the play on the professional stage.

Helen Correll as Nancy Fair, J. G. Tustison as Jeffery Fair, Elliot Peterson as Alan Fair, and Claribel Grover as Peggy Gibbs have the leads in the presentation here. Other members of the cast are Kathryn Kimble, Sylvia Fair; Mary Ellen Collins, Nora; F. L. Kelley, E. Dudley Gillette; Mildred Michener, Angelica Brice; Marie Insley, Mrs. Wynn; Bessie Orr, Mrs. Brown; Ione Leith, Mrs. Perrin; Edith Collins, Mrs. Converse; Orpha Russell, Mrs. Wells.

The summer school play is the only extra curricular activity of the session. Interest in the tryouts at which members of the cast were selected was keen, and Prof. E. G. McDonald, dramatics coach, had a large list of aspirants from which to select his players.

WRITES BULLETIN ON TB

Dr. L. D. Bushnell Uses Data Secured in 40 Kansas Counties

Dr. L. D. Bushnell of the bacteriology department at the Kansas State Agricultural college is compiling a bulletin with data which has been obtained through recent investigations of tuberculosis. In Kansas, flocks infected with tuberculosis were found in 40 counties. Tuberculosis was first diagnosed in Kansas in 1908.

There are four distinct types of tubercular bacillus—human, bovine, avian, and porcine. Doctor Van Es of the University of Nebraska found in an examination of 209 slaughter houses 185 cases of avian tuberculosis, 11 mammalian, and 13 mixed cases. The avian tuberculosis is rarely ever transmitted to the human being. Of 1,290 men having tuberculosis, only three cases were caused by the avian bacillus.

FEED VISITORS AN ALL-KANSAS MEAL

ONLY COLLEGE PRODUCTS AT CONVENTION BANQUET

More Than 150 to Attend American Poultry Teachers' Meeting in August—Lippincott to Come

Only products from the college farms and greenhouses will be served at the banquet, Friday evening, August 14, given in honor of the visiting delegates to the seventeenth annual convention of the American Association of Instructors and Investigators in Poultry Husbandry to be held at the college August 12 to 15.

Trips will be made to the college poultry farm and to the local poultry packing plants. An auto tour will be made about the city and out to the Casement ranch. Thursday afternoon will be given over entirely to recreation at Fort Riley, where the visiting delegates will be entertained by the commanding officers.

Program Out July 1

The complete program will be ready for distribution about the first of July, according to an announcement of L. F. Payne, head of the department of poultry husbandry at the college, and secretary-treasurer of the association, who has charge of the program.

The program committee is using the slogan, "Kansas, surrounded by North America, where the sun spends the summer."

Professor Payne explained that when lines are drawn on a map diagonally from the four furthestmost points of the North American continent they intersect at Manhattan.

Other Departments Aid

The departments of chemistry, bacteriology, and zoology, as well as the department of poultry husbandry will aid in presenting the program. Each of the cooperating departments will have representatives on the speaking program for papers describing results and processes in research work now under way or recently completed. Exhibits displaying experimental results will be arranged.

W. A. Lippincott, former head of the department here and now with the University of California, agricultural branch, at Davis, Cal., will be among the convention delegates. He will preside as toastmaster at the convention banquet.

Preceding the convention there will be a two day conference of delegates from all states and of representatives from the United States department of agriculture to discuss standardization, accrediting, certification, and registration of poultry. Dr. M. A. Juul, chief poultryman of the department of agriculture, will preside at the conference.

International Head here

Many of the delegates to the convention will attend the national hatchery and baby chick convention in Kansas City on August 4 to 7 and will also make the trip to Leavenworth to visit one of the largest hatcheries in the country.

At least 125 delegates from outside the state and probably 25 from Kansas will attend the convention, advance notices to Professor Payne indicate. Edward Brown of England, president of the international association, is expected to attend the convention here in the interests of the international convention which will be held next year in Canada.

The department of industrial journalism is cooperating with the poultry department in publishing a daily convention bulletin in the form of a tabloid newspaper. The bulletin

will be issued each morning during the session.

Students who are in attendance at the second session of summer school are invited to attend any of the convention sessions which may prove interesting to them.

The convention here is the third to be held west of the Mississippi river. Officers of the association are B. F. Kaupp, Raleigh, N. C., president; Roy E. Jones, Storrs, Conn., first vice-president; L. E. Card, Urbana, Ill., second vice-president; L. F. Payne, Manhattan, secretary-treasurer.

WATERS IS SPEAKER AT SUMMER COMMENCEMENT

Exercises Will Be Held Either on July 31 or August 1—More Than 100 to Receive Degrees

Plans for the first summer school commencement that has ever been held at K. S. A. C. are now being made. Dr. H. J. Waters, editor of the Weekly Kansas City Star and former president of K. S. A. C., will give the address on this occasion. A definite date has not been set, but the exercises will be held either July 31 or August 1.

There are between 90 and 100 students to receive bachelor degrees and 17 candidates for master's degrees.

MERRILL'S SUCCESSOR NAMED

Dr. R. L. Parker, Cornell, Takes Place in Entomology Department

Dr. Ralph L. Parker of Cornell university has been appointed to fill the position in the department of entomology made vacant by the resignation of Dr. J. H. Merrill, associate professor of entomology and state apiarist.

Doctor Parker did his undergraduate work at the Rhode Island Agricultural college, specializing in horticulture. His graduate work was done at Brown university, Iowa State college, University College of Wales, and Cornell university, from which institutions he has received advanced degrees.

Doctor Parker, in his college work, will teach the classes in horticultural entomology, apiculture, and some of the graduate courses in entomology. In the agricultural experiment station he will have the fruit insect, garden insect, and honey bee investigations. As state apiarist of the Kansas entomological commission, he will be in charge of the apary inspection work for the control of bee diseases.

Doctor Parker and his family will arrive at Manhattan the latter part of August. He will take up work with the college and agricultural experiment station September 1.

During the summer Doctor Parker will be with the federal bureau of entomology, and will conduct investigations relative to the poisoning of honey bees by arsenicals dusted on the cotton crops in the south.

H. B. WALKER AT CONVENTION

Presides Over Meeting of A. S. A. E. in Madison, Wis., This Week

Professors H. B. Walker and W. G. Ward of the department of agricultural engineering left Sunday for Madison, Wis., to attend the nineteenth annual meeting of the American Society of Agricultural Engineers from June 22 to 25 inclusive.

Professor Walker is president of the society, and delivered the annual address on June 24. He presented a paper before the conference on the following day, the title of which was "Opportunities and Requirements for Cooperation." On Friday and Saturday, June 26 and 27, he will attend a rural electrification conference, representing the Kansas committee on the relation of electricity to agriculture.

GRADUATE STUDY ENROLMENT 130

EIGHTEEN EXPECT TO GET DEGREES THIS SUMMER

Twenty-Nine College and Universities Represented by Alumni Studying at K. S. A. C.

There are 130 students doing graduate study at K. S. A. C. in summer school. Ninety-four are graduate students, 32 are members of the faculty, and four are seniors. According to Dr. J. E. Ackert, chairman of the graduate council, this is the largest number of graduate students ever enrolled in summer school at the college.

Twenty-One Candidates

There are 29 colleges and universities represented by the 130 students enrolled in the graduate school.

Twelve are Kansas colleges, including all the teachers' colleges and several other colleges not state institutions.

A majority of the graduate students are teachers.

The following 18 students are candidates for master's degrees at the end of summer school:

Duke D. Brown, E. A. Cabacungan, Elmer Cheatum, A. P. Davidson, Morris Evans, Bernice Flemming, F. F. Guimaraes, Martin Fritz, D. C. Clark, Max Hoover, E. W. Larson, C. F. Lewis, E. S. Lyons, P. A. Miller, Elizabeth Moehlman, J. M. Moore, Lola B. Vincent, Lewis Earl Walker, F. H. Shreck, C. L. McColloch, and J. P. Willman.

Colleges Represented

Colleges and universities represented here in the graduate school are as follows:

Baker university, Baldwin; Bethany college, Lindsborg; College of Emporia, Emporia; Cornell college, Iowa; Cornell university, New York; Escola de Agronomia e Veterinaria de Petropolis, Brazil; Iowa State college; Kansas State Agricultural college; Kansas State Teachers' colleges of Hays, Emporia, and Pittsburg; McPherson college, McPherson; Michigan Agricultural college, Michigan; Miltonvale Wesleyan college, Miltonvale; Oklahoma A. and M. college; Ontario Agricultural college, Canada; Oregon Agricultural college; Ottawa university, Ottawa; Pennsylvania State college; Purdue university, Indiana; Southwestern college, Winfield; Sterling college, Sterling; University of Oklahoma; University of Arkansas; University of Missouri; University of Nebraska; University of Denver, Col.; University of Pennsylvania; Washburn college, Topeka.

Miss Ruth Blair, a graduate of K. S. A. C., was here visiting the college last week. Miss Blair has charge of the East Side high school cafeteria, St. Louis.

SUMMER LECTURE SCHEDULE

The schedule of lectures on the summer school series for the remainder of the term is as follows:

June—23, "Alternating Current Rectifiers," Prof. W. R. Brackett; 29, "Some Observations from Six Years' Use of Intelligence Tests for Freshmen," Dr. J. C. Peterson. July—1, "Principles of Clothing Selection," Prof. Lillian Baker; 3, "Fluorescence and Phosphorescence," Prof. J. O. Hamilton; 6, "A-B-C's of Art Principles," Prof. Louise Everhardy; 8, "Sunshine and Health," Prof. J. S. Hughes; 10, "Atomic Architecture," Prof. H. H. King; 13, "The Living Cell from the Chemical Point of View," Prof. J. S. Hughes; 15, "Liquid Air and Low Temperature Phenomena," Prof. J. M. Barstow; 20, "Some Factors in Kansas Weather," Prof. E. C. Converse; 22, "The A-B-C's of Statistics," Prof. W. H. Andrews; 24, "Levels of Intelligence of High School and College Students."

THE KANSAS STATE COLLEGIAN

The student newspaper of the Kansas State Agricultural college.

Published every Thursday of the Summer School term.

Entered as second class matter at the postoffice, Manhattan, Kan.

The editor-in-chief is responsible for the news and editorial policies; and the business manager for advertising and circulation.

THURSDAY, JUNE 25, 1925

KANSAS MEETS K. S. A. C.

Significant in the recent history of the college and its experiment stations are the heavy increases in attendance at demonstration meetings. At each of the big events of the spring season the unusually large crowds have been a source of gratification to the heads of the college and the station.

Starting with the Hays round-up where the largest crowd in years was present, and continuing through the schedule of spring meetings the report has been uniformly the same. At the Feeders' day convention people came from all sections of the state in such numbers that the food prepared with the expectation of having a surplus proved insufficient. The boys' and girls' club round-up drew double the attendance that event had in 1924. The agronomy farm field day brought more than 500 to the station over roads which were almost impassable.

These visits are indication of the fact that the friendship of Kansas farmers for K. S. A. C. is becoming more firm each year—that more and more of the men on the land are coming to recognize the value of the experimental work done here and at the branch stations. The friendliness of the state for its state college will continue to deepen as citizens of Kansas whose interests are furthered by the research done here continue to become acquainted with the college and its work at the farm convention gatherings.

OBSERVE DEFENSE DAY JULY 3

Students Will Be Registered at College Post Office

Observance of the defense day test ordered by the United States war department for July 4 will be held at the college and in Manhattan July 3. It will be confined to the registration of manpower of the community.

The registration at the college is under the direction of Lieutenant Riley McGarraugh of the department of military science. Blanks will be given out to students and faculty members at the college postoffice, should be filled out there, and deposited in the receptacle provided.

The information to be given by each registrant is name, age, previous military service, and information as to whether he now is a member of the national guard, the reserve officers' training corps, or the organized reserve of the United States army.

KEDZIE HOLDS CHAMPIONSHIP

Furnishes More Waste Paper Than Any Other College Building

Kedzie hall furnishes more than 50 per cent of the waste paper gathered and sold by the department of building and repair. A carload was sold last week, the accumulation

Bluemont Pavilion

Dances every Wednesday, Friday and Saturday evenings
Music by Sperry's Kansas City Orchestra

These dances are all chaperoned and are conducted and run in an orderly manner. Friday and Saturday nights are open to college students and are college chaperoned.

since the middle of February. The price, which varies from \$6.00 to \$11.00 a ton, is considered clear profit by the department, for no more labor is required to burn the paper than is sufficient to bale it.

The printing department furnishes more waste paper than any department on the campus. Anderson hall supplies a large amount in the direct-by-mail advertising that reaches the waste basket at the post office.

MUCH INTEREST IN SWIMMING

One Hundred Enrolled in Classes Although No Credit Is Given

Although no credit is given in summer school swimming classes there are about 100 girls enrolled.

Miss Myrna Smale has charge of the instruction in swimming. She has three classes every afternoon—from 2 until 3 o'clock. She has a class of children of faculty members from 3 to 4 o'clock, the beginning swimmers, and from 4 to 5 o'clock the class for advanced swimmers.

THIRTY AT GRADUATE FROLIC

Second Party for Graduate Students Announced for July 11

Last Saturday evening about 30 students and faculty members attended the Graduate club frolic. After a supper at the cafeteria they hiked to the big spring at Wild Cat.

Games were played until dark and then a short program was given. Miss Lucy Jewell gave a reading. Talks were given by L. F. Walker, Garden City; Benjamin Kappelman, Miltonvale; J. H. Borrer, Westphalia; and Miss Ruth Huff, Chickasaw, Okla.

A second graduate club party will be held on Saturday evening, July 11.

Gives Junior Recital

Lucile Evans, soprano, appeared in junior recital at the college auditorium Monday, June 22, at 4 o'clock.

Miss Evans presented the following program: Stizzoso, Mio Stizzoso, Pergolesi; Oh, Sleep, Why Dost Thou Leave Me (Semele) Handel; Mit einer Primula Veris, Grieg; Horch! Horch! die Lersch, Schubert; Du Bist die Ruh, Schubert; Pleading, Elgar; My True Love Hath My Heart, Cole; The Star, La Forge; The Nightingale Has a Lyre of Gold, Whelplay. Lavinia Waugh was Miss Evans' accompanist.

New Orchard Inspector Named

Leroy Gates, formerly assistant entomologist at the Nebraska experiment station, has been appointed inspector of orchards by the Kansas state entomological commission. Part of his work will be the study of the San Jose scale and dangerous tree insects. His headquarters will be here under the direction of the department of entomology.

First Get One for Sure, Formula of Squirrel Hunters

Four small boys, each carrying a pail of water, were running after a small brown animal that was streaking across that part of the campus known as the drill field. They were catching ground squirrels for the veterinary department and in return they were to get 10 cents per rodent.

The method employed by these boys as they stalked the fleeing ground squirrel is something new in the way of big game hunting.

"First," one of the boys explained, "you gotta' have one ground squirrel for sure."

The boys turned the squirrel that they "had for sure" loose on the drill field. The frightened animal immediately ran for a hole and the boys poured water down the hole until the squirrel came up for air, then the boys recaptured him, marked the hole with a piece of paper and turned him loose to find another hole.

After they had about a dozen holes marked they shoved the exhausted ground squirrel into a sack. Then they poured water into the other holes until a series of bubbles and a brown nose would announce that they had another captive.

INSPECT IRRIGATION PROJECTS

Farrell Member of Party—To Make Talk at Ohio Meeting Friday, June 26

President F. D. Farrell together with J. C. Mohler, secretary of the state board of agriculture, and a group of board members and officials spent the first three days of the week inspecting irrigation development in western Kansas.

The party started Sunday from Topeka, going first to Hutchinson to look over the irrigation project at the state reformatory and other projects between Hutchinson and Larned. Tuesday was spent in the country about Larned visiting irrigation plants in the Pawnee valley. On Wednesday the party went over the irrigated area about Garden City.

President Farrell left the party Wednesday to start for Wooster, Ohio, where he will speak Friday on "The Increase of Wants Among Farmers" at the annual field day of the Ohio agricultural experiment station.

NEW ENTOMOLOGIST NAMED

E. T. Jones Will Make Investigations in Garden Insect Control

E. T. Jones, a research entomologist with the American Cyanamid company of New York, is to be stationed at the college to investigate possibilities of using cyanide dusts in insect control work.

Mr. Jones's first investigations will be along the line of developing control methods for melon and cucumber aphids, blister beetles, on garden truck in western Kansas, and mites

infesting ornamental and fruit trees in other parts of the state. His research will be directed by the department of entomology of the college and will be started about July 1.

KNOWING TREES EASY NOW

Helder to Label All on Campus with Common and Scientific Names

In order that delegates to the poultry investigators' and instructors' convention here next month may familiarize themselves with Kansas vegetation, all the trees and shrubs on the campus will be labeled this month. Prof. A. H. Helder, landscape gardener of the horticulture department, has charge of the work. Plates bearing the common name and the scientific name of each tree or shrub will be affixed.

Professor Zahnley to Washington

Prof. J. W. Zahnley of the K. S. A. C. agronomy department left last week for Washington, D. C. Professor Zahnley will study the experimental tests of lawn and golf course grasses on the government experimental farm at Arlington, Va. He will inspect the seed laboratory in Washington as well as those of several mid-western states.

Speaks at Convention

Prof. M. C. Sewell of the agronomy department at the college returned recently from Ft. Collins, Col., where he attended a meeting of the great plains section of the Ameri-

can Society of Agronomy, in session from June 18 to 20. He was on the program and read a paper on the subject, "Recent Developments in Tillage Experiments at the Kansas Station." While on the trip, he visited the branch experiment station of the college at Colby.

Change in Lecture Schedule

A change has been made in the summer school lecture schedule. Prof. J. O. Hamilton will speak in C 26 Friday, June 26, on "Fluorescence and Phosphorescence" instead of Prof. W. R. Brackett on "Alternating Current Rectifiers." The latter will lecture July 3.

HOLTON TO N. E. A. MEETING

Will Represent Kansas Teachers in Indianapolis Conference

E. L. Holton, dean of the summer school, will represent the Kansas State Teachers' association at the conference of the National Education association in Indianapolis, Ind., June 28 to July 3. He will lead the discussions on teacher training in the land grant colleges.

Nellie M. Payne, '20, M. S. '21, of K. S. A. C., now a member of the University of Minnesota faculty, has been elected to membership in Sigma Xi, the national honorary society for scientific research.

Society Happenings

Because of the demand for college approved dances during the summer session, arrangements have been made with the manager of the Blue-mont pavilion to have a college chapter present on Friday and Saturday nights of each week. These will take the place of the regular varsity dances during the summer.

Miss Frances Buchanan, daughter of Mr. and Mrs. George M. Buchanan of Topeka and Mr. John Alfred Dear-dorf, f. s., of Overbrook were married Friday, June 19, at Grace cathedral in Topeka.

The marriage of Miss Gladys Nelson of Omaha, Nebr., and Mr. Andrew Wilcox, '20, of Allentown, Pa., took place Sunday, June 21, at the Lowman Methodist church, Topeka.

Mr. and Mrs. H. W. Hering of Stafford announce the marriage of their daughter, Olive, to Mr. Eugene Nelson, f. s., of Junction City, in Hutchinson Thursday, June 18. Miss Hering was graduated from K. S. A. C. with the class of 1924.

College faculty women this summer are furnishing their own entertainment. They have organized a bridge club at which they do not keep score and play without prizes. Enough members attend each Saturday evening to fill four tables. Miss Nora Dalbey and Miss Lillian Baker will entertain the bridge club this week at their home.

The Eurodelphian and Webster literary societies held a joint picnic at Pillsbury's crossing Saturday evening, June 20. About 50 active and alumni members were present.

Mr. and Mrs. A. W. Long entertained Friday evening, June 19, with a surprise birthday party for their daughter, Ruth.

Miss Gladys Stocker, f. s., and Mr. Orie L. Alcorn were united in marriage Tuesday, June 11, in Salina. Miss Stocker is a member of Pi Beta Phi.

The members of Delta Delta Delta entertained Thursday evening, June 18, with a picnic supper at the home of Miss Agnes Remick, 613 Houston street.

Announcement is made of the marriage of Miss Alice Florence Stitzel of Raleigh, N. C., to Mr. David Deming Gray, '15, of Topeka, which took place recently in Raleigh.

Miss Nora Yoder of Newton left Friday, June 19, for Bigwood Inn, Canada, where she will represent the local chapter of Pi Beta Phi at the national convention. The convention will be in session a week. Miss Helen Eakin and Miss Mary Adda Boone met Miss Yoder in Chicago and will also attend the convention.

Miss Vida B. English of Hoxie and Mr. A. C. Howard, '21, of Miami Beach, Fla., son of Mrs. Eva Howard of Manhattan, were married Friday, June 12, at Jacksonville, Fla.

Mrs. Rae (Frank) Burgwin, f. s., of St. Louis, Mo., is here visiting her parents, Mr. and Mrs. George Frank.

Miss Esther Bales and Miss Clarabel Grover entertained last Thursday evening at the home of Miss Bales with a bridge party for the town members of Kappa Kappa Gamma.

The marriage of Miss Jessie Do-

lores Atkins, f. s., to Mr. Richard Howard Allen, f. s., took place Wednesday morning, June 17, at the home of the bride's parents, Mr. and Mrs. Dudley Atkins. Mrs. Allen is a member of Chi Omega and Mr. Allen of Phi Delta Theta.

Miss Penelope Burtis entertained at dinner Wednesday evening at her home for the following guests: Mrs. Ellen Kimball, Miss Jessie Machir, Miss Mary Kimball, Miss Kitty Faulconer, and Miss Clara Ott.

The Alpha Delta Pi convention will be held at Rainier national park, Ore., the latter part of this month. Miss Madge Rickey will attend as a delegate from the local chapter. Others from the local chapter who will attend are Miss Grace Smith and Miss Myrna Pilley.

The marriage of Miss Josephine Cox, f. s., to Mr. Marvin V. Dungan of Electra, Tex., took place Tuesday, June 16, at the home of the bride's mother, Mrs. J. F. Cox, 723 Blue-mont.

Members of the Kappa Sigma fraternity entertained Sunday, June 21, with a swimming party on Deep creek.

Miss Miriam Dexter left Saturday, June 20, for Kansas City, where she joined a group from Kansas City and will go to Seattle, Wash., to attend a meeting of Theta Sigma Phi, women's national journalistic fraternity. Miss Dexter is a delegate from the Kansas state chapter.

SENIORS SUPPORT ASSOCIATION

Sixty-Six of Class of '25 Pledge Selves for Life Memberships

Sixty-six members of the class of 1925 pledged themselves to pay \$50 for life memberships in the alumni association, Ralph Foster, alumni secretary, reported recently. Mr. Foster reported also that 117 persons hold life memberships in the association and that pledges to pay life memberships have been made by 75 others.

Life membership dues in the association were \$20 until 1920 when they were increased to \$100. At the annual business meeting of the association on May 27 the life membership dues were lowered to \$50, and a sustaining membership at \$100 and an endowment membership at \$250 were created.

BOOST K. S. A. C. IN BELGIUM

Exhibit Sent to European Exposition by Home Economics Division

Home economics and the college as a whole will be advertised to the extent that 33 large posters can convey such information at the International Household exposition to be held at Heysel-Laeken, Belgium, from July 15 to August 15.

These posters were prepared in the division of home economics at the college and have been forwarded.

The posters describe the work in the four departments—clothing and textiles, household economics, food economics and nutrition, and applied art—of the division of home economics. There are also posters on interior decoration, design, health survey, and child health, and illustrations and pictures of buildings.

OPPORTUNITY SPECIAL TO THE KANSAS WHEAT BELT

Dates of Tour by Demonstration and Lecture Train July 20 to August 1 This Year

Between 40,000 and 50,000 farmers of the Kansas wheat belt will have brought home to them by talks and demonstrations five points essential to profitable wheat production during the last 12 days of July when a special Santa Fe system train, known as the Opportunity Special, will tour 35 of the principal wheat producing counties of the state.

The Opportunity Special will be piloted by Vada Watson, nationally famous as the "Kansas Wheat Girl." It will begin its tour on July 20. The schedule will be completed on August 1.

The train will carry three cars of exhibits dealing with every step in wheat production from seed selection to marketing, and a lecture car equipped with a public address system and a motion picture machine. Agronomy specialists from the college, J. Frank Jarrell, manager of the agricultural development department of the Santa Fe system, and H. M. Bainer, director of the Southwestern Wheat Improvement association, will be aboard the train to conduct the demonstrations and give the lectures.

Practically all towns on the route to be taken by the Opportunity Special will make the advent of the train the occasion of an all-day wheat festival. Parades, picnics, band concerts, baseball games, and other celebration attractions are planned by the various communities as trimmings for the solid educational food to be obtained by rural visitors from the Opportunity Special.

RADIO TO AID IN GIVING PROGRAM FOR EDUCATORS

Greetings to County Superintendents to Be Broadcast from KFKU

Radio will help county superintendents of the state discuss educational problems at their meeting here July 14, 15, and 16. Greetings to the educators will be broadcast from Station KFKU by Dean H. G. Ingraham

of the University of Kansas on the opening night of the conference. Clyde W. Coffman also will broadcast a speech on fire prevention. Mr. Coffman is state fire marshal.

Governor Ben S. Paulen and Chas. B. Griffith will speak the evening of the second day of the conference.

Mary Francis Murdock, art director in Arizona schools, will speak on "The Practical Drawing System" at the morning session of the third day.

"The Winston Primer," adoption of which by the state textbook commission is being contested in the courts, will receive attention at the superintendents' conference. Elizabeth Warning of Holton will speak on "The Winston Primer."

Among county superintendents who will speak at the conference are the following:

E. C. Mellick, Rawlins county; Anna Ebling, Doniphan county; L. E. Bush, Montgomery county; Oscar J. Lane, Douglas county; Lewis A. Martin, Wilson county; Dave Wallace, Shawnee county; O. C. Rickerd, Lyon county; Ida M. Grammer, Geary county; R. M. Crum, Sedgwick county; and Ada Smith, Atchison county.

POULTRY PRODUCERS STUDY DISEASE PREVENTION WORK

Hatchery Operators Will Return in August for Short Course

Twenty-five commercial chick hatchery operators of Kansas, who attended the meeting of the Kansas

Accredited Hatcheries' association at the college last Saturday, plan to return in August for a special short course given by the bacteriology department on methods of preventing the ravages of bacillary diarrhea in flocks. The discussion of control of this disease took up much of the time at the meeting last Saturday.

The hatchery operators present reported a boom in their business. The total capacity of incubators owned by the operators this year was 319,752 eggs. They reported that increases next year will bring the total capacity of their plants to 449,960 eggs, an increase of 71 per cent.

The association was organized in 1923 for the purpose of encouraging hatchery operators to place on the market chicks of higher quality.

Searson Assembly Speaker

Prof. J. W. Searson, formerly head of the English department at K. S. A. C., will speak in assembly July 11. Professor Searson now is a lecturer in the English department at the University of Nebraska and also is in the publishing business at Lincoln.

Greenhouse Construction Deferred

The greenhouses for which funds were appropriated by the last legislature will not be constructed until next year, when the entire sum of \$10,000 will be available.

REDUCE PLAY TO SCIENTIFIC BASIS

PSYCHOLOGY CLASS TAKES UP STUDY OF CHILDREN

Aim Is to Determine for What Ages Various Amusement Devices and Books Are Suited

The class in psychology of childhood and adolescence is reducing children's play to a science.

Summer students in this course will be divided into groups to make laboratory studies of children at play with various games and toys, in order to determine at what age the average child should derive the greatest pleasure and benefit from each. At the present time there is no guide for the prospective purchaser of toys and games, a condition which results in parents storing away large quantities of unsuitable children's amusement devices until some later time, according to P. P. Brainard, associate professor of education, under whose direction the class is conducting experiments.

Makers Give Samples

The children to be studied will include those from 5 years of age up to and including the 'teen age. They will have a large variety of toys and games to play with, for the manufacturers have furnished a large number of samples. Professor Brainard points out that the great difficulty manufacturers have at present is to designate the ages for which articles are best suited.

It is planned to put the results of these and other similar experiments into book form, in order to give a more definite idea to the manufacturer and the purchaser of what is best suited to children.

Will Use 1,000 Books

Children's stories will occupy the attention of another group of investigators. Large numbers of books that are supposed to be suitable for children but that are really more suited to high school students are published each year. From allowing children to read stories and from story telling, conclusions will be drawn concerning the books and the interest and understanding displayed by children of the various ages. Consideration will be given the mental attainment of the children in basing the results of this investigation.

Previous experiments have proved that many of the books supposed to be adapted to children of a certain age are too advanced to be thoroughly understood and enjoyed. A library of over a thousand books has been collected by Professor Brainard to use in this work.

Study Cheating Evil

Another group of students composed principally of high school teachers will conduct an investigation to determine so far as possible the cause or causes of cheating in high school examinations. A questionnaire will be sent to all summer school students who are teachers to get their experiences with this problem. Conclusions drawn from the answers will form a basis for making suggestions of remedies to combat the evil.

THIRTY ATTEND SPECIAL COURSE FOR COACHES

Hanley, Bachman, and Coursant Well Pleased with Enrolment in Three Weeks' Athletics School

The three weeks' special course for high school coaches which ended last Friday was more largely attended than had been expected by C. W. Bachman, head coach, C. W. Coursant, basketball and baseball coach, and Richard Hanley of Haskell Institute, who joined with Bachman and Coursant in offering the special course.

Enrolment in the classes of the courses totaled 30. Both high school and college coaches in Kansas and surrounding states were included in the list of those taking the work.

The coaches enrolled are as follows:

John Steiner, Macksville high

school; Ira Schindler, Jewell high school; Henry Karns, Osborne high school; M. S. Winter, Burlington high school; Arthur Stark, Manhattan high school; Everett Cowell, Sterling college; P. Philippi, Oskaloosa high school; L. B. Hefling, Council Grove high school; G. A. Reid, Sacred Heart academy, Manhattan; E. E. Colemar, Solomon high school; M. T. Burgett, Lewis high school; L. E. Austin, Milton high school; G. D. Penner, La Junta (Col.) high school; G. C. Omar, Goodland high school; G. W. Spring, Fredonia high school; Alvin Maddy, Utica high school; Harvey Roots, Wamego high school; Glen Aiken, Eskridge high school; L. R. Berner, Clifton high school; C. G. Noyce, Liberty (Nebr.) high school; B. P. Bowman, Stockton high school; John Gartner, A. I. Balzer, H. G. Webber, C. F. Hoelzel, M. B. Swartz, F. J. Ghormley, B. J. Miller, Glen Rixon, students.

4-H CLUBS MEET IN JUNE, 1926

Morrish Expects Enrolment of 1,000—Summer Camps Come Next

My 31 to June 5 have been fixed as the dates for the 1926 4-H club round-up at the college, R. W. Morrish, state club leader, announced recently. Mr. Morrish expects an attendance of more than 1,000 at the 1926 round-up. The enrolment in 1925 was 717, as compared with 392 in 1924.

The summer program of 4-H club work includes four county camps. The dates are as follows:

Leavenworth county, August 17, 18, and 19; Lincoln county, August 20, 21, 22, and 23; Labette county, August 24, 25, and 26; Kingman county, August 27, 28, and 29.

Hindu Student Leaves

Perushottam Yadeorao Deshmukh, a Hindu student who was enrolled at K. S. A. C. last semester as a special student in agriculture, left Manhattan June 21. He came to the United States to study and to observe the educational system.

Deshmukh will spend a month at the Hays experiment station then go to California where he is planning to study business administration at the University of California and attend the agricultural college at Davis, Cal. He will then return to India.

RESIST NOT EVIL TOLSTOY'S AXIOM

APPLIED, IT WOULD PREVENT WAR WAS HIS BELIEF

Son of Famous Russian Outlines Stages in His Development—Says Bolshevik Regime Is Doomed

Stages in the development of Leo Tolstoy's philosophy of love for all humanity were analyzed and the meaning of his father's message of passive resistance as a preventive of war was pointed out by Count Ilya Tolstoy, son of the famous Russian philosopher and writer, in his address at assembly Wednesday morning.

The first period of the elder Tolstoy's manhood, from 18 to 30 years of age, his son explained, was devoted to satisfaction of his desires for pleasure, although the beginnings of his search for a satisfactory philosophy of life were apparent in his diaries.

Came an Awakening

During the second period of Tolstoy's life, roughly between the ages of 30 and 50, his attention centered more and more on means of improving the general lot of man.

"Then the third and highest phase of the great author's life, beginning at the age of 50, was reached when the service of God became the motive power of his existence," said Count Tolstoy.

"During this period he was unhappy for a while as he had no theory which enabled him to answer the riddle of life, 'Why do I live?' 'And how ought I to live?' Finally he found the answers to these questions by observing the lives of the peasants and then he found God in his own heart.

Love His Message

"The substance of Christianity seemed to my father the inculcation of love, humility, self-denial, and the duty of returning good for evil. He believed that the sermon on the mount literally interpreted for the people the supreme law of the Christian life and the essence of it is in the sentence, 'Resist not evil.'

"And so my father leaves the mes-

sage of love and passive resistance to the world in order to keep out of wars," Count Tolstoy concluded.

In his lecture Tuesday afternoon Count Tolstoy analyzed the events of the revolution of 1917 and of the soviet regime in the light of his interpretation of the Russian peasant's character, and gave his conclusion that bolshevism in Russia is decadent—that "only the dead body remains to be removed."

He pointed out that the fatalistic conception of life held by the Russian peasantry will prevent any revolution but that the passive resistance of the peasants to the communists will eventually force the latter's regime to a close. When that time comes he hopes to see, he said, a democratic government, modeled after that of the United States of America—a United States of Russia.

Wants to Relinquish Job

The appointment of W. Pearl Martin, instructor in home nursing, of the extension division, as a member of the state board of examination and registration of nurses expires

July 1 and Miss Martin has asked that her name will not be considered for reappointment as her affiliation with the college makes it impossible for her to devote her time to this work.

Positions on this board are received by the appointment of the governor for a period of four years. Miss Martin was selected as a candidate for reappointment.

Miss Martin has been a member of this board for eight years and president of it for the past two years. No announcement has been made as to who will take her place.

Prowlers Rob Students and Faculty

Students rooming at 1124 Laramie street lost a considerable sum in cash and valuable jewelry last Thursday night when sneak thieves ransacked the house. On the same night faculty members living at the College club, 1116 Bluemont avenue, also were robbed of money and watches by prowlers.

THE KANSAS STATE COLLEGLIAN

VOL. XXXI

KANSAS STATE AGRICULTURAL COLLEGE, MANHATTAN, THURSDAY, JULY 2, 1925

KNOW K. S. A. C. TOURS ARRANGED

JULY 10 AND 13 DATES FOR CAMPUS EXPLORATION TRIPS

Prof. A. P. Davidson is Chief of Discovery Expeditions—Each Student to Get an Invitation

Prof. A. P. Davidson of the department of education, who is in charge of the annual know your college tours, will make college students, townspeople, and others acquainted with points of interest about the campus on Friday afternoon, July 10 and at the college farms on Monday, July 13.

Starting from Recreation center at 1:15 o'clock Friday afternoon, the party will visit 14 points of interest about the campus and on Monday afternoon the tourists, leaving Recreation center at 1 o'clock, will inspect the college farms. All departments on the itinerary will have special exhibits and lecturers will explain the work of each department.

"All college students are urged to take advantage of this opportunity to know what is being done at the college. Students are also urged to extend this invitation to all their friends and others that might be interested in seeing the college," said Professor Davidson.

"The committee urgently requests all those who intend to go on the tours, especially the trip to the farm, to send a note addressed 'College Tours' to the committee or telephone 607X, telling the transportation accommodations they will have. We must know how many to expect on the farm trip in order to provide a sufficient number of cars to care for everyone," continued Professor Davidson.

The schedule of campus visits is as follows: Entomology and zoology departments, applied arts department in Anderson hall, Station KSAC, Calvin hall, Engineering building, including the departments of architecture, electrical engineering, civil engineering, mechanical engineering, and agricultural engineering, materials laboratory, power and heating plant, and all the shops; the nutrition barn, where will be seen the work being done with the ultra-violet ray, veterinary hospital, dairy barns and the dairy, animal husbandry department, including the abattoir, flour mill, crops and soils experiments laboratories, horticultural department, college greenhouses, rock gardens, and perennial flower gardens.

On Monday afternoon the visitors will go to the animal husbandry barns where the prize winning livestock, experiments in carlot feeding, and animals used in genetics experiments will be on exhibition. At the agronomy farm a complete tour, such as was made on agronomy field day, will be taken. The work of thinning, spraying, and cultivating the various fruits will be explained on the visit to the horticultural farm.

Work that the poultry department is doing in breeding, egg production, and standardization will be features of the visit there.

Professor Davidson said, "Few people realize that the college has a campus of 160 acres and more than 1,300 acres of farm land. The land in the college farms is now valued at \$340,600."

All students attending summer school will receive this week personal invitations, an explanation of the tours and a return card to send in if they plan to make the trip.

Last year about 250 people took advantage of these tours.

The marriage of Miss Willisene Pilant of Wellington to Mr. Harry W. Hoyer of Marysville, June 18, was announced recently. They are both former students of K. S. A. C.

Aggie Wins Essay Prize

Roy O. Pence, a graduate from the college with the class of 1924, and now a miller for the Goodlander Milling company at Fort Scott, Kan., was one of the winners in an essay contest conducted recently by the Millers' Review and Dixie Miller. His subject was "Purification in Milling." The award was a \$100 Elgin watch.

Alumni Picnic on Labor Day

The annual picnic for K. S. A. C. alumni living in Manhattan and vicinity will be held this year on Labor day, Monday, September 7, it was decided at a recent meeting of several local alumni. Arrangements for the picnic are in charge of a committee composed of W. E. Grimes, H. Umberger, Mrs. R. J. Barnett, R. L. Foster, and C. A. Scott.

Test Pumping Equipment

Dean R. A. Seaton, Prof. C. E. Reed, Prof. M. A. Durland, and other instructors in the Engineering division recently made efficiency tests on the college pumping plant, located in the northeast corner of the campus. This was the first time that the plant has been tested since it was installed last fall. A representative of the Fairbanks-Morse company helped with the tests. The company guarantees an overall efficiency of 57 per cent.

JACOB LUND RETIRES FROM ACTIVE WORK AT COLLEGE

Superintendent of Heat and Power Plant Gives Up Work—G. R. Pauling Appointed

Jacob Lund, superintendent of the college heat and power plant, for 31 years an official of the college, has been retired at his own request. Advancing age and ill health are given as the reasons for his retirement. Mr. Lund was retired on half pay in recognition of his long service to the college.

Mr. Lund's duties, combined with those of the custodian department and the building and repairs, will be consolidated in a new department, known as the department of maintenance, with G. R. Pauling as superintendent. Mr. Pauling has been superintendent of the building and repairs and the custodian departments since 1919.

At the 1925 commencement Mr. Lund was one of eight faculty members awarded medals for having been in the service of the college for 25 years or more.

Mr. Lund was born in Schleswig in Southern Denmark 68 years ago. At the age of 16 he came to this country, arriving here in 1872. He went first to Indiana where he worked on a farm, remaining in that state for five years. In 1879 he came to Kansas, coming first to Wabunsee county, and in 1880 he entered the college as a student, having come to Manhattan on the last day of December, 1879.

He received the degree of bachelor of science from the college in 1883 and the master's degree in 1884. In 1886 he was made steam fitter and instructor in blacksmithing at the college. From 1886 until 1893 he was away from the college, holding various positions in the engineering industry. In '86 and '87 he was machinist in the Santa Fe shops, Topeka, and from '91 to '92 was engineer for the Capital Iron Works, Topeka. In 1893 he returned to the college where he was made steam fitter and fireman. He was made superintendent of the heat and power plant in 1914.

Mr. Lund is a member of the National Association of Stationary Engineers and of the Society for the Promotion of Engineering Education.

New Brunswick Records—Kipps.

BUDGET FOR NEW YEAR \$1,327,000

THIS SUM MAINTAINS SCHOOL. PAYS SALARIES OF 554

Amount Available for Building This Year \$230,000—Similar Amount Appropriated for 1925-26

In the budget of the Kansas State Agricultural college for the fiscal year beginning July 1, 1925, the amount allotted for salaries, maintenance, and improvement amounts to \$1,346,925. This sum pays the salaries of the 429 members, including extension workers, of the college faculty, and of the 125 stenographers, herdsmen, and laborers regularly employed by the college; provides for the maintenance of the various departments; and for the maintenance and improvement of the buildings and roads on the campus.

For Salaries, \$918,850

The salary allowance is \$918,850. Funds for maintenance of departments amount to \$363,075, and the improvement and repair budget is \$65,000.

The total amount appropriated from state funds for the college and the experiment stations during 1925-26 is approximately \$1,500,000. This sum is augmented by receipts from sales of products of the farms and shops and by appropriations from the federal government which, combined, total approximately \$200,000.

Building Funds Split

Of the state funds provided for 1925-26, \$125,000 is appropriated for the beginning of construction on a new building to house the college library, \$100,000 is to be used in construction of a new dormitory for women, and \$5,000 is to be employed in building a new greenhouse. Similar amounts were appropriated at the last meeting of the state legislature for expenditure on construction of these buildings during the fiscal year beginning July 1, 1926.

WANTS COMPEL BETTER FARMING

DESIRE FOR MORE THINGS MAKES FARMER DO BETTER JOB

Farrell Says Increase of Wants Among Farmers Should Be Welcomed Rather Than Deplored

Increases in the number and the cost of things which the farmer wants are forcing the development of improved methods of agricultural production and marketing in the United States, President F. D. Farrell pointed out in his address at the Ohio experiment station Field day in Wooster, Ohio, last Friday.

Simple Life No More

"During the past 25 years," said President Farrell, "there has been a marked increase in the wants of the American people. This has been particularly noticeable in the American farmer. Farm life no longer is simple. The farmer now wants a motor car, a radio receiving set, a modern home, high school education and frequently college education for his children, magazines, daily newspapers, electric light and power, movies, motor travel, and many other expensive things which he formerly did without. Most of these things, if used in moderation, are desirable. The fact that the farmer wants them is an excellent indication in most respects.

"But we must remember that, if we are to satisfy increased wants, we must increase our earning power proportionately. Generally speaking,

American farmers have not done this, although there are thousands of exceptions.

Three Ways to Aid

"The earning power of farming can be increased in many ways. One important way is to reduce waste. This can be done by lessening the losses from diseases of plants and animals, from the depredations of insects, and from unwise investments. Another way is to reduce the cost of producing and marketing farm products by adopting improved farm practices and better marketing methods. A third is to make increased use of the power of wise co-operation in the conduct of farm enterprises. All of these methods of increasing the earning power of farming require increased use of practical science and of efficient machinery. The use of these things always has been an important factor in enabling people to satisfy increased wants.

"We should welcome rather than deplore the increase of wants among farmers. For while it causes temporary disturbances in our economic and social arrangements, in the long run it will force us to improve our efficiency in utilizing our resources of time, land, labor, equipment, and capital. It actually is forcing rapid improvement now. It will stimulate us more and more to use our heads and to depend less on unaided hands and the obsolete methods of our easily satisfied ancestors."

NEW BOARD ASSUMES CONTROL OF SCHOOLS

Nine Regents Replace Board of Administration as Governors of Kansas State Colleges

Beginning Wednesday, July 1, the Kansas State Agricultural college and other colleges and universities of the state come under the administration of the new board of regents appointed at the last meeting of the state legislature.

The members of the board, nine in number, have been meeting with the board of administration since their appointment in April and are conversant with conditions in the five state schools which they will govern.

The board of administration will continue to exercise supervision over the state penal and charitable institutions. Members of this board are salaried. Members of the new board of regents are paid only on a per diem basis for time consumed in meetings.

W. Y. Morgan, Hutchinson, is chairman of the board of regents. Other members are Earl W. Evans, Wichita; Mrs. Mae Fitzpatrick, Sallanta; Carroll Merriam, Topeka; George H. Hodges, Olathe; Charles M. Spencer, Sedan; W. J. Tod, Maple Hill; C. M. Harger, Abilene; Bert Culp, Beloit.

STATION KSAC IS SILENT

Will Start Regular Programs Again on September 14

Station KSAC signed off Monday until September 14. There will be a special program on July 14 when the county superintendents' convention meets. Programs have been given three times a week since the close of the regular school year.

The broadcasting this summer has been very successful according to Sam Pickard who has charge of the programs. The question box was an especially popular feature. About 20 questions a day were answered by radio and the spoken answer was supplemented by a letter. People all over the state and from several neighboring states took this opportunity of solving their problems. Most of the questions were practical problems submitted by farmers, a smaller number coming from the cities.

RADIO WILL NOT OUST MINISTER

ONLY HE CAN PERFORM MANY FUNCTIONS OF RELIGION

Burr Believes Probable Destiny of Radio in Religion Is Carrying Leaders' Messages

The probable place of radio in the realm of religious activity is pointed out by Prof. Walter Burr of the department of sociology in the June 18 number of the Pacific Christian Advocate. Professor Burr draws his conclusions from information obtained last winter when for a month he was in charge of a Sunday evening religious program broadcast from Station KSAC and when he received communications from more than 50 ministers in rural churches concerning the value of the radio as a supplement to the minister's activities in the rural community.

Cannot Touch All Phases

Professor Burr cites examples both of enthusiastic approval and of unqualified disapproval of the use of radio to add to the programs of regular services in country churches. He concludes that "there are certain very important phases of the rural church program which can never be touched by radio." One of these is the presence of the personality of the minister.

"The radio can scarcely solemnize a marriage ceremony," he points out. "It cannot pray with the dying or comfort the bereaved, or conduct a funeral service. The minister still visits in the homes, conducts the forum, and the prayer meeting, directs religious education, and acts as an executive in church organization and administration. None of these can be done by radio."

On the other hand, Professor Burr believes that it is entirely possible that the radio will be utilized by church bodies to send out messages from great leaders directly to congregations "assembled in 10,000 churches throughout the land."

To Carry Leaders' Words

"It may be," he writes, "after the days of experimentation are over in which the church has to ask others for the use of sending stations, we will find great centers of religious truth with their towers extending high into the air as did formerly the church spire. It may be that from them such leaders as Bishop McConnell, Dr. Parks Cadman, and other leaders in their various church bodies will speak messages from time to time directly to the people assembled in 10,000 churches throughout the land. It may be that the directors of great world mission efforts will occasionally bring messages by word of mouth to their constituency in the regular services of churches throughout the Christian world.

"In politics and business and education such things are already happening. Local leaders in these lines greatly aid in assembling the people to hear such radio messages and encourage those who cannot come to a common meeting place to join the 'invisible throng' in their homes."

Japanese Prints on Display

Prof. Paul Weigel, head of the department of architecture, has his collection of old Japanese prints on display in the department on the third floor of the engineering building. Some of the prints date from the eighteenth century. The students of the department also have on display sketches, plans and other work. The department is open to visitors at any time.

Miss Evelyn Colburn, f. s., left Tuesday, June 30, for Rochester, Minn., where she will be student dietitian at the St. Francis hospital during July and August.

THURSDAY, JULY 2, 1925

WELL, WHAT OF IT

Once the forte of the uneducated class, the Bowery element, slang is now chiefly in circulation among college students and boys and girls of similar ilk.

The slang map has changed, so we read. We do not protest nor do we hear other protests so it must be so.

And if it is true is it to be deplored? If a person has a superiority complex why not describe him as being "ritzy"? Suppose it takes two and one-half seconds to say superiority complex (with the proper enunciation) and one second to say "ritzy."

If a person lives to be 93 years old he will, by using the word "ritzy," have saved 132 hours and 6 minutes or 16 and one-half 8-hour days, which, to a college graduate, would mean (or should mean) a minimum gain of \$273.90. And this is based upon the conservative estimate of having used the word only 10 times daily during one's life time!

Surely then the shifting of the sands of slang to the college campus is not to be deplored, but rather to be welcomed as a means of increasing our American efficiency.—A. C. N.

VIOLET RAY FOR ANIMALS

College Veterinary Department Inaugurates New Treatment

In cooperation with Dr. J. S. Hughes of the chemistry department, the department of surgery and medicine of the veterinary division is using ultra-violet radiation in the treatment of animals at the veterinary hospital.

The air cooled ultra-violet ray machine is used to treat skin diseases, mange, eczema, ring worm, and also to reduce pus formation and to stimulate healing of wounds.

This new treatment has been used in human medicine, according to Dr. E. J. Frick, in charge of the free clinic at the veterinary hospital, and the field is now being opened for alleviation of disease in animals.

Bluemont Pavilion

Dances every Wednesday, Friday and Saturday evenings

Music by Sperry's Kansas City Orchestra

These dances are all chaperoned and are conducted and run in an orderly manner. Friday and Saturday nights are open to college students and are college chaperoned.

Mr. and Mrs. Van Hoosier announce the marriage of their daughter, Margaret, to Mr. James Norwood Tobias, f. s., Thursday, June 25.

Miss Nina Mae Starry of Louisville and Mr. Dorsey L. Deniston of Manhattan were united in marriage June 27. Mr. Deniston is a graduate of K. S. A. C. and a member of Kappa Sigma.

Mr. and Mrs. C. E. Rugh of Abilene announce the marriage of their daughter, Gretchen, to Mr. William Baily of Washington, D. C., Sunday, June 28. Miss Rugh is a graduate of K. S. A. C. and a member of the local Kappa Kappa Gamma chapter.

Miss Elizabeth Davis, assistant librarian, left Tuesday, June 30, for Seattle, Wash., to attend a meeting of the American Library association. After the meeting, she will go to points in Alaska on a several weeks' trip.

Miss Beatrice Gates, who has been private secretary to Dean Mary P. Van Zile, the past two years, left today for her home at Pierre, S. D., where her marriage to Mr. Frank Shuttleworth will take place this fall. The vacancy left by Miss Gates' resignation will be filled by Miss Katherine Knittle.

Washington county students met at the home of Mrs. W. E. Haukenberry, 911 North Eleventh street, Saturday evening, June 27. Out of the 30 students from that county in summer school, 26 were present. The evening was spent in singing and playing games. They are planning on having another party and a hike before summer school closes.

Name Stickney's Successor
Captain Bowen, who has been stationed at Fairmount college, Wichita, Kan., will take the place at the college of Captain R. C. Stickney, who was transferred to active service in Alaska. Captain Bowen will not report for duty at the college until after the Citizens' Military Training camp at Fort Leavenworth, where he will be stationed during July, is closed August 1.

PARKER TO STUDY ABROAD

Plant Breeder Given Fellowship from Rockefeller Foundation

John H. Parker, professor in the department of agronomy, and supervisor of the work in plant breeding at the Kansas experiment station, has been awarded a fellowship in agriculture by the international educational board of the Rockefeller foundation. The appointment becomes effective October 1 when Professor Parker is to begin his work at Cambridge university, England. The fellowship is for one year.

Professor Parker is to be given the privilege of working in the laboratory with Prof. R. H. Griffen, one of the leading British authorities on plant breeding. His being placed under Griffen as well as his appointment itself are recognitions of the outstanding work he has done here in plant breeding.

Professor Parker has been at K. S. A. C. since 1917. He holds degrees from the University of Minnesota and Cornell university and has done research with the United States department of agriculture bureau of cereal investigations.

Mrs. Parker and the two Parker children will accompany Professor Parker to England. The family will leave about September 1.

VALLEY SCHOOLS QUIT ROUND ROBIN SYSTEM

Twelve Conference Games on Schedule of Each Basketball Team for Next Year's Play

The double round robin system of basketball schedule which has been used for the past four years in the Missouri valley conference this year was abandoned by vote of the conference faculty representatives at the annual meeting in Norman, Okla., early in June.

Under the new schedule system decided upon each conference team will play a double round robin schedule with six other conference teams each year, thus meeting each other conference team at least one in two years. Thus, 12 games are scheduled within the conference each year. As the limit of games to be played in any one season is 18, each school may schedule six games independently of the set conference card of games.

The K. S. A. C. schedule for the 1926 season is as follows:

January 14—Kansas U. at Manhattan.
January 16—Grinnell at Manhattan.
February 5—Missouri at Columbia.
February 6—Washington at St. Louis.
February 9—Nebraska at Manhattan.
February 13—Ames at Manhattan.
February 16—Nebraska at Lincoln.
February 19—Washington at Manhattan.
February 20—Missouri at Manhattan.
March 1—Kansas U. at Lawrence.
March 4—Ames at Ames.
March 5—Grinnell at Grinnell.
